<b>Rating Agencies</b>	In general, European regulated investors are restricted from using a rating for regulatory purposes if such rating is not issued by a credit rating agency established in the European Union and registered under

Regulation (EC) No 1060/2009 of the European Parliament and of the Council of 16 September 2009 on credit rating agencies (the "**CRA Regulation**"). Each of DBRS Ratings Limited ("**DBRS**") and Fitch Ratings Limited ("**Fitch**" and, together with DBRS, the "**Rating Agencies**") is a credit rating agency established and operating in the European Union and registered under the CRA Regulation.

**Ratings** Each credit rating assigned to the Notes reflects the relevant Rating Agency's assessment only of the likelihood of payment of scheduled interest and principal to Noteholders by the Series 2020-1 Final Redemption Date and may not reflect the potential impact of all risks related to the transaction structure, the other risk factors listed in this Prospectus, or any other factors that may affect the value of the Notes. These ratings are based on the Rating Agencies' determination of, *inter alia*, the value of the Receivables, the reliability of the payments on the Receivables and the availability of credit enhancement and liquidity.

The ratings do not address the following:

- (i) the likelihood that the principal on the Notes will be redeemed or paid, as expected, on the Series 2020-1 Scheduled Redemption Date, the Class A1 Scheduled Redemption Date, the Class A2 Scheduled Redemption Date or the Class A3 Scheduled Redemption Date, as applicable;
- (ii) the possibility of the imposition of United Kingdom or any other withholding tax;
- (iii) the marketability of the Notes, or any market price for the Notes; or
- (iv) whether an investment in the Notes is a suitable investment.

The ratings assigned by DBRS address the risk of default, being the risk that the Issuer will fail to satisfy its financial obligations relating to the Notes in accordance with the terms under which the Notes have been issued.

Ratings will be assigned to the Notes as set out above on or before the Series 2020-1 Closing Date. The assignment of ratings to the Notes is not a recommendation to invest in the Notes. Any credit rating assigned to the Notes may be revised or withdrawn at any time.

**Listing** This document comprises a prospectus (the "**Prospectus**"), for the purpose of Regulation (EU) 2017/1129 (the "**Prospectus Regulation**"). An application has been made to the Financial Conduct Authority (the "**FCA**") as competent authority under the Prospectus Regulation in order for the Prospectus to be approved.

The FCA only approves this Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Such approval should not be considered as an endorsement of the Issuer that is the subject of this Prospectus or an endorsement of the quality of the Notes that are the subject of this Prospectus and investors should make their own assessment as to the suitability of investing in the Notes.

Applications have been made for the Notes to be admitted to listing on the official list of the FCA (the "**Official List**") and to trading on the main market of the London Stock Exchange plc (the "**Main Market**"). The Main Market is a regulated market for the purposes of Directive 2014/65/EC.

This Prospectus is not a prospectus for the purposes of Section 12(a)(2) of the Securities Act or any other provision of or rule under the Securities Act.

**Obligations** The Notes will be obligations of the Issuer alone and will not be guaranteed by, or be the responsibility of, any other entity. The Notes will not be obligations of NewDay Partnership Transferor Plc, NewDay Cards Ltd ("**NCL**"), the Arrangers (as named below), the Co-Arranger (as named below), the Joint Lead Managers (as named below) or any affiliate of any of them or any other party named in this Prospectus.

**EU Risk Retention Undertaking** The Transferor, as originator of the securitisation detailed in this Prospectus and of which the issue of the Notes forms part for the purposes of Regulation (EU) 2017/2402 (the "**EU Securitisation Regulation**"), confirms that it will retain a material net economic interest in the securitisation of not less than 5 per cent. of the nominal value of the securitisation in accordance with Article 6 of the EU Securitisation Regulation by way of a retention in accordance with Article 6(3)(b) of an originator's interest of not less than 5 per cent. of the nominal value of the securitised exposures (such retention being in the form of the Originator VFN Loan Note) **provided that** the Transferor will not be in breach of such undertaking if it fails to so comply due to events, actions or circumstances beyond the control of the Transferor.

For more information on the implications of the EU risk retention requirements for investors, see "*Regulatory Disclosure – EU Risk Retention Requirements*".

**U.S. Credit Risk Retention Undertaking** The Transferor, as the "sponsor" of an asset-backed securitisation transaction, is generally required under Section 15G of the U.S. Securities Exchange Act of 1934, as amended (the "**Exchange Act**"), and the regulations relating to credit risk retention promulgated thereunder (the "**U.S. Credit Risk Retention Rules**"), to ensure that it acquires and retains an economic interest in the credit risk of the assets collateralising the issuance of all "asset backed securities" in an amount of not less than 5 per cent., in one of a number of specified ways. The Transferor intends to satisfy the U.S. Credit Risk Retention Rules by maintaining, either directly or through a wholly-owned affiliate, a "seller's interest" (as defined and measured in accordance with the U.S. Credit Risk Retention Rules) in the Receivables equal to at least 5 per cent. of the aggregate unpaid principal balance of the outstanding notes of all series. For more information about the Transferor's retained interest, see "*Regulatory Disclosure - U.S. Credit Risk Retention*".

**Volcker Rule** The Issuer is of the view that it is not as of the date of this Prospectus, and immediately following the issuance of the Notes and the application of the proceeds thereof it will not be, a "covered fund" as defined in the regulations adopted under Section 13 of the Bank Holding Company Act of 1956, as amended (the "**Volcker Rule**"). In reaching this conclusion, although other exclusions or exemptions under the Investment Company

Act of 1940, as amended (the "**Investment Company Act**"), and under the Volcker Rule and related regulations may be available, the Issuer has relied primarily on a determination that it may rely on the exclusion from the definition of "investment company" set forth in Section 3(c)(5)(A) of the Investment Company Act and, accordingly, may rely on the exemption from the definition of a "covered fund" under the Volcker Rule made available to an entity that does not solely rely on Section 3(c)(1) or Section 3(c)(7) of the Investment Company Act for its exemption from registration under the Investment Company Act. Any prospective investor in the Notes, including a U.S. or foreign bank or a subsidiary or other affiliate thereof, should consult its own legal advisers regarding such matters and effects of the Volcker Rule.

**Benchmarks** Interest payable under the Notes will be calculated by reference to (a) in the case of the Class A1 Notes following the Class A1 Floating Rate Commencement Date (as defined below) and the Class A2 Notes, the daily Secured Overnight Financing Rate ("**SOFR**"), provided by the Federal Reserve Bank of New York, or (b) in the case of the Class A3 Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes (together the "**Sterling Notes**"), the Sterling Overnight Index Average ("**SONIA**"), provided by the Bank of England. As at the date of this Prospectus, the Bank of England, as administrator of SONIA, and the Federal Reserve Bank of New York, as administrator of SOFR, are not included in the public register of administrators and benchmarks established and maintained by the European Securities and Markets Authority ("**ESMA**") in accordance with Article 36 of Regulation (EU) 2016/1011 (the "**Benchmarks Regulation**"), as central bank-set benchmarks are subject to certain exemptions pursuant to Article 2 of the Benchmarks Regulation. However, the Bank of England and the Federal Reserve Bank of New York have both issued a statement of compliance with the principles for financial benchmarks issued in 2013 by the International Organization of Securities Commissions.

**Interpretation** There will be no issuance of Class A1 Notes, Class A2 Notes, Class E Notes and Class F Notes by the Issuer on the Series 2020-1 Closing Date, and the Class A3 Reset feature shall not be applicable, and any references to "Class A1 Notes", "Class A2 Notes", "Class E Notes" and "Class F Notes" (and the related class of Loan Notes and Investor Interests) and "Class A3 Reset" and any constructs, definitions and amounts related to "Class A1", "Class A2", "Class E", "Class F" and "Class A3 Reset" in this Prospectus should be disregarded. No Class A1 Swap Agreement, Class A2 Swap Agreement, Swap Collateral Account Bank Agreement or Swap Collateral Custody Agreement shall be entered into by the Issuer, and any reference to "Swap Counterparty", "Swap Collateral Account Bank", "Custodian", "Class A1 Swap Agreement", "Class A2 Swap Agreement", "Swap Collateral Account Bank Agreement" and "Swap Collateral Custody Agreement" and any related constructs, definitions and amounts in this Prospectus should be disregarded.

**THE "RISK FACTORS" SECTION STARTING ON PAGE 3 CONTAINS DETAILS OF CERTAIN RISKS AND OTHER FACTORS THAT SHOULD BE GIVEN PARTICULAR CONSIDERATION BEFORE INVESTING IN THE NOTES. PROSPECTIVE INVESTORS SHOULD BE AWARE OF THE ISSUES SUMMARISED WITHIN THAT SECTION.**

The Notes have not been, and will not be, registered under the U.S. Securities Act of 1933, as amended (the "**Securities Act**"), or with any securities regulatory authority of any state or other jurisdiction of the United States and may not be offered, sold or delivered within the United States or to or for the account of or benefit of, U.S. persons within the meaning of Regulation S under the Securities Act ("**Regulation S**") ("**U.S. Persons**"), except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act. The Notes may only be offered, sold or delivered (i) to persons who are not U.S. Persons in "offshore transactions" in reliance on Regulation S (the "**Regulation S Notes**") or (ii) to persons that are "qualified institutional buyers" (as defined in Rule 144A under the Securities Act ("**Rule 144A**")) (each a "**QIB**") in reliance on Rule 144A (the "**Rule 144A Notes**"). Prospective purchasers are hereby notified that sellers of the Rule 144A Notes may be relying on the exemption from the provisions of Section 5 of the Securities Act provided by Rule 144A. THIS PROSPECTUS IS PERSONAL TO THE OFFEREE WHO RECEIVED IT FROM AN ARRANGER, THE CO-ARRANGER OR A JOINT LEAD MANAGER AND DOES NOT CONSTITUTE AN OFFER TO ANY OTHER PERSON TO PURCHASE ANY NOTES.

PROSPECTIVE PURCHASERS OF THE NOTES MUST BE ABLE TO HOLD THEIR INVESTMENT FOR AN INDEFINITE PERIOD OF TIME. ANY INVESTMENT IN THE NOTES IS ONLY SUITABLE FOR INVESTORS EXPERIENCED IN FINANCIAL MATTERS WHO ARE IN A POSITION TO FULLY ASSESS THE RISKS RELATING TO SUCH INVESTMENT AND HAVE SUFFICIENT FINANCIAL MEANS TO SUFFER ANY POTENTIAL LOSS STEMMING THEREFROM.

THIS PROSPECTUS IS NOT INTENDED TO FURNISH LEGAL, REGULATORY, TAX, ACCOUNTING, INVESTMENT OR OTHER ADVICE TO ANY PROSPECTIVE PURCHASER OF THE NOTES.

THIS PROSPECTUS SHOULD BE REVIEWED BY EACH PROSPECTIVE PURCHASER AND ITS LEGAL, REGULATORY, TAX, ACCOUNTING, INVESTMENT AND OTHER ADVISERS. PROSPECTIVE PURCHASERS WHOSE INVESTMENT AUTHORITY IS SUBJECT TO LEGAL RESTRICTIONS SHOULD CONSULT THEIR LEGAL ADVISERS TO DETERMINE WHETHER AND TO WHAT EXTENT THE NOTES CONSTITUTE LEGAL INVESTMENTS FOR THEM.

In this Prospectus all references to "**Member State**" are references to a Member State of the European Union, references to "**Pounds**", "**Sterling**", "**GBP**" and "**£**" are references to the lawful currency for the time being of the United Kingdom and references to "**Dollars**", "**USD**" and "**\$**" are references to the lawful currency for the time being of the United States of America.

### **Forward-Looking Statements**

Some of the statements contained in this Prospectus consist of forward-looking statements relating to future economic performance or projections and other financial items. These statements can be identified by the use of forward-looking terminology, such as the words "believes", "expects", "may", "intends", "should" or "anticipates" or the negative or other variations of those terms. These statements involve known and unknown risks, uncertainties and other important factors that could cause the actual results and performance of the Notes, the Receivables, NewDay Partnership Transferor Plc, NewDay Cards Ltd or the United Kingdom consumer credit industry to differ materially from any future results or performance expressed or implied in the forward-looking statements. These risks, uncertainties and other factors include, among others general economic and business conditions in the United Kingdom, currency exchange rate and interest rate fluctuations, government, statutory, regulatory or administrative initiatives affecting NewDay Partnership Transferor Plc, NewDay Cards Ltd or their respective businesses, changes in business strategy, lending practices or customer relationships and other factors that may be referred to in this Prospectus. Some of the most significant of these risks, uncertainties and other factors are discussed in this Prospectus under the section entitled "*Risk Factors*", and potential investors are encouraged to carefully consider those factors prior to making an investment decision in relation to the Notes.

### **Disclosure of Interests**

In addition to the interests described in this Prospectus, prospective investors should be aware that each of the Arrangers, the Co-Arranger, the Joint Lead Managers and their respective related entities, associates, affiliates, officers or employees (each a "**Relevant Entity**") may be involved in a broad range of transactions including, without limitation, banking, dealing in financial products, credit, derivative and liquidity transactions, investment management, corporate and investment banking and research in various capacities in respect of the Notes, the Issuer or any other transaction party, both on its own account and for the account of other persons ("**Relevant Transactions**"). It should be further noted that NewDay Cards Ltd

as Co-Arranger is a member of the NewDay Group. Relevant Transactions may include, *inter alia*, taking positions in, or providing funding through, other Series, including through the acquisition of Related Debt or Associated Debt and/or providing support to one or more Series through a Qualifying Swap Agreement or other form of Enhancement. In this regard, Relevant Entities are or may become holders of the Series VFN-P1 Loan Notes, the Series VFN-P2 Loan Notes, the Originator VFN Loan Note and certain of the Series 2015-1 Notes and Series 2017-1 Notes, and will be subscribers for some or all classes of the Notes as at the Series 2020-1 Closing Date and a Relevant Entity may be or become the counterparty under the Class A1 Swap Agreement and/or the Class A2 Swap Agreement (if applicable), as applicable, and/or become the counterparty under one or more Qualifying Swap Agreements after the Series 2020-1 Closing Date (each a "**Relevant Transaction**"). Further, Relevant Entities may enter into connected transactions in relation to their participation in Relevant Transactions. As such, each Relevant Entity may have various potential and actual direct or indirect conflicts of interest arising in the ordinary course of its business. For example, a Relevant Entity's dealings with respect to the Notes, the Issuer or any other transaction party may affect the value of the Notes as the interests of this Relevant Entity may conflict with the interests of a Noteholder, and that Noteholder may suffer loss as a result. Risks of conflicts of interests will be identified and reported to senior management of each of the Relevant Entities, where applicable, in accordance with Directive 2014/65/EU ("**MiFID II**").

MiFID II requires investment firms subject to its provisions to examine their conflicts of interests processes more carefully than under the previous MiFID regime; it requires firms to assess "all risks", rather than just "material risks". Firms will be required to actively manage and prevent conflicts of interests, rather than simply disclose against them. This means that firms must have robust conflicts of interest procedures in place, which comply with these new requirements. Firms must, at least annually, review their conflicts policy, and provide conflicts reports to their senior management.

To the maximum extent permitted by applicable law, no Relevant Entity is restricted from entering into, performing or enforcing its rights in respect of the Transaction Documents or any Relevant Transaction. If potential conflicts are deemed to be insignificant by the senior management of the Relevant Entities, they may act in relation to these interests without notice to the Noteholders or any other person.

Capitalised terms used in this section which are not defined above shall have the meanings given to them in the main body of this Prospectus (see "*Appendix B - Index of Defined Terms*").

### **Prohibition of Sales to European Economic Area and United Kingdom Retail Investors**

The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area or in the United Kingdom. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or (ii) a customer within the meaning of Directive (EU) 2016/97 (the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II. Consequently no key information document required by Regulation (EU) No 1286/2014 (the "**PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the European Economic Area or in the United Kingdom has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the European Economic Area or in the United Kingdom may be unlawful under the PRIIPs Regulation.

### **MiFID II Product Governance**

Solely for the purposes of each manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties and professional clients only, each as defined in MiFID II; and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**Distributor**") should take into consideration the manufacturers' target market assessment; however, a Distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturers' target market assessment) and determining appropriate distribution channels.

**Documents Incorporated by Reference**

The following documents, which have been (1) previously published and (2) approved by the FCA or filed with it shall be deemed to be incorporated in, and form part of, this Prospectus:

- (a) the audited annual accounts of the Loan Note Issuer for the year ended 31 December 2019 which have previously been published and filed with the FCA, the notes thereto and the audit report prepared in connection therewith; and
- (b) the audited annual accounts of the Loan Note Issuer for the year ended 31 December 2018 which have previously been published and filed with the FCA, the notes thereto and the audit report prepared in connection therewith,

save that any statement contained herein or any of the documents incorporated by reference in, and forming part of, this Prospectus shall be deemed to be modified or superseded for the purpose of this Prospectus to the extent that a statement contained in any document subsequently incorporated by reference modifies or supersedes such statement (whether expressly, by implication or otherwise), **provided that** such modifying or superseding statement is made by way of a supplement to this Prospectus pursuant to Article 23 of the Prospectus Regulation. Any statement so modified or superseded shall not be deemed, except as so modified or superseded, to constitute a part of this Prospectus. If documents which are incorporated by reference themselves incorporate any information or other documents therein, either expressly or implicitly, such information or other documents will not form part of this Prospectus for the purposes of the Prospectus Regulation except where such information or other documents are specifically incorporated by reference or attached to this Prospectus. Any information in the documents incorporated by reference which is not incorporated by reference in this Prospectus and does not form part of this Prospectus is not relevant to Noteholders or is contained elsewhere in this Prospectus.

A copy of the documents incorporated by reference in this Prospectus will be available for viewing on the Regulatory News Service operated by the London Stock Exchange at <http://www.londonstockexchange.com/exchange/news/market-news/market-news-home.html>.

The Issuer will provide, without charge, to each person to whom a copy of this Prospectus has been delivered, upon the request of such person, a copy of any or all of the documents deemed to be incorporated herein by reference unless such documents have been modified or superseded as specified above. Written requests for such documents should be directed to the Issuer at its registered office as set out at the end of this Prospectus.

**Available Information**

In respect of the Rule 144A Notes issued, the Issuer agrees, for so long as any of the Rule 144A Notes are "restricted securities" within the meaning of Rule 144(a)(3) under the Securities Act, that it will, during any period in which it is not subject to and in compliance with the reporting requirements of Section 13 or 15(d) of the Exchange Act or exempt from reporting pursuant to Rule 12g3-2(b) under the Exchange Act, make available the information specified in, and meeting the requirements of, Rule 144A(d)(4) under the Securities Act to any holder or beneficial owner of such restricted securities or, in the case of the Rule 144A Notes issued to any prospective purchaser designated by such holder or beneficial owner of such restricted securities in order to permit compliance by such holder or beneficial owner with Rule 144A in connection with the resale of such restricted securities or any interest therein, in each case at the request of such holder, beneficial owner or prospective purchaser. The Issuer does not expect to become subject to such reporting requirements or to become exempt from reporting under Rule 12g3-2(b).

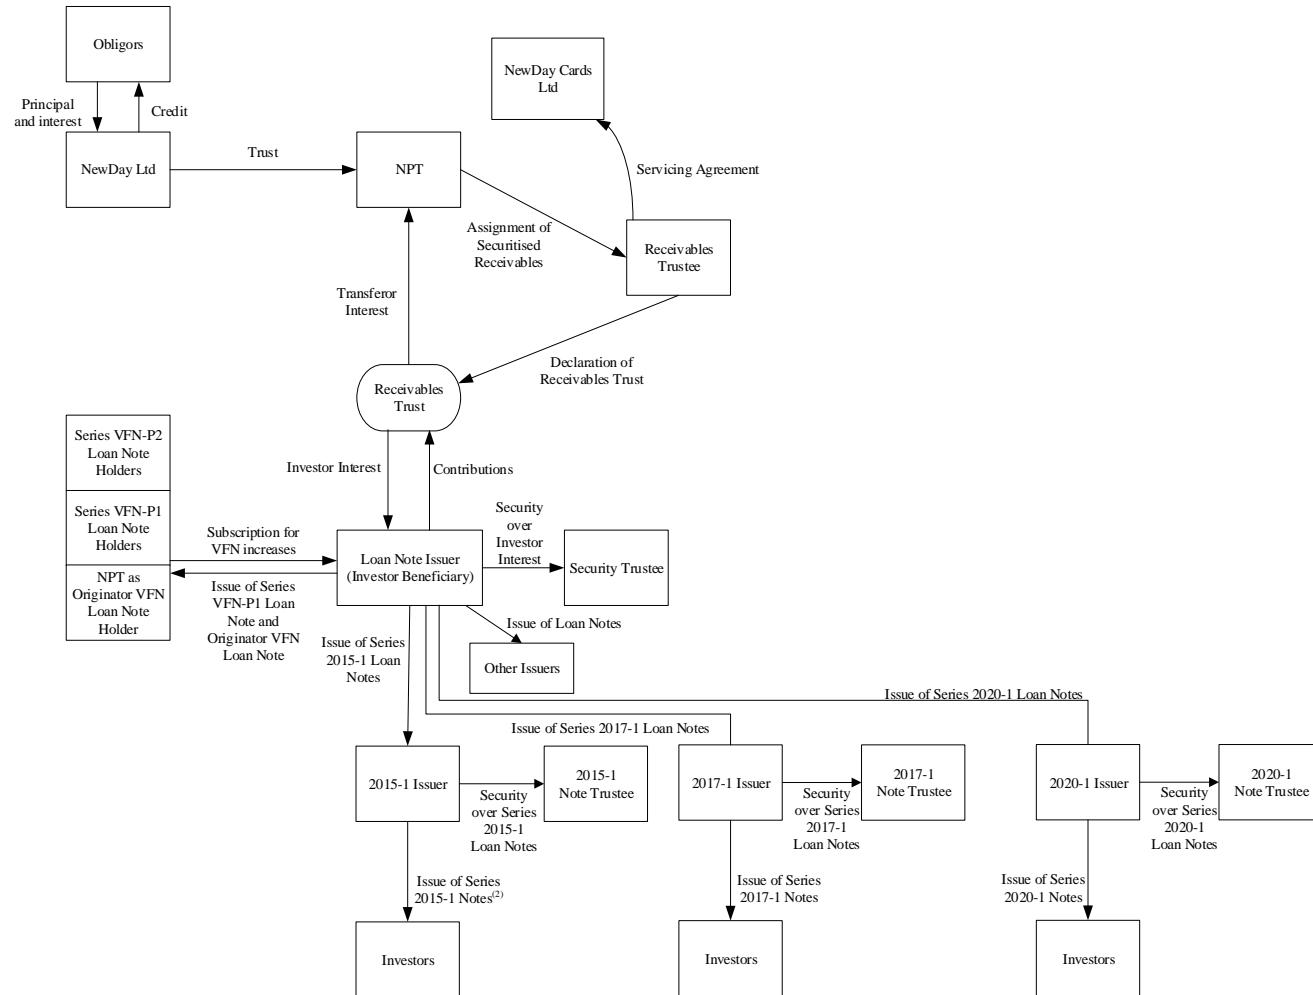

By requesting copies of the documents referred to herein or by making any other requests for additional information relating to the issue of the Notes or to the Issuer, each potential investor agrees to keep confidential the various documents and all written information which from time to time has been or will be disclosed to it, to the extent that such documents or information are not otherwise publicly available, and agrees not to disclose any portion of such information to any person except in connection with the proposed resale of the Notes or as required by law.

## RISK FACTORS

*Words and expressions defined in "Terms and Conditions of the Notes" below or elsewhere in this Prospectus have the same meanings in this section.*

*There will be no issuance of Class A1 Notes, Class A2 Notes, Class E Notes and Class F Notes by the Issuer on the Series 2020-1 Closing Date, and the Class A3 Reset feature shall not be applicable, and any references to "Class A1 Notes", "Class A2 Notes", "Class E Notes" and "Class F Notes" (and the related class of Loan Notes and Investor Interests) and "Class A3 Reset" and any constructs, definitions and amounts related to "Class A1", "Class A2", "Class E", "Class F" and "Class A3 Reset" in this section should be disregarded. No Class A1 Swap Agreement, Class A2 Swap Agreement, Swap Collateral Account Bank Agreement or Swap Collateral Custody Agreement shall be entered into by the Issuer, and any reference to "Swap Counterparty", "Swap Collateral Account Bank", "Custodian", "Class A1 Swap Agreement", "Class A2 Swap Agreement" and "Swap Collateral Account Bank Agreement" and "Swap Collateral Custody Agreement" and any related constructs, definitions and amounts in this section should be disregarded.*

*The following is a description of the principal risks associated with an investment in the Notes. These risk factors are material to an investment in the Notes and in the Issuer. Prospective Noteholders should carefully read and consider all the information contained in this Prospectus, including the risk factors set out in this section, prior to making any investment decision.*

*The Issuer believes that the risks described below are the principal risks inherent in the investment in the Notes for Noteholders, but the inability of the Issuer to pay interest, principal or other amounts on or in connection with the Notes may occur for other reasons and the Issuer does not represent that the statements below regarding the risks relating to the Notes are exhaustive. Additional risks or uncertainties not presently known to the Issuer or that the Issuer currently considers immaterial may also have an adverse effect on the Issuer's ability to pay interest, principal or other amounts in respect of the Notes. Prospective Noteholders should read the detailed information set out in this Prospectus and reach their own views, together with their own professional advisers, prior to making any investment decision. Prospective Noteholders should read the sections of this Prospectus entitled "Transaction Overview" to "Triggers Table" (inclusive) before reading and considering the risks described below.*

### **A. Risks Relating to the Notes**

#### **Ratings can be Revised or Withdrawn After the Notes are Issued**

Any Rating Agency may revise or withdraw its rating if, in the sole judgment of the Rating Agency, the credit quality of the Notes has declined or is in question or for other tangible and intangible reasons.

Any Rating Agency may also revise or withdraw its rating with respect to the Swap Counterparty. Under the terms of the Class A1 Swap Agreement and the Class A2 Swap Agreement (if applicable), the Swap Counterparty will be required to transfer or novate the Class A1 Swap Agreement and/or the Class A2 Swap Agreement, as applicable, to a replacement Swap Counterparty or enter into other suitable arrangements (including posting collateral) if the relevant credit rating of the Swap Counterparty is withdrawn or reduced below certain thresholds. It cannot be assured, however, that a replacement Swap Counterparty would be found, or that the Class A1 Swap Agreement and/or Class A2 Swap Agreement, as applicable, would be transferred or novated and/or other suitable arrangements (including posting collateral) would be entered into in this event or that the ratings of the Notes will not be revised or withdrawn in this event.

If any rating assigned to the Notes is revised or withdrawn, the market value of the Notes may be reduced and their liquidity in the secondary market adversely affected.

#### **Modifications to the Transaction Documents May be Made Without Noteholder Consent and May also Require Transferor Consent**

Pursuant to the terms of the Note Trust Deed, the Note Trustee has an ability in certain circumstances to concur with the Issuer in making modifications to the Transaction Documents without the prior consent of the Noteholders, as further described in Note Condition 15 (*Meetings of Noteholders, Modification and Waiver, Substitution and Additional Rights of Modification*). The Security Trustee has similar rights under the Security Trust Deed and Cash Management Agreement. There can be no assurance that the effect of

any such modification made to the Transaction Documents without Noteholder consent will not ultimately adversely affect Noteholders' interests.

The consent of certain counterparties (including members of the NewDay Group) will also be required to modify any Transaction Documents to which they are a party. In addition, if an amendment constitutes a Basic Terms Modification (as defined in the Note Trust Deed), the consent of the Transferor to such amendment will be required. Any requirement for such consent may ultimately adversely affect Noteholders' interests.

### **Rating Confirmations May Enable Certain Actions to be Taken Without Noteholder Consent**

The terms of certain Transaction Documents require either (i) the Rating Agencies to confirm that certain actions proposed to be taken by certain transaction parties will not have an adverse effect on the then current rating of any outstanding Rated Debt, or (ii) the Servicer or the Cash Manager to make a determination, formed on the basis of due consideration, that certain actions proposed to be taken by certain transaction parties will not have an adverse effect on the then current rating of any outstanding Rated Debt (a "**Rating Confirmation**"). Investors should therefore note that certain actions (including the amendment of certain terms of the Transaction Documents) can, if a Rating Confirmation is provided, be taken without the Noteholders being required to provide consent, meaning that such actions would be outside of their control and may ultimately prove to be adverse to Noteholders.

Investors should also note that, if a Rating Agency is asked to provide a Rating Confirmation, it may or may not be provided by such Rating Agency and, if provided, represents only a restatement of the current rating of the Notes by that Rating Agency and cannot be construed as advice for the benefit of any parties to the transaction or any indication of responsibility for the consequences of any action taken on the basis of such Rating Confirmation. Where a Rating Confirmation is given by the Servicer or the Cash Manager, while the relevant party is required to take due consideration (which may involve formal or informal discussions with the Rating Agencies) in forming its opinion, there can be no guarantee that its opinion will reflect the ultimate position of the Rating Agencies, who may at any time take such action as is set out in "Ratings can be Revised or Withdrawn After the Notes are Issued" above.

If any rating assigned to the Notes is revised or withdrawn as a result of an action undertaken on the basis of a Rating Confirmation, the market value of the Notes may be reduced and their liquidity in the secondary market adversely affected.

If a Rating Confirmation cannot be obtained in respect of any proposed action where there is a requirement for a Rating Confirmation to be provided, whether or not the proposed action may take place may ultimately depend on, amongst other things, Noteholder approval. In such circumstances, delays in obtaining Noteholder approval for the proposed action may have an adverse effect on Noteholders.

### **Noteholders May Not Receive Individually Registered Holdings of Notes, Which May Cause Delays in Distributions and Hamper Noteholders' Ability to Grant Security Over or Resell the Notes**

Unless beneficial interests in the Notes held through the Clearing Systems are exchanged for individually registered holdings of Notes represented by Individual Note Certificates, which will only occur under a limited set of circumstances, beneficial ownership of the Notes will only be registered in book-entry form with the relevant Clearing System. Investors should be aware that the lack of individually registered holdings of Notes could, among other things, give rise to the following adverse effects for investors:

- (a) payment delays on the Notes arising as a result of the Issuer or the Principal Paying Agent on its behalf sending distributions on the Notes to the applicable Clearing System, where delays may occur, instead of directly to Noteholders;
- (b) difficulties for Noteholders granting security over the Notes if individually registered holdings of Notes are required by the party demanding the security; and
- (c) the liquidity of the Notes in the secondary market being reduced where potential investors are unwilling to buy Notes that are not registered individually.

### **Risks Associated with Holding the Notes via Book-Entry Interests in the Clearing Systems**

Unless and until Book-Entry Interests are exchanged for individually registered holdings of the Notes, holders and beneficial owners of Book-Entry Interests will not, in general, be considered the legal owners or holders of the Notes under the Note Trust Deed. After payment by the Principal Paying Agent to the relevant Clearing System, the Issuer will not have responsibility or liability for the payment of interest, principal or other amounts in respect of the Notes to holders or beneficial owners of Book-Entry Interests (see "*Description of the Notes in Global Form*").

The Common Depositary (or its nominee) and/or Cede & Co as nominee of DTC, as applicable, will be the registered holder of the Notes as shown in the records of the applicable Clearing System, and will be the sole Noteholder under the Note Trust Deed while beneficial interests in the Notes are held in the Clearing

Systems and the Notes are represented by Global Note Certificates. Accordingly, each person owning a Book-Entry Interest must rely on the procedures of the relevant Clearing System and, if such person is not a participant in such Clearing System, on the procedures of the participant through which such person owns its interest, to exercise any right of a Noteholder under the Note Trust Deed.

Unlike Noteholders, holders of the Book-Entry Interests will not have the right under the Note Trust Deed to act upon solicitations by or on behalf of the Issuer for consents or requests by or on behalf of the Issuer for waivers or other actions from Noteholders. Instead, a holder of Book-Entry Interests will be permitted to act only to the extent it has received an appropriate proxy to do so from the relevant Clearing System or, if applicable, the participant through which it holds its interest. There can be no assurance that procedures implemented for the granting of such proxies will be sufficient to enable holders of Book-Entry Interests to vote on any requested actions on a timely basis. Similarly, upon the occurrence of an Event of Default under the Notes, holders of Book-Entry Interests will be restricted to acting through the relevant Clearing System, unless and until Book-Entry Interests are exchanged for individually registered holdings of Notes represented by Individual Note Certificates in accordance with the relevant provisions described herein under "*Terms and Conditions of the Notes*". There can be no assurance that the procedures to be implemented by the Clearing Systems in such circumstances will be adequate to ensure the timely exercise of Noteholders' rights under the Note Trust Deed, which could result in actions being taken, or not being taken, in a manner which is detrimental to Noteholders.

Although each of the Clearing Systems have agreed to certain procedures to facilitate transfers of Book-Entry Interests between their respective accountholders, they are under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued at any time.

None of the Issuer, the Note Trustee, any Paying Agent, the Registrar, the U.S. Registrar or any of their agents will have any responsibility for the performance by the Clearing Systems, or their respective participants or accountholders, of their respective obligations under the rules and procedures governing their operations. Consequently, investors should be aware that, should they suffer loss through the actions of the Clearing Systems or their respective participants or accountholders, they will have no recourse to the Issuer, the Note Trustee, any Paying Agent, the Registrar, the U.S. Registrar or any of their agents for any of such loss.

## **B. Structural Risks**

### **The Issuer's Ability to Meet its Obligations on the Notes Depends on the Receipt of Sufficient Funds from the Series 2020-1 Loan Notes**

In order to meet its ongoing payment obligations in respect of the Notes, the Issuer will be entitled to utilise interest payments received under the Series 2020-1 Loan Notes and certain other payments received from the Loan Note Issuer, which amounts will be applied, *inter alia*, (i) to pay the fees, costs and expenses of the Issuer, the Note Trustee, the Agents, the Registrar, the U.S. Registrar, the Issuer Account Bank and the Issuer Corporate Services Provider and other service providers from time to time, (ii) to meet the Issuer's obligations to pay interest on the Notes to Noteholders in accordance with the Note Conditions (after, in the case of the Class A1 Notes or the Class A2 Notes, if applicable, application in accordance with the Class A1 Swap Agreement or the Class A2 Swap Agreement, as applicable), (iii) to pay amounts representing the profit for the Issuer, and (iv) to meet any other payments required to be made by the Issuer. Additionally, in order to meet its obligations to repay principal in respect of the Notes, the Issuer will be entitled to utilise certain principal payments received under the Series 2020-1 Loan Notes, which amounts will (after, in the case of the Class A1 Notes or the Class A2 Notes, if applicable, application in accordance with the Class A1 Swap Agreement or the Class A2 Swap Agreement, as applicable) be applied in paying principal on the Notes in accordance with the Note Conditions.

Investors should be aware that the Issuer's receipt of sufficient funds under the Series 2020-1 Loan Notes to pay the amounts in the Issuer Priority of Payments, including amounts of interest and principal due on the Notes, will be dependent on, among other things:

- (d) payments actually being made by Obligor (from whom no security has been taken in support of those payments) and the proceeds of any relevant guarantees or insurance policies in respect of Obligor (to the extent such are capable of assignment);

- (e) those payments being collected by the Servicer in accordance with the provisions of the Receivables Trust Deed and Servicing Agreement and paid to the Receivables Trustee;
- (f) distribution being made by the Receivables Trustee to the Loan Note Issuer of amounts allocable to the Loan Note Issuer in accordance with the Receivables Trust Deed and Servicing Agreement in respect of the Series 2020-1 Investor Interest; and
- (g) payment being made by the Loan Note Issuer in respect of its obligations to the Issuer under the Series 2020-1 Loan Notes.
- (h) If the Issuer fails to receive sufficient funds under the Series 2020-1 Loan Notes from the Loan Note Issuer, then the Notes may be redeemed early and/or the payment of interest and/or the repayment of principal on the Notes may be delayed, be reduced or never be made. In addition and if applicable, the Issuer's ability to pay amounts due on, and to repay the entire principal amount of, the Class A1 Notes and the Class A2 Notes is dependent on the Issuer utilising amounts received under the Class A1 Loan Note or Class A2 Loan Note, to make payment to the Swap Counterparty and then payment being made by the Swap Counterparty in respect of its obligations to the Issuer under the Class A1 Swap Agreement or Class A2 Swap Agreement, as applicable.

#### **Noteholders Cannot Rely on Any Person Other Than the Issuer to Make Payments on the Notes**

The Notes will not represent an obligation or be the responsibility of any party to the Transaction Documents other than the Issuer. If the assets of the Issuer are not sufficient to make payments of interest and/or principal on the Notes when due, such payments may be delayed, be reduced or never be made.

#### **Reliance on Third Parties**

Each of the Receivables Trustee, the Loan Note Issuer and the Issuer is a party to contracts with a number of other third parties that have agreed to perform certain services in relation to the Receivables. For example, the Servicer has agreed to provide services, either itself or through its delegates, in respect of the Receivables under the Receivables Trust Deed and Servicing Agreement, each of the Cash Manager and the Calculation Agent has agreed to provide certain cash management and calculation services, either itself or through its delegates, under the Security Trust Deed and Cash Management Agreement, the Paying Agents and the Agent Bank have agreed to provide payment and calculation services in connection with the Notes under the Paying Agency and Agent Bank Agreement and the Swap Counterparty has agreed to provide basis and currency swaps under each of the Class A1 Swap Agreement and the Class A2 Swap Agreement and, either through itself or through its delegates, other ancillary services. Each of the Servicer, the Paying Agents, the Calculation Agent, the Agent Bank, the Cash Manager and the Swap Counterparty may delegate all or part of their service obligations to another party in accordance with the terms of the Receivables Trust Deed and Servicing Agreement, the Paying Agency and Agent Bank Agreement, the Security Trust Deed and Cash Management Agreement, the Class A1 Swap Agreement and the Class A2 Swap Agreement (if applicable), as applicable.

Each of the Receivables Trustee, the Loan Note Issuer and the Issuer will rely on the relevant third party or its delegate to exercise the rights and carry out the obligations under the respective agreement to which it is a party. In the event that any relevant third party or its delegate fails to perform its obligations under the respective agreement, including any failure arising from circumstances beyond their control (for example, the current outbreak of severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2), the virus that causes coronavirus disease 2019 ("COVID-19") that has led to many organisations closing, operating on a limited basis and/or implementing policies requiring their employees to work at home, which could result in delays or difficulties in performing otherwise routine functions), the Notes may be adversely affected.

In addition, each of the Issuer, the Loan Note Issuer and the Receivables Trustee may from time to time become subject to regulatory, rating or other requirements that may require the affected entity to appoint additional third parties (or increase the level of responsibility of an existing third party) to provide relevant services and/or incur additional costs and expenses to enable it to comply with the regulatory requirements. The Issuer, the Loan Note Issuer or the Receivables Trustee, as the case may be, could be in breach of the regulatory requirements and adversely affected if it were to be unable to find a third party to provide the relevant services or perform them itself. Moreover, any such regulatory requirements may give rise to additional costs and expenses for the affected entity which would be payable prior to making payments with respect to the Notes and thereby reduce amounts available to make such payments.

Investors should note the following specific third-party risks in the context of the Notes:

- (a) if the appointment of NewDay Cards Ltd as Servicer is terminated under the terms of the Receivables Trust Deed and Servicing Agreement (for example, as a result of the material non-performance of its obligations or the occurrence of an insolvency event in respect of NewDay Cards Ltd), it will be necessary for the Receivables Trustee to appoint a Successor Servicer to undertake the obligations of the Servicer. See "*Servicing of Receivables – Termination of Appointment of Servicer*" for the circumstances in which such termination may occur and the consequences of such termination. There can be no guarantee that, at the time of any termination of the appointment of NewDay Cards Ltd as Servicer, a Successor Servicer can be appointed. Any transfer of the role of Servicer to a Successor Servicer may create disruptions in the collection process that could cause delays in the payments received by the Loan Note Issuer and the Issuer and, ultimately, in payments due on the Notes if amounts available under the Series 2020-1 Liquidity Reserve are insufficient to cover any disruptions in the collections process.
- (b) as at the Series 2020-1 Closing Date, the Servicer has appointed First Data Global Services Limited ("**Fiserv**") to perform technical and operational services in respect of the Securitised Portfolio. If the Servicer were to choose, or be forced to use, another provider of services currently provided by Fiserv, this may cause substantial migration costs, deterioration in customer service, regulatory censure and/or have a negative impact on the reputation of the NewDay Group. If Fiserv, or any other supplier appointed by the Servicer to perform similar functions, suffers any commercial, financial or operational failure, this may adversely affect the servicing of the Securitised Portfolio. Any of the foregoing may result in a decrease in collections, an increase in default and delinquency rates and/or a decline in the origination of new accounts or the usage by existing customers of their accounts, each of which may, directly or indirectly, adversely affect the Issuer's ability to meet its obligations in respect of the Notes.
- (c) as at the Series 2020-1 Closing Date, Santander UK plc ("**Santander UK**") provides certain banking services to the NewDay Group in support of the Originator's settlement obligations to MasterCard in respect of the Accounts in the Securitised Portfolio. If Santander UK, or any other bank appointed by the Servicer to perform similar functions, were to terminate the contractual arrangements under which they are provided (including as a result of any breach by members of the NewDay Group of the terms of such arrangements), this may adversely affect the Originator's ability to meet its settlement obligations to MasterCard in respect of newly created receivables on Accounts in the Securitised Portfolio, which may result in the Accounts within the Securitised Portfolio being closed to new spending, which may in turn result in an increase in default and/or delinquency rates or otherwise adversely affect the performance of the Securitised Portfolio, which may adversely affect the Issuer's ability to meet its obligations in respect of the Notes.
- (d) as at the Series 2020-1 Closing Date, Santander UK also provides the Originator with the Primary Collection Accounts (see "*Commingling of Collections may Delay or Reduce Payments on the Notes*" for a description of the role of the Primary Collection Accounts). If any operational issues were to arise during any migration of the Primary Collection Accounts to another bank, this may result in delays in the receipt by the Transferor (and, therefore, the Receivables Trustee) of Collections, which could cause a delay in the payments on the Notes.
- (e) under the Receivables Trust Deed and Servicing Agreement, the Transferor represents that each of the Principal Receivables assigned to the Receivables Trustee is (unless stated otherwise) an Eligible Receivable. If any of those Principal Receivables prove, in fact, to be Ineligible Receivables, this may adversely affect the collectability of those Receivables and hence the gross yield and charge-off rates of the Securitised Portfolio. Although the Transferor is under an obligation to compensate the Receivables Trustee for any Principal Receivables which (contrary to its representation) prove to be Ineligible Receivables, if the Transferor is unable to do so, or otherwise fails to do so, this may cause a reduction in the credit ratings of the Notes or an early redemption of, or a loss on, the Notes.

#### **Allocations of Defaulted Receivables Could Reduce Payments on the Notes**

The Issuer anticipates that the Servicer will, for credit or non-credit reasons, charge off some of the Receivables (such Receivables being "**Defaulted Receivables**"). Each Investor Interest in the Receivables Trust will be allocated a portion of those Defaulted Receivables. If the amount of Defaulted Receivables

allocated to the Series 2020-1 Investor Interest exceeds the amount of funds available to cover those Defaulted Receivables, the Series 2020-1 Investor Interest will be reduced. This could cause Noteholders to not receive the full amount of principal and interest due to them. Any potential losses attributable to the Defaulted Receivables will be reallocated so as to be borne first by the ring-fenced Series Originator VFN Subordination provided to Series 2020-1 up to the available amount for Series 2020-1 and second by the different classes of Notes, with the Class F Notes bearing the first losses, followed by the Class E Notes, followed by the Class D Notes, followed by the Class C Notes, followed by the Class B Notes, followed by, *pari passu*, the Class A1 Notes, the Class A2 Notes and the Class A3 Notes. For additional information, see "*Series 2020-1: Defaulted and Dilution Receivables; Investor Charge-offs; Allocation to Series 2020-1 and the Originator VFN*" and "*The Securitised Portfolio: Delinquency, Collections and Loss Experience*".

#### **Credit Enhancement May be Insufficient to Prevent a Loss on the Notes**

The only assets that will be available to make payments on the Notes are the assets of the Issuer charged to secure payment of the Notes. If problems develop with the Receivables, such as an increase in losses on the Receivables, or if there are problems in the collection and transfer of the Receivables to the Receivables Trust, or if a Qualifying Swap Provider fails to make payments under its Qualifying Swap Agreement, or if the Swap Counterparty fails to make payments under the Class A1 Swap Agreement and/or the Class A2 Swap Agreement (if applicable), as applicable, it is possible that the available credit enhancement on the Notes, including the Series 2020-1 Originator VFN Subordination, will be insufficient to cover such losses and, as a result, Noteholders may not receive the full amount of interest and principal that would otherwise be received.

#### **The Terms of Other Series May Adversely Affect Payments on the Notes**

Additional Series may from time to time be created within the Receivables Trust. Payments in respect of the Investor Interest of any new Series – and Related Debt or Associated Debt in respect of that Series – will also be funded principally from Collections in respect of the Receivables in the Receivables Trust. The principal terms of any new Series will be contained in a new supplement to the Receivables Trust Deed and Servicing Agreement, the terms of which will not be subject to Noteholders' prior review or consent and could be materially different from those of Series 2020-1. Additionally, previously issued Series may also have materially different terms from those of Series 2020-1, including as a result of amendments to the terms of those Series after the Series 2020-1 Closing Date.

The principal terms of a new or previously issued Series may include methods for determining Investor Percentages and allocating Collections, provisions creating different or additional Security or other credit enhancement, provisions subordinating that Series to other Series, Series Pay Out Events and other amendments or supplements to the Receivables Trust Deed and Servicing Agreement that apply only to that Series and those could be materially different from the equivalent provisions for Series 2020-1.

It is a condition to the issuance of a new Series that each Rating Agency that has rated any debt forming part of a prior Series that is outstanding – including the Notes – confirms in writing that the issuance of the new Series will not result in a reduction or withdrawal of its then current rating (which may be in the form of a rating of any Rated Debt being issued as part of that new Series). However, there can be no assurance that this requirement will ensure that further Series are not issued on terms which are disadvantageous to Noteholders or that the terms of previously issued Series are not modified in a manner which has similar consequences.

As a result, the terms of new and previously issued Series could adversely affect the timing and amounts of payments on the Notes.

#### **Issuance of Additional Series of Loan Notes May Adversely Affect Noteholders' Rights by Diluting their Voting Power**

The Loan Note Issuer may issue additional series of Loan Notes. The Loan Note Holders of each series – including the Issuer – may require the Loan Note Issuer, as Investor Beneficiary, to take action or direct actions to be taken under the Security Trust Deed and Cash Management Agreement or a supplement. However, the consent or approval of Loan Note Holders of a percentage of the total principal balance of the Loan Notes of all series might be necessary to require or direct those actions. Thus, the Loan Note Holder of any new series of Loan Notes will have voting rights that will reduce the percentage interest of the Issuer as holder of the Series 2020-1 Loan Notes. Loan Note Holders of other series – and/or persons

with the power to direct their actions – may have interests that do not coincide with the interests of the Issuer or Noteholders.

**Subordinated Notes Bear Additional Risk Because They are Subject to the Prior Payment of Amounts due on Notes Senior to Them**

Although all Notes in Series 2020-1 benefit from the Principal Collections and Finance Charge Collections allocated to Series 2020-1, including those reallocated from amounts originally allocated to the Originator VFN Series Subordination within the Originator VFN Series, the Class F Notes are subordinated in right of payment of principal and interest to the Class E Notes, which are subordinated in right of payment of principal and interest to the Class D Notes, which are subordinated in right of payment of principal and interest to the Class C Notes, which are subordinated in right of payment of principal and interest to the Class B Notes, which are subordinated in right of payment of principal and interest to the Class A1 Notes, Class A2 Notes and Class A3 Notes. Principal payments to holders of subordinated Notes will not be made until the Noteholders of each senior class are paid in full. On each Interest Payment Date, interest is paid, *pari passu* to the Class A1 Noteholders, the Class A2 Noteholders and the Class A3 Noteholders before the Class B Noteholders, to the Class B Noteholders before the Class C Noteholders, to the Class C Noteholders before the Class D Noteholders, to the Class D Noteholders before the Class E Noteholders and to the Class E Noteholders before the Class F Noteholders. This could result in holders of subordinated Notes not receiving the full amount of principal or interest due to them where the Issuer suffers a cash shortfall and where the Series Originator VFN Subordination in respect of Series 2020-1 is not available and the Issuer does not have access to sufficient Shared Principal Collections and/or Shared Excess Finance Charges.

**The Scheduled Redemption Date or Scheduled Put Date of the Notes May be Extended**

*Extension of Scheduled Redemption Date*

In accordance with the Note Conditions and the Series 2020-1 Supplement, the Class A1 Scheduled Redemption Date, the Class A2 Scheduled Redemption Date, the Class A3 Scheduled Redemption Date and/or the Series 2020-1 Scheduled Redemption Date may be postponed to a later Interest Payment Date falling within the Class A1 Extension Period, the Class A2 Extension Period, the Class A3 Extension Period or the Series 2020-1 Extension Period, as applicable, if the Servicer delivers a Class A1 Extension Notice, a Class A2 Extension Notice, a Class A3 Extension Notice and/or a Series Extension Notice, as applicable. For further information, please see "*Series 2020-1*" and "*Terms and Conditions of the Notes*".

*Extension of Scheduled Put Date*

In accordance with the Note Conditions and the Series 2020-1 Supplement, any Class A1 Scheduled Put Date, any Class A2 Scheduled Put Date or any Class A3 Scheduled Put Date may be postponed to a later Interest Payment Date falling within the Class A1 Extension Period, the Class A2 Extension Period or the Class A3 Extension Period, as applicable, if the Servicer delivers a Class A1 Put Deferral Notice, a Class A2 Put Deferral Notice and/or a Class A3 Put Deferral Notice. For further information, please see "*Series 2020-1*" and "*Terms and Conditions of the Notes*".

The delivery of any extension notice or put deferral notice would lead to some or all of the Notes being redeemed or repurchased on a date later than that which Noteholders may otherwise have anticipated when acquiring the Notes. Extending the Class A1 Scheduled Redemption Date, the Class A2 Scheduled Redemption Date, the Class A3 Scheduled Redemption Date, the Series 2020-1 Scheduled Redemption Date, any Class A1 Scheduled Put Date, any Class A2 Scheduled Put Date or any Class A3 Scheduled Put Date could adversely impact the price and liquidity of the relevant Notes in the secondary market.

**A Series 2020-1 Optional Amortisation May, Following the Extension of the Series 2020-1 Scheduled Redemption Date, the Class A1 Scheduled Redemption Date, any Class A1 Scheduled Put Date, the Class A2 Scheduled Redemption Date, any Class A2 Scheduled Put Date, the Class A3 Scheduled Redemption Date and/or any Class A3 Scheduled Put Date, Result in an Early Redemption of the Notes**

The Loan Note Issuer (as the Series 2020-1 Investor Beneficiary), acting on the instructions of the Transferor Beneficiary pursuant to the provisions of the Beneficiaries Deed may instruct the Receivables Trustee to amortise, by way of a Series 2020-1 Optional Amortisation, (i) the Series 2020-1 Investor Interest after the extension of the Series 2020-1 Scheduled Redemption Date, (ii) the Class A1 Investor Interest or

any Put Class A1 Investor Interest after the extension of the Class A1 Scheduled Redemption Date or the relevant Class A1 Scheduled Put Date, as applicable, (iii) the Class A2 Investor Interest or any Put Class A2 Investor Interest after the extension of the Class A2 Scheduled Redemption Date or the relevant Class A2 Scheduled Put Date, as applicable, and/or (iv) the Class A3 Investor Interest or any Put Class A3 Investor Interest after the extension of the Class A3 Scheduled Redemption Date or the relevant Class A3 Scheduled Put Date, as applicable, which would lead to the redemption of the Notes, the Class A1 Notes, the Put Class A1 Notes, the Class A2 Notes, the Put Class A2 Notes, the Class A3 Notes and/or the Put Class A3 Notes, as applicable, earlier than would otherwise be the case. In such circumstances, a Noteholder may not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as that of the relevant Notes. The market value of the relevant Notes and their liquidity in the secondary market may also be impacted by the Series 2020-1 Optional Amortisation feature. For further information, see "*Series 2020-1 – Series 2020-1 Optional Amortisation*" and "*Terms and Conditions of the Notes*".

**Early Termination of the Class A1 Swap Agreement and/or Class A2 Swap Agreement Could Result in an Early Redemption of the Notes and/or an Inability of the Issuer to Pay the Amounts Due on the Notes**

Each of the Class A1 Swap Agreement and the Class A2 Swap Agreement may be terminated upon the occurrence of certain events described under "*The Class A1 Swap Agreement*" and "*The Class A2 Swap Agreement*" below. There can be no assurance that the Class A1 Swap Agreement or the Class A2 Swap Agreement will not be terminated prior to the payment in full of the Class A1 Notes or the Class A2 Notes (as applicable).

If either of the Class A1 Swap Agreement and/or the Class A2 Swap Agreement is terminated before its scheduled termination date, the Issuer or the Swap Counterparty may be liable to make an early termination payment to the other party. The amount of such termination payment will be based:

- (i) where either of the Class A1 Swap Agreement and/or the Class A2 Swap Agreement is terminated in circumstances in which the Issuer is the Defaulting Party or Affected Party (each as defined therein), on the determination by the Swap Counterparty in good faith of the total losses and costs (or gains) incurred, including any loss of bargain, cost of funding or, at the election of such party but without duplication, the losses or costs incurred as a result of its terminating, liquidating, obtaining or re-establishing any hedge or related trading position (or any gain resulting from any of them); or
- (ii) where either of the Class A1 Swap Agreement and/or the Class A2 Swap Agreement is terminated due to the Swap Counterparty's failure to comply with remedial actions necessary to ensure continuing compliance with the ratings criteria of the relevant Rating Agency following a Class A1 Swap Counterparty Downgrade Event and/or a Class A2 Swap Counterparty Downgrade Event (as applicable) or any other circumstances detailed in the Class A1 Swap Agreement and/or the Class A2 Swap Agreement, as applicable, on the market value of the swap transaction under the Class A1 Swap Agreement and/or Class A2 Swap Agreement (as applicable) at the time of termination as more fully set out in the Class A1 Swap Agreement and/or the Class A2 Swap Agreement (as applicable). This market value will be computed on the basis of market quotations of the cost of entering into a replacement swap transaction with the same terms and conditions that would have the effect of preserving the respective full payment obligations of the parties.

Any such termination payment could be substantial if, for example, interest rates or currency exchange rates have changed significantly. If the Swap Counterparty fails to pay all or part of any termination payment owing to the Issuer, the likelihood of the Issuer being unable to fund the payment of any amount necessary to enter into a replacement swap will be increased. In any event, there can be no guarantee that the Issuer would be able to enter into a replacement swap transaction on similar terms or at all. If the Issuer is not able to enter into a replacement swap transaction, it would need to make alternative arrangements to swap its sterling receipts under the Class A1 Loan Note or Class A2 Loan Note (as applicable) into U.S. Dollars in order to make payments in respect of the Class A1 Notes or the Class A2 Notes (as applicable), which may result in a shortfall in the required U.S. Dollar amounts. The termination of the Class A1 Swap Agreement and/or the Class A2 Swap Agreement may reduce, accelerate or delay payments of interest and principal on the Notes.

### **Disruptions to Cashflow due to Swap Counterparty Default**

If the Swap Counterparty fails to make payments under the Class A1 Swap Agreement or the Class A2 Swap Agreement, it is possible that the Class A1 Noteholders or the Class A2 Noteholders (as applicable) may not receive the full amount of interest and principal that they would otherwise receive on time or at all.

### **Enforcement of the Security for the Notes**

The Note Trustee may take steps to enforce the Security for the Series 2020-1 Notes created under the Note Trust Deed if such security has become enforceable in accordance with the provisions therein, and the Note Trustee shall do so if directed by the requisite percentage of the Most Senior Class of Notes, **provided that** the Note Trustee has been indemnified and/or secured and/or prefunded to its satisfaction.

If the Security for the Notes created by the Note Trust Deed is enforced, the Note Trustee will have recourse to payments due from the Loan Note Issuer under the Series 2020-1 Loan Notes and contractual payments in respect of the Available Series Originator VFN Subordination for Series 2020-1. However, investors should note that enforcement of the Security for the Notes will not automatically result in the accelerated repayment of the Notes or the acceleration of the payments under the Series 2020-1 Loan Notes or enforcement of the related security. If the Security for the Notes is enforced, the monies deposited in respect of the Series 2020-1 Loan Notes on each Transfer Date in the Issuer Distribution Account may not be sufficient to make payments of all amounts due from the Issuer. If funds credited to the Issuer Distribution Account, taking into account all payments in priority owed by the Issuer, are insufficient to meet payments of principal and interest on the Notes, payment of principal and interest on the Notes may be delayed, be reduced or never be made.

For a complete description of the priority of payments, refer to "*Series 2020-1 – Application of Available Funds*". See also "*Insolvency Proceedings and Subordination Provisions*".

### **Enforcement of the Series 2020-1 Loan Note Security**

The Security Trustee may take steps to enforce the security created under the Security Trust Deed and Cash Management Agreement and the relevant supplement thereto if such security has become enforceable in accordance with the provisions therein, and the Security Trustee shall do so if directed by the Issuer as the Series 2020-1 Loan Note Holder, **provided that** the Security Trustee has been indemnified and/or secured and/or prefunded to its satisfaction.

Upon enforcement of the security for the Series 2020-1 Loan Notes comprised in the Security Trust Deed and Cash Management Agreement and the relevant supplement thereto, the Security Trustee will have recourse only to the Loan Note Issuer's beneficial entitlement to trust property under the Receivables Trust to the extent of the Investor Interest backing the Series 2020-1 Loan Notes. However, enforcement of the security in respect of the Series 2020-1 Loan Notes will not result in accelerated repayment of all series of Loan Notes, except in the event of a Trust Pay Out Event (see "*The Receivables Trust – Trust Pay Out Events*"). The Security Trustee will be able to pay to the Issuer as beneficial holder of the Series 2020-1 Loan Notes only those funds which are credited to the Series 2020-1 Ledger of the Loan Note Issuer Distribution Account. The Loan Note Issuer and the Security Trustee will have no recourse to the Transferor other than the ability (in certain circumstances) to call upon the Receivables Trustee to exercise its rights against the Transferor under the Receivables Securitisation Deed for any breach of certain representations in respect of the Receivables and for any breach of certain other obligations as therein specified. If funds credited to the Series 2020-1 Ledger of the Loan Note Issuer Distribution Account are insufficient to meet payments of principal and interest on the Series 2020-1 Loan Notes, taking into account all payments to be made in priority by the Loan Note Issuer, payments of principal and interest on the Notes may be delayed, be reduced or never be made.

For a complete description of the priority of payments in respect of the Series 2020-1 Loan Notes, refer to "*The Series 2020-1 Loan Notes – Cashflows of the Loan Note Issuer*".

### **A Partial Amortisation Event May Result in an Early Redemption of the Notes**

A Partial Amortisation Event will occur if certain thresholds are breached and there is Cash Available for Investment in the Receivables Trustee Investment Account. These thresholds relate, broadly, to excess spread being below a minimum threshold level or the amount of retained Cash Available for Investment

exceeding a maximum amount, in each case, for a specified period of time. Retention of Cash Available for Investment may occur, for example, if the arrangements with a Retail Partner have terminated and that Retail Partner (or a third party) has acquired the Receivables arising on the Accounts originated through that Retail Partner (which, under certain of those arrangements, the relevant Retail Partner will be entitled to require, pursuant to a purchase option granted in its favour). Retention of Cash Available for Investment may also occur as a result of Collections materially exceeding the amount of new Principal Receivables being added to the Receivables Trust, causing Cash Available for Investment to build-up. Retention of Cash Available for Investment may also occur where a Contribution has been made to the Receivables Trust and such Contribution is not applied to acquire new Principal Receivables or refinance another Series. Investors should be aware that the Notes may be redeemed as a result of the amount of excess spread for a Series, other than Series 2020-1, falling below the minimum threshold level at a time when the amount of excess spread for Series 2020-1 is not below the minimum threshold level.

If a Partial Amortisation Event were to occur, the Servicer would give notice of such event (as described below at "*Series 2020-1 – Partial Amortisation*"), in respect of all or some of the Outstanding Series, to the Receivables Trustee who in turn would use Cash Available for Investment to amortise (in whole or in part) the Investor Interests selected by the Servicer (in accordance with principles specified in the Transaction Documents), which may include the Series 2020-1 Investor Interest, which would lead to the Notes being redeemed in part or in full earlier than expected. Further details on the order of priority in which the Servicer will select the Investor Interests to be amortised (in whole or in part) are described at "*Series 2020-1 – Partial Amortisation*".

### **Insolvency Proceedings and Subordination Provisions**

There is some uncertainty (particularly in a cross-border context) as to the validity and/or enforceability of a provision which (based on contractual and/or trust principles) subordinates certain payment rights of a creditor to the payment rights of other creditors of its counterparty upon the occurrence of insolvency proceedings relating to that creditor. In particular, recent cases have focused on provisions involving the subordination of a swap counterparty's payment rights in respect of certain termination payments upon the occurrence of insolvency proceedings or other default on the part of such counterparty. Such provisions are similar in effect to the terms included in the Transaction Documents relating to the subordination of the amount equal to any termination payment which might be due and payable to the Swap Counterparty pursuant to each of the Class A1 Swap Agreement and the Class A2 Swap Agreement (if applicable), where the Class A1 Swap Agreement or the Class A2 Swap Agreement, as the case may be, has been terminated as a result of the default of the Swap Counterparty, including as a result of the Swap Counterparty's insolvency. Similar considerations would apply if a Qualifying Swap Agreement were to be entered into, as such Qualifying Swap Agreement would also be subject to provisions of similar effect (as a consequence of the provisions of the Security Trust Deed and Cash Management Agreement and the relevant supplement thereto).

The UK Supreme Court has affirmed decisions of the English High Court and Court of Appeal that such a subordination provision is valid under English law. However, there has been some uncertainty regarding the position under U.S. law, in that a U.S. bankruptcy court held in 2010 that such a subordination provision is unenforceable under U.S. bankruptcy law in the case of a U.S. bankruptcy of the counterparty. Whilst leave to appeal was granted, the case was settled before an appeal was heard. In a subsequent case, a U.S. bankruptcy court held that such a subordination provision is enforceable. On appeal, the U.S. district court affirmed that decision and, on 11 August 2020, the U.S. Court of Appeals for the Second Circuit affirmed the district court opinion. Although the parties have 90 days to file a petition for certiorari with the U.S. Supreme Court, and (even if no such petition is filed) the U.S. Supreme Court may subsequently consider the issue in another context, the Second Circuit decision significantly reduces the possibility that English and U.S. courts would diverge in their approach. Any such divergence arising from an unfavourable decision in the U.S. may (were the Swap Counterparty or a Qualifying Swap Provider, as applicable, to be subject to U.S. bankruptcy proceedings) adversely affect the Issuer's ability to make payments on the Notes.

### **Permitted Investments**

Amounts standing to the credit of certain accounts may in specific circumstances be invested in Permitted Investments (see "*Series 2020-1*" for further information). Volatility in financial markets may adversely affect the credit ratings of Permitted Investments. Although Permitted Investments are required to have specified credit ratings from the Rating Agencies at the time of purchase or to otherwise meet Rating Agency standards intended to minimise risk of loss on such investments, risk of loss (owing to default by

the issuer or otherwise) cannot be entirely eliminated. Previous adverse market conditions have led to a number of fixed income securities, especially structured finance or asset-backed securities, being downgraded in a short space of time. Should such a downgrade occur, it may (even in the absence of default by the relevant issuer) lead to a loss on the Permitted Investment when it is sold. Any losses arising in respect of Permitted Investments will decrease the amount of cash standing to the credit of the relevant account and, ultimately, impact the amount available to the Issuer to apply pursuant to the Issuer Priority of Payments.

### **C. Risks Relating to Market Issues, Including Regulation**

#### **Increased Regulation of Securitisations May Result in Increased Requirements for Investors, Regulatory Sanctions and/or Decreased Liquidity in Respect of the Notes**

In Europe, the United States and elsewhere, there has been, and continues to be, increased political and regulatory scrutiny of the asset-backed securities industry. This has resulted in a significant number of measures for increased regulation which are currently at various stages of implementation. These measures (and any future regulatory initiatives affecting the asset-backed securities industry) may have an adverse impact on investors in asset-backed securities (for example, through further changes to the regulatory treatment for certain investors and/or the incentives for certain investors to hold asset-backed securities), and may thereby affect the liquidity or price of such securities (including the Notes) in the secondary market.

#### ***EU Risk Retention Rules***

In Europe, the European authorities adopted the EU Securitisation Regulation on 28 December 2017. The EU Securitisation Regulation applies to securitisations under which any securities are issued on or after 1 January 2019 and is a cross-sectoral regulation that replaced a number of previous regulatory requirements which applied to certain categories of investors in securitisations.

The EU Securitisation Regulation provides for revised risk retention and disclosure requirements (now imposed variously on a securitisation special purpose entity, originator, sponsor and/or original lender of a securitisation) as well as new and enhanced due diligence requirements for Affected Investors (as defined below), which apply prior to acquiring the relevant securitisation position and on an ongoing basis whilst the Affected Investor holds the securitisation position. For information on how the Transferor complies with the risk retention requirements of the EU Securitisation Regulation, see "*Regulatory Disclosure — EU Securitisation Regulation Requirements*".

There are a number of specific risks which should be highlighted in respect of the EU Securitisation Regulation:

- (a) In respect of the disclosure requirements, the regulatory technical standards and implementing technical standards (together the "**Technical Standards**") prepared by the European Securities and Markets Authority ("**ESMA**") were published in the Official Journal of the European Union on 3 September 2020, and came into force on 23 September 2020. Disclosure and reporting in respect of the securitisation transaction described in this Prospectus must therefore be carried out by the designated entity in compliance with the disclosure requirements laid down in the Technical Standards. The Loan Note Issuer as the designated entity (who has in turn appointed the Servicer to assist it) will be responsible for complying with such disclosure and reporting requirements.
- (b) The undertakings contained within the Transaction Documents given by the Loan Note Issuer, the Transferor and the Servicer to provide the information required by Articles 7(1)(a), (e), (f) and (g) of the EU Securitisation Regulation and the undertaking of the Transferor given in relation to risk retention are subject to a commercially reasonable efforts (or similar) standard and/or subject to other provisos. Where such provisos apply, if the Transferor and/or Loan Note Issuer fails to comply with their obligations under the EU Securitisation Regulation, there may be no breach of the relevant undertaking in the Transaction Documents on the part of the Loan Note Issuer, the Transferor or the Servicer (as applicable) for such non-compliance. Affected Investors should therefore carefully consider any consequences applicable to them in relation to holding the Notes in such circumstances.

- (c) Each Affected Investor that is required to comply with Article 5 of the EU Securitisation Regulation is required to independently assess and determine the sufficiency of the information described in this Prospectus and which may otherwise be made available to investors for the purposes of its initial and ongoing compliance with Article 5 of the EU Securitisation Regulation. Should an Affected Investor determine that they have insufficient information in order to comply with their own due diligence obligations under Article 5 of the EU Securitisation Regulation, there is no obligation on the Loan Note Issuer, the Transferor or any other party (including, for the avoidance of doubt, the Arrangers, the Co-Arranger or any Joint Lead Manager) to provide further information to meet such insufficiency.

"**Affected Investor**" means each of EU-regulated credit institutions, EU-regulated investment firms, certain alternative investment fund managers, EU-regulated insurers or reinsurers, certain investment companies authorised in accordance with Directive 2009/65/EC, managing companies as defined in Directive 2009/65/EC, institutions for occupational retirement provision falling within the scope of Directive (EU) 2016/2341 (subject to certain exceptions), and certain investment managers and authorised entities appointed by such institutions subject thereto.

#### ***U.S. Credit Risk Retention Rules***

In the U.S., the U.S. Credit Risk Retention Rules generally require "sponsors" to retain, in one of a number of specified ways, not less than 5 per cent. of the credit risk of the assets securitised, and generally prohibit sponsors from directly or indirectly eliminating or reducing their credit exposure by hedging or otherwise transferring the credit risk that the sponsor is required to retain. If the Transferor fails to retain credit risk in accordance with the U.S. Credit Risk Retention Rules, the price and liquidity of the Notes in the secondary market may be adversely impacted. See "*Regulatory Disclosure—U.S. Credit Risk Retention*" for information on how the Transferor complies with the U.S. Credit Risk Retention Rules.

#### ***Increased Prudential Regulation for Certain Investors in the Notes***

Governmental and regulatory authorities in the United Kingdom, the United States and elsewhere have introduced additional capital and funding requirements and are implementing other measures including increased regulatory control in their respective financial sectors. It remains uncertain how these changes will impact financial institutions and entities involved in securitisations of assets originated by such financial institutions, including the Issuer and the Loan Note Issuer.

The Basel Committee on Banking Supervision ("**BCBS**") approved certain changes to the Basel II regulatory and capital framework (commonly known as "**Basel III**") and the Basel III reform package has been implemented in Europe through amendments to the Capital Requirements Directive (Directive 2013/36/EU) and through an associated Capital Requirements Regulation (Regulation (EU) No 575/2013) (together known as "**CRD IV**"), which were published in the Official Journal of the European Union on 27 June 2013. Full implementation began from 1 January 2014, with particular elements being phased in over a period of time, to be fully effective by 2024. Building on this foundation, amendments were made to CRD IV through Regulation (EU) No 876/2019 and Directive (EU) 2019/878 which both entered into force on 27 June 2019, reflecting changes to international prudential standards following on from the Basel III standards. Further reforms to Basel III were agreed by the BCBS in December 2017, including reforms relating to the standardised and internal ratings-based approaches for credit risk, and a revised output floor. Originally, member countries were expected to implement these 2017 reforms, sometimes referred to as "Basel IV", by 1 January 2022 (with the exception of those relating to the output floor, which were to be phased in from 1 January 2022 and completed by 1 January 2027). However, as a result of the COVID-19 pandemic: (a) the implementation date of the Basel IV standards finalised in December 2017 has been postponed by one year to 1 January 2023 and (b) the completion date for the accompanying transitional arrangements for the output floor has also been extended by one year to 1 January 2028.

The market value of the Notes, and the secondary market for the Notes, may be adversely affected as a result of the capital and liquidity requirements described above applying to certain Noteholders and certain potential investors in the Notes. Such consequences may occur as a result of the regulatory reforms discussed above having an impact on the capital requirements associated with the Notes, and/or on incentives to hold the Notes, for investors that are subject to requirements that follow the revised Basel framework (including, in the European Union, CRD IV as amended).

Investors subject to the capital and liquidity requirements described above should seek their own advice in respect of their obligations under such regulations.

#### **Absence of Secondary Market for the Notes, Limited Liquidity**

No active and liquid secondary market for the Notes is expected to exist on the Series 2020-1 Closing Date and no assurance can be given that an active and liquid secondary market for the Notes will develop after the Series 2020-1 Closing Date or, if it does develop, that it will provide Noteholders with liquidity of investment for the life of the Notes. Any investor in the Notes must be prepared to hold its Notes for an indefinite period of time or until their final maturity date as it may only be possible to sell the Notes in the secondary market at a discount to the original purchase price.

The secondary market for asset-backed securities similar to the Notes has, at times (for example, during, and in the aftermath of, the global financial crisis of 2008-2009 and during the COVID-19 pandemic), experienced limited liquidity, and any recurrence of such conditions may have an adverse effect on the market value of asset-backed securities, including the Notes. Whilst central bank schemes such as the Bank of England's discount window facility, the European Central Bank's liquidity scheme and the European Central Bank's asset-backed securities purchase programme may provide a source of liquidity in respect of eligible securities, there is no certainty that the Notes will be accepted as eligible securities for any such facilities either upon issue or subsequently or that such facilities will be continued or maintained during the life of the Notes.

Further, investors should be aware that, if insufficient information is provided to investors on the performance of the Receivables while the Notes remain outstanding, or if the Transferor fails to maintain the retention required by applicable regulation, potential secondary market purchasers may be less willing to invest in the Notes or, for certain classes of investor, be prevented from, or incur significant capital costs as a result of, making such an investment due to regulation applicable to such investors. Each of these situations may adversely affect the secondary market liquidity for the Notes and therefore the price at which an investor can sell its Notes.

#### **Risks Relating to the Use of Reference Rates**

Interest rates or other types of rates and indices which are deemed to be "benchmarks" are the subject of ongoing national and international regulatory reform. As a result of the implementation of any such reforms, the manner of administration of benchmarks may change, with the result that they may perform differently than in the past, or benchmarks could be eliminated entirely, or there could be other consequences which cannot be predicted. For example, on 27 July 2017, the FCA announced that it would no longer persuade or compel banks to submit rates for the calculation of the London inter-bank offered rate ("**LIBOR**") and, on 16 January 2020, the FCA and the Bank of England (a) issued a letter explaining that the FCA and the Prudential Regulation Authority will "step up engagement with firms on LIBOR transition" and reiterating the Financial Policy Committee's statement that the "intention is that sterling LIBOR will cease to exist after the end of 2021. No firm should plan otherwise" and (b) issued a statement encouraging market makers to change the market convention for sterling interest rate swaps from LIBOR to SONIA from 2 March 2020. The Working Group on Sterling Risk-Free Reference Rates, which was established in 2015 to implement the Financial Stability Board's recommendations to replace benchmarks such as LIBOR with risk-free rates, has identified SONIA as the preferred alternative risk-free rate to Sterling LIBOR. Similarly, the New York Federal Reserve's Alternative Reference Rates Committee has identified SOFR as the preferred alternative to U.S. Dollar LIBOR. SONIA relates exclusively to Sterling and SOFR relates exclusively to U.S. Dollars, and both SONIA and SOFR are derived from historical data.

Investors should be aware that the use of both SONIA and SOFR as a benchmark rate for asset-backed securities such as the Notes is a recent development, and market practice continues to develop in relation to the use of SONIA and SOFR as a reference rate in the capital markets and their adoption as alternatives to the LIBOR rates, respectively, for Sterling and U.S. Dollars. Market terms for debt securities indexed to SONIA and SOFR, such as the spread over the reference rate reflected in interest rate provisions or the applicable observation method, may evolve over time, and the trading prices of the Notes adopting a particular formulation may, as a result, be lower than those of later-issued debt securities which adopt a different formulation. The market or a significant part thereof may adopt an application of risk-free rates that differs significantly from that set out in the Note Conditions and used in relation to the floating rate Notes that reference a risk-free rate. In this respect, from 3 August 2020, the Bank of England started publishing a daily SONIA compounded index, an approach similar to that already taken by the Federal

Reserve Bank of New York in respect of SOFR. This means that a screen rate based on an observable publicly available average rate or index may evolve over time (although there is no guarantee of this).

Investors should be aware that, if SONIA or SOFR were discontinued or otherwise unavailable, the Rate of Interest on Notes which are linked to or which reference such benchmark will be determined for the relevant period by the fallback provisions applicable to such Notes. The Note Conditions provide for certain fallback arrangements in the event that a published benchmark (or any page or service on which such benchmark may be published) becomes unavailable. The ultimate fallback in respect of such Notes will be to apply a fixed rate based on the rate or rates which applied or were offered in the previous Interest Period when such benchmark was available.

Interest on the Notes which reference a risk-free rate is only capable of being determined after the start of each interest period. It may be difficult for investors in Notes which reference such risk-free rates to reliably estimate the amount of interest which will be payable on such Notes, and some investors may be unable or unwilling to trade such Notes without changes to their IT systems, both of which could adversely impact the liquidity of such Notes. Investors should consider these matters when making their investment decision with respect to any such floating rate Notes.

In addition, if the floating rate component of the interest rate applicable to the Class A1 Loan Note and the Class A2 Loan Note and/or the Class A1 Notes and the Class A2 Notes (as applicable) is, pursuant to the Note Conditions, determined in a different manner or by reference to a different index or methodology (owing, for example, to the unavailability of the relevant reference rate), then the floating rate component of the Sterling and/or U.S. Dollar (as appropriate) payments under the Class A1 Swap Agreement and Class A2 Swap Agreement will automatically be adjusted, if applicable. In such circumstances, the Swap Counterparty will be entitled to adjust the spread payable by the Issuer under the Class A1 Swap Agreement and the Class A2 Swap Agreement in order to preserve the economic balance between the Issuer and the Swap Counterparty thereunder (and the margin on the Class A1 Loan Note or Class A2 Loan Note, as applicable, will be automatically adjusted in turn). Although any such adjustment by the Swap Counterparty to the spread payable by the Issuer under the Class A1 Swap Agreement or the Class A2 Swap Agreement will entitle the Issuer to terminate the Class A1 Swap Agreement or the Class A2 Swap Agreement, as applicable, it may not be practicable or economic for the Issuer to do so, owing to the absence of alternative swap arrangements available in the market at the time. In such circumstances, the Issuer may not have sufficient funds available to it in order to make payments on the Class A1 Notes and/or the Class A2 Notes, or (owing to the higher margin on the Class A1 Loan Note and/or Class A2 Loan Note) on the other classes of Notes, on a timely basis or in full.

### **Risks Relating to Reference Rate Modifications**

Investors should note the various circumstances in which a modification may be made to the Note Trust Deed or the Note Conditions or any other Issuer Documents (including, subject to the agreement of the Swap Counterparty, the Class A1 Swap Agreement and/or the Class A2 Swap Agreement, if applicable) for the purpose of changing the Dollar Reference Rate and/or the Sterling Reference Rate or such other related or consequential amendments as are necessary or advisable in the reasonable judgment of the Issuer to facilitate such change (a "**Reference Rate Modification**"). These circumstances broadly relate to the disruption or discontinuation of SONIA or SOFR or a change in the manner in which either such rate is calculated, but also specifically include, *inter alia*, any public statements by the relevant benchmark administrator or certain regulatory bodies that SONIA or SOFR will be discontinued or may no longer be used, and a Reference Rate Modification may also be made if the Cash Manager reasonably expects any of these events to occur within six months of the proposed effective date of the Reference Rate Modification, subject to certain conditions. There can be no assurance that any such amendment will mitigate the interest rate risk or result in an effective replacement methodology for determining the reference rate on the Notes or the Class A1 Swap Agreement or the Class A2 Swap Agreement, if applicable. Investors should note the various circumstances in which a Reference Rate Modification may be made, which are specified in paragraph (i)(A) of Note Condition 15(d) (*Additional Right of Modification in Relation to Reference Rate Cessation*) and should also note the various options permitted as a "Replacement Reference Rate" specified in paragraph (i)(B) of Note Condition 15(d).

Any such modification to, or discontinuation of, SONIA, SOFR or any replacement benchmark adopted in respect of the Notes could have a material adverse effect on the value of and return on any of the Notes. In particular, investors should note that divergent interest rate calculation methodologies may apply as between each of the Class A1 Notes and the Class A1 Swap Agreement and the Class A2 Notes and the

Class A2 Swap Agreement (if applicable) due to the applicable interest rate determination fall-back provisions, different modification provisions or other matters and the effects of this could include a reduction in the amounts available to the Issuer to meet its payment obligations in respect of the Class A1 Notes and/or Class A2 Notes, as applicable.

#### **D. Legal and Political Considerations**

##### **Social, Legal, Political and Economic Factors Affect Consumer Credit Payments and Repayment of the Notes and are Unpredictable**

Changes in consumer credit use, borrowing and payment patterns, amounts of yield on the Securitised Portfolio generally and the creditworthiness of, and rates of delinquencies and defaults by, Obligors may result from a variety of social, legal, political and economic factors in the United Kingdom generally or in any particular region where there is a concentration of Obligors from time to time. Social factors include changes in public confidence levels, such as may result from concerns about the state of the economy or public health matters (for example, a widespread epidemic or pandemic like the current COVID-19 pandemic), attitudes toward incurring debt, perception of the use of consumer credit and the reputation of the NewDay Group. Economic factors include the rate of inflation, the unemployment rate and relative interest rates offered for various types of credit. For example, a severe deterioration in the economy for any reason (for example, such as may result from the COVID-19 pandemic) coupled with rising unemployment and increases in the Bank of England base rate and/or any other reference rates could have a negative impact on consumer credit performance in the Securitised Portfolio (including as a result of increased credit losses, increased numbers of customers requiring or requesting forbearance and/or any related regulatory or legal interventions). Political factors include lobbying from interest groups, such as consumers and retailers, and government initiatives in consumer and related affairs and government-encouraged payment accommodations in times of economic stress, such as during a recession or public health emergency (such as the COVID-19 pandemic).

It is difficult to determine accurately whether, or to what extent, social, legal, political or economic factors will affect the future use of credit, borrowing and payment patterns, default and delinquency rates or the yield on the Securitised Portfolio generally and correspondingly the extent to which they may have an adverse impact on the Issuer's ability to make payments on the Notes.

##### **The COVID-19 Pandemic May Exacerbate Certain Risks in Relation to the Notes**

The continuing COVID-19 pandemic has had a significant impact in the United Kingdom. The pandemic has caused temporary, and in some instances permanent, closures of many businesses, resulting in unprecedented increases in unemployment and a weaker consumer outlook. The United Kingdom government introduced various economic measures in response to the pandemic, including a temporary job retention scheme, financial support for businesses and a reduction in the rate of VAT applicable to certain businesses. Additional government interventions may be implemented as the COVID-19 pandemic and its consequences continue to develop.

The impact on economic conditions of both the COVID-19 pandemic and the United Kingdom government's response to the COVID-19 pandemic remains uncertain and there are few comparable events in recent history that may provide guidance as to the economic consequences of such a global pandemic. As such, the likely extent and duration of the COVID-19 pandemic's ongoing impact on the behaviour of the Obligors, the performance of the Securitised Portfolio, the ability of third parties to perform their obligations in respect of the Securitised Portfolio and the financial markets cannot be determined at present. In addition, the COVID-19 pandemic could exacerbate numerous risks in respect of the Notes and, in this respect, see "*Reliance on Third Parties*", "*Absence of Secondary Market for the Notes, Limited Liquidity*" and "*Social, Legal, Political and Economic Factors Affect Consumer Credit Payments and Repayment of the Notes and are Unpredictable*".

##### **Changes of Law or Regulation May Adversely Affect Interests of Noteholders**

The arrangements and transactions described in this Prospectus (including those relating to the issuance of the Notes) and the ratings which are to be assigned to the Notes are based on the relevant law and administrative practice in effect as at the date hereof, and having regard to the expected tax treatment of all relevant entities under such law and practice. No assurance can be given as to the impact of any possible change to the law (including any change in regulation which may occur without a change in primary

legislation), administrative practice or tax treatment after the date of this Prospectus nor can any assurance be given as to whether any such change would adversely affect the ability of the Issuer to make payments under the Notes.

#### **Exit of the United Kingdom from the European Union May Adversely Affect Payments on the Notes**

Following the outcome of a referendum on 23 June 2016 and a formal notice given by the United Kingdom to the European Union on 29 March 2017 under Article 50 of the Treaty on European Union, the United Kingdom left the European Union on 31 January 2020. As of its departure, the EU treaties ceased to apply to the UK. However, as part of the withdrawal agreement agreed between the UK and the EU (the "**Withdrawal Agreement**"), the UK is now in an implementation period (the "**Implementation Period**") during which EU law continues to apply in the UK, and the UK continues to be a part of the EU single market, until the end of 2020. The terms of the relationship between the UK and the EU following the end of the Implementation Period are presently unclear, as the Withdrawal Agreement does not in general address the terms of such future relationship, which will need to be the subject of a separate agreement which has not yet been negotiated.

The outcome of the referendum, the exit process and the negotiations surrounding the future relationship have resulted in political (including UK constitutional), legal, regulatory, economic and market uncertainty, the effects of each of which could adversely affect the Notes and the interests of Noteholders. Such uncertainty and consequential market disruption may also cause investment decisions to be delayed, reduce job security and damage consumer confidence. The resulting adverse economic conditions could affect Obligors' willingness or ability to meet their obligations, resulting in increased delinquencies and defaults in the Securitised Portfolio and ultimately negatively affecting the ability of the Issuer to pay interest and repay principal to Noteholders.

The ongoing exit process may also have an adverse effect on the Issuer, the Loan Note Issuer, the Receivables Trustee, members of the NewDay Group or other transaction parties (or, in each case, their suppliers). Depending on the terms of the UK's future relationship with the EU, such entities may become unable to perform their obligations as a result of changes in regulation, including the loss of existing regulatory rights to carry on cross-border business. Additionally, counterparties may be adversely affected by rating actions, an economic downturn or volatile and illiquid markets (including currency markets and bank funding markets) arising from the exit process and negotiations surrounding the future relationship between the UK and the EU. As a result, there is an increased risk of such entities becoming unable to fulfil their obligations which could (directly or indirectly) have an adverse impact on the ability of the Issuer to make payments of interest and repayments of principal to Noteholders. See "*Reliance on Third Parties*" above.

Finally, the exit process has resulted in downgrades of the credit ratings of the UK and the Bank of England by Fitch, Moody's and S&P. Fitch has also further downgraded such ratings since the outbreak of the COVID-19 pandemic, and both Fitch and Moody's have placed a negative outlook on their ratings, indicating the possibility of further negative rating action (which may arise as a result of the exit process or other intervening factors, for example, the COVID-19 outbreak). A country's sovereign rating affects the ratings of entities operating in its territory, and in particular the ratings of financial institutions. Further downgrades may cause downgrades to counterparties to the Transaction Documents, meaning that they may cease to have the relevant required ratings to fulfil their roles and may need to be replaced. If rating action is widespread, it may become difficult or impossible to replace such counterparties with others who have the required ratings on similar terms or at all. Moreover, a more pessimistic economic outlook for the UK in general could lead to increased concerns around the future performance of the Securitised Portfolio and accordingly the ability of the Issuer to pay interest and repay principal to Noteholders and the ratings assigned to the Notes on the Series 2020-1 Closing Date could be adversely affected.

#### **Corporate Insolvency and Governance Act 2020**

The Corporate Insolvency and Governance Act (the "**CIGA**") came into force on 26 June 2020 and introduces significant new corporate restructuring tools to the UK insolvency regime. The principal elements of the CIGA are: (i) the introduction of a new moratorium regime allowing certain eligible companies to obtain a moratorium to prevent creditors taking certain action against such eligible company for a specified period (the "**moratorium provisions**"); (ii) a prohibition on the exercise of ipso facto clauses preventing (subject to exemptions) termination, variation or exercise of other rights under a contract due to a counterparty entering into certain insolvency or restructuring procedures (the "**ipso facto termination**

**provisions**"); and (iii) a new compromise procedure which allows, among other things, for one class of creditors to bind all other classes of creditors (including secured creditors) in certain circumstances (a "**cross-class cram down**").

Neither the Issuer nor the Loan Note Issuer is expected to be an eligible company for the purposes of either the moratorium provisions or the ipso facto termination provisions of the CIGA as each of the Issuer and the Loan Note Issuer is a securitisation company within the meaning of the Taxation of Securitisation Companies Regulations 2006. However, there is no guidance on how the CIGA will be interpreted, and the Secretary of State may by regulations modify the exceptions to its application.

Further, although the Issuer and the Loan Note Issuer are theoretically within the scope of the new cross-class cram down provisions, given that the Issuer and the Loan Note Issuer are established as insolvency remote vehicles with limited third party creditors and given that the Issuer, the Loan Note Issuer and their Secured Creditors are bound by non-petition covenants and limited recourse provisions, they are unlikely to fulfil the prerequisites for the cross-class cram provisions down to apply in practice. If, however, the cross-class cram down provisions were to be used in respect of the Issuer and/or the Loan Note Issuer it would be possible, in certain circumstances, for 75 per cent. by value of the creditors in one class to approve a compromise and thereby "cram down" dissenting classes of creditors, which, if approved by the court, may result in material losses being incurred by Noteholders.

#### **E. Regulatory and Other Risks Relating to the Assets**

##### **The Obligations of the Obligor under the Designated Accounts are Unsecured**

The Transferor will assign only the benefit of the Receivables arising under Designated Accounts, which consist or will consist of unsecured monetary obligations of Obligor under the agreements establishing the Designated Accounts, together with the benefit of certain amounts of Acquired Interchange, Dilution Refunds, acquired recoveries, insurance proceeds and payments under certain guarantees of Obligor's obligations (to the extent capable of assignment). No security has been given by any Obligor for any such monetary obligations, and the Originator has no interest (and, therefore, cannot assign the benefit of any interest) in any property acquired by an Obligor with the proceeds of any credit extended to an Obligor under a Designated Account. Should enforcement action be necessary against an Obligor, no direct recourse could be had to any assets of such Obligor. There is a risk that, in such circumstances, the Receivables owed by that Obligor may not be recoverable in full. If losses on the Receivables are sufficiently large across the Securitised Portfolio, this may ultimately impact the Issuer's ability to make payments on the Notes (see "*The Issuer's Ability to Meet its Obligations on the Notes Depends on the Receipt of Sufficient Funds from the Series 2020-1 Loan Notes*" above for further details).

##### **Failure to Notify Obligor of the Transfer of Receivables Could Delay or Reduce Payments on the Notes**

The transfer by the Transferor to the Receivables Trustee of the benefit of the Receivables is governed by English law and does not give the Receivables Trustee full legal title to the Receivables. Legal title to the Receivables remains with the Originator. A legal assignment of such Receivables from the Originator to the Receivables Trustee (which may be executed by the Receivables Trustee pursuant to the power of attorney granted by the Originator in favour of the Transferor and the power of attorney granted, in turn, by the Transferor in favour of the Receivables Trustee) together with the delivery of notice of such assignment would effect the transfer of the legal title to the Receivables to the Receivables Trustee. No notice has been given to Obligor of the transfers effected on or prior to the Series 2020-1 Closing Date, and no notice is expected to be given to the Obligor of any future transfers of Receivables to the Receivables Trustee. The Receivables Trustee has agreed that execution of a legal assignment will not take place unless a Notification Event has occurred.

The Receivables Trustee's lack of legal title to the Receivables has several legal consequences which could adversely affect the Receivables Trustee's interest in the Receivables and consequently could delay or reduce payments on the Notes:

- (a) the relevant Obligor will discharge their obligation under the Designated Accounts by making payments to the Originator;

- (b) prior to the insolvency of the Originator, if an Obligor has a claim against the Originator (whether under the terms of his or her Credit Agreement or otherwise), equitable set-offs may accrue in favour of the Obligor against his or her obligation to make payments to the Originator under the Designated Account. These rights may result in the Receivables Trustee receiving reduced payments on the Receivables. The transfer of the benefit of any Receivables to the Receivables Trustee will continue to be subject both to any prior equities that an Obligor had and to any equities the Obligor may become entitled to after the transfer. Once notice of a legal assignment is given to an Obligor, however, some rights of set-off may not arise after the date notice is given;
- (c) the Receivables Trustee would not take priority over any interest of a later encumbrancer or transferee of the Originator's rights who has no notice of the transfer to the Receivables Trustee where such later encumbrancer or transferee gives notice; and
- (d) the Originator (with the consent of the relevant Obligor or, in certain regards, unilaterally) can amend the Credit Agreement relating to a Designated Account without obtaining the Receivables Trustee's consent.

This could adversely affect the Receivables Trustee's interest in the Receivables, which could lead to a loss on the Notes.

### **Certain Legal, Tax and Regulatory Considerations**

The consumer credit industry in the United Kingdom is subject to a significant volume of complex laws, regulations, codes and standards ("**applicable laws**") which place significant duties and responsibilities on credit providers and other market participants and afford significant rights and protections to customers. Such applicable laws are implemented and enforced by a variety of judicial and regulatory bodies, and such applicable laws, as well as the associated case law and regulatory policies, are subject to ongoing development. The nature of such developments and the ultimate impact on the Securitised Portfolio is difficult to predict and therefore there is no certainty of the nature or impact of the legal or regulatory changes which may occur during the life of the Notes could have with regards to the performance of the Securitised Portfolio. Any changes which, individually or collectively, have an adverse impact on the performance of the Securitised Portfolio may ultimately have an adverse impact on the Issuer's ability to make timely payments on the Notes.

### **Consumer Credit Regulation May Impair the Collectability of the Receivables**

Investors should be aware that the provision of credit is regulated in the United Kingdom by the Financial Services and Markets Act 2000 (the "**FSMA**") and its associated secondary legislation, the Consumer Credit Act 1974 (the "**CCA**") and its associated secondary legislation, and rules and guidance in the FCA Handbook, including the Consumer Credit sourcebook ("**CONC**"), if:

- (i) it was originated prior to 1 April 2014 and (a) the customer is an "individual"; (b) the amount of "credit" as defined in the CCA does not exceed any applicable financial limit in force when the credit agreement was made (since 6 April 2008, no applicable financial limit has been in force); (c) the credit agreement is not an exempt agreement under the CCA or the Financial Services and Markets Act 2000 (Regulated Activities) Order 2001 (the "**RAO**"); or
- (ii) it was originated on or after 1 April 2014 and it is a "regulated credit agreement" as defined under the RAO, that is, an agreement which involves the provision of credit of any amount by a lender to an individual and does not fall within certain specified exemptions.

Both the FSMA and the CCA are highly detailed pieces of legislation, and breaches of their requirements, including minor breaches of a technical nature, may adversely affect the collectability of the Receivables, which may in turn result in insufficient funds being received by the Issuer to make timely payments on the Notes. Certain key risks for investors which arise in connection with the regulation of consumer credit in the United Kingdom are summarised below.

### ***Compliance with technical aspects of the CCA***

Non-compliance with the technical requirements of the CCA could render a consumer credit agreement, including the Credit Agreements relating to the Designated Accounts, unenforceable.

For agreements entered into before 6 April 2007, where such agreement is improperly executed, it may be irredeemably unenforceable in circumstances where there is a failure to comply with the requirements of the CCA as to form and content, signing and provision of copies including cancellation notices (where relevant). If a Credit Agreement related to a Designated Account has not been executed or modified in accordance with the provisions of the CCA and is completely unenforceable as a result, the Principal Receivables arising thereon will be treated as Ineligible Receivables. See "*Receivables and Servicing of Receivables – Representations*".

For agreements made on or after 6 April 2007, if origination requirements as to pre-contract disclosure, documentation and procedures are not complied with, the agreement will only be enforceable with a court order. In exercising its discretion whether to make such an order, the court will take into account any prejudice suffered by the customer and the degree of any culpability of the lender. The court has the discretion, if it appears just to do so, to amend the credit agreement, impose conditions upon its performance or to make a time order (for example, to give extra time for arrears to be cleared). Where the court is able to exercise its discretion, it will do so on a case by case basis and it is therefore difficult to predict the likelihood of court orders being obtained. In addition, ongoing information and notice requirements must be complied with. A credit agreement will be unenforceable against the customer for any period during which the lender fails to comply with certain of these requirements, including, for example, requirements as to arrears notices or notices of default sums (although any such unenforceability may be cured prospectively by the lender complying with such requirements). In addition, the customer is not liable to pay interest or default fees for any period when the lender fails to comply with requirements relating to arrears notices. Interest on the default fees stated within the notice of default sums cannot be charged until the 29<sup>th</sup> day after the day on which such a notice of default sum is given, after which time the interest is restricted to simple interest (i.e. interest may only be calculated on the principal amount of the default fee).

If an agreement were held by a court to be non-compliant with the CCA and therefore unenforceable, it would still be possible to collect payments and seek arrears from the relevant customer if he or she were falling behind with his or her payments. However, in certain circumstances, the customer would need to be made aware that the agreement is unenforceable and it would not be possible to enforce any judgment against the customer. The Originator will have no obligation to repay or account to a customer for any payments made by a customer despite the unenforceability. However, if losses ultimately arise on any Designated Account, they will be borne by the Investor Beneficiary and the Transferor Beneficiary based on their interests in the Receivables Trust. Accordingly, if such losses were to occur in respect of a significant number of Designated Accounts, Noteholders could suffer a loss on the Notes or an early redemption of the Notes.

### ***Unfair relationships***

A determination that an unfair relationship exists between the Originator and an Obligor may result in a reduction in the amounts that can be collected from that Obligor or other consequences which may adversely affect Noteholders.

Under the CCA, a court has the power to determine that the relationship between a lender and a customer arising out of a consumer credit agreement (whether alone or with any related agreement) is unfair to the customer. If the court makes such a determination, then it may make an order, among other things, requiring the lender or any assignee to repay any sum paid by the customer.

There is no statutory definition of what constitutes an unfair relationship. Instead, in deciding whether to make the determination, the court is required to have regard to all matters it thinks relevant, including the manner of enforcement of the lender's rights and the lender's conduct before and after making the credit agreement, and may make the determination even after the relationship has ended. Once the customer alleges that an unfair relationship exists, then the burden of proof is on the lender to prove the contrary. Recent court decisions have generally interpreted "unfair relationship" in a way favourable to customers. In 2014, the Supreme Court gave guidance on the operation of the unfair relationship regime in *Plevin v Paragon Personal Finance Ltd* [2014] UKSC 21. The Supreme Court stated that it was not possible to state a "precise or universal test for its application" but that such test must depend on the court's judgment of all of the relevant facts. The Supreme Court also clarified that mere compliance with the relevant regulatory rules by a creditor (or a person acting on behalf of a creditor) does not necessarily preclude a finding of an unfair relationship, as a wider range of considerations may be relevant to the fairness of the relationship than those which would be relevant to the application of the regulatory rules.

The possible unenforceability of liabilities due to a court determining that an unfair relationship exists in relation to the underlying Credit Agreement may result in unrecoverable losses on the Account to which such agreement applies. If such losses arise on the Designated Accounts, they will be borne by the Investor Beneficiary and the Transferor Beneficiary based on their interests in the Receivables Trust. Accordingly, this may result in adverse consequences such as a loss on the Notes or early redemption of the Notes.

***Liability for misrepresentation and breach of contract***

Transactions involving the use of a credit card, store card or instalment credit account, including any Designated Account, may constitute transactions under a debtor-creditor-supplier agreement for the purposes of the creditor's liability under section 75 of the CCA, which may expose the creditor to claims from the debtor for acts of the supplier. A debtor-creditor-supplier agreement includes an agreement by which the creditor advances funds to finance the debtor's purchase of goods or services from a supplier with whom the creditor has a pre-existing arrangement.

Section 75 of the CCA provides that, if a supplier (being, in the case of a credit card, store card or instalment credit transaction, the merchant who took payment) breaches a contract between the supplier and a debtor (being, in the case of a credit card, store card or instalment credit transaction on a Designated Account, the relevant Obligor) in a transaction under certain debtor-creditor-supplier agreements, or if the supplier makes a misrepresentation about the contract, the creditor (being, in the case of a transaction on a Designated Account, the Originator) may also be liable to the debtor for the breach or misrepresentation, so long as the cash price of the item or service supplied underlying the claim is more than £100 and less than or equal to £30,000.

If an Obligor were to have a claim under section 75 of the CCA against the Originator, the Obligor may have the right to reduce the amount owed to the Originator under his or her Credit Agreement by way of set-off. This right would survive the sale of the Receivables to the Receivables Trustee. As a result, the Receivables Trustee may not receive the full amount otherwise owed by an Obligor, which may in turn reduce the Loan Note Issuer's ability to make payments of interest and/or principal on the Series 2020-1 Loan Notes and the Issuer's ability to make payments of interest and/or principal on the Notes.

***Ex gratia payments***

Ex gratia payments could reduce the yield on the Securitised Portfolio to the detriment of Noteholders. In certain circumstances, the Originator may incur costs in making ex gratia payments to Obligors in circumstances where the Originator is not technically liable for such payments but may (for a variety of reasons which are common across the UK consumer finance sector) nevertheless choose to make them. These payments will reduce the amount of Collections which are available to Noteholders and may ultimately impact the Issuer's ability to make payments of interest and/or principal on the Notes.

**Authorisation and Regulation by the FCA**

The FCA is responsible for the regulation of consumer credit in the United Kingdom. The actions of the FCA may impact the origination, servicing or collectability of the Receivables and the rights of transaction parties with respect thereto and such impact could adversely affect the interests of Noteholders.

Firms carrying on consumer credit activities in the United Kingdom must be authorised by the FCA with appropriate permissions. If the lender or any broker does not hold the required authorisation and any required permissions at the time a regulated consumer credit agreement is made, then the agreement is unenforceable against the customer without a notice from the FCA or an order of the court (depending on the facts). Both the Originator and the Servicer are authorised by the FCA and hold full permissions to carry on certain consumer credit-related regulated activities. FCA authorised firms are subject to ongoing regulation and supervision by the FCA.

Where the FCA identifies a risk of consumer detriment arising from a product or practice and deems prompt action necessary to reduce or prevent that detriment, it has, among other powers, the power to use temporary product intervention rules ("**TPIRs**") to prohibit authorised persons from taking a number of actions, including entering into specified contracts with any person or with a specified person.

TPIRs are intended to offer protection to consumers in the short-term whilst either the FCA or the industry develops more permanent solutions and, in any event, are limited to a maximum duration of 12 months. The FCA also has the power to make rules limiting the cost of credit and duration of credit agreements.

These rules may prohibit an authorised person from entering into regulated credit agreements on terms which infringe these limits. In relation to agreements entered into in breach of a TPIR or the limits prescribed by the FCA, the FCA's rules may provide (i) for the relevant agreement or obligation to be unenforceable; (ii) for the recovery of any money or other property paid or transferred under the agreement; or (iii) for the payment of compensation for any loss sustained under the agreement.

The FCA has identified certain key areas of focus in the consumer credit market, many of which are of relevance to the Originator's business and hence may impact the origination, servicing and collectability of the Receivables as well as the yield on the Securitised Portfolio. For example, the FCA published the final report on its market study of credit cards on 26 July 2016, which found that, while competition in the credit card market was working fairly well, firms did not routinely address the behaviour of customers with persistently high levels of credit card debt or who repeatedly make only minimum payments. In February 2018, the FCA published a policy statement containing the final rules on persistent credit card debt, early interventions for problem debtors and unsolicited credit line increases, which came into effect on 1 March 2018. Persistent debt is defined as where, over a period of 18 months, a customer has paid more in interest, fees and charges than they have repaid of the principal. After 36 months in persistent debt, the creditor is required to take certain measures to ensure that the balance on the customer's account is paid down within a reasonable period. In accordance with these requirements, customers who have been in persistent debt for three years have been receiving letters offering ways to pay off their balance in a reasonable period of time, which is typically three to four years. If customers do not respond to these letters within a period of time set by the relevant firm, their cards must be suspended. As a result of the COVID-19 pandemic, the FCA has announced that customers should be given more time to respond to these letters, in order to avoid situations in which firms are compelled to suspend credit cards when customers are likely to most need access to credit. The temporary measures introduced by the FCA are subject to ongoing review by the FCA as the COVID-19 pandemic develops and additional measures may also be introduced by the FCA.

In June 2018, the FCA published final rules and guidance in relation to "buy now, pay later" credit, including store cards. The FCA set out measures intended to reduce costs to consumers, improve sales practices, protect consumers at risk of financial difficulty and ensure repeat borrowing is consumer-led. In particular, for store cards, firms are required to give consumers an adequate explanation, before they enter into the credit agreement, of the implications of not repaying by the end of the "buy now, pay later" offer period, to remind consumers towards the end of the offer period to prompt repayment and to monitor relevant information held by them to identify customers either at risk of or in financial difficulties.

An FCA policy statement in July 2018 introduced updates to the rules in the CONC in relation to responsible lending and affordability. These changes require firms to adhere to new requirements relating to assessing a customer's creditworthiness and the extent to which the credit is affordable, and subsequent assessments for post-contractual credit increases. In July 2019, the FCA published draft guidance for consultations on the fair treatment of vulnerable customers. These measures reflect the FCA's focus on protecting consumers from harm while enabling customers to access credit where it is affordable. The final guidance was to be published during the first half of 2020, but has been delayed as a result of the COVID-19 pandemic (and may be delayed further). The FCA has also conducted a credit information market study, which included consideration of the lending practices which are directly impacted by the availability and quality of credit information, including identity verification and assessments of creditworthiness. An interim report was expected in the second quarter of 2020, but publication of this report has also been delayed as a result of the COVID-19 pandemic, and may be delayed further as the COVID-19 pandemic develops.

The FCA introduced a price cap on certain "high-cost short-term credit" products, often referred to as payday lending, in January 2015 as well as on rent-to-own products in March 2019. Although the Originator's present co-brand products are not directly impacted by these measures, were similar measures to be introduced which covered products within the Securitised Portfolio, they may affect the manner in which the Originator conducts business, and may require new compliance procedures and pricing models to be put in place. Compliance with the FCA's rules in relation to persistent debt, responsible lending and affordability, or any future temporary product intervention rules, rules limiting the cost of credit and/or the duration of credit agreements or other rules the FCA may introduce relating to the credit provided under Credit Agreements, may adversely affect the performance of the Securitised Portfolio, which may result in adverse consequences such as early redemption of, or a loss on, the Notes. Furthermore, such rules may result in the origination of fewer Receivables in respect of the Accounts, which may result in a Partial Amortisation Event or Pay Out Event occurring with respect to Series 2020-1. For additional information, see "*Series 2020-1 – Partial Amortisation Events*" and "*Series 2020-1 – Pay Out Events*".

### **FCA Measures During the COVID-19 Pandemic**

On 9 April 2020, the FCA introduced temporary measures to provide support to customers facing payment difficulties due to circumstances arising out of the COVID-19 pandemic. On 1 July 2020, the FCA updated the guidance that introduced these measures. This updated guidance will apply until 31 October 2020 and, in certain circumstances explained below, will continue to apply after that date.

These measures build on the FCA's general principle that a firm must pay due regard to the interests of its customers and treat them fairly. They include requiring firms which issue credit card and retail revolving credit products to consumers, or which have acquired credit cards and retail revolving credit debts owed by consumers, to grant customers a payment deferral for three months if the customer is already experiencing or reasonably expects to experience temporary payment difficulties as a result of circumstances relating to the COVID-19 pandemic, and wishes to receive a payment deferral. For these purposes a payment deferral is an arrangement under which a firm permits a customer to make no payments or a reduced payment under their credit card or other revolving credit agreement for a specified period without being considered to be in arrears. Customers whose payments have been deferred in this way should not lose the use of their card or other credit facility purely as a result of that payment deferral. As a result of the issuance of the updated guidance, if, following the end of any initial payment deferral period, customers are still experiencing temporary payment difficulties as a result of the COVID-19 pandemic, firms are expected to offer such customers a further three month payment deferral.

Firms are not prevented from continuing to charge interest during a deferral period. However, the FCA has indicated that, if, at the end of the initial three month period or, where the customer has been granted a further payment deferral period, at the end of the further deferral period, the customer requires forbearance, any interest accrued during the payment deferral which would not have accrued if there had been no payment deferral, should be waived.

A firm can determine (acting reasonably) that a three month full payment deferral, or extension of such deferral, is obviously not in the customer's interests, considering the customer's need for immediate temporary support and the longer-term effects of a payment deferral on the customer's situation. Where an initial or further deferral is not considered appropriate, firms are expected to offer other ways to provide temporary relief to the customer, for example by offering a payment deferral of less than three months or a partial payment deferral (i.e. a deferral of less than the full sum contractually owed) where the customer's loss of income is partial.

The FCA has explained that customers should be able to request an initial payment deferral at any point after the guidance initially came into force on 14 April 2020 until 31 October 2020. For those customers whose initial payment deferral periods end after 31 October 2020, firms will need to continue to apply the updated guidance. However, under the current revised guidance, firms will not need to grant further payment deferrals to such customers after that date. The FCA has indicated in the most recent version of their guidance that, if a customer is able to resume making regular payments, or partial payments, at the end of the initial payment deferral period, it is likely to be in their interests to do so.

Firms are also expected to review the interest rates they charge to consider whether they are consistent with the obligation to treat customers fairly in the light of the exceptional circumstances arising out of the COVID-19 pandemic and in order to ensure that they do not pose unjustifiable burdens on those customers who may be experiencing temporary payment difficulties.

The temporary measures introduced by the FCA are subject to ongoing review by the FCA as the COVID-19 pandemic develops and additional measures may also be introduced by the FCA (including as a result of the FCA's call for input published on 31 July 2020, which indicates that further FCA guidance can be expected in September 2020). These temporary measures, and any subsequent measures which may in future be taken by the FCA (including, for example, extending payment deferral measures beyond the existing two three-month periods and/or recommending initial or further payment deferral periods for customers of greater than three months), could delay and/or exacerbate any impact of the COVID-19 pandemic on the Securitised Portfolio and/or cause delays and/or reductions in the payments received by the Loan Note Issuer and the Issuer and, ultimately, in payments due on the Notes.

See *"The Originator, the Servicer and the NewDay Group - The NewDay Group's Response to the COVID-19 Pandemic"* for details of how the COVID-19 pandemic has affected the NewDay Group's servicing of the Securitised Portfolio.

### **Laws Relating to Unfair Contract Terms May Impair the Collectability of the Receivables**

The Unfair Terms in Consumer Contracts Regulations 1999 (the "UTCCRs") apply, in whole or in part, to underlying Credit Agreements entered into prior to 1 October 2015. With regard to underlying Credit Agreements made on or after 1 October 2015, the Consumer Rights Act 2015 (the "CRA") applies. Under each of the UTCCRs and the CRA, it is possible for a consumer to challenge a term in a consumer contract on the basis that it is unfair and therefore not binding on the consumer or for the regulator to take enforcement action to stop the use of terms which are considered to be unfair (although the rest of the agreement will remain enforceable if it is capable of continuing in existence without the unfair term).

The UTCCR and CRA will not generally affect terms which define the main subject matter of the contract, such as (in the case of a consumer credit agreement) the borrower's obligation to repay the principal, so long as these terms are written in plain and intelligible language and are drawn adequately to the consumer's attention. The UTCCR and CRA may affect terms that are not considered to be terms which define the main subject matter of the contract, such as (in the case of a consumer credit agreement) the lender's power to vary the interest rate.

The broad and general wording of the UTCCR and the CRA and related guidance makes any assessment of the fairness of terms largely subjective and makes it difficult to predict whether or not a court would find a particular term to be unfair. It is therefore possible that any underlying Credit Agreements made with consumers may be found to contain unfair terms, including terms that relate to the power to vary the Credit Agreements, which may result in the possible unenforceability of those terms. No assurance can be given that any regulatory action or guidance in respect of the CRA (or, in the case of Credit Agreements entered into prior to 1 October 2015, the UTCCR) will not have a material adverse effect on the underlying Credit Agreements relating to the Designated Accounts and accordingly on the Issuer's ability to make payments in full when due on the Notes.

### **Payment Services Directive**

A number of activities relating to the Securitised Portfolio are subject to regulation that could affect the amounts received by the Receivables Trustee and, therefore, the amounts which are ultimately available to make payments on the Notes. The second Payment Services Directive ("**PSD2**") came into force on 12 January 2016, with the UK transposing this into national law on 13 January 2018. PSD2 updated the regulatory framework for payment services, improving the transparency and security of payment services and extending the scope of regulation to certain payment service providers and payment services transactions that were previously unregulated. Following a multi-firm review to assess how well non-bank payment services providers were meeting the requirements to safeguard customer funds, the FCA confirmed in July 2019 that it would conduct further work in this area and take appropriate action if it identified any inadequacies from firms in the sector. Any changes which may result from the FCA's recent interest in this area (including as a result of its proposal to issue temporary guidance to strengthen prudential risk management and safeguarding arrangements in light of the COVID-19 pandemic), could affect the future yield on the Securitised Portfolio and adversely affect payments on the Notes or cause a loss on, and/or the early redemption of, the Notes.

### **Multilateral Interchange Fees Regulation**

Interchange fees received by the Originator form part of the yield on the Securitised Portfolio and investors should therefore be aware of the risks arising from regulations which affect the amount of such interchange. The regulation on interchange fees for card based payment transactions (the "**MIFs Regulation**") imposes technical and business requirements for payment card transactions within the EU, including: (i) maximum interchange fees for consumer debit and credit cards; (ii) rules allowing retailers to choose which cards to accept; and (iii) transparency rules for all transactions. The MIFs Regulation does not apply to commercial cards or three-party card schemes (as defined therein). The UK Payment Systems Regulator indicated in its annual report for 2018/2019 that it is proactively monitoring and investigating the compliance of certain credit and debit card issuers with the MIFs Regulation. In March 2020, the European Commission published a final report on the "Study on the application of the Interchange Fee Regulation", which made a number of recommendations, including strengthening the provision of transparent, simple and unblended price information for merchants and analysing whether to eliminate the special provisions for national interchange fee caps. Increased regulation in this area, including changes which may result from the European Commission's report or the Payment Systems Regulator's interest in this area, could affect the

future yield on the Securitised Portfolio and thereby decrease funds available to investors and increase the risk of non-payment and/or early redemption of the Notes.

**Recent and Ongoing Regulatory Investigations May Affect the Yield on the Securitised Portfolio and Cause a Loss on and/or the Early Redemption of the Notes**

***Inquiries into Payment Protection Insurance***

Many financial institutions have made significant payments to compensate customers who have claimed that payment protection insurance ("PPI") policies were mis-sold to them or were sold to them in a manner which gave rise to an unfair relationship (within the meaning of the CCA). The FCA imposed a deadline of August 2019 for the filing of such complaints to be eligible to be adjudicated by the Financial Ombudsman Service (the "FOS"), although this deadline will not prevent customers from bringing claims in the courts.

No member of the NewDay Group has sold or marketed any form of insurance (including PPI) to Obligor in respect of the Accounts within the Securitised Portfolio. However, certain of the Obligors took out PPI in respect of their Accounts prior to the assignment of such Accounts to the Originator and, to the extent that such insurance policies remain in force, the billed insurance premiums will constitute Principal Receivables and payments in respect of such Receivables will form part of the Collections in respect of the Securitised Portfolio. Payments are made by or on behalf of the Originator in respect of claims from Obligors in respect of historical PPI misselling and/or an unfair relationship arising in relation to PPI. Such payments are made pursuant to the contractual arrangements under which the Accounts were acquired from their prior owners and undertakings given to the FOS by the Originator that it will take responsibility for processing claims submitted by Obligors (or procuring that such claims are processed).

The cost of these payments will not be passed on to the Receivables Trustee and, to the extent that any liabilities to Obligors exist in connection with the misselling of PPI, the Originator believes that such liabilities remain, as a legal matter, with the entity which sold or marketed such product, rather than with the Originator, and Obligors would face a number of legal and practical obstacles in asserting any claim for such misselling against the Originator and setting off any such claim against the amounts owed for purchases and finance charges on their accounts. The arrangements (including commission and profit share) concerning any PPI policy may be found to give rise to an unfair relationship between the Originator and a customer. For additional information, see "*Certain Legal, Tax and Regulatory Considerations – Consumer Credit Regulation May Impair the Collectability of the Receivables – Unfair Relationships*".

***Reduction in the Rate of Interchange Caused by Potential Adverse Regulatory Rulings and MIFs Regulation May Adversely Affect Payments on the Notes***

The Originator receives interchange fees from the banks that clear transactions for merchants as partial compensation for amongst other things, taking credit risk and absorbing fraud losses. See "*The Receivables*". There have historically been and continue to be various cases brought in respect of, and regulatory investigations into, interchange fees.

In particular, recent case law has led to MasterCard's default interchange fees for cross-border transactions within the European Economic Area being held to breach EU competition laws. Similarly, Visa Europe entered into legally binding commitments with the European Commission to reduce its interchange fees. Investigations have also been undertaken by the CMA in the UK, and the Payment Systems Regulator has indicated that it is proactively monitoring and investigating the compliance of certain credit and debit card issuers with the MIFs Regulation.

These investigations, together with increased regulation in this area (see "*Certain Legal, Tax and Regulatory Considerations*" and "*Multilateral Interchange Fees Regulation*" above), may result in a reduction in interchange fee rates. This could affect the future yield on the Securitised Portfolio and adversely affect payments on the Notes or cause a loss on and/or the early redemption of the Notes.

**Decisions of the FOS Could Adversely Affect Payments on the Notes**

The FOS operates as an independent forum to resolve disputes between customers and financial services providers, including consumer credit providers. Under the FSMA, the FOS is required (on a case-by-case basis) to make decisions on complaints relating to the terms in agreements under its jurisdiction on the basis of what, in the FOS's opinion, would be fair and reasonable in all circumstances of the case. The FOS may

require a firm to make a financial payment to a complainant. Were a significant number of such awards to be made in favour of Obligors, the resultant adverse effect on the value at which the Receivables could be realised may affect the ability of the Issuer to make payments in full when due on the Notes.

### **Cyber Security and Failure of Technology**

A cyberattack, an information or security breach, or a technology failure affecting the Originator, the Servicer or a third party could adversely affect the ability of the Originator and/or the Servicer to conduct their respective origination and servicing activities. The origination and servicing operations of the Originator and the Servicer are highly dependent on the security and efficacy of the NewDay Group's infrastructure, computer and data management systems, some of which are provided by third parties. Further, customers may use personal mobile or computing devices outside of the NewDay Group's network environments. Such devices, and the networks to which they connect, have been subject to, and are likely to continue to be the target of, cyberattacks (including computer viruses, malicious or destructive code, phishing attacks, denial of service or information or other security breaches). Any such cyberattack could result in the unauthorised release, gathering, monitoring, misuse, loss or destruction of confidential, proprietary and other information, increase the Originator's or Servicer's costs to maintain and update its operational and security systems and infrastructure, cause reputational harm, attract a regulatory fine, reduce the rate at which new receivables are generated and repaid, or otherwise materially disrupt their or their customers' or third parties' network access or business operations, and (as a direct or indirect result of any of the foregoing) adversely impact the timing and amount of payments on the Notes.

### **Insolvency Proceedings in Respect of Obligors who are Resident Outside of the United Kingdom**

In respect of Obligors who are resident outside of the United Kingdom (including those who are resident in a Permitted Additional Jurisdiction), investors should be aware of the risk that the English courts may not recognise the effects of foreign insolvency proceedings in respect of such Obligors, whether under the Cross Border Insolvency Regulations 2006 or any similar common law principles. The non-recognition in the English courts of foreign insolvency proceedings relating to Obligors could adversely impact recoveries from those Obligors, which would in turn affect the Issuer's ability to make payments on the Notes.

## **F. Risks Related to Origination and Servicing**

### **Risks in Relation to Retail Partners Could Affect Portfolio Performance and Result in Delays in Payments of Principal on the Notes**

The identity of the Retail Partners and the proportion of Principal Receivables in the Securitised Portfolio originated through each Retail Partner may change from time to time and the Transferor is under no obligation to designate Accounts originated through any Allowed Retail Partner as Designated Accounts. In addition, the Accounts associated with a given Retail Partner may have different performance characteristics from Accounts associated with other Retail Partners and those performance characteristics may change from time to time. Arrangements with Retail Partners are also subject to change from time to time and may be terminated or amended in accordance with their terms or as a result of the occurrence of a termination event. Any such termination or amendment may, in addition to affecting or terminating the origination of further Accounts through the relevant Retail Partner, affect the performance of the Accounts originated through that Retail Partner or the proportion of Principal Receivables in the Securitised Portfolio originated through that Retail Partner. In particular, if a Retail Partner were to cease trading, restructure its operations (including through the temporary or permanent closure of stores or other sales channels) or go through an insolvency process (in each case, including as a result of the COVID-19 pandemic and its economic effects), this may have a negative effect on the performance of the Securitised Portfolio. As a result of these factors, over time, the performance of the Securitised Portfolio may change as a result of the proportional share and performance of the Accounts originated via each of the Retail Partners.

If a Retail Partner were to cease trading, any Obligors holding a store card or a similar product would cease to be able to use such products, which may also adversely affect the behavioural patterns of such Obligors, and payment rates on the Accounts originated via that Retail Partner may reduce and/or charge-off rates and dilutions (including, in particular, dilutions caused by claims in respect of the relevant Retail Partner's failure to accept returned goods) on such Accounts may increase. If arrangements with a Retail Partner terminate and spending privileges on the related Accounts are withdrawn, this may also affect the behavioural patterns of Obligors and may have an impact on payment rates and/or charge-off rates. In each

case, this may also lead to the occurrence of a Pay Out Event in respect of Series 2020-1 and/or could result in Noteholders receiving principal on the Notes later than expected.

**The COVID-19 Pandemic has Affected, and May Continue to Affect, the Originator's Ability to Originate New Accounts and Generate Receivables**

The COVID-19 pandemic has resulted in government-mandated temporary closures of stores operated by Retail Partners and significant restrictions on access to such stores upon reopening. These closures and ongoing restrictions have affected, and may continue to affect, the Originator's ability to originate new Accounts through such sales channels and generate new Receivables via customer spending with such Retail Partners and may also have an adverse effect on the trading and financial position of the affected Retail Partners.

A decline in new Account origination or Receivables generation through in-store Retail Partner sales channels and/or a decline in the trading performance of a Retail Partner may affect the overall amount of Receivables that are generated by the Originator, the number of Accounts that are available to be designated by the Transferor as Designated Accounts, the performance of the Accounts originated through that Retail Partner and/or the behavioural patterns of the relevant Obligor whose Accounts are associated with that Retail Partner and may have an impact on payment rates and/or charge-off rates. If a decline in sales were to cause any Retail Partner to cease trading, restructure its operations or go through an insolvency process, this could have the consequences outlined in "*Risks in Relation to Retail Partners Could Affect Portfolio Performance and Result in Delays in Payments of Principal on the Notes*". In each case, this may result in a Pay Out Event occurring in respect of Series 2020-1 and/or could result in Noteholders receiving principal on the Notes later than expected, as described more particularly below in "*Series 2020-1 – Partial Amortisation Events*" and "*Series 2020-1 – Pay Out Events*".

**The Performance of the Securitised Portfolio Depends on the NewDay Group's Ability to Manage Risk**

The NewDay Group selects its customers, manages their accounts and establishes terms and credit limits using proprietary scoring models and analytical techniques. These models attempt to take into account both customer behaviour and external factors to estimate the credit risk of the Accounts within the Securitised Portfolio. The use of these models may not accurately predict charge-off rates, gross yield or other relevant performance measurements in respect of the Securitised Portfolio for various reasons, including as a result of errors constructing, interpreting or using the models or the use of inaccurate assumptions or input data.

Inaccuracy of the assumptions can occur, in particular, as many of the assumptions used relate to matters that are inherently difficult to predict and beyond the control of the NewDay Group. For example, the models cannot predict an Obligor's loss of employment or illness, or all social, legal, political and economic factors and conditions (as to which, see "*Social, Legal, Political and Economic Factors Affect Consumer Credit Payments and Repayment of the Notes and are Unpredictable*"). The NewDay Group relies on data provided by Obligors and other third parties, such as credit reference agencies, for use in its models. This data may be inaccurate or misleading.

As such, the errors or inaccuracies in the NewDay Group's models may be material and could lead the Originator to make decisions to extend credit to Obligors based on inaccurate information, which may affect the performance on the Securitised Portfolio and therefore the receipt or timing of payments in respect of the Notes.

The NewDay Group has full spectrum risk capability across the co-brand business line. Higher risk customers are more likely than other customers to over-extend themselves (including by increasing their credit card or store card usage) and potentially default on their payment obligations under their Accounts. A higher than anticipated level of such defaults could adversely affect the performance of the Securitised Portfolio and therefore the receipt or timing of payments in respect of the Notes.

**Principal on the Notes may be Paid Earlier or Later than Expected if the Transferor Cannot Finance the Creation of New Receivables – Creating a Re-investment Risk to Noteholders**

The Transferor's ability to finance the creation of new Receivables arising under new and existing Accounts will affect the ability of the Originator to generate new Receivables for the Transferor to assign to the Receivables Trust. In this respect, it should be noted that, as of the Series 2020-1 Closing Date, the majority

of the Accounts within the NewDay Group's co-brand portfolio will be nominated as Designated Accounts and the Receivables thereon assigned to the Receivables Trustee. Accordingly, the principal source of funding for such portfolio, as of the Series 2020-1 Closing Date, will be the Related Debt and Associated Debt which is ultimately backed by the Receivables in the Receivables Trust. As a result, the Transferor's ability to assign new Receivables to the Receivables Trustee may be materially impacted by its ability to obtain, maintain and refinance such Related Debt and Associated Debt and/or obtain funding from alternative sources.

If there is a decline in the generation of new Receivables or new accounts for any reason, including the inability of the Transferor to fund new Receivables, this may cause the occurrence of a Pay Out Event, which would cause some or all Noteholders to be repaid some or all their principal before and/or after the Series 2020-1 Scheduled Redemption Date.

No premium will be paid upon an early redemption of the Notes. If Noteholders receive principal on the Notes earlier than expected, Noteholders may not be able to reinvest the principal at a similar rate of return.

**A Change in the Terms of the Designated Accounts May Adversely Affect the Amount or Timing of Collections and May Cause an Early Redemption of the Notes or a Downgrade of the Notes**

Only the Receivables arising under the Designated Accounts are transferred to the Receivables Trustee. The Originator will continue to own legal title to those Accounts. As the legal owner of the Accounts, the Originator retains the right (subject to the terms of the relevant Credit Agreement and the requirements of applicable law) to change the terms of the Accounts or other relevant parameters. For example, in the case of credit card and store card accounts, the Originator could change the monthly interest rate, increase or reduce the credit limits on the Accounts or reduce or eliminate fees on the Accounts and (in the case of credit card accounts) the Originator could reduce or increase the required minimum monthly payment. Changes in interest rates and fees could lower the amount of Finance Charge Receivables generated by those Accounts. This could cause a Pay Out Event to occur, which might cause an early redemption of or a loss on the Notes. This could also cause a reduction in the credit ratings on the Notes.

Investors should note that there are some contractual limits placed on the Originator's discretion:

- (a) the Transferor has agreed to procure that, except as otherwise required by law or as may be determined by the Originator to be necessary in order to maintain its FCA authorisation and permission to carry out consumer credit related regulated activities, based upon a good faith assessment by the Originator, in its sole discretion, of the nature of competition in the consumer credit business in the United Kingdom as a whole or, in the case of accounts in an additional jurisdiction, the nature of competition in the consumer credit business in that additional jurisdiction as a whole, the Originator will not reduce the monthly interest rate assessed on Receivables existing or arising under any Designated Account ("**Periodic Finance Charges**") or other fees otherwise required by law on the Designated Accounts if, as a result of such reduction, the Transferor's reasonable expectation is that a Pay Out Event would occur. See "*The Receivables*" and "*The Securitised Portfolio*".
- (b) the Transferor has permitted the Originator to change the terms of the Credit Agreements or its usual policies, procedures and practices relating to the operation of its general consumer finance business (the "**Credit Guidelines**") (including, without limitation, the reduction of the required minimum monthly payment and the calculation of the amount or the timing of finance charges, fees and charge offs, so long as this is permitted by law and regulation), unless such change (i) would, in the reasonable belief of the Transferor, cause a Pay Out Event to occur and (ii) is not made applicable to any comparable segment of credit accounts owned by the Originator and serviced by the Servicer which have characteristics equivalent or substantially similar to the Designated Accounts which are subject to such change (except as otherwise restricted by an endorsement, sponsorship or other agreement with an unrelated third party or by the terms of the relevant Credit Agreement).
- (c) for an Account to be designated as an Eligible Account, no amendment can have been made by the Originator to the terms and conditions of the Credit Agreements relating to the governing law of the agreements, the assignability of the agreements or the ability of the Originator to provide information regarding Obligors to any person assuming the Originator's rights under the Credit Agreements.

However, except as specified above, there are no restrictions (other than legal or regulatory restrictions) on the Originator's ability to change the terms of the Credit Agreements in any manner allowed by such agreements. Changes in applicable law, changes in the marketplace or prudent business practice may result in the Originator seeking to make changes of terms as referred to above.

Ultimately, any change in the terms of the Credit Agreements or the Credit Guidelines may result in reduced, delayed or accelerated payments on the Notes.

#### **Yield of Finance Charge Collections May be Affected by Changes in the Rate of Periodic Finance Charges**

Investors should be aware that the Originator has reserved the right to change the rate of Periodic Finance Charges and other fees which will be applicable from time to time to the Designated Accounts. Consequently there is a risk that the yield represented by the amount of Finance Charge Collections received during any Interest Period following any such change will not remain at the same level relative to the Rate of Interest payable by the Loan Note Issuer on the Series 2020-1 Loan Notes and this misalignment could ultimately impact the Issuer's ability to make payments on the Notes.

#### **Breach of Transferor's Representations**

The Transferor has represented and will represent in the Receivables Securitisation Deed that the assignment of each Principal Receivable to the Receivables Trustee will pass good and marketable title to the Principal Receivable and the benefit of the Principal Receivable to the Receivables Trustee free of any encumbrances upon the Principal Receivable in favour of any person claiming through or under the Originator or its affiliates subject to (a) the execution of a legal assignment of such Principal Receivable to the Receivables Trustee and the perfection of such assignment by the giving of a notice of assignment to the relevant Obligor and (b) any limitations arising on enforcement in the jurisdiction of the relevant Obligor.

None of the Loan Note Issuer, the Receivables Trustee, the Issuer, the Security Trustee, the Note Trustee, the Arrangers, the Co-Arranger or the Joint Lead Managers has undertaken or will undertake any investigations, searches or other actions to verify the details of the Receivables – other than steps taken by the Issuer to verify the details of the Receivables that are presented in this Prospectus – or to establish the creditworthiness of any Obligor on the Designated Accounts. The Loan Note Issuer, the Receivables Trustee and the Issuer will rely solely on the representations given by the Transferor to the Receivables Trustee about the Receivables, the Obligors on the Designated Accounts, the Designated Accounts and the effect of the assignment of the Receivables.

If any representation made by the Transferor in respect of any Principal Receivable assigned to the Receivables Trustee proves to have been incorrect when made, the Transferor will be required to pay to the Receivables Trustee an amount equal to the face amount thereof and that Principal Receivable may thereafter be re-assigned to the Originator for nominal consideration and will not be funded by the Loan Note Issuer. The obligation of the Transferor to make such payment to the Receivables Trustee may be fulfilled in whole or in part by a reduction in the amount of the Transferor Interest or the Originator VFN Excess Amount of the Originator VFN Investor Interest, **provided, however, that** no such decrease will cause either the Transferor Interest or the Originator VFN Excess Amount to be decreased to an amount less than zero. If the Transferor becomes insolvent, the Receivables Trustee may be unable to compel the Transferor to make any payment in respect of a breach of any representation relating to the Receivables, and Noteholders could incur a loss on the Notes and/or an early redemption of the Notes. See "*Receivables and Servicing of Receivables – Representations*".

#### **The Occurrence or Absence of Disposals of Defaulted Receivables and Debt Recovery Receivables May Affect the Performance of the Securitised Portfolio**

As an ordinary part of the recoveries process, Defaulted Receivables and Debt Recovery Receivables may, after being reacquired from the Receivables Trustee by the Transferor (see "*Receivables and Servicing of Receivables – Call Options*"), be sold to third-party debt purchasers. To the extent such sales involve Debt Recovery Receivables, the Transferor will reacquire such Receivables from the Receivables Trustee at a purchase price equal to the aggregate balance of such of those Receivables that constitute Eligible Receivables (which is likely to enhance the level of Collections as compared to not repurchasing those Receivables and therefore may reduce the likelihood of a loss on the Notes or an early redemption of the

Notes occurring). To the extent such sales involve Defaulted Receivables, the Transferor will reacquire such Receivables from the Receivables Trustee at a purchase price equal to the aggregate of £1 and the subsequent recoveries or sale proceeds in respect of such Receivables (which, in the case of third party sale proceeds, may enhance the level of Collections and therefore may reduce the likelihood of a loss on the Notes or an early redemption of the Notes occurring). The NewDay Group has historically made use of both one-off and regular "forward flow" debt sale contracts in relation to the co-brand portfolio, but faces increased challenges in entering into new contracts with third-party debt purchasers in the current debt sale market. If the sale of Defaulted Receivables and Debt Recovery Receivables to third party debt purchasers becomes impossible, or possible only at lower volumes and/or on less favourable terms, the Collections received in respect of Defaulted Receivables and Debt Recovery Receivables would be reduced, which may increase the likelihood of a loss on the Notes or an early redemption of the Notes occurring.

**Credit Quality of the Receivables Trust's Assets May be Eroded by the Addition or Removal of Accounts Which Could Adversely Affect Collections of Receivables**

The Transferor may designate additional credit card or charge card accounts as Designated Accounts and offer the Receivables Trustee an assignment of the Receivables arising under such additional Designated Accounts. These accounts may include accounts that were originated or acquired using criteria that are different from those applicable to the accounts from which Receivables were originally assigned to the Receivables Trustee. For example, they could be originated at a different date or with different underwriting standards, or they could be acquired from another institution that used different underwriting standards. Additionally, Designated Accounts originated with different Retail Partners may have different performance characteristics or performance characteristics that change over time. There can also be no assurance as to the proportional volumes of Principal Receivables in the Securitised Portfolio originated through each Retail Partner and these are subject to change over time. Consequently, there can be no assurance that accounts that become Designated Accounts in the future will have the same credit quality or other characteristics as the Designated Accounts on the Series 2020-1 Closing Date. In addition, the acquisition by the Originator of Accounts originated by third parties may result in the assumption of associated costs, including costs incurred in making ex gratia payments to Obligor in circumstances where the Originator is not technically liable but may (for a variety of reasons which are common across the UK consumer finance sector) nevertheless meet. This could adversely affect Collections on the Receivables. If this occurred, Noteholders could suffer an early redemption of, or a loss on, the Notes.

Notwithstanding the foregoing, the Transferor is not entitled to nominate additional Designated Accounts which do not satisfy the Maximum Addition Amount criteria (which limit the number of accounts which may be nominated as Designated Accounts in a given period) without receiving a Rating Confirmation in respect of the nomination of such Accounts. See "*The Receivables: Assignment of Receivables to the Receivables Trustee*".

The arrangements with Retail Partners pursuant to which Designated Accounts within the Securitised Portfolio are originated may expire, or (if certain circumstances occur) otherwise be terminated, prior to the repayment in full of the Notes. As at the Series 2020-1 Closing Date, certain of those arrangements contain, and future arrangements with other Retail Partners, may contain, provisions entitling the relevant Retail Partner (or its nominee) to acquire the Designated Accounts originated pursuant to those arrangements upon their expiry or termination. If the Designated Accounts originated via one or more Retail Partners were to be acquired as a result of such arrangements, the Receivables Trustee would be required to re-assign the Receivables arising on those Designated Accounts to the Transferor, in consideration for the Transferor paying to the Receivables Trustee an amount equal to the aggregate amount of Eligible Receivables standing to the credit of those Designated Accounts, less any credit balances on such Accounts. The removal of the Receivables arising on those Designated Accounts from the Securitised Portfolio could change the average credit quality or other overall characteristics of the Securitised Portfolio and, as a result, payments of principal and interest on the Notes may be delayed, reduced or accelerated and/or a Pay Out Event may occur. See also "*Competition in the UK Consumer Credit Industry and Retail Partner Agreement Terminations Could Lead to Early Redemption of the Notes*".

**The Interest Rate Payable on Each Series 2020-1 Loan Note May Increase Without a Corresponding Change in Interest Rates on the Designated Accounts, Potentially Causing a Loss on the Notes or Early Redemption of the Notes**

In line with the rest of the UK consumer credit sector, the Originator may apply differential interest rates to each product offering, some of which may be fixed or fixed for predetermined periods. The majority of

the Designated Accounts have monthly interest rates that are linked to the Bank Rate, subject to the Originator's ability to change the interest rate at its discretion (insofar as permitted by relevant consumer credit legislation, regulation and guidance). The rate of interest payable by Obligor affects the amount of Finance Charge Collections the Receivables Trustee can pay to the Loan Note Issuer to fund interest payments on the Series 2020-1 Loan Notes then outstanding. The interest rate paid on the Series 2020-1 Loan Notes will be based on SONIA, which is a floating reference rate. Accordingly, the interest payable on the Series 2020-1 Loan Notes could increase without a corresponding increase in the amount of Finance Charge Collections. If this occurred, Noteholders could suffer a loss on the Notes or an early redemption of the Notes could occur.

#### **Commingling of Collections may Delay or Reduce Payments on the Notes**

Collections from Obligor in respect of the Designated Accounts and collections from Obligor in respect of non-securitised accounts owned by the Originator will initially be paid to collection accounts (the "**Primary Collection Accounts**") held in the name of Santander UK, acting as a collection agent bank for the Originator, and then swept into the Transferor Collection Account, which is currently held with Citibank, on a daily basis (or as soon as practicable thereafter). The Originator has declared a trust in favour of the Transferor over its rights to the Collections standing to the credit of the Primary Collection Accounts and the Transferor has declared a trust in favour of the Receivables Trustee over its rights under the trust granted by the Originator and over Collections standing to the credit of the Transferor Collection Account. Collections on the Designated Accounts will be transferred from the Transferor Collection Account to the Receivables Trustee Collection Account on the Business Day following the Date of Processing of such Collections or as soon as practicable thereafter.

For the limited time that Collections on the Designated Accounts are in the Primary Collection Accounts or the Transferor Collection Account, they may be commingled with other funds of the Originator or the Transferor and, if the accounts have not been operated in accordance with their terms or adequate records have not been kept, they may be untraceable. Consequently, if the Originator or the Transferor were to become insolvent, there may be a delay in the transfer of Collections to the Receivables Trustee if the Originator or the Transferor – or a liquidator or administrator of the Originator or the Transferor – attempted to freeze the operation of the Primary Collection Accounts or the Transferor Collection Account pending completion of any rights of tracing. Although the Series 2020-1 Liquidity Reserve is available to be drawn in such circumstances, any insufficiency in that reserve to cover payment disruptions caused by the circumstances described above could ultimately cause a delay or reduction in the payments on the Notes.

In addition, the Receivables Trustee, the Loan Note Issuer and the Transferor have agreed certain cash settlement arrangements in order to facilitate operational efficiencies for the day to day settlement of amounts due between the Receivables Trustee, the Loan Note Issuer and/or the Transferor. The Receivables Trustee has also agreed to make certain refundable advance payments to the Transferor. To the extent that these advance payments represent sums of Cash Available for Investment, the Transferor has agreed to hold them on trust for the Receivables Trustee in the Transferor Collection Account, and to only apply them in accordance with the Receivables Trust Deed and Servicing Agreement and any supplements thereto. To the extent that the Transferor holds any such sums on trust for the Receivables Trustee, the same considerations mentioned above in relation to Collections held in the Transferor Collection Account will apply to such sums.

#### **If the Transferor Opts to Treat a Portion of Principal Receivables as Finance Charge Receivables or Opts to Provide Cash Advances to the Receivables Trustee to be Treated as Additional Finance Charge Collections, an Early Redemption of the Notes Could Occur or Could be Delayed**

The Transferor may opt to cause a percentage of Receivables that would otherwise be treated as Principal Receivables to be treated as Finance Charge Receivables. This is called a discount option (the "**Discount Option**"). If the Transferor were to exercise this Discount Option, it could prevent a Pay Out Event from occurring because of a reduction of the Portfolio Yield, which could delay an early redemption of the Notes at a time when the performance of the Securitised Portfolio is deteriorating. The application of the Discount Option is at the option of the Transferor and the Transferor may change the percentage that applies or cease applying the Discount Option at any time. This Discount Option, if exercised, will reduce the aggregate amount of Principal Receivables, which may increase the likelihood that the Transferor will be required to designate additional Accounts from which Receivables will be assigned to the Receivables Trustee. If the Transferor were unable to designate additional Accounts, a Pay Out Event could occur and Noteholders could receive payments of principal on the Notes earlier than expected.

In addition, the Transferor has, as a result of the COVID-19 pandemic, entered into an addendum to the Receivables Trust Deed and Servicing Agreement on or about 5 October 2020 (the "**RTDSA Transferor Advance Addendum**") that gives the Transferor the ability to provide support for the Securitised Portfolio in the future. Pursuant to the RTDSA Transferor Advance Addendum, the Transferor has the option of providing cash advances (the "**Transferor Advances**") to the Receivables Trustee in relation to specified Collection Periods, with such Transferor Advances treated as additional Finance Charge Collections. If the Transferor were to provide Transferor Advances, it could prevent a Pay Out Event from occurring because of a reduction of the Portfolio Yield, which could delay an early redemption of the Notes at a time when the performance of the Securitised Portfolio is deteriorating. The provision of Transferor Advances is at the option of the Transferor and the Transferor may cease providing Transferor Advances at any time. See "*The Receivables Trust – Transferor Advances*" for further details.

**If the Servicing Fee is Reduced and/or the Investor Beneficiaries and the Transferor Beneficiary Agree to Reduce the Portion of the Servicing Fee Paid by the Investor Beneficiaries, an Early Redemption of the Notes Could be Delayed**

The Transferor has, as a result of the COVID-19 pandemic, entered into an addendum to the Receivables Trust Deed and Servicing Agreement on or about 5 October 2020 (the "**RTDSA Servicing Fee Addendum**") in order to enable the reduction in the future, indefinitely or temporarily, of the amount payable in respect of the Servicing Fee, for so long as NewDay Cards Ltd is the Servicer, so as to reduce the expenses of the Receivables Trust and/or the Investor Beneficiaries. Pursuant to the RTDSA Servicing Fee Addendum, for so long as the Servicer is NewDay Cards Ltd:

- (a) the Servicer has the option of waiving a portion of the Servicing Fee temporarily or indefinitely (the "**Servicer Fee Waiver**"); and/or
- (b) the Transferor Beneficiary may elect to make certain directions, the effect of which would be to reduce the portion of the Servicing Fee funded by the Investor Beneficiaries and to increase the portion of the Servicing Fee funded by the Transferor Beneficiary (the "**Investor Beneficiary Waivers**").

If any Servicer Fee Waiver and/or any Investor Beneficiary Waivers were effected, they could therefore prevent a Pay Out Event from occurring, which could delay an early redemption of the Notes at a time when the performance of the Securitised Portfolio is deteriorating. The provision of any Servicer Fee Waiver is at the option of the Servicer and the Servicer may cease providing any Servicer Fee Waiver at any time. The provision of Investor Beneficiary Waivers is at the option of the Investor Beneficiaries (at the direction of the Transferor Beneficiary) and the Investor Beneficiaries (at the direction of the Transferor Beneficiary) may cease providing Investor Beneficiary Waivers at any time. The Servicer may, subject to conditions, terminate the RTDSA Servicing Fee Addendum, any Servicer Fee Waiver and/or any Investor Beneficiary Waivers at any time. See "*Servicing of Receivables – Servicing Fee Addendum to the RTDSA*" for further details.

**Competition in the UK Consumer Credit Industry and Retail Partner Agreement Terminations Could Lead to Early Redemption of the Notes**

The consumer credit industry in the United Kingdom is highly competitive. There is increasingly competitive use of advertising, digital and online offerings, targeted marketing and pricing competition in interest rates, loyalty schemes and fee levels as both traditional and new consumer credit businesses seek to expand their presence in or enter the UK sector and compete for customers.

This competitive environment, and any failure by the Originator to respond to such competition, may affect the Originator's ability to originate new accounts and generate new Receivables and may also affect the level of retention of existing accounts. As at the Series 2020-1 Closing Date, Designated Accounts are originated through sales channels made available by a number of Retail Partners. There can be no assurance that the NewDay Group will be able to maintain access to, or the level of originations through, those sales channels beyond the presently contracted period or add new sales channels to replace any that are lost or have lower levels of originations. The loss of any such sales channels (whether through the termination of agreements with Retail Partners or otherwise), the acquisition by a Retail Partner (or its nominee) of any Accounts originated through such sales channels (whether pursuant to the exercise of a purchase option granted in favour of that Retail Partner or otherwise) or a decline in new Account origination through such sales channels, the performance characteristics of the Accounts associated with a Retail Partner or the

trading performance of a Retail Partner may affect the overall amount of Receivables that are generated by the Originator and the number of Accounts that are available to be designated by the Transferor as Designated Accounts, which may result in a Partial Amortisation Event or Pay Out Event occurring in respect of Series 2020-1, as described more particularly below in "*Series 2020-1 – Partial Amortisation Events*" and "*Series 2020-1 – Pay Out Events*".

## **G. United Kingdom Tax Considerations**

### **The Taxation of Securitisation Companies Regulations 2006**

If the Taxation of Securitisation Companies Regulations 2006 (the "**TSC Regulations**") apply to a company, then, broadly, it will be subject to corporation tax on the cash profit retained by it for each accounting period in accordance with the applicable Transaction Documents. Based on advice received, each of the Issuer and the Loan Note Issuer expects to be taxed under the special tax regime for which provision is made by the TSC Regulations.

Investors should note, however, that the TSC Regulations are in short-form and advisors rely significantly upon guidance from the UK tax authorities when advising on the scope and operation of the TSC Regulations including whether any particular company falls within the regime.

Investors should note that, if the Issuer or the Loan Note Issuer did not fall to be taxed under the regime provided for by the TSC Regulations, then their profits or losses for tax purposes might be different from their cash position and there might be a risk of the Issuer or the Loan Note Issuer incurring unfunded tax liabilities. In particular, the deduction of interest paid on the Notes and/or the Series 2020-1 Loan Notes could be disallowed for United Kingdom corporation tax purposes which could cause a significant divergence between the cash profits and the taxable profits of the Issuer and the Loan Note Issuer, respectively. Any unforeseen taxable profits in the Issuer or the Loan Note Issuer could have an adverse effect on their ability to make payments to the Issuer and the Noteholders, respectively.

## **H. U.S. Tax Considerations**

### **Risks Related to Alternative Characterisation of the Notes as an Equity Interest in the Issuer for U.S. Federal Income Tax Purposes**

The U.S. federal income tax characterisation of certain junior Classes of the Notes, particularly the Class E Notes and the Class F Notes, is not certain. If such Notes were to be classified as equity for U.S. federal income tax purposes, this could have materially adverse effects for U.S. investors in those Notes. See "*Certain U.S. Federal Income Tax Considerations – Tax Treatment of Notes Classified as Equity*".

### **U.S. Federal Income Tax Changes**

The United States enacted federal tax legislation, commonly referred to as the Tax Cuts and Jobs Act ("**TCJA**"), in November 2017. There are a significant number of technical issues and uncertainties with respect to the interpretation and application of the TCJA, which may or may not be clarified by future guidance. It is not possible to predict whether such legislation, or such clarifications, will result in adverse consequences to the Issuer or to investors in the Notes. Potential investors in the Notes should consult their tax advisers with respect to the effects of the TCJA and monitor future guidance issued with respect to the TCJA.

More recently, on 27 March 2020, the Coronavirus Aid, Relief, and Economic Security Act (the "**CARES Act**") was signed into law. The CARES Act made numerous changes to the Internal Revenue Code of 1986, as amended, that could impact the tax considerations that may be relevant to investors in acquiring, holding or disposing of Notes. Investors should consult their own tax advisers regarding the impact that the CARES Act and any other potential amendments to relevant tax law may have on their ownership, acquisition and disposal of Notes.

**REGULATORY DISCLOSURE**

*The following outlines certain matters that may be relevant to some investors. It does not purport to be a comprehensive list of regulatory matters that pertain to all investors. Investors are responsible for analysing their own regulatory position.*

**EU Securitisation Regulation Requirements*****Risk Retention***

The Transferor, as originator of the securitisation detailed in this Prospectus and of which the issue of the Notes forms part for the purposes of the EU Securitisation Regulation, will be required to retain a material net economic interest in the securitisation of not less than 5 per cent. in accordance with Article 6(1) of the EU Securitisation Regulation. In connection with its regulatory obligation, the Transferor has undertaken in the Transaction Documents that it will retain a material net economic interest of not less than 5 per cent. of the nominal value of the securitised exposures in accordance with Article 6 of the EU Securitisation Regulation until the Series 2020-1 Final Redemption Date by way of a retention in accordance with Article 6(3)(b) of the EU Securitisation Regulation of an originator's interest of not less than 5 per cent. of the nominal value of the securitised exposures, subject always to any requirement of law and **provided that** the Transferor will not be in breach of such undertaking if it fails to so comply due to events, actions or circumstances beyond the control of the Transferor.

The form of the retention of the originator's interest will be through the Transferor's holding of the Originator VFN Loan Note in an amount of not less than 5 per cent. of the Outstanding Face Amount of Eligible Receivables. The continued compliance of the Transferor with its undertaking to maintain its interest in accordance with the EU Securitisation Regulation will be disclosed in investor reports which will be made available to Noteholders on a website (which, in the Servicer's view, meets the requirements of Article 7(2) of the EU Securitisation Regulation) notified by the Servicer (on behalf of the Loan Note Issuer) to the Noteholders on or prior to the first Interest Payment Date and/or any other website or service which may be subsequently notified by the Servicer (on behalf of the Loan Note Issuer) to the Noteholders. For the avoidance of doubt, the contents of any such website or service do not form part of this Prospectus.

The Transferor will grant security over and otherwise deal with the retention in a manner permitted under Article 6 of the EU Securitisation Regulation. Should the enforcement of that security or any consequences arising from those dealings or any other reason (including the sale or other disposal of the retention in the insolvency of the Transferor) or events, actions or circumstances beyond the control of the Transferor result in the Transferor ceasing to retain a material net economic interest in the Originator VFN Loan Note as specified above, then there would no longer be a retention in compliance with Article 6 of the EU Securitisation Regulation.

***Designated Entity***

For the purposes of Article 7(2) of the EU Securitisation Regulation, the Loan Note Issuer as securitisation special purpose entity has been designated as the entity responsible for fulfilling the information requirements of Article 7 of the EU Securitisation Regulation.

***Regulatory Disclosure Obligations of the Loan Note Issuer***

The EU Securitisation Regulation (and, in particular, Article 7 of the EU Securitisation Regulation) imposes certain enhanced disclosure requirements on securitisation special purpose entities, originators and sponsors of securitisation transactions under which any securities are issued after 1 January 2019. Such requirements include the disclosure, on a periodic basis, of information in relation to the underlying exposures. Article 7 of the EU Securitisation Regulation provides for the development of regulatory technical standards and implementing technical standards (together, the "**Technical Standards**") which specify the information which must be provided in order to comply with certain of these periodic disclosure requirements and the standardised templates on which such information must be provided.

The final versions of the Technical Standards were published in the Official Journal of the European Union on 3 September 2020, and came into force on 23 September 2020. The ongoing disclosure and reporting obligations in respect of the securitisation transaction described in this Prospectus must be carried out in accordance with the requirements laid down in the Technical Standards.

The Technical Standards contemplate that it will be permissible in some cases for a reporting entity to disclose only that it has no data in respect of certain matters. However, the number of fields where "no data" reporting is acceptable is restricted as per the guidelines set out in the Technical Standards. Furthermore, it should be noted that Commission Delegated Regulation (EU) 2020/1229 is directing the securitisation repositories (being a legal person who, pursuant to the EU Securitisation Regulation, centrally collects and maintains the records of securitisations) to reject data submissions where certain thresholds on the use of "no data" reporting is exceeded.

It should be noted that the securitisation repository technical standards were published in the Official Journal of the European Union on 3 September 2020 and came into force on 23 September 2020. ESMA can receive applications for registration as a securitisation repository only after such date. As a result, as of the Series 2020-1 Closing Date, no securitisation repositories will exist.

The Loan Note Issuer is the entity designated under Article 7(2) of the EU Securitisation Regulation responsible for providing the information set out in Articles 7(1)(a)-(g), and the Loan Note Issuer appoints the Servicer to assist it in satisfying the Loan Note Issuer's obligation under Article 7(2) of the EU Securitisation Regulation. The Servicer's ability to provide such assistance, including by providing the required information in the prescribed formats under the transitional and final arrangements, is subject to the operation of the Servicer's systems and the availability of relevant data. Consequently, following consultation with the Servicer regarding both the transitional and final requirements, the Loan Note Issuer expects, subject to the uncertainty described in the immediately preceding paragraph and the provision by the Servicer of the requisite assistance, that it will be capable of complying with its disclosure obligations under Article 7 of the EU Securitisation Regulation.

#### ***Contractual Obligations of the Loan Note Issuer, the Servicer and the Transferor***

In addition to their regulatory obligations mentioned above (which cannot be limited by contract), each of the Loan Note Issuer and the Transferor has undertaken in the Transaction Documents to use commercially reasonable efforts to procure that the Servicer will, and the Servicer has undertaken that it shall use commercially reasonable efforts to, on a timely basis provide all information required to be made available by the Transferor as originator on an ongoing basis pursuant to Articles 7(1)(a), (e), (f) and (g) of the EU Securitisation Regulation (subject to the applicable transitional provisions), in each case:

- (a) subject to any requirement of law and subject to and in accordance with any guidance and any transitional provisions that are then current and issued by any relevant regulator; and
- (b) **provided that** none of the Loan Note Issuer, the Transferor or the Servicer will be in breach of these undertakings if it fails to so comply, prior to the entry into force of the final Technical Standards (expected to be 23 September 2020), due to events, actions and/or circumstances beyond its control.

The Transferor has also given an undertaking in the Transaction Documents in relation to its risk retention obligation under Article 6 of the EU Securitisation Regulation, and the Loan Note Issuer, the Servicer and the Transferor have given certain other undertakings in the Transaction Documents (for example, in relation to disclosure of information) which may be of relevance to the Loan Note Issuer or the Transferor's compliance with the EU Securitisation Regulation. Certain of these undertakings are also to a commercially reasonable efforts (or similar) standard and/or subject to other provisos. Where such provisos apply, if the Transferor and/or Loan Note Issuer fails to comply with their obligations under the EU Securitisation Regulation, there may be no breach of the relevant undertaking in the Transaction Documents on the part of the Loan Note Issuer, the Transferor or the Servicer (as applicable) for such non-compliance. Affected Investors should therefore carefully consider any consequences applicable to them in relation to holding the Notes in such circumstances.

#### ***Due Diligence Obligations of Affected Investors***

Each Affected Investor that is required to comply with Article 5 of the EU Securitisation Regulation is required to independently assess and determine the sufficiency of the information described in this Prospectus and which may otherwise be made available to investors for the purposes of its initial and ongoing compliance with Article 5 of the EU Securitisation Regulation. Although the Servicer will produce the monthly investor reports (and, on behalf of the Loan Note Issuer, provide the information set out in Article 7(1)(a) to (g) of the EU Securitisation Regulation (as described in "*Regulatory Disclosure*"))

*Obligations of the Loan Note Issuer*" below)), and the Issuer may make announcements from time to time in accordance with applicable law or regulation or the Note Conditions, none of the Issuer, the Receivables Trustee, the Loan Note Issuer, the Originator, the Arrangers, the Co-Arranger, the Joint Lead Managers or any of the other transaction parties (i) makes any representation that the information described above or elsewhere in this Prospectus or which may otherwise be made available to such investors or to which such investors are entitled (if any) is sufficient for such purposes, (ii) shall have any liability to any actual or prospective investor or any other person with respect to the insufficiency of such information or any failure of the transactions contemplated herein to comply with or otherwise satisfy the requirements of Article 5 of the EU Securitisation Regulation or any other applicable legal, regulatory or other requirements; or (iii) shall have any obligation (including, but not limited to, the provision of additional information) to enable compliance by Affected Investors with the requirements of Article 5 of the EU Securitisation Regulation or any other applicable legal, regulatory or other requirements. Affected Investors should therefore be aware that, should they determine at any time, whether for their initial investment or as a result of changes following the end of the transitional period for reporting under Article 7 of the EU Securitisation Regulation or otherwise, that they have insufficient information in order to comply with their own due diligence obligations under Article 5 of the EU Securitisation Regulation, there is no obligation on the Issuer, the Loan Note Issuer, the Transferor or any other party (including, for the avoidance of doubt, the Arrangers, the Co-Arranger or any Joint Lead Manager) to provide further information to meet such insufficiency.

"**Affected Investor**" means each of EU-regulated credit institutions, EU-regulated investment firms, certain alternative investment fund managers, EU-regulated insurers or reinsurers, certain investment companies authorised in accordance with Directive 2009/65/EC, managing companies as defined in Directive 2009/65/EC, institutions for occupational retirement provision falling within the scope of Directive (EU) 2016/2341 (subject to certain exceptions), and certain investment managers and authorised entities appointed by such institutions subject thereto.

### **U.S. Credit Risk Retention**

The U.S. Credit Risk Retention Rules generally require the "sponsor" of an asset-backed securitisation transaction (or, in some cases, a majority-owned affiliate) to retain an economic interest in the credit risk of that securitisation transaction in an amount of not less than 5 per cent., in one of a number of specified ways. Under the U.S. Credit Risk Retention Rules, a "sponsor" means a person who organises and initiates a securitisation transaction by selling or transferring assets, either directly or indirectly, including through an affiliate, to the issuing entity.

The Transferor, as the "sponsor" of the securitisation transaction described in this Prospectus, intends to satisfy its risk retention requirements under the U.S. Credit Risk Retention Rules by maintaining a "seller's interest" (as defined in the U.S. Credit Risk Retention Rules) in the Receivables equal to at least 5 per cent. of the aggregate unpaid principal balance of the outstanding notes of all series, measured in accordance with the U.S. Credit Risk Retention Rules and determined at the Series 2020-1 Closing Date and monthly thereafter.

The "seller's interest" retained by the Transferor will be comprised of its combined holding of the Transferor Interest and the Originator VFN Loan Note. The Originator VFN Loan Note is exposed to a *pro rata* share of credit losses in respect of the Receivables in the Securitised Portfolio and in such respect ranks *pari passu* with the Transferor Interest. In addition, each Series Originator VFN Subordination within the Originator VFN Loan Note is exposed to credit losses allocated to the Series which it supports. Dilution Losses in respect of the Receivables in the Securitised Portfolio are borne by the Transferor through being allocated to the Transferor Interest first and then to the Originator VFN Excess Amount. See "*The Receivables Trust – General Entitlement of Beneficiaries to Trust Property*" for a description of how the Transferor Interest is computed and "*Series 2020-1 – The Originator VFN and the Series Originator VFN Subordination*" for additional information concerning the characteristics of the Originator VFN Loan Note. The Transferor expects that the seller's interest in the Receivables as at the Series 2020-1 Closing Date, measured in accordance with the U.S. Credit Risk Retention Rules, will equal at least 5 per cent. of the aggregate unpaid balance of the outstanding notes of all series issued (taking into account the issuance of the Notes on the Series 2020-1 Closing Date).

The Transferor (i) will not transfer to any party other than a wholly-owned affiliate any portion of its seller's interest that is required to be maintained by the U.S. Credit Risk Retention Rules, and (ii) will not enter into any derivative agreement or other position that reduces or limits its financial exposure to such seller's interest to the extent that such activities would be prohibited hedging activities under the U.S. Credit Risk

Retention Rules. For purposes of the foregoing, a "wholly-owned" affiliate of the Transferor means an entity (other than the Issuer) that, directly or indirectly, wholly controls, is wholly-controlled by, or is wholly under common control with, the Transferor; and "wholly controls" means ownership of 100 per cent. of the equity of the relevant entity.

In the future, the Transferor may elect to comply with the U.S. Credit Risk Retention Rules through any other means, if and to the extent permitted thereunder at that time. In making any such election, the Transferor will comply with the provisions of the U.S. Credit Risk Retention Rules, including applicable disclosure requirements.

### General

Please refer to "*Risk Factors – Risks Relating to Market Issues, Including Regulation – Increased Regulation of Securitisations May Result in Increased Requirements for Investors, Regulatory Sanctions and/or Decreased Liquidity in Respect of the Notes*" for a description of the potential consequences for investors of acquiring or holding the Notes when certain obligations of the Issuer, the Loan Note Issuer, the Transferor and/or Affected Investors under the EU Securitisation Regulation, or of the Transferor under the U.S. Credit Risk Retention Rules, have not been complied with.

### LCR Regulation

Part 6 (*Liquidity*) of the CRR, and in particular Article 412, provides a framework to ensure that Institutions (as defined in the CRR) shall hold liquid assets, the sum of the value of which should cover the Institution's liquidity outflows less its liquidity inflows under stressed conditions, so as to ensure that Institutions maintain levels of liquidity buffers which are adequate to face any possible imbalance between liquidity inflows and liquidity outflows under gravely stressed conditions over a period of 30 days. This is so that, in times of stress, Institutions may use their liquid assets to cover their net liquidity outflows.

Pursuant to Article 460 of the CRR, these liquidity coverage requirements were adopted by delegated act, namely Delegated Regulation 2015/61 supplementing the CRR dated 10 October 2014 (the "**LCR Regulation**"). In calculating an Institution's liquidity buffer as part of the liquidity coverage ratio, an Institution may take into account its "liquid assets", the criteria of which are specified in the LCR Regulation. "Level 2B securitisation assets" may count towards "liquid assets" as part of the liquidity buffer calculation.

The Issuer understands that prospective investors in the Notes may look to assess the compliance of such Notes with the criteria for Level 2B high quality liquid assets as set out in the LCR Regulation. It is noted in this regard that, on 19 November 2018, Delegated Regulation 2018/1620 amending the LCR Regulation (the "**LCR Delegated Regulation**") entered into force. The LCR Delegated Regulation requires that, among other things, securitisation exposures must qualify as simple, transparent and standardised securitisations in accordance with the EU Securitisation Regulation to qualify as Level 2B high quality liquid assets, without any grandfathering provisions. The securitisation described in this Prospectus is not the subject of an STS notification (as defined in the EU Securitisation Regulation).

Each prospective investor that is required to comply with the LCR Regulation is required to independently assess and determine the sufficiency of the information described above and elsewhere in this Prospectus and which may otherwise be made available to investors (if any) generally for the purposes of complying with the LCR Regulation (including the amendments introduced by the LCR Delegated Regulation) and none of the Issuer, the Receivables Trustee, the Transferor, the Arrangers, the Co-Arranger, the Joint Lead Managers or any of the other transaction parties makes any representation that the information described above or elsewhere in this Prospectus and which may otherwise be made available to such investors (if any) is sufficient in all circumstances for such purposes. Prospective investors who are uncertain as to the requirements under the LCR Regulation and the LCR Delegated Regulation which apply to them in respect of their relevant jurisdiction should seek guidance from their regulator.

**RECEIVABLES AND SERVICING OF RECEIVABLES**

Please refer to the sections entitled "*The Receivables*" and "*Servicing of Receivables*" for further detail in respect of the characteristics of the Securitised Portfolio and the sale and the servicing arrangements in respect of the Securitised Portfolio.

**The Receivables**

The Receivables consist of amounts charged by Obligors to designated credit card, store card and instalment credit accounts (and, in the future, may also consist of amounts charged by Obligors to charge card accounts) originated or acquired by the Originator and held on trust by it for the Transferor. The Receivables also include the Periodic Finance Charges and fees charged to such accounts.

As at the date of this Prospectus, all credit card accounts within the Securitised Portfolio that are operated through a payment system are operated through the MasterCard® system. However, credit cards and charge cards operated through the American Express®, VISA® or other payment systems may be added to the Securitised Portfolio in the future.

As at 30 June 2020, the aggregate face value of the Receivables in the Total Portfolio was £898,967,635. More detailed information regarding the Total Portfolio is provided in the section entitled "*The Receivables*". As at the 2020-1 Closing Date, the Securitised Portfolio will comprise substantially all of the Accounts within the Total Portfolio, save that it is not anticipated that any of the Accounts within the Total Portfolio which are originated via sales channels made available by Amazon will, as at the 2020-1 Closing Date, be included within the Securitised Portfolio. If any of the Accounts within the Total Portfolio which are originated via sales channels made available by Amazon are added to the Securitised Portfolio on the 2020-1 Closing Date, it is anticipated that they would comprise a representative cross-section of such Accounts and represent a small proportion of the overall Securitised Portfolio. For the avoidance of doubt, the Transferor is not obliged to designate any Accounts which are originated via sales channels made available by Amazon (or any other Allowed Retail Partner) for inclusion in the Securitised Portfolio.

**Terms of the Credit Agreements**

The Transferor only assigns Receivables arising on Designated Accounts to the Receivables Trustee and does not assign all of its rights under the Credit Agreements relating to the Designated Accounts (which rights are held on trust for it by the Originator). Furthermore, the Originator retains the right (subject to the terms of the Credit Agreements) to determine (without reference to the Transferor or the Receivables Trustee), *inter alia*, the monthly Periodic Finance Charges and other fees which will be applicable from time to time to such Designated Accounts, to alter the minimum monthly payment required on such Designated Accounts and the credit limit applicable to the Designated Accounts, and to change various other terms with respect to such Designated Accounts, including increasing or decreasing the annual percentage rate ("**APR**").

**Interchange**

Members participating in the American Express®, VISA® and MasterCard® associations receive fees as partial compensation for, amongst other things, taking credit risk and absorbing fraud losses. Under the American Express®, VISA® and MasterCard® systems, such fees are passed from the merchant acquirers that clear the transactions for merchants to card issuers. These fees are calculated

## RECEIVABLES AND SERVICING OF RECEIVABLES

as a percentage of the amount of a credit or charge card transaction for the purchase of goods or services. This percentage varies from time to time.

The Originator also receives fees directly from Retail Partners for whom it provides credit card, store card and instalment credit accounts when the credit cards, store cards and instalment credit issued in respect of those accounts are used to pay for goods and services from such Retail Partners. These fees, together with the fees received from American Express®, VISA® and MasterCard® described above, are known as "**Interchange**".

Any Interchange arising in respect of Designated Accounts is assigned to the Receivables Trustee and is generally treated in the same way as Finance Charge Collections.

### **Eligibility Criteria**

Principal Receivables may only be added to the Securitised Portfolio if they meet specified conditions. Those conditions, broadly, include:

- that the Receivable is payable in Sterling (or, in the case of Receivables from accounts in Permitted Additional Jurisdictions, the currency of that jurisdiction);
- that the Receivable does not derive from a credit card, charge card, store card or instalment credit account which has been classified by the Originator as counterfeit, cancelled, fraudulent, stolen or lost;
- that the Receivable is not a Defaulted Receivable; and
- that the relevant Obligor is an individual whose billing address is located in England, Wales, Scotland, Northern Ireland or a Permitted Additional Jurisdiction.

### **Sale and Assignment**

The Receivables arising on Designated Accounts will be assigned to the Receivables Trustee by the Transferor pursuant to the Receivables Securitisation Deed. The assignment of Receivables arising on the Designated Accounts and the circumstances where such assignments may be restricted are set out in more particular detail in the section entitled "*The Receivables – Assignment of Receivables to the Receivables Trustee*".

### **Consideration**

The consideration payable by the Receivables Trustee for the Receivables is, broadly, the outstanding balance due in respect of such of those Receivables as are Principal Receivables, plus Deferred Consideration. In the event that the Receivables Trustee does not have enough cash available to purchase a Receivable that arises on a Designated Account on any day, such shortfall may be met by an increase of the Transferor Beneficiary's interest in the Receivables Trust.

### **Representations**

Each previous offer and all future offers of Receivables to the Receivables Trustee included or will include representations by the Transferor about such of those Receivables as are Principal Receivables. The representations for Principal Receivables in existence at the time of such offer will be given as of the relevant Assignment Date and the representations for Principal Receivables yet to come into existence will be given as of the date they are processed and, broadly, will include, in each case, that:

## RECEIVABLES AND SERVICING OF RECEIVABLES

- unless identified as an Ineligible Receivable, such Principal Receivable is an Eligible Receivable and has arisen from an Eligible Account in the amount specified in the offer or daily activity report, as applicable;
- each assignment passes good and marketable title for that Principal Receivable to the Receivables Trustee, together with the benefit of any Collections and other rights in connection with it, free from encumbrances (except as provided for by applicable law) in favour of any person claiming through or under the Originator or any of its affiliates to the Receivables Trustee and, subject to any limitations arising on enforcement in the jurisdiction of the relevant Obligor, nothing further needs to be done to enforce these rights in the courts of England and Wales, Scotland or Northern Ireland, or any Permitted Additional Jurisdiction, without the participation of the Originator or the Transferor, other than (a) the execution of a legal assignment of such Receivable to the Receivables Trustee and the perfection of such assignment by the giving of a notice of assignment to the relevant Obligor and (b) the joining of the Originator and/or the Transferor as a party to proceedings by the Receivables Trustee against the relevant Obligor;
- each assignment complies with all laws applicable to the Originator or the Transferor on the date of such assignment, save where any such non-compliance would not have a material adverse effect on the ability of the Originator or the Transferor (as applicable) to conduct its business; and
- the Originator is the person by whom the legal title to the relevant Designated Account is held.

If a representation given in connection with any Principal Receivable proves to be incorrect when made, then the Transferor is obliged to pay the Receivables Trustee an amount equal to the face value of that Receivable by no later than the Transfer Date following the Collection Period during which such representation becomes known to the Transferor to be incorrect. A Receivable of this type will afterwards be treated as an Ineligible Receivable.

For further details of the eligibility criteria, together with the definitions of Eligible Receivable and Eligible Account, please see "*The Receivables*".

### **Designation of Accounts**

Receivables will only be assigned to the Receivables Trustee if they arise on credit card, charge card, store card or instalment credit accounts specified (either specifically or by reference to a given product line) by the Transferor (such accounts being "**Designated Accounts**"). On the Initial Assignment Date (being 18 December 2014), the Designated Accounts were those accounts which were specified in the Initial Offer and, subject to the following restrictions, new accounts which are originated as part of the product lines specified in the Initial Offer or any Subsequent Offer will automatically become Designated Accounts (unless specifically recorded as not being so designated on the Originator's System).

## RECEIVABLES AND SERVICING OF RECEIVABLES

After the Initial Assignment Date, accounts which have been originated via sales channels made available by a retailer may only be specified as Designated Accounts if that retailer is an "**Allowed Retail Partner**". As at the Series 2020-1 Closing Date, the only Allowed Retail Partners are the members of the Amazon, Arcadia, Debenhams, House of Fraser and Laura Ashley corporate groups, but additional retailers may be added subsequently, **provided that** a Rating Confirmation is obtained in respect of that addition.

The Transferor has undertaken to the Receivables Trustee that it will not specify Accounts originated via Amazon which are not part of the "Amazon Platinum" product line as "Designated Accounts" unless a Rating Confirmation has been delivered in respect of such designation.

In addition, no:

- (a) charge card accounts;
- (b) instalment credit accounts; or
- (c) store card accounts originated after 31 May 2015 (other than staff store card accounts),

may be specified as Designated Accounts after the Initial Assignment Date, unless, in each case, a Rating Confirmation is obtained.

Furthermore, unless a Rating Confirmation is obtained in respect of the addition of Designated Accounts in greater numbers, the maximum number of accounts which may become Designated Accounts is, broadly:

- (a) in a given three-month period, limited (by both number and outstanding balance at point of designation) to 15 per cent. of the Securitised Portfolio; and
- (b) in a given 12-month period, limited (by both number and outstanding balance at point of designation) to 20 per cent. of the Securitised Portfolio.

If a Rating Confirmation is obtained in respect of the designation, after the Initial Assignment Date, of instalment credit accounts as Designated Accounts, then, unless a further Rating Confirmation is obtained in respect of the addition of such accounts in greater numbers, the maximum number of such accounts which may become Designated Accounts will be limited (by outstanding balance at point of designation) to 25 per cent. of the Securitised Portfolio.

Further details regarding each of the above restrictions is set out in "*The Receivables*" below.

### **Re-designation of Designated Accounts**

Each Designated Account will continue to be a Designated Account until it is re-designated and becomes a "**Re-designated Account**".

A Designated Account will automatically become a Re-designated Account with effect from the date (if any) on which it becomes:

- (a) a Defaulted Account; or

## RECEIVABLES AND SERVICING OF RECEIVABLES

- (b) a Cancelled Account.

Unless it becomes a Defaulted Account or a Cancelled Account, a Designated Account will only become a Re-designated Account with effect from the date (if any) specified in a notice (a "**Re-designation Notice**") served by the Transferor in accordance with the terms of the Receivables Securitisation Deed.

Unless a Designated Account is a Debt Recovery Account, a Zero Balance Account or an Ineligible Account, the Transferor may only serve a Re-designation Notice in respect of such Account if:

- (a) unless such Account is a Third Party Re-designated Account, such re-designation will not, in the reasonable belief of the Transferor, cause:
- (i) a Pay Out Event to occur on the relevant Re-designation Date;
  - (ii) the Transferor Interest, when aggregated with the Originator VFN Excess Amount, to be less than the Minimum Transferor Interest on the relevant Re-designation Date; or
  - (iii) the Eligible Receivables Balance to be less than the Minimum Aggregate Principal Receivables on the relevant Re-designation Date;
- (b) unless such Account is a Third Party Re-designated Account, such Account has not been selected for re-designation by a procedure believed by the Transferor to be materially adverse to the interests of any Investor Beneficiary;
- (c) the Receivables Trustee and the Rating Agencies have received notice in writing from the Transferor of the proposed re-designation and, save in the case of a Third Party Re-designated Account, a Rating Confirmation shall have been provided in respect of such re-designation; and
- (d) the Transferor has delivered to the Receivables Trustee a Solvency Certificate and an officer's certificate confirming the satisfaction of the foregoing conditions.

In the case of the re-designation of a Designated Account which is a Third Party Re-designated Account, each of the Beneficiaries must have consented to the re-designation of such Account (each Investor Beneficiary has agreed to provide such consent pursuant to the terms of the Beneficiaries Deed).

The date on which any Designated Account is re-designated is known as its "**Re-designation Date**".

For the purposes of the foregoing:

A "**Cancelled Account**" is a Designated Account (which is not a Defaulted Account or a Debt Recovery Account) which has had its charging privileges permanently withdrawn either (a) at the instigation of the Servicer or (b) at the request of the relevant Obligor, and, in either case, which has been designated by the

## RECEIVABLES AND SERVICING OF RECEIVABLES

Servicer as a "Cancelled Account" in accordance with the Credit Guidelines or the Servicer's usual servicing procedures.

A "**Debt Recovery Account**" is a Designated Account (which is not a Defaulted Account) where the relevant Obligor has been sent a notice of default in respect of such Account or is otherwise on a payment plan.

A "**Defaulted Account**" is a Designated Account where the Receivables have been charged off by the Servicer as uncollectible in line with the Credit Guidelines or the usual servicing procedures of the Servicer.

An "**Ineligible Account**" is a Designated Account on which all Principal Receivables that arise under such Account are Ineligible Receivables and on which no Eligible Receivables can be generated in the future.

A "**Third Party Re-designated Account**" is a Designated Account which is to be re-designated as a result of an arm's length arrangement on commercial terms made between the Transferor and/or the Originator and a third party which requires the transfer to such third party of specified Designated Accounts, such re-designation to occur in accordance with the terms of the Receivables Securitisation Deed.

A "**Zero Balance Account**" is a Designated Account that has had a nil balance of Receivables for a considerable period of time and has been identified by the Servicer as a Zero Balance Account under the Credit Guidelines or the usual servicing procedures of the Servicer.

The Principal Receivables arising on Re-designated Accounts that exist before the relevant Re-designation Date will be paid for by the Receivables Trustee. Any future Receivables that come into existence after that time (other than Finance Charge Receivables in respect of Receivables which are in existence prior to such Re-designation Date) will not be assigned to the Receivables Trustee, as set out in the Receivables Securitisation Deed. However, no Receivables that have been assigned to the Receivables Trustee will be re-assigned to the Transferor unless:

- (a) such Receivables relate to Re-designated Accounts which are Defaulted Accounts ("**Defaulted Receivables**") or Debt Recovery Accounts ("**Debt Recovery Receivables**") and the Transferor exercises its rights and complies with its obligations under the relevant Call Option (as described below);
- (b) such Receivables relate to Re-designated Accounts which are Third Party Re-designated Accounts and the Transferor pays the Receivables Trustee an amount equal to the aggregate balance of Eligible Receivables standing to the credit of those Re-designated Accounts;
- (c) such Receivables relate to Re-designated Accounts which are Ineligible Accounts in respect of which the Transferor has complied with its obligations in respect of the outstanding Ineligible Receivables, as described under the heading "*The Receivables – Representations*"; or

- (d) such Receivables relate to any other Re-designated Accounts in respect of which the Transferor has specified in the relevant Re-designation Notice that such Receivables are to be re-assigned and the Transferor pays the Receivables Trustee an amount equal to the aggregate balance of Eligible Receivables standing to the credit of those Re-designated Accounts.

Until money has been received by the Receivables Trustee for the assigned Receivables, the Receivables arising on a Re-designated Account will not be re-assigned.

### Call Options

Pursuant to the Receivables Securitisation Deed, the Receivables Trustee has granted to the Transferor a call option in respect of Defaulted Receivables and a call option in respect of Debt Recovery Receivables.

The Transferor may exercise either of these options by sending an assignment agreement (an "**Option Assignment**") to the Receivables Trustee stating that, at the opening of business (the "**Option Exercise Time**") on a specified date (the "**Option Exercise Date**"), it shall require the Receivables Trustee to re-assign and release to it all Defaulted Receivables on the Defaulted Accounts (or any specified Defaulted Accounts) or the Debt Recovery Receivables on the Debt Recovery Accounts (or any specified Debt Recovery Accounts), as applicable (in each case as are in existence at the Option Exercise Time) and stating the amount of Defaulted Receivables or Debt Recovery Receivables, as applicable, to be re-assigned and released to the Transferor at the related Option Exercise Time.

The consideration payable by the Transferor for such re-assignment shall:

- (a) in the case of Defaulted Receivables, be the aggregate of £1 (payable on the Option Exercise Date), and:
  - (i) any amount received from the relevant Obligor (directly or indirectly), for the avoidance of doubt excluding Insurance Proceeds, by the Transferor with respect to the re-assigned Defaulted Receivables; and
  - (ii) any consideration payable by any third party to the Transferor, including debt collection agents, for the assignment of such re-assigned Receivables (net of any costs of the Transferor in connection with such sale and any retention in respect of any provisions in respect of such sale),

the amounts specified in paragraphs (i) and (ii) being, together, the "**Sale Recoveries**" and being payable on the Transfer Date relating to the Collection Period during which the Sale Recoveries were realised; and

- (b) in the case of Debt Recovery Receivables, be an amount equal to the aggregate balance of the Eligible Receivables relating to such Debt Recovery Accounts as at the Option Exercise Date and stated in the Option Assignment.

**Discount Option Receivables**

The Transferor may, by giving at least 30 days' prior notice to the Servicer, the Receivables Trustee and the Rating Agencies, nominate a fixed or variable percentage – called the "**Discount Percentage**" – to apply to Principal Receivables arising on the Designated Accounts. If a Discount Percentage has been nominated previously, an extension to the period for which it applies can be specified in the same way. From the date and for the length of time stated in the notice: (i) the amount payable by the Receivables Trustee to accept an offer of Receivables will be reduced by the Discount Percentage and (ii) a percentage of the Principal Receivables equal to the Discount Percentage will be treated by the Receivables Trustee as Finance Charge Receivables.

**Notification Events**

The Originator has granted a security power of attorney in favour of the Transferor, and the Transferor has granted a security power of attorney in favour of the Receivables Trustee, enabling the Receivables Trustee (as attorney of the Transferor and sub-attorney of the Originator) to execute a legal assignment to it of the Originator's legal title to the Receivables. However, the Receivables Trustee has agreed that it will not execute such a legal assignment or give notice of such assignment to the relevant Obligors unless (a) a Pay Out Insolvency Event occurs with respect to the Originator or the Transferor or (b) the Transferor (or the Servicer on behalf of the Transferor) fails to pay any sum due from it to the Receivables Trustee under the Receivables Trust Deed and Servicing Agreement in respect of the Designated Accounts within five Business Days of the due date thereof or the date of demand, if payable on demand, in the currency and in the manner specified herein, and such failure is not remedied within ten Business Days after the Receivables Trustee has given notice thereof to the Transferor.

Accordingly, prior to the execution of such an assignment and the notification thereof to the Obligors, the transfer by the Transferor to the Receivables Trustee of the benefit of the Receivables takes effect in equity only. This has certain legal consequences as described in the risk factor entitled "*Failure to Notify Obligors of the Transfer of Receivables Could Delay or Reduce Payments on the Notes*".

**Servicing of the Receivables**

The Servicer has been appointed by the Receivables Trustee as initial Servicer under the terms of the Receivables Trust Deed and Servicing Agreement. Among other things, the Servicer's functions include crediting and debiting Obligors' accounts as appropriate.

The appointment of NewDay Cards Ltd as Servicer under the Receivables Trust Deed and Servicing Agreement and the appointment of any person as Servicer to replace anyone then acting as the Servicer – called a "**Successor Servicer**" – will terminate when a Servicer Default occurs and is continuing, which includes:

- material non-performance of its obligations;
- material misrepresentations;
- occurrence of an insolvency event; and
- delegation of its duties other than as permitted by the Receivables Trust Deed and Servicing Agreement.

## RECEIVABLES AND SERVICING OF RECEIVABLES

The Servicer may not resign from its obligations and duties as Servicer under the Receivables Trust Deed and Servicing Agreement unless its performance is no longer permitted under applicable law and there is no reasonable action that it could take to make it permissible. The Servicer's resignation will not be effective until a Successor Servicer has been properly appointed.

Please see "*Servicing of Receivables*" for further details.

### **Delegation**

The Servicer may delegate some or all of its servicing function to a third party, **provided that** the Servicer remains responsible for the performance of any of its servicing function so delegated. Please see "*Servicing of Receivables*" for further details.

As at the Series 2020-1 Closing Date, the Servicer has appointed Santander UK to perform certain cash management and settlement services in respect of the Securitised Portfolio and has appointed Fiserv to perform certain technical and operational services in respect of the Securitised Portfolio (please see "*The Securitised Portfolio – Servicing and Origination*" for further details).

of Noteholders**

Subject to the provisions in respect of a Basic Terms Modification:

- an Extraordinary Resolution of Noteholders of the Most Senior Class of Notes shall be binding on all other classes of Noteholders and will override any resolutions to the contrary of the classes of Noteholders ranking behind the Most Senior Class of Notes;
- unless it is materially prejudicial to the interests of the Class A2 Noteholders or the Class A3 Noteholders, an Extraordinary Resolution of the Class A1 Noteholders shall be binding on the Class A2 Noteholders and the Class A3 Noteholders and all other classes of Noteholders and will override any resolutions to the contrary of the classes of Noteholders ranking behind the Class A1 Notes;
- unless it is materially prejudicial to the interests of the Class A1 Noteholders or the Class A3 Noteholders, an Extraordinary Resolution of the Class A2 Noteholders shall be binding on the Class A1 Noteholders and the Class A3 Noteholders and all other classes of Noteholders and will override any resolutions to the contrary of the classes of Noteholders ranking behind the Class A2 Notes; and
- unless it is materially prejudicial to the interests of the Class A1 Noteholders or the Class A2 Noteholders, an Extraordinary Resolution of the Class A3 Noteholders shall be binding on the Class A1 Noteholders and the Class A2 Noteholders and all other classes of Noteholders and will override any resolutions to the contrary of the classes of Noteholders ranking behind the Class A3 Notes.

A Basic Terms Modification requires an Extraordinary Resolution of all affected classes of Notes then outstanding.

**Relationship  
between  
Noteholders and  
other Secured  
Creditors**

So long as any Notes are outstanding and there is a conflict between the interests of the Noteholders and the other Secured Creditors, the Note Trustee will only take into account the interests of the Noteholders in the exercise of its discretion.

**Provision of  
Information to  
the Noteholders**

The Servicer will (on behalf of the Loan Note Issuer) prepare monthly investor reports that will contain certain information about the Notes. Such reports will be made available to investors via the Bloomberg service and/or any other or replacement website or service designated by the Servicer (on behalf of the Loan Note Issuer) and notified to the Noteholders and/or on the website [www.newday.co.uk](http://www.newday.co.uk). In addition, the Servicer will (on behalf of the Loan Note Issuer) prepare reports containing information provided with a view to satisfying certain of the Loan Note Issuer's obligations under Article 7(1) of the EU Securitisation Regulation. Such reports will be made available on a website (which, in the Servicer's view, meets the requirements of Article 7(2) of the EU Securitisation Regulation) notified by the Servicer (on behalf of the Loan Note Issuer) to the Noteholders on or prior to the first Interest Payment Date and/or any other or replacement website or service subsequently designated by the Servicer (on behalf of the Loan Note Issuer) and notified to the Noteholders. None of the foregoing information is to be considered as incorporated by reference into this Prospectus.

**Communication  
with  
Noteholders**

Any notice to be given by the Issuer or the Note Trustee to Noteholders shall be given in the following manner:

- published in a leading English language daily newspaper published in London (which may be the Financial Times or another such newspaper) or, so long as the Notes are held in the Clearing Systems, delivered to the relevant Clearing Systems for communication by them to Noteholders;
- delivered in accordance with the notice requirements of the London Stock Exchange; and
- the Issuer may, at its sole discretion, give any notices specifying a Rate of Interest, an Interest Amount, an amount of Additional Interest or of Deferred Interest, a Principal Payment or a Principal Amount Outstanding by publishing the information contained in such notice on the relevant page of the Thompson Reuters Screen or such other medium for the electronic display of data as may be notified to the relevant Noteholders (the "**Relevant Screen**"). If the Issuer chooses to give such notice to the relevant Noteholders by publication on the Relevant Screen, any such notice shall be deemed to have been duly given on the first date on which such information appeared on the Relevant Screen,

with a copy of any such notice or communication to be provided in the immediately following investor report.

**CREDIT STRUCTURE AND CASHFLOWS**

*Please refer to the sections entitled "Servicing of Receivables" and "Series 2020-1" for further detail in respect of the credit structure and cashflows of the transaction.*

**Receivables Trust**

The Receivables Trustee was established to:

- acquire credit card, store card, charge card or instalment credit Receivables from the Transferor;
- hold those Receivables and the related Collections on trust for the Transferor Beneficiary and the Investor Beneficiaries; and
- make payments to the Transferor Beneficiary and the Investor Beneficiaries in accordance with the terms of the Receivables Trust Deed and Servicing Agreement.

The Receivables Trustee may not engage in any unrelated activities.

The "**Receivables Trust**" was established on 18 December 2014 (the "**Initial Closing Date**") under the terms of the Receivables Trust Deed and Servicing Agreement, under which the Transferor Beneficiary and, from time to time, multiple Investor Beneficiaries will have an undivided beneficial interest in the trust property equal to the proportion of their contributions to the Receivables Trust. On the Initial Closing Date, the Loan Note Issuer became a new notional Investor Beneficiary for calculation purposes in respect of Series 2014-1, Series 2014-VFN and the Originator VFN Series. On 10 March 2015, the Loan Note Issuer became a new notional Investor Beneficiary for calculation purposes in respect of Series 2015-1. On 17 October 2017, the Loan Note Issuer became a new notional Investor Beneficiary for calculation purposes in respect of Series 2017-1. On 15 December 2017, the Loan Note Issuer became a new notional Investor Beneficiary for calculation purposes in respect of Series VFN-P1. On 30 April 2020, the Loan Note Issuer became a new notional Investor Beneficiary for calculation purposes in respect of Series VFN-P2. On the Series 2020-1 Closing Date, the Loan Note Issuer will become a new notional Investor Beneficiary for calculation purposes in respect of Series 2020-1. It is anticipated that the Loan Note Issuer will become a new notional Investor Beneficiary for calculation purposes in respect of each new Series.

There will be no issuance of Class A1 Notes, Class A2 Notes, Class E Notes and Class F Notes by the Issuer on the Series 2020-1 Closing Date, and the Class A3 Reset feature shall not be applicable, and any references to "Class A1 Notes", "Class A2 Notes", "Class E Notes" and "Class F Notes" (and the related class of Loan Notes and Investor Interests) and "Class A3 Reset" and any constructs, definitions and amounts related to "Class A1",

"Class A2", "Class E", "Class F" and "Class A3 Reset" in this section should be disregarded.

**Investor Interest**

Each Investor Beneficiary will hold a single "**Aggregate Investor Interest**". A new Series supplement to the Receivables Trust Deed and Servicing Agreement is entered into whenever a further Investor Interest is acquired, with the Investor Beneficiary becoming a new notional Investor Beneficiary in respect of Series 2020-1 by making a contribution to the Receivables Trust and becoming the Series 2020-1 Investor Beneficiary in respect of the Series 2020-1 Investor Interest. Each new supplement (together with the other documentation governing the Receivables Trust) will specify for the Investor Beneficiary the amount and the terms of that Series' beneficial interest in the Receivables Trust. Upon the Contribution to the Receivables Trust in respect of each Series occurring, the Receivables Trustee will annotate the Trust Register to evidence such Contribution.

The Loan Note Issuer (as Series 2020-1 Investor Beneficiary) will use the proceeds of the issuance of the Series 2020-1 Loan Notes to acquire the Series 2020-1 Investor Interest and the Aggregate Investor Interest will be increased accordingly.

The Loan Note Issuer (as Series 2020-1 Investor Beneficiary) will make payments of principal and interest on the Series 2020-1 Loan Notes using distributions made to it by the Receivables Trustee with respect to the Series 2020-1 Investor Interest.

**Originator VFN Investor Interest**

The Loan Note Issuer (as Originator VFN Investor Beneficiary) acquired the Originator VFN Investor Interest on the Initial Closing Date. The Originator VFN Investor Interest as an Investor Interest of the Receivables Trust is exposed to its *pro rata* share of credit losses in respect of Default Amounts as well as being entitled to a *pro rata* share of Finance Charge Collections and Principal Collections. In addition to its own exposure to credit losses, the Originator VFN Investor Interest, through sharing of its available funds and reallocation to it of additional charge-offs from other Series in Group One, supports shortfalls and losses in other Series in Group One, including (following the Series 2020-1 Closing Date) Series 2020-1, in amounts calculated by reference to the Available Series Originator VFN Subordination for the relevant Series. A Series 2020-1 Pay Out Event will occur if the aggregate of the Transferor Interest and the Originator VFN Excess Amount is less than the Minimum Transferor Interest over an extended period, see "*Triggers Table, Series Pay Out Events*" for further information.

**Availability of Series Originator VFN Subordination**

The Originator VFN Series will make available to Series 2020-1 a portion of its cashflows from Principal Collections and Finance Charge Collections and bear losses reallocated from Series 2020-1 up to a specified amount. These calculations will be made by reference to the Series Originator VFN Subordination for Series 2020-1 which on the Series 2020-1 Closing Date will be an

amount of £18,550,000 (the "**Series 2020-1 Originator VFN Subordination**") and will result in the Series 2020-1 Investor Interest being supported by a structurally subordinated notional portion of the Originator VFN Investor Interest.

More specifically, the Series Originator VFN Subordination will be available for Series 2020-1 as follows:

- Series 2020-1 will be able to use a portion of the available funds of the Originator VFN Series calculated by reference to the Series 2020-1 Originator VFN Subordination in priority to other Series in Group One to meet shortfalls in Available Funds for payment of the amounts referred to in paragraphs (1) to (24) under "*Application of Available Funds*";
- to the extent shortfalls remain, Series 2020-1 will be able to use a portion of Principal Collections retained for the Originator VFN Series as Required Retained Principal Collections by reference to the Series 2020-1 Originator VFN Subordination in priority to other Series in Group One to meet such remaining shortfalls;
- during the Controlled Accumulation Period, the Class A1 Controlled Accumulation Period, the Class A2 Controlled Accumulation Period, the Class A3 Controlled Accumulation Period, a Class A1 Rapid Amortisation Period, a Class A2 Rapid Amortisation Period, a Class A3 Rapid Amortisation Period or the Rapid Amortisation Period, Series 2020-1 will be able to share a portion of the Principal Collections available to the Originator VFN Series calculated by reference to the Series 2020-1 Originator VFN Subordination in priority to other Series in Group One; and
- in the event any class of the Series 2020-1 Investor Interest is allocated a Default Amount, the Default Amount for that class of the Series 2020-1 Investor Interest will be reallocated to the Originator VFN Series up to the amount of the Series 2020-1 Originator VFN Subordination.

The Series Originator VFN Subordination for Series 2020-1 will not be available for any other Series.

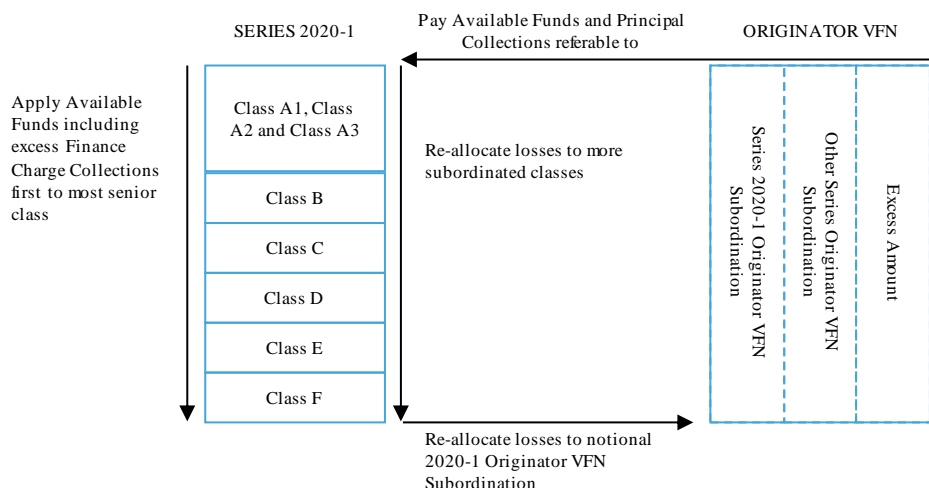

**Series 2020-1 as Part of Group One of the Receivables Trust**

On the Series 2020-1 Closing Date, Series 2020-1, Series 2017-1, Series 2015-1, Series VFN-P1, Series VFN-P2 and the Originator VFN Series will be in Group One. This will entitle each such Series to utilise Shared Principal Collections and to share in Excess Finance Charges allocated to other Series in Group One to meet cashflow shortfalls. In addition, each Series in Group One (other than the Originator VFN Series) will be entitled to utilise portions of cashflows available to the Originator VFN Series from Principal Collections and Finance Charge

Collections and reallocate losses allocated to such Series, in each case by reference to amounts calculated for the Series Originator VFN Subordination for such Series. It is anticipated that future Series will be added to Group One.

**Summary Diagram of Credit Structure for Series 2020-1**

The credit structure for Series 2020-1 can be summarised in diagrammatic form as follows:

**Adjusted Transferor Interest**

That part of the beneficial entitlement to property in the Receivables Trust which is not held by the Investor Beneficiaries is held on trust for the Transferor Beneficiary. The beneficial entitlement of the Transferor Beneficiary is determined by reference to the Floating Transferor Percentage.

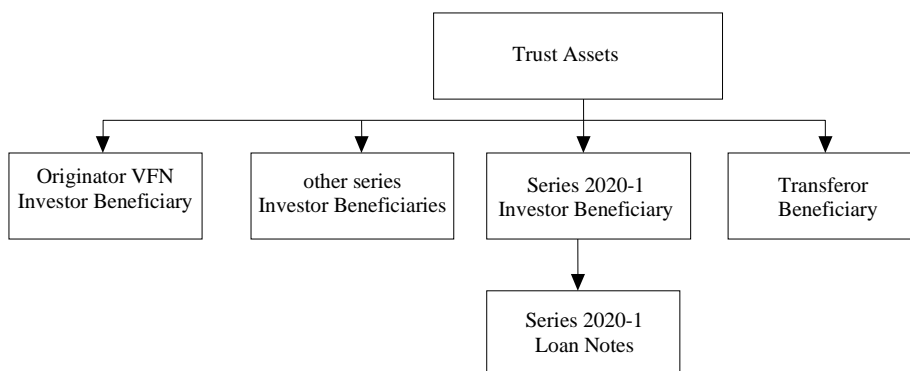

**Allocation of Collections**

Each Investor Interest – including the Series 2020-1 Investor Interest – will be entitled to receive varying percentages of Principal Collections and Finance Charge Collections collected in respect of the Designated Accounts and Acquired Interchange and Dilution Refunds (where the Investor Interest has previously been written down as a result of Dilution Losses (as more particularly described in the section entitled "*The Receivables – Acquired Interchange and Dilution Refunds*"). Each of these percentages is called an "**Investor Percentage**". The Transferor Beneficiary will be entitled to the Floating Transferor Percentage of Principal Collections, Finance Charge Collections, Acquired Interchange and Dilution Refunds.

The entitlement of the Series 2020-1 Investor Beneficiary to Principal Collections and Finance Charge Collections collected in respect of the Designated Accounts and Acquired Interchange is, broadly, calculated by reference to the ratio that the Series 2020-1 Investor Interest bears to the aggregate amount of Principal Receivables in the Receivables Trust. The entitlement of the Series 2020-1 Investor Beneficiary to Dilution Refunds will be dependent on the extent to which the Series 2020-1 Investor Interest has been written down as a result of Dilution Losses (which are first applied to the Transferor Interest and the Originator VFN Excess Amount).

More detail on the allocations described above and the varying percentage entitlements of the Transferor Beneficiary and the Investor Beneficiaries (including the Series 2020-1 Investor Beneficiary) to Trust Property is set out in "*The Receivables Trust - General Entitlement of Beneficiaries to Trust Property*" below.

The allocation of Collections is summarised in the diagram below. The reallocation of Collections to cover Default Amounts is summarised in the diagram on the page above.

**Allocation of Finance Charge Collections**

Finance Charge Collections are allocated to each Series (including Series 2020-1) according to the Floating Investor Percentage for such Series in respect of the Collection Period in which such Finance Charge Collections arise and are applied on each related Transfer Date in accordance with the priority of payments set out in the section entitled "*Application of Available Funds*".

**Allocation of Principal Collections**

Principal Collections are allocated to each Series (including Series 2020-1) taking into account whether that Series is in:

- a Revolving Period;
- an Accumulation Period; or
- an Amortisation Period.

"**Revolving Period**" means, with respect to any Series, the period specified as such in the relevant Supplement and, in respect of Series 2020-1, is the period from the Series 2020-1 Closing Date to the start of the Controlled Accumulation Period, the Class A1 Controlled Accumulation Period, the Class A2 Controlled Accumulation Period, the Class A3 Controlled Accumulation Period, a Class A1 Rapid Amortisation Period, a Class A2 Rapid Amortisation Period, a Class A3 Rapid Amortisation Period or the Rapid Amortisation Period, the triggers for which are described in "*Series 2020-1*" below (**provided that**, if the Controlled Accumulation Period, the Class A1 Controlled Accumulation Period, the Class A2 Controlled Accumulation Period or the Class A3 Controlled

Accumulation Period ends or is suspended or a Class A1 Rapid Amortisation Period, a Class A2 Rapid Amortisation Period or a Class A3 Rapid Amortisation Period ends, the Revolving Period will, unless another such Accumulation Period or Amortisation Period has commenced, restart).

"**Accumulation Period**" means, with respect to any Series or any class within a Series, a period following the Revolving Period during which Principal Collections are accumulated in an account for the benefit of such Series or such class within a Series, as detailed in the related Supplement.

"**Amortisation Period**" means, with respect to any Series or any class within a Series, a period during which Principal Collections are paid to the relevant Investor Beneficiary, as detailed in the related Supplement.

### **Revolving Period**

Principal Collections calculated as referable daily to the Class A1 Investor Interest, the Class A2 Investor Interest and the Class A3 Investor Interest will be used by the Receivables Trustee as Shared Principal Collections and, to the extent not used as Shared Principal Collections, will be:

- (i) used to make payments to the Transferor to accept new offers of Eligible Receivables made by the Transferor to the Receivables Trustee;
- (ii) used to make payments to the Transferor for future Receivables assigned by the Transferor to the Receivables Trustee pursuant to offers that have already been made and accepted; and
- (iii) to the extent not used in accordance with paragraphs (i) or (ii) above, retained as Cash Available for Investment and may be used to make payments to the Transferor to accept future offers of Eligible Receivables and to make payments upon the occurrence of a Partial Amortisation Event.

During the Revolving Period, if there is a shortfall in the amount of Available Funds required to pay Series 2020-1 expenses (including any non-subordinated Qualifying Swap Amounts) and interest on the Class A1 Notes, the Class A2 Notes and the Class A3 Notes, taking into account any Available Funds made available to Series 2020-1 through the Originator VFN Series, then Principal Collections available to the Series 2020-1 Investor Interest (excluding Principal Collections available to the Class A1 Investor Interest, the Class A2 Investor Interest and the Class A3 Investor Interest, but including Principal Collections available to Series 2020-1 through the Originator VFN Series) will be reallocated to meet the shortfall. Principal Collections calculated as referable to the Class B Investor Interest, the Class C Investor Interest, the Class D Investor Interest, the Class E Investor Interest and the Class F Investor Interest will be used by the Receivables Trustee as described above (**provided that no**

Principal Collections allocated to any notional class of the Series 2020-1 Investor Interest shall be reallocated to meet shortfalls in the Available Funds required to make payments in respect of the corresponding, or any junior, class of the Series 2020-1 Investor Interest) and only thereafter applied in accordance with paragraphs (i) to (iii) above.

### **Controlled Accumulation Period**

The "**Controlled Accumulation Period**" is scheduled to begin on (i) 1 November 2022 or (ii) if a Series Extension Notice is delivered, such later date as is specified by the Servicer in such Series Extension Notice (**provided that** such date will be postponed by the same period as the Series 2020-1 Scheduled Redemption Date is postponed in such Series Extension Notice) and end when the Series 2020-1 Investor Interest is paid in full, unless a Pay Out Event occurs and the Rapid Amortisation Period begins. If the Rapid Amortisation Period begins before the start of the Controlled Accumulation Period, there will not be a Controlled Accumulation Period.

The commencement of the Controlled Accumulation Period may, subject to conditions, be delayed until no later than the start of the Collection Period immediately prior to the Collection Period in which the Series 2020-1 Scheduled Redemption Date falls (whether or not such scheduled commencement date has been deferred as a result of the delivery of a Series Extension Notice). If the Servicer determines that it reasonably expects the Notes to be refinanced or the Series 2020-1 Scheduled Redemption Date to be extended, there will not be a Controlled Accumulation Period (unless the Series 2020-1 Scheduled Redemption Date is in fact extended, in which case, if the Servicer so elects at the time of such extension, there shall (notwithstanding the prior disapplication of the Controlled Accumulation Period) be a Controlled Accumulation Period in respect of the extended Series 2020-1 Scheduled Redemption Date). See "*Series 2020-1 – Controlled Accumulation Period*" below.

During the Controlled Accumulation Period:

- the Receivables Trustee will accumulate Principal Collections received in respect of such period in an amount equal to the Controlled Deposit Amount with the intention of accumulating enough principal for the Receivables Trust to ultimately allow the Issuer to repay the Principal Amount Outstanding of each class of Notes (other than the Class A1 Notes, the Class A2 Notes and the Class A3 Notes) to the Noteholders at the Series 2020-1 Scheduled Redemption Date; and
- no payments of principal will be made by the Loan Note Issuer (or any other party) to the Issuer, other than (during a Class A1 Rapid Amortisation Period, a Class A2 Rapid Amortisation Period and/or a Class A3 Rapid Amortisation Period) in respect of the Class A1

Notes, the Class A2 Notes and/or the Class A3 Notes, as applicable.

The Controlled Accumulation Period may run concurrently with the Class A1 Controlled Accumulation Period, the Class A2 Controlled Amortisation Period, the Class A3 Controlled Amortisation Period, a Class A1 Rapid Amortisation Period, a Class A2 Rapid Amortisation Period and/or a Class A3 Rapid Amortisation Period.

**Controlled Deposit Amount**

During the Controlled Accumulation Period, the Principal Collections allocated to the Series 2020-1 Investor Interest (other than the Class A1 Investor Interest, the Class A2 Investor Interest and the Class A3 Investor Interest), up to the Controlled Deposit Amount, will be accumulated by the Receivables Trustee on each Transfer Date in the Series 2020-1 Principal Funding Ledger in the Receivables Trustee Investment Account for distribution to the Loan Note Issuer as the Series 2020-1 Investor Beneficiary on the Series 2020-1 Scheduled Redemption Date.

Any Principal Collections allocated to the Series 2020-1 Investor Interest (other than the Class A1 Investor Interest, the Class A2 Investor Interest and the Class A3 Investor Interest) over the Controlled Deposit Amount will be used by the Receivables Trustee, first, (i) on the Class A1 Scheduled Redemption Date, on any Class A1 Scheduled Put Date or during the Class A1 Controlled Accumulation Period and/or any Class A1 Rapid Amortisation Period, to fund any Class A1 Controlled Deposit Amount and/or redemption or repurchase of the Class A1 Notes, (ii) on the Class A2 Scheduled Redemption Date, on any Class A2 Scheduled Put Date or during the Class A2 Controlled Accumulation Period and/or any Class A2 Rapid Amortisation Period, to fund any Class A2 Controlled Deposit Amount and/or redemption or repurchase of the Class A2 Notes, and (iii) on the Class A3 Scheduled Redemption Date, on any Class A3 Scheduled Put Date or during the Class A3 Controlled Accumulation Period and/or any Class A3 Rapid Amortisation Period, to fund any Class A3 Controlled Deposit Amount and/or redemption or repurchase of the Class A3 Notes, second, as Shared Principal Collections and, third, to make payments to the Transferor as described above under "*Series 2020-1 – Revolving Period*".

**Class A1 Controlled Accumulation Period**

The "**Class A1 Controlled Accumulation Period**" is not applicable. If the Rapid Amortisation Period begins before the start of the Class A1 Controlled Accumulation Period, there will not be a Class A1 Controlled Accumulation Period.

The commencement of the Class A1 Controlled Accumulation Period may, subject to conditions, be delayed until no later than the start of the Collection Period immediately prior to the Collection Period in which the Class A1 Scheduled Redemption Date falls (whether or not that scheduled commencement date has been deferred as a result of any Class A1 Reset and/or the service of a Class A1 Extension Notice). If the Servicer determines that it reasonably expects the Class A1 Notes to be refinanced or the Class A1 Scheduled Redemption Date to be reset or extended, there will not be a Class A1 Controlled Accumulation Period (unless the Class A1 Scheduled Redemption Date is in fact reset or extended, in which case, if the Servicer so elects at the time of such extension, there shall (notwithstanding the prior disapplication of the Class A1 Controlled Accumulation Period) be a Class A1 Controlled Accumulation Period in respect of the reset or extended Class A1 Scheduled Redemption Date). See "*Series 2020-1 – Class A1 Controlled Accumulation Period*" below.

During the Class A1 Controlled Accumulation Period:

- the Receivables Trustee will accumulate Principal Collections received in respect of such period in an amount equal to the Class A1 Controlled Deposit Amount with the intention of accumulating enough principal for the Receivables Trust to ultimately allow the Issuer to repay the Principal Amount Outstanding of the Class A1 Notes to the Noteholders at the Class A1 Scheduled Redemption Date; and
- no payments of such principal will be made by the Loan Note Issuer (or any other party) to the Issuer, other than (during a Class A2 Rapid Amortisation Period and/or a Class A3 Rapid Amortisation Period) in respect of the Class A2 Notes and/or the Class A3 Notes, as applicable.

If the Class A1 Controlled Accumulation Period has commenced and the Class A1 Scheduled Redemption Date is reset as a result of the occurrence of a Class A1 Reset, the Class A1 Controlled Accumulation Period shall be suspended if, as part of that Class A1 Reset, the commencement of the Class A1 Controlled Accumulation Period is postponed to a future date, and any Principal Collections accumulated will be released and treated as Cash Available for Investment.

The Class A1 Controlled Accumulation Period may run concurrently with the Controlled Accumulation Period, the Class A2 Controlled Accumulation Period, the Class A3 Controlled Accumulation Period, a Class A1 Rapid Amortisation Period, a Class A2 Rapid Amortisation Period and/or a Class A3 Rapid Amortisation Period.

**Class A1 Controlled Deposit Amount**

During the Class A1 Controlled Accumulation Period, the Principal Collections allocated to the Class A1 Investor Interest, up to the Class A1 Controlled Deposit Amount, will be accumulated by the Receivables Trustee on each Transfer Date in the Series 2020-1 Principal Funding Ledger in the Receivables Trustee Investment Account for distribution to the Loan Note Issuer as the Series 2020-1 Investor Beneficiary on the Class A1 Scheduled Redemption Date.

Any Principal Collections allocated to the Class A1 Investor Interest over the amount that will be deposited in the Receivables Trustee Investment Account will be used by the Receivables Trustee (i) first, during any Class A1 Rapid Amortisation Period, to fund any amortisation or repurchase of the Class A1 Notes, (ii) second, to fund any required accumulation, amortisation or repurchase in respect of the Class A2 Notes or the Class A3 Notes, (iii) third, as Shared Principal Collections and, (iv) fourth, to make payments to the Transferor as described above under "*Series 2020-1 – Revolving Period*".

**Class A2 Controlled Accumulation Period**

The "**Class A2 Controlled Accumulation Period**" is not applicable. If the Rapid Amortisation Period begins before the start of the Class A2 Controlled Accumulation Period, there will not be a Class A2 Controlled Accumulation Period.

The commencement of the Class A2 Controlled Accumulation Period may, subject to conditions, be delayed until no later than the start of the Collection Period immediately prior to the Collection Period in which the Class A2 Scheduled Redemption Date falls (whether or not that scheduled commencement date has been deferred as a result of any Class A2 Reset and/or the service of a Class A2 Extension Notice). If the Servicer determines that it reasonably expects the Class A2 Notes to be refinanced or the Class A2 Scheduled Redemption Date to be reset or extended, there will not be a Class A2 Controlled Accumulation Period (unless the Class A2 Scheduled Redemption Date is in fact reset or extended, in which case, if the Servicer so elects at the time of such extension, there shall (notwithstanding the prior disapplication of the Class A2 Controlled Accumulation Period) be a Class A2 Controlled Accumulation Period in respect of the reset or extended Class A2 Scheduled Redemption Date). See "*Series 2020-1 – Class A2 Controlled Accumulation Period*" below.

During the Class A2 Controlled Accumulation Period:

- the Receivables Trustee will accumulate Principal Collections received in respect of such period in an amount equal to the Class A2 Controlled Deposit Amount with the intention of accumulating enough principal for the Receivables Trust to ultimately allow the Issuer to repay the Principal Amount Outstanding of the Class A2 Notes to the Noteholders at the Class A2 Scheduled Redemption Date; and
- no payments of such principal will be made by the Loan Note Issuer (or any other party) to the Issuer, other than (during a Class A1 Rapid Amortisation Period and/or a Class A3 Rapid Amortisation Period) in respect of the Class A1 Notes and/or the Class A3 Notes, as applicable.

If the Class A2 Controlled Accumulation Period has commenced and the Class A2 Scheduled Redemption Date is reset as a result of the occurrence of a Class A2 Reset, the Class A2 Controlled Accumulation Period shall be suspended if, as part of that Class A2 Reset, the commencement of the Class A2 Controlled Accumulation Period is postponed to a future date, and any Principal Collections accumulated will be released and treated as Cash Available for Investment.

The Class A2 Controlled Accumulation Period may run concurrently with the Controlled Accumulation Period, the Class A1 Controlled Accumulation Period, the Class A3 Controlled Accumulation Period, a Class A1 Rapid Amortisation Period, a Class A2 Rapid Amortisation Period and/or a Class A3 Rapid Amortisation Period.

**Class A2 Controlled Deposit Amount**

During the Class A2 Controlled Accumulation Period, the Principal Collections allocated to the Class A2 Investor Interest, up to the Class A2 Controlled Deposit Amount, will be accumulated by the Receivables Trustee on each Transfer Date in the Series 2020-1 Principal Funding Ledger in the Receivables Trustee Investment Account for distribution to the Loan Note Issuer as the Series 2020-1 Investor Beneficiary on the Class A2 Scheduled Redemption Date.

Any Principal Collections allocated to the Class A2 Investor Interest over the amount that will be deposited in the Receivables Trustee Investment Account will be used by the Receivables Trustee (i) first, during any Class A2 Rapid Amortisation Period, to fund any amortisation or repurchase of the Class A2 Notes, (ii) second, to fund any required accumulation, amortisation or repurchase in respect of the Class A1 Notes or the Class A3 Notes, (iii) third, as Shared Principal Collections and, (iv) fourth, to make payments to the Transferor as described above under "*Series 2020-1 – Revolving Period*".

**Class A3 Controlled Accumulation Period**

The "**Class A3 Controlled Accumulation Period**" is scheduled to begin on (i) 1 November 2022, or, following a Class A3 Reset, such later date as is specified by the Cash Manager in the relevant Class A3 Reset Notice or (ii) if a Class A3 Extension Notice is delivered, such later date as is specified by the Servicer in such Class A3 Extension Notice (**provided that** such date will be postponed by the same period as the Class A3 Scheduled Redemption Date is postponed in such Class A3 Extension Notice) and shall end when the Class A3 Investor Interest is paid in full, unless a Pay Out Event occurs and the Rapid Amortisation Period begins. If the Rapid Amortisation Period begins before the start of the Class A3 Controlled Accumulation Period, there will not be a Class A3 Controlled Accumulation Period.

The commencement of the Class A3 Controlled Accumulation Period may, subject to conditions, be delayed until no later than the start of the Collection Period immediately prior to the Collection Period in which the Class A3 Scheduled Redemption Date falls (whether or not that scheduled commencement date has been deferred as a result of any Class A3 Reset and/or the service of a Class A3 Extension Notice). If the Servicer determines that it reasonably expects the Class A3 Notes to be refinanced or the Class A3 Scheduled Redemption Date to be reset or extended, there will not be a Class A3 Controlled Accumulation Period (unless the Class A3 Scheduled Redemption Date is in fact reset or extended, in which case, if the Servicer so elects at the time of such extension, there shall (notwithstanding the prior disapplication of the Class A3 Controlled Accumulation Period) be a Class A3 Controlled Accumulation Period in respect of the reset or extended Class A3 Scheduled Redemption Date). See "*Series 2020-1 – Class A3 Controlled Accumulation Period*" below.

During the Class A3 Controlled Accumulation Period:

- the Receivables Trustee will accumulate Principal Collections received in respect of such period in an amount equal to the Class A3 Controlled Deposit Amount with the intention of accumulating enough principal for the Receivables Trust to ultimately allow the Issuer to repay the Principal Amount Outstanding of the Class A3 Notes to the Noteholders at the Class A3 Scheduled Redemption Date; and
- no payments of such principal will be made by the Loan Note Issuer (or any other party) to the Issuer, other than (during a Class A1 Rapid Amortisation Period and/or a Class A2 Rapid Amortisation Period) in respect of the Class A1 Notes and/or the Class A2 Notes, as applicable.

If the Class A3 Controlled Accumulation Period has commenced and the Class A3 Scheduled Redemption Date is reset as a result of the occurrence of a Class A3 Reset, the Class A3 Controlled Accumulation Period shall be suspended if, as part of that Class A3 Reset, the commencement of the Class A3 Controlled Accumulation Period is postponed to a future date, and any Principal Collections accumulated will be released and treated as Cash Available for Investment.

The Class A3 Controlled Accumulation Period may run concurrently with the Controlled Accumulation Period, the Class A1 Controlled Accumulation Period, the Class A2 Controlled Accumulation Period, a Class A1 Rapid Amortisation Period, a Class A2 Rapid Amortisation Period and/or a Class A3 Rapid Amortisation Period.

**Class A3 Controlled Deposit Amount**

During the Class A3 Controlled Accumulation Period, the Principal Collections allocated to the Class A3 Investor Interest, up to the Class A3 Controlled Deposit Amount, will be accumulated by the Receivables Trustee on each Transfer Date in the Series 2020-1 Principal Funding Ledger in the Receivables Trustee Investment Account for distribution to the Loan Note Issuer as the Series 2020-1 Investor Beneficiary on the Class A3 Scheduled Redemption Date.

Any Principal Collections allocated to the Class A3 Investor Interest over the amount that will be deposited in the Receivables Trustee Investment Account will be used by the Receivables Trustee (i) first, during any Class A3 Rapid Amortisation Period, to fund any amortisation or repurchase of the Class A3 Notes, (ii) second, to fund any required accumulation, amortisation or repurchase in respect of the Class A1 Notes or the Class A2 Notes, (iii) third, as Shared Principal Collections and, (iv) fourth, to make payments to the Transferor as described above under "*Series 2020-1 – Revolving Period*".

**Shortening or Disapplication of Concurrent Accumulation Periods**

If the Series 2020-1 Scheduled Redemption Date, the Class A1 Scheduled Redemption Date, the Class A2 Scheduled Redemption Date and/or the Class A3 Scheduled Redemption Date fall on the same date, the Servicer will only shorten or disapply the Controlled Accumulation Period, the Class A1 Controlled Accumulation Period, the Class A2 Controlled Accumulation Period and/or the Class A3 Controlled Accumulation Period on the basis that the relevant Notes are reasonably likely to be refinanced, reset or extended if such action applies equally in respect of each such period (unless it is not possible to refinance, reset or extend any such Notes).

**Rapid Amortisation Period**

Following certain specified events (described in "*Triggers Table – Non-Rating Triggers*" below), the Rapid Amortisation Period will commence. During the Rapid Amortisation Period, Principal Collections allocable to the Series 2020-1 Investor Interest will be paid each month to the Loan Note Issuer first in respect of the Class A1 Investor Interest, the Class A2 Investor Interest and the Class A3 Investor Interest, second in respect of the Class

B Investor Interest, third in respect of the Class C Investor Interest, fourth in respect of the Class D Investor Interest, fifth in respect of the Class E Investor Interest and sixth in respect of the Class F Investor Interest until the Series 2020-1 Termination Date. Following the receipt of such Principal Collections, the Issuer will make corresponding payments of principal to the Noteholders of each class of Notes.

The Rapid Amortisation Period will end on the earlier to occur of (a) the Series 2020-1 Termination Date and (b) the dissolution of the Receivables Trust.

**Class A1 Rapid Amortisation Period**

A Class A1 Rapid Amortisation Period shall occur:

- if one or more holders of Class A1 Notes has, in response to a Class A1 Reset Notice (which has not been revoked), delivered a Class Put A1 Notice (in the form, and in accordance with the process, specified in the Class A1 Reset Notice), on or prior to the Class A1 Put Notification Date (and the Cash Manager has not (i) delivered a Class A1 Put Funding Notice pursuant to Note Condition 7(f)(ii) (*Required Repurchase of Class A1 Notes*) or (ii) certified that it reasonably expects the Put Class A1 Notes to be refinanced or the Class A1 Scheduled Put Date to be extended), and, in such circumstances, the Class A1 Rapid Amortisation Period shall run from (and including) the first day of the Collection Period immediately prior to the Collection Period in which the Class A1 Scheduled Put Date falls (or, if later, the Business Day after a Class A1 Put Notice is first delivered) to (but excluding) the date on which the Amortising Class A1 Investor Interest (if any) is reduced to zero; or
- if the Class A1 Investor Interest is not reduced to zero on the Class A1 Scheduled Redemption Date, and, in such circumstances, the Class A1 Rapid Amortisation Period shall run from (and including) the Business Day immediately following the Class A1 Scheduled Redemption Date to (but excluding) the date on which the Class A1 Investor Interest is reduced to zero,

**provided that** the Class A1 Rapid Amortisation Period shall end on the commencement of the Rapid Amortisation Period.

On the Transfer Date immediately prior to each Distribution Date during a Class A1 Rapid Amortisation Period, the Receivables Trustee shall utilise Undivided Bare Trust Property (being the Class A1 Fixed Percentage of the amount of Available Retained Principal Collections) to make distributions to the Series 2020-1 Investor Beneficiary sufficient to repay the Principal Amount Outstanding of the relevant Amortising Class A1 Investor Interest.

A Class A1 Rapid Amortisation Period may run concurrently with a Class A2 Rapid Amortisation Period, a Class A3 Rapid Amortisation Period, the Class A1 Controlled Accumulation Period, the Class A2 Controlled Accumulation Period, the Class A3 Controlled Accumulation Period and/or the Controlled Accumulation Period.

**Class A2 Rapid Amortisation Period**

A Class A2 Rapid Amortisation Period shall occur:

- if one or more holders of Class A2 Notes has, in response to a Class A2 Reset Notice (which has not been revoked), delivered a Class Put A2 Notice (in the form, and in accordance with the process, specified in the Class A2 Reset Notice), on or prior to the Class A2 Put Notification Date (and the Cash Manager has not (i) delivered a Class A2 Put Funding Notice pursuant to Note Condition 7(g)(ii) (*Required Repurchase of Class A2 Notes*) or (ii) certified that it reasonably expects the Put Class A2 Notes to be refinanced or the Class A2 Scheduled Put Date to be extended), and, in such circumstances, the Class A2 Rapid Amortisation Period shall run from (and including) the first day of the Collection Period immediately prior to the Collection Period in which the Class A2 Scheduled Put Date falls (or, if later, the Business Day after a Class A2 Put Notice is first delivered) to (but excluding) the date on which the Amortising Class A2 Investor Interest (if any) is reduced to zero; or
- if the Class A2 Investor Interest is not reduced to zero on the Class A2 Scheduled Redemption Date, and, in such circumstances, the Class A2 Rapid Amortisation Period shall run from (and including) the Business Day immediately following the Class A2 Scheduled Redemption Date to (but excluding) the date on which the Class A2 Investor Interest is reduced to zero,

**provided that** the Class A2 Rapid Amortisation Period shall end on the commencement of the Rapid Amortisation Period.

On the Transfer Date immediately prior to each Distribution Date during the Class A2 Rapid Amortisation Period, the Receivables Trustee shall utilise Undivided Bare Trust Property (being the Class A2 Fixed Percentage of the amount of Available Retained Principal Collections) to make distributions to the Series 2020-1 Investor Beneficiary sufficient to repay the Principal Amount Outstanding of the relevant Amortising Class A2 Investor Interest.

The Class A2 Rapid Amortisation Period may run concurrently with the Rapid Amortisation Period, the Class A1 Rapid Amortisation Period, the Class A3 Rapid Amortisation Period, a Class A1 Controlled Accumulation Period, a Class A2 Controlled Accumulation Period and/or a Class A3 Controlled Accumulation Period.

**Class A3 Rapid Amortisation Period**

A Class A3 Rapid Amortisation Period shall occur:

- if one or more holders of Class A3 Notes has, in response to a Class A3 Reset Notice (which has not been revoked), delivered a Class Put A3 Notice (in the form, and in accordance with the process, specified in the Class A3 Reset Notice), on or prior to the Class A3 Put Notification Date (and the Cash Manager has not (i) delivered a Class A3 Put Funding Notice pursuant to Note Condition 7(h)(ii) (*Required Repurchase of Class A3 Notes*) or (ii) certified that it reasonably expects the Put Class A3 Notes to be refinanced or the Class A3 Scheduled Put Date to be extended), and, in such circumstances, the Class A3 Rapid Amortisation Period shall run from (and including) the first day of the Collection Period immediately prior to the Collection Period in which the Class A3 Scheduled Put Date falls (or, if later, the Business Day after a Class A3 Put Notice is first delivered) to (but excluding) the date on which the Amortising Class A3 Investor Interest (if any) is reduced to zero; or
- if the Class A3 Investor Interest is not reduced to zero on the Class A3 Scheduled Redemption Date, and, in such circumstances, the Class A3 Rapid Amortisation Period shall run from (and including) the Business Day immediately following the Class A3 Scheduled Redemption Date to (but excluding) the date on which the Class A3 Investor Interest is reduced to zero,

**provided that** the Class A3 Rapid Amortisation Period shall end on the commencement of the Rapid Amortisation Period.

On the Transfer Date immediately prior to each Distribution Date during the Class A3 Rapid Amortisation Period, the Receivables Trustee shall utilise Undivided Bare Trust Property (being the Class A3 Fixed Percentage of the amount of Available Retained Principal Collections) to make distributions to the Series 2020-1 Investor Beneficiary sufficient to repay the Principal Amount Outstanding of the relevant Amortising Class A3 Investor Interest.

The Class A3 Rapid Amortisation Period may run concurrently with the Rapid Amortisation Period, the Class A1 Rapid Amortisation Period, the Class A2 Rapid Amortisation Period, a Class A1 Controlled Accumulation Period, a Class A2 Controlled Accumulation Period and/or a Class A3 Controlled Accumulation Period.

**Series 2020-1 Optional Amortisation**

The Series 2020-1 Investor Beneficiary (acting on the instructions of the Transferor Beneficiary pursuant to the provisions of the Beneficiaries Deed) may, with at least five Business Days' notice, direct the Receivables Trustee in writing to effect an amortisation, using amounts standing to the credit of the Series 2020-1 Principal Funding Ledger in the Receivables Trustee Investment Account, of the whole of one or more Extended Maturity Investor Interests on any Transfer Date within the Series 2020-1 Extension Period, the Class A1 Extension Period, the Class A2 Extension Period and/or the Class A3 Extension Period, as applicable (each such amortisation being a "**Series 2020-1 Optional Amortisation**", each such date on which a Series 2020-1 Optional Amortisation occurs being a "**Series 2020-1 Optional Amortisation Date**" and each such amount being a "**Series 2020-1 Optional Amortisation Amount**").

A Series 2020-1 Optional Amortisation may occur only if, on or prior to the relevant Series 2020-1 Optional Amortisation Date, each Extended Maturity Investor Interest with a Specified Maturity Date falling on or prior to the Specified Maturity Date of each Extended Maturity Investor Interest subject to such Series 2020-1 Optional Amortisation has been or will be reduced to zero.

See "*Series 2020-1 – Series 2020-1 Optional Amortisation*" below.

**Partial Amortisation Event**

If on any Determination Date a Partial Amortisation Event (as described at "*Series 2020-1 – Partial Amortisation*" below) has occurred, the Servicer shall give notice to the Receivables Trustee thereof (a "**Partial Amortisation Notice**") and the amount of the Cash Available for Investment standing to the credit of the Receivables Trustee Investment Account on such Determination Date (excluding, for the avoidance of doubt, any amounts held in any liquidity reserve ledger or any other ledger) which the Servicer determines, in its opinion, on such Determination Date, will not be required for any other purpose on the following Transfer Date, together with, in respect of any Outstanding Series that will be repaid in full as a result of the Partial Amortisation Event, amounts held in the principal funding ledger in respect of such Series only, shall be applied to make a repayment in respect of some or all of the Outstanding Series (a "**Partial Amortisation**") on the immediately following Transfer Date (the "**Partial Amortisation Date**"). The Servicer shall certify in the Partial Amortisation Notice or otherwise in advance of the specified Partial Amortisation Date that a Partial Amortisation Event has occurred and shall specify the Partial Amortisation Amount (if any) for each Series in Group One.

**Shared Principal Collections**

Series 2020-1 is in Group One, which means that other Series in Group One share with it any excess Principal Collections that such other Series do not require to accumulate or pay down such Series' Investor Interest in a specified period. In particular, this will mean that a portion of Principal Collections available to the Originator VFN Series will be available to Series 2020-1 in the Controlled

Accumulation Period, the Class A1 Controlled Accumulation Period, the Class A2 Controlled Accumulation Period, the Class A3 Controlled Accumulation Period, any Class A1 Rapid Amortisation Period, any Class A2 Rapid Amortisation Period, any Class A3 Rapid Amortisation Period or the Rapid Amortisation Period. See "*Series 2020-1 - Shared Principal Collections*".

#### **Dilution Receivables**

If the Servicer determines that a Credit Adjustment or Reduction has occurred in respect of a Receivable, such Receivable will be considered a "**Dilution Receivable**" and to have suffered a "**Dilution Loss**". Dilution Losses in respect of a Collection Period are allocated to the Transferor Beneficiary in accordance with the Receivables Trust Deed and Servicing Agreement, and the amount so allocated will reduce the Transferor Interest by an equivalent amount until such time as the Transferor Interest is zero, with the remainder of such Dilution Losses, being the "**Investor Dilution Loss**", allocated to the Aggregate Investor Interests of the Investor Beneficiaries as follows. On each Transfer Date, the Investor Dilution Losses for the relevant Collection Period shall be allocated to the Originator VFN Excess Amount of the Originator VFN Investor Interest (see further, "*Other Series Currently in Issue*" below). To the extent the aggregate Dilution Losses allocated on the Transfer Date exceed the Originator VFN Excess Amount, an amount equal to the product of: (i) the remaining Dilution Losses; and (ii) a fraction, the numerator of which is the Series 2020-1 Adjusted Investor Interest plus the Available Series 2020-1 Originator VFN Subordination and the denominator of which is the Combined Aggregate Adjusted Investor Interest (excluding, for the avoidance of doubt, the Originator VFN Excess Amount) will be applied, first, to the Available Series 2020-1 Originator VFN Subordination, until it is reduced to zero, and, second, any remainder (such amount in respect of each Collection Period, the "**Aggregate Investor Dilution Loss**") will be allocated to the Series 2020-1 Investor Interest. The Aggregate Investor Dilution Loss will be allocated to notional classes of the Series 2020-1 Investor Interest in reverse sequential order, starting with Class F, and shall reduce them by an amount equal to such allocation until reduced to zero, whereupon any excess shall be allocated to the next most junior class. See the section entitled "*Series 2020-1 – Defaulted and Dilution Receivables; Investor Charge-offs; Allocation to Series 2020-1 and the Originator VFN*" for further information.

#### **Defaulted Receivables**

If the Servicer determines that the Receivables in a Designated Account are uncollectable, a proportion of the principal balance of such Defaulted Account will be allocated, on an aggregate monthly basis, to the Investor Interest relating to each Series by reference to the relevant Investor Beneficiary's Floating Investor Percentage.

The amounts so allocated to each Series comprise the Investor Default Amount in respect of such Series.

The Investor Default Amount allocated to the Series 2020-1 Investor Interest, being the "*Series 2020-1 Investor Default Amount*", will be allocated to each notional class of Investor Interest within the Series 2020-1 Investor Interest based on its floating allocation during the relevant Collection Period. If the Series 2020-1 Investor Default Amount for a particular class exceeds the amount of Available Funds allocated to that class which are (after making prior-ranking payments) available to cover such portion of the Series 2020-1 Investor Default Amount, the Originator VFN Investor Interest (in an amount up to the Available Series 2020-1 Originator VFN Subordination) will be reduced to cover the shortfall and thereafter, to the extent any shortfall remains, by virtue of applying Reallocated Principal Collections from subordinated classes and Reallocated Originator VFN Principal Collections (as to which, see the section entitled "*Reallocation of Cashflows*"), the Investor Interest for classes within the Series 2020-1 Investor Interest will be reduced in reverse order.

Any reduction in any notional class of the Series 2020-1 Investor Interest as a result of an Investor Default Amount, together with any reduction suffered by that class caused by the allocation of Dilution Losses to such class as described above, which exceeds the amount of Available Funds allocated to that class and any reduction as a result of the application of Reallocated Principal Collections to cover shortfalls in the amount of Available Funds is referred to in aggregate as an "**Investor Charge-off**".

#### **Series 2020-1 Liquidity Reserve**

On the Series 2020-1 Closing Date, the Receivables Trustee will deposit the Required Liquidity Reserve Amount in the Receivables Trustee Investment Account for credit to the Series 2020-1 Liquidity Reserve Ledger (see "*Series 2020-1 – Liquidity Reserve Ledger*"). The Series 2020-1 Liquidity Reserve will be available to make payments on a Transfer Date in respect of, amongst other things, Investor Aggregate Trustee Payment Amounts, Loan Note Issuer Costs Amounts, Issuer Costs Amounts and payments in respect of the Class A1 Investor Interest, Class A2 Investor Interest, Class A3 Investor Interest, Class B Investor Interest, Class C Investor Interest and Class D Investor Interest to the extent that there is a shortfall after applying Available Funds. Any drawings on the Series 2020-1 Liquidity Reserve may be replenished to the extent of Available Funds available for such purpose on subsequent Transfer Dates. The Required Liquidity Reserve Amount may be reduced by the Servicer subject to the provision of a Rating Confirmation.

#### **Class A1 Swap Agreement**

No Class A1 Swap Agreement shall be entered into by the Issuer, and any reference to "Swap Counterparty" and "Class A1 Swap Agreement" and any related constructs, definitions and amounts in this section should be disregarded.

The Class A1 Notes are denominated in U.S. Dollars and consequently the Issuer will be obliged to make payments of interest and principal in respect of the Class A1 Notes in U.S. Dollars. However, amounts received by the Issuer

referable to the Class A1 Notes under the Class A1 Loan Note will be denominated in Sterling. Furthermore, following the Class A1 Floating Rate Commencement Date, the Class A1 Notes will bear interest at a floating rate that is based on SOFR, whereas the Class A1 Loan Note will bear interest at a floating rate that is based on SONIA. In order to protect the Issuer against such currency exchange rate and basis rate exposure, the Issuer and the Swap Counterparty will enter into a currency swap transaction in relation to the Class A1 Notes pursuant to the Class A1 Swap Agreement.

The making and receipt of payments by the Issuer under the Class A1 Swap Agreement are contemplated in the Note Trust Deed and the Note Conditions and are more particularly described in the Section entitled "*Series 2020-1 – Application of Available Funds*".

Any collateral posted to the Issuer pursuant to the Class A1 Swap Agreement will not be available to make payments under the Class A1 Notes until such time as the Class A1 Swap Agreement has been terminated and all amounts payable to the Swap Counterparty have been paid.

Any collateral posted to the Issuer pursuant to the Class A1 Swap Agreement or any other Class A1 Swap Excluded Receivable Amounts will not form part of funds available to make payments due under the Notes but shall be used to make payments in respect of any Class A1 Swap Excluded Payable Amounts.

Class A1 Swap Termination Payments, other than Class A1 Swap Excluded Termination Payments or any Class A1 Swap Excluded Payable Amount, payable by the Issuer under the Class A1 Swap Agreement will rank *pro rata* and *pari passu* with the payment of interest on the Class A1 Notes. Class A1 Swap Excluded Termination Payments will rank below all payments of interest and principal on the Notes.

#### **Class A2 Swap Agreement**

No Class A2 Swap Agreement shall be entered into by the Issuer, and any reference to "Swap Counterparty" and "Class A2 Swap Agreement" and any related constructs, definitions and amounts in this section should be disregarded.

The Class A2 Notes are denominated in U.S. Dollars and consequently the Issuer will be obliged to make payments of interest and principal in respect of the Class A2 Notes in U.S. Dollars. However, amounts received by the Issuer referable to the Class A2 Notes under the Class A2 Loan Note will be denominated in Sterling. Furthermore, the Class A2 Notes will bear interest at a floating rate that is based on SOFR. However, the Class A2 Loan Note will bear interest at a rate that is based on SONIA. In order to protect the Issuer against such currency exchange rate exposure, the Issuer and the Swap Counterparty will enter into a currency swap transaction in relation to the Class A2 Notes pursuant to the Class A2 Swap Agreement.

The making and receipt of payments by the Issuer under the Class A2 Swap Agreement are contemplated in the Note Trust Deed and the Note Conditions and are more particularly described in the Section entitled "*Series 2020-1 – Application of Available Funds*".

Any collateral posted to the Issuer pursuant to the Class A2 Swap Agreement will not be available to make payments under the Class A2 Notes until such time as the Class A2 Swap Agreement has been terminated and all amounts payable to the Swap Counterparty have been paid.

Any collateral posted to the Issuer pursuant to the Class A2 Swap Agreement or any other Class A2 Swap Excluded Receivable Amounts will not form part of funds available to make payments due under the Notes but shall be used to make payments in respect of any Class A2 Swap Excluded Payable Amounts.

Class A2 Swap Termination Payments, other than Class A2 Swap Excluded Termination Payments or any Class A2 Swap Excluded Payable Amount, payable by the Issuer under the Class A2 Swap Agreement will rank *pro rata* and *pari passu* with the payment of interest on the Class A2 Notes. Class A2 Swap Excluded Termination Payments will rank below all payments of interest and principal on the Notes.

#### **Qualifying Swap Transactions**

The Loan Note Issuer may from time to time enter into a Qualifying Swap Agreement in relation to one or more Series, including Series 2020-1, which Series will comprise a Qualifying Swap Group for the purposes of that Qualifying Swap Agreement. As at the date of this Prospectus, the Loan Note Issuer has not entered into any Qualifying Swap Agreement, including in respect of Series 2020-1.

If the Loan Note Issuer proposes to enter into a Qualifying Swap Agreement in respect of a Qualifying Swap Group, then the conditions for any such swap agreement to be a "**Qualifying Swap Agreement**" (which will include the provision of a Rating Confirmation) will need to be met.

The making and receipt of payments by the Loan Note Issuer under any Qualifying Swap Agreement, in respect of a Qualifying Swap Group of which Series 2020-1 forms part, are contemplated in the Series 2020-1 Supplement and the Series 2020-1 Loan Note Supplement and are more particularly described in the Section entitled "*Series 2020-1 – Application of Available Funds*". Any collateral posted to the Loan Note Issuer pursuant to any such Qualifying Swap Agreement will not form part of the calculation of Available Funds and will not be available to make payments under the Series 2020-1 Loan Notes, other than pursuant to the terms of the relevant Qualifying Swap Agreement.

If a Qualifying Swap Transaction is entered into and Series 2020-1 is identified as forming part of the relevant Qualifying Swap Group, Qualifying Swap Amounts

referable to Series 2020-1, excluding Qualifying Swap Partial Termination Payments, Qualifying Swap Permitted Tax Credit Payments and Qualifying Swap Subordinated Termination Payments, will rank in priority to the payment of amounts to fund interest on the Class A1 Notes, the Class A2 Notes and the Class A3 Notes. Qualifying Swap Partial Termination Payments and Qualifying Swap Permitted Tax Credit Payments will rank *pro rata* and *pari passu* with payments used to fund interest on the Class A1 Notes, the Class A2 Notes and the Class A3 Notes, with Qualifying Swap Subordinated Termination Payments ranking below all payments used to fund interest on the Notes.

**Receivables Trustee Priority of Payments**

On each Transfer Date, the Receivables Trustee will distribute the Available Funds standing to the credit of the Series 2020-1 Finance Charge Collections Ledger, in the following order:

- (1) the Investor Aggregate Trustee Payment Amount will be credited to the Loan Note Issuer Distribution Account and ultimately used by the Receivables Trustee to satisfy the Investor Aggregate Trustee Payment Amount;
- (2) the Loan Note Issuer Costs Amount and Issuer Costs Amount will be credited to the Loan Note Issuer Distribution Account;
- (3) an amount equal to the Loan Note Issuer Profit Amount for Series 2020-1 and the Issuer Profit Amount will be credited to the Loan Note Issuer Distribution Account;
- (4) the Investor Servicing Fee Amount will be credited to the Loan Note Issuer Distribution Account and ultimately distributed to the Servicer;
- (5) if Series 2020-1 is in a Qualifying Swap Group, an amount equal to any Qualifying Swap Amount referable to Series 2020-1 payable on such Transfer Date, excluding any Qualifying Swap Partial Termination Payments, Qualifying Swap Permitted Tax Credit Payments or Qualifying Swap Subordinated Termination

**Loan Note Issuer Priority of Payments**

On each Transfer Date, the Loan Note Issuer will then transfer from the Series 2020-1 Ledger of the Loan Note Issuer Distribution Account to the extent there are sufficient funds on deposit:

- (1) the Investor Aggregate Trustee Payment Amount shall be paid to the Receivables Trustee as Additional Funds;
- (2) the Loan Note Issuer Costs Amount and the Issuer Costs Amount shall be retained by the Loan Note Issuer for distribution to the relevant parties;
- (3) the Loan Note Issuer Profit Amount shall be retained by the Loan Note Issuer and the Issuer Profit Amount shall be paid to the Issuer;
- (4) the Investor Servicing Fee Amount shall be paid to the Receivables Trustee as Additional Funds;
- (5) if Series 2020-1 is in a Qualifying Swap Group, an amount equal to any Qualifying Swap Amounts referable to Series 2020-1 excluding any Qualifying Swap Partial Termination Payments, Qualifying Swap Permitted Tax Credit Payments or Qualifying Swap Subordinated Termination Payments referable to Series 2020-1 shall be paid to the relevant Qualifying Swap Provider;
- (6) *pro rata* and *pari passu* (i) the Class A1 Monthly Distribution Amount shall be paid to the Issuer; (ii) the Class A2 Monthly Distribution Amount shall be paid to the Issuer; (iii) the Class A3 Monthly Distribution Amount shall be paid to the Issuer; and (iv) if Series 2020-1 is in a Qualifying Swap Group, an amount equal to any Qualifying Swap Partial Termination Payments and Qualifying Swap Permitted Tax Credit Payments referable to Series 2020-1 shall be paid to the relevant Qualifying Swap Provider;

- Payments, shall be credited to the Loan Note Issuer Distribution Account;
- (6) *pro rata and pari passu* (i) an amount equal to the sum of the Class A1 Monthly Finance Amount, the Class A1 Deficiency Amount and the Class A1 Additional Finance Amount – called the "**Class A1 Monthly Distribution Amount**" – will be credited to the Loan Note Issuer Distribution Account; (ii) an amount equal to the sum of the Class A2 Monthly Finance Amount, the Class A2 Deficiency Amount and the Class A2 Additional Finance Amount – called the "**Class A2 Monthly Distribution Amount**" – will be credited to the Loan Note Issuer Distribution Account; (iii) an amount equal to the sum of the Class A3 Monthly Finance Amount, the Class A3 Deficiency Amount and the Class A3 Additional Finance Amount – called the "**Class A3 Monthly Distribution Amount**" – will be credited to the Loan Note Issuer Distribution Account; and (iv) if Series 2020-1 is in a Qualifying Swap Group, an amount equal to any Qualifying Swap Partial Termination Payments and Qualifying Swap Permitted Tax Credit Payments referable to Series 2020-1 that are due and payable on such Transfer Date will be credited to the Loan Note Issuer Distribution Account;
- (7) an amount equal to the sum of the Class B Monthly Finance Amount, the Class B Deficiency Amount and the Class B Additional Finance Amount – called the "**Class B Monthly Distribution Amount**" – will be credited to the Loan Note Issuer Distribution Account;

**Cash Management and Bank Accounts**

Collections from Obligor are currently paid to a number of bank accounts with Santander UK in the name of Santander UK (the "**Primary Collection Accounts**") before being transferred on a daily basis or as soon as practicable thereafter to the Transferor Collection Account (without any deductions) and onward to the Receivables Trustee Collection Account as soon as practicable after receipt of such Collections by the Transferor, until such time in each Collection Period that an amount equal to the Senior Expense Amount has been transferred from the Primary Collection Accounts to the Transferor Collection Account and onward to the Receivables Trustee Collection Account ("**Senior Funding Completion**"), and thereafter such daily transfers will be made to the Transferor Collection Account and (to the extent required to maintain Senior Funding Completion) onward to the Receivables Trustee Collection Account after deduction of payments made by Santander UK (or any other person) on behalf of the Originator or any RPA Counterparty in respect of: (i) advances on Accounts to payment systems and retailers to fund new Receivables; (ii) Obligor's balance transfers; (iii) insurance premiums charged to Obligor's Accounts; and (iv) payments made in cash in respect of Obligor's claims in respect of their Accounts.

The above arrangements are made possible by the terms of the master cash settlement agreement dated 18 December 2014 and made between, *inter alios*, the Receivables Trustee, the Transferor, the Transferor Beneficiary and the Investor Beneficiary (the "**Master Cash Settlement Agreement**"), which permits the Transferor to retain Collections which would otherwise be paid back to it by the Receivables Trustee, where such payments represent the direct or indirect proceeds of:

- (a) Finance Charge Collections, in which case such amounts shall constitute "**Finance Charge Advance Payments**" and shall be retained by the Transferor absolutely, subject only to an obligation to refund an equivalent amount to the extent of any overpayment; or
- (b) Principal Collections, in which case such amounts shall constitute "**Principal Advance Payments**"

and shall be held on trust by the Transferor for the Receivables Trustee, subject to an obligation to refund them, until applied by the Transferor for the purpose of funding amounts payable from Cash Available for Investment (including payment for assigned Receivables generated on the Designated Accounts).

Finance Charge Advance Payments represent sums which it is anticipated that the Transferor (or one of its Affiliates, such as the Servicer or the Cash Manager) will receive on the Transfer Date following the Collection Period in which such payments are made. Principal Advance Payments represent amounts of Cash Available for Investment which would otherwise be retained by the Receivables Trustee, pending application in accordance with the provisions of the Receivables Trust Deed and Servicing Agreement. It is anticipated that Principal Advance Payments will typically be released to the Transferor in consideration for the assignment of new Receivables to the Receivables Trustee.

The arrangements in respect of the Primary Collection Accounts (subject only to the applicable provisions of the Transaction Documents) may change from time to time at the discretion of the Originator and/or Transferor, as applicable, **provided that** the accounts are held with an appropriately rated institution.

All Collections held in the Transferor Collection Account will be held on trust for the Receivables Trustee pending the transfer of such Collections to the Receivables Trustee Collection Account which (prior to Senior Funding Completion) will take place as soon as practicable after receipt of such Collections by the Transferor. Following Senior Funding Completion, such Collections shall be retained by the Transferor, either as payments of the Finance Charge Collections or Principal Collections due to it or as Finance Charge Advance Payments or Principal Advance Payments (and, if they are Principal Advance Payments, such amounts will continue to be held in the Transferor Collection Account on trust for the Receivables Trustee).

Amounts standing to the credit of the Receivables Trustee Collection Account are applied in accordance with the priority of payments set out in the Receivables Trust Deed and Servicing Agreement and the Supplements thereto on each Transfer Date (see "*The Receivables Trust*" and "*Series 2020-1*" for more detail). The Loan Note Issuer will credit the amount received from the Receivables Trustee in respect of the Class A1 Monthly Distribution Amounts, the Class A2 Monthly Distribution Amounts, the Class A3 Monthly Distribution Amounts, the Class B Monthly Distribution Amounts, the Class C Monthly Distribution Amounts, the Class D Monthly Distribution Amounts, the Class E Monthly Distribution Amounts, the Class F Monthly Distribution Amounts and any other amounts relating to Series 2020-1 to the Series 2020-1 Ledger maintained within the Loan Note Issuer Distribution Account on each Transfer Date.

On each Transfer Date, the Loan Note Issuer will apply amounts standing to the credit of the Series 2020-1 Ledger to make the payments due to the Receivables Trustee on such Transfer Date in the order of priority specified under "*The Series 2020-1 Loan Notes*", thus enabling the Receivables Trustee to make all corresponding payments to be made by it using such funds on such Transfer Date. The Receivables Trustee, the Loan Note Issuer and the Transferor have agreed that such payments will be settled on a net basis and that, as described above, the Transferor is able to retain amounts which would otherwise be paid to it on the following Transfer Date.

On each Transfer Date, the Loan Note Issuer shall (after making the payments due to the Receivables Trustee referred to above and any other prior-ranking payments) apply amounts standing to the credit of the Series 2020-1 Ledger in making payments of interest and, on any Transfer Date immediately prior to the Series 2020-1 Scheduled Redemption Date, the Class A1 Scheduled Redemption Date, the Class A2 Scheduled Redemption Date or the Class A3 Scheduled Redemption Date or during the Rapid Amortisation Period, any Class A1 Rapid Amortisation Period, any Class A2 Rapid Amortisation Period or any Class A3 Rapid Amortisation Period, principal on the Series 2020-1 Loan Notes, together with other amounts owed to the Issuer, by transferring such amounts to the Issuer Distribution Account. The Issuer will then utilise such amounts on the subsequent Distribution Date, together with any interest earned on the Issuer Distribution Account since the previous Distribution Date, in making payments of interest and, on the Series 2020-1 Scheduled Redemption Date, the Class A1 Scheduled Redemption Date, the Class A2 Scheduled Redemption Date or the Class A3 Scheduled Redemption Date and during the Rapid Amortisation Period, any Class A1 Rapid Amortisation Period, any Class A2 Rapid Amortisation Period or any Class A3 Rapid Amortisation Period, principal on the Notes and making the other payments to be made by it on such date in the order of priority specified in the Note Conditions.

**"Senior Expense Amount"** means:

- (a) for Series 2020-1, the amount calculated on any given day prior to a Transfer Date as being equal to the expected payments under items 1 to 10, 19, 22, 26 and 28 of the Receivables Trustee priority of payments set out above on the relevant Transfer Date; and
- (b) in respect of any other Series, the amount calculated on any given day prior to a Transfer Date as being equal to the expected payments made under such senior-ranking items of the applicable Receivables Trustee priority of payments in respect of that Series as are specified in the relevant Series supplement on the relevant Transfer Date,

**provided that** any Reference Rate for such purposes, if applicable, will be at least equal to such Reference Rate on the date of calculation of such expected payments as

notified to the Servicer by the Calculation Agent on such date.

The expected payments under items 6(i), 6(ii), 7, 8, 9, 19 and 22, and, if so provided in the relevant Qualifying Swap Agreement, items 5 and 6(iii), of the Receivables Trustee priority of payments and the Senior Expense Amount may be recalculated if the Servicer so elects, at any time or times after the initial calculation of the Senior Expense Amount until and including the relevant Transfer Date.

"**LN Rate**" means each of the Class A1 LN Rate, the Class A2 LN Rate, the Class A3 LN Rate, the Class B LN Rate, the Class C LN Rate, the Class D LN Rate, the Class E LN Rate and the Class F LN Rate.

"**RPA Counterparty**" means any member of the NewDay Group, or any other person acting on behalf of a member of the NewDay Group, which is the counterparty to any retail partner agreement or other affinity or private-label arrangement pursuant to which any Accounts are originated or maintained by or on behalf of the Originator.

#### **Transferor Advances**

Pursuant to an addendum to the Receivables Trust Deed and Servicing Agreement dated on or about 5 October 2020 (as supplemented, amended and/or restated from time to time, the "**RTDSA Transferor Advance Addendum**"), the Transferor may provide cash advances in relation to specified Collection Periods to the Receivables Trustee. Any such Transferor Advance Amounts will form part of Trust Property and be treated, for the purposes of calculations under the Receivables Trust Deed and Servicing Agreement, as additional Finance Charge Collections for the relevant Collection Periods. See "*The Receivables Trust – Transferor Advances*" for more detail.

<b>Swap Counterparty (if applicable)</b>	<p>Unless the Swap Counterparty is posting collateral to the Issuer in respect of the Swap Counterparty's obligations under the Class A1 Swap Agreement and/or the Class A2 Swap Agreement: (x) a rating of at least the Unsupported Minimum Counterparty Rating from Fitch and (y) a public rating assigned by DBRS to either the relevant entity or its long-term, unsecured and unsubordinated debt obligations of at least A or, in the absence of a rating assigned by DBRS, a DBRS Equivalent Rating at least equal to A by DBRS, or such other rating from time to time notified or published by DBRS replacing any of the above ratings implementing a rating requirement (the "<b>First Minimum Required Rating</b>"), or such other minimum required ratings as may be specified in the Class A1 Swap Agreement and/or the Class A2 Swap Agreement, as applicable.</p> <p>If the Swap Counterparty is posting collateral to the Issuer in respect of the Swap Counterparty's obligations under the Class A1 Swap Agreement and/or the Class A2 Swap Agreement: (x) a rating from Fitch of at least: (A) the Supported Minimum Counterparty Rating or (B) if an entity is not incorporated in the same jurisdiction as the Issuer and, following a request from Fitch, has not provided to Fitch a legal opinion, in a form acceptable to Fitch, confirming the enforceability of the subordination provisions in the Issuer Documents against it in its jurisdiction, the Supported Minimum Counterparty Rating (adjusted), in each case, from Fitch and (y) a public rating assigned by DBRS to either the relevant entity or its long-term, unsecured and unsubordinated debt obligations of at least BBB or, in the absence of a rating assigned by DBRS, a DBRS Equivalent Rating at least equal to BBB by DBRS, or such other rating from time to time notified or published by DBRS replacing any of the above ratings implementing a rating requirement (the "<b>Second Minimum Required Rating</b>") or such other minimum required ratings as may be specified in the Class A1</p>	<p>The Swap Counterparty will be required to take certain remedial measures in accordance with the Class A1 Swap Agreement and the Class A2 Swap Agreement.</p> <p>If the Swap Counterparty fails to take any of the applicable remedial measures in accordance with the provisions of the Class A1 Swap Agreement and/or the Class A2 Swap Agreement, the Issuer may terminate such Class A1 Swap Agreement and/or Class A2 Swap Agreement, as applicable, in accordance with their respective terms.</p>

<u>Transaction Party</u>	<u>Required Ratings/Triggers</u>	<u>Possible effects of trigger being breached include the following</u>
	Swap Agreement and/or the Class A2 Swap Agreement, as applicable.	

"Unsupported Minimum Counterparty Rating", "Supported Minimum Counterparty Rating" and "Supported Minimum Counterparty Rating (adjusted)" shall mean the derivative counterparty rating or, if one has not been assigned by Fitch, the long-term issuer default rating or, if applicable, the short-term issuer default rating from Fitch corresponding to the then current rating of the Class A1 Notes or the then current rating of the Class A2 Notes (as applicable) as set out in the following table:

<u>Current rating of Class A1 Notes and/or Class A2 Notes (as applicable)</u>	<u>Unsupported Minimum Counterparty Rating</u>	<u>Supported Minimum Counterparty Rating</u>	<u>Supported Minimum Counterparty Rating (adjusted)</u>
AAAsf	A or F1	BBB- or F3	BBB+ or F2
AA+sf, AAsf, AA-sf	A- or F1	BBB- or F3	BBB+ or F2
A+sf, Asf, A-sf	BBB or F2	BB+	BBB or F2
BBB+sf, BBBsf, BBB-sf	BBB- or F3	BB-	BBB- or F3
BB+sf, BBsf, BB-sf	At least as high as the Class A1 Notes rating or the Class A2 Notes rating, as applicable	B+	BB-
B+sf or below or Class A1 Notes or Class A2 Notes are not rated by Fitch	At least as high as the Class A1 Notes rating or the Class A2 Notes rating, as applicable	B-	B-

For the purposes of the above table, if the Class A1 Notes are downgraded by Fitch as a result of a downgrade or loss of the rating of the Swap Counterparty, then the then current rating of the Class A1 Notes will be deemed to be the rating the Class A1 Notes would have had but for such downgrade or loss of the rating. Equally, if the Class A2 Notes are downgraded by Fitch as a result of a downgrade or loss of the rating of the Swap Counterparty, then the then current rating of the Class A2 Notes will be deemed to be the rating the Class A2 Notes would have had but for such downgrade or loss of the rating.

**"Permitted Activities"** shall mean the primary activities of the Receivables Trustee, which are:

- (v) without prejudice to the provisions in the Receivables Trust Deed and Servicing Agreement, the benefit of all representations, covenants, indemnities and other contractual provisions in favour of the Receivables Trustee (other than any such made or granted solely for its own benefit) made or granted in or pursuant to any of the Relevant Documents or pursuant to any assignment and all rights to make demands, bring proceedings or take any other action in respect thereof;
- (vi) all other property, other than (for the avoidance of doubt) any amounts standing to the credit of the bank account opened for the purpose of receiving and making payments to be made otherwise than in its capacity as Receivables Trustee and amounts representing its paid up share capital, which may from time to time be held by or on behalf of the Receivables Trustee; and
- (vii) all rights vested by law in the Receivables Trustee by virtue of its holding the Trust Property (as set out in paragraphs (i) to (vi) inclusive above).

"**Trust Register**" shall mean the register maintained pursuant to the Receivables Trust Deed and Servicing Agreement recording the identity of the Beneficiaries of the Receivables Trust from time to time and the amounts of any Contributions by them and repayments thereof.

### The NewDay Group

The NewDay Group is a major UK consumer credit business with specialist capabilities in near-prime lending and co-brand credit solutions. The products currently provided by the NewDay Group include revolving credit (such as credit cards and other revolving credit products) and instalment credit. It currently focuses on two key segments of the UK consumer credit market:

- (a) Near-prime lending: The NewDay Group currently offers revolving credit products to customers who may not have access to credit from mainstream lenders. This includes credit cards issued under the aqua, marbles, opus and Fluid brands. Over the 12 months to 30 June 2020, approximately 35 per cent. of the NewDay Group's new customers were acquired onto such revolving credit products.
- (b) Co-brand credit solutions: The NewDay Group currently offers co-brand credit cards, point of sale financing and other forms of credit to customers of well-known consumer brands (including Amazon, AO.com, the Arcadia Group (which includes the Burton, Dorothy Perkins, Topman and Topshop brands, among others), Argos, Debenhams and Unshackled.com). Over the 12 months to 30 June 2020, approximately 64 per cent. of the NewDay Group's new customers were acquired onto co-brand credit products.

NewDay Cards Ltd (then known as SAV Credit Limited) commenced trading in 2002, with the launch of the aqua credit card. The NewDay Group has since grown both organically and through acquisitions. In 2007, it acquired a portfolio of co-brand and own-brand credit card accounts (which are now operated under the marbles brand) from HSBC. In 2010, it acquired another portfolio of co-brand and own-brand credit card accounts (which are now operated under the opus brand) from Citibank. In May 2013, it acquired a portfolio of co-brand credit card, store card and instalment credit accounts from, *inter alios*, Santander UK plc. In May 2015, the NewDay Group re-launched the marbles credit card, originating into the 'near prime' segment of the UK credit card market. In November 2016, the NewDay Group partnered with the travel and tourism company, TUI, to launch the TUI credit card (although new customers are no longer being accepted for this product). In December 2016, it partnered with Amazon to launch a co-brand credit card in January 2017. In December 2016, the NewDay Group launched an unsecured personal loan product marketed to selected existing near-prime lending credit-card customers (although new lending under this unsecured personal loan product has been discontinued since March 2020). In October 2017, the NewDay Group re-launched the opus credit card and, in April 2018, the NewDay Group launched the Fluid credit card. In October 2018, the NewDay Group launched NewPay, a digital revolving credit product, with Unshackled.com. In April 2019, the NewDay Group partnered with Argos to launch the Argos Classic Card, which is offered to certain applicants for the Argos store card (operated by Home Retail Group Card Services Limited ("**HRG**")) who are outside of HRG's lending appetite. In August 2019, the NewDay Group partnered with AO.com to launch AO Finance on the NewPay platform. This is a digital revolving

credit product integrated into AO's digital channels, and allows AO's customers to split purchases into equal instalments or defer payment through 'buy now, pay later' functionality.

As at 30 June 2020, the NewDay Group operated approximately 4.5 million accounts with an aggregate balance of receivables of approximately £2,683 million.

The NewDay Group is currently majority owned by funds advised by private equity firms Cinven and CVC Capital Partners. Cinven is a leading private equity provider for large European buyouts, having led transactions totalling in excess of €70 billion. Cinven was founded in 1977 and has offices in London, Frankfurt, Guernsey, Hong Kong, Luxembourg, Madrid, Milan, New York and Paris. CVC Capital Partners is a leading international private equity and advisory firm and has completed over 300 investments in a wide range of industries and countries across the globe. ### **The NewDay Group's Response to the COVID-19 Pandemic**

#### **Overview**

Since the outbreak of the COVID-19 pandemic, the NewDay Group's main priority has been to ensure the safety of its employees whilst continuing to provide high levels of customer service to help customers, especially those who are most vulnerable, during the resulting period of uncertainty. The NewDay Group has identified and implemented appropriate measures in relation to its operations, funding, liquidity, underwriting and collections functions in response to the exceptional circumstances arising out of the COVID-19 pandemic. The NewDay Group will continue to monitor (and may update) these measures as the COVID-19 pandemic develops.

The NewDay Group has continued to operate without significant disruption through the current period. The NewDay Group continues to accept new business in both the own-brand and co-brand portfolios but has taken steps to reduce the level of credit risk exposure from new customers. In order to further reduce credit risk exposure, the NewDay Group made the decision in March 2020 to discontinue offering unsecured personal loans to new customers. The NewDay Group will continue to monitor its credit risk exposure (and may make further adjustments to its suite of products and collections policies) as the COVID-19 pandemic develops.

#### **The NewDay Group's Operations**

From an operational perspective, the NewDay Group's significant investment in technology over recent years has meant that its staff are able to operate remotely, with the majority of its systems now being cloud-based and therefore unaffected by the location of its employees. In April 2020, the NewDay Group transitioned all its contact centre and support function staff to remote working with no significant impact on operations. The NewDay Group has now commenced a phased approach to re-opening its offices.

In relation to the technical and operational services performed by Fiserv in respect of the Securitised Portfolio, Fiserv maintained office working during the lockdown period, with separate offices and zones to maintain distance between different groups of employees. This proved to be an effective approach and therefore the NewDay Group observed no significant impact on its operations as a result of the impact of the lockdown restrictions on Fiserv.

#### **New Business**

The COVID-19 pandemic has affected many NewDay customers and retail partners and the NewDay Group has responded with appropriate steps to support existing customers while continuing to acquire new customers and support the NewDay Group's retail partners. New accounts are still being added in both own-brand and co-brand portfolios. Within the co-brand portfolio, although new account volumes are significantly lower than last year, this has been partly offset by new account volume through the NewDay Group's online-only retail partners.

#### **Customer Spending**

Consumer spending behaviour changed as a result of the lockdown and the NewDay Group observed a significant decline in customer spending during this period (although online spending continued to perform in line with expectations). Since the lifting of lockdown restrictions, the NewDay Group has seen a gradual

return toward more normalised levels of spending. However, consumer spending behaviour may continue to change as the COVID-19 pandemic, and its consequences for customers and the wider economy, develop.

### **Retail Partners**

Whilst the NewDay Group continues to take steps to diversify its co-brand portfolio as it partners with new retailers and launches new products, certain retail partners are exposed to the challenges faced by high street businesses. In particular:

- House of Fraser entered administration in August 2018 and the House of Fraser business was subsequently acquired by Sports Direct (now known as “Fraser’s Group”). The NewDay Group’s contract with House of Fraser was novated to the new House of Fraser business, however, the House of Fraser card programme has not accepted new customers since August 2018. The NewDay Group expects the retail partner contract with House of Fraser to terminate during the first half of 2021, although the NewDay Group does not currently expect this to have a material effect on the Securitised Portfolio;
- Arcadia successfully completed a company voluntary arrangement in June 2019. The Arcadia card programme continues to accept new customers and the credit agreements between the Originator and the existing Arcadia portfolio credit card and store card customers are unaffected by the company voluntary arrangement;
- Laura Ashley has ceased to trade and the Laura Ashley card programme is no longer accepting new customers. Existing customers who hold a Laura Ashley credit card are able to continue using their credit card in the normal way for spending with third party retailers. The NewDay Group is currently considering its options in relation to the Laura Ashley card programme. However, these developments are not currently expected to have a material effect on the Securitised Portfolio; and
- in April 2019, Debenhams plc entered administration and the underlying operating companies (including the entities party to the NewDay Group’s contract with Debenhams) were sold to a separate legal entity owned and controlled by certain creditors of Debenhams plc. The administration of Debenhams plc did not impact the Debenhams portfolio or the NewDay Group’s contract with Debenhams. However, the relevant Debenhams operating companies subsequently entered administration on 9 April 2020, largely driven by store closures as a result of the COVID-19 pandemic. These entities continue to trade and the Debenhams card programme continues to operate as normal, although the outcome of the administration remains unclear. The NewDay Group believes that it is well placed to continue its long standing relationship with Debenhams if and when it does emerge from administration. Nevertheless contingency plans are being implemented to ensure appropriate action is taken if it becomes clear that Debenhams will not emerge from administration. In this scenario it is expected that customers would be re-carded onto another NewDay credit card product. It is not possible to accurately predict the likely impact on the credit performance of the Debenhams portfolio if customers are re-carded. However, the NewDay Group’s experience on the closure of other products is that this does not cause higher volumes of customers to enter delinquency, but that, as overall customer balances tend to fall in these scenarios, there may be a mathematical increase in delinquency and charge-off rates.

### **Credit Underwriting**

The NewDay Group has been actively monitoring customer behaviour and macroeconomic indicators, and has put in place a number of credit-tightening and customer support initiatives in order to address the increased risks associated with the current macroeconomic climate and any increase in credit losses. Accordingly, the NewDay Group has taken action to tighten credit by amending eligibility criteria for credit limit increases, reducing initial credit limits and not extending lending to higher risk customer segments. This is partly in response to the trend of reduced spending, meaning that credit limits are less utilised. The NewDay Group will continue to monitor consumer credit risk and may take further action to update its credit underwriting approaches where appropriate as the COVID-19 pandemic develops.

### **Collections Policies**

The NewDay Group has put in place a number of initiatives to support its customers. These initiatives include a more generous application of the current default fee refund policy for customers impacted by the

COVID-19 pandemic, the temporary relaxation of the eligibility requirement applicable to certain repayment plans to pay at least 0.5 per cent. of the outstanding balance each month (rather than the typical 1 per cent.), continuing to offer the existing payment holiday solution and introducing a payment freeze solution in line with FCA guidance (as such guidance has been updated).

Within the NewDay Group's pre-existing collections policies, payment holidays of between one and three months may be offered to customers who are experiencing temporary difficulties, depending on individual circumstances. During such a payment holiday, interest and fees are frozen and the customer's ability to spend on the card is suspended. In response to the FCA's COVID-19 guidance, the NewDay Group also offers customers on such payment holidays an additional three month period of payment holiday in cases where those customers continue to be in arrears, or are otherwise highly utilised or over their credit limit and where this is assessed to be a more appropriate measure than an initial, or further, COVID-19-related payment freeze.

In April 2020, the NewDay Group introduced a new payment freeze solution, which is available to customers who are not in arrears but are nevertheless experiencing payment difficulties due to the COVID-19 pandemic. In line with FCA guidance originally published on 9 April 2020, this solution provides the customer with a three month payment freeze period, whilst allowing the customer to continue spending on the card. Interest continues to accrue, but certain default fees are not charged, during the payment freeze period. On 9 July 2020, in line with updated guidance published by the FCA, the NewDay Group updated its payment freeze solution to provide customers still experiencing payment difficulties due to the COVID-19 pandemic with the ability to extend that payment freeze period for a further three months or for other customers to apply for an initial payment freeze.

The NewDay Group will, until 31 October 2020 (or such later date as is mandated by the FCA), allow customers to apply for an initial or further payment freeze period.

As a customer finishes their payment freeze or payment holiday period, if that customer is still experiencing financial difficulties, it is possible that such customer may enter the NewDay Group's other collections processes (which may include, for example, a customer who finishes their payment freeze period being offered a payment holiday). If this were to happen to a significant number of customers, this in turn could result in a rise in delinquencies and/or charge-offs. The NewDay Group has yet to observe such a rise in delinquencies or charge-offs with respect to customers who have finished their payment freeze or payment holiday period (although it is possible that such rises may occur in the fourth quarter of 2020 or in early 2021).

As at 31 July 2020, 0.3 per cent. of the Accounts in the Securitised Portfolio (representing 2.1 per cent. of the Receivables balance of the Securitised Portfolio) were on a payment holiday period and 0.2 per cent. of the Accounts in the Securitised Portfolio (representing 1.5 per cent. of the Receivables of the Securitised Portfolio) were on a payment freeze period. The NewDay Group has published addendums to the monthly investor reports containing information on the proportion of customers on payment freeze and payment holiday periods.

The overall impact of the COVID-19 pandemic on the performance of the Securitised Portfolio is difficult to predict and will develop over time. For example, customers not currently on a payment holiday or payment freeze may experience financial difficulties. The NewDay Group currently envisages this will most likely be driven by macroeconomic conditions and the size of any increase in unemployment. As a result, the NewDay Group will continue to review (and may update) its collections policies in order to respond to any such changes (including any updates to the relevant FCA guidance) as the COVID-19 pandemic develops. For an overview of the regulatory framework which applies to payment freezes and the risks posed by this framework, see "*Risk Factors – FCA Measures During the COVID-19 Pandemic*".

## Debt Sales

The NewDay Group has historically, in relation to the co-brand portfolio, made use of regular ("**forward flow**") debt sale contracts to sell debt that reaches 180 days past due. However, in April 2020, the NewDay Group temporarily suspended this strategy for the co-brand portfolio. The NewDay Group is therefore assessing its options going forward in light of the increased challenges in the current debt sale market, and will consider executing debt sales when deemed appropriate and when conditions allow.

### THE TRANSFEROR

The Transferor, NewDay Partnership Transferor Plc (which, prior to 12 December 2014, was known as NewDay Partnership Funding Plc), is a public limited company incorporated in England and Wales, under the Companies Act 2006 (as amended), on 14 December 2012, under the name Tosca Funding Limited and with registered number 08331325. The Transferor was re-registered as a public company on 28 March 2013 and the name of the Transferor was changed to NewDay Partnership Funding Plc by a special resolution dated 25 March 2014 and changed to NewDay Partnership Transferor Plc by a special resolution dated 11 December 2014. Its registered office and principal place of business are located at 7 Handyside Street, London N1C 4DA, United Kingdom.

The Transferor was originally incorporated in order to hold beneficial title to, and issue debt securities to fund, the portfolio of credit card, store card and instalment credit accounts which now comprise the Securitised Portfolio. The Transferor's principal activities comprise the holding of the Transferor Interest and its holding of the Originator VFN Loan Note, together with the ongoing sale of Receivables to the Receivables Trustee, in connection with which it will be involved in the execution and performance of the Transaction Documents to which it is a party, the execution and performance of all documents relating thereto to which it is a party, the exercise of related rights and powers and other activities reasonably incidental thereto.

The Transferor is also involved in a secondary funding facility for credit card (and/or other) receivables which are separate from, and do not form part of, the Securitised Portfolio (the "**Other Receivables**"). Pursuant to such arrangements, the Transferor (i) has entered into arrangements for the assignment of Other Receivables to a special purpose entity (the "**SFF Issuer**"), (ii) holds subordinated interests (including in the form of debt instruments) issued by such SFF Issuer, (iii) has entered into servicing, cash management and settlement arrangements in respect of the Other Receivables and (iv) has executed (and may in the future execute further) transaction documents, and may exercise rights and powers, in respect of such secondary funding facility.

The Transferor's activities are limited to minimise the likelihood of insolvency proceedings being commenced against the Transferor and to minimise the likelihood that there would be claims against the Transferor if insolvency proceedings were commenced against it.

## CONSUMER CREDIT MARKET IN THE UNITED KINGDOM

As at 30 June 2020, the United Kingdom consumer credit market was valued at £207.1 billion. Products offered within this market include credit cards, store cards, unsecured personal loans, point of sale financing, overdrafts, guarantor loans, payday loans and certain other credit products. NewDay currently offers credit cards, store cards, point of sale financing and certain other credit products. Over the 12 months to 30 June 2020, the United Kingdom consumer credit market decreased by 3.6 per cent. The amount borrowed by consumers in order to buy goods and services fell by £0.1 billion in June 2020, which was well below the average monthly decline of £2.1 billion seen over the previous six months.<sup>3</sup>

Consumer finance new business fell in June 2020 by 17 per cent. compared with the same month in 2019. Credit card and personal loan new business together fell in June 2020 by 29 per cent. compared with the same month in 2019, while retail store and online credit new business fell by 7 per cent. over the same period.<sup>4</sup>

Within the United Kingdom consumer credit market, there are a total of 64.9 million credit cards in issue, relating to 55.8 million accounts, of which 64.7 per cent. were active at the end of May 2020 (i.e. carrying a balance relating to card spending and extended credit). There were 186 million credit card transactions in May 2020, with a total value of £9.6 billion. This spending volume was 38.5 per cent. lower than in May 2019, and its aggregate value fell by 44.7 per cent.<sup>5</sup> Credit card lending fell by £0.248 billion in June 2020, which was well below the monthly average decrease of £1.444 billion seen over the previous six months.<sup>6</sup>

In the co-brand segment of the United Kingdom consumer credit market, there are currently five main credit card issuers operating: American Express, BNP Paribas, Capital One, HSBC and NewDay, who currently offer accounts with Representative APRs ranging from 18.9 per cent. to 34.9 per cent.

As at January 2016, the number of targetable potential co-brand credit card customers in the United Kingdom was estimated at between 14.6 and 20.9 million, of which circa 8.4 million were estimated to already be in possession of a co-brand credit card.<sup>7</sup>

As at 30 June 2020, the NewDay Group had 2.7 million customer accounts in the Total Portfolio. This would equate to 13-19 per cent. of the targetable co-brand credit card customers in the United Kingdom, based upon the above estimate for the total number of such targetable customers (although it is likely that the number of those targetable customers will have changed since January 2016).

**THE SECURITISED PORTFOLIO****General**

The Securitised Portfolio comprises Receivables existing and arising from accounts in the NewDay Group's co-brand credit card, store card and instalment credit business. The accounts within the Securitised Portfolio include, as at the 2020-1 Closing Date, those acquired from Santander UK and its affiliates in May 2013 and those subsequently originated or acquired by NewDay Ltd. Please see "*Retailers*" for further details.

Following the Series 2020-1 Closing Date, further credit card (and, potentially, charge card, store card and instalment credit) accounts originated or acquired by NewDay Ltd and originated via sales channels made available by existing or new retail partners may be added to the Securitised Portfolio.

The product types included within the Securitised Portfolio as at the Series 2020-1 Closing Date are summarised below.

Please see "*Appendix A – Portfolio Information*" for information in respect of the Total Portfolio, including a split of Accounts between credit card accounts, store card accounts and instalment credit accounts.

**Credit Cards**

A customer to whom a credit card has been issued may use his or her card for purchases, cash advances and, where available, balance transfers or money transfers. A purchase is when an Obligor uses his or her credit card to acquire goods or services or to purchase travellers' cheques or foreign currency. A cash advance is when an Obligor uses his or her credit card to get cash from a financial institution or automated teller machine. Cash advances also include certain specified transactions such as electronic money transfers. A balance transfer is when an Obligor uses his or her credit card to repay a borrowing on another credit card, thereby transferring the balance to the credit card issued by the Originator. A money transfer is when an Obligor uses his or her credit card to deposit cash into his or her bank account, thereby transferring the balance to the credit card issued by the Originator. Certain customers may be offered the ability to split credit card purchases into equal instalments or to defer payment through 'buy now, pay later' functionality.

As at the date of this Prospectus, the credit cards issued in respect of the accounts in the Securitised Portfolio all utilise the MasterCard payment scheme.

**Store Cards**

A customer to whom a store card has been issued may only use his or her card for purchases of goods and services from the retailer to which that store card relates or (where available) to obtain cash from that retailer in store.

Store cards are operated directly with the relevant retailer, and not via the American Express, Visa, MasterCard or any other payment system.

**Instalment Credit**

A customer to whom instalment credit has been made available may only use such finance to purchase goods and services from the relevant retailer. Unlike credit cards and store cards, instalment credit accounts are not revolving credit products, and (after any applicable period where the customer does not have to make repayments) the balance on an instalment credit account will be reduced over time by the making of fixed scheduled repayments.

Like store cards, instalment credit accounts are operated directly with the relevant retailer, and not via the American Express, Visa, MasterCard or any other payment system.

## Retailers

The accounts within the Securitised Portfolio are originated via certain of the NewDay Group's Retail Partners, which include well-known consumer brands (including Amazon, the Arcadia Group (which includes the Burton, Dorothy Perkins, Topman and Topshop brands, among others), Debenhams, House of Fraser and Laura Ashley).

"**Retail Partner**" means a retailer or other party (not being a member of the NewDay Group, or any other person acting on behalf of a member of the NewDay Group) which is party to a Retail Partner Agreement.

"**Retail Partner Agreement**" means a retail partner agreement or other affinity or private-label arrangement pursuant to which any Accounts are originated or maintained by or on behalf of the Originator.

## Servicing and Origination

See "*Servicing of Receivables*" for a description of how the Servicer services Receivables included in the securitisation. The Servicer undertakes all the processing and administering of accounts making use of external suppliers as appropriate.

The NewDay Group uses a brand led, value driven marketing strategy to focus new origination campaigns. This process is assisted by the use of financial forecasting models for each method it uses to solicit customers. New customers for the co-brand segment of the NewDay Group's business are recruited both on the relevant retailer's premises and via retailers' websites.

Credit application details are screened by a combination of system based checking, external credit bureau data and, where appropriate, manual verification. Decisions on whether to accept or reject an application are automated to the extent possible.

The Servicer uses a range of application scorecards to assess the credit quality of new account applications. Scorecards assess a range of factors, including previous account history (if relevant), annual income, time at and type of residence, current employment status and credit bureau data.

Where an application is accepted, the initial credit limit and pricing of the account are determined using credit score, behaviour scoring and other business rules. The NewDay Group utilises a low and grow methodology for certain customers, which has been developed by the NewDay Group over time and which balances business growth with risk management (i.e. higher risk customers are left on lower credit limits).

Credit limits and pricing are adjusted in a controlled and regular manner using behaviour scores, affordability criteria, and credit bureau data. Behaviour scoring is one of the key tools used by the Servicer in risk management and underpins all risk decisions applied to accounts once they have been opened.

Credit limits are adjusted based upon the Servicer's continuing evaluation of a given customer's credit behaviour and suitability using a range of statistical models, behaviour scores and monthly credit bureau data which includes current account information for the customer. Once an account has demonstrated sufficient performance, further assessments are conducted and customers demonstrating that they can successfully manage their credit limit and have use for an increased limit are offered higher limits. This process results in the amount of charge-offs being lower than it would be if customers were given an initial high credit limit.

To monitor changes in key macroeconomic factors, such as unemployment and real consumer spending, the Servicer tracks a number of early warning indicators (including, but not limited to, average nominal weekly earnings, retail sales volumes and consumer credit growth) and also tracks internet searches for key subjects that may infer additional stress such as "IVA filing", "benefits" and similar terms. The Servicer has the ability to react quickly to any changes in these early warning indicators by deploying a number of credit-focused, commercial and collections strategies (including, but not limited to, tightening credit score cut-offs, adjusting credit limits and the Credit Guidelines, repricing and changing collections approaches) to manage the Securitised Portfolio.

The Servicer sub-contracts the provision of certain services (including information technology, application processing, card production, transaction and payment processing and customer communication services) relating to the Securitised Portfolio to First Data Global Services Limited ("**Fiserv**"), which has its registered office in Dublin, Ireland and which is not affiliated with the NewDay Group.

The Servicer sub-contracts the provision of certain cash management and settlement services relating to the Securitised Portfolio to Santander UK, which has its registered office in London, England and which is not affiliated with the NewDay Group. The Servicer uses a combination of several credit rating agencies that are not affiliated with the NewDay Group for its initial and ongoing credit scoring processes such as, Experian Limited, a wholly-owned subsidiary of Experian Group Limited, which has its operational headquarters in Nottingham, England, TransUnion (formerly Callcredit Limited), which has its operational headquarters in Leeds, England, and Equifax Inc., which has its headquarters in Atlanta, Georgia, United States.

### **Credit Agreements**

The relationship between each customer and the Originator in respect of that customer's credit card or store card account is set out in a credit agreement and an accompanying set of terms and conditions (together, the "**Credit Agreement**"). Since 29 August 2018, the credit agreement and terms and conditions have been combined into a single document. Under each Credit Agreement, the Originator is, subject to compliance with the terms of the Credit Agreement and applicable laws, regulation, guidance and codes, able to add or change certain terms, conditions, services or features of the customer's account. This includes increasing or decreasing Periodic Finance Charges. A customer is entitled to reject interest rate increases, close his or her account and pay down the balance in accordance with the terms of the Credit Agreement. Each Credit Agreement enables the Originator to apply charges to balances outstanding at the time of the change as well as to future transactions.

The Servicer periodically assesses the forms of Credit Agreement used by the Originator in order to determine their compliance with applicable law and regulatory codes and guidance, as well as the suitability of their terms and conditions. Such a review was carried out in 2018 and the revised Credit Agreement was effective for both new and existing customers with effect from 29 August 2018. The interest rates charged to customers were linked to Bank Rate with effect from 29 August 2018, subject to certain exclusions. The rewrite was driven by the aim of improving the clarity of the Credit Agreement, the decision to introduce Bank Rate linking, the introduction of instalment plans and new legal and regulatory requirements including PSD2 and the FCA's requirements as a result of its credit card market study, particularly in relation to persistent debt.

### **Description of Processing**

Pursuant to its arrangements with the Servicer, Santander UK makes settlement payments on behalf of the Originator to MasterCard (in the case of credit card transactions otherwise than where the relevant transaction involves the acquisition of goods or services from the relevant retail partner) and the retail partners (in the case of store card and instalment credit transactions, as well as credit card transactions, involving the acquisition of goods or services from the relevant retail partner).

### **Billing, Payment and Charges**

Pursuant to its arrangements with the Servicer, customers are provided with monthly statements either electronically or by mail which give details of the transactions on their account. Credit card and store card customers will also be provided with an annual summary of the transactions on their account.

Statements are sent along with marketing (if the customer has agreed to this) and customer service material that may be of interest to customers. All customers have the option to view their statements online, and some customers only receive online statements.

Customers with credit cards or store cards may have up to approximately 56 days following purchases before they are required to make a payment, depending on which stage during a billing cycle a purchase is made.

Certain revolving products (including digital credit accounts and credit cards) allow for customers, where offered, to set-up instalment plans. Save for interest free instalment plans, interest is charged on the instalment plan principal balance over the life of the instalment plan at the instalment plan interest rate. The customer's instalment plan is made up of fixed equal monthly payments which are calculated based on the amount of the instalment plan plus the projected interest over the term of the plan. The monthly payments on the customer's instalment plan are optional, although the customer will still be required to meet the contractual minimum payment on their account. Customers will not go into arrears if they miss a payment

on their instalment plan **provided that** they continue to pay at least the contractual minimum payment. However, in such circumstances, the instalment plan will be cancelled and interest will accrue on the balance previously subject to the instalment plan at the standard purchase rate.

NewDay may also offer the option of Buy Now Pay Later (“BNPL”). Customers do not need to make any payment towards the BNPL purchase during the BNPL promotional period and BNPL balances, which are separate to the standard purchase balance, are not included in the calculation of the contractual minimum payment. Interest does not accrue on the BNPL balance during the BNPL period. If any of the BNPL balance remains outstanding at the end of the promotional period, it will be transferred to the standard purchase balance and start to accrue interest at the standard purchase rate.

For the credit card and store card accounts in the Securitised Portfolio, customers (other than those who are on a repayment plan or a payment holiday or payment freeze) must make a monthly contractual minimum payment which is equal to the sum of (i) the amount of any interest and default fees charged to the account in the current statement period and (ii) 1% of the outstanding balance shown on the statement (including interest and default fees), subject to the contractual minimum payment being a minimum of £5. If the total of the foregoing is less than £5, then the minimum payment due will be the total outstanding balance. Any arrears and amounts over a customer's credit limit are repayable immediately.

For customers who have had their balance moved to a PayDown Plan due to being in persistent debt, the contractual minimum payment will be equal to:

- (a) the amount that NewDay calculates is needed to be paid so that the customer is able to pay off the balance in their PayDown Plan in a reasonable period (for example, four years); plus
- (b) a proportion of any remaining balance owed, which is not subject to the PayDown Plan, calculated as the sum of:
  - (i) twice the amount of interest on that remaining balance;
  - (ii) twice the amount of default fees and transaction fees (other than balance transfer and money transfer fees) added to the account since the last statement date; and
  - (iii) a proportion of any balance transfer fees and money transfer fees split according to the number of months of the relevant promotional period (or, if there is no promotional period, the fees will be split over 12 months).

The Originator charges a default fee of £12 in the following circumstances:

- (a) late payment;
- (b) on each occasion the relevant credit limit is breached; or
- (c) each time an attempted payment is returned unpaid, save that:
  - (i) a returned payment fee is not charged if the customer's cheque or direct debit fails, but the account is brought back up to date before the next billing cycle; and
  - (ii) an over limit fee is not charged where the account is caused to go over limit by the application of a returned payment or late payment fee or a lagged transaction or service fee (such as a cash advance fee or foreign transaction fee).

The Originator may charge a default fee of £25 for tracing if the customer changes their contact details and the Originator is unable to contact them.

A service charge of £3 is charged for a copy statement, unless these are provided as part of a data subject access request.

Currently, a cash advance fee of 3 per cent. (with a minimum fee of £3) is charged on all cash advances and, where a card can be used to make transactions in a currency other than Sterling, purchases and cash advances which are not in Sterling are additionally subject to a 2.95 per cent. non-Sterling transaction fee (with no minimum) in relation to the currency conversion.

The finance charges on both purchases and cash balances are assessed daily and calculated by multiplying the account's actual daily balance by the applicable daily interest rate, which is itself calculated by dividing the configured annual flat rate by either 365 or 366 depending on how many actual days there are in the current calendar year. Finance charges are calculated from the transaction posting date. For purchases, any accrued daily interest is deferred until the following statement, and is waived if the full statement balance is cleared on or before the account due date, which falls 25 days after the statement date each month. Finance charges on cash balances are assessed daily, although there is no deferment and interest accrues immediately. All interest is billed on the next available statement following either the transaction posting date (for cash balances) or the deferred interest period (for purchases).

The interest rates on the Originator's credit card and store card accounts may be changed by the Originator in accordance with the Credit Agreements for such accounts, but subject to applicable laws, regulation, guidance and codes, and such rates have historically not been directly linked to any other rate or index. However, with effect from 29 August 2018, the Originator's standard interest rates for its credit card and store card products have been linked to the Bank Rate, subject to certain exclusions. The Originator may offer a range of promotional rates in relation to promotions such as purchases, balance transfers or money transfers.

The Originator may also offer or administer on behalf of a retail partner activation and other incentive schemes (including "cash back" or voucher-based incentive programmes) from time to time.

As well as the risk profile of a customer, pricing decisions at acquisition and within the customer lifecycle are based upon:

- actual and anticipated movements in underlying interest rates;
- marketing strategies and recruitment campaigns;
- regulatory requirements and industry guidance;
- the competitive environment; and
- the contractual arrangements with the relevant retail partner.

English law does not prescribe a maximum rate that may be charged as interest for a debt on any of the product types included in the Securitised Portfolio.

However, the FCA has the power under FSMA to make rules limiting, *inter alia*, the cost of credit applicable to such products, and a very high interest rate might be treated by a court as an indicator of the existence of an "unfair relationship" between the debtor and the creditor for the purposes of the CCA (see "*Risk Factors – Certain Legal, Tax and Regulatory Considerations – Regulation of Consumer Credit by the FCA and the Application of the CCA may Impede Collection Efforts – (a) Authorisation and Regulation by the FCA*" and "*(c) Unfair Relationships*" for more details). The FCA has published rules capping the price on high-cost short-term credit (otherwise known as "payday lending") which came into force on 2 January 2015. At present, the FCA has not made any rules regarding the maximum cost of credit that may be charged on credit cards, store cards or instalment credit products and the Originator considers that the interest rates charged across the Securitised Portfolio are not excessive and would not contravene the unfair relationship provisions of the CCA. The FCA published a feedback statement in July 2017 following its call for input on high-cost credit in November 2016, where it confirmed that credit cards are out of scope of its high-cost review.

### **Delinquency, Collections and Loss Experience**

An account is treated as delinquent if the minimum payment is not received by the due date indicated on the customer's statement and this has not been rectified by the next statement date. Delinquent accounts, and those where the balance on the account exceeds the specified credit limit, will enter the collections process. The collections strategy which will be applied to any given account will be determined according to a variety of risk-based and customer-focused factors, including the product type, the age of the account, the amount outstanding, the past performance and behaviour score, and any information that is available from external credit bureaus. The collections team utilise a strategic decision making process to determine

the timing and type of contact that will be made with any customer whose account is in collections but will always comply fully with FCA requirements.

Activities during the collections process include statement messages, telephone calls, formal letters, e-mails and SMS text messages and dedicated collections processes on the NewDay mobile device software. Accounts are automatically charged off at 180 days of delinquency unless they are subject to "specialist activity". Specialist activity includes insurance claims, authorised user disputes, voucher disputes and complaints. However, this is rare, and charge-off would not occur more than 210 days after the account became delinquent even under these circumstances. An account may be charged off before it is 180 days delinquent; for example, insolvent accounts and the accounts of deceased customers are charged off within 30 days after notification. In limited circumstances, the Servicer may cease to treat a customer's account as delinquent if the customer demonstrates that he or she is able to pay the contractual minimum payment (excluding arrears).

The Servicer may agree, for a customer who is experiencing financial difficulties or is otherwise vulnerable, to place the account on a repayment plan if it is believed that this is appropriate for the customer and would improve the likelihood of returning the account to performing status. This is done by means of a temporary concession rather than a change to the terms and conditions of the account. Before a payment arrangement is entered into, an income and expenditure review is conducted with the customer to understand what level of payments he or she is able to afford.

The Servicer may also agree to offer customers payment holidays and, as a result of the COVID-19 pandemic, the Servicer has temporarily adjusted its collections processes to allow such payment holidays to be offered more widely to delinquent customers, including those on a repayment plan or who have been passed to a debt collection agency. Payment holidays are available for up to an initial three months (which may be extended for a further three months), and during that period no payment is required. Although the customer does not have the ability to spend on their account during this period, interest does not accrue during this period and the customer's credit file is not further adversely impacted.

In April 2020, in line with FCA guidance implemented as a result of the COVID-19 pandemic, a payment freeze option was launched (which is separate to the established relief measure of a payment holiday) as part of the collections processes. The payment freeze option is aimed at customers who are up to date with payments on their account but who have nevertheless been adversely affected by the COVID-19 pandemic. The payment freeze option provides customers with a freeze on payments due on their account for three months (which, where the customer indicates that they are still experiencing temporary payment difficulties as a result of the COVID-19 pandemic, may be extended for a further three months). In contrast to payment holidays, customers who have been provided with payment freezes can continue to spend, interest continues to accrue on their account, and cash and non-Sterling transaction fees will apply where applicable (however, default fees will not be charged). For an overview of the regulatory framework which applies to payment freezes, see *"Risk Factors - FCA Measures During the COVID-19 Pandemic"*.

The Servicer will continue to review (and may update) any temporary initiatives that it has introduced for customers, in light of any updates to the relevant FCA guidance and as the COVID-19 pandemic develops. See *"The NewDay Group's Response to the COVID-19 Pandemic"* for details of how the COVID-19 pandemic has affected the NewDay Group's servicing of the Securitised Portfolio.

Customers who are in more significant financial difficulties may, following an income and expenditure review, have the interest, fees and other charges which would otherwise apply to their accounts suspended, in accordance with the Originator's forbearance policy. The forbearance and loss recognition policies of the Originator are subject to regular review by senior credit risk management and may be subject to change in the future.

As part of any recovery activity, accounts may be passed to external debt collection agencies to seek recovery or sold to a third-party debt purchaser.

Tables which set forth the delinquency and loss experience of the Total Portfolio as at 30 June 2020 are set out at Appendix A to this Prospectus. Please note, however, that the information provided in Appendix A is historical and will not be updated and that the statistical information set out therein may vary over time. Newly originated accounts will automatically be held on trust by the Originator for the Transferor and the Transferor will (subject to the restrictions set out in the Receivables Securitisation Deed) automatically assign receivables arising under Designated Accounts to the Receivables Trustee pursuant to the terms of

offers made under the Receivables Securitisation Deed. The Securitised Portfolio does not currently include American Express or Visa credit card accounts, but it may do so in the future, and may also (subject to the restrictions set out in the Receivables Securitisation Deed) include Receivables arising on charge card accounts and/or accounts originated via additional retailers or through other channels.

The delinquency statistics are obtained from both billing cycle information and month end positions.

"**Securitized Portfolio**" means the total portfolio of Designated Accounts, the Receivables arising on which are held by the Receivables Trustee on behalf of the Beneficiaries or, when used in a historical context, means those accounts, and the receivables arising thereon, which, at the relevant time, formed part of the portfolio of accounts which will, on the Series 2020-1 Closing Date, constitute the Securitized Portfolio.

#### **Credit Risk Mitigation**

The Originator has internal policies and procedures in relation to the granting of credit, administration of credit-risk bearing portfolios and risk mitigation. The policies and procedures of the Originator in this regard broadly include the following:

- (a) criteria for the granting of credit and the process for approving, amending, renewing and re-financing credits (as to which, in relation to the Receivables, please see the information set out in this Prospectus headed "*The Receivables - Eligibility Criteria*" and "*Servicing of Receivables*");
- (b) systems in place to administer and monitor the various credit-risk bearing portfolios and exposures (as to which it should be noted that the Securitized Portfolio will be serviced in line with the servicing procedures of the Originator and the Servicer - please see further the section of this Prospectus headed "*Servicing of Receivables*");
- (c) adequate diversification of credit portfolios given the Originator's target market and overall credit strategy (as to which, in relation to the Securitized Portfolio, please see the section of this Prospectus headed "*The Securitized Portfolio*"); and
- (d) policies and procedures in relation to risk mitigation techniques (as to which, please see further the sections of this Prospectus headed "*The Receivables – Eligibility Criteria*" and "*Servicing of Receivables*").

## THE RECEIVABLES

The Originator holds and will hold legal title to all the Accounts in the Securitised Portfolio, meaning that it is the contractual counterparty to all of the underlying Credit Agreements, the creditor to whom all of the debts arising on such Accounts are legally owed and the issuer of the credit cards and store cards relating to those Accounts in respect of which a credit card or store card has been issued. Pursuant to declarations of trust dated 1 April 2014 (as amended and restated on 18 December 2014 and from time to time), the Originator holds all of its rights in respect of the Accounts on trust for the Transferor. Accordingly, the Transferor is the beneficial owner of all of the Receivables arising on the Accounts within the Securitised Portfolio.

### Assignment of Receivables to the Receivables Trustee

Under the terms of a receivables securitisation deed dated 18 December 2014 (as supplemented, amended and/or restated from time to time) (the "**Receivables Securitisation Deed**"), the Transferor, on 18 December 2014 (the "**Initial Assignment Date**"), offered to the Receivables Trustee an assignment of all Receivables that have arisen or will arise in certain of the Accounts on designated product lines identified (or to be identified) in the manner described below (the "**Initial Offer**"), and the Receivables Trustee, by paying the initial purchase price for such assignment, accepted such offer (the assignment arising out of such offer and acceptance being the "**Initial Assignment**").

The Receivables which have been or will be assigned pursuant to the Initial Assignment, and those which will be assigned pursuant to any Subsequent Assignment (as defined below), are those which arise on Designated Accounts. An Account will be designated as a "**Designated Account**" if the Account has been originated or acquired by the Originator, conforms to the eligibility criteria described in this Prospectus, comes within a product line named in an accepted offer and has not been identified on the Originator's System as being excluded from such accepted offer.

Under the terms of the Receivables Securitisation Deed, following the Initial Assignment Date, the Transferor may, from time to time, offer to the Receivables Trustee (each a "**Subsequent Offer**") with effect from a specified date (each a "**Subsequent Assignment Date**") an assignment of all present and future Receivables which arise on certain specified Accounts arising under one or more given product lines. If the Receivables Trustee accepts any such offer by paying the initial purchase price due in respect of such offer, then all Accounts falling within such offer shall (unless such Accounts are otherwise identified on the Originator's System on the account opening date) be Designated Accounts and all Receivables arising on such Accounts shall be assigned to the Receivables Trustee subject to and in accordance with the terms of the Receivables Securitisation Deed (each such assignment being a "**Subsequent Assignment**").

In the case of the Initial Assignment, the Transferor nominated and, in the case of any Subsequent Assignment, the Transferor may nominate all future Accounts that come into existence on a specified product line which are not Restricted Accounts (unless and to the extent that such Accounts are individually identified on the Originator's System as being excluded from such nomination from the relevant account creation date) on or after the relevant Assignment Date as Designated Accounts. This is known as a "**Future Receivables Transfer**".

Where a Future Receivables Transfer is made, the Transferor must as soon as reasonably practicable and in any case within five Business Days after the occurrence of an Automatic Addition Trigger deliver to the Receivables Trustee an Automatic Addition Suspension Notice unless a Rating Confirmation is given in respect of the continued designation of all future accounts which are the subject of a Future Receivables Transfer. Upon the delivery of an Automatic Addition Suspension Notice to the Receivables Trustee, future Accounts in respect of a product line which come into existence under that product line which are the subject of a Future Receivables Transfer will, after the delivery of the Automatic Addition Suspension Notice and pursuant to its terms, no longer be designated as Designated Accounts.

If for any reason there are Receivables from Designated Accounts that cannot be assigned to the Receivables Trustee, the Transferor will hold those Receivables, and any Collections on those Receivables, on trust for the Receivables Trustee. These Collections will be treated as if the Receivables had been properly assigned.

When additional Accounts are nominated to become Designated Accounts pursuant to a Subsequent Offer, the Transferor must, amongst other things provide:

- (a) a Solvency Certificate;
- (b) statements from the Transferor in the relevant offer substantially in the form set out in the Receivables Securitisation Deed confirming satisfaction of the criteria listed therein; and
- (c) a legal opinion addressed to the Receivables Trustee in relation to any Receivables from a jurisdiction outside of the United Kingdom.

Any of these preconditions may be waived by the Receivables Trustee if a Rating Confirmation is provided in respect of such waiver. At the time that it is nominated, each additional Account must also meet the relevant eligibility criteria as at the time of its designation. These criteria are explained in "*Representations*" below. Additional Accounts may have been originated or purchased using underwriting standards that are different from the underwriting standards used in originating the original Designated Accounts. As a result, additional Accounts that are selected in future may not have the same credit quality. The Transferor may choose to add an entire portfolio of accounts from those portfolios which it acquires but which currently do not form part of the Securitised Portfolio (see "*The Securitised Portfolio*" above). In the event that such an addition would be in excess of the Maximum Addition Amount, or would include the addition of Restricted Accounts, a Rating Confirmation would be sought.

"**Accounts**" shall mean each of (a) revolving credit card accounts under the American Express Limited, MasterCard International Incorporated or Visa International Incorporated networks or any other payment system for revolving credit card accounts established pursuant to a Credit Card Agreement, (b) revolving credit accounts established pursuant to a Store Card Agreement, (c) charge card accounts established pursuant to a Charge Card Agreement, and (d) instalment credit accounts established pursuant to an Instalment Credit Agreement.

"**Allowed Retail Partner**" shall mean a Retail Partner in any of the "Amazon" group of companies, the "Arcadia" group of companies, the "Debenhams" group of companies, the "House of Fraser" group of companies, the "Laura Ashley" group of companies and any Retail Partner which is a member of any other corporate group in respect of which a Rating Confirmation has been given in connection with the designation of Accounts originated through sales channels made available by any member of such corporate group as Designated Accounts.

"**Assignment Date**" shall mean the Initial Assignment Date or a Subsequent Assignment Date.

"**Automatic Addition Suspension Notice**" shall mean a notice stating that, with effect from the date of such notice, either: (i) all future Accounts falling within the scope of an Offer shall not be designated as Designated Accounts, **provided that**, where an Automatic Addition Trigger has occurred as a result of the aggregate principal balance of all Designated Accounts which are Instalment Credit Accounts exceeding 25 per cent. of the aggregate amount of Eligible Receivables, then the Automatic Addition Suspension Notice shall only be in respect of Instalment Credit Accounts, or (ii) **provided that** a Rating Confirmation is given in respect of the continued designation of either all, or a specified set of, future Accounts falling within the scope of an Offer, such Accounts (if any) falling within the scope of such Offer as are not within the scope of that Rating Confirmation shall not be designated as Designated Accounts.

"**Automatic Addition Trigger**" shall mean the occurrence of:

- (a) the designation (otherwise than on a Subsequent Assignment Date) of any Accounts as Designated Accounts in excess of the Maximum Addition Amount, **provided that**, if the designation of any Accounts as Designated Accounts in excess of the Maximum Addition Amount is as a result of the aggregate principal balance of all Designated Accounts which are Instalment Credit Accounts exceeding 25 per cent. of the aggregate amount of Eligible Receivables, then the Automatic Addition Trigger shall only be in respect of Instalment Credit Accounts; and/or
- (b) in respect of Accounts originated via sales channels made available by any particular Allowed Retail Partner, such alternative or additional trigger (if any) as may be specified in the Rating Confirmation designating (or confirming on different terms) that Retail Partner as an Allowed Retail Partner.

**"Charge Card Account"** shall mean an Account established pursuant to a Charge Card Agreement.

**"Charge Card Agreement"** shall mean an agreement between the Originator and an Obligor, either on one of the Originator's standard forms or (in the case of an account originated otherwise than by the Originator) otherwise, providing for, *inter alia*, the establishment of a revolving credit account pursuant to which the relevant Obligor is required to repay the balance of the credit account in full on a periodic basis, and the terms and conditions of use by such Obligor of a charge card, as such agreement or contractual terms may be amended, modified or otherwise changed from time to time.

**"Collections"** shall mean:

- (ii) any such payments under guarantees obtained by the Originator in respect of the obligations of Obligors to make payments on the Accounts;
- (iii) any Insurance Proceeds in respect of the Accounts;
- (iv) any amounts paid in cash by the Transferor as a result of a Dilution Loss, Dilution Refund or breach of warranty or in respect of Transferor advances pursuant to the RTDSA Transferor Advance Addendum;

- (vi) all Recoveries.

**"Credit Card Agreement"** shall mean an agreement between the Originator and an Obligor, either on one of the Originator's standard forms (or in the case of an account originated otherwise than by the Originator) otherwise, providing for, *inter alia*, the establishment of a credit card account operated under the American Express®, VISA® or MasterCard® network or any other payment system for revolving credit card accounts, and the terms and conditions of use by an Obligor of a credit card, as such agreement or contractual terms may be amended, modified or otherwise changed from time to time.

**"Instalment Credit Account"** shall mean an Account established pursuant to an Instalment Credit Agreement.

**"Instalment Credit Agreement"** shall mean an agreement between the Originator and an Obligor, either on one of the Originator's standard forms or (in the case of an account originated otherwise than by the Originator) otherwise, providing for, *inter alia*, the establishment of a fixed credit finance account (including, without limitation, point of sale finance accounts), as such agreement may be amended, modified or otherwise changed from time to time.

**"Insurance Proceeds"** shall mean any amounts recovered by the Originator or the Servicer pursuant to any credit insurance policies covering any Obligor with respect to Receivables under that Obligor's Designated Account.

**"Maximum Addition Amount"** shall mean the maximum number of Accounts which may be nominated by the Transferor as Designated Accounts in a given period, which shall (unless otherwise provided in a Supplement or a Rating Confirmation):

- (a) with respect to any period of three consecutive Monthly Periods, be equal to 15 per cent. of the number of Designated Accounts as of the later of (i) the first day of the calendar year during which such period of three Monthly Periods commences and (ii) the first day of the first Monthly Period following the most recent date on which each Rating Agency issued or confirmed the ratings of all classes of Rated Debt; and
- (b) with respect to any period of twelve consecutive Monthly Periods, be equal to 20 per cent. of the number of Designated Accounts as of the later of (i) the first day of such period and (ii) the first

day of the first Monthly Period following the most recent date on which each Rating Agency issued or confirmed the ratings of all classes of Rated Debt,

**provided, however, that:**

- (i) the aggregate principal balance in the nominated Designated Accounts (determined as at the date each such Account becomes a Designated Account) in any period of three consecutive Monthly Periods may not exceed 15 per cent. of the aggregate amount of Eligible Receivables, determined as of the later of (A) the first day of the first such period and (B) the first day of the first Monthly Period following the most recent date on which each Rating Agency issued or confirmed the ratings of all classes of Rated Debt, in all of the Accounts beneficially owned by the Transferor that have been designated as Designated Accounts; and
- (ii) the aggregate principal balance in the nominated Designated Accounts (determined as at the date each such Account becomes a Designated Account) in any period of 12 consecutive Monthly Periods may not exceed 20 per cent. of the aggregate amount of Eligible Receivables, determined as of the later of (A) the first day of the calendar year in which the first such Monthly Period falls and (B) the first day of the first Monthly Period following the most recent date on which each Rating Agency issued or confirmed the ratings of all classes of Rated Debt, in all of the Accounts beneficially owned by the Transferor that have been designated as Designated Accounts.

**"Monthly Period"** shall mean the period from and including the first day of a calendar month to and including the last day of the same calendar month.

**"Obligor"** or **"Obligors"** shall mean, with respect to any Account, the person or persons obliged directly or indirectly to make payments in respect of Receivables generated on that Account.

**"Originator's System"** shall mean the IT system or systems maintained for the Originator by or on behalf of the Servicer on which information relating to, *inter alia*, each of the Accounts is recorded and updated.

**"Rated Debt"** shall mean, in respect of any Series, any Related Debt or Associated Debt which is rated by one or more Rating Agencies where such rating was procured by the Loan Note Issuer and/or the issuer of the relevant Associated Debt and, in respect of a VFN Series only, which is expressly designated as being Rated Debt for the purposes of the transaction.

**"Rating Agency"** shall mean, with respect to each Series, the rating agency or agencies, if any, selected by the Loan Note Issuer and/or the issuer of the relevant Associated Debt to provide a rating for any Associated Debt and/or Related Debt, as applicable, as specified in the related Supplement.

**"Recoveries"** shall mean all amounts, excluding Insurance Proceeds, recovered in respect of Defaulted Receivables, including, for the avoidance of doubt, the proceeds of any sale of Defaulted Receivables to a third party.

**"Restricted Accounts"** shall mean:

- (a) until the inclusion of such Accounts within the scope of a Subsequent Offer has been subject to a Rating Confirmation, any Charge Card Accounts;
- (b) until the inclusion of such Accounts within the scope of a Subsequent Offer has been subject to a Rating Confirmation, any Instalment Credit Accounts originated after the Initial Assignment Date;
- (c) until the inclusion of such Accounts within the scope of a Subsequent Offer has been subject to a Rating Confirmation, any Store Card Accounts originated after 31 March 2015 other than Staff Store Card Accounts; and
- (d) until the inclusion of such Accounts within the scope of a Subsequent Offer has been subject to a Rating Confirmation, any Accounts originated through sales channels made available by any Retail Partner which is not an Allowed Retail Partner.

**"Run-off Accounts"** shall mean Accounts which (a) were originated through sales channels made available by Retail Partners in respect of whom no further Accounts are being originated by or on behalf of the Originator, and (b) have had any spending privileges withdrawn.

**"Solvency Certificate"** shall mean a certificate of a duly authorised officer substantially in the form set out in the Receivables Securitisation Deed.

**"Staff Store Card Account"** shall mean any Store Card Account where the Obligor is a current or former officer or employee of the Retail Partner through which that Account was originated and who was offered that Account in connection with his or her office or employment with that Retail Partner.

**"Store Card Account"** shall mean an Account established pursuant to a Store Card Agreement.

**"Store Card Agreement"** shall mean an agreement between the Originator and an Obligor, either on one of the Originator's standard forms or (in the case of an account originated otherwise than by the Originator) otherwise, providing for, *inter alia*, the establishment of a closed-loop revolving credit account, and the terms and conditions of use by such Obligor of a store card, as such agreement or contractual terms may be amended, modified or otherwise changed from time to time.

**"Transaction Documents"** shall mean the following documents:

**Trust Documentation**

- (a) the Master Framework Agreement;
- (b) the Receivables Securitisation Deed;
- (c) the Receivables Trust Deed and Servicing Agreement;
- (d) any Supplement to the Receivables Trust Deed and Servicing Agreement;
- (e) the Master Cash Settlement Agreement;
- (f) the Beneficiaries Deed;
- (g) the Receivables Trustee Account Bank Agreement; and
- (h) any other document designated as such by the Transferor and the Receivables Trustee.

**Loan Note Documentation**

- (a) the Security Trust Deed and Cash Management Agreement;
- (b) any Loan Note Supplement;
- (c) any swap agreement;
- (d) the Back-Up Cash Management Agreement;
- (e) any Indemnity Deed;
- (f) the Loan Note Issuer Account Bank Agreement;
- (g) the Loan Note Issuer Corporate Services Agreement; and
- (h) any other document designated as such by the Loan Note Issuer and Security Trustee.

**"VFN Series"** shall mean a Series in which the Related Debt comprises Loan Notes which may, in accordance with their terms, periodically have their Principal Amount Outstanding (as defined in the Security Trust Deed and Cash Management Agreement) increased or decreased at the option of the Loan Note Issuer.

Every offer of Receivables to the Receivables Trustee under the Receivables Securitisation Deed will comprise offers of the following:

- (i) all existing Receivables in the Designated Accounts;
- (ii) all future Principal Receivables under the Designated Accounts, until the first to occur of (1) the time a Designated Account becomes a Re-designated Account, or (2) the Receivables Trust is terminated;
- (iii) all future Finance Charge Receivables under those Designated Accounts that have accrued on Receivables that have been assigned to the Receivables Trustee as described in paragraphs (i) and (ii) above;
- (iv) if capable of being assigned, the benefit of any guarantee or insurance policy obtained by the Originator for any obligations of an Obligor in respect of Receivables that have been assigned to the Receivables Trustee as described in paragraphs (i), (ii) and (iii) above; and
- (v) the benefit of all amounts representing Acquired Interchange and Dilution Refunds in respect of the Designated Accounts.

Following the Initial Assignment Date, any designation of Accounts as Designated Accounts which would otherwise be Restricted Accounts or exceed the Maximum Addition Amount will require a prior Rating Confirmation.

The Transferor will ensure that each Re-designated Account is identified on the Originator's System on the date that a Designated Account becomes a Re-designated Account (see "*Re-designation of Accounts*" below).

Throughout the term of the Receivables Trust, the Designated Accounts from which the Receivables will arise will be the Accounts designated by the Transferor pursuant to the Initial Assignment *plus* any additional Accounts designated by the Transferor from time to time pursuant to any Subsequent Assignment, *minus* any Re-designated Accounts.

Existing Receivables and future Receivables arising under the Designated Accounts are either Principal Receivables or Finance Charge Receivables. "**Principal Receivables**" are, broadly, amounts owing by Obligors for the purchase of merchandise or services, balance transfers and cash advances (other than, in each case, Discount Option Receivables). They are reduced by any credit balance on the Designated Account on that day.

"**Finance Charge Receivables**" (together with Principal Receivables, the "**Receivables**") are, broadly, amounts owing from Obligors for transaction fees, Periodic Finance Charges, special fees and annual fees (see "*Special Fees and Annual Fees*" below) and Discount Option Receivables (see "*Discount Option Receivables*" below).

Under the Receivables Securitisation Deed, each offer of Receivables made by the Transferor may be accepted by paying the purchase price for the offered Receivables. If the Receivables Trustee chooses to accept the offer, payment for existing Receivables has to be made no later than the Business Day following the date on which the offer is made or such longer period as the parties may agree.

A "**Business Day**" shall mean any day other than a Saturday, a Sunday or a day on which banking institutions in London, England or Jersey, Channel Islands are authorised or obliged by law or executive order to be closed.

For the purposes of the Transaction Documents, it is necessary to allocate Collections between the outstanding Finance Charge Receivables and the outstanding Principal Receivables. This is done by reference to the amount of "**Billed Finance Charge Receivables**" in respect of the immediately preceding Collection Period, which are, broadly, the amount of Finance Charge Receivables billed to Designated Accounts in respect of that preceding Collection Period, plus any Discount Option Receivables arising on Designated Accounts in respect of that Collection Period, less any Receivables arising on Accounts which have already become, or prior to the end of such Collection Period became, Defaulted Accounts. Each month, Collections up to the amount of the preceding month's Billed Finance Charge Receivables are treated as being in respect of Finance Charge Receivables (such Collections being "**Finance Charge**

**Collections**"), and any further Collections are treated as being in respect of Principal Receivables (such Collections being "**Principal Collections**"). The foregoing calculations are set out in more detail in "*The Receivables Trust – Allocation and Application of Collections*".

#### **Re-designation of Accounts**

Each Designated Account will continue to be a Designated Account until such time as the Transferor reclassifies it as being no longer a Designated Account, following which it will be a "**Re-designated Account**".

A Designated Account becomes a Re-designated Account on the "**Re-designation Date**", being:

- (i) in the case of a Cancelled Account, the day on which the relevant Designated Account is recorded by the Servicer as a Cancelled Account on the Originator's System;
- (ii) in the case of a Defaulted Account, the day on which the relevant Designated Account becomes a Defaulted Account. Notwithstanding any other provision hereof, any Receivables on a Defaulted Account that are Ineligible Receivables prior to such date shall be treated as Ineligible Receivables rather than as Receivables on a Defaulted Account; and
- (iii) in the case of a Designated Account to which a Re-designation Notice relates and which is not a Cancelled Account or a Defaulted Account, the date specified by the Transferor.

No Designated Account will become a Re-designated Account which is not a Cancelled Account, a Zero Balance Account, a Defaulted Account, an Ineligible Account or an Account which is being re-designated due to a breach of representation in respect of such Account this way unless the following conditions are satisfied:

- (i) save in relation to Third Party Re-designated Accounts, the re-designation will not cause, in the reasonable opinion of the Transferor, (a) a Pay Out Event to occur, (b) the aggregate of the Transferor Interest and the Originator VFN Excess Amount to be less than the Minimum Transferor Interest on the relevant Re-designation Date or (c) the Eligible Receivables Balance to be less than the Minimum Aggregate Principal Receivables on the relevant Re-designation Date;
- (ii) on or before the tenth Business Day prior to the Re-designation Date, each Rating Agency and the Receivables Trustee shall have received notice in writing from the Transferor of the proposed re-designation and, save in relation to Third Party Re-designated Accounts, a Rating Confirmation shall have been provided in respect of such re-designation;
- (iii) save in relation to Third Party Re-designated Accounts, no selection procedures believed by the Transferor to be materially adverse to the interests of the Investor Beneficiaries or any Enhancement Provider were utilised in selecting the Designated Accounts which are to be Re-designated Accounts;
- (iv) the Servicer shall certify to the Receivables Trustee that Collections equal to the Outstanding Face Amount of each Principal Receivable have been (or will be) received by the Receivables Trustee in respect of every Principal Receivable which has been assigned to or held on trust for the Receivables Trustee in respect of that Account, other than Receivables which have been charged-off as uncollectible in accordance with the Credit Guidelines on the computer master file of Accounts used by the Servicer, or which have been the subject of a Credit Adjustment or Reduction, **provided, however, that** the maintenance of such records shall be without prejudice to the beneficial ownership of the Receivables in question;
- (v) in the case of Third Party Re-designated Accounts, the Beneficiaries have consented in writing to the removal of such Third Party Re-designated Accounts (which they will do in accordance with the Beneficiaries Deed); and
- (vi) the Transferor has delivered to the Receivables Trustee a solvency certificate and an officer's certificate confirming that the conditions set out at (i) to (v) above have been satisfied.

A "**Cancelled Account**" is a Designated Account (which is not a Defaulted Account or a Debt Recovery Account) which has had its charging privileges permanently withdrawn either (a) at the instigation of the

Servicer or (b) at the request of the relevant Obligor, and, in either case, which has been designated by the Servicer as a "Cancelled Account" in accordance with the Credit Guidelines or the Servicer's usual servicing procedures. A **"Defaulted Account"** is a Designated Account where the Receivables have been charged off by the Servicer as uncollectible in line with the Credit Guidelines or the usual servicing procedures of the Servicer for similar consumer finance accounts. A **"Zero Balance Account"** is a Designated Account that has had a nil balance of Receivables for a considerable period of time and has been identified by the Servicer as a Zero Balance Account under the Credit Guidelines or the usual servicing procedures of the Servicer. A **"Debt Recovery Account"** is a Designated Account (which is not a Defaulted Account) where the relevant Obligor has been sent a notice of default in respect of such Account or is otherwise on a payment plan. An **"Ineligible Account"** is a Designated Account on which all Principal Receivables that arise under such Account are Ineligible Receivables which the Transferor wishes to cease to be a Designated Account.

Re-designated Accounts include all accounts that become Cancelled Accounts, Defaulted Accounts, Zero Balance Accounts, Debt Recovery Accounts or Ineligible Accounts from the date on which they are re-designated in any of these ways. The Principal Receivables that exist before the date of re-designation will be paid for by the Receivables Trustee (except in respect of Ineligible Accounts). Any future Receivables that come into existence after that time (other than Finance Charge Receivables in respect of Receivables which are in existence prior to such Re-designation Date which come into existence on or following such Re-designation Date) will not be assigned to the Receivables Trustee as set out in the Receivables Securitisation Deed.

Until money has been received for the assigned Receivables (which are Eligible Receivables), the Receivables arising on a Re-designated Account will not be re-assigned. Save in respect of Defaulted Accounts or Debt Recovery Accounts (where the amount payable shall be calculated in accordance with the terms of the applicable Call Option, as outlined below) or, in respect of Ineligible Accounts (where, subject to any payment for breach of warranty, only a nominal amount shall be payable), the amount payable will be equal to the Outstanding Face Amount of each outstanding Principal Receivable which is to be re-assigned.

**"Outstanding Face Amount"** shall mean, in respect of any Receivable on any date, the amount which is the outstanding balance due in respect thereof at the close of business in London on the last Business Day (which term shall, for this purpose only, include any day which would be a Business Day but for the closure of banking institutions in any jurisdiction other than London) immediately preceding such date.

### Call Options

Pursuant to the Receivables Securitisation Deed, the Receivables Trustee has granted to the Transferor a call option in respect of Defaulted Receivables and a call option in respect of Debt Recovery Receivables.

The Transferor may exercise either of these options by sending an assignment agreement (an **"Option Assignment"**) for the Receivables Trustee to execute, stating that at the opening of business (the **"Option Exercise Time"**) on a specified date (the **"Option Exercise Date"**) it shall require the Receivables Trustee to re-assign to it all Defaulted Receivables on the Defaulted Accounts (or any specified Defaulted Accounts) or the Debt Recovery Receivables on the Debt Recovery Accounts (or any specified Debt Recovery Accounts), as applicable (in each case as are in existence at the Option Exercise Time) and stating the amount of Defaulted Receivables or Debt Recovery Receivables, as applicable, to be re-assigned and released to the Transferor at the related Option Exercise Time.

The consideration payable by the Transferor for such re-assignment shall, in the case of Defaulted Receivables, be the aggregate of (a) £1 (payable on the Option Exercise Date), (b) any amount received from the relevant Obligor (directly or indirectly), for the avoidance of doubt excluding Insurance Proceeds, by the Transferor with respect to such Re-assigned Defaulted Receivables and (c) any consideration payable by any third party to the Transferor, including debt collection agents, for the assignment of such Re-assigned Defaulted Receivables (net of any costs of the Transferor in connection with such sale and any retention in respect of provisions), (b) and (c) together being the **"Sale Recoveries"** and being payable on the Transfer Date relating to the Collection Period during which the Sale Recoveries were realised.

The consideration payable by the Transferor for such re-assignment shall, in the case of Debt Recovery Receivables, be an amount equal to the aggregate balance of the Eligible Receivables relating to such Debt Recovery Accounts as at the Option Exercise Date and stated in the Option Assignment.

"**Defaulted Receivables**" means any Receivables in a Defaulted Account.

"**Debt Recovery Receivables**" means all present and future Receivables arising on Debt Recovery Accounts.

A "**Re-assigned Defaulted Receivable**" is a Defaulted Receivable existing on the Defaulted Accounts which is re-assigned and released to the Transferor in accordance with the applicable provisions in the Receivables Securitisation Deed.

### **Discount Option Receivables**

The Transferor may, by giving at least thirty days' prior notice to the Servicer, the Receivables Trustee and the Rating Agencies, nominate a fixed or variable percentage ("**Discount Percentage**") of Principal Receivables in the Designated Accounts. If a Discount Percentage has been nominated previously, an extension to the period for which it applies can be specified in the same way. From the date and for the length of time stated in the notice:

- (i) the amount payable by the Receivables Trustee to accept an offer of Receivables will be reduced by a percentage amount equal to the Discount Percentage; and
- (ii) a percentage of the Principal Receivables equal to the Discount Percentage will be treated by the Receivables Trustee as Finance Charge Receivables. These are called "**Discount Option Receivables**".

The nomination of a Discount Percentage or increase in the time it is in place will be effective only if:

- (i) a Rating Confirmation has been provided;
- (ii) the Servicer has provided the Receivables Trustee with an officer's certificate confirming that the performance of the Securitised Portfolio of Designated Accounts is such that in the reasonable opinion of the Servicer the yield of Finance Charge Collections is not generating adequate cashflows for the Beneficiaries of the Receivables Trust; and
- (iii) the Transferor has provided the Receivables Trustee with a solvency certificate confirming that the Transferor is able to pay its debts within the meaning of section 123(1) of the Insolvency Act 1986 and will not become unable to pay its debts within the meaning of that section in consequence of such Discount Percentage coming into effect or being in effect for an additional period, as at the date on which the Discount Percentage or additional period is to take effect.

The Transferor may have different reasons to designate a Discount Percentage. For example, the Finance Charge Collections on the Designated Accounts may decline for various reasons or may stay constant, whilst the Notes have interest rates that are variable and that could increase. This could cause a Series Pay Out Event to occur based in part on the amount of Finance Charge Collections and the interest rate on the Notes. The Transferor could avoid the occurrence of this Series Pay Out Event by designating a Discount Percentage, causing an increase in the amount of Finance Charge Collections. The Transferor, however, is under no obligation to designate a Discount Percentage and the Issuer can make no assurance that the Transferor would designate a Discount Percentage to avoid a Series Pay Out Event.

### **Special Fees and Annual Fees**

The Originator may charge special fees – including late, over limit and non-sufficient funds fees – on credit card, store card, charge card or instalment credit accounts. These special fees as well as additional special fees may be assessed at one time or on an ongoing basis. Certain of the Receivables assigned or to be assigned to the Receivables Trustee may include annual fees on Designated Accounts. Any special fees and annual fees that are charged on Designated Accounts are generally regarded as Finance Charge Receivables (and will therefore be taken into account in the calculation of Billed Finance Charge Receivables). The Transferor may, however, decide that these special fees or annual fees will be viewed as Principal Receivables (and will therefore not be taken into account in the calculation of Billed Finance Charge Receivables).

## Interchange

Members participating in the American Express®, VISA® and MasterCard® associations receive fees as partial compensation for, amongst other things, taking credit risk and absorbing fraud losses. Under the American Express®, VISA® and MasterCard® systems, such fees are passed from the banks that clear the transactions for merchants to card issuing banks. Such fees are calculated as a percentage of the amount of a credit or charge card transaction for the purchase of goods or services. This percentage varies from time to time. The Originator and/or the relevant RPA Counterparties also receive fees directly from certain Retail Partners for whom the Originator provides store card and instalment credit accounts and also for whom it provides credit card accounts when the credit cards issued in respect of those accounts are used to pay for goods and services from such Retail Partners, in each case in payment for such service. These fees, together with the fees received as a result of participation in the American Express®, VISA® and MasterCard® systems, are referred to in this Prospectus as "**Interchange**".

On each Transfer Date, the Transferor will deposit into the Receivables Trustee Collection Account an amount equal to the Interchange received in respect of the Designated Accounts for the preceding Collection Period. This amount is called the "**Acquired Interchange**". Interchange is received on a daily basis and is identified on the Originator's System with a flag identifying the product to which it relates. The amount of Acquired Interchange applicable to the Receivables in the trust is arrived at monthly by interrogation of the Originator's System. Interchange relating to Designated Accounts will be deposited in the Receivables Trustee Collection Account.

A "**Transfer Date**" means, in relation to any Monthly Period or Collection Period, the Business Day immediately prior to the Distribution Date immediately following the end of such Monthly Period or Collection Period.

## Reductions in Receivables, Early Collections and Credit Adjustments

If the outstanding amount of a Principal Receivable that has been assigned to the Receivables Trustee is reduced (a "**Reduction**") – for reasons other than because of a Credit Adjustment – after the date on which it was assigned because of set off, counterclaim or any other matter between the Obligor and the Originator, and the Transferor has received a benefit, then that Receivable will be considered a Dilution Receivable and the associated loss a Dilution Loss. If an existing Receivable has purportedly been assigned to, or held on trust for, the Receivables Trustee and the Transferor has received full or partial payment of that receivable before the date that the receivable was purportedly assigned or a trust declared in respect of it, then the Transferor will pay the amount of that collection to the Receivables Trustee.

If any Principal Receivable assigned to the Receivables Trustee is reduced by way of a Credit Adjustment after the relevant Assignment Date, then that Receivable will also be considered a Dilution Receivable and the associated loss a Dilution Loss. A "**Credit Adjustment**" is the outstanding face amount of a Principal Receivable that:

- (i) was created by virtue of a sale of merchandise that was subsequently refused or returned by an Obligor or against which the Obligor has asserted any defence, dispute, set off or counterclaim;
- (ii) is reduced because the Obligor had received a rebate, refund, charge back or adjustment;
- (iii) is fraudulent or counterfeit; or
- (iv) is an Obligor Claim and is recorded as a reduction on the Principal Collections Ledger.

"**Obligor Claims**" shall mean complaints, claims, requests for refunds or entitlements of Obligors which result in the making of cash payments to Obligors (or former Obligors) by or on behalf of the Originator, including (without limitation):

- (i) all Obligor claims against the Originator, to the extent that such claims are satisfied by a cash payment and not credited to an Obligor's Account;
- (ii) entitlements of Obligors pursuant to any incentive scheme relating to an Account, to the extent that such entitlements are satisfied by a cash payment and not by a credit to an Obligor's Account; and

- (iii) complaints, claims or requests for refunds which result in the making of ex gratia payments or other payments or refunds to Obligor (or former Obligor) by or on behalf of the Originator, to the extent that such complaints, claims or requests for refunds are satisfied by a cash payment and not by a credit to an Obligor's Account.

If the Servicer determines that a Credit Adjustment or Reduction has occurred in respect of a Receivable, such Receivable will be considered a "**Dilution Receivable**" and to have suffered a "**Dilution Loss**".

Dilution Losses will first be allocated to the Transferor Interest until the Transferor Interest is reduced to zero and thereafter to the Originator VFN Investor Interest until the Originator VFN Excess Amount is zero. Once the Originator VFN Excess Amount is reduced to zero, any excess Dilution Loss which has not been allocated to the Transferor Interest or the Originator VFN Excess Amount will be allocated to the other Investor Interests (including the Available Originator VFN Subordination for each Series) as set out in "*Series 2020-1*" below.

The Transferor or the Servicer may subsequently receive amounts (including via a payment system or from a Retail Partner) in respect of Dilution Losses (such amounts, "**Dilution Refunds**"). Dilution Refunds have been assigned to the Receivables Trustee as set out under "*Assignment of Receivables to the Receivables Trustee*" above.

#### ***Acquired Interchange and Dilution Refunds***

On each Transfer Date, the Transferor shall notify, or procure that the Servicer notifies, the Receivables Trustee of the amount of Acquired Interchange and Dilution Refunds received by the Originator in respect of the preceding Collection Period, and shall pay to the Receivables Trustee an amount equal to the aggregate of the Acquired Interchange and the Dilution Refunds for that Transfer Date.

#### **Representations**

Each offer of Receivables to the Receivables Trustee under the Receivables Securitisation Deed includes representations by the Transferor about the existing Principal Receivables and the future Principal Receivables. The representations for the existing Principal Receivables are given as of the relevant Assignment Date, and the representations for the future Principal Receivables are given on the date they are processed, and include, in each case, that:

- (i) unless identified as an Ineligible Receivable, the Principal Receivable is an Eligible Receivable and has arisen from an Eligible Account in the amount specified in the offer or daily activity report, as applicable;
- (ii) each assignment passes good and marketable title for that Principal Receivable to the Receivables Trustee, together with the benefit of all Collections and other rights in connection with it, free from encumbrances of any person claiming through the Originator or any of its affiliates, subject to any limitations arising on enforcement in the jurisdiction of the relevant Obligor, and no further act, condition or thing will be required to be done in connection therewith to enable the Receivables Trustee to require payment of any such Receivable or to enforce any such right in the courts of England and Wales, Scotland or Northern Ireland or any Permitted Additional Jurisdiction without the participation of the Originator and the Transferor other than:
  - (a) the execution of a legal assignment of such Receivable in favour of the Receivables Trustee and notification of such assignment to the relevant Obligor; and
  - (b) the joining of the Originator and/or the Transferor as a party to proceedings by the Receivables Trustee against the relevant Obligor;
- (iii) the assignment complies with all applicable laws on the date of assignment, save where any such non-compliance would not have a material adverse effect on the ability of the Originator or the Transferor (as applicable) to conduct its business; and
- (iv) the Originator holds legal title to the Designated Accounts.

If a representation relating to the eligibility criteria given in connection with any Principal Receivable proves to be incorrect when made, then the Transferor is obliged to pay the Receivables Trustee an amount

equal to the face value of that Receivable by no later than the Transfer Date following the end of the Collection Period during which such representation becomes known to the Transferor to be incorrect. A Principal Receivable of this type will afterwards be treated as an Ineligible Receivable.

The Transferor's obligation to pay amounts due as a result of any breach of a representation can be fulfilled, in whole or in part, by a reduction in the amount of the Transferor Interest, or the Originator VFN Excess Amount of the Originator VFN Investor Interest. The Transferor Interest and the Originator VFN Excess Amount, however, may not be reduced below zero. If the Transferor meets a payment obligation in this way, the Receivables Trustee will have no further claim against the Transferor for the breached representation. However, a breach of a representation may result in a Series Pay Out Event (see "*Series 2020-1 – Series Pay Out Event*").

If:

- (i) all Principal Receivables arising under a Designated Account become ineligible as a result of incorrect representations;
- (ii) that account has become a Re-designated Account; and
- (iii) the Transferor has complied with the payment obligations for the Principal Receivables,

then the Transferor can require the Receivables Trustee to reassign or release all those Receivables to the Transferor.

The Receivables Trustee has not made and will not make any initial or periodic examination of the Receivables to determine if they arise on Eligible Accounts or if the Transferor's representations and warranties in respect of them are true.

An Account will be an "**Eligible Account**" if, as at the beginning of the day on the date on which it becomes a Designated Account, it is an Account:

- (a) where the Obligor is an individual;
- (b) which is governed by English law or by the law of another country in the United Kingdom or a Permitted Additional Jurisdiction in respect of which the Servicer has received a legal opinion confirming the assignability or transferability of the receivables arising thereon and in respect of which a Rating Confirmation has been provided;
- (c) which was in existence and maintained with the Originator prior to or at the time of its designation as a Designated Account;
- (d) which is payable in pounds sterling or the lawful currency of a Permitted Additional Jurisdiction (if the Account is in a Permitted Additional Jurisdiction);
- (e) which is governed by a Credit Agreement as amended from time to time, **provided that** no amendments may be made which would alter the governing law of the agreement or adversely affect the assignability thereof or the ability of the Originator to provide, or consent to the provision of, information regarding the relevant Obligor to any person assuming the Originator's rights under the agreement, and, if acquired by the Originator, the contractual terms of such Credit Agreement are not materially different from one or more of the Originator's standard forms in relation to such matters;
- (f) which is governed in whole or in part by the Consumer Credit Act 1974 and creates legal, valid and binding obligations between the Originator and the relevant Obligor and is enforceable against the relevant Obligor in accordance with the Credit Agreement and the Consumer Credit Act 1974, subject to applicable bankruptcy laws, other similar laws affecting creditors' rights, general equitable principles and other limitations on enforcement in the jurisdiction of the relevant Obligor and was created and otherwise complies in all material respects with all other applicable laws;
- (g) where the Obligor's most recent billing address is located in either England, Wales, Scotland, Northern Ireland or in a Permitted Additional Jurisdiction;

- (h) which has not been classified by the Originator as a Cancelled Account or as counterfeit, fraudulent, stolen or lost;
- (i) which has been originated or purchased by the Originator;
- (j) which has been operated by the Originator in all material respects in accordance with the Credit Guidelines; and
- (k) the Receivables in respect of which have not been classified by the Originator as having been charged-off,

**provided, however, that**, notwithstanding paragraphs (a) to (k) above, an Account will be an Eligible Account if a Rating Confirmation is provided in respect of the designation of such an Account as an Eligible Account.

A "**Permitted Additional Jurisdiction**" is a jurisdiction – other than England, Wales, Scotland and Northern Ireland – agreed by the Transferor and the Receivables Trustee as being acceptable as a Permitted Additional Jurisdiction, **provided that** a Rating Confirmation is provided in respect of designating such jurisdiction as a Permitted Additional Jurisdiction.

A Principal Receivable will be an "**Eligible Receivable**" if it complies with the following criteria as at: (i) in the case of any existing Receivable which is the subject of an Offer made by the Transferor, the relevant Assignment Date in respect of that Offer; or (ii) in the case of any future Receivable, the Date of Processing with respect to the transaction which gives rise to that Receivable:

- (i) it has arisen under an Eligible Account;
- (ii) it was created and otherwise complies in all material respects with all other applicable laws;
- (iii) it (a) was originated by the Originator (or any predecessor in title) in accordance with and is governed by a Credit Agreement without waiver or amendment in any material respect of the following matters: governing law, assignment and disclosure of information to persons who may assume rights under the Credit Agreement, or else, it was originated by the Originator or another originator in all material respects in accordance with and is governed by contractual terms not materially different from those contained in the Credit Agreements in relation to those matters listed previously; (b) is governed in whole or in part by the CCA, and creates legal, valid and binding obligations between the Originator and the relevant Obligor and is enforceable against the relevant Obligor in accordance with the Credit Agreement and the CCA, subject to applicable bankruptcy laws, other similar laws affecting creditor's rights, general equitable principles and other limitations on enforcement in the jurisdiction of the relevant Obligor; and (c) was originated in all material respects in accordance with the Credit Guidelines (or, in respect of a Receivable which has arisen on an Account acquired by the Originator prior to the date of acquisition by the Receivables Trustee, it was, to the best of the Originator's knowledge and belief, originated in all material respects in accordance with the credit guidelines of the originator of such Account);
- (iv) it is free and clear of any encumbrances exercisable against the Originator, the Transferor or the Receivables Trustee arising under or through the Originator or the Transferor (or any of their respective affiliates) and to which, at the time of its creation (or at the time of its acquisition by the Originator if such Receivable was originated by any person other than the Originator) and at all times thereafter, the Originator, the Transferor or the Receivables Trustee (as applicable) had good and marketable title;
- (v) it constitutes the legal, valid, and binding obligations of the relevant Obligor, enforceable in accordance with the terms of the relevant Credit Agreement, subject only to (a) applicable bankruptcy, insolvency, reorganisation, moratorium or other similar laws affecting the rights of creditors generally and (b) general equitable principles and other limitations on enforcement in the jurisdiction of the relevant Obligor;
- (vi) it is not currently subject to any right of rescission, defence, dispute, set-off, counterclaim or enforcement order; and

- (vii) it has not been waived or modified except as permitted in accordance with the terms of the Receivables Securitisation Deed.

The "**Date of Processing**" shall mean, in respect of any transaction (including, for the avoidance of doubt, receipt of any Collections) in respect of an Account (and, in the case of a transaction relating to Interchange, in respect of all Accounts), the Business Day after the overnight processing which resulted in that transaction being first recorded on the Originator's System (without regard to the effective date of such recording). Any reference to the date on which any Collections or transactions are processed shall be taken as referring to the Date of Processing relative to such Collections or (as the case may be) transactions.

As is market practice in the United Kingdom for credit and charge card securitisation transactions, Principal Receivables that are delinquent will still constitute Eligible Receivables if they comply with the eligibility requirements. See the table captioned "*Delinquency Experience – Total Portfolio*" in "*The Securitised Portfolio – Delinquency and Loss Experience*" in Appendix A to this Prospectus for data showing the historical percentage of delinquent Receivables.

"**Ineligible Receivables**" means Principal Receivables which arise under a Designated Account but which do not comply with all the criteria set out in the definition of Eligible Receivables as at the relevant date specified therein.

#### **Amendments to Credit Agreements and Credit Guidelines**

The Originator may amend the terms and conditions of its standard form credit agreements or change its policies and procedures and usual practices for its general credit business (insofar as the Originator is permitted to do so by relevant consumer credit legislation, regulation and guidance). These amendments may, in the case of credit card and store card accounts (insofar as the Originator is permitted to do so by relevant consumer credit legislation, regulation and guidance), include reducing or increasing the amount of monthly minimum required payments or involve changes to Periodic Finance Charges or other charges that would apply to the Designated Accounts. See "*Risk Factors – A Change in the Terms of the Designated Accounts May Adversely Affect the Amount or Timing of Collections and May Cause an Early Redemption of the Notes or a Downgrade of the Notes*".

### MATURITY ASSUMPTIONS

On each Transfer Date during the Controlled Accumulation Period, the Class A1 Controlled Accumulation Period, the Class A2 Controlled Accumulation Period or the Class A3 Controlled Accumulation Period, as applicable, an amount equal to the Controlled Deposit Amount, the Class A1 Controlled Deposit Amount, the Class A2 Controlled Deposit Amount or the Class A3 Controlled Deposit Amount, as applicable, will, to the extent funds are available for such purpose, be deposited in the Series 2020-1 Principal Funding Ledger of the Receivables Trustee Investment Account and identified as referable to the relevant classes of Series 2020-1 or Class A1 or Class A2 or Class A3, as applicable, until the balance of the Series 2020-1 Principal Funding Ledger equals the Series 2020-1 Investor Interest (other than the Class A1 Investor Interest, the Class A2 Investor Interest and the Class A3 Investor Interest), the Class A1 Investor Interest, the Class A2 Investor Interest or the Class A3 Investor Interest, as applicable. Although it is anticipated that Principal Collections will be available on each Transfer Date during the Controlled Accumulation Period, the Class A1 Controlled Accumulation Period, the Class A2 Controlled Accumulation Period and the Class A3 Controlled Accumulation Period to make a deposit of the Controlled Deposit Amount, the Class A1 Controlled Deposit Amount, the Class A2 Controlled Deposit Amount or the Class A3 Controlled Deposit Amount, as applicable, and that an amount equal to the Series 2020-1 Investor Interest (other than the Class A1 Investor Interest, the Class A2 Investor Interest and the Class A3 Investor Interest), the Class A1 Investor Interest, the Class A2 Investor Interest or the Class A3 Investor Interest, as applicable, will be paid to the Loan Note Issuer on or immediately prior to the Series 2020-1 Scheduled Redemption Date, the Class A1 Scheduled Redemption Date, the Class A2 Scheduled Redemption Date or the Class A3 Scheduled Redemption Date, as applicable, allowing the Loan Note Issuer to redeem the Series 2020-1 Loan Notes (other than the Class A1 Loan Note, the Class A2 Loan Note and the Class A3 Loan Note), the Class A1 Loan Note, the Class A2 Loan Note or the Class A3 Loan Note, as applicable, in full, no assurance can be given that sufficient Principal Collections will be available. If the amount required to repay the Series 2020-1 Investor Interest in full is not available on the Series 2020-1 Scheduled Redemption Date, a Series Pay Out Event will occur, and the Rapid Amortisation Period will begin. If the amount required to repay the Class A1 Investor Interest in full is not available on the Class A1 Scheduled Redemption Date, a Class A1 Rapid Amortisation Period will begin. If the amount required to repay the Class A2 Investor Interest in full is not available on the Class A2 Scheduled Redemption Date, a Class A2 Rapid Amortisation Period will begin. If the amount required to repay the Class A3 Investor Interest in full is not available on the Class A3 Scheduled Redemption Date, a Class A3 Rapid Amortisation Period will begin.

If a Pay Out Event occurs during the Controlled Accumulation Period, the Class A1 Controlled Accumulation Period, the Class A2 Controlled Accumulation Period or the Class A3 Controlled Accumulation Period, the Rapid Amortisation Period will begin. In each case, any amount on deposit in the Series 2020-1 Principal Funding Ledger and referable to Series 2020-1 will be paid to the Loan Note Issuer in respect of the Series 2020-1 Investor Interest on the first Transfer Date relating to the Rapid Amortisation Period. In addition, to the extent that the Series 2020-1 Investor Interest for each class has not been distributed in full, the Loan Note Issuer will be entitled to monthly distributions of Principal Collections during the Rapid Amortisation Period equal to the Available Retained Principal Collections until the Series 2020-1 Investor Interest has been distributed in full. A Pay Out Event occurs when either a Trust Pay Out Event or a Series Pay Out Event occurs. See *"The Receivables Trust - Trust Pay Out Events"* and *"Series 2020-1 – Series 2020-1 Pay Out Events"*. If a Pay Out Event occurs, it will automatically trigger an early redemption event under the Series 2020-1 Loan Notes.

Appendix A contains a table that presents the highest and lowest Obligor monthly payment rates for the Total Portfolio (as defined therein) during 2009, 2010, 2011, 2012, 2013, 2014, 2015, 2016, 2017, 2018, 2019 and the six months to 30 June 2020 and the average Obligor monthly payment rates for each such period. These are calculated as a percentage of total opening Receivables balances during the periods shown. The payment rates are based on amounts which would be deemed payments of Principal Collections and Finance Charge Collections for the related Accounts.

Collections may vary from month to month due to:

- (i) seasonal variations;
- (ii) promotional offerings – such as payment holidays;
- (iii) general economic conditions; and

- (iv) payment habits of individual Obligor.

There is no guarantee that the future monthly payment rates for the Securitised Portfolio will be similar to the historical experience set forth in Appendix A or that there will be enough Principal Collections to deposit the Controlled Deposit Amount, the Class A1 Controlled Deposit Amount, the Class A2 Controlled Deposit Amount or the Class A3 Controlled Deposit Amount, as applicable, into the Series 2020-1 Principal Funding Ledger each month to fully redeem the Notes (other than the Class A1 Notes, the Class A2 Notes and the Class A3 Notes), the Class A1 Notes, the Class A2 Notes or the Class A3 Notes, as applicable, by the Series 2020-1 Scheduled Redemption Date, the Class A1 Scheduled Redemption Date, the Class A2 Scheduled Redemption Date or the Class A3 Scheduled Redemption Date, as applicable. If a Pay Out Event occurs, the average life and maturity of the Notes could be significantly reduced, since Noteholders may start receiving principal distributions before the Series 2020-1 Scheduled Redemption Date, the Class A1 Scheduled Redemption Date, the Class A2 Scheduled Redemption Date and/or the Class A3 Scheduled Redemption Date, as applicable.

Because a slowdown in the payment rate below the payment rates used to determine the Controlled Deposit Amount, the Class A1 Controlled Deposit Amount, the Class A2 Controlled Deposit Amount and/or the Class A3 Controlled Deposit Amount, as applicable, may occur or a Pay Out Event may occur which would start the Rapid Amortisation Period, there is no guarantee that the actual number of months elapsed from the Series 2020-1 Closing Date to the final Distribution Date for the Notes, the Class A1 Notes, the Class A2 Notes or the Class A3 Notes will equal the expected number of months. Furthermore, the Class A1 Scheduled Redemption Date may be reset following the service of a Class A1 Reset Notice and/or extended following the service of a Class A1 Extension Notice, the Class A2 Scheduled Redemption Date may be reset following the service of a Class A2 Reset Notice and/or extended following the service of a Class A2 Extension Notice, the Class A3 Scheduled Redemption Date may be reset following the service of a Class A3 Reset Notice and/or extended following the service of a Class A3 Extension Notice and the Series 2020-1 Scheduled Redemption Date may be extended following the service of a Series Extension Notice, in each case subject to the satisfaction of certain conditions. As described under "*Credit Structure and Cashflows*", if the Servicer shortens the Controlled Accumulation Period, the Class A1 Controlled Accumulation Period, the Class A2 Controlled Accumulation Period or the Class A3 Controlled Accumulation Period, as applicable, there is no guarantee that there will be enough time to accumulate all amounts necessary to fully repay the Series 2020-1 Investor Interest on the Series 2020-1 Scheduled Redemption Date, the Class A1 Investor Interest on the Class A1 Scheduled Redemption Date, the Class A2 Investor Interest on the Class A2 Scheduled Redemption Date or the Class A3 Investor Interest on the Class A3 Scheduled Redemption Date, as applicable. See "*Risk Factors - Principal on the Notes May be Paid Earlier or Later than Expected if the Transferor Cannot Finance the Creation of New Receivables – Creating a Re-investment Risk to Noteholders*".

**RECEIVABLES YIELD CONSIDERATIONS**

The gross revenues from finance charges billed to accounts in the Total Portfolio for the most recent available periods are presented in Appendix A. The revenues are comprised of monthly Periodic Finance Charges, card fees, special fees, annual fees and Interchange. These revenues vary for each account based on the type and volume of activity for each account. See "*The Securitised Portfolio*".

Yield information is calculated by allocating cash in priority against finance charges ahead of principal in line with the manner in which the amount of Finance Charge Collections will be calculated under the Transaction Documents. The yield will be affected by many factors, including changes in the delinquency rate on the Receivables and (in the case of credit card, store card and charge card accounts) changes in the monthly Periodic Finance Charges on the Receivables (in the case of credit card and store card accounts) and the percentage of Obligor who pay their balances in full each month and do not incur monthly Periodic Finance Charges and (in the case of credit card, store card and charge card accounts) the amount of the annual fees and other fees and (in the case of instalment credit accounts) changes in the percentage of Obligor who prepay their debts. The Transferor is only required to exercise a limited amount of control over the ability of the Originator to change the monthly interest rate applied to the accounts or reduce or eliminate fees on the accounts. See "*Risk Factors - A Change in the Terms of the Designated Accounts May Adversely Affect the Amount or Timing of Collections and May Cause an Early Redemption or a Downgrade of the Notes*".

## THE RECEIVABLES TRUST

### General Legal Structure

A receivables trust (the "**Receivables Trust**") was constituted pursuant to a receivables trust deed and servicing agreement dated 18 December 2014 (as supplemented, amended and/or restated from time to time, the "**Receivables Trust Deed and Servicing Agreement**") between the Receivables Trustee, the Transferor, the Servicer and the Loan Note Issuer and consists of trusts declared under English law by the Receivables Trustee in favour of the initial beneficiaries. The Loan Note Issuer (in its capacity as an "**Investor Beneficiary**") and NewDay Partnership Transferor Plc (in its capacity as Transferor Beneficiary) are the initial beneficiaries (together, the "**Beneficiaries**") of the Receivables Trust. The Receivables Trust was declared for the purposes of the structure described in this Prospectus.

The terms and conditions of the Receivables Trust are set out in the Receivables Trust Deed and Servicing Agreement (the principal contents of which are described in this section of this Prospectus), as varied and supplemented from time to time by the execution of a supplement thereto relating to each Series (a "**Supplement**"). Under the Receivables Trust Deed and Servicing Agreement, which is governed by English law, the Receivables Trustee declares that it will hold all Trust Property upon the trusts set out in the Receivables Trust Deed and Servicing Agreement for the Transferor Beneficiary and the Investor Beneficiary as the initial Beneficiaries, and for each other person which from time to time becomes an additional beneficiary (an "**Additional Beneficiary**") in accordance with the terms of the Receivables Trust Deed and Servicing Agreement. As of the Series 2020-1 Closing Date, there will be no Additional Beneficiaries.

Each Beneficiary (other than the Transferor Beneficiary) will belong to either of two categories of Beneficiary, namely: (i) any person in its capacity as an Investor Beneficiary, or (ii) an Enhancement Provider if the related Supplement provides for that Enhancement Provider to be a Beneficiary. NewDay Partnership Transferor Plc, its successors and permitted assignees, in its capacity as holder of the Transferor Interest in the Receivables Trust (the "**Transferor Beneficiary**"), belongs to its own unique category of Beneficiary. Each Series in respect of the Receivables Trust will be established pursuant to a Supplement to the Receivables Trust Deed and Servicing Agreement. Such Supplement will also specify the Enhancement Provider, if any, with respect to the relevant Series and whether such Enhancement Provider is to be a Beneficiary.

"**Enhancement**" means, with respect to any Series or any class within such Series, the subordination, cash collateral guarantee or account, collateral interest, letter of credit, surety bond, insurance policy, spread account, reserve account, cross-support feature or other contract or agreement for the benefit of such Series or class (if any) which is designated as such in the applicable Supplement.

"**Enhancement Provider**" means, with respect to any Series, the person, if any, designated as such in the related Supplement.

In addition to the Receivables Trust Deed and Servicing Agreement, the initial Beneficiaries entered into a deed dated 18 December 2014 (as supplemented, amended and/or restated from time to time, the "**Beneficiaries Deed**") that sets out the contractual arrangement amongst them in respect of certain commercial decisions (relating to authorisations, consents, waivers or other acts of the Beneficiaries) to be made from time to time in respect of the Receivables Trust Deed and Servicing Agreement and any Supplement thereto. However, the terms of the Beneficiaries Deed make clear that it is in no way intended to prejudice the absolute entitlement that each Beneficiary has to Trust Property as described in this Prospectus and as set out under the terms of the Receivables Trust Deed and Servicing Agreement and each Supplement nor does it alter or amend the terms of the Receivables Trust.

"**Series**" shall mean, as the context requires:

- (a) with respect to an Investor Beneficiary (and, where appropriate, an Enhancement Provider), the relevant beneficial entitlement acquired by it under the Receivables Trust (as a result of making a Contribution funded by the issue of a Loan Note or as otherwise specified in the relevant Supplement); and/or
- (b) the Related Debt and/or Associated Debt which is referred to in the applicable Supplement as appertaining to the relevant Series.

### Contributions to Trust Property and Disposals of Beneficial Entitlement

An existing Investor Beneficiary may increase its existing beneficial interest in the Receivables Trust (or, with the prior written consent of all existing Beneficiaries, a person may become an Additional Beneficiary of the Receivables Trust):

- by making a payment to the Receivables Trustee as a contribution to Trust Property; or
- by such other method (subject to the provision of a Rating Confirmation) as the existing Beneficiaries may agree between themselves and jointly direct the Receivables Trustee to implement,

(in each case, a "**Contribution**", **provided that** no payment of Additional Funds shall be regarded as a Contribution) (the Beneficiaries Deed provides that the Investor Beneficiaries shall promptly give consent to a Contribution in accordance with the terms of any request from the Transferor Beneficiary). In addition, an existing Investor Beneficiary (or an Additional Beneficiary, with the prior written consent of all existing Beneficiaries) may increase its existing beneficial interest in the Receivables Trust by acquiring a portion or all of a Beneficiary's beneficial interest in the Receivables Trust from that Beneficiary.

Special rules apply to any Contribution (a "**VFN Contribution**") which is funded by a further drawing under any Related Debt that forms part of a VFN Series in accordance with the terms of the relevant Supplement. A "**VFN Series**" is a Series (such as Series VFN-P1 or Series VFN-P2) in which the Related Debt comprises one or more Loan Notes which may, in accordance with their terms, periodically have their Principal Amount Outstanding (as defined in the Security Trust Deed and Cash Management Agreement) increased or decreased at the option of the Loan Note Issuer.

The beneficial interest in the Receivables Trust created by each Contribution or disposal shall be evidenced in the Trust Register.

If a Contribution (other than a VFN Contribution) is to take place, a new Supplement to the Receivables Trust Deed and Servicing Agreement will govern the beneficial entitlement in the Receivables Trust (the "**Investor Interest**") that will be created by such Contribution and will set out the related set of financial calculations that will be required in relation to the relevant Series.

An Investor Beneficiary or Enhancement Provider may be a beneficiary in respect of more than one Series. If an Investor Beneficiary is to become a beneficiary in respect of more than one Series, it shall do so by, from time to time, making a further Contribution to the Receivables Trust and entering into a new Supplement, in respect of the new Series, which will have the effect of increasing its Investor Interest. Such increase shall be evidenced in the Trust Register and the aggregate amount of such Investor Beneficiary's increased interest in the Receivables Trust is referred to as the "**Aggregate Investor Interest**". On the Series 2020-1 Closing Date, it is anticipated that the Loan Note Issuer will become the Investor Beneficiary in respect of Series 2020-1, in addition to the five other Series in respect of which the Loan Note Issuer is an Investor Beneficiary, namely, Series 2017-1, Series 2015-1, Series VFN-P1, Series VFN-P2 and the Originator VFN Series (see "*Other Series Currently in Issue*").

The Contribution made by the Investor Beneficiary in respect of Series 2020-1 shall be credited to the Receivables Trustee Investment Account. Such amount may, amongst other things, be credited to the principal funding ledger in respect of any outstanding Series for the purposes of refinancing any such outstanding Series in accordance with the terms applicable to such Series and/or be treated as Cash Available for Investment (which may, amongst other things, be used to reduce the size of the Series VFN-P1 Investor Interest and/or the Series VFN-P2 Investor Interest, fund the purchase price for any Receivables acquired by the Receivables Trustee and/or effect the reduction of the Originator VFN Excess Amount and/or the Transferor Interest, in each case subject to the applicable principles and constraints specified in the Transaction Documents).

No Investor Beneficiary may transfer, assign, exchange, place in any custodial arrangement for security purposes or otherwise convey or dispose of its beneficial entitlement (including any Investor Interest comprised therein) in the Receivables Trust (each a "**Disposal**") or create or grant any encumbrance thereover (save as specified otherwise in any Supplement) unless (i) the person to whom the Disposal is made is already a Beneficiary immediately prior to the making of such Disposal or (ii) the Receivables Trustee shall have received prior written confirmation from the person to which such Disposal is to be

made, or in whose favour an encumbrance is to be granted or created, that such person (A) is resident for United Kingdom tax purposes in the United Kingdom or (B) such Additional Beneficiary is a bank as defined for the purposes of Section 879 of the Income Tax Act 2007, and, in each case, such Additional Beneficiary will be within the charge to United Kingdom corporation tax as respects all amounts regarded as interest for United Kingdom Tax purposes received by it in respect of the relevant Investor Interest, **provided, however, that**, where such Disposal or creation or grant of an encumbrance by an Investor Beneficiary is for the purpose of any security assignment or security interest granted to a security trustee under a supplement to the Security Trust Deed and Cash Management Agreement, the provisions of (i) and (ii) above shall not apply and the relevant Investor Beneficiary shall continue to be considered the Beneficiary of the Receivables Trust regardless of such assignment or interest until an Enforcement Notice is served by the Security Trustee under the terms of the relevant supplement to the Security Trust Deed and Cash Management Agreement.

The Transferor Beneficiary may make a Disposal of or create or grant any encumbrance over, the whole or any part of the Transferor Interest, **provided, however, that**: (i) any such encumbrance is granted for the purpose of securing inter-company indebtedness arrangements entered into by the Transferor with any of its affiliates; or (ii) a Rating Confirmation is provided in respect of such Disposal or encumbrance.

The Transferor Beneficiary may also make a Disposal of the Transferor Interest pursuant to a transfer of the whole or substantially the whole of its properties and assets to any person, **provided, however, that** such person shall also expressly assume the duties and obligations of the Transferor and Transferor Beneficiary (as applicable) under the Relevant Documents and shall be the relevant person in respect of which the occurrence of any Pay Out Insolvency Event in respect of the "Transferor" shall be determined.

The Receivables Trustee will annotate the Trust Register in respect of any new Series only when the Receivables Trustee has first received:

- (i) a Supplement specifying the principal terms of the Series executed by the parties thereto (including the Transferor Beneficiary, all Investor Beneficiaries and the Receivables Trustee). Each Supplement shall specify the principal terms for the Series which it constitutes. The principal terms of a Series will be defined such that each Series has an accumulation period and/or amortisation period for the payment of principal which may have a different length and begin on a different date than such period for any other Series. One or more Series may be in their amortisation or accumulation periods when other Series are not. Moreover, each Series may have the benefit of Enhancement which is available only to such Series. The Receivables Trustee shall hold any such form of Enhancement only on behalf of the Series with respect to which it relates. For the purposes of calculation, certain Series may be subordinated to other Series and notional classes established for calculation purposes within a Series may have different priorities. Whether or not a Series, or any notional class within a Series, is subordinated will be set out in the related Supplement. There is no limit on the number of Contributions that may be made to the Receivables Trust or the number of Additional Beneficiaries that may be added;
- (ii) any funds or assets forming part of the applicable Enhancement, if any;
- (iii) the agreement, if any, pursuant to which the Enhancement Provider, if any, agrees to provide Enhancement;
- (iv) a solvency certificate from the Transferor;
- (v) written confirmation from each relevant Rating Agency that the Contribution will not result in such Rating Agency reducing or withdrawing its then current rating on any outstanding Rated Debt (which confirmation shall be deemed to have been given by any Rating Agency which provides a rating of any Rated Debt issued to fund the new Contribution); and
- (vi) written confirmation from each Additional Beneficiary and Enhancement Provider, if any, that either (A) such Additional Beneficiary or Enhancement Provider is resident in the United Kingdom for United Kingdom tax purposes or (B) such Additional Beneficiary or Enhancement Provider is a bank as defined for the purposes of Section 879 of the Income Tax Act 2007, and, in each case, such Additional Beneficiary or Enhancement Provider will be within the charge to United Kingdom corporation tax as respects all amounts regarded as interest for United Kingdom tax purposes received by it in respect of its Contribution or Enhancement (as appropriate).

The Receivables Trustee will be entitled to execute a Supplement if it obtains the consent of all the Beneficiaries to the Receivables Trust (such consent to be evidenced by each Beneficiary executing such Supplement).

A further drawing in respect of any Series that is a VFN Series in accordance with its terms will result in the making of a Contribution but shall not be subject to the requirements set out above in respect of new Series.

### **General Entitlement of Beneficiaries to Trust Property**

By making Contributions to the Receivables Trust, the Transferor Beneficiary and each Investor Beneficiary will have an undivided interest in the Receivables Trust, as referred to above. However, in addition to Trust Property that is held by the Receivables Trustee on an undivided basis for all Beneficiaries, certain Trust Property (including amounts of cash) may be held in bank accounts or ledgers within bank accounts on a segregated basis for a particular Beneficiary only and may be held in respect of a particular Series only.

Broadly, Trust Property comprises:

- a pool of Eligible Receivables and Finance Charge Receivables together with Collections in respect thereof, any unutilised Cash Available for Investment and any amounts paid by a Beneficiary as a Contribution (the "**Undivided Bare Trust**" and Trust Property therein being "**Undivided Bare Trust Property**") held on an undivided basis for each Investor Beneficiary and the Transferor Beneficiary in accordance with their respective beneficial interests as determined by the Receivables Trust Deed and Servicing Agreement and each Supplement thereto;
- a pool of Ineligible Receivables and Ineligible Collections related to such Ineligible Receivables (the "**Ineligibles Bare Trust**" and Trust Property therein being "**Ineligibles Bare Trust Property**") held on a segregated basis for the sole benefit of the Transferor Beneficiary;
- property specifically allocated in accordance with the Receivables Trust Deed and Servicing Agreement and each Supplement thereto to be held on a segregated basis for each Investor Beneficiary or the Transferor Beneficiary (as the case may be) (the "**Segregated Bare Trust**" and Trust Property therein being "**Segregated Bare Trust Property**") held on a segregated basis for the sole benefit of the relevant Beneficiary in accordance with the Receivables Trust Deed and Servicing Agreement or the relevant Supplement;
- property which derives from Additional Funds (other than Additional Funds "**Trustee Payments**" and Additional Funds "**Loss Make-Up**") received by the Receivables Trustee as additional funds and paid by an Investor Beneficiary as further consideration for the grant of its Investor Interest pursuant to the terms of each relevant Supplement (the "**Deferred Payment Bare Trust**" and Trust Property therein being "**Deferred Payment Bare Trust Property**"), which will be held on a segregated basis for the sole purpose of paying Deferred Consideration to the Transferor in accordance with the terms of the Receivables Securitisation Deed and each relevant Supplement; and
- other property which is expressly segregated by the Receivables Trustee for the benefit of any other Beneficiary according to the terms of any Supplement (each an "**Other Trust**" and Trust Property therein being "**Other Trust Property**") held on a segregated basis for the relevant Beneficiary.

"**Additional Funds "Loss Make-Up"**" shall mean all amounts of Additional Funds which are so characterised pursuant to any Supplement (including all amounts of Additional Funds which are characterised pursuant to any Supplement as "**Refunded Utilised Principal Collections**"), in each case as more particularly specified in the relevant Supplement.

"**Additional Funds "Trustee Payments"**" shall mean all amounts of Additional Funds which are paid to the Receivables Trustee and which fall within any of the following categories (each as defined in the relevant Supplement): "Investor Aggregate Trustee Payment Amount", "Investor Servicing Fee Amount" and any other categories of a similar nature.

See "*Series 2020-1*" for a description of the beneficial entitlement of the Loan Note Issuer as the Series 2020-1 Investor Beneficiary to Receivables and for a description of the manner in which calculations will be made and Collections will be distributed to the Loan Note Issuer in such capacity.

The Transferor in its capacity as such will have no beneficial entitlement under the Receivables Trust to Excess Spread but will be contractually entitled, in its capacity as Transferor, to receive payment of amounts from the Receivables Trustee equal to amounts of Excess Spread paid by the Investor Beneficiaries to the Receivables Trustee as additional consideration for the granting of their Investor Interests. The Transferor will receive such payments from the Receivables Trustee as "**Deferred Consideration**" under the terms of the Receivables Securitisation Deed.

The beneficial entitlement of the Transferor Beneficiary at any time is:

- (i) in respect of Undivided Bare Trust Property, excluding Finance Charge Collections, Acquired Interchange and income on Permitted Investments, that proportion which the Adjusted Transferor Interest bears to the sum of the Combined Aggregate Adjusted Investor Interest and the Adjusted Transferor Interest, except that, if at any time the Adjusted Transferor Interest is zero or would, when aggregated with the Originator VFN Excess Amount, if reduced further be below the Minimum Transferor Interest, and the Undivided Bare Trust Property at that time includes Principal Collections which would otherwise be distributed to the Transferor, such Principal Collections shall be identified as Unavailable Principal Collections and shall be retained by the Receivables Trustee until such time as either they can be utilised in accordance with the provisions of the Receivables Trust Deed and Servicing Agreement (or in accordance with the terms of any Supplement) or the Transferor Interest is greater than zero and can be reduced without, when aggregated with the Originator VFN Excess Amount, falling below the Minimum Transferor Interest;
- (ii) in respect of Undivided Bare Trust Property which consists of Finance Charge Collections, Acquired Interchange and income on Permitted Investments, the Floating Transferor Percentage for that Collection Period in which such Finance Charge Collections, Acquired Interchange and income on Permitted Investments arise;
- (iii) all Ineligibles Bare Trust Property comprised of the Ineligible Receivables and all Ineligible Collections related to such Ineligible Receivables; and
- (iv) in respect of Deferred Payment Bare Trust Property, any Trust Property held in the Deferred Payment Bare Trust.

"**Adjusted Transferor Interest**" means in relation to the Transferor Beneficiary at any time the sum of:

- (i) the amount of any cash contribution by the Transferor Beneficiary to the Receivables Trust (excluding, for the avoidance of doubt, any Transferor Servicing Fee Amount); and
- (ii) the aggregate of the Outstanding Face Amount (as at the time of assignment) of Receivables that are Principal Receivables assigned by the Transferor as Eligible Receivables to the Receivables Trustee as reduced by the aggregate of:
  - (a) the total consideration received by the Transferor in cash for the Eligible Receivables (excluding any amount received as Deferred Consideration);
  - (b) Principal Collections distributed to the Transferor Beneficiary and other principal amounts distributed to the Transferor Beneficiary from the Receivables Trustee Investment Account, in each case in respect of Eligible Receivables;
  - (c) the proportionate share of Eligible Receivables that are Defaulted Receivables allocated to the Transferor Beneficiary pursuant to the terms of the Receivables Trust Deed and Servicing Agreement and any Supplement; and
  - (d) reductions of the Transferor Interest to satisfy the payment obligations of the Transferor Beneficiary (in its capacity as Transferor), being payment obligations which arise from Ineligible Receivables or in respect of a Credit Adjustment or Reduction,

and as increased by the aggregate of any Dilution Refunds paid into the Receivables Trustee Collection Account, **provided that**, for the avoidance of doubt, in calculating the amount of the Adjusted Transferor Interest, the amount of any given payment shall not be deducted more than once.

"**Aggregate Adjusted Investor Interest**" means, at any time, in respect of an Investor Beneficiary, the sum of the Adjusted Investor Interests of all Outstanding Series in respect of such Investor Beneficiary and "**Combined Aggregate Adjusted Investor Interest**" shall mean at any time, the sum of the Aggregate Adjusted Investor Interests for all Investor Beneficiaries. For the definition of Adjusted Investor Interest in respect of Series 2020-1, see "*Series 2020-1*".

"**Floating Transferor Percentage**" means, in respect of any Collection Period and in respect of the Transferor, the percentage resulting from the calculation of (1) 100 per cent. *minus* (2) the aggregate of the Floating Investor Percentages of each Investor Beneficiary.

The Transferor is not beneficially entitled to investment earnings on Permitted Investments made using monies deposited in the Trust Accounts (and ledgers therein) held on segregated trust on a segregated basis for a particular Investor Beneficiary only. However, the Transferor will have the right to payments of Deferred Consideration from the Receivables Trustee. The payments of Deferred Consideration will include, *inter alia*, amounts equal to monies distributed by the Receivables Trustee to the Investor Beneficiaries as earnings on Permitted Investments, made using monies deposited in the Trust Accounts, unless the relevant Supplement for a particular Series states otherwise; the Supplement for Series 2020-1 does not state otherwise. See "*Series 2020-1*".

"**Outstanding Series**" shall mean, with respect to any date of determination, a Series with an Investor Interest of greater than zero.

"**Permitted Investments**" means any one or more of the following:

- (a) demand or time deposits made with, or certificates of deposit and other short-term unsecured debt obligations issued by, a financial institution, **provided that**, in each case, at the time the deposit is made or the certificate or obligation is acquired, the then current rating from each Rating Agency which then rates any outstanding Rated Debt of the unsecured and unguaranteed debt obligations of that institution (or, where the investment in question is guaranteed, of the guaranteeing institution) is (i) at least A-1 short-term or (where no short-term rating is available) at least A+ long-term from S&P, at least P-1 short-term or (where no short-term rating is available) at least A1 long-term from Moody's, at least F1 short-term or (where no short-term rating is available) at least A long-term from Fitch, at least A or R-1 (middle) by DBRS, or (ii) consistent with such other rating as is consistent with the then prevailing published rating criteria of the relevant Rating Agency; or
- (b) short-term unsecured debt obligations (including commercial paper) issued by a body corporate, **provided that**, in each case, at the time the obligation is acquired, the then current rating from each Rating Agency which then rates any outstanding Rated Debt of the unsecured and unguaranteed debt obligations of that body corporate (or, where the debt obligations in question are guaranteed, of the guaranteeing institution) is (i) at least A-1 short-term or (where no short-term rating is available) at least A+ long-term from S&P, at least P-1 short-term or (where no short-term rating is available) at least A1 long-term from Moody's, at least F1 short-term or (where no short-term rating is available) at least A long-term from Fitch, at least A or R-1 (middle) by DBRS, or (ii) consistent with such other rating as is consistent with the then prevailing published rating criteria of the relevant Rating Agency,

**provided that** no withholding or deduction for or on account of Tax will be made on any payments of interest or principal in respect of any such investment (except that, where any withholding or deduction on interest results in a net amount of interest being paid which the Servicer considers is a reasonable return for the amount of principal invested, such an investment would not result in a breach of this proviso), and **provided further that** no such instrument will be a volatile instrument (as specified in the Rating Agencies' published criteria) and/or an instrument issued by a mutual fund or similar investment vehicle, and **provided further that** each such instrument shall mature, or be capable of realisation, at the latest on the Business Day preceding the following Transfer Date so that such funds will be available for withdrawal on or prior to the following Transfer Date.

**"Transferor Interest"** shall mean, on any date of determination, the Adjusted Transferor Interest for the Transferor Beneficiary.

Without prejudice to the above, each Beneficiary will be entitled to all Trust Property from time to time which is expressly held on bare trust for the sole benefit of such Beneficiary.

#### **Allocation and Application of Collections**

Pursuant to an account bank agreement dated 18 December 2014 with, amongst others, the Receivables Trustee Account Bank (the "**Receivables Trustee Account Bank Agreement**"), the Receivables Trustee has opened and will maintain an account (the "**Receivables Trustee Collection Account**") at a Qualified Institution (currently Citibank, N.A., London Branch) in which there is established a Principal Collections Ledger and a Finance Charge Collections Ledger to which Principal Collections and Finance Charge Collections are credited respectively. The Receivables Trustee has also established a "**Receivables Trustee Consideration Ledger**" in the Receivables Trustee Collection Account to which are credited all amounts of Additional Funds (other than Additional Funds "Loss Make-Up" and Additional Funds "Trustee Payments") payable to the Receivables Trustee and any amounts due to be applied as Deferred Consideration.

Pursuant to the Receivables Trustee Account Bank Agreement, the Receivables Trustee has opened and will maintain an account (the "**Receivables Trustee Investment Account**") at a Qualified Institution (currently Citibank, N.A., London Branch). How this functions in relation to Series 2020-1 is set out below in the section "*Series 2020-1*".

The Receivables Trustee may also open additional trust accounts from time to time at a Qualified Institution for the benefit of specific Beneficiaries (each an "**Additional Trust Account**").

The Receivables Trustee Collection Account, the Receivables Trustee Investment Account and any Additional Trust Accounts are collectively referred to as the "**Trust Accounts**". The Receivables Trustee, as trustee of the Receivables Trust, possesses all legal right, title and interest in all funds on deposit from time to time in each Trust Account and in all proceeds thereof. The Trust Accounts are located in the United Kingdom.

The Receivables Trustee has directed the Transferor that (subject to the provisions of certain monthly cash settlement arrangements between the Transferor and the Receivables Trustee) Finance Charge Collections and Principal Collections held on trust in the Transferor Collection Account for the benefit of the Receivables Trustee are to be transferred to the Receivables Trustee Collection Account as soon as practicable following receipt by the Transferor. The Receivables Trustee must regard all monies in the Receivables Trustee Collection Account as Collections in respect of Receivables assigned to the Receivables Trust unless the Servicer has notified the Receivables Trustee that part or all of such monies have been incorrectly paid into such account ("**Incorrect Payments**"). Following any deduction of an amount of Incorrect Payments incorrectly allocated as Finance Charge Collections from Finance Charge Collections, such amount of Incorrect Payments incorrectly allocated as Finance Charge Collections, if any, shall be treated as having been repaid.

If from time to time any Dilution Refund is received by the Receivables Trustee, the size of the Undivided Bare Trust and the Transferor Interest in the Undivided Bare Trust shall be increased by such amount and such Dilution Refund shall be treated as a Principal Collection and distributed accordingly in accordance with the terms the Receivables Trust Deed and Servicing Agreement and the relevant Supplements.

The Outstanding Face Amount of all Eligible Receivables taken into account for the purposes of calculating the Eligible Receivables Balance will be reduced by the amount of any credit balances on Designated Accounts, but the Eligible Receivables Balance will be increased to the extent of any amounts held by the Originator in the Originator Ring-fenced Account in respect of such credit balances.

**"Billed Finance Charge Receivables"** shall mean, in respect of a Collection Period, Finance Charge Receivables reported as being billed in respect of all Designated Accounts during such Collection Period, plus any Discount Option Receivables arising on any Designated Accounts during such Collection Period, less, in each case, any such Receivables arising on an Account which was already or, prior to the end of that Collection Period, became a Defaulted Account.

**"Dilution Refunds"** shall mean all amounts received by the Transferor or the Servicer (including via a payment system or from a Retail Partner) in respect of a Dilution Loss.

**"Finance Charge Collections"**, in respect of any Collection Period, shall mean an amount equal to:

- (a) the lesser of (i) Billed Finance Charge Receivables for the immediately preceding Collection Period; and (ii) the amount of Collections received during the Collection Period (such that, on any Relevant Date during such Collection Period, the amount of Finance Charge Collections received during that Collection Period as at such date shall be equal to all Collections received during such Collection Period up to such date until an amount of Collections equal to the Billed Finance Charge Receivables has been received and, thereafter, all further Collections shall be Principal Collections); and
- (b) such other amount of Collections received in or in respect of such Collection Period as may be specified as being Finance Charge Collections in relation to a particular Series,

**provided that** the amount of Finance Charge Collections shall be reduced for the purposes of any calculation hereunder or in respect of any Supplement on any date of determination by the amount of any Incorrect Payments previously incorrectly allocated as Finance Charge Collections which are to be repaid on such date of determination.

**"Ineligible Receivables Pool"** shall mean the Outstanding Face Amount of all Ineligible Receivables assigned or purported to be assigned to the Receivables Trustee (or other property which is deemed to represent such Receivables) which constitute part of the Trust Property subject to any reduction from time to time under the Receivables Trust Deed and Servicing Agreement.

**"Originator Ring-fenced Account"** shall mean the bank account maintained by the Originator for the purposes of safeguarding amounts in respect of credit balances on Accounts pursuant to Regulation 23 of the Payment Services Regulations 2017.

**"Principal Collections"** means Collections in respect of Eligible Receivables other than Finance Charge Collections, but, for the avoidance of doubt, shall not include Collections in respect of Defaulted Receivables.

**"Transferor Collection Account"** shall mean the account held for the purposes of receiving Collections in accordance with the terms of the Receivables Securitisation Deed.

**"Transferor Ineligible Interest"** shall mean, on any date of determination, the aggregate amount of the Ineligible Receivables Pool.

If from time to time Collections paid into the Receivables Trustee Collection Account representing Collections in respect of Ineligible Receivables ("**Ineligible Collections**") have been initially considered to be Principal Collections in respect of Eligible Receivables ("**Allocated Ineligible Collections**") and incorrectly allocated in accordance with the terms of the Receivables Trust Deed and Servicing Agreement (and any Supplement thereto) then, upon prompt notification to the Receivables Trustee by the Servicer that Allocated Ineligible Collections have been so allocated as Principal Collections in respect of Eligible Receivables, the Receivables Trustee shall apply Trust Property in a manner consistent with the principles set out in the Receivables Trust Deed and Servicing Agreement (as amended by any Supplement) to reapply such Allocated Ineligible Collections correctly and amend its records so that the Ineligible Receivables Pool is decreased by the amount of adjustments in respect of Incorrect Payments previously allocated as Collections and Allocated Ineligible Collections. The Transferor Ineligible Interest in the Ineligibles Bare Trust Property and the Transferor Interest in the Undivided Bare Trust Property shall each be adjusted by the amount of such adjustments with respect to Incorrect Payments, Ineligible Collections and Ineligible Receivables.

Principal Receivables which are Eligible Receivables and which become Receivables in a Defaulted Account are allocated between the Transferor Beneficiary and each Investor Beneficiary in respect of each Series in accordance with their respective Floating Percentages at that time. Credit Adjustments and Reductions in respect of Principal Receivables are allocated to the Transferor Beneficiary as a reduction of the Transferor Interest until such time as the Transferor Interest reaches zero (but only to the extent that the Transferor does not make payment in respect of such Credit Adjustments and Reductions) and thereafter reduces the Originator VFN Excess Amount (see "*The Receivables – Reductions in Receivables, Early*

*Collections and Credit Adjustments*"). Principal Receivables which are Ineligible Receivables and which become Receivables in Defaulted Accounts reduce the Transferor Ineligible Interest until such time as the Transferor Ineligible Interest reaches zero.

"**Floating Percentage**" means a Floating Investor Percentage or the Floating Transferor Percentage.

Collections representing Trust Property are allocated as Principal Collections, Finance Charge Collections or Ineligible Collections. If a Discount Percentage is nominated by the Transferor (see "*The Receivables-Discount Option Receivables*"), the resulting Discount Option Receivables will be treated as Finance Charge Receivables, and the resulting increase in Billed Finance Charge Receivables will result in a corresponding amount of Collections which would otherwise be treated as Principal Collections being treated as Finance Charge Collections.

If specified by a Supplement, the Investor Beneficiary in respect of the relevant Series will be entitled to a portion of Acquired Interchange. If so specified, the Transferor Beneficiary will also be entitled to a portion of Acquired Interchange. In respect of Series 2020-1, the Loan Note Issuer, as Series 2020-1 Investor Beneficiary, will be entitled to a portion of the Investor Acquired Interchange Amount as further described in "*Series 2020-1*".

Unless specified otherwise in the related Supplement, each Series is or will be entitled to varying percentages of Principal Collections and Finance Charge Collections and will be allocated percentages of losses in respect of Default Amounts in Defaulted Accounts, in each case calculated in accordance with the Supplement applicable to such Series, on a *pari passu* basis with each other Series and the Transferor Beneficiary. Also, as noted above, if so specified in the related Supplement, each Series is or will be entitled to a portion of Acquired Interchange in respect of each Collection Period. To the extent that any Acquired Interchange is not allocated to all such Series, such Acquired Interchange will be allocated to the Transferor Beneficiary.

The Transferor is entitled to receive, as Deferred Consideration from the Receivables Trustee, amounts equal to those amounts of Finance Charge Collections and Acquired Interchange distributed in respect of a Series that are not utilised by the relevant Investor Beneficiary (whether or not such Investor Beneficiary is the Investor Beneficiary in relation to such Series) or any Enhancement Provider as specified pursuant to the related Supplement but which are paid to the Receivables Trustee by such Investor Beneficiary or Enhancement Provider as Additional Funds (other than Additional Funds "Trustee Payments" and Additional Funds "Loss Make-Up"). The entitlement of the Investor Beneficiary (in respect of its Investor Interest relating to a Series) to Principal Collections, Finance Charge Collections and Acquired Interchange is or will be specified in the related Supplement.

Certain obligations on the part of the Transferor to make a payment to the Receivables Trustee pursuant to the Receivables Securitisation Deed, in respect of Principal Receivables in respect of which a breach of warranty has occurred, may be fulfilled by a reduction of the Transferor Interest and, in addition, where appropriate, by an increase in the Transferor Ineligible Interest; **provided, however, that**, in the event and to the extent the Transferor Interest would be reduced below zero, the Transferor must make a corresponding payment to the Receivables Trustee in accordance with the provisions of the Receivables Trust Deed and Servicing Agreement and the Receivables Securitisation Deed.

The Servicing Fee is payable by the Receivables Trustee to the Servicer. The Receivables Trustee is entitled to be reimbursed for its payments to the Servicer from payments made by the Beneficiaries to the Receivables Trustee. Each Beneficiary may utilise Trust Property allocated to such Beneficiary to make such payment.

In accordance with the preceding summary of general principles, the Receivables Trustee makes the following daily (unless otherwise stated) transfers of monies from, or on a daily basis identifies and credits to separate ledgers in, the Receivables Trustee Collection Account as follows:

- (i) *Incorrect Payments*: the amount of any Incorrect Payments notified to the Receivables Trustee not previously allocated as Collections representing Trust Property shall be transferred to an account in the name of the Transferor utilised to receive amounts owing to the Transferor from the Receivables Trustee (the "**Transferor Receipts Account**"), whereupon such monies cease to be Trust Property and are owned by the Transferor absolutely;

- (ii) *Obligor Claims*: the amount of any Obligor Claims paid in cash by or on behalf of the Originator, as notified to the Receivables Trustee, shall be transferred to the Transferor Receipts Account, whereupon such monies shall cease to be Trust Property and shall be owned by the Transferor Beneficiary absolutely (and a corresponding adjustment shall be made to the Finance Charge Collections Ledger in the Receivables Trustee Collection Account until such time as no amounts are recorded on the Finance Charge Collections Ledger and thereafter a corresponding adjustment shall be made to the Principal Collections Ledger in the Receivables Trustee Collection Account, **provided that** no such adjustments shall be in an amount greater than the amount of any Obligor Claims and neither the Finance Charge Collections Ledger nor the Principal Collections Ledger shall have a balance of less than zero recorded);
- (iii) *Ineligible Collections*: the amount of Ineligible Collections notified to the Receivables Trustee not previously allocated as Principal Collections shall be transferred to the Transferor Receipts Account, whereupon such monies shall cease to be Trust Property and shall be owned by the Transferor Beneficiary absolutely;
- (iv) *Series Principal Collections*: the relevant amount of Principal Collections to be credited to the Principal Collections Ledger, as specified in or pursuant to the related Supplement for the applicable Series, shall be retained in the Receivables Trustee Collection Account (and a corresponding adjustment shall be made to the Principal Collections Ledger in the Receivables Trustee Collection Account);
- (v) *Cash Available for Investment*: subject to any provisions of any Supplement which require any amounts to be retained in the Principal Collections Ledger (whether on account of Required Retained Principal Collections (as defined in the related Supplement for each Series) or otherwise), or, as the case may be, distributed from the Principal Collections Ledger (other than to the Receivables Trustee Investment Account), the amount of any Principal Collections remaining after the application of paragraphs (i) to (iv) above (which remaining amount shall constitute Cash Available for Investment) shall be credited to the Receivables Trustee Investment Account (and a corresponding adjustment shall be made to the Principal Collections Ledger in the Receivables Trustee Collection Account);
- (vi) *Transferor Finance Charge Amount*: an amount equal to the product of (1) the Floating Transferor Percentage for the Collection Period in which such Finance Charge Collections arise, and (2) the aggregate amount of Finance Charge Collections in respect of the relevant Date of Processing (the "**Transferor Finance Charge Amount**") shall be credited to the Transferor Receipts Account or as the Transferor Beneficiary may direct (and a corresponding adjustment shall be made to the Finance Charge Collections Ledger in the Receivables Trustee Collection Account), whereupon such monies shall cease to be Trust Property and shall be owned by the Transferor Beneficiary absolutely;
- (vii) *Transferor Acquired Interchange Amount*: on each Transfer Date, an amount equal to the product of (1) the Floating Transferor Percentage for the Collection Period preceding such Transfer Date, and (2) the aggregate amount of Acquired Interchange deposited by the Transferor in the Receivables Trustee Collection Account in respect of the relevant Collection Period (the "**Transferor Acquired Interchange Amount**") shall be credited to the Transferor Receipts Account or as the Transferor Beneficiary may direct (and a corresponding adjustment shall be made to the Finance Charge Collections Ledger in the Receivables Trustee Collection Account), whereupon such monies shall cease to be Trust Property and shall be owned by the Transferor Beneficiary absolutely;
- (viii) *Investor Finance Charge Amount*: in respect of each Investor Beneficiary, an amount equal to the product of:
  - (1) the sum of the Floating Investor Percentages in respect of all Outstanding Series for the relevant Investor Beneficiary for the Collection Period in which such Finance Charge Collections arise, and
  - (2) the aggregate amount of Finance Charge Collections in respect of the relevant Date of Processing,

(the "**Investor Finance Charge Amount**") shall be transferred in accordance with the relevant Supplement in relation to the amounts thereof referable to the Series in respect of which the relevant Investor Beneficiary is the Investor Beneficiary (and a corresponding adjustment shall be made to the Finance Charge Collections Ledger in the Receivables Trustee Collection Account), whereupon such monies shall cease to be Undivided Bare Trust Property and shall be owned by the relevant Investor Beneficiary absolutely;

- (ix) *Investor Acquired Interchange Amount*: on each Transfer Date, in respect of each Investor Beneficiary, an amount equal to the product of:
- (1) the sum of the Floating Investor Percentages in respect of all Outstanding Series for the relevant Investor Beneficiary for the Collection Period preceding the Transfer Date; and
  - (2) the aggregate amount of Acquired Interchange deposited by the Transferor in the Receivables Trustee Collection Account in respect of the relevant Collection Period,

(the "**Investor Acquired Interchange Amount**"), shall be transferred in accordance with the relevant Supplement, in relation to the amounts thereof referable to the Series in respect of which that relevant Investor Beneficiary is the Investor Beneficiary (and a corresponding adjustment shall be made to the Finance Charge Collections Ledger in the Receivables Trustee Collection Account), whereupon such monies shall cease to be Undivided Bare Trust Property and shall be owned by the relevant Investor Beneficiary absolutely; and

- (x) *Amounts remaining*: amounts remaining in the Receivables Trustee Collection Account after the application of monies referred to above and in any Supplement shall either (1) remain deposited in the Receivables Trustee Collection Account until such time as they are utilised on succeeding Business Days in accordance with the Receivables Trust Deed and Servicing Agreement and any Supplement, or (2) be invested in Permitted Investments.

#### **Application of Cash Available for Investment, Initial Payments, Payment for Future Receivables**

During each Revolving Period, Accumulation Period or Amortisation Period applicable to a Series as further specified in the related Supplement (see "*Series 2020-1 – Distributions of Principal Collections to the Loan Note Issuer*"), the Receivables Trustee will each day (subject to (a)(ii) below) utilise a portion of Principal Collections allocated to the Beneficiaries in respect of each Outstanding Series to fund the payment of purchase price for Receivables (such amounts being "**Cash Available for Investment**") (however no amounts of Investor Cash Available for Investment are used to pay for Receivables notified by the Transferor to be Ineligible Receivables). Such amounts shall be applied in the following order:

- (a) on each Assignment Date, either:
- (i) the amount equal to the funds required to meet the obligation of the Receivables Trustee to pay an amount (the "**Initial Payment**") equal to (a) the outstanding face amount of the existing Receivables which are Principal Receivables and which are the subject of the assignment made on such Assignment Date (excluding any Receivables which have prior to the time of acceptance been identified by the Transferor or the Servicer as being Ineligible Receivables) plus (b) the balance, if any, standing to the credit of the Originator Ring-fenced Account in respect of the existing Accounts under which the Receivables which are the subject of that assignment arise; or
  - (ii) if the Servicer is unable to determine the amount of the Initial Payment, the obligation to pay such amount shall be deferred to a day falling no later than the Transfer Date falling in the immediately succeeding Collection Period;
- (b) either:
- (i) an amount required to meet the obligation of the Receivables Trustee to make payments in respect of, *inter alia*, future Receivables in accordance with the terms of the Receivables Securitisation Deed; or

- (ii) if the Servicer is unable to determine the amount of purchase price to be paid for such future Receivables, the obligation to pay such amount shall be deferred to a day falling no later than the Transfer Date falling in the immediately succeeding Collection Period;
- (c) on behalf of the Investor Beneficiary of any Series in accordance with the related Supplement, the amount of Investor Cash Available for Investment that is required to be applied to fund the effective acquisition of all or part of the Transferor Interest in order to increase the proportion of the beneficial interest of such Investor Beneficiary for such Series in the Eligible Receivables Balance and decrease the Transferor Interest accordingly shall be transferred to the Transferor Receipts Account, whereupon such monies shall cease to be Trust Property and shall be owned by the Transferor Beneficiary absolutely; and
- (d) the amount of unutilised Transferor Cash Available for Investment shall be transferred to the Transferor Receipts Account, whereupon such monies shall cease to be Trust Property and shall be owned by the Transferor Beneficiary absolutely and the Transferor Interest shall accordingly be decreased by such amount,

**provided that**, to the extent that on any day (A) the Transferor Interest is zero or would, if reduced further, when aggregated with the Originator VFN Excess Amount, be below the Minimum Transferor Interest, and (B) a Principal Collection which would otherwise be paid to the Transferor pursuant to paragraph (c) or (d) above (an "**Unavailable Principal Collection**") is held in the Receivables Trustee Investment Account, such amount shall remain credited to the Receivables Trustee Investment Account until such time as either it can be utilised in accordance with paragraph (a) or (b) above (or in accordance with the terms of any Supplement) or the Transferor Interest is greater than zero and can be reduced without, when aggregated with the Originator VFN Excess Amount, falling below the Minimum Transferor Interest, and **provided that** any unused Cash Available for Investment in respect of any Collection Period shall be retained in the Receivables Trustee Investment Account and applied in accordance with the terms of the Receivables Trust Deed and Servicing Agreement and the relevant Supplements.

Payments for future Receivables and Acquired Interchange required to be made by the Receivables Trustee can either be made in cash, by deposit of the relevant payment into the Transferor Receipts Account or, to the extent such payment is not made by cash, an increase in the Transferor Interest.

The Transferor Interest is also decreased or increased by other adjustments thereto as referred to in "*Allocation and Application of Collections*" above.

The Investor Interest in respect of each Series and the beneficial interest in the Receivables Trust of each Additional Beneficiary is or will be increased or decreased in the manner specified in the related Supplement. In relation to Series 2020-1, see further "*Series 2020-1*".

"**Investor Cash Available for Investment**" shall mean, with respect to each Investor Beneficiary on any date of determination, the amount of the undivided share of Cash Available for Investment calculated as referable to such Investor Beneficiary (being all Cash Available for Investment which represents Principal Collections allocated to such Investor Beneficiary), as determined on such date in accordance with the terms of the Receivables Trust Deed and Servicing Agreement.

#### **Application of Monies in the Receivables Trustee Consideration Ledger – Deferred Consideration payable by the Receivables Trustee to the Transferor**

Under the terms of the Receivables Securitisation Deed, the Receivables Trustee has an obligation to make payments of Deferred Consideration to the Transferor in respect of any assignments of Eligible Receivables. These payments will be funded by amounts accumulating in the Receivables Trustee Consideration Ledger. See Further "*The Receivables - Assignment of Receivables to Receivables Trustee*" and, in respect of Series 2020-1, see also "*Series 2020-1 – Available Funds*".

#### **Non-Petition Undertaking of Beneficiaries**

It is a condition of the Receivables Trust (to which each Beneficiary must consent upon its execution of a Supplement) that each Beneficiary of the Receivables Trust (including the Transferor Beneficiary), the Transferor, the Servicer and (if appointed) any Successor Servicer undertakes or will undertake to the Receivables Trustee for itself and as trustee for each Beneficiary that such party will not take any steps for the purposes of recovering any of the amounts owing to it by the Receivables Trustee or enforcing any

rights arising under or in connection with any of the Transaction Documents against the Receivables Trustee or other steps or legal proceedings seeking the winding up, administration, bankruptcy or liquidation of the Receivables Trustee or any successor trustee of the Receivables Trust or of any or all of the revenues and assets of any of them. This does not prevent any party from proving in any winding-up or other bankruptcy proceedings of the Receivables Trustee started by another person.

### Limited Recourse

If the resources available to the Receivables Trustee at any time are insufficient to pay any liability in full, after payment of all other liabilities ranking in priority to it in accordance with the provisions of the Receivables Trust Deed and Servicing Agreement and any Supplement, any transaction party to which that liability is owed shall have no further claim against the Receivables Trustee at that time in respect of that unpaid amount and shall not then exercise any remedies against the Receivables Trustee in respect of that unpaid amount and the Receivables Trustee shall not have any further obligation with respect to that unpaid amount until and to the extent that it has sufficient resources to pay it.

### Trust Pay Out Events

If any one of the following events (each a "**Trust Pay Out Event**") occurs:

- (a) the Originator or the Transferor consents to the appointment of, or takes any corporate action to appoint, a receiver, administrator, administrative receiver, liquidator, trustee in bankruptcy or similar officer of it or over all or substantially all of its revenues and assets;
- (b) proceedings are started against the Originator or the Transferor under any applicable liquidation, insolvency, composition or re-organisation or similar laws for its winding up, dissolution, administration or reorganisation (other than a solvent re-organisation) and the proceedings are not frivolous or vexatious or discharged within 60 days, or a receiver, administrator, administrative receiver, liquidator, trustee in bankruptcy or similar officer of it or relating to all or substantially all of its revenues and assets is legally and validly appointed and is not discharged within 30 days;
- (c) a duly authorised officer of either the Originator or the Transferor admits in writing that the Originator or the Transferor is unable to pay its debts when they fall due within the meaning of Section 123(1) of the Insolvency Act 1986 or either the Originator or the Transferor makes a general assignment or trust for the benefit of or a composition with its creditors or voluntarily suspends payment of its obligations;
- (d) the Transferor becomes unable to transfer Receivables on the Designated Accounts to the Receivables Trustee in the manner described in the Receivables Securitisation Deed;
- (e) either the Originator or the Transferor stops being either resident in the United Kingdom for United Kingdom tax purposes or liable for United Kingdom corporation tax; or
- (f) either:
  - (i) a change in law or its interpretation or administration results in the Receivables Trustee becoming liable to make any payment on account of tax (other than in respect of the Trustee Fee) which is more than trivial; or
  - (ii) any tax authority asserts a tax liability or takes other actions against the Originator or Transferor in relation to the transaction which would have an adverse effect on them which is more than trivial, if the Originator or Transferor obtains an opinion of counsel stating that the tax liability would be due. This event will be treated as occurring when the Originator or Transferor gives written notice of it to the Receivables Trustee,

then a Series Pay Out Event will occur in respect of each Series and each Beneficiary within such Series and the Transferor Beneficiary without any notice or other action on the part of the Receivables Trustee or any Beneficiary immediately upon the occurrence of such event. A Trust Pay Out Event under paragraphs (a), (b) or (c) is a "**Pay Out Insolvency Event**" in respect of the Originator or the Transferor.

The Series Pay Out Events applicable to Series 2020-1 include the Trust Pay Out Events and those events referred to in "*Series 2020-1 – Pay Out Events*". In respect of Series 2020-1, "**Pay Out Event**" means a

Trust Pay Out Event or a Series 2020-1 Pay Out Event. The occurrence of a Pay Out Event in respect of Series 2020-1 will cause the Series 2020-1 Investor Interest to enter the Rapid Amortisation Period.

The Transferor must give immediate notice to the Receivables Trustee of a Pay Out Insolvency Event. Where a Pay Out Insolvency Event occurs, the Receivables Trustee shall not be permitted to receive further assignments of Receivables, save that Finance Charge Receivables accruing in respect of Receivables which have been assigned to the Receivables Trustee shall form part of the Trust Property and Collections, whenever received, relating thereto shall continue to be allocated and applied in accordance with the Receivables Trust Deed and Servicing Agreement and each related Supplement.

#### **Termination of the Receivables Trust**

Subject to obtaining the written consent of each existing Beneficiary of the Receivables Trust, on any day on which (i) the Aggregate Investor Interest in respect of each Investor Beneficiary is reduced to zero, (ii) there are no Finance Charge Collections or other Trust Property allocated to any Beneficiaries other than the Transferor Beneficiary and (iii) no Beneficiary is committed to make contributions to meet payments in respect of the assignment of Receivables to or for the Receivables Trustee, then the Transferor Beneficiary may, by written notice, direct the Receivables Trustee to dissolve the Receivables Trust. On dissolution of the Receivables Trust, the Receivables Trustee shall distribute the Trust Property to the Transferor Beneficiary or any other Beneficiary according to their respective beneficial entitlements at that time. Following such conveyance of the Trust Property to each Beneficiary, the Receivables Trust shall be dissolved.

The perpetuity period of the Receivables Trust shall be a period of 125 years from the date of execution of the Receivables Trust Deed and Servicing Agreement. Any property which remains on trust for the benefit of Beneficiaries at the end of the perpetuity period will vest in the then Beneficiaries in accordance with their respective beneficial entitlements to Trust Property at that date.

#### **Beneficiaries Deed**

Notwithstanding that the Receivables Trust Deed and Servicing Agreement contains references to the Beneficiaries giving their consent, vote, direction or agreement in relation to certain actions or provisions relating to the Receivables Trust, the Beneficiaries have contractually agreed between themselves, pursuant to the Beneficiaries Deed, that any such consent, vote, direction or agreement may only be given in accordance with the Beneficiaries Deed. The effect of the Beneficiaries Deed is that, where the terms of the Receivables Trust Deed and Servicing Agreement are such that the giving of a consent, vote, direction or agreement by some or all of the Beneficiaries is required, the Beneficiaries have agreed amongst themselves pursuant to the Beneficiaries Deed that either:

- (i) the Investor Beneficiaries will act in accordance with a written request from the Transferor Beneficiary (including, subject to certain conditions, in respect of requests relating to the amendment or modification of the Receivables Trust Deed and Servicing Agreement including any supplements or addendums thereto); or
- (ii) a specific criterion, test or standard, for example that the relevant action would not adversely affect the beneficial entitlement of any Investor Beneficiary in respect of a Series with outstanding Related Debt, will have to be met before the Investor Beneficiaries may be required to give such consent, vote, direction or agreement.

The Receivables Trustee is not a party to the Beneficiaries Deed and is not bound by its provisions.

#### **Amendments to the Receivables Trust Deed and Servicing Agreement**

The Receivables Trust Deed and Servicing Agreement and any Supplement may (i) be amended in writing from time to time by the Servicer, the Transferor Beneficiary and the Receivables Trustee, only with the prior written consent of each person who is a Beneficiary at the time of such amendment and/or (ii) be amended in writing from time to time by (insofar as any amendment relates only to the provisions of the Receivables Trust and not to the rights, obligations, protections or interests of the Servicer) the Receivables Trustee at the direction of the Transferor Beneficiary and with the prior written consent of each person who is a Beneficiary at the time of such amendment:

- (i) to provide for additional Enhancement or substitute Enhancement with respect to a Series (so long as the amount of such substitute Enhancement, unless otherwise provided in any related Supplement, is equal or greater to the original Enhancement for such Series);
- (ii) to change the definition of Eligible Account or Eligible Receivable or to provide for the addition to the Receivables Trust of a Participation; **provided that** any change to the definition of Eligible Account or Eligible Receivable shall have no effect in relation to any Receivables which have been acquired by the Receivables Trustee before such change takes effect and **provided that** the Servicer certifies in an officer's certificate that, in its opinion, formed on the basis of due consideration, such change or addition would not have a Material Adverse Effect on the interest of any Investor Beneficiary and a Rating Confirmation is provided; or
- (iii) for any purpose other than those specified in paragraphs (i) and (ii) above, **provided, however**, in each case, that (A) a Rating Confirmation is provided and (B) such amendment will not result in a material change in the permitted activities of the Receivables Trustee.

The Receivables Trust Deed and Servicing Agreement and any Supplement may also be amended in writing from time to time by the Servicer, the Transferor Beneficiary and the Receivables Trustee with the prior written consent of all of the Beneficiaries for the purpose of adding any provisions to or changing in any manner or eliminating any of the provisions of the Receivables Trust Deed and Servicing Agreement or any Supplement or modifying in any manner the rights of any Investor Beneficiary of any Outstanding Series.

As a result of the provisions of the Beneficiaries Deed, if the Transferor Beneficiary requests an amendment to the Receivables Trust Deed and Servicing Agreement or any Supplement or addendum thereto, then, subject to a number of conditions set out in the Receivables Trust Deed and Servicing Agreement, the Investor Beneficiaries must consent to such amendment.

"**Associated Debt**" shall mean any notes (including the Notes) issued by a Loan Note Holder to fund its subscription for a Loan Note, as more particularly specified in the relevant Supplement.

"**Participations**" shall mean participations representing undivided interests in a pool of assets primarily consisting of receivables arising under credit card, store card, charge card or instalment credit accounts beneficially owned by the Transferor and collections thereon. The addition of Participations as Trust Property shall be effected by an amendment to the Receivables Trust Deed and Servicing Agreement.

"**Related Debt**" shall mean, with respect to an Investor Interest in any Series, any Loan Note issued by the Investor Beneficiary holding such Investor Interest, or other debt described as such in the related Supplement in respect of such Series (if any), in each case as further specified in the related Supplement for such Series.

"**Relevant Documents**" shall mean:

- (a) the Receivables Trust Deed and Servicing Agreement;
- (b) the Receivables Securitisation Deed;
- (c) the master framework agreement dated 18 December 2014 (as supplemented, amended and/or restated from time to time) between, *inter alios*, the Receivables Trustee, NewDay Partnership Transferor Plc, NewDay Cards Ltd, the Loan Note Issuer and the Security Trustee (the "**Master Framework Agreement**");
- (d) each Offer;
- (e) each Supplement and each other document executed in connection with a Contribution (including any documents executed in connection with Related Debt);
- (f) any mandate and other agreement relating to a Trust Account or a bank account in respect of which the Receivables Trustee has a beneficial interest;
- (g) the Beneficiaries Deed;

- (h) the Back-Up Cash Management Agreement; and
- (i) any other document, other than a Credit Agreement or other arrangement with an Obligor or guarantor of any Obligor, contemplated by and executed in connection with any of the preceding documents.

#### **Aggregate Trustee Payment Amount**

As full compensation for any fees, costs and expenses incurred by the Receivables Trustee in connection with its duties and activities as Receivables Trustee (including amounts in respect of stamp duty, if applicable, but excluding amounts in respect of the Servicing Fee and any tax on profits), the Receivables Trustee is entitled to be reimbursed by the Beneficiaries for such amounts as provided in the Receivables Trust Deed and Servicing Agreement and any Supplement with respect to each Collection Period on the related Transfer Date (each such payment on the related Transfer Date being the "**Trustee Payment Amount**"). The aggregate reimbursement of such fees, costs and expenses payable on a Transfer Date together with any Trustee Fee payable on such date (as described below) is described as the "**Aggregate Trustee Payment Amount**".

In consideration of the undertaking and performance by the Receivables Trustee of its fiduciary duties under the Receivables Trust Deed and Servicing Agreement and any Supplement thereto, the Beneficiaries shall pay to the Receivables Trustee a Trustee Fee. "**Trustee Fee**" means a per annum fee calculated in accordance with each Supplement. The actual fee payable in respect of Series 2020-1 is payable in 12 equal instalments on each Transfer Date commencing with the first Transfer Date after the Series 2020-1 Closing Date and shall be included in the Aggregate Trustee Payment Amount on each Transfer Date. See "*Series 2020-1 – Investor Aggregate Trustee Payment Amount*".

The share of the Aggregate Trustee Payment Amount allocable to and borne by the Loan Note Issuer (as an Investor Beneficiary) in respect of Series 2020-1 is described in "*Series 2020-1 – Investor Aggregate Trustee Payment Amount*".

#### **Transferor Advances**

The Transferor has entered into the RTDSA Transferor Advance Addendum on or about 5 October 2020 in order to enable the Transferor to provide support for the Securitised Portfolio in the future.

Pursuant to the RTDSA Transferor Advance Addendum, the Transferor may agree to provide cash advances in the form of the Pre-Funded Transferor Advance Amount (as defined below) which may subsequently be used to provide Transferor Advance Amounts (as defined below) in relation to specified Collection Periods. Each Transferor Advance Amount shall be treated, for the purposes of calculations under the Receivables Trust Deed and Servicing Agreement, as additional Finance Charge Collections for the relevant Collection Period.

The Transferor will be under no obligation to provide Pre-Funded Transferor Advance Amounts and may stop the provision of Pre-Funded Transferor Advance Amounts at any time.

#### *Pre-Funded Transferor Advance Amount*

The Transferor may transfer (or procure that a member of the Transferor's group transfers) specified sums to a sub-ledger established by the Transferor in the Transferor Collection Account for this purpose (the "**Transferor Advance Sub-Ledger**"), such that there is a pre-funded balance standing to the credit of the Transferor Advance Sub-Ledger (the "**Pre-Funded Transferor Advance Amount**"). The Pre-Funded Transferor Advance Amount may only be used to make Transferor Advance Amounts.

Transfers to the Transferor Advance Sub-Ledger shall be made from monies to which the Transferor (or a member of the Transferor's group) is beneficially entitled. The Pre-Funded Transferor Advance Amount is to be held on trust, pending application in accordance with the RTDSA Transferor Advance Addendum, for the Receivables Trustee.

*Transferor Advance Amounts*

On or about each Transfer Date falling after the date of the RTDSA Transferor Advance Addendum, the Transferor shall transfer, from the Transferor Advance Sub-Ledger to the Finance Charge Collections Ledger of the Receivables Trustee Collection Account, an amount equal to the greater of:

- (a) an amount (if any) determined by the Transferor up to the entire outstanding Pre-Funded Transferor Advance Amount; and
- (b) the lesser of (i) the entire outstanding Pre-Funded Transferor Advance Amount and (ii) such amount (if any) as is required to ensure that, in respect of each Series, Portfolio Yield minus the Expense Rate (each in respect of the prior Collection Period) is at least zero,

(each, a "**Transferor Advance Amount**").

The Transferor shall notify the Receivables Trustee and the Investor Beneficiary of (i) the Transferor Advance Amount and (ii) the remaining Pre-Funded Transferor Advance Amount, in each case, in the relevant investor report provided pursuant to the provisions of the Receivables Trust Deed and Servicing Agreement and each Supplement.

## SERVICING OF RECEIVABLES

### General

NewDay Cards Ltd has been appointed by the Receivables Trustee as initial Servicer under the terms of the Receivables Trust Deed and Servicing Agreement. NewDay Cards Ltd has appointed Santander UK to perform certain cash management and settlement services in respect of the Securitised Portfolio and has appointed Fiserv to perform certain technical and operational services in respect of the Securitised Portfolio. The Servicer may also, in the ordinary course of business, delegate any or all of its duties as Servicer under the Receivables Trust Deed and Servicing Agreement to any other person who agrees to conduct such duties where applicable in accordance with the Credit Guidelines, **provided that**, if such delegation is to a party other than the Originator or any affiliate thereof, the Servicer shall notify each Rating Agency of such delegation. Regardless of any such delegation, NewDay Cards Ltd will remain fully liable for all obligations of the Servicer under the Receivables Trust Deed and Servicing Agreement.

To aid the administration and settlement of certain cash payments relating to the Securitised Portfolio, the Servicer, the Receivables Trustee, the Loan Note Issuer and the Transferor have entered into the Master Cash Settlement Agreement, the terms of which allow certain payments to and from the Transferor to be set off against each other and permit the Transferor to retain Collections which would otherwise be paid back to it by the Receivables Trustee (either as payments due to it or as refundable advance principal payments).

The Servicer (which term, for the purposes of the description of its servicing functions and obligations in this Prospectus and unless the context requires otherwise, includes any delegate appointed by it in relation to such servicing functions and obligations) services and administers the Receivables and collects payments due in respect of the Receivables in accordance with its customary and usual servicing procedures for servicing receivables comparable to the Receivables and in accordance with the Credit Guidelines.

Without limiting the generality of the foregoing, the Servicer's duties include:

- advising the Receivables Trustee to direct the Transferor in making withdrawals from the Transferor Collection Account, as described in this Prospectus;
- advising the Receivables Trustee to make withdrawals and payments from the Trust Accounts, as described in this Prospectus, and providing other advice as described in this Prospectus;
- executing and delivering instruments of satisfaction or cancellation, or of partial or full release or discharge, with respect to the Receivables and commencing enforcement proceedings with respect to delinquent Receivables; and
- making any filings, reports, notices, applications, registrations with, and seeking consents or authorisations from, any relevant securities or other authority as may be necessary or advisable to comply with any securities or reporting requirements (whether in relation to the Beneficiaries or the Receivables Trust).

NewDay Cards Ltd as Servicer will indemnify the Receivables Trustee, its agents and the Receivables Trust from and against all reasonable loss, liability, expense, damage or injury suffered or sustained by reason of any fraud, wilful misconduct or grossly negligent acts or omissions of the Servicer with respect to the activities of the Receivables Trustee or the Receivables Trust. However, the Servicer will not:

- indemnify the Receivables Trust, the Receivables Trustee and its agents or any Investor Beneficiary if such acts or omissions or alleged acts or omissions constitute or are caused by fraud, wilful misconduct, bad faith or negligence by the Receivables Trustee or its agents;
- indemnify the Receivables Trust, the Receivables Trustee and its agents or any Investor Beneficiary for any liabilities, costs or expenses of the Receivables Trust incurred with respect to any action taken by the Receivables Trustee at the request of any Investor Beneficiary (including in respect of any issuance of Related Debt and/or Associated Debt), otherwise than as a consequence of fraud, wilful misconduct, bad faith or gross negligence of the Servicer in the performance of its duties under the Receivables Trust Deed and Servicing Agreement;

- indemnify the Receivables Trust, the Receivables Trustee and its agents or any Investor Beneficiary for any losses, claims or damages incurred by any of them in respect of the Receivables Trust including, without limitation, losses incurred as a result of Receivables in Defaulted Accounts; or
- indemnify the Receivables Trust, the Receivables Trustee and its agents or any Investor Beneficiary for any liabilities, costs or expenses of any of them arising under any tax law (or any interest or penalties with respect thereto or arising from a failure to comply therewith).

Any such indemnification shall be payable by the Servicer itself and not be payable from the Trust Property of the Receivables Trust.

Other than as described above, the Servicer will not be under any liability to the Receivables Trust, the Receivables Trustee and its agents, any Beneficiary, or any other person under the Receivables Trust Deed and Servicing Agreement or any Supplement, except in the case of fraud, wilful default, bad faith or gross negligence of the Servicer in the performance of its duties or reckless disregard of its obligations and duties under the Receivables Trust Deed and Servicing Agreement or under any Supplement.

In the event that the Servicer is unable to carry out its obligations under the Receivables Trust Deed and Servicing Agreement due to the practical circumstances beyond its control specified in the Receivables Trust Deed and Servicing Agreement (e.g. electricity power cuts, computer failure, earthquakes, riots and war), it will incur no liability under the Receivables Trust Deed and Servicing Agreement in respect of any such failure to carry out its obligations unless the event arose as a result of the fraud, wilful default or gross negligence of the Servicer or its failure to take certain specified precautions. However, the Servicer shall take all reasonable steps available to it to procure that such events cease to exist and take all practical steps to minimise any loss resulting from any such event.

Any person into which, in accordance with the Receivables Trust Deed and Servicing Agreement, the Servicer may be merged or consolidated or any person resulting from any merger or consolidation to which the Servicer is a party, or any person succeeding to the business of the Servicer, upon execution of a supplemental agreement to the Receivables Trust Deed and Servicing Agreement and delivery of a legal opinion with respect to the compliance of the succession with the applicable provisions of the Receivables Trust Deed and Servicing Agreement, will be the successor to the Servicer under the Receivables Trust Deed and Servicing Agreement.

The Servicer will not resign from its obligations and duties as Servicer under the Receivables Trust Deed and Servicing Agreement, except upon determination that performance of its duties is no longer permissible under applicable law and there is no reasonable action which the Servicer could take to make the performance of its duties permissible by law. No such resignation will become effective until a Successor Servicer (see "*Termination of Appointment of Servicer*" below) has assumed the Servicer's responsibilities and obligations under the Receivables Trust Deed and Servicing Agreement.

### **Servicing Compensation**

As full compensation for its servicing duties and activities and as reimbursement for any expense incurred by it in connection therewith, NewDay Cards Ltd as Servicer is entitled to receive a fee (the "**Servicing Fee**") from the Receivables Trustee (solely to the extent to which it is reimbursed or entitled to be reimbursed therefor by the Beneficiaries for that purpose as provided in the Receivables Trust Deed and Servicing Agreement and any Supplement thereto) with respect to each Collection Period. The Servicing Fee (which is inclusive of value added tax thereon, if any) is payable monthly on the Transfer Date relating to each Collection Period and will be the sum of:

- one twelfth of the product of (x) 6.0 per cent. (the "**Servicing Fee Percentage**"); and (y) the average of the daily aggregate outstanding amount of Receivables during the relevant Collection Period; and
- any amount agreed, on an arm's length basis, from time to time between a successor Servicer and the Receivables Trustee,

less, for so long as NewDay Cards Ltd is the Servicer, any net receipts of insurance commission income received by the Servicer in respect of Designated Accounts during such Collection Period.

An amount equal to the portion of the Servicing Fee payable by the Receivables Trustee to the Servicer in respect of which the Receivables Trustee is to be reimbursed from payments made by the Investor Beneficiaries in respect of a particular Series (with respect to each Collection Period) is called the "**Investor Servicing Fee Amount**" and will be determined in accordance with each relevant Supplement. See also "*Limits on Liability for Servicing Fees*" below. The Investor Beneficiaries will pay the Investor Servicing Fee Amount to the Receivables Trustee, in respect of each Series, by way of Additional Funds in consideration for the grant of the relevant Investor Interest. If provided in the relevant Supplement, all or part of the Investor Servicing Fee Amount may be met from amounts of Acquired Interchange allocated to an Investor Beneficiary.

Pursuant to the RTDSA Servicing Fee Addendum, each Investor Beneficiary has the option (which it will exercise at the direction of the Transferor Beneficiary) of waiving a portion of its entitlement to its Investor Servicing Fee Amount, in relation to specified Collection Periods (the "**Investor Beneficiary Waivers**") and the Servicer has the option of waiving a portion of the Servicing Fee (the "**Servicer Fee Waiver**"), in each case thereby reducing the Expense Rate, in respect of the relevant Collection Period, for each Series.

An amount equal to the portion of the Servicing Fee (with respect to any Collection Period) in respect of which the Receivables Trustee is not reimbursed from payments made by the Investor Beneficiaries in respect of each Outstanding Series is called the "**Transferor Servicing Fee Amount**". The Transferor Servicing Fee Amount shall be paid to the Receivables Trustee by the Transferor Beneficiary using amounts from the Transferor Finance Charge Amount and the Transferor Acquired Interchange Amount or other Trust Property allocable to the Transferor Beneficiary (or from any other property of the Transferor Beneficiary which may be available for such purpose) on the related Transfer Date. In no event shall any Investor Beneficiary or any Enhancement Provider be liable to reimburse the Receivables Trustee for the share of the Servicing Fee (with respect to any Collection Period) in respect of which the Receivables Trustee was to be reimbursed from payments to be made by the Transferor Beneficiary. The Receivables Trustee is only liable to pay the Servicing Fee to the extent to which it is reimbursed by the Beneficiaries thereafter. The Beneficiaries may utilise Trust Property as provided in the Receivables Trust Deed and Servicing Agreement and Supplement for the purposes of making such reimbursement.

#### **Series 2020-1 Investor Servicing Fee**

The Investor Servicing Fee Amount to be met by the Series 2020-1 Investor Beneficiary with respect to any Transfer Date (the "**Series 2020-1 Investor Servicing Fee Amount**") is specified in the Series 2020-1 Supplement and will be equal to the product of (A) the Floating Investor Percentage as of the first day of the Collection Period preceding such Transfer Date and (B) the Servicing Fee payable on such Transfer Date. The amount of the Series 2020-1 Investor Servicing Fee Amount is inclusive of value added tax thereon, if any. A portion of the Investor Acquired Interchange Amount referable to Series 2020-1 on a Transfer Date equal to the product of (A) the Servicer Interchange Percentage, and (B) the Servicing Fee payable on such Transfer Date (the "**Servicer Interchange Amount**") shall be applied as Additional Funds and used to meet a portion of the Investor Servicing Fee Amount and, to the extent such funds available are less than the Servicer Interchange Amount, the Investor Servicing Fee Amount shall be reduced by the shortfall. For further detail on the Series 2020-1 Investor Interest, see "*Series 2020-1*". See also "*Limits on Liability for Servicing Fees*" below.

"**Servicer Interchange Percentage**" shall mean (a) with respect to any Transfer Date where NewDay Cards Ltd is the Servicer, 13 per cent. or (b) such other percentage as may otherwise be agreed between NewDay Cards Ltd and the Receivables Trustee and, with respect to any Transfer Date where NewDay Cards Ltd is not the Servicer, such percentage (if any) as may be agreed between the Receivables Trustee and the then Servicer.

#### **Limits on Liability for Servicing Fees**

Except as specifically described above, to the extent that the amounts payable by the Receivables Trustee to the Servicer in respect of Servicing Fees exceed amounts which are reimbursable as provided above, the Receivables Trustee shall be liable to pay such further Servicing Fees only if and to the extent that it is entitled to be reimbursed therefor by the Transferor Beneficiary and Investor Beneficiaries of other Outstanding Series using cash flows from the Receivables Trust allocated to the Transferor Beneficiary and such other Outstanding Series (as provided in the related Supplements). In no event shall either the Series 2020-1 Investor Beneficiary, the Receivables Trust or the Receivables Trustee be liable for any Servicing Fees in amounts exceeding those described above.

### **Servicing Fee Addendum to the RTDSA**

The Transferor has entered into an addendum to the Receivables Trust Deed and Servicing Agreement dated on or about 5 October 2020, between, *inter alios*, the Receivables Trustee, the Transferor, the Transferor Beneficiary and the Loan Note Issuer (as supplemented, amended and/or restated from time to time, the "**RTDSA Servicing Fee Addendum**").

The RTDSA Servicing Fee Addendum enables certain waivers to occur, so as to reduce or change the portion payable by the Beneficiaries in respect of the expenses of the Receivables Trust.

#### *Servicer Fee Waiver*

The RTDSA Servicing Fee Addendum gives the Servicer the option to waive its entitlement to receive the Servicing Fee from the Receivables Trustee, **provided that** no such waiver shall result in the effective level of the Servicing Fee Percentage being lower than 2.0 per cent.

#### *Adjusting the portion of the funding of the Servicing Fee between the Investor Beneficiaries and the Transferor Beneficiary*

The RTDSA Servicing Fee Addendum allows the Transferor Beneficiary to make certain directions, the effect of which would be to reduce the portion of the Servicing Fee funded by the Investor Beneficiaries and to increase the portion of the Servicing Fee funded by the Transferor Beneficiary.

Pursuant to the RTDSA Servicing Fee Addendum, for such time as NewDay Cards Ltd is the Servicer, each Investor Beneficiary has the option (which it will exercise at the direction of the Transferor Beneficiary) to waive its entitlement to the Investor Servicing Fee Amount (the "**Investor Beneficiary Waivers**") by calculating the Investor Servicing Fee Amount as if the Servicing Fee Percentage were lower than the Servicing Fee Percentage in effect at that time (**provided that** the Servicing Fee Percentage used in such calculation is no lower than 2.0 per cent.) in relation to specified Collection Periods (the "**Adjusted Investor Servicing Fee Amount**"). As a result of any Investor Beneficiary Waivers, because the Adjusted Investor Servicing Fee Amount will be lower than the original Investor Servicing Fee Amount (and as the Transferor Servicing Fee Amount is equal to the portion of the Servicing Fee in respect of which the Receivables Trustee is not reimbursed from payments made by the Investor Beneficiaries), the Transferor Servicing Fee Amount will increase by the aggregate of the amounts, in respect of each Series, of the absolute difference between the original Investor Servicing Fee Amount and the Adjusted Investor Servicing Fee Amount. The RTDSA Servicing Fee Addendum includes a mechanism to ensure that, so long as the Transferor receives sufficient Deferred Consideration to cover the increase in the Transferor Servicing Fee Amount, the aggregate amount of the Servicing Fee funded by the Beneficiaries for the relevant Collection Period and payable by the Receivables Trustee to the Servicer will remain the same. The payment of any shortfalls of the Transferor Servicing Fee Amount in respect of a Collection Period shall (unless waived by the Receivables Trustee) be made from Deferred Consideration payable in respect of later Collection Periods.

Any Servicer Fee Waiver or Investor Beneficiary Waivers will, for each Series, reduce the Expense Rate (as defined in each Supplement) in respect of the relevant Collection Period.

The RTDSA Servicing Fee Addendum shall, if not terminated earlier at the option of the Servicer, terminate upon the removal of NewDay Cards Ltd as Servicer.

### **Termination of Appointment of Servicer**

The appointment of NCL as Servicer under the Receivables Trust Deed and Servicing Agreement, and the appointment of any person as servicer of the Receivables in succession to NCL (a "**Successor Servicer**"), may only be terminated upon the occurrence of a Servicer Default (as defined below). Where a Servicer Default has occurred and is continuing, the Receivables Trustee may terminate all of the rights and obligations of the Servicer as Servicer under the Receivables Trust Deed and Servicing Agreement by serving a notice in writing to that effect (a "**Servicer Termination Notice**") on the Servicer. If the Receivables Trustee at any time becomes entitled to give a Servicer Termination Notice, it shall give such a notice if requested to do so by a majority of the Investor Beneficiaries (and shall not give the Servicer Termination Notice without the prior agreement of a majority of the Investor Beneficiaries). Pursuant to the Beneficiaries Deed, the Beneficiaries have agreed to request the service of such a notice in the circumstances described in this section below.

The Successor Servicer shall have no liability in respect of:

- any breach by any previous Servicer of the Receivables Trust Deed and Servicing Agreement or any other Relevant Document;
- any failure to comply with the terms of the Receivables Trust Deed and Servicing Agreement (having used its reasonable endeavours to comply) insofar as the same results from any breach referred to above or any necessary information, documents, deeds, computer tapes or other data not being made freely available to it in good order in good time for it to assume its obligations as Successor Servicer; or
- anything which the Receivables Trust Deed and Servicing Agreement anticipates will be done that cannot be done as a result of non-co-operation by the Receivables Trustee, **provided that** the Successor Servicer has notified the Transferor of such non co-operation.

The Successor Servicer may require a period of up to three months (the "**Transfer Period**") to put itself in a position to perform all the services required to be performed by it under the terms of the Receivables Trust Deed and Servicing Agreement (including the obtaining of all necessary licences, registrations and consents) and, whilst it will take every step reasonably open to it to minimise any delay, it shall not be liable for failure to perform fully in the manner contemplated by the Receivables Trust Deed and Servicing Agreement during the Transfer Period.

If the Servicer's appointment has been terminated as a result of a Servicer Default in circumstances where a Delegate Servicer has been appointed, the Transferor or the Receivables Trustee (as the case may be) may require the Delegate Servicer to continue performing its duties until a Successor Servicer has been appointed and the Receivables Trustee may utilise amounts that would otherwise be available to pay the Servicing Fee to pay the fees of the Delegate Servicer.

"**Delegate Servicer**" means any person who has agreed to perform any of the duties of the Servicer under the Receivables Trust Deed and Servicing Agreement following the delegation by the Servicer under the terms of the Receivables Trust Deed and Servicing Agreement.

"**Servicer Default**" means any one of the following events:

- (a) any failure by the Servicer to give advice or notice to the Receivables Trustee pursuant to an agreed schedule of collections and allocations or to advise the Receivables Trustee to make any required drawing, withdrawal, or payment pursuant to the Relevant Documents including under the documents governing any Enhancement on or before the date occurring five Business Days after the date such drawing, withdrawal or payment or such advice or notice is required to be made or given, as the case may be, under the terms of the Receivables Trust Deed and Servicing Agreement or any Relevant Document;
- (b) failure on the part of the Servicer duly to observe or perform in any respect any other covenants or agreements of the Servicer set forth in the Receivables Trust Deed and Servicing Agreement or any Relevant Document which has a Material Adverse Effect on the interests of the Investor Beneficiaries of any Outstanding Series and which continues unremedied for a period of 60 days after the date on which written notice of such failure, requiring the same to be remedied, shall have been given to the Servicer by the Receivables Trustee, or to the Servicer and the Receivables Trustee by a majority of the Beneficiaries, and continues to have a Material Adverse Effect on the interests of such Beneficiaries in respect of such Outstanding Series for such period;
- (c) any relevant representation, warranty or certification made by the Servicer in the Receivables Trust Deed and Servicing Agreement or in any certificate delivered pursuant thereto proves to have been incorrect when made, which has a Material Adverse Effect on the interests of the Beneficiaries in respect of any Outstanding Series and continues to be incorrect in any material respect for a period of 60 days after the date on which written notice of such failure, requiring the same to be remedied, shall have been given to the Servicer by the Receivables Trustee or to the Servicer and the Receivables Trustee by a majority of the Beneficiaries, and continues to have a Material Adverse Effect on the interests of such Beneficiaries in respect of any such Outstanding Series for such period;

- (d) an order of the court is made for the winding-up, dissolution, administration or reorganisation (except for a solvent re-organisation) of the Servicer and such order shall have remained in force undischarged or unstayed for a period of 60 days;
- (e) a receiver, administrator, administrative receiver, liquidator, trustee or similar officer is legally and validly appointed over the Servicer or relating to all of the Servicer's revenues and assets;
- (f) the Servicer shall consent to or take any corporate action relating to the appointment of a receiver, administrator, administrative receiver, liquidator, trustee or similar officer of it or relating to all or substantially all of its revenues and assets or an order of the court is made for its winding-up, dissolution, administration or re-organisation (except for a solvent re-organisation) and such order shall have remained in force undischarged or unstayed for a period of 60 days;
- (g) a duly authorised officer of the Servicer shall admit in writing that the Servicer is unable to pay its debts as they fall due within the meaning of Section 123(1) of the Insolvency Act 1986 or the Servicer makes a general assignment for the benefit of or a composition with its creditors or voluntarily suspends payment of its obligations with a view to the general readjustment or rescheduling of its indebtedness; or
- (h) delegation by the Servicer of its duties under the Receivables Trust Deed and Servicing Agreement except as permitted therein which has a Material Adverse Effect on the interests of the Beneficiary in respect of any Outstanding Series.

However, a delay or failure to perform (i) the matters referred to in (a) above for a period of 5 Business Days or (ii) the matters referred to in (b) or (c) above for a period of 60 days, will not be a Servicer Default if such delay or failure is caused by an event amounting to force majeure (as listed in the Receivables Trust Deed and Servicing Agreement) and that delay or failure could not have been prevented by the exercise of reasonable diligence by the Servicer.

Within two Business Days after the Servicer becomes aware of any Servicer Default, the Servicer must give prompt written notice thereof to the Receivables Trustee, each Beneficiary, each Rating Agency and any Enhancement Provider. The Receivables Trustee must give each Beneficiary notification of any termination of the Servicer or appointment of a Successor Servicer. The Receivables Trustee must notify each Rating Agency of any removal of the Servicer.

Under the terms of the Receivables Trust Deed and Servicing Agreement and the Beneficiaries Deed, the Beneficiaries in respect of any Outstanding Series adversely affected by any default by the Servicer or Transferor may, with the prior written consent of a majority of the Beneficiaries (it is agreed as a matter of contract that consent will be achieved in accordance with the Beneficiaries Deed, as to which see "*The Receivables Trust – Amendments to the Receivables Trust Deed and Servicing Agreement – Beneficiaries Deed*" above and the following paragraph), instruct the Receivables Trustee to waive in writing any default by the Servicer or Transferor in the performance of its obligations thereunder or in any other Relevant Document and its consequences. However, a default which results directly in a failure by the Receivables Trustee to make any required deposits or distributions of Finance Charge Collections or Principal Collections relating to the Series adversely affected will not be permitted to be waived in this manner. Upon any such waiver of a past default, such default shall be deemed not to have occurred. No such waiver shall extend to any subsequent or other default or impair any right consequent thereon except to the extent expressly so waived.

After receipt of a Servicer Termination Notice and the appointment of a Successor Servicer (as referred to below), the function of acting as Servicer of the Receivables under the Receivables Trust Deed and Servicing Agreement will pass from the Servicer to the Successor Servicer. The Receivables Trust Deed and Servicing Agreement sets out certain requirements in respect of such transfer of the servicing role including (without limitation) as to the transfer of authority over Collections, the transfer of electronic records and as to the disclosure of information.

Following its receipt of a Servicer Termination Notice, the Servicer will continue to act as Servicer until a date specified in the Servicer Termination Notice, or, if no such date is specified, the date specified by the Receivables Trustee or such other date agreed by the Receivables Trustee and the Servicer. The Receivables Trustee must appoint a Successor Servicer as promptly as possible after the giving of a Servicer Termination Notice which must, at the time of its appointment, be an Eligible Servicer.

**"Eligible Servicer"** means an entity which, at the time of its appointment as Servicer, (a) is providing servicing in relation to a portfolio of credit card, store card, charge card, instalment credit or other similar consumer credit accounts, (b) is legally qualified and has the capacity to provide servicing in relation to the Accounts and (c) is qualified (or licensed) to use the software that the Servicer is then currently using to service the Accounts or obtains the right to use, or has its own, software which is adequate to perform its duties under the Receivables Trust Deed and Servicing Agreement.

**"Material Adverse Effect"** shall mean, as the context specifies, a material adverse effect on the interests of a transaction party, an Investor Beneficiary which has a beneficial interest in an Outstanding Series or in any Enhancement Provider, in each case as may be more particularly specified in any related Supplement.

## SERIES 2020-1

### General

The Loan Note Issuer is an Investor Beneficiary of the Receivables Trust. The Loan Note Issuer's beneficial entitlement under the terms of the Receivables Trust will be increased by making Contributions in respect of Series, as set out in Supplements, and will be decreased to the extent such Series are repaid. The parties to each Supplement will be the Receivables Trustee, NCL as the Servicer, NewDay Partnership Transferor Plc (herein referred to as "NPT") as the Transferor and the Transferor Beneficiary, the Loan Note Issuer as an Investor Beneficiary, any other Investor Beneficiary which becomes a beneficiary of the Receivables Trust and any Enhancement Provider in respect of the relevant Series.

The proceeds from the issue of the Series 2020-1 Loan Notes to the Issuer on the Series 2020-1 Closing Date will be used by the Loan Note Issuer on the Series 2020-1 Closing Date to increase its Aggregate Investor Interest in the Trust Property by making a Contribution of £331,450,000 to the Trust Property of the Receivables Trust. The increase in the beneficial entitlement of the Loan Note Issuer will be documented in a Supplement designated the "**Series 2020-1 Supplement**" and the additional portion of the sum of the Aggregate Investor Interests of all Investor Beneficiaries (the "**Combined Aggregate Investor Interest**") will be known as the "**Series 2020-1 Investor Interest**", with the associated Series being "**Series 2020-1**". See "*The Receivables - Assignment of the Receivables to the Receivables Trustee*" and "*The Receivables Trust – Contributions to Trust Property and Disposal of Beneficial Entitlement*".

The parties to the Series 2020-1 Supplement are the Receivables Trustee, NPT as Transferor and Transferor Beneficiary, NCL as Servicer and the Loan Note Issuer, in its capacity as Investor Beneficiary in respect of, *inter alia*, the Series 2020-1 Investor Interest (the "**Series 2020-1 Investor Beneficiary**").

Upon the Contribution to the Receivables Trust in respect of Series 2020-1 occurring, the Receivables Trustee will annotate the Trust Register to evidence such Contribution.

Series 2020-1 will be included in Group One and will not be subordinated to any other Series. The Originator VFN Series will provide credit enhancement to Series 2020-1 by reference to the Series Originator VFN Subordination, see "*The Originator VFN and the Series Originator VFN Subordination*" below.

There will be no issuance of Class A1 Notes, Class A2 Notes, Class E Notes and Class F Notes by the Issuer on the Series 2020-1 Closing Date, and the Class A3 Reset feature shall not be applicable, and any references to "Class A1 Notes", "Class A2 Notes", "Class E Notes" and "Class F Notes" (and the related class of Loan Notes and Investor Interests) and "Class A3 Reset" and any constructs, definitions and amounts related to "Class A1", "Class A2", "Class E", "Class F" and "Class A3 Reset" in this section should be disregarded. For the purpose of making calculations about the performance of the undivided beneficial interest of each series in the Receivables Trust, the Series 2020-1 Investor Interest will be referable to notional classes called "**Class A1**", "**Class A2**", "**Class A3**", "**Class B**", "**Class C**", "**Class D**", "**Class E**" and "**Class F**" which correspond to each class of Series 2020-1 Loan Notes issued by the Loan Note Issuer.

### Additional Funds Payable by the Series 2020-1 Investor Beneficiary

In addition to the Contribution described above, the Series 2020-1 Investor Beneficiary will be obliged each month to make a further contribution (as calculated by the Receivables Trustee on the advice of the Servicer in accordance with the Series 2020-1 Supplement). This further payment will be paid by the Series 2020-1 Investor Beneficiary to the Receivables Trustee by way of a further contribution in respect of its interest in the Receivables Trust and is described in this Prospectus as "**Additional Funds**".

Additional Funds are made up of a number of different elements, with the different possible categories identified each time a payment is made being as follows:

1. "Investor Aggregate Trustee Payment Amount";
2. "Investor Servicing Fee Amount";
3. "Loss Make-Up (Default)";
4. "Loss Make-Up (Charge-off)";
5. "Refunded Utilised Principal Collections" (a sub-category of Loss Make-Up (Charge-off));
6. "Excess Spread";
7. "Accumulation Reserve Surplus Amount", "Class A1 Accumulation Reserve Surplus Amount" and "Class A2 Accumulation Reserve Surplus Amount"; and
8. "Investment Proceeds" (to the extent not included in Excess Spread).

To the extent an Investor Charge-off resulting from Reallocated Principal Collections is reinstated by way of any Loss Make-Up (Charge-off), such Loss Make-Up (Charge-off) will be treated as Refunded Utilised Principal Collections.

Each constituent element of any payment of Additional Funds shall be paid, when due, by the Series 2020-1 Investor Beneficiary to the Receivables Trustee, in the following manner:

- (a) in respect of Loss Make-Up (Default) and Loss Make-Up (Charge-off), by depositing such amounts in the Receivables Trustee Investment Account;

Amounts of Loss Make-Up (Default) and Loss Make-Up (Charge-off) paid in accordance with paragraph (a) above shall be applied in the following manner:

- (a) *first*, subject to paragraph (b) below, such amount shall constitute Cash Available for Investment and be applied as set out in the section "*The Receivables Trust*" above;
- (b) *second*, to the extent that such amounts cannot be utilised as provided in paragraph (a) above because the Transferor Interest is zero, or the application of such amounts would cause the Transferor Interest together with the Originator VFN Excess Amount to fall below the Minimum Transferor Interest, amounts shall be allocated to the Originator VFN Excess Amount until such time as the Originator VFN Excess Amount is zero, or the application of such funds would cause the Transferor Interest together with the Originator VFN Excess Amount to fall below the Minimum Transferor Interest, and the amount so allocated shall be treated as a Principal Collection and paid to the Originator VFN Investor Beneficiary and used to make a repayment of principal under the Originator VFN Loan Note; and
- (c) *third*, to the extent of any remaining Additional Funds, such amount of Additional Funds designated as "Loss Make-Up (Default)" or "Loss Make-Up (Charge-off)" shall instead be credited to and retained in the Receivables Trustee Investment Account as Cash Available for Investment.

"**Investment Proceeds**" shall mean a constituent element of any payment of Additional Funds paid by the Series 2020-1 Investor Beneficiary to the Receivables Trustee in respect of amounts equal to any payment

**Calculation and Distribution of Finance Charge Collections and Acquired Interchange to the Loan Note Issuer**

On each day on which Finance Charge Collections or Acquired Interchange are transferred to the Receivables Trustee Collection Account during the Revolving Period, the Controlled Accumulation Period, the Class A1 Controlled Accumulation Period, the Class A2 Controlled Accumulation Period, the Class A3 Controlled Accumulation Period, any Class A1 Rapid Amortisation Period, any Class A2 Rapid Amortisation Period, any Class A3 Rapid Amortisation Period and, if applicable, the Rapid Amortisation Period, the Receivables Trustee will credit an amount to the Series 2020-1 Finance Charge Collections Ledger in the Receivables Trustee Collection Account. The amount to be credited will be determined by applying the Floating Investor Percentage (as described below) to such amounts of Finance Charge Collections or Acquired Interchange. The amount credited to the Series 2020-1 Finance Charge Collections Ledger will be transferred following the end of each Collection Period on the related Transfer Date to the Loan Note Issuer Distribution Account for credit to the Series 2020-1 Ledger. From that account amounts will be applied to meet the obligations of the Loan Note Issuer for the relevant Collection Period or will be paid back to the Receivables Trustee as Additional Funds for the grant of the Loan Note Issuer's beneficial interest in the Receivables Trust (see "*Additional Funds Payable by the Series 2020-1 Investor Beneficiary*" above). See also "*Series 2020-1 Loan Notes – Cashflows of the Loan Note Issuer*" and "*Principal Funding*".

On each Relevant Date, the Floating Investor Percentage will be applied by the Receivables Trustee to determine the Loan Note Issuer's beneficial entitlement to distributions of Finance Charge Collections and Acquired Interchange in respect of Series 2020-1. The Receivables Trustee will make such determination by making the following calculation:

**A x B**

where:

- A = the Floating Investor Percentage on such Relevant Date, and
- B = the total amount of Finance Charge Collections processed on, or, as applicable the total amount of Acquired Interchange paid in, on the related Date of Processing.

The definition of "**Floating Investor Percentage**" for Series 2020-1 shall mean, with respect to any Collection Period, the percentage equivalent (which percentage shall never exceed 100 per cent.) of a fraction:

- (a) the numerator of which is the Series 2020-1 Adjusted Investor Interest at the close of business on the last day of the prior Collection Period (or, with respect to the first Collection Period, the Series 2020-1 Initial Investor Interest); and
- (b) the denominator of which is the greater of:
  - (i) an amount equal to the Eligible Receivables Balance as at the close of business on the last day of the prior Collection Period (or, with respect to the first Collection Period, on the Series 2020-1 Closing Date); and
  - (ii) either:
    - (A) other than in respect of calculations with regard to Principal Collections, the sum of (1) the Series 2020-1 Adjusted Investor Interest as of the close of business on the last day of the preceding Collection Period (or, with respect to the first Collection Period, the Series 2020-1 Initial Investor Interest) and (2) the sum of the numerators used to calculate the Investor Percentages for distributions with respect to Finance Charge Collections and Acquired Interchange and allocation of Default Amounts, at any time, for all Outstanding Series (excluding Series 2020-1) with respect to the Collection Period for which the Floating Investor Percentage is being determined; or
    - (B) in respect of calculations with regard to Principal Collections, the sum of (1) the Series 2020-1 Adjusted Investor Interest as of the close of business on the last day of the preceding Collection Period (or, with respect to the first Collection Period, the Series 2020-1 Initial Investor Interest) and (2) the sum of the numerators used to calculate the Investor Percentages for distributions with respect to Principal Collections for all Outstanding Series (excluding Series 2020-1) with respect to the Collection Period for which the Floating Investor Percentage is being determined,

**provided that**, with respect to any Collection Period in which a Subsequent Assignment Date in respect of Accounts with a balance of Existing Receivables or a Re-designation Date in respect of Third Party Re-designated Accounts, as the case may be, occurs, the amount in paragraph (b)(i) above shall be:

- for the period from (and including) the first day of the Collection Period to (but excluding) the Subsequent Assignment Date or the Re-designation Date, as the case may be, an amount equal to the Eligible Receivables Balance as at the close of business on the last day of the prior Collection Period (or, with respect to the first Collection Period, on the Series 2020-1 Closing Date); and
- for the period from (and including) the Subsequent Assignment Date or the Re-designation Date, as the case may be, to (and including) the last day of the Collection Period, an amount equal to the Eligible Receivables Balance at the beginning of the day on the related Subsequent Assignment Date or Re-designation Date, as the case may be, as adjusted for the Outstanding Face Amount of Eligible Receivables at the beginning of such day added to or, as the case may be, removed from the Undivided Bare Trust on such Subsequent Assignment Date or Re-designation Date, as the case may be,

and **provided, further, however, that**, with respect to any Collection Period in which a Relevant Event occurs, the amounts used for the calculation in paragraph (b)(ii) above shall be:

- for the period from (and including) the first day of the Collection Period to (but excluding) the date of the Relevant Event, the sum of the numerators used to calculate the investor percentages for distributions with respect to Finance Charge Collections and Acquired

Interchange and allocations of Default Amounts for all Outstanding Series (including Series 2020-1) for the relevant Collection Period; and

- for the period from (and including) the date of the Relevant Event to (and including) the last day of the Collection Period, the sum of the numerators used to calculate the investor percentages for distributions with respect to Finance Charge Collections and Acquired Interchange and allocations of Default Amounts for all Outstanding Series (including Series 2020-1) on the date of the Relevant Event, adjusted to take into account the Relevant Event in question.

**"Relevant Event"** means any event which increases or decreases the amount of an Investor Interest (as defined in the Master Framework Agreement) for any Outstanding Series (including Series 2020-1) other than by reason of allocating or reinstating the Investor Charge-offs for that Series (as defined in the Supplement for that Series) which occurs prior to the end of that Series' Revolving Period (as defined in the Supplement for that Series).

### **Class A1 Investor Interest**

As noted under "*Beneficial Entitlement of the Loan Note Issuer to Collections*" above, calculations and information will be delivered by the Receivables Trustee to the Loan Note Issuer. These calculations and information will relate to, among other things, the amounts of Finance Charge Collections and Acquired Interchange distributed to the Loan Note Issuer which will ultimately be used for payments. In order to determine how payments will be made by the Loan Note Issuer with respect to the Class A1 Loan Note, it is necessary to understand the following definitions and cash flows in respect of Class A1. See also "*Class A2 Investor Interest*", "*Class A3 Investor Interest*", "*Class B Investor Interest*", "*Class C Investor Interest*", "*Class D Investor Interest*", "*Class E Investor Interest*" and "*Class F Investor Interest*".

In respect of each Transfer Date, a portion of Finance Charge Collections and Acquired Interchange that are distributable to the Loan Note Issuer from amounts standing to the credit of the Series 2020-1 Finance Charge Collections Ledger in the Receivables Trustee Collection Account will be calculated and notionally allocated to the Class A1 Investor Interest within the Series 2020-1 Finance Charge Collections Ledger. This aggregate amount, defined as the "**Class A1 Monthly Required Expense Amount**", will form part of the calculation of the Class A1 Required Amount and is the aggregate of:

- (i) an amount equal to the Class A1 Investor Aggregate Trustee Payment Amount plus any Class A1 Investor Aggregate Trustee Payment Amounts remaining unpaid in respect of any previous Transfer Date; *plus*
- (ii) the aggregate of the Class A1 Loan Note Issuer Costs Amount and the Class A1 Issuer Costs Amount plus any Class A1 Loan Note Issuer Costs Amount and/or any Class A1 Issuer Costs Amount remaining unpaid in respect of any previous Transfer Date; *plus*
- (iii) an amount which, in respect of the Calculation Period ending on (but excluding) the Distribution Date immediately following such Transfer Date, is equal to the product of (A) a fraction, the numerator of which is, for each Calculation Period (other than in respect of the first Calculation Period, which shall be the actual number of days in that period) up to and including the Calculation Period ending on (but excluding) the Class A1 Floating Rate Commencement Date, 30 days and, for each Calculation Period thereafter, the actual number of days in such Calculation Period and the denominator of which is, for each Calculation Period up to and including the Calculation Period ending on (but excluding) the Class A1 Floating Rate Commencement Date, 360 and, for each Calculation Period thereafter, 365, and (B) the Class A1 LN Rate for such Calculation Period, and (C) the Class A1 Debt Amount as of the first day of such Calculation Period taking into account any reductions on such date (the "**Class A1 Monthly Finance Amount**"); *plus*
- (iv) an amount equal to any unpaid Class A1 Deficiency Amounts; *plus*
- (v) an amount equal to the product of (A) (1) a fraction, the numerator of which is, for each Calculation Period up to and including the Calculation Period ending on (but excluding) the Class A1 Floating Rate Commencement Date, 30 days and, for each Calculation Period thereafter, the actual number of days in the Calculation Period ending on (but excluding) the Distribution Date immediately following such Transfer Date and the denominator of which is, for each Calculation Period up to

and including the Calculation Period ending on (but excluding) the Class A1 Floating Rate Commencement Date, 360 and, for each Calculation Period thereafter, 365, multiplied by (2) the Class A1 LN Rate for such Calculation Period, plus 1 per cent. per annum, and (B) the unpaid Class A1 Deficiency Amounts (if any) on the related Transfer Date for the immediately preceding Distribution Date (the "**Class A1 Additional Finance Amount**");

"**Class A1 Deficiency Amount**" shall mean, in respect of any Transfer Date, an amount equal to the excess, if any, of the Class A1 Monthly Required Expense Amount as of the prior Transfer Date (disregarding for this purpose the Class A1 Investor Aggregate Trustee Payment Amount, the Class A1 Loan Note Issuer Costs Amount and the Class A1 Issuer Costs Amount) over the amounts actually deposited on such prior Transfer Date as the Class A1 Monthly Distribution Amount into the Loan Note Issuer Distribution Account for the payment of such amount out of Available Funds on the relevant Transfer Date;

### **Distributions of Principal Collections to the Loan Note Issuer**

The amount of Principal Collections transferred on a daily basis (see "*The Receivables Trust - Allocation and Application of Collections*") during any Collection Period to the Principal Collections Ledger of the Receivables Trustee Collection Account will only be distributed to the Loan Note Issuer as Series 2020-1 Investor Beneficiary (to the extent of its beneficial interest) after making the calculations described below. These calculations and the amounts actually transferred differ depending upon whether Series 2020-1 is in the Revolving Period, the Controlled Accumulation Period, the Class A1 Controlled Accumulation Period, the Class A2 Controlled Accumulation Period, the Class A3 Controlled Accumulation Period, a Class A1 Rapid Amortisation Period, a Class A2 Rapid Amortisation Period, a Class A3 Rapid Amortisation Period or the Rapid Amortisation Period.

### **Revolving Period**

The "**Revolving Period**" shall mean the period from and including the Series 2020-1 Closing Date to, but not including, the earlier of:

- (i) the day that the Controlled Accumulation Period, the Class A1 Controlled Accumulation Period, the Class A2 Controlled Accumulation Period, the Class A3 Controlled Accumulation Period, a Class A1 Rapid Amortisation Period, a Class A2 Rapid Amortisation Period and/or a Class A3 Rapid Amortisation Period commences; and
- (ii) the Pay Out Commencement Date,

**provided that**, if the Controlled Accumulation Period, the Class A1 Controlled Accumulation Period, the Class A2 Controlled Accumulation Period or the Class A3 Controlled Accumulation Period ends or is suspended or a Class A1 Rapid Amortisation Period, a Class A2 Rapid Amortisation Period or a Class A3 Rapid Amortisation Period ends, the Revolving Period will, unless another such Accumulation Period or Amortisation Period has commenced, restart.

During the Revolving Period, Principal Collections credited daily to the Principal Collections Ledger in the Receivables Trustee Collection Account will not be distributed to the Loan Note Issuer as the Series 2020-1 Investor Beneficiary but a specified percentage of Principal Collections will be retained for calculation purposes in the Principal Collections Ledger and held on an undivided basis (the Group One Retained Principal Collections and the Required Retained Principal Collections, each as defined below), as provided for below. Amounts of Principal Collections that are retained in this way as Group One Retained Principal Collections will be used by the Receivables Trustee as Shared Principal Collections (see "*Shared Principal Collections*" below) and, to the extent not used as Shared Principal Collections, will be transferred to the Receivables Trustee Investment Account to be used as Cash Available for Investment as previously described in "*The Receivables Trust - Application of Cash Available for Investment - Payments of Initial Payment and Payment for Future Receivables*".

Amounts of Principal Collections that are retained as Required Retained Principal Collections may be deposited in the Receivables Trustee Investment Account or the Loan Note Issuer Distribution Account, as applicable, on a Transfer Date to meet certain payments or distributions to the Loan Note Issuer in respect of Series 2020-1 which the Receivable Trustee is not able to satisfy from Finance Charge Collections and Acquired Interchange distributed as described above under "*Calculation and Distribution of Finance Charge Collections and Acquired Interchange to the Loan Note Issuer*". For calculation purposes, these amounts of utilised Required Retained Principal Collections are divided into amounts utilised as Reallocated Class F Principal Collections, Reallocated Class E Principal Collections, Reallocated Class D Principal Collections, Reallocated Class C Principal Collections or (as the case may be) Reallocated Class B Principal Collections. See "*Defaulted and Dilution Receivables; Investor Charge-offs; Allocation to Series 2020-1 and the Originator VFN*" below for further information on Reallocated Class B Principal Collections, Reallocated Class C Principal Collections, Reallocated Class D Principal Collections, Reallocated Class E Principal Collections and Reallocated Class F Principal Collections.

"**Group One Retained Principal Collections**" shall mean those Principal Collections retained in the undivided Principal Collections Ledger each Collection Period calculated by reference to all Outstanding Series in Group One that can be utilised, if needed, as Shared Principal Collections to make distributions to Outstanding Series in Group One on a Transfer Date and which are not Required Retained Principal Collections (as defined in the relevant Supplement) for any Series (including Series 2020-1).

**"Pay Out Commencement Date"** shall mean the Business Day following the date on which a Trust Pay Out Event is deemed to occur pursuant to the Receivables Trust Deed and Servicing Agreement or a Series 2020-1 Pay Out Event is deemed to occur pursuant to the Series 2020-1 Supplement.

**"Required Retained Principal Collections"** shall mean those Principal Collections credited to the undivided Principal Collections Ledger on each Relevant Date, as calculated by reference to the Required Retained Principal Collections Percentage, that can be utilised, if needed, as Reallocated Principal Collections.

**"Required Retained Principal Collections Percentage"** shall mean, in respect of each Collection Period:

- (a) if there is no Series 2020-1 Required Amount for such Collection Period, zero per cent.; or
- (b) if there is a Series 2020-1 Required Amount for such Collection Period, 100 per cent. until such time as Required Retained Principal Collections for the relevant Collection Period equals the Series 2020-1 Required Amount for such Collection Period, having taken into account any Originator VFN Required Retained Principal Collections (as defined in the Originator VFN Supplement) to be made available to Series 2020-1, following which the Required Retained Principal Collections Percentage shall be zero per cent.

**Controlled Accumulation Period, Class A1 Controlled Accumulation Period, Class A2 Controlled Accumulation Period and Class A3 Controlled Accumulation Period**

***Controlled Accumulation Period***

Unless a Pay Out Event occurs (see *"The Receivables Trust - Trust Pay Out Events"* and *"Series 2020-1 Pay Out Events"* below), the **"Controlled Accumulation Period"** for Series 2020-1 (other than in respect of the Class A1 Notes and the Class A2 Notes) is scheduled to begin on the Series 2020-1 Scheduled Accumulation Commencement Date. Subject to certain conditions, the commencement of the Controlled Accumulation Period may be delayed until no later than the close of business on the date falling one month before the Series 2020-1 Scheduled Redemption Date (if the principal payment rate is high enough to support a shorter period, as set out below) or there may be no Controlled Accumulation Period (if it is anticipated that the relevant Notes will be refinanced or the Series 2020-1 Scheduled Redemption Date will be postponed, as set out below). The Controlled Accumulation Period will end on the earliest of:

- (i) the commencement of the Rapid Amortisation Period; and
- (ii) the Series 2020-1 Scheduled Redemption Date.

The Controlled Accumulation Period may run concurrently with the Class A1 Controlled Accumulation Period, the Class A2 Controlled Accumulation Period, the Class A3 Controlled Accumulation Period, a Class A1 Rapid Amortisation Period, a Class A2 Rapid Amortisation Period and/or a Class A3 Rapid Amortisation Period.

If the Series 2020-1 Scheduled Redemption Date, the Class A1 Scheduled Redemption Date, the Class A2 Scheduled Redemption Date and/or the Class A3 Scheduled Redemption Date fall on the same date, the Servicer will only shorten or disapply the Controlled Accumulation Period, the Class A1 Controlled Accumulation Period, the Class A2 Controlled Accumulation Period and/or the Class A3 Controlled Accumulation Period on the basis that the relevant Notes are reasonably likely to be refinanced, reset or extended if such action applies equally in respect of each such period (unless it is not possible to refinance, reset or extend any such Notes).

During the Controlled Accumulation Period, a portion of Principal Collections credited each Business Day during such period to the Receivables Trustee Collection Account which are allocable to the Series 2020-1 Investor Beneficiary, less any Required Retained Principal Collections, will be accumulated by the Receivables Trustee during each Collection Period in the undivided Principal Collections Ledger (as allocable to the Series 2020-1 Investor Beneficiary) as Group One Retained Principal Collections. Any amount of Principal Collections allocable to the Series 2020-1 Investor Beneficiary on any Business Day in excess of the Group One Retained Principal Collections and Required Retained Principal Collections will be transferred to the Receivables Trustee Investment Account to be used as Cash Available for Investment. The amount accumulated on each day during any Collection Period as Group One Retained Principal Collections will, together with non-utilised Required Retained Principal Collections on a Transfer

Date, form part of Available Retained Principal Collections (as defined below). The Class B-F Fixed Percentage (as defined below) of the amount of Available Retained Principal Collections will be utilised first to cover the Controlled Deposit Amount (as defined below) for that Collection Period, which amount will be transferred by the Receivables Trustee (on each related Transfer Date) to the Receivables Trustee Investment Account (for credit to the Series 2020-1 Principal Funding Ledger therein) on the related Transfer Date. See "*Principal Funding*" below.

Such amounts will then be transferred to the Loan Note Issuer Distribution Account on the Transfer Date immediately preceding the Series 2020-1 Scheduled Redemption Date. To the extent that the Class B-F Fixed Percentage of the amount of Available Retained Principal Collections is in excess of the Controlled Deposit Amount, the excess will be used by the Receivables Trustee, first, (i) to cover any Class A1 Controlled Deposit Amount (as defined below) for that Collection Period and/or to fund the redemption of any Amortising Class A1 Investor Interest, (ii) to cover any Class A2 Controlled Deposit Amount (as defined below) for that Collection Period and/or to fund the redemption of any Amortising Class A2 Investor Interest and (iii) to cover any Class A3 Controlled Deposit Amount (as defined below) for that Collection Period and/or to fund the redemption of any Amortising Class A3 Investor Interest, second, as Shared Principal Collections (as described above in "*Revolving Period*") and, third, as Cash Available for Investment as previously described in "*The Receivables Trust - Application of Cash Available for Investment - Payments of Initial Payment and Payment for Future Receivables*".

As in the Revolving Period, during each Collection Period during the Controlled Accumulation Period, a specified percentage of Principal Collections as calculated by reference to Series 2020-1 (equal to the Required Retained Principal Collections Percentage of such Principal Collections) will be retained within the Receivables Trustee Collection Account of the Receivables Trust and may be deposited in the Receivables Trustee Investment Account or the Loan Note Issuer Distribution Account, as applicable, on a Transfer Date to meet certain payments or distributions to the Loan Note Issuer in respect of Series 2020-1 which it is not able to satisfy from Finance Charge Collections and Acquired Interchange distributed as described above under "*Calculation and Distribution of Finance Charge Collections and Acquired Interchange to the Loan Note Issuer*".

The "**Class A1 Fixed Percentage**" shall mean, with respect to any Collection Period following the end of the Revolving Period, the fraction expressed as a percentage (which percentage shall never exceed 100 per cent.):

- (i) the numerator of which is the Class A1 Investor Interest as of the close of business on the last day of the Revolving Period; and
- (ii) the denominator of which is equal to the sum of the Class A1 Investor Interest, the Class A2 Investor Interest and the Class A3 Investor Interest as of the close of business on the last day of the Revolving Period,

**provided that** (a) unless the Rapid Amortisation Period, a Class A1 Rapid Amortisation Period or the Class A1 Controlled Accumulation Period has commenced, the Class A1 Investor Interest shall be deemed to be zero for the purposes of the above calculation, (b) unless the Rapid Amortisation Period, a Class A2 Rapid Amortisation Period or the Class A2 Controlled Accumulation Period has commenced, the Class A2 Investor Interest shall be deemed to be zero for the purposes of the above calculation and (c) unless the Rapid Amortisation Period, a Class A3 Rapid Amortisation Period or the Class A3 Controlled Accumulation Period has commenced, the Class A3 Investor Interest shall be deemed to be zero for the purposes of the above calculation.

The "**Class A2 Fixed Percentage**" shall mean, with respect to any Collection Period following the end of the Revolving Period, the fraction expressed as a percentage (which percentage shall never exceed 100 per cent.):

- (i) the numerator of which is the Class A2 Investor Interest as of the close of business on the last day of the Revolving Period; and
- (ii) the denominator of which is equal to the sum of the Class A1 Investor Interest, the Class A2 Investor Interest and the Class A3 Investor Interest as of the close of business on the last day of the Revolving Period,

**provided that** (a) unless the Rapid Amortisation Period, a Class A1 Rapid Amortisation Period or the Class A1 Controlled Accumulation Period has commenced, the Class A1 Investor Interest shall be deemed to be zero for the purposes of the above calculation, (b) unless the Rapid Amortisation Period, a Class A2 Rapid Amortisation Period or the Class A2 Controlled Accumulation Period has commenced, the Class A2 Investor Interest shall be deemed to be zero for the purposes of the above calculation and (c) unless the Rapid Amortisation Period, a Class A3 Rapid Amortisation Period or the Class A3 Controlled Accumulation Period has commenced, the Class A3 Investor Interest shall be deemed to be zero for the purposes of the above calculation.

The "**Class A3 Fixed Percentage**" shall mean, with respect to any Collection Period following the end of the Revolving Period, the fraction expressed as a percentage (which percentage shall never exceed 100 per cent.):

- (i) the numerator of which is the Class A3 Investor Interest as of the close of business on the last day of the Revolving Period; and
- (ii) the denominator of which is equal to the sum of the Class A1 Investor Interest, the Class A2 Investor Interest and the Class A3 Investor Interest as of the close of business on the last day of the Revolving Period,

**provided that** (a) unless the Rapid Amortisation Period, a Class A1 Rapid Amortisation Period or the Class A1 Controlled Accumulation Period has commenced, the Class A1 Investor Interest shall be deemed to be zero for the purposes of the above calculation, (b) unless the Rapid Amortisation Period, a Class A2 Rapid Amortisation Period or the Class A2 Controlled Accumulation Period has commenced, the Class A2 Investor Interest shall be deemed to be zero for the purposes of the above calculation and (c) unless the Rapid Amortisation Period, a Class A3 Rapid Amortisation Period or the Class A3 Controlled Accumulation Period has commenced, the Class A3 Investor Interest shall be deemed to be zero for the purposes of the above calculation.

The "**Class B-F Fixed Percentage**" shall mean:

- (iii) if the Class A1 Adjusted Investor Interest is greater than zero and the Class A1 Controlled Accumulation Period, a Class A1 Rapid Amortisation Period or the Rapid Amortisation Period is continuing, zero per cent.;
- (iv) if the Class A2 Adjusted Investor Interest is greater than zero and the Class A2 Controlled Accumulation Period, a Class A2 Rapid Amortisation Period or the Rapid Amortisation Period is continuing, zero per cent.;
- (v) if the Class A3 Adjusted Investor Interest is greater than zero and the Class A3 Controlled Accumulation Period, a Class A3 Rapid Amortisation Period or the Rapid Amortisation Period is continuing, zero per cent.; and
- (vi) in all other circumstances, 100 per cent. until such time as the Series 2020-1 Adjusted Investor Interest is zero.

"**Controlled Accumulation Period Factor**" shall mean, for each Collection Period, a fraction, the numerator of which is equal to the sum of the initial investor interests of all Outstanding Series and the denominator of which is equal to the sum (without duplication) of:

- (i) the Series 2020-1 Initial Investor Interest, less the Class A1 Initial Investor Interest, the Class A2 Initial Investor Interest and the Class A3 Initial Investor Interest;
- (ii) if the Class A1 Controlled Accumulation Period or a Class A1 Rapid Amortisation Period is continuing, the Class A1 Investor Interest as at the end of the Revolving Period (whether permanently ended or most recently temporarily suspended);
- (iii) if the Class A2 Controlled Accumulation Period or a Class A2 Rapid Amortisation Period is continuing, the Class A2 Investor Interest as at the end of the Revolving Period (whether permanently ended or most recently temporarily suspended);

- (iv) if the Class A3 Controlled Accumulation Period or a Class A3 Rapid Amortisation Period is continuing, the Class A3 Investor Interest as at the end of the Revolving Period (whether permanently ended or most recently temporarily suspended);
- (v) the initial investor interests (or, in the case of a VFN Series, the relevant investor interest) of all Outstanding Series (other than Series 2020-1) in Group One which are not notified by the Servicer as being predicted to be in their revolving periods as at the start of such Collection Period; and
- (vi) the initial investor interests (or, in the case of a VFN Series, the relevant investor interest) of all other Outstanding Series which are not in Group One and which are not allocating Shared Principal Collections.

**"Controlled Accumulation Period Length"** means the lowest number of months (not less than one) such that the sum of the Controlled Accumulation Period Factors for each month during such period will be equal to or greater than the Required Accumulation Factor Number.

**"Controlled Accumulation Shortfall"** shall initially mean zero and shall thereafter mean, with respect to any Transfer Date during the Controlled Accumulation Period, the excess, if any, of the Controlled Deposit Amount for the previous Transfer Date over the aggregate amount credited to the Series 2020-1 Principal Funding Ledger (other than in respect of Class A1, Class A2 or Class A3) for the previous Collection Period.

**"Controlled Deposit Amount"** shall mean, for any Transfer Date during the Controlled Accumulation Period prior to the repayment in full of the Series 2020-1 Investor Interest, the sum of:

- (i) the product of:
  - (a) the Series 2020-1 Debt Amount (other than the Class A1 Debt Amount, the Class A2 Debt Amount and the Class A3 Debt Amount) immediately prior to the commencement of the Controlled Accumulation Period; and
  - (b) one-twelfth or, if the Controlled Accumulation Period Length for the Controlled Accumulation Period is determined to be less than 12 months, the Controlled Accumulation Period Factor for the Collection Period preceding such Transfer Date divided by the Required Accumulation Factor Number; and
- (ii) any Controlled Accumulation Shortfall for the relevant Transfer Date.

**"Required Accumulation Factor Number"** shall be equal to one divided by the lowest monthly average principal payment rate (expressed as a decimal) on the Designated Accounts for the 12 months preceding the date of such calculation, rounded up to the nearest whole number.

As noted above, the Controlled Accumulation Period is scheduled to commence on the Series 2020-1 Scheduled Accumulation Commencement Date, and shall only utilise the Collections received in respect of the Monthly Period commencing on the Series 2020-1 Scheduled Accumulation Commencement Date.

**"Series 2020-1 Scheduled Accumulation Commencement Date"** means 1 November 2022 (or any later date specified in a Series Extension Notice (as defined in "*Extension to Series 2020-1 Scheduled Redemption Date, Class A1 Scheduled Redemption Date, Class A2 Scheduled Redemption Date and/or Class A3 Scheduled Redemption Date*" below) delivered by the Servicer to the Receivables Trustee in accordance with the Series 2020-1 Supplement).

However:

- (i) if the Controlled Accumulation Period Length (determined as set out below) is less than 12 months, commencement of the Controlled Accumulation Period will be postponed to the first day of the Collection Period that is the number of months prior to the last day of the Collection Period falling immediately prior to the Series 2020-1 Scheduled Redemption Date equal to the Controlled Accumulation Period Length and, as a result, the number of complete Collection Periods in such Controlled Accumulation Period will equal the Controlled Accumulation Period Length; or

- (ii) if the Servicer determines on or prior to the Accumulation Reserve Funding Date that it reasonably expects the Series 2020-1 Associated Debt and Series 2020-1 Related Debt to be refinanced (whether through the issuance or increase in the investor interest of a Replacement Series or otherwise) or the Series 2020-1 Scheduled Redemption Date to be extended, there will be no Controlled Accumulation Period (unless the Series 2020-1 Scheduled Redemption Date is in fact extended, in which case, if the Servicer so elects at the time of such extension, there shall (notwithstanding the prior disapplication of the Controlled Accumulation Period) be a Controlled Accumulation Period in respect of the extended Series 2020-1 Scheduled Redemption Date).

Prior to the start of the Collection Period commencing on 1 November 2022 and prior to the start of each Collection Period thereafter until the Controlled Accumulation Period begins, the Servicer will determine the "Controlled Accumulation Period Length" which will equal the lowest number of months (not less than one) such that the sum of the Controlled Accumulation Period Factors for each month during such period will be equal to or greater than the Required Accumulation Factor Number.

A "**Determination Date**" shall mean the fifth Business Day prior to each Distribution Date.

"**Replacement Series**" shall mean any Series designated as such, all or part of any Contribution in respect of which will be used to repay in full the Investor Interest of an existing Series.

***Class A1 Controlled Accumulation Period***

Unless a Pay Out Event occurs (see "*The Receivables Trust - Trust Pay Out Events*" and "*Series 2020-1 Pay Out Events*" below), the "**Class A1 Controlled Accumulation Period**" is scheduled to begin on the Class A1 Scheduled Accumulation Commencement Date. Subject to certain conditions, the commencement of the Class A1 Controlled Accumulation Period may be delayed until no later than the start of the Collection Period immediately prior to the Collection Period in which the Class A1 Scheduled Redemption Date falls (if the principal payment rate is high enough to support a shorter period, as set out below) or there may be no Class A1 Controlled Accumulation Period (if it is anticipated that the Class A1 Notes will be refinanced or the Class A1 Scheduled Redemption Date will be postponed, as set out below). The Class A1 Controlled Accumulation Period will end on the earliest of:

- (i) the commencement of the Rapid Amortisation Period; and
- (ii) the Class A1 Scheduled Redemption Date.

The Class A1 Controlled Accumulation Period may run concurrently with the Controlled Accumulation Period, the Class A2 Controlled Accumulation Period, the Class A3 Controlled Accumulation Period, a Class A1 Rapid Amortisation Period, a Class A2 Rapid Amortisation Period and/or a Class A3 Rapid Amortisation Period.

During the Class A1 Controlled Accumulation Period, a portion of Principal Collections credited each Business Day during such period to the Receivables Trustee Collection Account which are allocable to the Series 2020-1 Investor Beneficiary, less any Required Retained Principal Collections, will be accumulated by the Receivables Trustee during each Collection Period in the undivided Principal Collections Ledger (as allocable to the Series 2020-1 Investor Beneficiary) as Group One Retained Principal Collections. Any amount of Principal Collections allocable to the Series 2020-1 Investor Beneficiary on any Business Day in excess of the Group One Retained Principal Collections and Required Retained Principal Collections will be transferred to the Receivables Trustee Investment Account to be used as Cash Available for Investment. The amount accumulated on each day during any Collection Period as Group One Retained Principal Collections will, together with non-utilised Required Retained Principal Collections on a Transfer Date, form part of Available Retained Principal Collections (as defined below). The Class A1 Fixed Percentage of the amount of Available Retained Principal Collections will (subject to "*Concurrent operation of the Class A1 Controlled Accumulation Period and a Class A1 Rapid Amortisation Period*" below) be utilised first to cover the Class A1 Controlled Deposit Amount (as defined below) for that Collection Period, which amount will be transferred by the Receivables Trustee (on each related Transfer Date) to the Receivables Trustee Investment Account (for credit to the Series 2020-1 Principal Funding Ledger therein) on the related Transfer Date. See "*Principal Funding*" below.

Such amounts will then be transferred to the Loan Note Issuer Distribution Account on the Transfer Date immediately preceding the Class A1 Scheduled Redemption Date. To the extent that the Class A1 Fixed

Percentage of Available Retained Principal Collections is in excess of the Class A1 Controlled Deposit Amount, the excess will be used by the Receivables Trustee, first, to fund the redemption of any Amortising Class A1 Investor Interest, second, (i) to cover any Controlled Deposit Amount for that Collection Period, (ii) to cover any Class A2 Controlled Deposit Amount (as defined below) for that Collection Period and/or to fund the redemption of any Amortising Class A2 Investor Interest and (iii) to cover any Class A3 Controlled Deposit Amount (as defined below) for that Collection Period and/or to fund the redemption of any Amortising Class A3 Investor Interest, third, as Shared Principal Collections (as described above in "*Revolving Period*") and, fourth, as Cash Available for Investment (as previously described in "*The Receivables Trust - Application of Cash Available for Investment - Payments of Initial Payment and Payment for Future Receivables*").

As in the Revolving Period, during each Collection Period during the Class A1 Controlled Accumulation Period, a specified percentage of Principal Collections as calculated by reference to Series 2020-1 (equal to the Required Retained Principal Collections Percentage of such Principal Collections) will be retained within the Receivables Trustee Collection Account of the Receivables Trust and may be deposited in the Receivables Trustee Investment Account or the Loan Note Issuer Distribution Account, as applicable, on a Transfer Date to meet certain payments or distributions to the Loan Note Issuer in respect of Series 2020-1 which it is not able to satisfy from Finance Charge Collections and Acquired Interchange distributed as described above under "*Calculation and Distribution of Finance Charge Collections and Acquired Interchange to the Loan Note Issuer*".

As noted above, the Class A1 Controlled Accumulation Period is scheduled to commence on the Class A1 Scheduled Accumulation Commencement Date.

"**Class A1 Scheduled Accumulation Commencement Date**" is not applicable.

However:

- (i) if the Class A1 Controlled Accumulation Period Length (determined as set out below) is less than 12 months, the commencement of the Class A1 Controlled Accumulation Period will be postponed to the later of the first day of the Collection Period that is the number of months prior to the last day of the Collection Period falling immediately prior to the Class A1 Scheduled Redemption Date equal to the Class A1 Controlled Accumulation Period Length and, as a result, the number of complete Collection Periods in such Class A1 Controlled Accumulation Period will equal the Class A1 Controlled Accumulation Period Length; or
- (ii) if the Servicer determines on or prior to the Class A1 Accumulation Reserve Funding Date that it reasonably expects the Class A1 Associated Debt and Class A1 Related Debt to be refinanced (whether through the issuance or increase in the investor interest of a Replacement Series or otherwise) or the Class A1 Scheduled Redemption Date to be reset or extended, there will be no Class A1 Controlled Accumulation Period (unless the Class A1 Scheduled Redemption Date is in fact reset or extended, in which case, if the Servicer so elects at the time of such extension, there shall (notwithstanding the prior disapplication of the Class A1 Controlled Accumulation Period) be a Class A1 Controlled Accumulation Period in respect of the reset or extended Class A1 Scheduled Redemption Date).

Prior to the start of the Collection Period commencing on 1 November 2022 (or such later date as may be specified in connection with a Class A1 Reset) and prior to the start of each Collection Period thereafter until the Class A1 Controlled Accumulation Period begins, the Servicer will determine the "Class A1 Controlled Accumulation Period Length" which will equal the lowest number of months (not less than one) such that the sum of the Class A1 Controlled Accumulation Period Factors for each month during such period will be equal to or greater than the Required Accumulation Factor Number.

"**Class A1 Controlled Accumulation Period Factor**" shall mean, for each Collection Period, a fraction, the numerator of which is equal to the sum of the initial investor interests of all the Outstanding Series and the denominator of which is equal to the sum (without duplication) of:

- (i) the Class A1 Investor Interest;

- (ii) if the Controlled Accumulation Period is continuing, the Series 2020-1 Initial Investor Interest, less the Class A1 Initial Investor Interest, the Class A2 Initial Investor Interest and the Class A3 Initial Investor Interest;
- (iii) if the Class A2 Controlled Accumulation Period or a Class A2 Rapid Amortisation Period is continuing, the Class A2 Investor Interest as at the end of the Revolving Period (whether permanently ended or most recently temporarily suspended);
- (iv) if the Class A3 Controlled Accumulation Period or a Class A3 Rapid Amortisation Period is continuing, the Class A3 Investor Interest as at the end of the Revolving Period (whether permanently ended or most recently temporarily suspended);
- (v) the initial investor interests (or, in the case of a VFN Series, the relevant investor interest) of all Outstanding Series (other than Series 2020-1) in Group One which are not notified by the Servicer as being predicted to be in their revolving periods as at the start of such Collection Period; and
- (vi) the initial investor interests (or, in the case of a VFN Series, the relevant investor interest) of all other Outstanding Series which are not in Group One and which are not allocating Shared Principal Collections.

**"Class A1 Controlled Accumulation Period Length"** means the lowest number of months (not less than one) such that the sum of the Class A1 Controlled Accumulation Period Factors for each month during such period will be equal to or greater than the Required Accumulation Factor Number.

**"Class A1 Controlled Accumulation Shortfall"** shall initially mean zero and shall thereafter mean, with respect to any Transfer Date during the Class A1 Controlled Accumulation Period, the excess, if any, of the Class A1 Controlled Deposit Amount for the previous Transfer Date over the aggregate amount credited in respect of Class A1 to the Series 2020-1 Principal Funding Ledger for the previous Collection Period.

**"Class A1 Controlled Deposit Amount"** shall mean, for any Transfer Date during the Class A1 Controlled Accumulation Period prior to the repayment in full of the Class A1 Notes, the sum of:

- (i) the product of:
  - (a) the Class A1 Debt Amount immediately prior to the commencement of the Class A1 Controlled Accumulation Period; and
  - (b) one-twelfth or, if the Class A1 Controlled Accumulation Period Length for the Class A1 Controlled Accumulation Period is determined to be less than 12 months, the Class A1 Controlled Accumulation Period Factor for the Collection Period preceding such Transfer Date divided by the Required Accumulation Factor Number; and
- (ii) any Class A1 Controlled Accumulation Shortfall for the relevant Transfer Date.

***Class A2 Controlled Accumulation Period***

Unless a Pay Out Event occurs (see *"The Receivables Trust - Trust Pay Out Events"* and *"Series 2020-1 Pay Out Events"* below), the **"Class A2 Controlled Accumulation Period"** is scheduled to begin on the Class A2 Scheduled Accumulation Commencement Date. Subject to certain conditions, the commencement of the Class A2 Controlled Accumulation Period may be delayed until no later than the start of the Collection Period immediately prior to the Collection Period in which the Class A2 Scheduled Redemption Date falls (if the principal payment rate is high enough to support a shorter period, as set out below) or there may be no Class A2 Controlled Accumulation Period (if it is anticipated that the Class A2 Notes will be refinanced or the Class A2 Scheduled Redemption Date will be postponed, as set out below). The Class A2 Controlled Accumulation Period will end on the earliest of:

- (iii) the commencement of the Rapid Amortisation Period; and
- (iv) the Class A2 Scheduled Redemption Date.

The Class A2 Controlled Accumulation Period may run concurrently with the Controlled Accumulation Period, the Class A1 Controlled Accumulation Period, a Class A1 Rapid Amortisation Period, a Class A2 Rapid Amortisation Period and/or a Class A3 Rapid Amortisation Period.

During the Class A2 Controlled Accumulation Period, a portion of Principal Collections credited each Business Day during such period to the Receivables Trustee Collection Account which are allocable to the Series 2020-1 Investor Beneficiary, less any Required Retained Principal Collections, will be accumulated by the Receivables Trustee during each Collection Period in the undivided Principal Collections Ledger (as allocable to the Series 2020-1 Investor Beneficiary) as Group One Retained Principal Collections. Any amount of Principal Collections allocable to the Series 2020-1 Investor Beneficiary on any Business Day in excess of the Group One Retained Principal Collections and Required Retained Principal Collections will be transferred to the Receivables Trustee Investment Account to be used as Cash Available for Investment. The amount accumulated on each day during any Collection Period as Group One Retained Principal Collections will, together with non-utilised Required Retained Principal Collections on a Transfer Date, form part of Available Retained Principal Collections (as defined below). The Class A2 Fixed Percentage of the amount of Available Retained Principal Collections will (subject to "*Concurrent operation of the Class A2 Controlled Accumulation Period and a Class A2 Rapid Amortisation Period*" below) be utilised first to cover the Class A2 Controlled Deposit Amount (as defined below) for that Collection Period, which amount will be transferred by the Receivables Trustee (on each related Transfer Date) to the Receivables Trustee Investment Account (for credit to the Series 2020-1 Principal Funding Ledger therein) on the related Transfer Date. See "*Principal Funding*" below.

Such amounts will then be transferred to the Loan Note Issuer Distribution Account on the Transfer Date immediately preceding the Class A2 Scheduled Redemption Date. To the extent that the Class A2 Fixed Percentage of Available Retained Principal Collections is in excess of the Class A2 Controlled Deposit Amount, the excess will be used by the Receivables Trustee, first, to fund the redemption of any Amortising Class A2 Investor Interest, second, (i) to cover any Controlled Deposit Amount for that Collection Period, (ii) to cover any Class A1 Controlled Deposit Amount for that Collection Period and/or to fund the redemption of any Amortising Class A1 Investor Interest and (iii) to cover any Class A3 Controlled Deposit Amount for that Collection Period and/or to fund the redemption of any Amortising Class A3 Investor Interest, third, as Shared Principal Collections (as described above in "*Revolving Period*") and, fourth, as Cash Available for Investment (as previously described in "*The Receivables Trust - Application of Cash Available for Investment - Payments of Initial Payment and Payment for Future Receivables*").

As in the Revolving Period, during each Collection Period during the Class A2 Controlled Accumulation Period, a specified percentage of Principal Collections as calculated by reference to Series 2020-1 (equal to the Required Retained Principal Collections Percentage of such Principal Collections) will be retained within the Receivables Trustee Collection Account of the Receivables Trust and may be deposited in the Receivables Trustee Investment Account or the Loan Note Issuer Distribution Account, as applicable, on a Transfer Date to meet certain payments or distributions to the Loan Note Issuer in respect of Series 2020-1 which it is not able to satisfy from Finance Charge Collections and Acquired Interchange distributed as described above under "*Calculation and Distribution of Finance Charge Collections and Acquired Interchange to the Loan Note Issuer*".

As noted above, the Class A2 Controlled Accumulation Period is scheduled to commence on the Class A2 Scheduled Accumulation Commencement Date.

"**Class A2 Scheduled Accumulation Commencement Date**" is not applicable.

However:

- (i) if the Class A2 Controlled Accumulation Period Length (determined as set out below) is less than 12 months, the commencement of the Class A2 Controlled Accumulation Period will be postponed to the later of the first day of the Collection Period that is the number of months prior to the last day of the Collection Period falling immediately prior to the Class A2 Scheduled Redemption Date equal to the Class A2 Controlled Accumulation Period Length and, as a result, the number of complete Collection Periods in such Class A2 Controlled Accumulation Period will equal the Class A2 Controlled Accumulation Period Length; or
- (ii) if the Servicer determines on or prior to the Class A2 Accumulation Reserve Funding Date that it reasonably expects the Class A2 Associated Debt and Class A2 Related Debt to be refinanced

(whether through the issuance or increase in the investor interest of a Replacement Series or otherwise) or the Class A2 Scheduled Redemption Date to be reset or extended, there will be no Class A2 Controlled Accumulation Period (unless the Class A2 Scheduled Redemption Date is in fact reset or extended, in which case, if the Servicer so elects at the time of such extension, there shall (notwithstanding the prior disapplication of the Class A2 Controlled Accumulation Period) be a Class A2 Controlled Accumulation Period in respect of the reset or extended Class A2 Scheduled Redemption Date).

Prior to the start of the Collection Period commencing on 1 November 2022 (or such later date as may be specified in connection with a Class A2 Reset) and prior to the start of each Collection Period thereafter until the Class A2 Controlled Accumulation Period begins, the Servicer will determine the "Class A2 Controlled Accumulation Period Length" which will equal the lowest number of months (not less than one) such that the sum of the Class A2 Controlled Accumulation Period Factors for each month during such period will be equal to or greater than the Required Accumulation Factor Number.

**"Class A2 Controlled Accumulation Period Factor"** shall mean, for each Collection Period, a fraction, the numerator of which is equal to the sum of the initial investor interests of all the Outstanding Series and the denominator of which is equal to the sum (without duplication) of:

- (i) the Class A2 Investor Interest;
- (ii) if the Controlled Accumulation Period is continuing, the Series 2020-1 Initial Investor Interest, less the Class A1 Initial Investor Interest, the Class A2 Initial Investor Interest and the Class A3 Initial Investor Interest;
- (iii) if the Class A1 Controlled Accumulation Period or a Class A1 Rapid Amortisation Period is continuing, the Class A1 Investor Interest as at the end of the Revolving Period (whether permanently ended or most recently temporarily suspended);
- (iv) if the Class A3 Controlled Accumulation Period or a Class A3 Rapid Amortisation Period is continuing, the Class A3 Investor Interest as at the end of the Revolving Period (whether permanently ended or most recently temporarily suspended);
- (v) the initial investor interests (or, in the case of a VFN Series, the relevant investor interest) of all Outstanding Series (other than Series 2020-1) in Group One which are not notified by the Servicer as being predicted to be in their revolving periods as at the start of such Collection Period; and
- (vi) the initial investor interests (or, in the case of a VFN Series, the relevant investor interest) of all other Outstanding Series which are not in Group One and which are not allocating Shared Principal Collections.

**"Class A2 Controlled Accumulation Period Length"** means the lowest number of months (not less than one) such that the sum of the Class A2 Controlled Accumulation Period Factors for each month during such period will be equal to or greater than the Required Accumulation Factor Number.

**"Class A2 Controlled Accumulation Shortfall"** shall initially mean zero and shall thereafter mean, with respect to any Transfer Date during the Class A2 Controlled Accumulation Period, the excess, if any, of the Class A2 Controlled Deposit Amount for the previous Transfer Date over the aggregate amount credited in respect of Class A2 to the Series 2020-1 Principal Funding Ledger for the previous Collection Period.

**"Class A2 Controlled Deposit Amount"** shall mean, for any Transfer Date during the Class A2 Controlled Accumulation Period prior to the repayment in full of the Class A2 Notes, the sum of:

- (i) the product of:
  - (a) the Class A2 Debt Amount immediately prior to the commencement of the Class A2 Controlled Accumulation Period; and
  - (b) one-twelfth or, if the Class A2 Controlled Accumulation Period Length for the Class A2 Controlled Accumulation Period is determined to be less than 12 months, the Class A2 Controlled Accumulation Period Factor for the Collection Period preceding such Transfer Date divided by the Required Accumulation Factor Number; and

- (ii) any Class A2 Controlled Accumulation Shortfall for the relevant Transfer Date.

***Class A3 Controlled Accumulation Period***

Unless a Pay Out Event occurs (see "*The Receivables Trust - Trust Pay Out Events*" and "*Series 2020-1 Pay Out Events*" below), the "**Class A3 Controlled Accumulation Period**" is scheduled to begin on the Class A3 Scheduled Accumulation Commencement Date. Subject to certain conditions, the commencement of the Class A3 Controlled Accumulation Period may be delayed until no later than the start of the Collection Period immediately prior to the Collection Period in which the Class A3 Scheduled Redemption Date falls (if the principal payment rate is high enough to support a shorter period, as set out below) or there may be no Class A3 Controlled Accumulation Period (if it is anticipated that the Class A3 Notes will be refinanced or the Class A3 Scheduled Redemption Date will be postponed, as set out below). The Class A3 Controlled Accumulation Period will end on the earliest of:

- (iii) the commencement of the Rapid Amortisation Period; and
- (iv) the Class A3 Scheduled Redemption Date.

The Class A3 Controlled Accumulation Period may run concurrently with the Controlled Accumulation Period, the Class A1 Controlled Accumulation Period, a Class A1 Rapid Amortisation Period, the Class A2 Controlled Accumulation Period, a Class A2 Rapid Amortisation Period and/or a Class A3 Rapid Amortisation Period.

During the Class A3 Controlled Accumulation Period, a portion of Principal Collections credited each Business Day during such period to the Receivables Trustee Collection Account which are allocable to the Series 2020-1 Investor Beneficiary, less any Required Retained Principal Collections, will be accumulated by the Receivables Trustee during each Collection Period in the undivided Principal Collections Ledger (as allocable to the Series 2020-1 Investor Beneficiary) as Group One Retained Principal Collections. Any amount of Principal Collections allocable to the Series 2020-1 Investor Beneficiary on any Business Day in excess of the Group One Retained Principal Collections and Required Retained Principal Collections will be transferred to the Receivables Trustee Investment Account to be used as Cash Available for Investment. The amount accumulated on each day during any Collection Period as Group One Retained Principal Collections will, together with non-utilised Required Retained Principal Collections on a Transfer Date, form part of Available Retained Principal Collections (as defined below). The Class A3 Fixed Percentage of the amount of Available Retained Principal Collections will (subject to "*Concurrent operation of the Class A3 Controlled Accumulation Period and a Class A3 Rapid Amortisation Period*" below) be utilised first to cover the Class A3 Controlled Deposit Amount (as defined below) for that Collection Period, which amount will be transferred by the Receivables Trustee (on each related Transfer Date) to the Receivables Trustee Investment Account (for credit to the Series 2020-1 Principal Funding Ledger therein) on the related Transfer Date. See "*Principal Funding*" below.

Such amounts will then be transferred to the Loan Note Issuer Distribution Account on the Transfer Date immediately preceding the Class A3 Scheduled Redemption Date. To the extent that the Class A3 Fixed Percentage of Available Retained Principal Collections is in excess of the Class A3 Controlled Deposit Amount, the excess will be used by the Receivables Trustee, first, to fund the redemption of any Amortising Class A3 Investor Interest, second, (i) to cover any Controlled Deposit Amount for that Collection Period and (ii) to cover any Class A1 Controlled Deposit Amount for that Collection Period and/or to fund the redemption of any Amortising Class A1 Investor Interest and (iii) to cover any Class A2 Controlled Deposit Amount for that Collection Period and/or to fund the redemption of any Amortising Class A2 Investor Interest, third, as Shared Principal Collections (as described above in "*Revolving Period*") and, fourth, as Cash Available for Investment (as previously described in "*The Receivables Trust - Application of Cash Available for Investment - Payments of Initial Payment and Payment for Future Receivables*").

As in the Revolving Period, during each Collection Period during the Class A3 Controlled Accumulation Period, a specified percentage of Principal Collections as calculated by reference to Series 2020-1 (equal to the Required Retained Principal Collections Percentage of such Principal Collections) will be retained within the Receivables Trustee Collection Account of the Receivables Trust and may be deposited in the Receivables Trustee Investment Account or the Loan Note Issuer Distribution Account, as applicable, on a Transfer Date to meet certain payments or distributions to the Loan Note Issuer in respect of Series 2020-1 which it is not able to satisfy from Finance Charge Collections and Acquired Interchange distributed as

described above under "*Calculation and Distribution of Finance Charge Collections and Acquired Interchange to the Loan Note Issuer*".

As noted above, the Class A3 Controlled Accumulation Period is scheduled to commence on the Class A3 Scheduled Accumulation Commencement Date.

**"Class A3 Scheduled Accumulation Commencement Date"** means 1 November 2022 (or any later date specified in a Class A3 Reset Notice (as defined in "*Class A3 Scheduled Redemption Date*") delivered by the Issuer (or the Cash Manager on its behalf) in accordance with the Note Trust Deed or a Class A3 Extension Notice (as defined in "*Extension to Series 2020-1 Scheduled Redemption Date, Class A1 Scheduled Redemption Date, Class A2 Scheduled Redemption Date and/or Class A3 Scheduled Redemption Date*" below) delivered by the Servicer to the Receivables Trustee in accordance with the Series 2020-1 Supplement).

However:

- (i) if the Class A3 Controlled Accumulation Period Length (determined as set out below) is less than 12 months, the commencement of the Class A3 Controlled Accumulation Period will be postponed to the later of the first day of the Collection Period that is the number of months prior to the last day of the Collection Period falling immediately prior to the Class A3 Scheduled Redemption Date equal to the Class A3 Controlled Accumulation Period Length and, as a result, the number of complete Collection Periods in such Class A3 Controlled Accumulation Period will equal the Class A3 Controlled Accumulation Period Length; or
- (ii) if the Servicer determines on or prior to the Class A3 Accumulation Reserve Funding Date that it reasonably expects the Class A3 Associated Debt and Class A3 Related Debt to be refinanced (whether through the issuance or increase in the investor interest of a Replacement Series or otherwise) or the Class A3 Scheduled Redemption Date to be reset or extended, there will be no Class A3 Controlled Accumulation Period (unless the Class A3 Scheduled Redemption Date is in fact reset or extended, in which case, if the Servicer so elects at the time of such extension, there shall (notwithstanding the prior disapplication of the Class A3 Controlled Accumulation Period) be a Class A3 Controlled Accumulation Period in respect of the reset or extended Class A3 Scheduled Redemption Date).

Prior to the start of the Collection Period commencing on 1 November 2022 (or such later date as may be specified in connection with a Class A3 Reset) and prior to the start of each Collection Period thereafter until the Class A3 Controlled Accumulation Period begins, the Servicer will determine the "Class A3 Controlled Accumulation Period Length" which will equal the lowest number of months (not less than one) such that the sum of the Class A3 Controlled Accumulation Period Factors for each month during such period will be equal to or greater than the Required Accumulation Factor Number.

**"Class A3 Controlled Accumulation Period Factor"** shall mean, for each Collection Period, a fraction, the numerator of which is equal to the sum of the initial investor interests of all the Outstanding Series and the denominator of which is equal to the sum (without duplication) of:

- (i) the Class A3 Investor Interest;
- (ii) if the Controlled Accumulation Period is continuing, the Series 2020-1 Initial Investor Interest, less the Class A1 Initial Investor Interest, the Class A2 Initial Investor Interest and the Class A3 Initial Investor Interest;
- (iii) if the Class A1 Controlled Accumulation Period or a Class A1 Rapid Amortisation Period is continuing, the Class A1 Investor Interest as at the end of the Revolving Period (whether permanently ended or most recently temporarily suspended);
- (iv) if the Class A2 Controlled Accumulation Period or a Class A2 Rapid Amortisation Period is continuing, the Class A2 Investor Interest as at the end of the Revolving Period (whether permanently ended or most recently temporarily suspended);
- (v) the initial investor interests (or, in the case of a VFN Series, the relevant investor interest) of all Outstanding Series (other than Series 2020-1) in Group One which are not notified by the Servicer as being predicted to be in their revolving periods as at the start of such Collection Period; and

- (vi) the initial investor interests (or, in the case of a VFN Series, the relevant investor interest) of all other Outstanding Series which are not in Group One and which are not allocating Shared Principal Collections.

**"Class A3 Controlled Accumulation Period Length"** means the lowest number of months (not less than one) such that the sum of the Class A3 Controlled Accumulation Period Factors for each month during such period will be equal to or greater than the Required Accumulation Factor Number.

**"Class A3 Controlled Accumulation Shortfall"** shall initially mean zero and shall thereafter mean, with respect to any Transfer Date during the Class A3 Controlled Accumulation Period, the excess, if any, of the Class A3 Controlled Deposit Amount for the previous Transfer Date over the aggregate amount credited in respect of Class A3 to the Series 2020-1 Principal Funding Ledger for the previous Collection Period.

**"Class A3 Controlled Deposit Amount"** shall mean, for any Transfer Date during the Class A3 Controlled Accumulation Period prior to the repayment in full of the Class A3 Notes, the sum of:

- (i) the product of:
- (a) the Class A3 Debt Amount immediately prior to the commencement of the Class A3 Controlled Accumulation Period; and
  - (b) one-twelfth or, if the Class A3 Controlled Accumulation Period Length for the Class A3 Controlled Accumulation Period is determined to be less than 12 months, the Class A3 Controlled Accumulation Period Factor for the Collection Period preceding such Transfer Date divided by the Required Accumulation Factor Number; and
- (ii) any Class A3 Controlled Accumulation Shortfall for the relevant Transfer Date.

**Series 2020-1 Scheduled Redemption Date, Class A1 Scheduled Redemption Date, Class A2 Scheduled Redemption Date and/or Class A3 Scheduled Redemption Date**

***Series 2020-1 Scheduled Redemption Date***

The Notes (other than the Class A1 Notes, the Class A2 Notes and the Class A3 Notes) will be redeemed on the Series 2020-1 Scheduled Redemption Date, to the extent that principal repayments (including, but not limited to, repayments as a result of the accumulation of Principal Collections during the Controlled Accumulation Period or the issue of a Replacement Series (as more particularly described in "*Controlled Accumulation Period*" above)) are made under the relevant Series 2020-1 Loan Notes, as fully set out in Note Condition 7(a) (*Scheduled Redemption and Mandatory, Early Redemption*). If the Series 2020-1 Investor Interest is not reduced to zero on the Series 2020-1 Scheduled Redemption Date, then a Pay Out Event will occur and the Rapid Amortisation Period will commence (see "*Rapid Amortisation Period*" below). The Series 2020-1 Scheduled Redemption Date may be postponed to a later Interest Payment Date falling within the Series 2020-1 Extension Period (see "*Extension to Series 2020-1 Scheduled Redemption Date, Class A1 Scheduled Redemption Date, Class A2 Scheduled Redemption Date and/or Class A3 Scheduled Redemption Date*" below).

**"Series 2020-1 Extension Period"** means the period from the initial Scheduled Redemption Date to and including the 12<sup>th</sup> Interest Payment Date thereafter.

**"Series 2020-1 Scheduled Redemption Date"** means the Interest Payment Date falling in November 2023 or, if a Series Extension Notice is delivered, any Interest Payment Date falling within the Series 2020-1 Extension Period, as specified in such Series Extension Notice.

***Class A1 Scheduled Redemption Date***

The Class A1 Notes will be redeemed on the Class A1 Scheduled Redemption Date, to the extent that principal repayments (including, but not limited to, repayments as a result of the accumulation of Principal Collections during the Class A1 Controlled Accumulation Period or the issue of a Replacement Series (as more particularly described in "*Class A1 Controlled Accumulation Period*" above)) are made under the Class A1 Loan Note, as fully set out in Note Condition 7(a) (*Scheduled Redemption and Mandatory, Early Redemption*). If the Class A1 Investor Interest is not reduced to zero on the Class A1 Scheduled Redemption

Date, then a Class A1 Rapid Amortisation Period will commence (see "*Class A1 Rapid Amortisation Period*" below).

The Class A1 Scheduled Redemption Date may be postponed to a later Interest Payment Date falling within the Class A1 Extension Period and no later than the Series 2020-1 Scheduled Redemption Date (see "*Extension to Series 2020-1 Scheduled Redemption Date, Class A1 Scheduled Redemption Date, Class A2 Scheduled Redemption Date and/or Class A3 Scheduled Redemption Date*" below).

Further, for so long as the Class A1 Scheduled Redemption Date is earlier than the initial Series 2020-1 Scheduled Redemption Date, the Issuer (or the Cash Manager on its behalf) may, on or before the Class A1 Reset Notification Date, deliver a reset notice to the Class A1 Noteholders (with a copy to the Swap Counterparty) setting out the details of a Class A1 Reset (a "**Class A1 Reset Notice**"). A "**Class A1 Reset**" shall be applicable to the Class A1 Notes, and a Class A1 Reset Notice shall set out (i) the terms on which the Issuer will reset the Class A1 Scheduled Redemption Date and the Rate of Interest applicable to the Class A1 Notes and any consequential changes to the terms of the Class A1 Notes, the Class A1 Swap Agreement (if applicable), the other Issuer Documents and/or the Transaction Documents, and (ii) the date on which the Class A1 Reset shall take effect (which shall be a date falling on or after the Class A1 Put Notification Date (as defined below) and on or before the then-current Class A1 Scheduled Redemption Date). The Issuer (or the Cash Manager on its behalf) may revoke the first-delivered Class A1 Reset Notice at any time prior to the then current Class A1 Scheduled Redemption Date, in which case such Class A1 Reset Notice (and any Class A1 Put Notices (as defined below) delivered in respect of it) shall be of no effect (and the Issuer (or the Cash Manager on its behalf) may, on the first such revocation only and no later than the Class A1 Reset Notification Date, deliver one further Class A1 Reset Notice).

If the Issuer (or the Cash Manager on its behalf) has delivered a Class A1 Reset Notice (that has not been revoked), the Class A1 Scheduled Redemption Date will, with effect from the date specified in the Class A1 Reset Notice, be reset to the date specified in the Class A1 Reset Notice (such date to be an Interest Payment Date falling on or prior to the initial Series 2020-1 Scheduled Redemption Date), and the Rate of Interest applicable to the Class A1 Notes shall be reset to such rate as is specified in the Class A1 Reset Notice (such rate to be a fixed or floating rate that is, in the opinion of the Issuer (or the Cash Manager on its behalf), a market rate), **provided that** no such reset shall be effective unless the Issuer has obtained a Rating Confirmation from each Rating Agency in respect of such Class A1 Reset. If, as a result of the Class A1 Reset, any amendments are required to the terms of the Class A1 Notes that require any amendment to the terms of any of the Issuer Documents or the Transaction Documents, the Class A1 Reset shall only take effect if such amendments are made on or before the date on which such Class A1 Reset is specified to take effect pursuant to the relevant Class A1 Reset Notice. For the avoidance of doubt, any changes to the Class A1 Swap Agreement (if applicable) that the Issuer may propose in connection with a Class A1 Reset can only be made if the Swap Counterparty consents to such changes.

If the Issuer (or the Cash Manager on its behalf) has delivered a Class A1 Reset Notice (that has not been revoked), each Class A1 Noteholder may: (i) deliver a Class A1 Put Notice to the Issuer in respect of such Class A1 Reset Notice (in the form, and in accordance with the process, specified in the Class A1 Reset Notice); or (ii) deliver a notice to the Issuer (or otherwise enter into documentation) agreeing to waive its right to deliver a Class A1 Put Notice in respect of such Class A1 Reset Notice (a "**Class A1 Put Waiver**"), in each case, on or before the Class A1 Put Notification Date. A Class A1 Put Notice from any Class A1 Noteholder shall only be legally binding if delivered in the form, and in accordance with the process, specified in the Class A1 Reset Notice. The Issuer shall be entitled to rely on any Class A1 Put Waiver from a Class A1 Noteholder and further, any subsequent Class A1 Put Notice delivered in respect of the Class A1 Notes held by such Class A1 Noteholder by: (a) such Class A1 Noteholder; or (b) any person to which such Class A1 Noteholder transfers all or part of its holding of Class A1 Notes after such Class A1 Noteholder has delivered or otherwise entered into a Class A1 Put Waiver shall not be legally binding.

If a Class A1 Put Notice has been delivered by one or more Class A1 Noteholders on or before the Class A1 Put Notification Date and such notice has not been revoked prior to the Class A1 Scheduled Put Date, then (unless the Cash Manager has delivered a Class A1 Put Funding Notice (as defined in Note Condition 7(f) (*Required Repurchase of Class A1 Notes*))), on the Transfer Date immediately prior to the Class A1 Scheduled Put Date, the Receivables Trustee shall utilise Undivided Bare Trust Property to make distributions to the Series 2020-1 Investor Beneficiary sufficient to repay the Principal Amount Outstanding of the Amortising Class A1 Investor Interest. The Loan Note Issuer shall utilise any such funds allocated to the Amortising Class A1 Investor Interest to make a repayment on the Class A1 Loan Note. Any principal amount received in respect of any Put Class A1 Notes by the Issuer shall, on the Class A1 Scheduled Put

Date, be allocated in accordance with Note Condition 7(f)(i) (*Required Repurchase of Class A1 Notes*) towards the repurchase of the Put Class A1 Notes as advised to the Issuer, the Principal Paying Agent and, if applicable, the U.S. Paying Agent by the Cash Manager after any application pursuant to the Class A1 Swap Agreement.

If the Cash Manager has delivered a Class A1 Put Funding Notice in accordance with Note Condition 7(f)(ii) (*Required Repurchase of Class A1 Notes*), there shall be no amortisation of the Class A1 Investor Interest and the Issuer shall instead apply any third party funds received by it in accordance with such Class A1 Put Funding Notice in accordance with Note Condition 7(f)(i) (*Required Repurchase of Class A1 Notes*) towards the repurchase of the Put Class A1 Notes on the Class A1 Scheduled Put Date as advised to the Issuer, the Principal Paying Agent and if applicable, the U.S. Paying Agent by the Cash Manager after any application pursuant to the Class A1 Swap Agreement.

If any Put Class A1 Notes are not repurchased on the Class A1 Scheduled Put Date, a Class A1 Rapid Amortisation Period shall commence (or continue), and the rate of interest applicable to the Class A1 Notes shall, until such Put Class A1 Notes have been repurchased in full, be the greater of (i) that specified in the Class A1 Reset Notice and (ii) the rate which would otherwise have been applicable to the Put Class A1 Notes had such Class A1 Reset not occurred (see Note Condition 6(b) (*Rate of Interest*)).

The Servicer may (**provided that** it has not previously delivered a Class A1 Extension Notice), by written notice to the Receivables Trustee prior to the Interest Payment Date which was the Class A1 Scheduled Redemption Date prior to the relevant Class A1 Reset (a "**Class A1 Put Deferral Notice**"), delay any Class A1 Scheduled Put Date to a later Interest Payment Date falling within the Class A1 Extension Period.

Any repurchase of the Class A1 Notes by the Issuer shall be at a price equal to their Principal Amount Outstanding together with accrued but unpaid interest thereon.

"**Amortising Class A1 Investor Interest**" shall mean:

- (i) if one or more Class A1 Noteholders has (in response to a Class A1 Reset Notice) delivered a Class A1 Put Notice on or prior to the relevant Class A1 Put Notification Date and the Cash Manager has not delivered a Class A1 Put Funding Notice in respect of the Put Class A1 Notes pursuant to Note Condition 7(f) (*Required Repurchase of Class A1 Notes*), on and from the Class A1 Scheduled Put Date, the relevant Put Class A1 Investor Interest; and
- (ii) if the Class A1 Investor Interest is not reduced to zero on the then-current Class A1 Scheduled Redemption Date, all of the Class A1 Investor Interest.

"**Class A1 Extension Period**" means, either:

- (i) in respect of the Class A1 Scheduled Redemption Date, the period from the initial Class A1 Scheduled Redemption Date to and including the 12<sup>th</sup> Interest Payment Date thereafter, **provided that**, if a Class A1 Reset has occurred in respect of the Class A1 Notes, then such period shall instead commence on the reset Class A1 Scheduled Redemption Date; and
- (ii) in respect of any Class A1 Scheduled Put Date, the period from such Class A1 Scheduled Put Date immediately prior to the extension of such Class A1 Scheduled Put Date to and including the 12<sup>th</sup> Interest Payment Date thereafter.

"**Class A1 Put Funding Notice**" has the meaning given to such term in Note Condition 7(f) (*Required Repurchase of Class A1 Notes*).

"**Class A1 Put Funding Notification Date**" means the first day of the Class A1 Controlled Accumulation Period or, if (as a result of the Servicer determining that it reasonably expects the Class A1 Associated Debt and the Class A1 Related Debt to be refinanced or the Class A1 Scheduled Redemption Date to be reset or extended) there will not be a Class A1 Controlled Accumulation Period in respect of the then current Class A1 Scheduled Redemption Date, such Class A1 Scheduled Redemption Date.

"**Class A1 Put Notice**" means a valid notice given by a Class A1 Noteholder to the Issuer in response to a Class A1 Reset Notice (in the form, and in accordance with the process, specified in the Class A1 Reset Notice) on or before the relevant Class A1 Put Notification Date indicating that it requires the Issuer to repurchase its Class A1 Notes in accordance with Note Condition 7(f) (*Required Repurchase of Class A1*

Notes) and undertaking for the benefit of the Issuer to inform the Issuer of any subsequent transfer of such Class A1 Notes and to require any transferee to grant a similar undertaking.

**"Class A1 Put Notification Date"** means, in respect of a Class A1 Reset, the date which is the earlier of (i) the date falling 20 Business Days after the date on which the Class A1 Reset Notice is served and (ii) the date falling 10 Business Days prior to the relevant Class A1 Put Funding Notification Date.

**"Class A1 Reset Notification Date"** means, in respect of a Class A1 Reset, the date falling 20 Business Days prior to the relevant Class A1 Put Funding Notification Date.

**"Class A1 Scheduled Put Date"** means, if one or more Class A1 Noteholders has, in response to a Class A1 Reset Notice, delivered a Class A1 Put Notice on or prior to the relevant Class A1 Put Notification Date, the Interest Payment Date which was the Class A1 Scheduled Redemption Date prior to the Class A1 Reset or, if a Class A1 Put Deferral Notice is delivered in respect of such Class A1 Scheduled Put Date, any Interest Payment Date falling within the relevant Class A1 Extension Period as specified in such Class A1 Put Deferral Notice.

**"Class A1 Scheduled Redemption Date"** is not applicable.

**"Put Class A1 Investor Interest"** means, in respect of any Put Class A1 Notes with the same Class A1 Scheduled Put Date, an amount of the Class A1 Investor Interest which is equal to the same proportion of the total Class A1 Investor Interest as the Principal Amount Outstanding of such Put Class A1 Notes represents of the Principal Amount Outstanding of all the Class A1 Notes.

**"Put Class A1 Notes"** shall mean, if one or more Class A1 Noteholders has, in response to a Class A1 Reset Notice that has not been revoked, delivered a Class A1 Put Notice on or prior to the relevant Class A1 Put Notification Date that has not been revoked, all the Class A1 Notes held by such Class A1 Noteholders, unless and until such Class A1 Notes have been (a) repurchased by the Issuer using third party funds pursuant to Note Condition 7(f)(ii) (*Required Repurchase of Class A1 Notes*) or (b) purchased directly or indirectly by a third party (which may be a member of the NewDay Group or another Noteholder) which notifies the Issuer that it does not wish such Class A1 Notes to be treated as "Put Class A1 Notes".

#### ***Class A2 Scheduled Redemption Date***

The Class A2 Notes will be redeemed on the Class A2 Scheduled Redemption Date, to the extent that principal repayments (including, but not limited to, repayments as a result of the accumulation of Principal Collections during the Class A2 Controlled Accumulation Period or the issue of a Replacement Series (as more particularly described in "*Class A2 Controlled Accumulation Period*" above)) are made under the Class A2 Loan Note, as fully set out in Note Condition 7(a) (*Scheduled Redemption and Mandatory, Early Redemption*). If the Class A2 Investor Interest is not reduced to zero on the Class A2 Scheduled Redemption Date, then a Class A2 Rapid Amortisation Period will commence (see "*Class A2 Rapid Amortisation Period*" below).

The Class A2 Scheduled Redemption Date may be postponed to a later Interest Payment Date falling within the Class A2 Extension Period and no later than the Series 2020-1 Scheduled Redemption Date (see "*Extension to Series 2020-1 Scheduled Redemption Date, Class A1 Scheduled Redemption Date, Class A2 Scheduled Redemption Date and/or Class A3 Scheduled Redemption Date*" below).

Further, for so long as the Class A2 Scheduled Redemption Date is earlier than the initial Series 2020-1 Scheduled Redemption Date, the Issuer (or the Cash Manager on its behalf) may, on or before the Class A2 Reset Notification Date, deliver a reset notice to the Class A2 Noteholders (with a copy to the Swap Counterparty) setting out the details of a Class A2 Reset (a "**Class A2 Reset Notice**"). A "**Class A2 Reset**" shall be applicable to the Class A2 Notes, and a Class A2 Reset Notice shall set out (i) the terms on which the Issuer will reset the Class A2 Scheduled Redemption Date and the Rate of Interest applicable to the Class A2 Notes and any consequential changes to the terms of the Class A2 Notes, the Class A2 Swap Agreement (if applicable), the other Issuer Documents and/or the Transaction Documents, and (ii) the date on which the Class A2 Reset shall take effect (which shall be a date falling on or after the Class A2 Put Notification Date (as defined below) and on or before the then-current Class A2 Scheduled Redemption Date). The Issuer (or the Cash Manager on its behalf) may revoke the first-delivered Class A2 Reset Notice at any time prior to the then current Class A2 Scheduled Redemption Date, in which case such Class A2 Reset Notice (and any Class A2 Put Notices (as defined below) delivered in respect of it) shall be of no

effect (and the Issuer (or the Cash Manager on its behalf) may, on the first such revocation only and no later than the Class A2 Reset Notification Date, deliver one further Class A2 Reset Notice).

If the Issuer (or the Cash Manager on its behalf) has delivered a Class A2 Reset Notice (that has not been revoked), the Class A2 Scheduled Redemption Date will, with effect from the date specified in the Class A2 Reset Notice, be reset to the date specified in the Class A2 Reset Notice (such date to be an Interest Payment Date falling on or prior to the initial Series 2020-1 Scheduled Redemption Date), and the Rate of Interest applicable to the Class A2 Notes shall be reset to such rate as is specified in the Class A2 Reset Notice (such rate to be a fixed or floating rate that is, in the opinion of the Issuer (or the Cash Manager on its behalf), a market rate), **provided that** no such reset shall be effective unless the Issuer has obtained a Rating Confirmation from each Rating Agency in respect of such Class A2 Reset. If, as a result of the Class A2 Reset, any amendments are required to the terms of the Class A2 Notes that require any amendment to the terms of any of the Issuer Documents or the Transaction Documents, the Class A2 Reset shall only take effect if such amendments are made on or before the date on which such Class A2 Reset is specified to take effect pursuant to the relevant Class A2 Reset Notice. For the avoidance of doubt, any changes to the Class A2 Swap Agreement (if applicable) that the Issuer may propose in connection with a Class A2 Reset can only be made if the Swap Counterparty consents to such changes.

If the Issuer (or the Cash Manager on its behalf) has delivered a Class A2 Reset Notice (that has not been revoked), each Class A2 Noteholder may: (i) deliver a Class A2 Put Notice to the Issuer in respect of such Class A2 Reset Notice (in the form, and in accordance with the process, specified in the Class A2 Reset Notice); or (ii) deliver a notice to the Issuer (or otherwise enter into documentation) agreeing to waive its right to deliver a Class A2 Put Notice in respect of such Class A2 Reset Notice (a "**Class A2 Put Waiver**"), in each case, on or before the Class A2 Put Notification Date. A Class A2 Put Notice from any Class A2 Noteholder shall only be legally binding if delivered in the form, and in accordance with the process, specified in the Class A2 Reset Notice. The Issuer shall be entitled to rely on any Class A2 Put Waiver from a Class A2 Noteholder and further, any subsequent Class A2 Put Notice delivered in respect of the Class A2 Notes held by such Class A2 Noteholder by: (a) such Class A2 Noteholder; or (b) any person to which such Class A2 Noteholder transfers all or part of its holding of Class A2 Notes after such Class A2 Noteholder has delivered or otherwise entered into a Class A2 Put Waiver shall not be legally binding.

If a Class A2 Put Notice has been delivered by one or more Class A2 Noteholders on or before the Class A2 Put Notification Date and such notice has not been revoked prior to the Class A2 Scheduled Put Date, then (unless the Cash Manager has delivered a Class A2 Put Funding Notice (as defined in Note Condition 7(g) (*Required Repurchase of Class A2 Notes*))), on the Transfer Date immediately prior to the Class A2 Scheduled Put Date, the Receivables Trustee shall utilise Undivided Bare Trust Property to make distributions to the Series 2020-1 Investor Beneficiary sufficient to repay the Principal Amount Outstanding of the Amortising Class A2 Investor Interest. The Loan Note Issuer shall utilise any such funds allocated to the Amortising Class A2 Investor Interest to make a repayment on the Class A2 Loan Note. Any principal amount received in respect of any Put Class A2 Notes by the Issuer shall, on the Class A2 Scheduled Put Date, be allocated in accordance with Note Condition 7(g)(i) (*Required Repurchase of Class A2 Notes*) towards the repurchase of the Put Class A2 Notes as advised to the Issuer, the Principal Paying Agent and if applicable, the U.S. Paying Agent by the Cash Manager after any application pursuant to the Class A2 Swap Agreement.

If the Cash Manager has delivered a Class A2 Put Funding Notice in accordance with Note Condition 7(g)(ii) (*Required Repurchase of Class A2 Notes*), there shall be no amortisation of the Class A2 Investor Interest and the Issuer shall instead apply any third party funds received by it in accordance with such Class A2 Put Funding Notice in accordance with Note Condition 7(g)(i) (*Required Repurchase of Class A2 Notes*) towards the repurchase of the Put Class A2 Notes on the Class A2 Scheduled Put Date as advised to the Issuer, the Principal Paying Agent and if applicable, the U.S. Paying Agent by the Cash Manager after any application pursuant to the Class A2 Swap Agreement.

If any Put Class A2 Notes are not repurchased on the Class A2 Scheduled Put Date, a Class A2 Rapid Amortisation Period shall commence (or continue), and the rate of interest applicable to the Class A2 Notes shall, until such Put Class A2 Notes have been repurchased in full, be the greater of (i) that specified in the Class A2 Reset Notice and (ii) the rate which would otherwise have been applicable to the Put Class A2 Notes had such Class A2 Reset not occurred (see Note Condition 6(b) (*Rate of Interest*)).

The Servicer may (**provided that** it has not previously delivered a Class A2 Extension Notice), by written notice to the Receivables Trustee prior to the Interest Payment Date which was the Class A2 Scheduled

Redemption Date prior to the relevant Class A2 Reset (a "**Class A2 Put Deferral Notice**"), delay any Class A2 Scheduled Put Date to a later Interest Payment Date falling within the Class A2 Extension Period.

Any repurchase of the Class A2 Notes by the Issuer shall be at a price equal to their Principal Amount Outstanding together with accrued but unpaid interest thereon.

"**Amortising Class A2 Investor Interest**" shall mean:

- (i) if one or more Class A2 Noteholders has (in response to a Class A2 Reset Notice) delivered a Class A2 Put Notice on or prior to the relevant Class A2 Put Notification Date and the Cash Manager has not delivered a Class A2 Put Funding Notice in respect of the Put Class A2 Notes pursuant to Note Condition 7(g) (*Required Repurchase of Class A2 Notes*), on and from the Class A2 Scheduled Put Date, the relevant Put Class A2 Investor Interest; and
- (ii) if the Class A2 Investor Interest is not reduced to zero on the then-current Class A2 Scheduled Redemption Date, all of the Class A2 Investor Interest.

"**Class A2 Extension Period**" means, either:

- (i) in respect of the Class A2 Scheduled Redemption Date, the period from the initial Class A2 Scheduled Redemption Date to and including the 12<sup>th</sup> Interest Payment Date thereafter, **provided that**, if a Class A2 Reset has occurred in respect of the Class A2 Notes, then such period shall instead commence on the reset Class A2 Scheduled Redemption Date; and
- (ii) in respect of any Class A2 Scheduled Put Date, the period from such Class A2 Scheduled Put Date immediately prior to the extension of such Class A2 Scheduled Put Date to and including the 12<sup>th</sup> Interest Payment Date thereafter.

"**Class A2 Put Funding Notice**" has the meaning given to such term in Note Condition 7(g) (*Required Repurchase of Class A2 Notes*).

"**Class A2 Put Funding Notification Date**" means the first day of the Class A2 Controlled Accumulation Period or, if (as a result of the Servicer determining that it reasonably expects the Class A2 Associated Debt and the Class A2 Related Debt to be refinanced or the Class A2 Scheduled Redemption Date to be reset or extended) there will not be a Class A2 Controlled Accumulation Period in respect of the then current Class A2 Scheduled Redemption Date, such Class A2 Scheduled Redemption Date.

"**Class A2 Put Notice**" means a valid notice given by a Class A2 Noteholder to the Issuer in response to a Class A2 Reset Notice (in the form, and in accordance with the process, specified in the Class A2 Reset Notice) on or before the relevant Class A2 Put Notification Date indicating that it requires the Issuer to repurchase its Class A2 Notes in accordance with Note Condition 7(g) (*Required Repurchase of Class A2 Notes*) and undertaking for the benefit of the Issuer to inform the Issuer of any subsequent transfer of such Class A2 Notes and to require any transferee to grant a similar undertaking.

"**Class A2 Put Notification Date**" means, in respect of a Class A2 Reset, the date which is the earlier of (i) the date falling 20 Business Days after the date on which the Class A2 Reset Notice is served and (ii) the date falling 10 Business Days prior to the relevant Class A2 Put Funding Notification Date.

"**Class A2 Reset Notification Date**" means, in respect of a Class A2 Reset, the date falling 20 Business Days prior to the relevant Class A2 Put Funding Notification Date.

"**Class A2 Scheduled Put Date**" means, if one or more Class A2 Noteholders has, in response to a Class A2 Reset Notice, delivered a Class A2 Put Notice on or prior to the relevant Class A2 Put Notification Date, the Interest Payment Date which was the Class A2 Scheduled Redemption Date prior to the Class A2 Reset or, if a Class A2 Put Deferral Notice is delivered in respect of such Class A2 Scheduled Put Date, any Interest Payment Date falling within the relevant Class A2 Extension Period as specified in such Class A2 Put Deferral Notice.

"**Class A2 Scheduled Redemption Date**" is not applicable.

"**Put Class A2 Investor Interest**" means, in respect of any Put Class A2 Notes with the same Class A2 Scheduled Put Date, an amount of the Class A2 Investor Interest which is equal to the same proportion of

the total Class A2 Investor Interest as the Principal Amount Outstanding of such Put Class A2 Notes represents of the Principal Amount Outstanding of all the Class A2 Notes.

"**Put Class A2 Notes**" shall mean, if one or more Class A2 Noteholders has, in response to a Class A2 Reset Notice that has not been revoked, delivered a Class A2 Put Notice on or prior to the relevant Class A2 Put Notification Date that has not been revoked, all the Class A2 Notes held by such Class A2 Noteholders, unless and until such Class A2 Notes have been (a) repurchased by the Issuer using third party funds pursuant to Note Condition 7(g)(ii) (*Required Repurchase of Class A2 Notes*) or (b) purchased directly or indirectly by a third party (which may be a member of the NewDay Group or another Noteholder) which notifies the Issuer that it does not wish such Class A2 Notes to be treated as "Put Class A2 Notes".

***Class A3 Scheduled Redemption Date***

The Class A3 Notes will be redeemed on the Class A3 Scheduled Redemption Date, to the extent that principal repayments (including, but not limited to, repayments as a result of the accumulation of Principal Collections during the Class A3 Controlled Accumulation Period or the issue of a Replacement Series (as more particularly described in "*Class A3 Controlled Accumulation Period*" above)) are made under the Class A3 Loan Note, as fully set out in Note Condition 7(a) (*Scheduled Redemption and Mandatory, Early Redemption*). If the Class A3 Investor Interest is not reduced to zero on the Class A3 Scheduled Redemption Date, then a Class A3 Rapid Amortisation Period will commence (see "*Class A3 Rapid Amortisation Period*" below).

The Class A3 Scheduled Redemption Date may be postponed to a later Interest Payment Date falling within the Class A3 Extension Period and no later than the Series 2020-1 Scheduled Redemption Date (see "*Extension to Series 2020-1 Scheduled Redemption Date, Class A1 Scheduled Redemption Date, Class A2 Scheduled Redemption Date and/or Class A3 Scheduled Redemption Date*" below).

Further, for so long as the Class A3 Scheduled Redemption Date is earlier than the initial Series 2020-1 Scheduled Redemption Date the Issuer (or the Cash Manager on its behalf) may, on or before the Class A3 Reset Notification Date, deliver a reset notice to the Class A3 Noteholders setting out the details of a Class A3 Reset (a "**Class A3 Reset Notice**"). A "**Class A3 Reset**" shall be applicable to the Class A3 Notes, and a Class A3 Reset Notice shall set out (i) the terms on which the Issuer will reset the Class A3 Scheduled Redemption Date and the Rate of Interest applicable to the Class A3 Notes and any consequential changes to the terms of the Class A3 Notes, any of the Issuer Documents and/or the Transaction Documents, and (ii) the date on which the Class A3 Reset shall take effect (which shall be a date falling on or after the Class A3 Put Notification Date (as defined below) and on or before the then-current Class A3 Scheduled Redemption Date). The Issuer (or the Cash Manager on its behalf) may revoke the first-delivered Class A3 Reset Notice at any time prior to the then current Class A3 Scheduled Redemption Date, in which case such Class A3 Reset Notice (and any Class A3 Put Notices (as defined below) delivered in respect of it) shall be of no effect (and the Issuer (or the Cash Manager on its behalf) may, on the first such revocation only and no later than the Class A3 Reset Notification Date, deliver one further Class A3 Reset Notice).

If the Issuer (or the Cash Manager on its behalf) has delivered a Class A3 Reset Notice (that has not been revoked), the Class A3 Scheduled Redemption Date will, with effect from the date specified in the Class A3 Reset Notice, be reset the date specified in the Class A3 Reset Notice (such date to be an Interest Payment Date falling on or prior to the initial Series 2020-1 Scheduled Redemption Date), and the Rate of Interest applicable to the Class A3 Notes shall be reset to such rate as is specified in the Class A3 Reset Notice (such rate to be a fixed or floating rate that is, in the opinion of the Issuer (or the Cash Manager on its behalf), a market rate), **provided that** no such reset shall be effective unless the Issuer has obtained a Rating Confirmation from each Rating Agency in respect of such Class A3 Reset. If, as a result of the Class A3 Reset, any amendments are required to the terms of the Class A3 Notes that require any amendment to the terms of any of the Issuer Documents or the Transaction Documents, the Class A3 Reset shall only take effect if such amendments are made on or before the date on which such Class A3 Reset is specified to take effect pursuant to the relevant Class A3 Reset Notice.

If the Issuer (or the Cash Manager on its behalf) has delivered a Class A3 Reset Notice (that has not been revoked), each Class A3 Noteholder may: (i) deliver a Class A3 Put Notice to the Issuer in respect of such Class A3 Reset Notice (in the form, and in accordance with the process, specified in the Class A3 Reset Notice); or (ii) deliver a notice to the Issuer (or otherwise enter into documentation) agreeing to waive its right to deliver a Class A3 Put Notice in respect of such Class A3 Reset Notice (a "**Class A3 Put Waiver**"), in each case, on or before the Class A3 Put Notification Date. A Class A3 Put Notice from any Class A3

Noteholder shall only be legally binding if delivered in the form, and in accordance with the process, specified in the Class A3 Reset Notice. The Issuer shall be entitled to rely on any Class A3 Put Waiver from a Class A3 Noteholder and further, any subsequent Class A3 Put Notice delivered in respect of the Class A3 Notes held by such Class A3 Noteholder by: (a) such Class A3 Noteholder; or (b) any person to which such Class A3 Noteholder transfers all or part of its holding of Class A3 Notes after such Class A3 Noteholder has delivered or otherwise entered into a Class A3 Put Waiver shall not be legally binding.

If a Class A3 Put Notice has been delivered by one or more Class A3 Noteholders on or before the Class A3 Put Notification Date and such notice has not been revoked prior to the Class A3 Scheduled Put Date, then (unless the Cash Manager has delivered a Class A3 Put Funding Notice (as defined in Note Condition 7(h) (*Required Repurchase of Class A3 Notes*))), on the Transfer Date immediately prior to the Class A3 Scheduled Put Date, the Receivables Trustee shall utilise Undivided Bare Trust Property to make distributions to the Series 2020-1 Investor Beneficiary sufficient to repay the Principal Amount Outstanding of the Amortising Class A3 Investor Interest. The Loan Note Issuer shall utilise any such funds allocated to the Amortising Class A3 Investor Interest to make a repayment on the Class A3 Loan Note. Any principal amount received in respect of any Put Class A3 Notes by the Issuer shall, on the Class A3 Scheduled Put Date, be allocated in accordance with Note Condition 7(h)(i) (*Required Repurchase of Class A3 Notes*) towards the repurchase of the Put Class A3 Notes as advised to the Issuer and the Principal Paying Agent by the Cash Manager.

If the Cash Manager has delivered a Class A3 Put Funding Notice in accordance with Note Condition 7(h)(ii) (*Required Repurchase of Class A3 Notes*), there shall be no amortisation of the Class A3 Investor Interest and the Issuer shall instead apply any third party funds received by it in accordance with such Class A3 Put Funding Notice in accordance with Note Condition 7(h)(i) (*Required Repurchase of Class A3 Notes*) towards the repurchase of the Put Class A3 Notes on the Class A3 Scheduled Put Date as advised to the Issuer and the Principal Paying Agent by the Cash Manager.

If any Put Class A3 Notes are not repurchased on the Class A3 Scheduled Put Date, a Class A3 Rapid Amortisation Period shall commence (or continue), and the rate of interest applicable to the Class A3 Notes shall, until such Put Class A3 Notes have been repurchased in full, be the greater of (i) that specified in the Class A3 Reset Notice and (ii) the rate which would otherwise have been applicable to the Put Class A3 Notes had such Class A3 Reset not occurred (see Note Condition 6(b) (*Rate of Interest*)).

The Servicer may (**provided that** it has not previously delivered a Class A3 Extension Notice), by written notice to the Receivables Trustee prior to the Interest Payment Date which was the Class A3 Scheduled Redemption Date prior to the relevant Class A3 Reset (a "**Class A3 Put Deferral Notice**"), delay any Class A3 Scheduled Put Date to a later Interest Payment Date falling within the Class A3 Extension Period.

Any repurchase of the Class A3 Notes by the Issuer shall be at a price equal to their Principal Amount Outstanding together with accrued but unpaid interest thereon.

"**Class A3 Extension Period**" means, either:

- (i) in respect of the Class A3 Scheduled Redemption Date, the period from the initial Class A3 Scheduled Redemption Date to and including the 12<sup>th</sup> Interest Payment Date thereafter, **provided that**, if a Class A3 Reset has occurred in respect of the Class A3 Notes, then such period shall instead commence on the reset Class A3 Scheduled Redemption Date; and
- (ii) in respect of any Class A3 Scheduled Put Date, the period from such Class A3 Scheduled Put Date immediately prior to the extension of such Class A3 Scheduled Put Date to and including the 12<sup>th</sup> Interest Payment Date thereafter.

"**Class A3 Put Funding Notice**" has the meaning given to such term in Note Condition 7(h) (*Required Repurchase of Class A3 Notes*).

"**Class A3 Put Funding Notification Date**" means the first day of the Class A3 Controlled Accumulation Period or, if (as a result of the Servicer determining that it reasonably expects the Class A3 Associated Debt and the Class A3 Related Debt to be refinanced or the Class A3 Scheduled Redemption Date to be reset or extended) there will not be a Class A3 Controlled Accumulation Period in respect of the then current Class A3 Scheduled Redemption Date, such Class A3 Scheduled Redemption Date.

"**Class A3 Put Notice**" means a valid notice given by a Class A3 Noteholder to the Issuer in response to a Class A3 Reset Notice (in the form, and in accordance with the process, specified in the Class A3 Reset Notice) on or before the relevant Class A3 Put Notification Date indicating that it requires the Issuer to repurchase its Class A3 Notes in accordance with Note Condition 7(h) (*Required Repurchase of Class A3 Notes*) and undertaking for the benefit of the Issuer to inform the Issuer of any subsequent transfer of such Class A3 Notes and to require any transferee to grant a similar undertaking.

"**Class A3 Put Notification Date**" means, in respect of a Class A3 Reset, the date which is the earlier of (i) the date falling 20 Business Days after the date on which the Class A3 Reset Notice is served and (ii) the date falling 10 Business Days prior to the relevant Class A3 Put Funding Notification Date.

"**Class A3 Scheduled Redemption Date**" shall mean the Interest Payment Date falling in November 2023 or such other later Interest Payment Date falling on or before the initial Series 2020-1 Scheduled Redemption Date as may be specified by the Issuer (or the Cash Manager on its behalf) in a Class A3 Reset Notice that has not been revoked or, if a Class A3 Extension Notice is delivered, any Interest Payment Date falling within the Class A3 Extension Period as specified in such Class A3 Extension Notice.

"**Put Class A3 Investor Interest**" means, in respect of any Put Class A3 Notes with the same Class A3 Scheduled Put Date, an amount of the Class A3 Investor Interest which is equal to the same proportion of the total Class A3 Investor Interest as the Principal Amount Outstanding of such Put Class A3 Notes represents of the Principal Amount Outstanding of all the Class A3 Notes.

"**Put Class A3 Notes**" shall mean, if one or more Class A3 Noteholders has, in response to a Class A3 Reset Notice that has not been revoked, delivered a Class A3 Put Notice on or prior to the relevant Class A3 Put Notification Date that has not been revoked, all the Class A3 Notes held by such Class A3 Noteholders, unless and until such Class A3 Notes have been (a) repurchased by the Issuer using third party funds pursuant to Note Condition 7(h)(ii) (*Required Repurchase of Class A3 Notes*) or (b) purchased directly or indirectly by a third party (which may be a member of the NewDay Group or another Noteholder) which notifies the Issuer that it does not wish such Class A3 Notes to be treated as "Put Class A3 Notes".

### **Series 2020-1 Optional Amortisation**

The Series 2020-1 Investor Beneficiary (acting on the instructions of the Transferor Beneficiary pursuant to the provisions of the Beneficiaries Deed) may, with at least five Business Days' notice, direct the Receivables Trustee in writing to effect an amortisation, using amounts standing to the credit of the Series 2020-1 Principal Funding Ledger in the Receivables Trustee Investment Account, of the whole of one or more Extended Maturity Investor Interests on any Transfer Date within the Series 2020-1 Extension Period, the Class A1 Extension Period, the Class A2 Extension Period and/or the Class A3 Extension Period, as applicable (each such amortisation being a "**Series 2020-1 Optional Amortisation**", each such date on which a Series 2020-1 Optional Amortisation occurs being a "**Series 2020-1 Optional Amortisation Date**" and each such amount being a "**Series 2020-1 Optional Amortisation Amount**").

A Series 2020-1 Optional Amortisation may occur only if, on or prior to the relevant Series 2020-1 Optional Amortisation Date, each Extended Maturity Investor Interest with a Specified Maturity Date falling on or prior to the Specified Maturity Date of each Extended Maturity Investor Interest subject to such Series 2020-1 Optional Amortisation has been or will be reduced to zero.

Any Series 2020-1 Optional Amortisation Amount in respect of the amortisation of an Extended Maturity Investor Interest shall be allocated to that Extended Maturity Investor Interest.

Such Series 2020-1 Optional Amortisation Amounts shall be credited to the Series 2020-1 Ledger of the Loan Note Issuer Distribution Account, in order to make distributions to fund the redemption of the whole of (or the whole of the portion of) the Series 2020-1 Loan Note(s) corresponding with the Extended Maturity Investor Interest. See "*The Series 2020-1 Loan Notes – Series 2020-1 Optional Amortisation*".

Any Series 2020-1 Optional Amortisation Amount shall not exceed the lesser of (1) the Series 2020-1 Investor Interest (or the relevant part thereof) and (2) the amount standing to the credit of the Series 2020-1 Principal Funding Ledger of the Receivables Trustee Investment Account on the Series 2020-1 Optional Amortisation Date.

- (g) in respect of each Put Class A3 Investor Interest; the relevant Class A3 Scheduled Put Date.

**Partial Amortisation**

If, on any Determination Date, a Partial Amortisation Event occurs (as defined below), the Servicer shall notify the Receivables Trustee (a "**Partial Amortisation Notice**") and will (on behalf of the Receivables Trustee) apply Cash Available for Investment equal to the Partial Amortisation Amount (if any) for each Outstanding Series in Group One on the Transfer Date following such Determination Date to make a repayment in respect of such Series in Group One (each such repayment being referred to as "**Partial Amortisation**") on such Transfer Date (a "**Partial Amortisation Date**").

The Servicer shall certify in any Partial Amortisation Notice or otherwise in advance of any Partial Amortisation Date that a Partial Amortisation Event has occurred and shall specify the Partial Amortisation Amount (if any) which it has determined for each Series in Group One, including Series 2020-1.

Any Partial Amortisation Amount paid to the Series 2020-1 Investor Beneficiary shall be allocated between the various classes in Series 2020-1 *pro rata*, unless the Servicer certifies that, in its opinion, a different allocation is necessary in order to (i) avoid a Pay Out Event or (ii) avoid any Rating Agency reducing or withdrawing its rating of any of the Series 2020-1 Associated Debt, in which case such Partial Amortisation Amount shall be allocated between the various classes of Series 2020-1 as the Servicer shall determine is necessary to avoid the relevant event.

"**Partial Amortisation Amount**" shall mean, in respect of any Partial Amortisation Event in respect of which a Partial Amortisation Notice is issued by the Servicer, the amount of the Cash Available for Investment standing to the credit of the Receivables Trustee Investment Account on the relevant Determination Date (excluding, for the avoidance of doubt, any amounts held in any liquidity reserve ledger or any other ledger which is not expressly stated to hold Cash Available for Investment) which the Servicer determines, in its opinion, on such Determination Date, will not be required for any other purpose on the following Transfer Date, together with, in respect of any Series that will be repaid in full as a result of the Partial Amortisation Event, amounts held in the liquidity reserve ledger, principal funding ledger or any other ledger in respect of such Series, as determined by the Servicer and notified to the Receivables Trustee, the Transferor and the Series 2020-1 Investor Beneficiary, which is to be allocated to a given Series in Group One, such allocation to be made by the Servicer on the basis of the principle that the Cash Available for Investment (together with any amounts released from any liquidity reserve ledger, principal funding ledger or any other ledger) is to be allocated between Series in the following order of priority:

- (a) *first*, an amount determined by the Servicer as required to be applied towards the accumulation of amounts for, or the amortisation of, each Series in Group One that is in an Accumulation Period or an Amortisation Period or, in the case of a VFN Series, that is required in accordance with its terms to be reduced (in each case *pro rata* with such Series' Adjusted Investor Interest);
- (b) *second*, an amount determined by the Servicer as required to be applied towards the amortisation of each Series to avoid (or increase the chance of avoiding) a Pay Out Event occurring;
- (c) *third*, an amount determined by the Servicer as required to be applied towards the amortisation of each Series in order to ensure that (or increase the chance that) each applicable Rating Agency will not reduce or withdraw its then current rating on any outstanding Rated Debt;
- (d) *fourth*, an amount determined by the Servicer to be applied in its sole discretion towards (i) the amortisation of the Investor Interest (as defined in the Master Framework Agreement) of any VFN Series (other than the Originator VFN Series) and/or (ii) the amortisation of the Originator VFN Excess Amount by an amount such that the Transferor Interest together with the Originator VFN Excess Amount does not fall below the Minimum Transferor Interest; and
- (e) *fifth*, an amount determined by the Servicer to be applied towards the amortisation of each Series (other than the Originator VFN Series) in Group One and their Available Series Originator VFN Subordination (as defined in the Originator VFN Supplement) in priority to each Series' proximity to its Scheduled Redemption Date (such that, for the avoidance of doubt, that Series which is nearest to its Scheduled Redemption Date shall be amortised in full prior to any amortisation of any other Series under this paragraph (e)).

"**Partial Amortisation Event**" shall mean any of the following events:

- (a) where, on any Determination Date, there has been an increase of more than 15 percentage points in the value of the fraction (expressed as a percentage), the numerator of which is the balance of the Receivables Trustee Investment Account (excluding, for the avoidance of doubt, any amounts held in any liquidity reserve ledger or any other ledger which is not expressly stated to hold Cash Available for Investment) on the relevant Determination Date and the denominator of which is the Eligible Receivables Balance on the relevant Determination Date, since the immediately preceding Determination Date;

- (b) the balance of the Cash Available for Investment standing to the credit of the Receivables Trustee Investment Account (excluding, for the avoidance of doubt, any amounts held in any liquidity reserve ledger or any other ledger which is not expressly stated to hold Cash Available for Investment) on any Determination Date is greater than 10 per cent. of the Eligible Receivables Balance and has been greater than 10 per cent. of the Eligible Receivables Balance on the previous five Determination Dates; or
- (c) the average Portfolio Yield for three consecutive Collection Periods less the average Expense Rate for the same period in respect of any Series other than the Originator VFN Series (as such terms are defined in the relevant Series Supplement) is less than 3 per cent. and either (i) such an event constitutes a "Partial Amortisation Event" under any other outstanding Series in Group One or (ii) the Servicer elects, by notice to the Receivables Trustee, to treat such event as a Partial Amortisation Event.

The circumstances where a Partial Amortisation Event may occur are varied. See the risk factor entitled "A Partial Amortisation Event may Result in an Early Redemption of the Notes" for examples of scenarios which may cause a Partial Amortisation Event to occur.

**Rapid Amortisation Period, Class A1 Rapid Amortisation Period, Class A2 Rapid Amortisation Period and Class A3 Rapid Amortisation Period**

***Rapid Amortisation Period***

The "**Rapid Amortisation Period**" for Series 2020-1 will commence on the Business Day succeeding the day on which a Pay Out Event occurs and will continue until the earlier of:

- (i) the Series 2020-1 Termination Date; and
- (ii) the termination of the Receivables Trust.

During the Rapid Amortisation Period, the amount of Principal Collections credited each Business Day to the Receivables Trustee Collection Account which are allocable to the Series 2020-1 Investor Beneficiary will be accumulated on each day by the Receivables Trustee during each Collection Period in the undivided Principal Collections Ledger (as allocable to the Series 2020-1 Investor Beneficiary). At the end of the Collection Period, the amounts so credited will be transferred by the Receivables Trustee (on the related Transfer Date) to the Loan Note Issuer Distribution Account until the Series 2020-1 Termination Date (as defined below).

"**Series 2020-1 Termination Date**" means the earlier to occur of (a) the Distribution Date on which the Series 2020-1 Investor Interest is reduced to zero and is not capable of reinstatement pursuant to the Receivables Trust Deed and Servicing Agreement as supplemented by the Series 2020-1 Supplement, or (b) the Distribution Date falling in November 2028.

As in the Revolving Period, the Controlled Accumulation Period, the Class A1 Controlled Accumulation Period, the Class A2 Controlled Accumulation Period, the Class A3 Controlled Accumulation Period, any Class A1 Rapid Amortisation Period, any Class A2 Rapid Amortisation Period and any Class A3 Rapid Amortisation Period, during each Collection Period during the Rapid Amortisation Period, a specified percentage equal to the amount of Required Retained Principal Collections will be retained within the Receivables Trustee Collection Account of the Receivables Trust and may be deposited in the Loan Note Issuer Distribution Account on a Transfer Date to meet certain payments or distributions to the Loan Note Issuer in respect of Series 2020-1 which it is not able to satisfy from Finance Charge Collections and Acquired Interchange distributed as described above under "*Calculation and Distribution of Finance Charge Collections and Acquired Interchange to the Loan Note Issuer*".

***Class A1 Rapid Amortisation Period***

A "**Class A1 Rapid Amortisation Period**" shall occur:

- (a) if one or more Class A1 Noteholders has, in response to a Class A1 Reset Notice (which has not been revoked), delivered a Class A1 Put Notice on or prior to the relevant Class A1 Put Notification Date (and the Cash Manager has not (i) delivered a Class A1 Put Funding Notice pursuant to Note Condition 7(f) (*Required Repurchase of Class A1 Notes*) or (ii) certified that it reasonably expects

the Put Class A1 Notes to be refinanced or the Class A1 Scheduled Put Date to be extended), and, in such circumstances, the Class A1 Rapid Amortisation Period shall run from (and including) the first day of the Collection Period immediately prior to the Collection Period in which the Class A1 Scheduled Put Date falls (or, if later, the Business Day after a Class A1 Put Notice is first delivered) to (but excluding) the date on which the Amortising Class A1 Investor Interest (if any) is reduced to zero; or

- (b) if the Class A1 Investor Interest is not reduced to zero on the Class A1 Scheduled Redemption Date, and, in such circumstances, the Class A1 Rapid Amortisation Period shall run from (and including) the Business Day immediately following the Class A1 Scheduled Redemption Date to (but excluding) the date on which the Class A1 Investor Interest is reduced to zero,

**provided that** any Class A1 Rapid Amortisation Period shall end on the commencement of the Rapid Amortisation Period.

A Class A1 Rapid Amortisation Period may run concurrently with the Controlled Accumulation Period, the Class A1 Controlled Accumulation Period, the Class A2 Controlled Accumulation Period, the Class A3 Controlled Accumulation Period, a Class A2 Rapid Amortisation Period and/or a Class A3 Rapid Amortisation Period.

On the Transfer Date immediately prior to each Distribution Date during any Class A1 Rapid Amortisation Period, the Receivables Trustee shall utilise Undivided Bare Trust Property (being the Class A1 Fixed Percentage of the amount of Available Retained Principal Collections) to make distributions to the Series 2020-1 Investor Beneficiary sufficient to repay the Principal Amount Outstanding of the Amortising Class A1 Investor Interest. The Loan Note Issuer shall utilise any such funds allocated to the Amortising Class A1 Investor Interest on each Transfer Date during such Class A1 Rapid Amortisation Period to make repayments on the Class A1 Loan Note. Any principal amount received in respect of any Class A1 Notes by the Issuer during a Class A1 Rapid Amortisation Period on any Interest Payment Date shall:

- (i) if such Class A1 Rapid Amortisation Period has occurred as a result of one or more Class A1 Noteholders delivering a Class A1 Put Notice on or prior to the relevant Class A1 Put Notification Date, be applied in accordance with Note Condition 7(f)(i) (*Required Repurchase of Class A1 Notes*) towards the repurchase of the Put Class A1 Notes, as advised to the Issuer, the Principal Paying Agent and (if applicable) the U.S. Paying Agent by the Cash Manager after any application pursuant to the Class A1 Swap Agreement; or
- (ii) if such Class A1 Rapid Amortisation Period has occurred as a result of the Class A1 Investor Interest not being reduced to zero on the Class A1 Scheduled Redemption Date, be applied in accordance with Note Condition 7(a) (*Scheduled Redemption and Mandatory, Early Redemption*) in redeeming the Class A1 Notes.

**Concurrent Operation of the Class A1 Controlled Accumulation Period and a Class A1 Rapid Amortisation Period**

If the Class A1 Controlled Accumulation Period is running concurrently with a Class A1 Rapid Amortisation Period, then the Class A1 Fixed Percentage of the amount of Available Retained Principal Collections will be allocated between:

- (i) funding the Class A1 Controlled Deposit Amount; and
- (ii) funding the redemption of the Amortising Class A1 Investor Interest,

*pro rata* to the amount of the Class A1 Investor Interest for which the Class A1 Controlled Deposit Amount is being accumulated and the amount of the Amortising Class A1 Investor Interest, in each case as at the end of the Revolving Period. The maximum amount distributable from the Principal Collections Ledger in respect of the Class A1 Notes in such circumstances shall be the sum of the Class A1 Controlled Deposit Amount and the Amortising Class A1 Investor Interest, and:

- (i) any amount of Principal Collections allocated to the Class A1 Investor Interest for which the Class A1 Controlled Deposit Amount is being accumulated which is in excess of the Class A1 Controlled Deposit Amount shall be reallocated, first, to fund the redemption of the Amortising Class A1 Investor Interest and, thereafter, in accordance with the provisions above; and

- (ii) any amount of Principal Collections allocated to the Amortising Class A1 Investor Interest in excess of the amount required to redeem the Amortising Class A1 Investor Interest shall be reallocated, first, to fund the Class A1 Controlled Deposit Amount and, thereafter, in accordance with the provisions above.

If a Class A1 Rapid Amortisation Period commences in circumstances where the Class A1 Controlled Accumulation Period is continuing, then only a proportion of any funds standing to the credit of the Series 2020-1 Principal Funding Ledger in respect of Class A1 and a proportion of any funds standing to the credit of the Class A1 Accumulation Reserve Ledger will be applied for the benefit of the Amortising Class A1 Investor Interest on the following Transfer Date. Such proportion shall be equal to the proportion which the Amortising Class A1 Investor Interest represents of the total Class A1 Investor Interest.

***Class A2 Rapid Amortisation Period***

A "Class A2 Rapid Amortisation Period" shall occur:

- (a) if one or more Class A2 Noteholders has, in response to a Class A2 Reset Notice (which has not been revoked), delivered a Class A2 Put Notice on or prior to the relevant Class A2 Put Notification Date (and the Cash Manager has not (i) delivered a Class A2 Put Funding Notice pursuant to Note Condition 7(g) (*Required Repurchase of Class A2 Notes*) or (ii) certified that it reasonably expects the Put Class A2 Notes to be refinanced or the Class A2 Scheduled Put Date to be extended), and, in such circumstances, the Class A2 Rapid Amortisation Period shall run from (and including) the first day of the Collection Period immediately prior to the Collection Period in which the Class A2 Scheduled Put Date falls (or, if later, the Business Day after a Class A2 Put Notice is first delivered) to (but excluding) the date on which the Amortising Class A2 Investor Interest (if any) is reduced to zero; or
- (b) if the Class A2 Investor Interest is not reduced to zero on the Class A2 Scheduled Redemption Date, and, in such circumstances, the Class A2 Rapid Amortisation Period shall run from (and including) the Business Day immediately following the Class A2 Scheduled Redemption Date to (but excluding) the date on which the Class A2 Investor Interest is reduced to zero,

**provided that** any Class A2 Rapid Amortisation Period shall end on the commencement of the Rapid Amortisation Period.

A Class A2 Rapid Amortisation Period may run concurrently with the Controlled Accumulation Period, the Class A1 Controlled Accumulation Period, the Class A2 Controlled Accumulation Period, the Class A3 Controlled Accumulation Period, a Class A1 Rapid Amortisation Period and/or a Class A3 Rapid Amortisation Period.

On the Transfer Date immediately prior to each Distribution Date during any Class A2 Rapid Amortisation Period, the Receivables Trustee shall utilise Undivided Bare Trust Property (being the Class A2 Fixed Percentage of the amount of Available Retained Principal Collections) to make distributions to the Series 2020-1 Investor Beneficiary sufficient to repay the Principal Amount Outstanding of the Amortising Class A2 Investor Interest. The Loan Note Issuer shall utilise any such funds allocated to the Amortising Class A2 Investor Interest on each Transfer Date during such Class A2 Rapid Amortisation Period to make repayments on the Class A2 Loan Note. Any principal amount received in respect of any Class A2 Notes by the Issuer during a Class A2 Rapid Amortisation Period on any Interest Payment Date shall:

- (i) if such Class A2 Rapid Amortisation Period has occurred as a result of one or more Class A2 Noteholders delivering a Class A2 Put Notice on or prior to the relevant Class A2 Put Notification Date, be applied in accordance with Note Condition 7(g)(i) (*Required Repurchase of Class A2 Notes*) towards the repurchase of the Put Class A2 Notes, as advised to the Issuer, the Principal Paying Agent and (if applicable) the U.S. Paying Agent by the Cash Manager after any application pursuant to the Class A2 Swap Agreement; or
- (ii) if such Class A2 Rapid Amortisation Period has occurred as a result of the Class A2 Investor Interest not being reduced to zero on the Class A2 Scheduled Redemption Date, be applied in accordance with Note Condition 7(a) (*Scheduled Redemption and Mandatory, Early Redemption*) in redeeming the Class A2 Notes.

**Concurrent Operation of the Class A2 Controlled Accumulation Period and a Class A2 Rapid Amortisation Period**

If the Class A2 Controlled Accumulation Period is running concurrently with a Class A2 Rapid Amortisation Period, then the Class A2 Fixed Percentage of the amount of Available Retained Principal Collections will be allocated between:

- (iii) funding the Class A2 Controlled Deposit Amount; and
- (iv) funding the redemption of the Amortising Class A2 Investor Interest,

*pro rata* to the amount of the Class A2 Investor Interest for which the Class A2 Controlled Deposit Amount is being accumulated and the amount of the Amortising Class A2 Investor Interest, in each case as at the end of the Revolving Period. The maximum amount distributable from the Principal Collections Ledger in respect of the Class A2 Notes in such circumstances shall be the sum of the Class A2 Controlled Deposit Amount and the Amortising Class A2 Investor Interest, and:

- (i) any amount of Principal Collections allocated to the Class A2 Investor Interest for which the Class A2 Controlled Deposit Amount is being accumulated which is in excess of the Class A2 Controlled Deposit Amount shall be reallocated, first, to fund the redemption of the Amortising Class A2 Investor Interest and, thereafter, in accordance with the provisions above; and
- (ii) any amount of Principal Collections allocated to the Amortising Class A2 Investor Interest in excess of the amount required to redeem the Amortising Class A2 Investor Interest shall be reallocated, first, to fund the Class A2 Controlled Deposit Amount and, thereafter, in accordance with the provisions above.

If a Class A2 Rapid Amortisation Period commences in circumstances where the Class A2 Controlled Accumulation Period is continuing, then only a proportion of any funds standing to the credit of the Series 2020-1 Principal Funding Ledger in respect of Class A2 and a proportion of any funds standing to the credit of the Class A2 Accumulation Reserve Ledger will be applied for the benefit of the Amortising Class A2 Investor Interest on the following Transfer Date. Such proportion shall be equal to the proportion which the Amortising Class A2 Investor Interest represents of the total Class A2 Investor Interest.

***Class A3 Rapid Amortisation Period***

A "**Class A3 Rapid Amortisation Period**" shall occur:

- (a) if one or more Class A3 Noteholders has, in response to a Class A3 Reset Notice (which has not been revoked), delivered a Class A3 Put Notice on or prior to the relevant Class A3 Put Notification Date (and the Cash Manager has not (i) delivered a Class A3 Put Funding Notice pursuant to Note Condition 7(h) (*Required Repurchase of Class A3 Notes*) or (ii) certified that it reasonably expects the Put Class A3 Notes to be refinanced or the Class A3 Scheduled Put Date to be extended), and, in such circumstances, the Class A3 Rapid Amortisation Period shall run from (and including) the first day of the Collection Period immediately prior to the Collection Period in which the Class A3 Scheduled Put Date falls (or, if later, the Business Day after a Class A3 Put Notice is first delivered) to (but excluding) the date on which the Amortising Class A3 Investor Interest (if any) is reduced to zero; or
- (b) if the Class A3 Investor Interest is not reduced to zero on the Class A3 Scheduled Redemption Date, and, in such circumstances, the Class A3 Rapid Amortisation Period shall run from (and including) the Business Day immediately following the Class A3 Scheduled Redemption Date to (but excluding) the date on which the Class A3 Investor Interest is reduced to zero,

**provided that** any Class A3 Rapid Amortisation Period shall end on the commencement of the Rapid Amortisation Period.

A Class A3 Rapid Amortisation Period may run concurrently with the Controlled Accumulation Period, the Class A1 Controlled Accumulation Period, the Class A2 Controlled Accumulation Period, the Class A3 Controlled Accumulation Period, a Class A1 Rapid Amortisation Period and/or a Class A2 Rapid Amortisation Period.

On the Transfer Date immediately prior to each Distribution Date during any Class A3 Rapid Amortisation Period, the Receivables Trustee shall utilise Undivided Bare Trust Property (being the Class A3 Fixed Percentage of the amount of Available Retained Principal Collections) to make distributions to the Series 2020-1 Investor Beneficiary sufficient to repay the Principal Amount Outstanding of the Amortising Class A3 Investor Interest. The Loan Note Issuer shall utilise any such funds allocated to the Amortising Class A3 Investor Interest on each Transfer Date during such Class A3 Rapid Amortisation Period to make repayments on the Class A3 Loan Note. Any principal amount received in respect of any Class A3 Notes by the Issuer during a Class A3 Rapid Amortisation Period on any Interest Payment Date shall:

- (i) if such Class A3 Rapid Amortisation Period has occurred as a result of one or more Class A3 Noteholders delivering a Class A3 Put Notice on or prior to the relevant Class A3 Put Notification Date, be applied in accordance with Note Condition 7(h)(i) (*Required Repurchase of Class A3 Notes*) towards the repurchase of the Put Class A3 Notes, as advised to the Issuer and the Principal Paying Agent by the Cash Manager; or
- (ii) if such Class A3 Rapid Amortisation Period has occurred as a result of the Class A3 Investor Interest not being reduced to zero on the Class A3 Scheduled Redemption Date, be applied in accordance with Note Condition 7(a) (*Scheduled Redemption and Mandatory, Early Redemption*) in redeeming the Class A3 Notes.

**Concurrent Operation of the Class A3 Controlled Accumulation Period and a Class A3 Rapid Amortisation Period**

If the Class A3 Controlled Accumulation Period is running concurrently with a Class A3 Rapid Amortisation Period, then the Class A3 Fixed Percentage of the amount of Available Retained Principal Collections will be allocated between:

- (i) funding the Class A3 Controlled Deposit Amount; and
- (ii) funding the redemption of the Amortising Class A3 Investor Interest,

*pro rata* to the amount of the Class A3 Investor Interest for which the Class A3 Controlled Deposit Amount is being accumulated and the amount of the Amortising Class A3 Investor Interest, in each case as at the end of the Revolving Period. The maximum amount distributable from the Principal Collections Ledger in respect of the Class A3 Notes in such circumstances shall be the sum of the Class A3 Controlled Deposit Amount and the Amortising Class A3 Investor Interest, and:

- (iii) any amount of Principal Collections allocated to the Class A3 Investor Interest for which the Class A3 Controlled Deposit Amount is being accumulated which is in excess of the Class A3 Controlled Deposit Amount shall be reallocated, first, to fund the redemption of the Amortising Class A3 Investor Interest and, thereafter, in accordance with the provisions above; and
- (iv) any amount of Principal Collections allocated to the Amortising Class A3 Investor Interest in excess of the amount required to redeem the Amortising Class A3 Investor Interest shall be reallocated, first, to fund the Class A3 Controlled Deposit Amount and, thereafter, in accordance with the provisions above.

If a Class A3 Rapid Amortisation Period commences in circumstances where the Class A3 Controlled Accumulation Period is continuing, then only a proportion of any funds standing to the credit of the Series 2020-1 Principal Funding Ledger in respect of Class A3 and a proportion of any funds standing to the credit of the Class A3 Accumulation Reserve Ledger will be applied for the benefit of the Amortising Class A3 Investor Interest on the following Transfer Date. Such proportion shall be equal to the proportion which the Amortising Class A3 Investor Interest represents of the total Class A3 Investor Interest.

**Calculation of Principal Collections to be Distributed to the Loan Note Issuer in respect of Series 2020-1**

During the Revolving Period, the calculation of amounts available for distribution to the Loan Note Issuer in respect of Principal Collections will be determined on the basis of the Floating Investor Percentage for the Collection Period in which such Principal Collections arise. During the Controlled Accumulation Period, the Class A1 Controlled Accumulation Period, the Class A2 Controlled Accumulation Period, the Class A3 Controlled Accumulation Period, any Class A1 Rapid Amortisation Period, any Class A2 Rapid

Amortisation Period, any Class A3 Rapid Amortisation Period or the Rapid Amortisation Period, the calculation of amounts available for distribution to the Loan Note Issuer in respect of Principal Collections will be determined on the basis of the Fixed Investor Percentage for the Collection Period in which such Principal Collections arise.

The "**Class B Fixed Allocation**", the "**Class C Fixed Allocation**", the "**Class D Fixed Allocation**", the "**Class E Fixed Allocation**" and the "**Class F Fixed Allocation**" will each be calculated by the Receivables Trustee in the same way and will be equal to, for each Class respectively, and with respect to any Collection Period following the end of the Revolving Period, the fraction expressed as a percentage (which percentage shall never exceed 100 per cent.):

- (i) the numerator of which is the investor interest of the relevant Class (i.e. the Class B Investor Interest, the Class C Investor Interest, the Class D Investor Interest, the Class E Investor Interest or the Class F Investor Interest as applicable) as of the close of business on the last day of the Revolving Period; and
- (ii) the denominator of which is equal to the Series 2020-1 Investor Interest as of the close of business on the last day of the Revolving Period.

On each Transfer Date during the Revolving Period, an amount equal to the Available Retained Principal Collections with respect to the related Collection Period will be distributed in the following priority:

- (i) a proportion of such Available Retained Principal Collections will be applied as Shared Principal Collections and allocated to Outstanding Series in Group One other than Series 2020-1 (see "*Shared Principal Collections*" below); and
- (ii) the balance remaining will be transferred to the Receivables Trustee Investment Account as Cash Available for Investment.

"**Available Retained Principal Collections**" shall mean, for the purposes of calculation in respect of a Transfer Date and the preceding Collection Period:

- (i) the aggregate amount of Retained Principal Collections for such Collection Period; *minus*
- (ii) the amount of Reallocated Principal Collections (if any) with respect to such Collection Period which are to be used to fund the Series 2020-1 Required Amount and distributed to the Series 2020-1 Investor Beneficiary; *plus*
- (iii) the amount of Shared Principal Collections with respect to Group One that are allocated to Series 2020-1; *plus*
- (iv) with respect to any Transfer Date falling in any Class A1 Rapid Amortisation Period, any Class A2 Rapid Amortisation Period, any Class A3 Rapid Amortisation Period or the Rapid Amortisation Period, the amount of Principal Loss Make-Up (Charge-off) and Principal Loss Make-Up (Default) calculated pursuant to the Series 2020-1 Supplement.

"**Fixed Investor Percentage**" means, with respect to any Collection Period, the percentage equivalent (which percentage shall never exceed 100 per cent.) of a fraction:

- (i) the numerator of which is the Series 2020-1 Investor Interest at the close of business on the last day of the Revolving Period (whether permanently ended or most recently temporarily suspended); and
- (ii) the denominator of which is the greater of:
  - (a) an amount equal to the Eligible Receivables Balance as at the close of business on the last day of the prior Collection Period; and
  - (b) the sum of (A) the Series 2020-1 Investor Interest as of the close of business on the last day of the Revolving Period (whether permanently ended or most recently temporarily suspended) plus (B) the sum of the numerators used to calculate the Investor Percentages

for distributions with respect to Principal Collections for all Outstanding Series (excluding Series 2020-1) for that Collection Period,

**provided that**, with respect to any Collection Period in which a Subsequent Assignment Date in respect of Accounts with a balance of Existing Receivables or a Re-designation Date in respect of Third Party Re-designated Accounts, as the case may be, occurs, the amount used for the calculation in paragraph (ii)(a) above shall be:

- for the period from (and including) the first day of the Collection Period to (but excluding) the Subsequent Assignment Date or the Re-designation Date, as the case may be, an amount equal to the Eligible Receivables Balance as at the close of business on the last day of the prior Collection Period; and
- for the period from (and including) the Subsequent Assignment Date or the Re-designation Date, as the case may be, to (and including) the last day of the Collection Period, an amount equal to the Eligible Receivables Balance at the beginning of the day on the related Subsequent Assignment Date or Re-designation Date, as the case may be, as adjusted for the Outstanding Face Amount of Eligible Receivables at the beginning of such day added to or, as the case may be, removed from the Undivided Bare Trust on such Subsequent Assignment Date or Re-designation Date, as the case may be,

and **provided further, however, that**, with respect to any Collection Period in which a Relevant Event occurs, the amount used for the calculation in paragraph (ii)(b) above shall be:

- for the period from (and including) the first day of the Collection Period to (but excluding) the date of the Relevant Event, the sum of the numerators used to calculate the Investor Percentages for distributions with respect to Principal Collections for all Outstanding Series (including Series 2020-1) for the relevant Collection Period; and
- for the period from (and including) the date of the Relevant Event to (and including) the last day of the Collection Period, the sum of the numerators used to calculate the Investor Percentages for distributions with respect to Principal Collections for all Outstanding Series (including Series 2020-1) on the date of the Relevant Event, adjusted to take into account the Relevant Event in question.

**"Retained Principal Collections"** shall mean, with respect to any Collection Period, the aggregate amount retained in the undivided Principal Collections Ledger for such Collection Period as set out under *"Beneficial Entitlement of the Loan Note Issuer to Collections"* above.

#### Shared Principal Collections

Series 2020-1 is in Group One, with the effect that Series 2020-1 shares Principal Collections with other Outstanding Series in Group One. At the Series 2020-1 Closing Date, Series 2020-1, Series 2017-1, Series 2015-1, Series VFN-P1, Series VFN-P2 and the Originator VFN Series will be the Outstanding Series in Group One, and further Series issued may also be identified as being in Group One from time to time.

The amount of Principal Collections calculated in respect of Series 2020-1 which are not utilised as Cash Available for Investment and which are not distributed on the related Transfer Date to meet any Class A1 Monthly Principal Amount, Class A2 Monthly Principal Amount, Class A3 Monthly Principal Amount, Class B Monthly Principal Amount, Class C Monthly Principal Amount, Class D Monthly Principal Amount, Class E Monthly Principal Amount or Class F Monthly Principal Amount, or utilised on the related Transfer Date as Reallocated Principal Collections, shall be available as Shared Principal Collections for other Outstanding Series in Group One (other than the Originator VFN Series) and shall be identified as such in the undivided Principal Collections Ledger.

Principal Collections calculated in respect of any other Series in Group One will be shared with Series 2020-1 on any Transfer Date in accordance with the terms of the relevant Series' Supplements. The amount of Shared Principal Collections to be distributed to the Series 2020-1 Investor Beneficiary on any Transfer Date shall be an amount equal to the Series Principal Shortfall, if any, with respect to Series 2020-1 for such Transfer Date, **provided, however, that**, if the aggregate amount of Shared Principal Collections for all Outstanding Series in Group One for such Transfer Date is less than the Cumulative Series Principal Shortfall for such Transfer Date, then Shared Principal Collections to be distributed to Series 2020-1 on such Transfer Date shall equal the lesser of:

- (a) the aggregate of:
  - (i) the Series Additional Principal Collections; plus
  - (ii) the product of (1) Shared Principal Collections for all Outstanding Series in Group One for such Transfer Date less the Cumulative Series Additional Principal Collections and (2)

a fraction, the numerator of which is the amount (if any) of the Remaining Series Principal Shortfall (as defined in the relevant Supplement) with respect to Series 2020-1 for such Transfer Date and the denominator of which is the amount of the Cumulative Remaining Series Principal Shortfall; and

(b) the Series Principal Shortfall,

**provided that**, if any Shared Principal Collections are not allocated to a Series within Group One as a result of the amount which would otherwise be allocated pursuant to the relevant Supplement exceeding the Series Principal Shortfall for such Series (such amount being "**Excess Allocated Principal Collections**"), then the Series 2020-1 Investor Beneficiary shall be entitled to an amount of such Excess Allocated Principal Collections calculated in accordance with the foregoing provisions, as if such Excess Allocated Principal Collections were the amount of available Shared Principal Collections and the Series Principal Shortfall of Series 2020-1 and each other Outstanding Series in Group One were reduced by the amount of Shared Principal Collections allocated to them in accordance with such foregoing provisions and **provided that** such process shall be repeated, *mutatis mutandis*, until all Excess Allocated Principal Collections have been allocated to a Series.

"**Cumulative Remaining Series Principal Shortfall**" shall mean, with respect to any Transfer Date, the aggregate of the Remaining Series Principal Shortfalls (as defined in the relevant Supplement) for each Series in Group One other than the Originator VFN Series.

"**Cumulative Series Additional Principal Collections**" shall mean, with respect to any Transfer Date, the aggregate of the Series Additional Principal Collections (as defined in the relevant Supplement) for each Series in Group One other than the Originator VFN Series.

"**Cumulative Series Principal Shortfall**" shall mean the sum of the Series Principal Shortfalls (as such term is defined in the related Supplement) for each Series in Group One.

"**Series Additional Principal Collections**" shall mean, on any Transfer Date during the Controlled Accumulation Period, the Class A1 Controlled Accumulation Period, the Class A2 Controlled Accumulation Period, the Class A3 Controlled Accumulation Period, any Class A1 Rapid Amortisation Period, any Class A2 Rapid Amortisation Period, any Class A3 Rapid Amortisation Period or the Rapid Amortisation Period, an amount equal to the lesser of:

- (a) the product of (i) Principal Collections available to the Originator VFN Series on such Transfer Date; and (ii) a fraction, the numerator of which is the Available Series 2020-1 Originator VFN Subordination at the end of the Revolving Period (whether permanently ended or most recently temporarily suspended) and the denominator of which is the Originator VFN Investor Interest; and
- (b) the Series Principal Shortfall for such Transfer Date.

"**Series Available Principal**" shall mean the Retained Principal Collections for the related Collection Period plus, during any Class A1 Rapid Amortisation Period, any Class A2 Rapid Amortisation Period, any Class A3 Rapid Amortisation Period or the Rapid Amortisation Period, the aggregate amount of Principal Loss Make-Up (Default) and Principal Loss Make-Up (Charge-off) for the related Collection Period *minus* the Reallocated Principal Collections (if any) for such Collection Period.

"**Shared Principal Collections**" shall mean, as the context may require, either:

- (i) the amount of Principal Collections (which, for the purposes of this definition only shall include Principal Collections from previous Collection Periods that constitute Cash Available for Investment) allocated for the purposes of calculation to Series 2020-1 which may be applied to any series principal shortfall (or equivalent) with respect to other Outstanding Series in Group One; or
- (ii) the amounts of Principal Collections (which, for the purposes of this definition only shall include Principal Collections from previous Collection Periods that constitute Cash Available for Investment) allocated for the purposes of calculation to other Outstanding Series in Group One which the applicable supplements for such Series specify are to be treated as "Shared Principal Collections" which may be applied and distributed to the Series 2020-1 Investor Beneficiary to cover any Series Principal Shortfall with respect to Series 2020-1.

"**Series Principal Shortfall**" shall mean, with respect to any Transfer Date, the excess, if any, of:

- (a)

  - (vii) with respect to any Transfer Date during any Class A3 Rapid Amortisation Period, the Amortising Class A3 Adjusted Investor Interest; and
  - (viii) with respect to the Rapid Amortisation Period, the Series 2020-1 Adjusted Investor Interest,

over
- (b) the Series Available Principal.

**The Originator VFN and the Series Originator VFN Subordination**

The Originator VFN Series was constituted on 18 December 2014 by the Loan Note Issuer increasing its Aggregate Investor Interest in the Trust Property and thereafter having the ability to increase or decrease its Aggregate Investor Interest as provided for in a supplement to the Receivables Trust Deed and Servicing Agreement designated the "**Originator VFN Supplement**" and the associated portion of Investor Interest known as the "**Originator VFN Investor Interest**" with the associated Series being the "**Originator VFN Series**". See "*Other Series Currently in Issue – Originator VFN Series*".

The Originator VFN Series consists of the following parts: (i) a subordination amount for each other Series in Group One, as specified in the relevant Supplement (each being a "**Series Originator VFN Subordination**" and, together, the "**Originator VFN Subordination**" and, taking into account losses and other charge-offs notionally allocated thereto, the "**Available Series Originator VFN Subordination**" and "**Available Originator VFN Subordination**" respectively); and (ii) an amount equal to the Originator VFN Investor Interest less the Available Originator VFN Subordination (the "**Originator VFN Excess Amount**"), such amount being available, as reduced by the amount of losses and charge-offs allocated thereto, among other things, to provide protection to the Investor Beneficiaries against Dilution Losses. The Transferor Interest, together with the Originator VFN Excess Amount, calculated as an average on an aggregate basis, is required to satisfy the Minimum Transferor Interest requirements as further set out in the section entitled "*Series 2020-1 Pay Out Events*".

Series 2020-1 will also be able to use a portion of the available funds of the Originator VFN Series to meet shortfalls in Available Funds and other amounts credited to the Series 2020-1 Finance Charge Collections Ledger for payment of the amounts referred to in paragraphs (1) to (29) under "*Application of Available Funds*".

***Series 2020-1 Originator VFN Subordination; Defaults and Dilution Losses***

On or about the Series 2020-1 Closing Date, the Series Originator VFN Subordination notionally allocated in respect of Series 2020-1 shall be the Series 2020-1 Originator VFN Subordination. In the event there

would be a charge-off for any class of Series 2020-1 following the calculations and applications in respect of Series 2020-1 on a Transfer Date, such charge-off (whether arising as a result of a Default, a Dilution Loss (as to which, see further below) or a reallocation of Principal Collections) will be reallocated to the Available Series 2020-1 Originator VFN Subordination to the extent greater than zero.

At any time, taking into account losses and other charge-offs notionally allocated to the Series 2020-1 Originator VFN Subordination, the notional amount thereof available to Series 2020-1 will be the "**Available Series 2020-1 Originator VFN Subordination**". The Series 2020-1 Originator VFN Subordination may be increased by the Loan Note Issuer at any time by amounts resulting from further contributions in respect of the Originator VFN Series that are notionally allocated to the Series 2020-1 Originator VFN Subordination or by the holders of the Originator VFN Loan Note directing that the notional Originator VFN Excess Amount be reduced and the notional Series 2020-1 Originator VFN Subordination be increased. Any shortfall between the Series 2020-1 Originator VFN Subordination and the Available Series 2020-1 Originator VFN Subordination may be replenished through reinstatement of charge-offs allocated to the Originator VFN Investor Interest that are notionally allocated to the Series 2020-1 Originator VFN Subordination.

100 per cent. of any Dilution Losses that arise in respect of Eligible Receivables will be applied first against the Transferor Interest until reduced to zero and thereafter against the Originator VFN Excess Amount until reduced to zero. Thereafter the portion of such Dilution Losses that are referable to Series 2020-1 in accordance with the relevant calculations are applied first against the Available Series 2020-1 Originator VFN Subordination until reduced to zero and thereafter against the Series 2020-1 Investor Interest, applied to the relevant classes of Series 2020-1 in reverse order of priority.

Further details of the allocation of Default Amounts and Dilution Losses to the Transferor Interest, Originator VFN Excess Amount, Series 2020-1 Originator VFN Subordination and the Series 2020-1 Investor Interest are set out in the sections entitled: "*Defaulted and Dilution Receivables; Investor Charge-offs; Allocation to Series 2020-1 and the Originator VFN*" below.

***Originator VFN Liquidity Support; Finance Charge Collections***

Series 2020-1 will also be able to use a portion of the available funds of the Originator VFN Series to meet shortfalls in Available Funds and other amounts credited to the Series 2020-1 Finance Charge Collections Ledger for payment of the amounts referred to in paragraphs (1) to (29) under "*Application of Available Funds*".

In calculating the amounts that are available to support Series 2020-1, the Servicer will make the following applications of funds available to the Originator VFN Series from Finance Charge Collections and Acquired Interchange allocated to the Originator VFN Series in accordance with its Floating Investor Percentage (collectively, the "**Originator VFN Available Funds**") in the following order of priority (the "**Originator VFN Available Funds Priority**") on each Transfer Date:

- (i) the investor aggregate trustee payment amount for the Originator VFN Series for such Transfer Date plus any such investor aggregate trustee payment amounts remaining unpaid from prior Transfer Dates shall be deposited in the Loan Note Issuer Distribution Account (the Loan Note Issuer will then pay an amount equal to this amount to the Receivables Trustee as Additional Funds for the purpose of satisfying investor aggregate trustee payment amounts);
- (ii) the Loan Note Issuer costs amount for the Originator VFN Series for such Transfer Date plus any such Loan Note Issuer costs amounts remaining unpaid in respect of prior Transfer Dates shall be deposited in the Loan Note Issuer Distribution Account;

  - (x) an amount equal to the aggregate of any remaining Group One Series Finance Charge Shortfall amounts (as defined in the relevant Loan Note Supplements) for all Series in Group One or, if other Series in Group One have available funds remaining for such purpose after paying all relevant items required to be paid in priority and such amounts (each, the "**Group One Series Excess**" in respect of the relevant Series), when aggregated with the balance of Available Funds after making the payments pursuant to paragraphs (i) to (ix) above (the "**Group One Series Excess**" in respect of the Originator VFN Series), exceed the aggregate Group One Series Finance Charge Shortfall, the product of (i) the aggregate of the Group One Series Finance Charge Shortfalls for all Series in Group One and (ii) a fraction, the numerator of which is the Group One Series Excess in respect of the Originator VFN Series and the denominator of which is the aggregate of the Group One Series Excess for all Series in Group One (such amount being known as "**Excess Finance Charges**") shall be distributed to the Loan Note Issuer and shall belong to the Loan Note Issuer absolutely for the purpose of making up shortfalls of available funds for other Series in Group One (as more particularly described in the Originator VFN Loan Note Supplement);
  - (xi) an amount equal to the sum of the Originator VFN Subordination Monthly Finance Amount, the Originator VFN Subordination Deficiency Amount and the Originator VFN Subordination Additional Finance Amount (each as defined in the Originator VFN Supplement) – called the

**"Series Originator VFN Subordination Available Amount"** means, in respect any Series in Group One with an Available Series Originator VFN Subordination of greater than zero on a Transfer Date, an amount equal to the product of (1) a fraction, the numerator of which is the Available Series Originator VFN Subordination for such Series and the denominator of which is the Available Originator VFN Subordination and (2) the amount of Available Funds available after the application in accordance with the terms of the Originator VFN Supplement.

**"Supported Group One Series Finance Charge Shortfall"** means, in respect of any Series in Group One with an Available Series Originator VFN Subordination of greater than zero on a Transfer Date, an amount equal to the lesser of (1) the Group One Series Finance Charge Shortfall for such Series and (2) the Series Originator VFN Subordination Available Amount for such Series.

**"Supported Series Loss Make-Up (Charge-off)"** means, in respect of any Series in Group One with an Available Series Originator VFN Subordination of greater than zero on a Transfer Date, an amount equal to the lesser of (1) the Series Originator VFN Charge-off Amount and (2) an amount equal to (a) the Series Originator VFN Subordination Available Amount less (b) the Supported Group One Series Finance Charge Shortfall and less (c) the Supported Series Loss Make-Up (Default).

**"Supported Series Loss Make-Up (Default)"** means, in respect of any Series in Group One with an Available Series Originator VFN Subordination of greater than zero on a Transfer Date, an amount equal to the lesser of (1) the Series Originator VFN Default Amount and (2) an amount equal to (a) the Series Originator VFN Subordination Available Amount less (b) the Supported Group One Series Finance Charge Shortfall.

***Interest Amounts, Amortisation and Repayment of the Originator VFN***

***Interest Amounts***

Interest shall be payable on the Originator VFN Series in an aggregate amount equal to:

- (i) *first*, the amount of Available Funds referable to the Originator VFN Excess Amount of the Originator VFN Series, after application towards more senior items in the waterfall, will be paid to the holder of the Originator VFN Loan Note in accordance with item (vi) of the Originator VFN Available Funds Priority; and
- (ii) *second*, the Originator VFN Subordination Monthly Finance Amount, that accrues in respect of the Originator VFN Subordination, is payable at item (xi) of the Originator VFN Available Funds Priority.

*Rapid Amortisation*

The Series 2020-1 Originator VFN Subordination can only be amortised by reference to Principal Collections available to the Originator VFN Series following the Series 2020-1 Termination Date. The Originator VFN Series cannot enter rapid amortisation until all other Series in Group One (including Series 2020-1) have been redeemed or have reached their termination dates.

*Optional Amortisation*

Provided (i) no Series in Group One is in an Amortisation Period or Accumulation Period, or (ii) in relation to a specific Series, where the Originator VFN Subordination for that Series may be reduced in accordance with the terms of the relevant Series' Supplement, and only up to the amount of the Originator VFN Subordination for that Series, the Servicer may give notice to the Receivables Trustee (an "**Optional Amortisation Notice**") of an optional amortisation of the Originator VFN Investor Interest (such amortisation being referred to as an "**Optional Amortisation**") in accordance with the paragraphs below and in amount equal to the Optional Amortisation Amount, as defined below.

The Optional Amortisation Notice may specify an optional amortisation period for the Originator VFN Series (the "**Optional Amortisation Period**"), following which the Receivables Trustee shall utilise Undivided Bare Trust Property to make distributions on each Transfer Date during the Optional Amortisation Period to the Originator VFN Investor Beneficiary on the terms specified in the Originator VFN Supplement up to an amount specified in the Optional Amortisation Notice (the "**Optional Amortisation Amount**" in respect of such Optional Amortisation Period). To be valid, the Optional Amortisation Notice shall state the date on which the Optional Amortisation Period shall commence (which shall be the first day of a Collection Period falling no earlier than the date of the delivery of the Optional Amortisation Notice) and the date (if any) on which the Optional Amortisation Period shall end (if the Optional Amortisation Amount has not been distributed to the Originator VFN Investor Beneficiary prior to such date). The Receivables Trustee shall utilise funds allocated to the Originator VFN Investor Interest on each Transfer Date during the Optional Amortisation Period on the terms set out in the Originator VFN Supplement.

The parties to the Originator VFN Supplement may agree to an Optional Amortisation on a date other than a Transfer Date, subject to all necessary amendments or modifications to the Transaction Documents being agreed by the parties thereto at such time, and **provided that** the Optional Amortisation Amount shall consist solely of Cash Available for Investment standing to the credit of the Receivables Trustee Investment Account on such date (excluding, for the avoidance of doubt, any amounts held in any liquidity reserve ledger or any other ledger in the Receivables Trustee Investment Account which is not expressly stated to hold Cash Available for Investment).

No later than two Business Days prior to any Transfer Date, the Servicer may deliver an Optional Amortisation Notice specifying an optional amortisation of the Originator VFN Investor Interest on the following Transfer Date (the "**Optional Amortisation Date**") in an amount (the "**Optional Amortisation Amount**" in respect of such Optional Amortisation Date) up to an amount equal to the amount of Cash Available for Investment standing to the credit of the Receivables Trustee Investment Account on such date to the extent available and not used for any other purpose on the Transfer Date. The Servicer will then apply the Cash Available for Investment for such purpose on the following Transfer Date.

The Optional Amortisation Amount in respect of either an Optional Amortisation Date or an Optional Amortisation Period shall not exceed:

- (i) the lesser of (1) the amount which would cause the sum of (a) the Transferor Interest and (b) the Originator VFN Excess Amount to be reduced to the Minimum Transferor Interest and (2) the maximum amount by which the Originator VFN Investor Interest can be reduced without causing the Transferor's undertaking in respect of its risk retention requirements under the EU Securitisation Regulation and the U.S. Credit Risk Retention Rules to be breached;
- (ii) the amount which would cause the Series Originator VFN Subordination for any Series (other than a VFN Series) to fall below the Series Originator VFN Subordination for such Series as at the Closing Date of such Series, as such amount may be adjusted from time to time in accordance with the terms of the relevant Supplement; or

- (iii) the amount which would cause the Series Originator VFN Subordination for any VFN Series to fall below any minimum amount specified in the relevant Supplement.

"**Originator VFN Investor Beneficiary**" shall mean the Loan Note Issuer, in its capacity as Investor Beneficiary in respect of the Originator VFN Series.

"**Originator VFN Loan Note**" shall mean the asset backed floating rate variable funding Loan Note issued by the Loan Note Issuer to the Transferor pursuant to the Originator VFN Loan Note Supplement.

***Defaulted and Dilution Receivables; Investor Charge-offs; Allocation to Series 2020-1 and the Originator VFN***

*Dilution Losses*

Dilution Losses, when allocated to a Beneficiary Interest, will (subject to such amounts being reinstated in accordance with the Receivables Trust Deed and Servicing Agreement and the relevant Series Supplement), reduce such Beneficiary Interest by an equivalent amount (**provided that** no Beneficiary Interest may be reduced below zero).

Dilution Losses in respect of a Collection Period are allocated to the Transferor Interest under the Receivables Trust Deed and Servicing Agreement until the Transferor Interest is zero, with the remainder, being the Investor Dilution Loss, allocated to the Combined Aggregate Investor Interest for all the Investor Beneficiaries. On each Transfer Date, any Investor Dilution Losses for the relevant Collection Period shall be allocated to the Originator VFN Series and applied towards the Originator VFN Excess Amount of the Originator VFN Investor Interest.

To the extent the Investor Dilution Losses so allocated on a Transfer Date exceed the Originator VFN Excess Amount of the Originator VFN Investor Interest, an amount equal to the product of: (i) the remaining Investor Dilution Losses; and (ii) a fraction, the numerator of which is the Series 2020-1 Adjusted Investor Interest plus the Available Series 2020-1 Originator VFN Subordination and the denominator of which is the Combined Aggregate Adjusted Investor Interest for all Investor Beneficiaries (excluding, for the avoidance of doubt, the Originator VFN Excess Amount) will be applied towards, first, the Available Series 2020-1 Originator VFN Subordination, until it is reduced to zero, and, second, any remainder (such amount the "**Aggregate Investor Dilution Loss**") will be applied against the Series 2020-1 Investor Interest as follows:

- (i) *first*, to Class F up to the amount that would reduce the Class F Investor Interest to zero (taking into account any other Class F Investor Charge-offs on such Transfer Date), such amount the "**Class F Investor Dilution Loss**";
- (ii) *secondly*, to Class E up to the amount that would reduce the Class E Investor Interest to zero (taking into account any other Class E Investor Charge-offs on such Transfer Date), such amount the "**Class E Investor Dilution Loss**";
- (iii) *thirdly*, to Class D up to the amount that would reduce the Class D Investor Interest to zero (taking into account any other Class D Investor Charge-offs on such Transfer Date), such amount the "**Class D Investor Dilution Loss**";
- (iv) *fourthly*, to Class C up to the amount that would reduce the Class C Investor Interest to zero (taking into account any other Class C Investor Charge-offs on such Transfer Date), such amount the "**Class C Investor Dilution Loss**";
- (v) *fifthly*, to Class B up to the amount that would reduce the Class B Investor Interest to zero (taking into account any other Class B Investor Charge-offs on such Transfer Date), such amount the "**Class B Investor Dilution Loss**"; and
- (vi) *sixthly, pro rata and pari passu* (i) to Class A1 up to the amount that would reduce the Class A1 Investor Interest to zero (taking into account any other Class A1 Investor Charge-offs on such Transfer Date), such amount the "**Class A1 Investor Dilution Loss**", (ii) to Class A2 up to the amount that would reduce the Class A2 Investor Interest to zero (taking into account any other Class A2 Investor Charge-offs on such Transfer Date), such amount the "**Class A2 Investor Dilution Loss**", and (iii) to Class A3 up to the amount that would reduce the Class A3 Investor

Interest to zero (taking into account any other Class A3 Investor Charge-offs on such Transfer Date), such amount the "**Class A3 Investor Dilution Loss**".

"**Beneficiary Interest**" means the interest of a Beneficiary in the Receivables Trust.

*Series 2020-1 Defaults and Charge-offs; Allocation to Series 2020-1 Originator VFN Subordination*

A portion of the Series 2020-1 Investor Default Amount will be notionally allocated in calculations on each Transfer Date to each class of Series 2020-1 based on the product of the Class A1 Floating Allocation, the Class A2 Floating Allocation, the Class A3 Floating Allocation, the Class B Floating Allocation, the Class C Floating Allocation, the Class D Floating Allocation, the Class E Floating Allocation or the Class F Floating Allocation (as the case may be) applicable during the related Collection Period and the Series 2020-1 Investor Default Amount for such Collection Period, defined (as the case may be) as the "**Class A1 Investor Default Amount**", the "**Class A2 Investor Default Amount**", the "**Class A3 Investor Default Amount**", the "**Class B Investor Default Amount**", the "**Class C Investor Default Amount**", the "**Class D Investor Default Amount**", the "**Class E Investor Default Amount**" and the "**Class F Investor Default Amount**".

"**Originator VFN Excess Amount**" means the Originator VFN Investor Interest less the Available Originator VFN Subordination.

On each Transfer Date, if the aggregate of the Class A1 Investor Default Amount, the Class A2 Investor Default Amount and the Class A3 Investor Default Amount for the prior Collection Period exceeds the sum of:

- (i) Available Funds, including any Originator VFN Available Funds made available by the Originator VFN Series to Series 2020-1; and
- (ii) Reallocated Originator VFN Principal Collections, Reallocated Class F Principal Collections, Reallocated Class E Principal Collections, Reallocated Class D Principal Collections, Reallocated Class C Principal Collections and Reallocated Class B Principal Collections,

(in each case to the extent available to cover such amount with respect to the Collection Period immediately preceding such Transfer Date), (A) the Available Series 2020-1 Originator VFN Subordination shall be reduced by the amount of such excess until such time as the Available Series 2020-1 Originator VFN Subordination is zero; and then (B) the Class F Investor Interest (after giving effect to reductions for any Class F Investor Charge-offs, any Reallocated Class F Principal Collections, any Reallocated Class E Principal Collections, any Reallocated Class D Principal Collections, any Reallocated Class C Principal Collections and any Reallocated Class B Principal Collections) will be reduced by the amount of such excess.

In the event that such reduction would cause the Class F Investor Interest to be a negative number, the Class F Investor Interest will be reduced to zero, and the Class E Investor Interest (after giving effect to reductions for any Class E Investor Charge-offs, any Reallocated Class E Principal Collections, any Reallocated Class D Principal Collections, any Reallocated Class C Principal Collections and any Reallocated Class B Principal Collections on such Transfer Date but excluding any Reallocated Class E Principal Collections that have resulted in a reduction of the Class F Investor Interest) will be reduced by the amount by which the Class F Investor Interest would have been reduced below zero, but not by more than the aggregate of the Class A1 Investor Default Amount, the Class A2 Investor Default Amount and the Class A3 Investor Default Amount for such Transfer Date.

In the event that such reduction would cause the Class E Investor Interest to be a negative number, the Class E Investor Interest will be reduced to zero, and the Class D Investor Interest (after giving effect to reductions for any Class D Investor Charge-offs, any Reallocated Class D Principal Collections, any Reallocated Class C Principal Collections and any Reallocated Class B Principal Collections on such Transfer Date but excluding any Reallocated Class D Principal Collections that have resulted in a reduction of the Class E Investor Interest) will be reduced by the amount by which the Class E Investor Interest would have been reduced below zero, but not by more than the aggregate of the Class A1 Investor Default Amount, the Class A2 Investor Default Amount and the Class A3 Investor Default Amount for such Transfer Date.

In the event that such reduction would cause the Class D Investor Interest to be a negative number, the Class D Investor Interest will be reduced to zero, and the Class C Investor Interest (after giving effect to

reductions for any Class C Investor Charge-offs, any Reallocated Class C Principal Collections and any Reallocated Class B Principal Collections on such Transfer Date but excluding any Reallocated Class C Principal Collections that have resulted in a reduction of the Class D Investor Interest) will be reduced by the amount by which the Class D Investor Interest would have been reduced below zero, but not by more than the aggregate of the Class A1 Investor Default Amount, the Class A2 Investor Default Amount and the Class A3 Investor Default Amount for such Transfer Date.

In the event that such reduction would cause the Class C Investor Interest to be a negative number, the Class C Investor Interest will be reduced to zero, and the Class B Investor Interest (after giving effect to reductions for any Class B Investor Charge-offs and any Reallocated Class B Principal Collections on such Transfer Date but excluding any Reallocated Class B Principal Collections that have resulted in a reduction of the Class C Investor Interest) will be reduced by the amount by which the Class C Investor Interest would have been reduced below zero, but not by more than the aggregate of the Class A1 Investor Default Amount, the Class A2 Investor Default Amount and the Class A3 Investor Default Amount for such Transfer Date.

In the event that such reduction would cause the Class B Investor Interest to be a negative number, the Class A1 Investor Interest, the Class A2 Investor Interest and the Class A3 Investor Interest will be reduced by, *pro rata* and *pari passu*, in aggregate the amount by which the Class B Investor Interest would have been reduced below zero, but not by more than the aggregate of the Class A1 Investor Interest, the Class A2 Investor Default Amount and the Class A3 Investor Default Amount for such Transfer Date.

On such Transfer Date, the Class A1 Investor Interest will also be reduced by the amount of the Class A1 Investor Dilution Loss for such Transfer Date. Together with any reduction in the Class A1 Investor Interest in respect of a Class A1 Investor Default Amount, this will be a "**Class A1 Investor Charge-off**", which will have the effect of slowing or reducing the return of principal to the Loan Note Issuer referable for calculation purposes to the Class A1 Investor Interest.

If the Class A1 Investor Interest has been reduced by the amount of any Class A1 Investor Charge-offs, it will be reinstated on any Transfer Date (but not by an amount in excess of the aggregate Class A1 Investor Charge-offs net of any Principal Loss Make-Up (Charge-off) identified on any previous Transfer Date as part of the Class A1 Monthly Principal Amount) by the amount of additional consideration identified as Loss Make-Up (Charge-off) paid to the Receivables Trustee by the Investor Beneficiary. See "*Available Funds*" above.

On such Transfer Date, the Class A2 Investor Interest will also be reduced by the amount of the Class A2 Investor Dilution Loss for such Transfer Date. Together with any reduction in the Class A2 Investor Interest in respect of a Class A2 Investor Default Amount, this will be a "**Class A2 Investor Charge-off**", which will have the effect of slowing or reducing the return of principal to the Loan Note Issuer referable for calculation purposes to the Class A2 Investor Interest.

If the Class A2 Investor Interest has been reduced by the amount of any Class A2 Investor Charge-offs, it will be reinstated on any Transfer Date (but not by an amount in excess of the aggregate Class A2 Investor Charge-offs net of any Principal Loss Make-Up (Charge-off) identified on any previous Transfer Date as part of the Class A2 Monthly Principal Amount) by the amount of additional consideration identified as Loss Make-Up (Charge-off) paid to the Receivables Trustee by the Investor Beneficiary. See "*Available Funds*" above.

On such Transfer Date, the Class A3 Investor Interest will also be reduced by the amount of the Class A3 Investor Dilution Loss for such Transfer Date. Together with any reduction in the Class A3 Investor Interest in respect of a Class A3 Investor Default Amount, this will be a "**Class A3 Investor Charge-off**", which will have the effect of slowing or reducing the return of principal to the Loan Note Issuer referable for calculation purposes to the Class A3 Investor Interest.

If the Class A3 Investor Interest has been reduced by the amount of any Class A3 Investor Charge-offs, it will be reinstated on any Transfer Date (but not by an amount in excess of the aggregate Class A3 Investor Charge-offs net of any Principal Loss Make-Up (Charge-off) identified on any previous Transfer Date as part of the Class A3 Monthly Principal Amount) by the amount of additional consideration identified as Loss Make-Up (Charge-off) paid to the Receivables Trustee by the Investor Beneficiary. See "*Available Funds*" above.

On each Transfer Date, if the Class B Investor Default Amount for the prior Collection Period exceeds the sum of:

- (i) Available Funds, including any Originator VFN Available Funds made available by the Originator VFN Series to Series 2020-1; and
- (ii) Reallocated Originator VFN Principal Collections, Reallocated Class F Principal Collections, Reallocated Class E Principal Collections, Reallocated Class D Principal Collections and Reallocated Class C Principal Collections,

(in each case to the extent available to cover such amount with respect to the Collection Period immediately preceding such Transfer Date), (A) the Available Series 2020-1 Originator VFN Subordination shall be reduced by the amount of such excess until such time as the Available Series 2020-1 Originator VFN Subordination is zero; and then (B) the Class F Investor Interest (after giving effect to reductions for any Class F Investor Charge-offs, any Reallocated Class F Principal Collections, any Reallocated Class E Principal Collections, any Reallocated Class D Principal Collections, any Reallocated Class C Principal Collections, any Reallocated Class B Principal Collections and any reductions to cover any Class A1 Investor Default Amount, any Class A2 Investor Default Amount or any Class A3 Investor Default Amount) will be reduced by the amount of such excess.

In the event that such reduction would cause the Class F Investor Interest to be a negative number, the Class F Investor Interest will be reduced to zero, and the Class E Investor Interest (after giving effect to reductions for any Class E Investor Charge-offs, any Reallocated Class E Principal Collections, any Reallocated Class D Principal Collections, any Reallocated Class C Principal Collections, any Reallocated Class B Principal Collections and any reductions to cover any Class A1 Investor Default Amount, any Class A2 Investor Default Amount or any Class A3 Investor Default Amount on such Transfer Date but excluding any Reallocated Class E Principal Collections that have resulted in a reduction of the Class F Investor Interest) will be reduced by the amount by which the Class F Investor Interest would have been reduced below zero, but not by more than the Class B Investor Default Amount for such Transfer Date.

In the event that such reduction would cause the Class E Investor Interest to be a negative number, the Class E Investor Interest will be reduced to zero, and the Class D Investor Interest (after giving effect to reductions for any Class D Investor Charge-offs, any Reallocated Class D Principal Collections, any Reallocated Class C Principal Collections, any Reallocated Class B Principal Collections and any reductions to cover any Class A1 Investor Default Amount, any Class A2 Investor Default Amount or any Class A3 Investor Default Amount on such Transfer Date but excluding any Reallocated Class D Principal Collections that have resulted in a reduction of the Class E Investor Interest) will be reduced by the amount by which the Class E Investor Interest would have been reduced below zero, but not by more than the Class B Investor Default Amount for such Transfer Date.

In the event that such reduction would cause the Class D Investor Interest to be a negative number, the Class D Investor Interest will be reduced to zero, and the Class C Investor Interest (after giving effect to reductions for any Class C Investor Charge-offs, any Reallocated Class C Principal Collections, any Reallocated Class B Principal Collections and any reductions to cover any Class A1 Investor Default Amount, any Class A2 Investor Default Amount or any Class A3 Investor Default Amount on such Transfer Date but excluding any Reallocated Class C Principal Collections that have resulted in a reduction of the Class D Investor Interest) will be reduced by the amount by which the Class D Investor Interest would have been reduced below zero, but not by more than the Class B Investor Default Amount for such Transfer Date.

In the event that such reduction would cause the Class C Investor Interest to be a negative number, the Class B Investor Interest will be reduced by the amount by which the Class C Investor Interest would have been reduced below zero, but not by more than the Class B Investor Default Amount for such Transfer Date.

On such Transfer Date, the Class B Investor Interest will also be reduced by the amount of the Class B Investor Dilution Loss for such Transfer Date. Together with any reduction in the Class B Investor Interest in respect of a Class B Investor Default Amount and as a result of the application of Reallocated Class B Principal Collections, this will be a "**Class B Investor Charge-off**", which will have the effect of slowing or reducing the return of principal to the Loan Note Issuer referable for calculation purposes to the Class B Investor Interest.

If the Class B Investor Interest has been reduced by the amount of any Class B Investor Charge-offs, it will be reinstated on any Transfer Date (but not by an amount in excess of the aggregate Class B Investor Charge-offs net of any Principal Loss Make-Up (Charge-off) identified on any previous Transfer Date as part of the Class B Monthly Principal Amount) by the amount of additional consideration identified as Loss Make-Up (Charge-off) paid to the Receivables Trustee by the Investor Beneficiary. See "Available Funds" above.

On each Transfer Date, if the Class C Investor Default Amount for the prior Collection Period exceeds the sum of:

- (i) Available Funds, including any Originator VFN Available Funds made available by the Originator VFN Series to Series 2020-1; and
- (ii) Reallocated Originator VFN Principal Collections, Reallocated Class F Principal Collections, Reallocated Class E Principal Collections and Reallocated Class D Principal Collections,

(in each case to the extent available to cover such amount with respect to the Collection Period immediately preceding such Transfer Date), (A) the Available Series 2020-1 Originator VFN Subordination shall be reduced by the amount of such excess until such time as the Available Series 2020-1 Originator VFN Subordination is zero; and then (B) the Class F Investor Interest (after giving effect to reductions for any Class F Investor Charge-offs, any Reallocated Class F Principal Collections any Reallocated Class E Principal Collections, any Reallocated Class D Principal Collections, any Reallocated Class C Principal Collections, any Reallocated Class B Principal Collections and any reductions to cover any Class A1 Investor Default Amount, any Class A2 Investor Default Amount, any Class A3 Investor Default Amount or any Class B Investor Default Amount) will be reduced by the amount of such excess.

In the event that such reduction would cause the Class F Investor Interest to be a negative number, the Class F Investor Interest will be reduced to zero, and the Class E Investor Interest (after giving effect to reductions for any Class E Investor Charge-offs, any Reallocated Class E Principal Collections, any Reallocated Class D Principal Collections, any Reallocated Class C Principal Collections, any Reallocated Class B Principal Collections and any reductions to cover any Class A1 Investor Default Amount, any Class A2 Investor Default Amount, any Class A3 Investor Default Amount or any Class B Investor Default Amount on such Transfer Date but excluding any Reallocated Class E Principal Collections that have resulted in a reduction of the Class F Investor Interest) will be reduced by the amount by which the Class F Investor Interest would have been reduced below zero, but not by more than the Class C Investor Default Amount for such Transfer Date.

In the event that such reduction would cause the Class E Investor Interest to be a negative number, the Class E Investor Interest will be reduced to zero, and the Class D Investor Interest (after giving effect to reductions for any Class D Investor Charge-offs, any Reallocated Class D Principal Collections, any Reallocated Class C Principal Collections, any Reallocated Class B Principal Collections and any reductions to cover any Class A1 Investor Default Amount, any Class A2 Investor Default Amount, any Class A3 Investor Default Amount or any Class B Investor Default Amount on such Transfer Date but excluding any Reallocated Class D Principal Collections that have resulted in a reduction of the Class E Investor Interest) will be reduced by the amount by which the Class E Investor Interest would have been reduced below zero, but not by more than the Class C Investor Default Amount for such Transfer Date.

In the event that such reduction would cause the Class D Investor Interest to be a negative number, the Class C Investor Interest will be reduced by the amount by which the Class D Investor Interest would have been reduced below zero, but not by more than the Class C Investor Default Amount for such Transfer Date.

On such Transfer Date, the Class C Investor Interest will also be reduced by the amount of the Class C Investor Dilution Loss for such Transfer Date. Together with any reduction in the Class C Investor Interest in respect of a Class C Investor Default Amount or as a result of the application of Reallocated Class C Principal Collections, this will be a "**Class C Investor Charge-off**", which will have the effect of slowing or reducing the return of principal to the Loan Note Issuer referable for calculation purposes to the Class C Investor Interest.

If the Class C Investor Interest has been reduced by the amount of any Class C Investor Charge-offs, it will be reinstated on any Transfer Date (but not by an amount in excess of the aggregate Class C Investor

Charge-offs net of any Principal Loss Make-Up (Charge-off) identified on any previous Transfer Date as part of the Class C Monthly Principal Amount) by the amount of additional consideration identified as Loss Make-Up (Charge-off) paid to the Receivables Trustee by the Investor Beneficiary. See "*Available Funds*" above.

On each Transfer Date, if the Class D Investor Default Amount for the prior Collection Period exceeds the sum of:

- (i) Available Funds, including any Originator VFN Available Funds made available by the Originator VFN Series to Series 2020-1; and
- (ii) Reallocated Originator VFN Principal Collections, Reallocated Class F Principal Collections and Reallocated Class E Principal Collections,

(in each case to the extent available to cover such amount with respect to the Collection Period immediately preceding such Transfer Date), (A) the Available Series 2020-1 Originator VFN Subordination shall be reduced by the amount of such excess until such time as the Available Series 2020-1 Originator VFN Subordination is zero; and then (B) the Class F Investor Interest (after giving effect to reductions for any Class F Investor Charge-offs, any Reallocated Class F Principal Collections, any Reallocated Class E Principal Collections, any Reallocated Class D Principal Collections, any Reallocated Class C Principal Collections, any Reallocated Class B Principal Collections and any reductions to cover any Class A1 Investor Default Amount, any Class A2 Investor Default Amount, any Class A3 Investor Default Amount, any Class B Investor Default Amount or any Class C Investor Default Amount) will be reduced by the amount of such excess.

In the event that such reduction would cause the Class F Investor Interest to be a negative number, the Class F Investor Interest will be reduced to zero, and the Class E Investor Interest (after giving effect to reductions for any Class E Investor Charge-offs, any Reallocated Class E Principal Collections, any Reallocated Class D Principal Collections, any Reallocated Class C Principal Collections, any Reallocated Class B Principal Collections and any reductions to cover any Class A1 Investor Default Amount, any Class A2 Investor Default Amount, any Class A3 Investor Default Amount, any Class B Investor Default Amount or any Class C Investor Default Amount on such Transfer Date but excluding any Reallocated Class E Principal Collections that have resulted in a reduction of the Class F Investor Interest) will be reduced by the amount by which the Class F Investor Interest would have been reduced below zero, but not by more than the Class D Investor Default Amount for such Transfer Date.

In the event that such reduction would cause the Class E Investor Interest to be a negative number, the Class D Investor Interest will be reduced by the amount by which the Class E Investor Interest would have been reduced below zero, but not by more than the Class D Investor Default Amount for such Transfer Date.

On such Transfer Date, the Class D Investor Interest will also be reduced by the amount of the Class D Investor Dilution Loss for such Transfer Date. Together with any reduction in the Class D Investor Interest in respect of a Class D Investor Default Amount or as a result of the application of Reallocated Class D Principal Collections, this will be a "**Class D Investor Charge-off**", which will have the effect of slowing or reducing the return of principal to the Loan Note Issuer referable for calculation purposes to the Class D Investor Interest.

If the Class D Investor Interest has been reduced by the amount of any Class D Investor Charge-offs, it will be reinstated on any Transfer Date (but not by an amount in excess of the aggregate Class D Investor Charge-offs net of any Principal Loss Make-Up (Charge-off) identified on any previous Transfer Date as part of the Class D Monthly Principal Amount) by the amount of additional consideration identified as Loss Make-Up (Charge-off) paid to the Receivables Trustee by the Investor Beneficiary. See "*Available Funds*" above.

On each Transfer Date, if the Class E Investor Default Amount for the prior Collection Period exceeds the sum of:

- (i) Available Funds, including any Originator VFN Available Funds made available by the Originator VFN Series to Series 2020-1; and
- (ii) Reallocated Originator VFN Principal Collections and Reallocated Class F Principal Collections,

(in each case to the extent available to cover such amount with respect to the Collection Period immediately preceding such Transfer Date), (A) the Available Series 2020-1 Originator VFN Subordination shall be reduced by the amount of such excess until such time as the Available Series 2020-1 Originator VFN Subordination is zero; and then (B) the Class F Investor Interest (after giving effect to reductions for any Class F Investor Charge-offs, any Reallocated Class F Principal Collections, any Reallocated Class E Principal Collections, any Reallocated Class D Principal Collections, any Reallocated Class C Principal Collections, any Reallocated Class B Principal Collections and any reductions to cover any Class A1 Investor Default Amount, any Class A2 Investor Default Amount, any Class A3 Investor Default Amount, any Class B Investor Default Amount, any Class C Investor Default Amount or any Class D Investor Default Amount) will be reduced by the amount of such excess.

In the event that such reduction would cause the Class F Investor Interest to be a negative number, the Class E Investor Interest will be reduced by the amount by which the Class F Investor Interest would have been reduced below zero, but not by more than the Class E Investor Default Amount for such Transfer Date.

On such Transfer Date, the Class E Investor Interest will also be reduced by the amount of the Class E Investor Dilution Loss for such Transfer Date. Together with any reduction in the Class E Investor Interest in respect of a Class E Investor Default Amount or as a result of the application of Reallocated Class E Principal Collections, this will be a "**Class E Investor Charge-off**", which will have the effect of slowing or reducing the return of principal to the Loan Note Issuer referable for calculation purposes to the Class E Investor Interest.

If the Class E Investor Interest has been reduced by the amount of any Class E Investor Charge-offs, it will be reinstated on any Transfer Date (but not by an amount in excess of the aggregate Class E Investor Charge-offs net of any Principal Loss Make-Up (Charge-off) identified on any previous Transfer Date as part of the Class E Monthly Principal Amount) by the amount of additional consideration identified as Loss Make-Up (Charge-off) paid to the Receivables Trustee by the Investor Beneficiary. See "*Available Funds*" above.

On each Transfer Date, if the Class F Investor Default Amount for the prior Collection Period exceeds the Available Funds available to cover such amount with respect to the Collection Period immediately preceding such Transfer Date, (A) the Series 2020-1 Originator VFN Subordination shall be reduced by the amount of such excess until such time as the Available Series 2020-1 Originator VFN Subordination is zero; and then (B) the Class F Investor Interest will be reduced by the amount of such excess, but not by more than the Class F Investor Default Amount for such Transfer Date.

On such Transfer Date, the Class F Investor Interest will also be reduced by the amount of the Class F Investor Dilution Loss for such Transfer Date. Together with any reduction in the Class F Investor Interest in respect of a Class F Investor Default Amount or as a result of the application of Reallocated Class F Principal Collections, this will be a "**Class F Investor Charge-off**", which will have the effect of slowing or reducing the return of principal to the Loan Note Issuer referable for calculation purposes to the Class F Investor Interest.

If the Class F Investor Interest has been reduced by the amount of any Class F Investor Charge-offs, it will be reinstated on any Transfer Date (but not by an amount in excess of the aggregate Class F Investor Charge-offs net of any Principal Loss Make-Up (Charge-off) identified on any previous Transfer Date as part of the Class F Monthly Principal Amount) by the amount of additional consideration identified as Loss Make-Up (Charge-off) paid to the Receivables Trustee by the Investor Beneficiary. See "*Available Funds*" above.

Funds on deposit in the Series 2020-1 Principal Funding Ledger will (if so advised by the Servicer) be invested (until on or before the following Transfer Date) by the Receivables Trustee in Permitted Investments. A proportionate fraction of investment proceeds (net of investment losses and expenses) on funds on deposit in the Series 2020-1 Principal Funding Ledger in respect of the Series 2020-1 Investor Interest other than the Class A1 Investor Interest and the Class A2 Investor Interest (the "**Principal Funding Investment Proceeds**") will, with respect to each Transfer Date during the Controlled Accumulation Period or the first Transfer Date during the Rapid Amortisation Period, be paid to the Receivables Trustee Collection Account and credited to the Series 2020-1 Finance Charge Collections Ledger, to be allocated as such for application in accordance with the Series 2020-1 Supplement as Available Funds. Funds on deposit in the Series 2020-1 Principal Funding Ledger which represent Excess Principal Funding Investment Proceeds, Class A1 Excess Principal Funding Investment Proceeds, Class A2 Excess Principal Funding Investment Proceeds or Class A3 Excess Principal Funding Investment Proceeds on any Transfer Date shall be allocated to the Loan Note Issuer in respect of Series 2020-1 and credited to the Loan Note Issuer Distribution Account for payment to the Receivables Trustee as Additional Funds for the grant of the Loan Note Issuer's interest in the Receivables Trust (identified as "**Investment Proceeds**").

"**Class A3 Excess Principal Funding Investment Proceeds**" means, for any Collection Period, with respect to each Transfer Date during the Class A3 Controlled Accumulation Period or the first Transfer Date with respect to any Class A3 Rapid Amortisation Period or the Rapid Amortisation Period, the amount, if any, by which the Class A3 Principal Funding Investment Proceeds for such Transfer Date exceed the Class A3 Covered Amount as determined for such Transfer Date.

**Principal Collections Ledger and Finance Charge Collections Ledger**

The Receivables Trustee has established within the Receivables Trustee Collection Account two ledgers in relation to amounts of Principal Collections (the "**Principal Collections Ledger**") and Finance Charge Collections (the "**Finance Charge Collections Ledger**"). All amounts credited to each ledger are held on the terms of the Undivided Bare Trust, unless otherwise specified under the terms of the Receivables Trust Deed and Servicing Agreement or any Supplement thereto.

**Series 2020-1 Finance Charge Collections Ledger**

On or before the Series 2020-1 Closing Date, the Receivables Trustee will establish a ledger to record amounts of Finance Charge Collections credited to the Receivables Trustee Collection Account and distributed to the Loan Note Issuer in respect of Series 2020-1 (the "**Series 2020-1 Finance Charge Collections Ledger**"). All amounts credited to such ledger are held on segregated bare trust for the sole benefit of the Loan Note Issuer. The Receivables Trustee will also establish other ledgers to record amounts credited to the Receivables Trustee Investment Account in respect of Series 2020-1 (see "*Principal Funding*" above and "*Accumulation Reserve Ledger*", "*Class A1 Accumulation Reserve Ledger*" and "*Class A2 Accumulation Reserve Ledger*" below).

**Accumulation Reserve Ledger**

The Receivables Trustee has established and will maintain a ledger in respect of the Receivables Trustee Investment Account entitled the "**Accumulation Reserve Ledger**".

The Accumulation Reserve Ledger has been established to assist with the payment by the Loan Note Issuer of the Class B Monthly Finance Amounts, the Class C Monthly Finance Amounts, the Class D Monthly Finance Amounts, the Class E Monthly Finance Amounts and the Class F Monthly Finance Amounts during the Controlled Accumulation Period.

On each Transfer Date from and after the Accumulation Reserve Funding Date, but prior to the termination of the Accumulation Reserve Ledger, the Receivables Trustee, on behalf of the Loan Note Issuer, will apply certain amounts of Available Funds in the priority described above in "*Available Funds*" to increase the amount on deposit in the Accumulation Reserve Ledger (to the extent such amount is less than the Required Accumulation Reserve Amount).

The "**Accumulation Reserve Funding Date**" will be the Transfer Date which occurs one month prior to the commencement of the Controlled Accumulation Period, or an earlier date if the Portfolio Adjusted Yield decreases below certain levels specified in the Series 2020-1 Supplement. In any event, the date will be no more than 12 months prior to the commencement of the Controlled Accumulation Period.

"**Portfolio Adjusted Yield**" shall mean, with respect to any Transfer Date commencing on and including the third Transfer Date after the Series 2020-1 Closing Date, the average of the percentages obtained for each of the three preceding Collection Periods by subtracting the Expense Rate from the Portfolio Yield for each Collection Period.

"**Accumulation Reserve Surplus**" means, with respect to any Transfer Date on or after the Accumulation Reserve Funding Date, the amount, if any, by which the amount on deposit in the Accumulation Reserve Ledger exceeds the Required Accumulation Reserve Amount.

The "**Required Accumulation Reserve Amount**" for any Transfer Date on or after the Accumulation Reserve Funding Date will be equal to:

- (i) £1,120,000, **provided that**, if the number of whole Collection Periods in the Controlled Accumulation Period is less than 12, the Servicer may specify a lower Required Accumulation Reserve Amount, **provided that** such amount is not less than an amount equal to the product of £1,120,000 and a fraction, the numerator of which is the number of complete Collection Periods in the Controlled Accumulation Period and the denominator of which is 12; or
- (ii) any other amount designated by the Servicer and notified by it to the Receivables Trustee, **provided, however, that**, if such designation is of a lesser amount than that specified in paragraph (i) above, the Servicer shall deliver to the Receivables Trustee a certificate of an authorised officer to the effect that, in its opinion, formed on the basis of due consideration, such designation will not cause a Pay Out Event in respect of Series 2020-1 or an event that, after the giving of notice or the lapse of time, would cause a Pay Out Event to occur in respect of Series 2020-1.

**Provided that** the Accumulation Reserve Ledger has not been closed as described below, all amounts on deposit to the credit of the Accumulation Reserve Ledger on any Transfer Date (after giving effect to any deposits to, or withdrawals from, the Accumulation Reserve Ledger to be made on such Transfer Date) may (if so advised by the Servicer) be invested until the following Transfer Date by the Receivables Trustee in Permitted Investments. The interest and other investment income (net of investment expenses and losses) earned on such investments will be retained in the Accumulation Reserve Ledger (to the extent that the amount on deposit is less than the Required Accumulation Reserve Amount) or, *inter alia*, deposited into the Series 2020-1 Finance Charge Collections Ledger for application as Available Funds on the related Transfer Date.

On or before each Transfer Date with respect to the Controlled Accumulation Period, prior to the payment in full of the Series 2020-1 Investor Interest (other than the Class A1 Investor Interest, the Class A2 Investor Interest and the Class A3 Investor Interest) and on the first Transfer Date for the Rapid Amortisation Period, the Receivables Trustee shall calculate the "**Accumulation Reserve Draw Amount**" which shall be equal to the Principal Funding Investment Shortfall with respect to such Transfer Date, **provided, however, that** such amount will be reduced to the extent that funds otherwise would be available for deposit (and apart from such reduction would be required to be deposited) in the Accumulation Reserve Ledger with respect to such Transfer Date.

"**Principal Funding Investment Shortfall**" shall mean, with respect to each Transfer Date during the Controlled Accumulation Period or the first Transfer Date during the Rapid Amortisation Period, the amount, if any, by which the Principal Funding Investment Proceeds for such Transfer Date are less than the Covered Amount determined as of such Transfer Date.

In the event that, for any Transfer Date, the Accumulation Reserve Draw Amount is greater than zero, then the Accumulation Reserve Draw Amount, up to the Available Accumulation Reserve Amount, shall be withdrawn from the amount standing to the credit of the Accumulation Reserve Ledger on such Transfer Date by the Receivables Trustee, acting in accordance with the advice of the Servicer, and then deposited in the Receivables Trustee Collection Account and credited to the Series 2020-1 Finance Charge Collections Ledger. The amount withdrawn from the Accumulation Reserve Ledger and credited to the Series 2020-1 Finance Charge Collections Ledger shall be allocated, first, to Class B and the Class B Covered Amount, second, to Class C and the Class C Covered Amount, third, to Class D and the Class D Covered Amount, fourth, to Class E and the Class E Covered Amount and, fifth, to Class F and the Class F Covered Amount and shall be included in Available Funds for such Transfer Date.

In the event that the Accumulation Reserve Surplus on any Transfer Date, after giving effect to all deposits to and withdrawals from the amounts standing to the credit of the Accumulation Reserve Ledger with respect to such Transfer Date, is greater than zero, then the Receivables Trustee acting on the advice of the Servicer shall transfer, from the amounts standing to the credit of the Accumulation Reserve Ledger to the Loan Note Issuer Distribution Account, an amount equal to such Accumulation Reserve Surplus. The Loan Note Issuer will then pay an amount equal to this amount to the Receivables Trustee by way of Additional Funds for the grant of the Loan Note Issuer's interest in the Receivables Trust (identified as "Accumulation Reserve Surplus Amount").

The "**Available Accumulation Reserve Amount**" means, with respect to any Transfer Date, the amount on deposit in the Accumulation Reserve Ledger on such date (before giving effect to any deposit made or to be made out of Available Funds into the Accumulation Reserve Ledger on such date).

Upon the earliest to occur of:

- (i) the termination of the Receivables Trust;
- (ii) the first Transfer Date for the Rapid Amortisation Period; and
- (iii) the Transfer Date immediately preceding the Series 2020-1 Scheduled Redemption Date,

the Receivables Trustee, acting on the advice of the Servicer, after the prior payment of all amounts due in respect of the Class B Investor Interest, the Class C Investor Interest, the Class D Investor Interest, the Class E Investor Interest and the Class F Investor Interest that are payable from the amounts standing to the credit of the Accumulation Reserve Ledger as described above, shall withdraw the amounts standing to the credit of the Accumulation Reserve Ledger, and transfer all such amounts, if any, to the Loan Note Issuer Distribution Account.

The Loan Note Issuer will then pay an amount equal to this amount to the Receivables Trustee by way of Additional Funds (identified as "**Accumulation Reserve Surplus Amount**"). After this distribution from the amounts standing to the credit of the Accumulation Reserve Ledger has been made, the Accumulation Reserve Ledger shall be deemed to have been closed for the purposes of the Series 2020-1 Supplement.

#### **Class A1 Accumulation Reserve Ledger**

The Receivables Trustee has established and will maintain a ledger in respect of the Receivables Trustee Investment Account entitled the "**Class A1 Accumulation Reserve Ledger**".

The Class A1 Accumulation Reserve Ledger has been established to assist with the payment by the Loan Note Issuer of the Class A1 Monthly Finance Amounts during the Class A1 Controlled Accumulation Period.

On each Transfer Date from and after the Class A1 Accumulation Reserve Funding Date, but prior to the termination of the Class A1 Accumulation Reserve Ledger, the Receivables Trustee, on behalf of the Loan Note Issuer, will apply certain amounts of Available Funds in the priority described above in "*Available Funds*" to increase the amount on deposit in the Class A1 Accumulation Reserve Ledger (to the extent such amount is less than the Class A1 Required Accumulation Reserve Amount).

The "**Class A1 Accumulation Reserve Funding Date**" will be the Transfer Date which occurs one month prior to the commencement of the Class A1 Controlled Accumulation Period, or an earlier date if the Portfolio Adjusted Yield decreases below certain levels specified in the Series 2020-1 Supplement. In any event, the date will be no more than 12 months prior to the commencement of the Class A1 Controlled Accumulation Period.

"**Class A1 Accumulation Reserve Surplus**" means, with respect to any Transfer Date on or after the Class A1 Accumulation Reserve Funding Date, the amount, if any, by which the amount on deposit in the Class A1 Accumulation Reserve Ledger exceeds the Class A1 Required Accumulation Reserve Amount.

The "**Class A1 Required Accumulation Reserve Amount**" for any Transfer Date on or after the Class A1 Accumulation Reserve Funding Date will be equal to:

- (i) £0, **provided that**, if the number of whole Collection Periods in the Class A1 Controlled Accumulation Period is less than 12, the Servicer may specify a lower Class A1 Required Accumulation Reserve Amount, **provided that** such amount is not less than an amount equal to the product of £0 and a fraction, the numerator of which is the number of complete Collection Periods in the Class A1 Controlled Accumulation Period and the denominator of which is 12; or
- (ii) any other amount designated by the Servicer and notified by it to the Receivables Trustee, **provided, however, that**, if such designation is of a lesser amount than that specified in paragraph (i) above, the Servicer shall deliver to the Receivables Trustee a certificate of an authorised officer to the effect that, in its opinion, formed on the basis of due consideration, such designation will not

cause a Pay Out Event in respect of Series 2020-1 or an event that, after the giving of notice or the lapse of time, would cause a Pay Out Event to occur in respect of Series 2020-1.

**Provided that** the Class A1 Accumulation Reserve Ledger has not been closed as described below, all amounts on deposit to the credit of the Class A1 Accumulation Reserve Ledger on any Transfer Date (after giving effect to any deposits to, or withdrawals from, the Class A1 Accumulation Reserve Ledger to be made on such Transfer Date) may (if so advised by the Servicer) be invested until the following Transfer Date by the Receivables Trustee in Permitted Investments. The interest and other investment income (net of investment expenses and losses) earned on such investments will be retained in the Class A1 Accumulation Reserve Ledger (to the extent that the amount on deposit is less than the Class A1 Required Accumulation Reserve Amount) or, *inter alia*, deposited into the Series 2020-1 Finance Charge Collections Ledger for application as Available Funds on the related Transfer Date.

On or before each Transfer Date with respect to the Class A1 Controlled Accumulation Period, prior to the payment in full of the Class A1 Investor Interest, and on the first Transfer Date for any Class A1 Rapid Amortisation Period or the Rapid Amortisation Period, the Receivables Trustee shall calculate the "**Class A1 Accumulation Reserve Draw Amount**" which shall be equal to the Class A1 Principal Funding Investment Shortfall with respect to such Transfer Date, **provided, however, that** such amount will be reduced to the extent that funds otherwise would be available for deposit (and apart from such reduction would be required to be deposited) in the Class A1 Accumulation Reserve Ledger with respect to such Transfer Date.

"**Class A1 Principal Funding Investment Shortfall**" shall mean, with respect to each Transfer Date during the Class A1 Controlled Accumulation Period or the first Transfer Date during any Class A1 Rapid Amortisation Period or the Rapid Amortisation Period, the amount, if any, by which the Class A1 Principal Funding Investment Proceeds for such Transfer Date are less than the Class A1 Covered Amount determined as of such Transfer Date.

In the event that, for any Transfer Date, the Class A1 Accumulation Reserve Draw Amount is greater than zero, then the Class A1 Accumulation Reserve Draw Amount, up to the Class A1 Available Accumulation Reserve Amount, shall be withdrawn from the amount standing to the credit of the Class A1 Accumulation Reserve Ledger on such Transfer Date by the Receivables Trustee, acting in accordance with the advice of the Servicer, and then deposited in the Receivables Trustee Collection Account and credited to the Series 2020-1 Finance Charge Collections Ledger. The amount withdrawn from the Class A1 Accumulation Reserve Ledger and credited to the Series 2020-1 Finance Charge Collections Ledger shall be allocated to Class A1 and the Class A1 Covered Amount and shall be included in Available Funds for such Transfer Date.

In the event that the Class A1 Accumulation Reserve Surplus on any Transfer Date, after giving effect to all deposits to and withdrawals from the amounts standing to the credit of the Class A1 Accumulation Reserve Ledger with respect to such Transfer Date, is greater than zero, then the Receivables Trustee acting on the advice of the Servicer shall transfer, from the amounts standing to the credit of the Class A1 Accumulation Reserve Ledger to the Loan Note Issuer Distribution Account, an amount equal to such Class A1 Accumulation Reserve Surplus. The Loan Note Issuer will then pay an amount equal to this amount to the Receivables Trustee by way of Additional Funds for the grant of the Loan Note Issuer's interest in the Receivables Trust (identified as "Class A1 Accumulation Reserve Surplus Amount").

The "**Class A1 Available Accumulation Reserve Amount**" means, with respect to any Transfer Date, the amount on deposit in the Class A1 Accumulation Reserve Ledger on such date (before giving effect to any deposit made or to be made out of Available Funds into the Class A1 Accumulation Reserve Ledger on such date).

Upon the earliest to occur of:

- (i) the termination of the Receivables Trust;
- (ii) the first Transfer Date for the Rapid Amortisation Period; and
- (iii) the Transfer Date immediately preceding the Class A1 Scheduled Redemption Date,

the Receivables Trustee, acting on the advice of the Servicer, after the prior payment of all amounts due in respect of the Class A1 Investor Interest that are payable from the amounts standing to the credit of the

Class A1 Accumulation Reserve Ledger as described above, shall withdraw the amounts standing to the credit of the Class A1 Accumulation Reserve Ledger, and transfer all such amounts, if any, to the Loan Note Issuer Distribution Account.

The Loan Note Issuer will then pay an amount equal to this amount to the Receivables Trustee by way of Additional Funds (identified as "Class A1 Accumulation Reserve Surplus Amount"). After this distribution from the amounts standing to the credit of the Class A1 Accumulation Reserve Ledger has been made, the Class A1 Accumulation Reserve Ledger shall be deemed to have been closed for the purposes of the Series 2020-1 Supplement.

#### **Class A2 Accumulation Reserve Ledger**

The Receivables Trustee has established and will maintain a ledger in respect of the Receivables Trustee Investment Account entitled the "**Class A2 Accumulation Reserve Ledger**".

The Class A2 Accumulation Reserve Ledger has been established to assist with the payment by the Loan Note Issuer of the Class A2 Monthly Finance Amounts during the Class A2 Controlled Accumulation Period.

On each Transfer Date from and after the Class A2 Accumulation Reserve Funding Date, but prior to the termination of the Class A2 Accumulation Reserve Ledger, the Receivables Trustee, on behalf of the Loan Note Issuer, will apply certain amounts of Available Funds in the priority described above in "*Available Funds*" to increase the amount on deposit in the Class A2 Accumulation Reserve Ledger (to the extent such amount is less than the Class A2 Required Accumulation Reserve Amount).

The "**Class A2 Accumulation Reserve Funding Date**" will be the Transfer Date which occurs one month prior to the commencement of the Class A2 Controlled Accumulation Period, or an earlier date if the Portfolio Adjusted Yield decreases below certain levels specified in the Series 2020-1 Supplement. In any event, the date will be no more than 12 months prior to the commencement of the Class A2 Controlled Accumulation Period.

"**Class A2 Accumulation Reserve Surplus**" means, with respect to any Transfer Date on or after the Class A2 Accumulation Reserve Funding Date, the amount, if any, by which the amount on deposit in the Class A2 Accumulation Reserve Ledger exceeds the Class A2 Required Accumulation Reserve Amount.

The "**Class A2 Required Accumulation Reserve Amount**" for any Transfer Date on or after the Class A2 Accumulation Reserve Funding Date will be equal to:

- (i) £0, **provided that**, if the number of whole Collection Periods in the Class A2 Controlled Accumulation Period is less than 12, the Servicer may specify a lower Class A2 Required Accumulation Reserve Amount, **provided that** such amount is not less than an amount equal to the product of £0 and a fraction, the numerator of which is the number of complete Collection Periods in the Class A2 Controlled Accumulation Period and the denominator of which is 12; or
- (ii) any other amount designated by the Servicer and notified by it to the Receivables Trustee, **provided, however, that**, if such designation is of a lesser amount than that specified in paragraph (i) above, the Servicer shall deliver to the Receivables Trustee a certificate of an authorised officer to the effect that, in its opinion, formed on the basis of due consideration, such designation will not cause a Pay Out Event in respect of Series 2020-1 or an event that, after the giving of notice or the lapse of time, would cause a Pay Out Event to occur in respect of Series 2020-1.

**Provided that** the Class A2 Accumulation Reserve Ledger has not been closed as described below, all amounts on deposit to the credit of the Class A2 Accumulation Reserve Ledger on any Transfer Date (after giving effect to any deposits to, or withdrawals from, the Class A2 Accumulation Reserve Ledger to be made on such Transfer Date) may (if so advised by the Servicer) be invested until the following Transfer Date by the Receivables Trustee in Permitted Investments. The interest and other investment income (net of investment expenses and losses) earned on such investments will be retained in the Class A2 Accumulation Reserve Ledger (to the extent that the amount on deposit is less than the Class A2 Required Accumulation Reserve Amount) or, *inter alia*, deposited into the Series 2020-1 Finance Charge Collections Ledger for application as Available Funds on the related Transfer Date.

On or before each Transfer Date with respect to the Class A2 Controlled Accumulation Period, prior to the payment in full of the Class A2 Investor Interest, and on the first Transfer Date for any Class A2 Rapid Amortisation Period or the Rapid Amortisation Period, the Receivables Trustee shall calculate the "**Class A2 Accumulation Reserve Draw Amount**" which shall be equal to the Class A2 Principal Funding Investment Shortfall with respect to such Transfer Date, **provided, however, that** such amount will be reduced to the extent that funds otherwise would be available for deposit (and apart from such reduction would be required to be deposited) in the Class A2 Accumulation Reserve Ledger with respect to such Transfer Date.

"**Class A2 Principal Funding Investment Shortfall**" shall mean, with respect to each Transfer Date during the Class A2 Controlled Accumulation Period or the first Transfer Date during any Class A2 Rapid Amortisation Period or the Rapid Amortisation Period, the amount, if any, by which the Class A2 Principal Funding Investment Proceeds for such Transfer Date are less than the Class A2 Covered Amount determined as of such Transfer Date.

In the event that, for any Transfer Date, the Class A2 Accumulation Reserve Draw Amount is greater than zero, then the Class A2 Accumulation Reserve Draw Amount, up to the Class A2 Available Accumulation Reserve Amount, shall be withdrawn from the amount standing to the credit of the Class A2 Accumulation Reserve Ledger on such Transfer Date by the Receivables Trustee, acting in accordance with the advice of the Servicer, and then deposited in the Receivables Trustee Collection Account and credited to the Series 2020-1 Finance Charge Collections Ledger. The amount withdrawn from the Class A2 Accumulation Reserve Ledger and credited to the Series 2020-1 Finance Charge Collections Ledger shall be allocated to Class A2 and the Class A2 Covered Amount and shall be included in Available Funds for such Transfer Date.

In the event that the Class A2 Accumulation Reserve Surplus on any Transfer Date, after giving effect to all deposits to and withdrawals from the amounts standing to the credit of the Class A2 Accumulation Reserve Ledger with respect to such Transfer Date, is greater than zero, then the Receivables Trustee acting on the advice of the Servicer shall transfer, from the amounts standing to the credit of the Class A2 Accumulation Reserve Ledger to the Loan Note Issuer Distribution Account, an amount equal to such Class A2 Accumulation Reserve Surplus. The Loan Note Issuer will then pay an amount equal to this amount to the Receivables Trustee by way of Additional Funds for the grant of the Loan Note Issuer's interest in the Receivables Trust (identified as "Class A2 Accumulation Reserve Surplus Amount").

The "**Class A2 Available Accumulation Reserve Amount**" means, with respect to any Transfer Date, the amount on deposit in the Class A2 Accumulation Reserve Ledger on such date (before giving effect to any deposit made or to be made out of Available Funds into the Class A2 Accumulation Reserve Ledger on such date).

Upon the earliest to occur of:

- (i) the termination of the Receivables Trust;
- (ii) the first Transfer Date for the Rapid Amortisation Period; and
- (iii) the Transfer Date immediately preceding the Class A2 Scheduled Redemption Date,

the Receivables Trustee, acting on the advice of the Servicer, after the prior payment of all amounts due in respect of the Class A2 Investor Interest that are payable from the amounts standing to the credit of the Class A2 Accumulation Reserve Ledger as described above, shall withdraw the amounts standing to the credit of the Class A2 Accumulation Reserve Ledger, and transfer all such amounts, if any, to the Loan Note Issuer Distribution Account.

The Loan Note Issuer will then pay an amount equal to this amount to the Receivables Trustee by way of Additional Funds (identified as "Class A2 Accumulation Reserve Surplus Amount"). After this distribution from the amounts standing to the credit of the Class A2 Accumulation Reserve Ledger has been made, the Class A2 Accumulation Reserve Ledger shall be deemed to have been closed for the purposes of the Series 2020-1 Supplement.

**Class A3 Accumulation Reserve Ledger**

The Receivables Trustee has established and will maintain a ledger in respect of the Receivables Trustee Investment Account entitled the "**Class A3 Accumulation Reserve Ledger**".

The Class A3 Accumulation Reserve Ledger has been established to assist with the payment by the Loan Note Issuer of the Class A3 Monthly Finance Amounts during the Class A3 Controlled Accumulation Period.

On each Transfer Date from and after the Class A3 Accumulation Reserve Funding Date, but prior to the termination of the Class A3 Accumulation Reserve Ledger, the Receivables Trustee, on behalf of the Loan Note Issuer, will apply certain amounts of Available Funds in the priority described above in "*Available Funds*" to increase the amount on deposit in the Class A3 Accumulation Reserve Ledger (to the extent such amount is less than the Class A3 Required Accumulation Reserve Amount).

The "**Class A3 Accumulation Reserve Funding Date**" will be the Transfer Date which occurs one month prior to the commencement of the Class A3 Controlled Accumulation Period, or an earlier date if the Portfolio Adjusted Yield decreases below certain levels specified in the Series 2020-1 Supplement. In any event, the date will be no more than 12 months prior to the commencement of the Class A3 Controlled Accumulation Period.

"**Class A3 Accumulation Reserve Surplus**" means, with respect to any Transfer Date on or after the Class A3 Accumulation Reserve Funding Date, the amount, if any, by which the amount on deposit in the Class A3 Accumulation Reserve Ledger exceeds the Class A3 Required Accumulation Reserve Amount.

The "**Class A3 Required Accumulation Reserve Amount**" for any Transfer Date on or after the Class A3 Accumulation Reserve Funding Date will be equal to:

- (i) £2,300,000, **provided that**, if the number of whole Collection Periods in the Class A3 Controlled Accumulation Period is less than 12, the Servicer may specify a lower Class A3 Required Accumulation Reserve Amount, **provided that** such amount is not less than an amount equal to the product of £2,300,000 and a fraction, the numerator of which is the number of complete Collection Periods in the Class A3 Controlled Accumulation Period and the denominator of which is 12; or
- (ii) any other amount designated by the Servicer and notified by it to the Receivables Trustee, **provided, however, that**, if such designation is of a lesser amount than that specified in paragraph (i) above, the Servicer shall deliver to the Receivables Trustee a certificate of an authorised officer to the effect that, in its opinion, formed on the basis of due consideration, such designation will not cause a Pay Out Event in respect of Series 2020-1 or an event that, after the giving of notice or the lapse of time, would cause a Pay Out Event to occur in respect of Series 2020-1.

**Provided that** the Class A3 Accumulation Reserve Ledger has not been closed as described below, all amounts on deposit to the credit of the Class A3 Accumulation Reserve Ledger on any Transfer Date (after giving effect to any deposits to, or withdrawals from, the Class A3 Accumulation Reserve Ledger to be made on such Transfer Date) may (if so advised by the Servicer) be invested until the following Transfer Date by the Receivables Trustee in Permitted Investments. The interest and other investment income (net of investment expenses and losses) earned on such investments will be retained in the Class A3 Accumulation Reserve Ledger (to the extent that the amount on deposit is less than the Class A3 Required Accumulation Reserve Amount) or, *inter alia*, deposited into the Series 2020-1 Finance Charge Collections Ledger for application as Available Funds on the related Transfer Date.

On or before each Transfer Date with respect to the Class A3 Controlled Accumulation Period, prior to the payment in full of the Class A3 Investor Interest, and on the first Transfer Date for any Class A3 Rapid Amortisation Period or the Rapid Amortisation Period, the Receivables Trustee shall calculate the "**Class A3 Accumulation Reserve Draw Amount**" which shall be equal to the Class A3 Principal Funding Investment Shortfall with respect to such Transfer Date, **provided, however, that** such amount will be reduced to the extent that funds otherwise would be available for deposit (and apart from such reduction would be required to be deposited) in the Class A3 Accumulation Reserve Ledger with respect to such Transfer Date.

**"Class A3 Principal Funding Investment Shortfall"** shall mean, with respect to each Transfer Date during the Class A3 Controlled Accumulation Period or the first Transfer Date during any Class A3 Rapid Amortisation Period or the Rapid Amortisation Period, the amount, if any, by which the Class A3 Principal Funding Investment Proceeds for such Transfer Date are less than the Class A3 Covered Amount determined as of such Transfer Date.

In the event that, for any Transfer Date, the Class A3 Accumulation Reserve Draw Amount is greater than zero, then the Class A3 Accumulation Reserve Draw Amount, up to the Class A3 Available Accumulation Reserve Amount, shall be withdrawn from the amount standing to the credit of the Class A3 Accumulation Reserve Ledger on such Transfer Date by the Receivables Trustee, acting in accordance with the advice of the Servicer, and then deposited in the Receivables Trustee Collection Account and credited to the Series 2020-1 Finance Charge Collections Ledger. The amount withdrawn from the Class A3 Accumulation Reserve Ledger and credited to the Series 2020-1 Finance Charge Collections Ledger shall be allocated to Class A3 and the Class A3 Covered Amount and shall be included in Available Funds for such Transfer Date.

In the event that the Class A3 Accumulation Reserve Surplus on any Transfer Date, after giving effect to all deposits to and withdrawals from the amounts standing to the credit of the Class A3 Accumulation Reserve Ledger with respect to such Transfer Date, is greater than zero, then the Receivables Trustee acting on the advice of the Servicer shall transfer, from the amounts standing to the credit of the Class A3 Accumulation Reserve Ledger to the Loan Note Issuer Distribution Account, an amount equal to such Class A3 Accumulation Reserve Surplus. The Loan Note Issuer will then pay an amount equal to this amount to the Receivables Trustee by way of Additional Funds for the grant of the Loan Note Issuer's interest in the Receivables Trust (identified as "Class A3 Accumulation Reserve Surplus Amount").

The **"Class A3 Available Accumulation Reserve Amount"** means, with respect to any Transfer Date, the amount on deposit in the Class A3 Accumulation Reserve Ledger on such date (before giving effect to any deposit made or to be made out of Available Funds into the Class A3 Accumulation Reserve Ledger on such date).

Upon the earliest to occur of:

- (i) the termination of the Receivables Trust;
- (ii) the first Transfer Date for the Rapid Amortisation Period; and
- (iii) the Transfer Date immediately preceding the Class A3 Scheduled Redemption Date,

the Receivables Trustee, acting on the advice of the Servicer, after the prior payment of all amounts due in respect of the Class A3 Investor Interest that are payable from the amounts standing to the credit of the Class A3 Accumulation Reserve Ledger as described above, shall withdraw the amounts standing to the credit of the Class A3 Accumulation Reserve Ledger, and transfer all such amounts, if any, to the Loan Note Issuer Distribution Account.

The Loan Note Issuer will then pay an amount equal to this amount to the Receivables Trustee by way of Additional Funds (identified as "Class A3 Accumulation Reserve Surplus Amount"). After this distribution from the amounts standing to the credit of the Class A3 Accumulation Reserve Ledger has been made, the Class A3 Accumulation Reserve Ledger shall be deemed to have been closed for the purposes of the Series 2020-1 Supplement.

On each Transfer Date, to the extent the Available Liquidity Reserve Amount is less than the Required Liquidity Reserve Amount, to the extent available for such purpose, an amount of Available Funds equal to the shortfall shall be deposited in the Series 2020-1 Liquidity Reserve Ledger at paragraph (10) of the priority of payments set out under the heading "*Application of Available Funds*". Funds deposited in the Series 2020-1 Liquidity Reserve Ledger may (if so advised by the Servicer) be invested in Permitted Investments and any income thereon (the "**Liquidity Reserve Investment Proceeds**") shall constitute Available Funds.

The Series 2020-1 Liquidity Reserve Ledger will be established to fund (where required), in priority: (i) on each Transfer Date, the payment by the Loan Note Issuer of the amounts set out in items (1) to (9) of the priority of payments set out under the heading "*Application of Available Funds*", excluding items (3) and (4), to the extent required after applying Available Funds; and (ii) on the Liquidity Reserve Release Date, the excess, if any, of the aggregate of the Class A1 Debt Amount, the Class A2 Debt Amount, the Class A3 Debt Amount, the Class B Debt Amount, the Class C Debt Amount and the Class D Debt Amount over the aggregate of the Class A1 Investor Interest, the Class A2 Investor Interest, the Class A3 Investor Interest, the Class B Investor Interest, the Class C Investor Interest and the Class D Investor Interest (the aggregate of (i) and (ii) constituting the "**Liquidity Reserve Withdrawal Amount**").

This share of the Aggregate Trustee Payment Amount with respect to each Transfer Date (the "**Investor Aggregate Trustee Payment**") will be an amount equal to the sum of:

- (A) the product of (1) a fraction, the numerator of which is the Series 2020-1 Investor Interest as of the last day of the Collection Period preceding such Transfer Date and the denominator of which is the aggregate of the investor interests of each Series in respect of which such Trustee Payment Amount was incurred, and (2) each relevant Trustee Payment Amount (as has been certified to the Servicer by the end of any Collection Period as being accrued due and payable in respect of such Collection Period) *plus*
- (B) an amount equal to one twelfth of the annual Series 2020-1 Trustee Fee to the extent accrued due and payable on such Transfer Date.

The "**Series 2020-1 Trustee Fee**" means the proportion of the annual amount from time to time agreed between Loan Note Issuer and the Security Trustee and payable in twelve equal instalments in respect of the fees of the Receivables Trustee calculated as allocable to Series 2020-1.

Subject to the following paragraph, an amount equal to the Investor Aggregate Trustee Payment shall be paid by the Series 2020-1 Investor Beneficiary to the Receivables Trustee on such Transfer Date identified as the "**Investor Aggregate Trustee Payment Amount**".

Any portion of the Aggregate Trustee Payment Amount not allocated to Series 2020-1 will be paid by the cash flows from the Receivables Trust allocated to other Outstanding Series (as provided in the related Supplements) or by the Transferor Beneficiary, if applicable, and, for the avoidance of doubt, in no event will the Receivables Trust or Series 2020-1 be liable therefor. The Aggregate Trustee Payment Amount allocable to Series 2020-1 will be payable to the Receivables Trustee solely to the extent amounts are available for distribution out of Available Funds and other amounts described herein.

See "*Calculation and Distribution of Finance Charge Collections and Acquired Interchange to the Loan Note Issuer*" above for further information.

#### **Qualified Institutions**

If the bank at which the Receivables Trustee Collection Account and/or the Receivables Trustee Investment Account is held ceases to be a Qualified Institution, then the Receivables Trustee will, within 30 days (in respect of a downgrade by Fitch or DBRS) (or such longer period as may be agreed with the relevant Rating Agencies as not leading to a downgrade of any outstanding Rated Debt), transfer any amounts standing to the credit of the affected account(s) to a new account or accounts at a Qualified Institution. The Receivables Trustee may in its discretion elect to move any or all of the aforementioned accounts from the Qualified Institution at which they are kept as at the date of this Prospectus to another or other Qualified Institutions.

The Servicer shall ensure that any Primary Collection Account into which Collections are initially received, including any collection account held in the name of the Servicer or any sub-servicer or delegate thereof, is maintained with an account bank that is an institution which, insofar as the relevant Rating Agency rates any Related Debt or Associated Debt, at all times has (a) a short-term unsecured debt rating of at least F2 by Fitch or a long-term unsecured debt rating of at least BBB+ by Fitch; (b) a long-term senior debt and deposits rating of at least BBB by DBRS or, in the absence of a rating assigned by DBRS, a DBRS Equivalent Rating at least equal to BBB by DBRS, or such other rating from time to time notified or published by DBRS replacing any of the above ratings or implementing a rating requirement; or (c) such other short-term or long-term rating which is otherwise acceptable to the relevant rating agency. If at any time such account bank ceases to satisfy the foregoing criteria, the Servicer shall procure that, within 30 days thereof (or such longer period as may be agreed with the relevant Rating Agencies as not leading to a downgrade of any outstanding Rated Debt), the relevant collection accounts are transferred to an account bank that satisfies such criteria or the Obligors are notified to make future payments in respect of their Accounts directly to the Transferor Collection Account.

**"Qualified Institution"** means an institution (i) which is a bank within the meaning of section 991 of the Income Tax Act 2007 and for the purposes of section 878 of the Income Tax Act 2007 and which pays any interest under any relevant Transaction Document in the ordinary course of its business and (ii) which, insofar as the relevant Rating Agency rates any Related Debt or Associated Debt, at all times has (a) a short-term unsecured debt rating of at least F1 by Fitch or a long-term unsecured debt rating of at least A by Fitch; (b) a long-term senior debt and deposits rating of at least A (or, in relation to the Issuer Account Bank, a critical obligation rating of at least A (high)) by DBRS or, in the absence of a rating assigned by DBRS, a DBRS Equivalent Rating at least equal to A by DBRS, or such other rating from time to time notified or published by DBRS replacing any of the above ratings or implementing a rating requirement; and/or (c) such other short-term or long-term rating which is otherwise acceptable to the relevant Rating Agency.

**"DBRS Equivalent Rating"** means: (i) if a Fitch public rating, a Moody's public rating and an S&P public rating are all available, (a) the remaining rating (upon conversion on the basis of the DBRS Equivalent Chart) once the highest and the lowest rating have been excluded or (b) in the case of two or more same ratings, any of such ratings (upon conversion on the basis of the DBRS Equivalent Chart); (ii) if the DBRS Equivalent Rating cannot be determined under paragraph (i) above, but public ratings by any two of Fitch, Moody's and S&P are available, the lower rating available (upon conversion on the basis of the DBRS Equivalent Chart); and (iii) if the DBRS Equivalent Rating cannot be determined under (i) or (ii) above, and therefore only a public rating by one of Fitch, Moody's and S&P is available, such rating will be the DBRS Equivalent Rating (upon conversion on the basis of the DBRS Equivalent Chart).

  - (a) to make any payment or deposit required to be made by it to the Receivables Trustee under the terms of the Receivables Securitisation Deed within five Business Days after the date that the payment or deposit is required to be made, including the payment of Collections into the Receivables Trustee Collection Account (as contemplated under the Transaction Documents); or
  - (b) duly to observe or perform any covenants or agreements of the Transferor in the Receivables Securitisation Deed or the Series 2020-1 Supplement that has a material adverse effect on the interests of the Series 2020-1 Investor Beneficiary and which continues unremedied for a period of 60 days after the date on which written notice of the failure, requiring it to be remedied, is given to the Transferor by the Receivables Trustee, or is given to the Transferor and the Receivables Trustee by the Loan Note Issuer acting on the instructions of persons holding together 50 per cent. or more of the total balance of the Series 2020-1 Related Debt outstanding at that time, and which continues during that 60 day period to have a material adverse effect on the interests of the Series 2020-1 Investor Beneficiary;
- (ii) any representation or warranty made by the Transferor in the Receivables Securitisation Deed or the Series 2020-1 Supplement, or any information contained in any computer file required to be delivered by the Transferor under the Receivables Securitisation Deed, proves to have been incorrect in any material respect when made or when delivered and continues to be incorrect in any material respect for a period of 60 days after the date on which written notice of the error, requiring it to be remedied, is given to the Transferor by the Receivables Trustee, or is given to the Transferor and the Receivables Trustee by the Loan Note Issuer acting on the instructions of persons holding together 50 per cent. or more of the total balance of the Series 2020-1 Related Debt outstanding at that time and which continues during that 60 day period to have a material adverse effect on the interests of the Series 2020-1 Investor Beneficiary.
 

Notwithstanding the above, no Series Pay Out Event in relation to this paragraph (ii) shall be deemed to have occurred if the Transferor has complied with its obligations relating to a breach of representation or warranty as set out in the Receivables Securitisation Deed;
- (iii) the average Portfolio Yield for a period of three consecutive Collection Periods is less than the average Expense Rate for that period;
- (iv) either:
  - (a) the aggregate of the Transferor Interest and the Originator VFN Excess Amount averaged over any period of thirty consecutive days is less than the Minimum Transferor Interest calculated as at the last day of such period and the Transferor Interest and/or the Originator VFN Excess Amount is not increased on or before the tenth Business Day following that thirty day period to an amount such that the average of the aggregate of the Transferor Interest and the Originator VFN Excess Amount for such thirty day period as a percentage of the Average Principal Receivables (computed by assuming that the amount of the increase of the Transferor Interest and/or the Originator VFN Excess Amount by the last day of the ten Business Day period, as compared to the Transferor Interest and/or the

Originator VFN Excess Amount on the last day of the thirty day period, existed in the Receivables Trust during each day of the thirty day period) is at least equal to the Minimum Transferor Interest; or

- (b) on the last day of any Collection Period, the Eligible Receivables Balance is less than the Minimum Aggregate Principal Receivables and the Eligible Receivables Balance fails to increase to an amount equal to or greater than the Minimum Aggregate Principal Receivables on or before the tenth Business Day following that last day;
- (v) any Servicer Default occurs that has a material adverse effect on the Series 2020-1 Investor Beneficiary;
- (vi) the Series 2020-1 Investor Interest is not reduced to zero on the Series 2020-1 Scheduled Redemption Date; or
- (vii) the Loan Note Issuer is required to withhold or deduct any amounts for or on account of tax on the payment of any principal or interest in respect of the Series 2020-1 Loan Notes, as a result of any change in the laws of the United Kingdom or any political subdivision or taxing authority thereof which change becomes effective on or after the Series 2020-1 Closing Date,

then, in the case of any event described in paragraphs (i), (ii) or (v) above after the applicable grace period set out in such paragraphs (if any), either the Receivables Trustee or the Loan Note Issuer by notice given in writing to the Transferor, the Originator, the Cash Manager and the Servicer (and to the Receivables Trustee if given by the Investor Beneficiary) may declare that a Pay Out Event (a "**Series Pay Out Event**") has occurred in respect of Series 2020-1 (**provided that**, if the Loan Note Issuer declares that a Series Pay Out Event has occurred in such circumstances, it must have acted on the instructions of persons holding, together, 50 per cent. or more of the Series 2020-1 Related Debt outstanding at that time) as of the date of such notice, and, in the case of any event described in paragraphs (iii), (iv), (vi) or (vii), a Series Pay Out Event shall occur without any notice or other action on the part of the Receivables Trustee or the Loan Note Issuer immediately upon the occurrence of such event.

#### **Governing Law**

Each of the Receivables Trust Deed and Servicing Agreement and the Series 2020-1 Supplement and all non-contractual obligations arising out of or in connection with them are governed by English law.

### THE NOTE TRUST DEED

The principal agreement governing the Notes will be the Note Trust Deed. The Note Trust Deed has five primary functions:

- (i) it constitutes the Notes;
- (ii) it sets out the covenants of the Issuer in relation to the Notes;
- (iii) it creates the security for the Issuer's obligations towards the Noteholders and the other Secured Creditors;
- (iv) it sets out the enforcement and post enforcement procedures relating to the Notes; and
- (v) it sets out the appointment, powers and responsibilities of the Note Trustee as well as certain limitations on its responsibilities and liabilities.

Each function is summarised below.

The Note Trust Deed sets out the terms and conditions of the Notes, provisions for meetings of the Noteholders, the conditions for the registration of individual holdings of Notes and issue of Individual Note Certificates and the form of the Global Note Certificates and the Individual Note Certificates.

The Note Trust Deed also contains covenants made by the Issuer in favour of the Note Trustee and the Noteholders. The main covenants are that the Issuer will pay interest and repay principal on each of the Notes when due. Covenants are included to ensure that the Issuer remains insolvency remote and carries on its affairs in England and Wales. Some of the covenants also appear in the Note Conditions, see "*Terms and Conditions of the Notes*".

The Security granted by the Issuer to the Note Trustee (as trustee for itself and the other Secured Creditors) comprises the following:

- (i) an assignment by way of first fixed security of the Issuer's rights, title and interest in and to, and the entire benefit of, the Issuer Documents to which it is a party and sums received or recoverable thereunder;
- (ii) an assignment by way of first fixed security of the Issuer's right, title and interest in the Series 2020-1 Loan Notes;
- (iii) an assignment by way of first fixed security of the Issuer's right, title and interest in the security interest created in favour of the Security Trustee by the Loan Note Issuer in respect of the Series 2020-1 Loan Notes;
- (iv) an assignment by way of first fixed security of the Issuer's right, title, interest and benefit in and to all monies credited to the Series 2020-1 Distribution Ledger and all monies and other assets credited to the Swap Collateral Account, if any, and all monies and other assets credited to any bank or other account in which the Issuer may at any time have any right, title, interest or benefit; and
- (v) a first floating charge over all of its assets and undertaking to the extent that the same is not otherwise effectively encumbered pursuant to (i) to (iv) (inclusive) above (to which floating charge paragraph 14 of Schedule B1 to the Insolvency Act 1986 applies).

The Note Trust Deed sets out the general procedures by which the Note Trustee may take steps to enforce the Security created by the Issuer in the Note Trust Deed so that the Note Trustee can protect the interests of the Noteholders in accordance with the Note Conditions. The Note Trust Deed gives the Note Trustee a general discretion to enforce the Security, but also provides for meetings of or resolutions by the Noteholders at or by which the Noteholders can determine the action taken by the Note Trustee in relation to the enforcement of the Notes (subject to being indemnified and/or secured and/or prefunded to its satisfaction against liabilities it may incur). The Note Trust Deed provides that the Class A1 Noteholders', the Class A2 Noteholders' and the Class A3 Noteholders' interests (taken together) take precedence for so long as the Class A1 Notes, the Class A2 Notes and/or the Class A3 Notes are outstanding, after that, the

interests of the Class B Noteholders take precedence, until no more Class B Notes remain outstanding, after that, the interests of the Class C Noteholders take precedence, until no more Class C Notes remain outstanding, after that, the interests of the Class D Noteholders take precedence, until no more Class D Notes remain outstanding, after that, the interests of the Class E Noteholders take precedence, until no more Class E Notes remain outstanding. The Note Trust Deed provides that resolutions of holders of the Most Senior Class of Notes outstanding can, subject to certain conditions, bind holders of other classes of Notes. However, certain basic terms of each class of Notes may not be amended without the consent of the majority of the holders of that class of Notes. This is described further in the "*Terms and Conditions of the Notes*".

The Note Trust Deed also sets out the terms on which the Note Trustee is appointed, the indemnification of the Note Trustee, the payment it receives and the extent of the Note Trustee's authority to act beyond its statutory powers under English law. The Note Trustee is also given the ability to appoint a delegate or agent in the execution of any of its duties under the Note Trust Deed. The Note Trust Deed also sets out the circumstances in which the Note Trustee may resign or retire.

The Note Trust Deed incorporates and supplements the provisions of the Trustee Act 1925 and the Trustee Act 2000 of England and Wales.

The Note Trust Deed and all non-contractual matters arising out of or in connection with it shall be governed by English law.

"**Secured Creditors**" for the purpose of Series 2020-1 means (i) the Noteholders; (ii) the Swap Counterparty; and (iii) the Note Trustee and any Receiver appointed by the Note Trustee, pursuant to the Note Trust Deed.

"**Security Beneficiaries**" for the purpose of Series 2020-1 means the Agents, the Calculation Agent, the Swap Collateral Account Bank, the Custodian and the Issuer Account Bank.

## DESCRIPTION OF THE NOTES IN GLOBAL FORM

The Notes of each class will be in registered form and represented on issue by permanent global note certificates (the "**Global Note Certificates**"). On or about the Series 2020-1 Closing Date, the Notes will be registered in the name of, and the Global Note Certificates deposited with, a common depository (the "**Common Depository**") (or its nominee) for Euroclear Bank S.A./N.V. ("**Euroclear**") and Clearstream Banking *société anonyme* ("**Clearstream, Luxembourg**") and/or Cede & Co, being the nominee of The Depository Trust Company ("**DTC**" and, together with Euroclear and Clearstream, Luxembourg, the "**Clearing Systems**"). The Common Depository (or its nominee) will hold the Notes on behalf of, and the Global Note Certificates in custody for, Euroclear and Clearstream Luxembourg and the custodian (or its nominee) will hold the Class A1 Notes and the Class A2 Notes on behalf of, and the Global Note Certificates in respect of the Class A1 Notes and the Class A2 Notes in custody for, DTC. Beneficial interests in the Notes whilst they are represented by a Global Note Certificate may only be held through, and transfers thereof will only be effected through, records maintained by the Clearing Systems at any time (see "*Book-entry Clearance Procedures*" below).

The nominal amount of the Notes of each class represented by the relevant Global Note Certificate shall be the aggregate amount from time to time entered in the records of the Clearing Systems. The records of the Clearing Systems (meaning the records that each of the Clearing Systems holds for its customers which reflect the amount of such customer's interest in the Notes) shall be conclusive evidence of the nominal amount of the Notes represented by the relevant Global Note Certificate and, for these purposes, a statement issued by a Clearing System (which statement shall be made available to the registered holder of the relevant class of Notes upon request) stating the nominal amount of the relevant class of Notes represented by the relevant Global Note Certificate at any time shall be conclusive evidence of the records of such Clearing System at that time.

The Registrar and the U.S Registrar will maintain a register (the "**Register**") in which they will register the Common Depository (or its nominee) and Cede & Co as nominee of DTC, as applicable, as the owner of the Notes of each class. Upon confirmation by the Common Depository that it (or its nominee) and the custodian that it (or its nominee), as applicable, has been registered as holder of, and has custody of the Global Note Certificate representing, each class of Notes, the relevant Clearing Systems will record the beneficial interests in such Notes (the "**Book-Entry Interests**").

### Issuance of Individual Note Certificates

The Global Note Certificates representing each class will become exchangeable in whole, but not in part, for Individual Note Certificates of the relevant class issued in the form, or substantially in the form, set out in the Note Trust Deed ("**Individual Note Certificates**") if (a) a Clearing System is closed for business for a continuous period of 14 calendar days (other than by reason of holiday, statutory or otherwise) or announces an intention permanently to cease business or does in fact do so; or (b) as a result of any amendment to, or change in, the laws or regulations of the United Kingdom (or any political subdivision thereof) or of any authority therein or thereof having power to tax, or in the interpretation by a revenue authority or a court of, or in the administration of, such laws or regulations, which becomes effective on or after the Series 2020-1 Closing Date, the Issuer or any Paying Agent is or will be required to make any deduction or withholding from any payment in respect of the Notes which would not be required were the relevant Notes registered in the names of individual Noteholders and a certificate to such effect signed by an Authorised Signatory of the Issuer is delivered to the Note Trustee (an "**Exchange Event**").

Whenever the Global Note Certificates are to be exchanged for Individual Note Certificates, such Individual Note Certificates will be issued within 30 days of the relevant Exchange Event and subject to the delivery, by or on behalf of the registered holder of the Notes (being the Common Depository or its nominee and/or Cede & Co as nominee of DTC, as applicable), to the Registrar and/or the U.S. Registrar of such information as is required to register the Notes in the names of the customers of the relevant Clearing Systems who previously held beneficial interests in the Notes whilst they were represented by the Global Note Certificates and complete and deliver such Individual Note Certificates to such persons (including, without limitation, the names and addresses of such persons and the principal amount of each such person's holding) against the surrender of the Global Note Certificates of the relevant class at the Specified Office of the Registrar and/or the U.S. Registrar. Such exchange will be effected in accordance with the provisions of the Paying Agency and Agent Bank Agreement and the regulations concerning the transfer and registration of the Notes scheduled thereto and, in particular, shall be effected without charge to any holder or the Note Trustee, but against such indemnity as the Registrar and/or the U.S. Registrar may require in

respect of any tax or other duty of whatsoever nature which may be levied or imposed in connection with such exchange.

"**Authorised Signatory**" shall mean any director of the Issuer or any other person or persons who are duly authorised to sign on behalf of the Issuer and in respect of whom a certificate has been provided signed by a director or another Authorised Signatory setting out the name and signature of such person and confirming such person's authority to act.

### **Conditions Applicable to the Notes Represented by Global Note Certificates**

Each Global Note Certificate will contain provisions which modify the Note Conditions as they apply to the Notes represented by the Global Note Certificate. The following is a summary of certain of those provisions:

- (i) **Notices:** Notwithstanding Note Condition 18 (*Notices*), while any class of Notes is represented by a Global Note Certificate and such Global Note Certificate is deposited with the Common Depositary (or its nominee) and/or Cede & Co as nominee of DTC, as applicable, notices to Noteholders may be given by delivery of the relevant notice to the relevant Clearing Systems and, in any case, such notices shall be deemed to have been given to the Noteholders in accordance with Note Condition 18 (*Notices*) on the date of delivery to such Clearing Systems.
- (ii) **Meetings:** The holder of the Notes represented by each Global Note Certificate will be treated as being two persons for the purposes of any quorum requirement of, or the right to demand a poll at, a meeting of holders of any class of Notes. On a poll, every voter shall have one vote in respect of each £1 or such other amount as the Note Trustee may in its absolute discretion stipulate (or, in the case of Meetings of holders of Notes denominated in another currency, such amount in such other currency as the Note Trustee in its absolute discretion may stipulate) in nominal amount of the outstanding Note(s) represented or held by him.
- (iii) **Record Date:** Each payment in respect of a Note represented by a Global Note Certificate will be made to the person shown as the holder in the Register at the close of business (in the relevant clearing system) on the Clearing System Business Day before the due date for such payment, where "**Clearing System Business Day**" means a day on which each Clearing System for which the Global Note Certificate is being held is open for business.

### **Book-entry Clearance Procedures**

The information set out below has been obtained from sources that the Issuer believes to be reliable, but prospective investors are advised to make their own enquiries as to such procedures. In particular, such information is subject to any change in or interpretation of the rules, regulations and procedures of the Clearing Systems currently in effect and investors wishing to use the facilities of any of the Clearing Systems are therefore advised to confirm the continued applicability of the rules, regulations and procedures of the relevant Clearing System. None of the Issuer, the Note Trustee, the initial purchaser of any class of Notes, or any Agent party to the Paying Agency and Agent Bank Agreement (or any affiliate of any of the above, or any person by whom any of the above is controlled for the purposes of the Securities Act), will have any responsibility for the performance by the Clearing Systems or their respective direct or indirect participants or accountholders of their respective obligations under the rules and procedures governing their operations or for the sufficiency for any purpose of the arrangements described below.

#### ***Clearstream, Luxembourg and Euroclear***

Clearstream, Luxembourg and Euroclear (together, the "**European International Clearing Systems**") each hold securities for their customers and facilitate the clearance and settlement of securities transactions through electronic book-entry transfer between their respective accountholders. Indirect access to the European International Clearing Systems is available to other institutions which clear through or maintain a custodial relationship with an accountholder of either system. The European International Clearing Systems provide various services including safekeeping, administration, clearance and settlement of internationally-traded securities and securities lending and borrowing. The European International Clearing Systems also deal with domestic securities markets in several countries through established depositary and custodial relationships. The European International Clearing Systems have established an electronic bridge between their two systems across which their respective customers may settle trades with each other. Their

customers are worldwide financial institutions including underwriters, securities brokers and dealers, banks, trust companies and clearing corporations. Investors may hold their interests in the Notes represented by the Global Note Certificates directly through the European International Clearing Systems if they are accountholders or indirectly through organisations which are accountholders therein. Transfers between Clearstream, Luxembourg participants and Euroclear participants will occur in the ordinary way in accordance with their applicable rules and operating procedures.

### *DTC*

DTC is a limited purpose trust company organised under the laws of the State of New York, a "banking organization" within the meaning of the New York banking law, a member of the U.S. Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code and a "clearing agency" registered pursuant to the provisions of Section 17A of the Exchange Act.

DTC is a wholly-owned subsidiary of The Depository Trust and Clearing Corporation ("**DTCC**"). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries.

DTC was created to hold securities for its participants and facilitate the clearance and settlement of securities transactions between participants through electronic computerised book-entry changes in accounts of its participants, thereby eliminating the need for physical movement of certificates. Direct participants include securities brokers and dealers, banks, trust companies, clearing corporations (including the European International Clearing Systems) and certain other organisations. Indirect access to DTC is available to others, such as banks, securities brokers, dealers and trust companies, that clear through or maintain a custodial relationship with a DTC direct participant, whether directly or indirectly.

The rules applicable to DTC and its participants are on file with the United States Securities and Exchange Commission. Transfers between DTC participants will occur in accordance with DTC rules.

Cross-market transfers between persons holding directly or indirectly through DTC, on the one hand, and directly or indirectly through Clearstream, Luxembourg participants or Euroclear participants, on the other, will be effected through DTC in accordance with DTC rules on behalf of the relevant European International Clearing System by its depository; however, those cross-market transactions will require delivery of instructions to the relevant European International Clearing System by the counterparty in that system in accordance with its rules and procedures and within its established deadlines, which will be based on European time. The relevant European International Clearing System will, if the transaction meets its settlement requirements, deliver instructions to its depository to take action to effect final settlement on its behalf by delivering or receiving securities in DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC.

Because of time-zone differences, credits of securities in a European International Clearing System as a result of a transaction with a DTC participant will be made during the subsequent securities settlement processing, dated the business day following the DTC settlement date and those credits or any transactions in those securities settled during that processing will be reported to the relevant European International Clearing Systems participant on that business day. Cash received in a European International Clearing System as a result of sales of securities by or through a participant of such European International Clearing System to a DTC participant will be received and available on the DTC settlement date. However, it will not be available in the relevant European International Clearing System cash account until the business day following settlement in DTC.

Purchases of Notes under the DTC system must be made by or through DTC participants (which includes the European International Clearing Systems), which will receive a credit for the Notes on DTC's records. The ownership interest of each actual investor is in turn to be recorded on the DTC participants' and indirect participants' records. Investors will not receive written confirmation from DTC of their purchase. However, investors are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the DTC participant or indirect participant through which the investor entered into the transaction. Transfers of ownership interests in the Notes are to be accomplished by entries made on the books of DTC participants acting on behalf of investors. Investors will not receive certificates representing their ownership interest in the Notes unless use of the book-entry system for the Notes is discontinued.

Conveyance of notices and other communications by DTC to DTC participants, by DTC participants to indirect participants and by DTC participants and indirect participants to Noteholders will be governed by arrangements among them and by any statutory or regulatory requirements in effect from time to time. Investors may hold their interests in Notes represented by a Global Note Certificate directly through DTC if they are participants in the DTC system, or indirectly through organisations which are participants in such system.

Redemption notices for the Notes held through DTC will be sent to DTC. If less than all of those Notes are being redeemed, DTC's practice is to determine by lot the amount of the interest of each participant in the Notes to be redeemed.

Neither DTC nor Cede & Co. will grant any consent or exercise any voting rights in respect of the Notes held through DTC. Under its usual procedures, DTC will mail an omnibus proxy to the Issuer as soon as possible after the record date, which assigns the consent or voting rights of Cede & Co. to those DTC participants to whose accounts the book-entry interests are credited on the record date, identified in a list attached to the proxy.

Under existing industry practices, when an issuer requests any action of noteholders or when a beneficial owner desires to give or take any action which a noteholder is entitled to give or take, DTC generally will give or take that action, or authorise the relevant participants to give or take that action, and those participants would authorise beneficial owners owning through those participants to give or take that action or would otherwise act upon the instructions of beneficial owners through them.

#### ***Relationship of Participants with Clearing Systems***

Each of the persons shown in the records of a Clearing System as the holder of a beneficial interest in any class of Notes represented by a Global Note Certificate ("**Direct Participants**") must look solely to such Clearing System for his or her share of each payment made by the Issuer to the holder of such Notes and in relation to all other rights arising under such Notes, subject to and in accordance with the respective rules and procedures of the relevant Clearing System. The Issuer expects that, upon receipt of any payment in respect of any Notes represented by a Global Note Certificate, the Common Depositary and/or the nominee of DTC, as applicable, on whose behalf such Notes are held, will immediately credit the relevant participants' or accountholders' accounts in the relevant Clearing System with payments in amounts proportionate to their respective beneficial interests in the principal amount of the relevant Notes as shown in the records of the relevant Clearing System. The Issuer also expects that payments by Direct Participants in any Clearing System to owners of beneficial interests in any Notes held through such Direct Participants in any Clearing System ("**Indirect Participants**" and, together with Direct Participants, "**Participants**") will be governed by standing instructions and customary practices.

Save as aforesaid, such persons shall have no claim directly against the Issuer in respect of payments due on the Notes for so long as the Notes are represented by Global Note Certificates and the obligations of the Issuer will be discharged by payment to the registered holder, as the case may be, of the relevant Notes in respect of each amount so paid. None of the Issuer, the Note Trustee or any Agent will have any responsibility or liability for any aspect of the records relating to or payments made on account of ownership interests in any Notes represented by a Global Note Certificate or for maintaining, supervising or reviewing any records relating to such ownership interests.

#### ***Settlement and Transfer of Notes***

Subject to the rules and procedures of each applicable Clearing System, purchases of Notes held within a Clearing System must be made by or through Direct Participants, which will receive a credit for such Notes on the Clearing System's records. The ownership interest of each actual purchaser of each such Note (the "**Beneficial Owner**") will in turn be recorded on the Direct Participant's (and any intermediate Indirect Participant's) records. Beneficial Owners will not receive written confirmation from any Clearing System of their purchase, but Beneficial Owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which such Beneficial Owner entered into the transaction. Transfers of ownership interests in Notes held within a Clearing System will be effected by entries made on the books of Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in such Notes unless and until interests in the relevant Notes held within a Clearing System are exchanged for individually registered holdings of Notes represented by Individual Note Certificates.

No Clearing System has knowledge of the actual Beneficial Owners of the Notes held within such Clearing System and their records will reflect only the identity of the Direct Participants to whose accounts such Notes are credited, which may or may not be the Beneficial Owners. The Participants will remain responsible for keeping account of their holdings on behalf of their customers. Conveyance of notices and other communications by the Clearing Systems to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

***Trading between the Clearing Systems***

Secondary market sales of Book-Entry Interests in the Notes held through the Clearing Systems to purchasers of Book-Entry Interests in Notes held through the Clearing Systems will be conducted in accordance with the normal rules and operating procedures of the Clearing Systems.

***Pre-issue Trades Settlement***

It is expected that delivery of the Notes will be made against payment therefor on the Series 2020-1 Closing Date, which could be more than three Business Days following the date of pricing. Settlement procedures in other countries will vary. The Issuer may be affected by such local settlement practices and purchasers of Notes who wish to trade Notes between the date of pricing and the Series 2020-1 Closing Date should consult their own adviser.

## 6. Interest

### (a) *Accrual of Interest*

Each class of Notes bears interest on its Principal Amount Outstanding (as defined in Note Condition 7 (*Redemption and Repurchase*)) from (and including) the Series 2020-1 Closing Date. Interest in respect of the Notes is payable in arrear in U.S. Dollars (in respect of the Class A1 Notes and the Class A2 Notes) or in Sterling (in respect of the Class A3 Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes) on each Interest Payment Date.

**"Interest Payment Date"** means 15 November 2020 and the 15<sup>th</sup> day of each calendar month thereafter or (if such date is not a Business Day) the immediately following Business Day.

To the extent that the monies which are deposited in the Issuer Distribution Account by the Loan Note Issuer on or immediately prior to an Interest Payment Date in accordance with the provisions of the Series 2020-1 Loan Note Supplement are insufficient to pay the full amount of interest on any class of Notes (including, if applicable, after application pursuant to the Class A1 Swap Agreement and/or the Class A2 Swap Agreement, as applicable) on such Interest Payment Date, payment of the shortfall (**"Deferred Interest"**), which will be borne by each Note of the relevant class in a proportion equal to the proportion that the Principal Amount Outstanding of the relevant Note bears to the aggregate Principal Amount Outstanding of all Notes of the relevant class (in each case as determined on the Interest Payment Date on which such Deferred Interest arises), will not

then fall due but will instead be deferred until the first Interest Payment Date thereafter on which funds are available to the Issuer (by being deposited in the Issuer Distribution Account by the Loan Note Issuer on or immediately prior to such Interest Payment Date in accordance with the provisions of the Series 2020-1 Loan Note Supplement) to pay such Deferred Interest to the extent of such available funds. Such Deferred Interest will accrue interest ("**Additional Interest**") at the applicable Rate of Interest (as defined in Note Condition 6(b) (*Rate of Interest*)) plus a margin of one per cent. per annum, and payment of any Additional Interest will also be deferred until the first Interest Payment Date thereafter on which funds are available to the Issuer (by being deposited in the Issuer Distribution Account by the Loan Note Issuer on or immediately prior to such Interest Payment Date in accordance with the provisions of the Series 2020-1 Loan Note Supplement) to pay such Additional Interest to the extent of such available funds.

Each period beginning on (and including), in the case of the first Interest Period, the Series 2020-1 Closing Date or, thereafter, any Interest Payment Date and ending on (but excluding) the next Interest Payment Date is herein called an "**Interest Period**". The first interest payment will be made on the first Interest Payment Date in respect of the Interest Period from (and including) the Series 2020-1 Closing Date to (but excluding) the first Interest Payment Date.

In the case of any Interest Payment Date that falls on a day that is not a New York Business Day, the Paying Agent or U.S. Paying Agent, as applicable, shall provide any amounts due to Class A1 Noteholders and Class A2 Noteholders on the immediately following New York Business Day.

Interest will cease to accrue on any part of the Principal Amount Outstanding of a Note from the due date for redemption unless payment of principal is improperly withheld or refused, in which case it will continue to bear interest in accordance with this Note Condition (after as well as before judgment) until whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is seven days after the Principal Paying Agent or the Note Trustee has notified the relevant Noteholders in accordance with Note Condition 18 (*Notices*) that it has received all sums due in respect of the relevant class of Notes up to such seventh day (except to the extent that there is any subsequent default in payment).

(c) ***Calculation of Interest in respect of the Notes***

The Agent Bank will, in relation to each Interest Period, on the Related Interest Determination Date, calculate the amount of interest:

- (i) payable in respect of the Principal Amount Outstanding of the Class A1 Notes and the Class A2 Notes, as applicable, for such Interest Period (each a "**Dollar Interest Amount**"). The Dollar Interest Amount in respect of the Class A1 Notes up to and including the Class A1 Floating Rate Commencement Date will be calculated by applying the Class A1 Fixed Rate to the Principal Amount Outstanding of the Class A1 Notes, multiplying by 30 (other than in respect of the first Calculation Period, which shall be the actual number of days in that period) divided by 360 and rounding the resultant figure to the nearest cent (half a cent being rounded upwards). The Dollar Interest Amount in respect of the Class A1 Notes following the Class A1 Floating Rate Commencement Date and the Class A2 Notes will be calculated by applying the applicable Rate of Interest to the Principal Amount Outstanding of the Class A1 Notes and the Class A2 Notes, as applicable, at the commencement of such Interest Period, multiplying the product by the actual number of days in such Interest Period divided by 360 and rounding the resulting figure to the nearest cent (half a cent being rounded upwards). On each Interest Payment Date, the Agent Bank shall determine the actual amount of interest which will be paid on the Class A1 Notes and the Class A2 Notes on that Interest Payment Date and the amount of Deferred Interest (if any) on the Class A1 Notes and the Class A2 Notes in respect of the related Interest Period and the amount of Additional Interest (if any) which will be paid on such Interest Payment Date. The amount of Additional Interest shall be calculated by applying the Rate of Interest for, as applicable, the Class A1 Notes or the Class A2 Notes (plus a margin of 1 per cent. per annum) to the Deferred Interest from prior Interest Periods which remains unpaid, multiplying the product by (i) in respect of the Class A1 Notes up to and including the Class A1 Floating Rate Commencement Date, 30 (other than in respect of the first Calculation Period, which shall be the actual number of days in that period) divided by 360 and (ii) in respect of the Class A1 Notes following the Class A1 Floating Rate Commencement Date and the Class A2 Notes, the actual number of days in such

Interest Period divided by 360 and rounding the resultant figure to the nearest cent (half a cent being rounded upwards). In the event that, on any Interest Payment Date, the amount of monies which are deposited in the Issuer Distribution Account by the Loan Note Issuer on such day (including, if applicable, after application pursuant to the Class A1 Swap Agreement and the Class A2 Swap Agreement) in accordance with the provisions of the Series 2020-1 Loan Note Supplement is insufficient to pay in full the Dollar Interest Amount for either the Class A1 Notes and the Class A2 Notes and any outstanding Deferred Interest and any Additional Interest due on such Interest Payment Date in respect of the relevant class, such monies will be applied first to the payment of any Dollar Interest Amount in respect of the relevant class, secondly to the payment of any outstanding Deferred Interest in respect of the relevant class and thereafter to the payment of any Additional Interest in respect of the relevant class; and

- (ii) payable in respect of the Principal Amount Outstanding of the Class A3 Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes for such Interest Period (each a "**Sterling Interest Amount**" and, together with each Dollar Interest Amount, each an "**Interest Amount**"). The Sterling Interest Amount in respect of the Class A3 Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes will be calculated by applying the applicable Rate of Interest to the Principal Amount Outstanding of the Class A3 Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes at the commencement of such Interest Period, multiplying the product by the actual number of days in such Interest Period divided by 365 and rounding the resulting figure to the nearest penny (half a penny being rounded upwards). On each Interest Payment Date, the Agent Bank shall determine the actual amount of interest which will be paid on the Class A3 Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes on that Interest Payment Date and the amount of Deferred Interest (if any) on the Class A3 Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes in respect of the related Interest Period and the amount of Additional Interest (if any) which will be paid on such Interest Payment Date. The amount of Additional Interest shall be calculated by applying the Rate of Interest for the Class A3 Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes (plus a margin of 1 per cent. per annum) to the Deferred Interest from prior Interest Periods which remains unpaid, multiplying the product by the actual number of days in such Interest Period divided by 365 and rounding the resultant figure to the nearest penny (half a penny being rounded upwards). In the event that, on any Interest Payment Date, the amount of monies which are deposited in the Issuer Distribution Account by the Loan Note Issuer on such day in accordance with the provisions of the Series 2020-1 Loan Note Supplement is insufficient to pay in full the Sterling Interest Amount for any class of the Class A3 Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes or the Class F Notes and any outstanding Deferred Interest and any Additional Interest due on such Interest Payment Date in respect of the relevant class, such monies will be applied first to the payment of any Sterling Interest Amount in respect of the relevant class, secondly to the payment of any outstanding Deferred Interest in respect of the relevant class and thereafter to the payment of any Additional Interest in respect of the relevant class.

(d) ***Failure of Agent Bank***

If the Agent Bank fails at any time to calculate an Interest Amount or amount of Deferred Interest (if any) or amount of Additional Interest (if any), the Note Trustee, or its appointed agent (in each case to the extent it is able to), without accepting any liability therefor and without liability if it is unable to, will calculate such Interest Amount or amount of Deferred Interest (if any) or amount of Additional Interest (if any), in accordance with paragraph (a) or (c) above (as applicable), and each such calculation shall be deemed to have been made by the Agent Bank.

(e) **Publication**

The Agent Bank will cause each Interest Amount, amount of Deferred Interest (if any) and amount of Additional Interest (if any) determined by it, together with the relevant Interest Payment Date, to be notified to the Issuer, the Paying Agents, the Note Trustee and, for so long as the Notes are admitted to trading on the Main Market of the London Stock Exchange (the "**London Stock Exchange**"), an approved Regulatory Information Service of the London Stock Exchange as soon as practicable after such determination but in any event not later than the seventh day thereafter or such earlier day as the London Stock Exchange may require and will cause the same to be published in accordance with Note Condition 18 (*Notices*) as soon as possible thereafter.

(f) **Recalculation**

The Agent Bank will be entitled to recalculate any Interest Amount, amount of Additional Interest and amount of Deferred Interest (on the basis of the foregoing provisions) without notice in the event of an extension or shortening of the relevant Interest Period.

(g) **Notifications etc.**

All notifications, opinions, determinations, certificates, calculations and decisions given, expressed, made or obtained for the purposes of these Note Conditions, whether by the Agent Bank or the Note Trustee, will be binding on the Issuer, the Paying Agents, the Note Trustee, the Agent Bank and the Noteholders and (subject to as otherwise provided in these Note Conditions or the Issuer Documents) no liability to any such person will attach to the Agent Bank or the Note Trustee in connection with the exercise or non-exercise by them of their powers, duties and discretions for such purposes.

If, on any such date, the Class A2 Put Available Funds are not sufficient to repurchase all of the Put Class A2 Notes, the Issuer shall repurchase as many whole Put Class A2 Notes (in denominations of not less than \$200,000) as possible with the Class A2 Put Available Funds (such repurchases to be conducted, insofar as is practicable, on a *pro rata* and *pari passu* basis between Class A2 Noteholders holding Put Class A2 Notes). Any payments to be made by the Issuer to the Class A2 Noteholders pursuant to this Note Condition 7(g) shall be made as advised to the Issuer and the Principal Paying Agent by the Cash Manager. To the extent that, on any Interest Payment Date following the repurchase of Put Class A2 Notes in accordance with this paragraph, there are remaining Class A2 Put Available Funds of an amount insufficient to purchase the \$200,000 minimum denomination herein described, such remaining Class A2 Put Available Funds shall be retained by the Issuer and applied towards the repurchase of any additional Put Class A2 Notes on the following Interest Payment Date. - (ii) If, on or before the Class A2 Put Funding Notification Date, the Cash Manager delivers a notice to the Issuer and the Note Trustee (a "**Class A2 Put Funding Notice**") stating that a third party (including, but not limited to, a member of the NewDay Group or another Noteholder) has committed to purchase the Put Class A2 Notes from the Issuer and place the Issuer in funds sufficient for the Issuer to repurchase the Put Class A2 Notes on or before the Class A2 Scheduled Put Date, then there shall (subject to the following provisions of this paragraph (ii)) be no Class A2 Rapid Amortisation Period in respect of those Put Class A2 Notes and the Issuer shall, on receipt of the funds from the third party (and upon, if applicable, conversion of those funds into the currency of the Put Class A2 Notes pursuant to a swap, forward or spot currency transaction), apply such funds in repurchasing the Put Class A2 Notes on the Class A2 Scheduled Put Date and shall either (A) transfer the Put Class A2 Notes to or to the order of such third party or (B) appoint an agent to assist with the transfer of such Put Class A2 Notes to or to the order of such third party on or about such Class A2 Scheduled Put Date. Any arrangement pursuant to which such funds are to be provided shall limit the recourse of the relevant third party in respect of those funds to the funds themselves, the relevant Put Class A2 Notes, the proceeds thereof and any related rights. Such third party's funds shall not be applied by the Issuer for any purpose other than acquiring the relevant Put Class A2 Notes (converting the relevant funds into the currency of the Put Class A2 Notes pursuant to a swap, forward or spot currency transaction) or (in the event such Notes are, for any reason, not repurchased by the Issuer) repaying the relevant third party. Any proceeds of the transfer of the Put Class A2 Notes shall be applied solely in the manner contemplated by the arrangements with the third party. Where a third party purchaser fails to put the Issuer in funds to repurchase the Put Class A2 Notes on the Class A2 Scheduled Put Date (or within five Business Days thereafter) in accordance with this paragraph (ii), the Class A2 Put Funding Notice delivered by the Cash Manager shall be deemed to be revoked and invalidated and Note Condition 7(g)(i) shall be deemed to apply to such Put Class A2 Notes. Any Put Class A2 Notes acquired by the Issuer pursuant to this Note Condition 7(g)(ii) shall be retained and not cancelled but shall be transferred by the Issuer (or its appointed agent) to or to the order of the third party provider of such funds on or about the Class A2 Scheduled Put Date.

"**Class A2 Put Available Funds**" means amounts representing principal repayments received in respect of the Class A2 Loan Note.

(h) ***Required Repurchase of Class A3 Notes***

- (i) If:
- (A) any Class A3 Noteholder has delivered a Class A3 Put Notice (that has not been revoked) to the Issuer in relation to a Class A3 Reset Notice (that has not been revoked) in accordance with the provisions of the Note Trust Deed on or before the relevant Class A3 Put Notification Date;
  - (B) a third party purchaser has failed to acquire the Put Class A3 Notes from the Issuer on the Class A3 Scheduled Put Date in accordance with paragraph (ii) below (or within five Business Days thereafter),

then the Issuer shall, on the Class A3 Scheduled Put Date (in the case of paragraph (A) above) and each subsequent Interest Payment Date (in the case of paragraph (A) or (B) above), in either case, unless, prior to such date, the Class A3 Scheduled Redemption Date occurs or the Rapid Amortisation Period commences (in which case the Put Class A3 Notes will be redeemed in the same manner as the other outstanding Class A3 Notes) to the extent of any Class A3 Put Available Funds, repurchase the Put Class A3 Notes at their then Principal Amount

Outstanding together with accrued but unpaid interest thereon. If, on any such date, the Class A3 Put Available Funds are not sufficient to repurchase all of the Put Class A3 Notes, the Issuer shall repurchase as many whole Put Class A3 Notes (in denominations of not less than £100,000) as possible with the Class A3 Put Available Funds (such repurchases to be conducted, insofar as is practicable, on a *pro rata* and *pari passu* basis between Class A3 Noteholders holding Put Class A3 Notes). Any payments to be made by the Issuer to the Class A3 Noteholders pursuant to this Note Condition 7(h) shall be made as advised to the Issuer and the Principal Paying Agent by the Cash Manager. To the extent that, on any Interest Payment Date following the repurchase of Put Class A3 Notes in accordance with this paragraph, there are remaining Class A3 Put Available Funds of an amount insufficient to purchase the £100,000 minimum denomination herein described, such remaining Class A3 Put Available Funds shall be retained by the Issuer and applied towards the repurchase of any additional Put Class A3 Notes on the following Interest Payment Date. For the avoidance of doubt, a Class A3 Put Notice from any Class A3 Noteholder shall only be legally binding if delivered in the form, and in accordance with the process, specified in the Class A3 Reset Notice. Any Put Class A3 Notes acquired by the Issuer pursuant to this Note Condition 7(h)(i) shall be cancelled.

- (ii) If, on or before the Class A3 Put Funding Notification Date, the Cash Manager delivers a notice to the Issuer and the Note Trustee (a "**Class A3 Put Funding Notice**") stating that a third party (including, but not limited to, a member of the NewDay Group or another Noteholder) has committed to purchase the Put Class A3 Notes from the Issuer and place the Issuer in funds sufficient for the Issuer to repurchase the Put Class A3 Notes on or before the Class A3 Scheduled Put Date, then there shall (subject to the following provisions of this paragraph (ii)) be no Class A3 Rapid Amortisation Period in respect of those Put Class A3 Notes and the Issuer shall, on receipt of the funds from the third party (and upon, if applicable, conversion of those funds into the currency of the Put Class A3 Notes pursuant to a swap, forward or spot currency transaction), apply such funds in repurchasing the Put Class A3 Notes on the Class A3 Scheduled Put Date and shall either (A) transfer the Put Class A3 Notes to or to the order of such third party or (B) appoint an agent to assist with the transfer of such Put Class A3 Notes to or to the order of such third party on or about such Class A3 Scheduled Put Date. Any arrangement pursuant to which such funds are to be provided shall limit the recourse of the relevant third party in respect of those funds to the funds themselves, the relevant Put Class A3 Notes, the proceeds thereof and any related rights. Such third party's funds shall not be applied by the Issuer for any purpose other than acquiring the relevant Put Class A3 Notes, converting the relevant funds into the currency of the Put Class A3 Notes pursuant to a swap, forward or spot currency transaction or (in the event such Notes are, for any reason, not repurchased by the Issuer) repaying the relevant third party. Any proceeds of the transfer of the Put Class A3 Notes shall be applied solely in the manner contemplated by the arrangements with the third party. Where a third party purchaser fails to put the Issuer in funds to repurchase the Put Class A3 Notes on the Class A3 Scheduled Put Date (or within five Business Days thereafter) in accordance with this paragraph (ii), the Class A3 Put Funding Notice delivered by the Cash Manager shall be deemed to be revoked and invalidated and Note Condition 7(h)(i) shall be deemed to apply to such Put Class A3 Notes. Any Put Class A3 Notes acquired by the Issuer pursuant to this Note Condition 7(h)(iii) shall be retained and not cancelled but shall be transferred by the Issuer (or its appointed agent) to or to the order of the third party provider of such funds on or about the Class A3 Scheduled Put Date.
- (iii) Class A3 Reset is not applicable.

- (ii) Any payments to be made by the Issuer to the Retained Noteholders pursuant to this Note Condition 7(i) shall be made as advised to the Issuer and the Principal Paying Agent by the Cash Manager.
- (iii) The Issuer shall notify the Noteholders of the occurrence of any Retained Call Date, and the details of any Retained Notes repurchased by it on such Retained Call Date, in accordance with Note Condition 18 (*Notices*), on, or as soon as reasonably practicable after, the relevant Retained Call Date.

"**Refinancing Date**" means the date on which an amount equal to the Series 2020-1 Investor Interest has been credited to the Series 2020-1 Principal Funding Ledger of the Receivables Trustee Investment Account.

On each Interest Payment Date, the Principal Paying Agent shall determine (i) the amount of each "**Principal Payment**" payable on the Notes of each class, which will (including, in the case of Class A1, after application pursuant to the Class A1 Swap Agreement (if applicable) and, in the case of Class A2, after application pursuant to the Class A2 Swap Agreement (if applicable)) be allocated *pro rata* to the Notes in that class in accordance with the relevant Principal Amounts Outstanding from the Available Repayment Funds available for redemption of the relevant class of Notes, and (ii) the Principal Amount Outstanding of that class of Notes on the first day of the Interest Period commencing on that Interest Payment Date (after deducting any Principal Payment due to be made in respect of that class of Notes on the Interest Payment Date).
- (ii) The Principal Paying Agent will cause each Principal Payment and Principal Amount Outstanding to be notified to the Issuer, the Paying Agents and the Note Trustee and will cause such notice to be published in accordance with Note Condition 18 (*Notices*) as soon as possible thereafter.

- (iii) All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of this Note Condition 7 by the Principal Paying Agent will be binding on the Issuer, the Paying Agents, the Note Trustee and the Noteholders and (subject as aforesaid) no liability to any such person will attach to the Principal Paying Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions for such purposes.
- (iv) If the Principal Paying Agent fails at any time to determine a Principal Payment or Principal Amount Outstanding as aforesaid, the Note Trustee (or a person appointed by the Note Trustee) shall (in each case to the extent it is able to), without accepting any liability therefor and without liability if it is unable to, calculate such Principal Payment or Principal Amount Outstanding in accordance with the above provisions of this Note Condition 7, and each such determination or calculation shall be deemed to have been made by the Principal Paying Agent. Any such determination or calculation will be binding on the Issuer, the Paying Agents, the Note Trustee and the Noteholders.

 the proceeds of such Realisation are insufficient, after payment of all other claims ranking in priority in accordance with Note Condition 4(b) (*Priority of Payments*), to pay in full all amounts then due and payable under any class of Notes, then the amount remaining to be paid (after such application in full of the amounts first referred to in (ii) above) under such class of Notes (and any class of Notes junior to that class of Notes) shall, immediately following such application in full of the amounts referred to in (ii) above, cease to be due and payable by the Issuer.

Payments of principal and interest on any Note will be made to the persons in whose names the Notes are registered in the Register at the opening of business in the place of the Registrar's Specified Office on the fifteenth day before the due date for such payment. Such date is called the "**Record Date**". Payments will be made by wire transfer of immediately available funds, if the registered holder of the Note has provided wiring instructions no less than five Business Days prior to the Record Date, or otherwise by cheque mailed to the address of the registered holder of the Note as it appears in the Register at the opening of business on the Record Date. In the case of final redemption of a Note, and **provided that** payment is to be made in full, payment will only be made against surrender of the relevant Note Certificate to the Registrar or the U.S. Registrar.

A holder of a Note shall not be entitled to any interest or other payment in respect of any delay in payment resulting from (A) the due date for a payment not being a Business Day or (B) a cheque mailed in accordance with this Note Condition 9 arriving after the due date for payment or being lost in the mail.

(d) ***Partial Payments***

If a Paying Agent makes a partial payment in respect of any Note presented to it for payment, such Paying Agent will notify the Registrar and/or the U.S. Registrar and the Registrar and/or the U.S. Registrar will endorse on the Register a statement indicating the amount and date of such payment.

(e) ***Class A1 and/or Class A2 Noteholders***

Where any Note Condition indicates a payment is or is to be made to a Class A1 Noteholder or a Class A2 Noteholder, such payment shall, if applicable, be made after conversion to U.S. Dollars by way of the Class A1 Swap Agreement or the Class A2 Swap Agreement (as applicable) or, if no such agreement is in effect at such time, spot rate foreign exchange transactions, to the extent necessary.

10. **Taxation**

All payments of principal and interest in respect of the Notes shall be made free and clear of, and without withholding or deduction for, any taxes, duties, assessments or governmental charges of whatsoever nature imposed, levied, collected, withheld or assessed by any jurisdiction or political subdivision or any authority in or of any jurisdiction having power to tax, unless such withholding or deduction is required by the law of any relevant jurisdiction. In that event, the Issuer, the Note Trustee or the Paying Agents shall make such payment after such withholding or deduction has been made and shall account to the relevant authorities for the amount so required to be withheld or deducted.

Notwithstanding any other provision in these Note Conditions, the Issuer, the Note Trustee and the Paying Agents shall be permitted to withhold or deduct any amounts required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the "**Code**") or otherwise imposed pursuant to Sections 1471 through 1474 of the Code (or any amended or successor provisions), any regulations or agreements thereunder, official interpretations thereof, or any law implementing an intergovernmental approach thereto ("**FATCA withholding**").

None of the Issuer, the Note Trustee or the Paying Agents will be required to make any additional payments to holders of the Notes in respect of any withholding or deduction applicable to any payment of principal or interest. None of the Issuer, the Note Trustee or the Paying Agents shall have any obligation to pay additional amounts or otherwise indemnify a holder for any FATCA withholding deducted or withheld by the Issuer, the Note Trustee, a Paying Agent or any other party as a result of any person not being entitled to receive payments free of FATCA withholding.

13. **Replacement of Note Certificates**

If any Note Certificate is lost, stolen, mutilated, defaced or destroyed, it may be replaced at the Specified Office of the Principal Paying Agent, subject to all applicable laws and stock exchange requirements, upon payment by the claimant of the expenses incurred in connection with such replacement and on such terms as to evidence, security, indemnity and otherwise as the Issuer may reasonably require. Mutilated or defaced Note Certificates must be surrendered before replacements will be issued.

14. **Note Trustee and Agents**

The Note Trustee is entitled to be indemnified and relieved from responsibility in certain circumstances and to be paid its costs and expenses in priority to the claims of the Noteholders.

In the exercise of its powers and discretions under these Note Conditions and the Note Trust Deed, the Note Trustee will have regard to the interests of the Noteholders as a class and will not be responsible for any consequence (in particular any tax consequence) for individual holders of Notes as a result of such holders being connected in any way with a particular territory or taxing jurisdiction.

The Note Trustee may retire at any time upon giving not less than three months' notice in writing to the Issuer without giving any reason and without being responsible for any liabilities incurred by reason of such retirement. The holders of the Most Senior Class of Notes may, at any time, resolve by way of Extraordinary Resolution to direct the Issuer to remove the Note Trustee and such Extraordinary Resolution shall contain a direction to the Issuer as to which person to appoint as successor Note Trustee. Upon receiving such Extraordinary Resolution, the Issuer shall be vested with the power to appoint such successor Note Trustee and shall promptly make such appointment as detailed in Clause 24.7 (*Successor Note Trustee*) of the Note Trust Deed by written instrument, in duplicate, one copy of which instrument shall be delivered to the Note Trustee being removed and one copy to the successor Note Trustee. The retirement or removal of the outgoing Note Trustee shall not be capable of being effective unless and until such appointment of a new Note Trustee has also become effective.

No Extraordinary Resolution involving a Basic Terms Modification that is passed by the holders of a class of Notes shall be effective unless (i) it is sanctioned by an Extraordinary Resolution of the holders of each of the other classes of Notes (to the extent that there are Notes outstanding in such other classes) which, in the opinion of the Note Trustee, are or may be materially prejudiced by such Extraordinary Resolution and (ii) it is approved in writing by the Transferor.

When consulted by the Issuer in relation to its giving a Term Series Direction (as defined in the STDCMA), the Note Trustee may, in accordance with the terms of the Note Trust Deed, obtain directions from the Noteholders before concurring with the giving of any directions to the Security Trustee.

Any Extraordinary Resolution duly passed shall be binding on all Noteholders of the relevant class (whether or not they are present at the meeting at which such resolution was passed). The majority required for an Extraordinary Resolution shall be 75 per cent. of the votes cast on that Extraordinary Resolution. The Note Trust Deed contains provisions regulating the effect of Extraordinary Resolutions of the Noteholders. The Swap Counterparty shall be notified of any Extraordinary Resolution proposed and further notified if such Extraordinary Resolution is duly passed.

resolution passed at a meeting of the Class E Noteholders shall also be binding upon all the Class F Noteholders.

No Extraordinary Resolution to approve any matter other than a Basic Terms Modification of any Class of Noteholders shall be effective unless it is sanctioned by an Extraordinary Resolution of the holders of each other Class of Notes then outstanding ranking senior to such Class(es) (to the extent that such Class(es) of Notes ranking senior to such class are then outstanding) unless the Note Trustee considers that the holders of each such Class of Notes ranking senior to such Class would not be materially prejudiced by such Extraordinary Resolution.

Creditors and the Security Beneficiaries as soon as practicable thereafter in accordance with these Note Conditions; **provided that** the Note Trustee shall not exercise any powers conferred upon it by this Note Condition 15(b) in contravention of any express direction by an Extraordinary Resolution of the Most Senior Class of Notes or of a request in writing made by the holders of not less than 25 per cent. in aggregate Principal Amount Outstanding of the Most Senior Class of Notes then outstanding (but so that no such direction or request shall affect any authorisation, waiver or determination previously given or made) or so as to authorise or waive any such breach or proposed breach relating to a Basic Terms Modification unless the holders of each affected class of outstanding Notes have, by Extraordinary Resolution, so authorised its exercise.

(c) ***Modification, Consent or Direction***

The Note Trustee may, without any consent or sanction of the Noteholders or any other Secured Creditor or Security Beneficiary, at any time and from time to time concur with the Issuer in making any modification to the Note Trust Deed or the Note Conditions or any of the other Issuer Documents (other than any Basic Terms Modification) or give any consent or direction sought from it under the terms of the STDCMA, the Series 2020-1 Loan Note Supplement and the terms of the Series 2020-1 Loan Notes, **provided that** the Note Trustee is of the opinion that such modification, consent or direction: (i) will not be materially prejudicial to the interests of the holders of the Most Senior Class of Notes or (ii) is of a formal, minor or technical nature or to correct a manifest error.

Any such modification, consent or direction shall be binding upon the Noteholders and the other Secured Creditors and Security Beneficiaries and, unless the Note Trustee agrees otherwise, shall be notified by the Issuer to the Noteholders and the other Secured Creditors in accordance with the Note Conditions. In addition, so long as any of the Notes are rated by the Rating Agencies, any such modification shall be notified in writing by the Issuer to the Rating Agencies as soon as reasonably practicable thereafter.

(d) ***Additional Right of Modification in Relation to Reference Rate Cessation***

- (i) the Cash Manager, on behalf of the Issuer, certifies to the Note Trustee in writing (such certificate, a "**Reference Rate Modification Certificate**") that:
  - (A) such Reference Rate Modification is being undertaken due to:
    - (1) SONIA and/or SOFR ceasing to exist or be published;
    - (2) an alternative manner of calculating a SONIA and/or SOFR-based rate being introduced and becoming a standard means of calculating interest for similar transactions;
    - (3) a material disruption to SONIA and/or SOFR, a material change in the methodology of calculating SONIA and/or SOFR or SONIA and/or SOFR ceasing to exist or be published;
    - (4) a public statement by the relevant administrator that it will cease publishing SONIA and/or SOFR permanently or indefinitely (in

## TERMS AND CONDITIONS OF THE NOTES

- (5) a public statement by the supervisor of the relevant administrator that SONIA and/or SOFR has been or will be permanently or indefinitely discontinued or will be changed in an adverse manner;
- (6) a public statement by the supervisor of the relevant administrator that means SONIA and/or SOFR may no longer be used or that its use is or will be subject to restrictions or adverse consequences;
- (7) the Replacement Reference Rate being adopted in a material number of publicly-listed issues of asset-backed floating rate notes denominated in the same currency as any of the Notes; or
- (8) the reasonable expectation of the Cash Manager that any of the events specified in paragraphs (1) to (7) above will occur or exist within six months of the proposed effective date of such Reference Rate Modification; and

(B) such Replacement Reference Rate is:

- (1) a reference rate published, endorsed, approved or recognised by the Federal Reserve Board, the Federal Reserve Bank of New York, the Bank of England or the European Central Bank, any regulator in the United States, the United Kingdom or the European Union or any stock exchange on which the Notes are listed (or any relevant committee or other body established, sponsored or approved by any of the foregoing);
  - (2) SONIA, SOFR or the Broad Treasuries Repo Financing Rate (or any rate which is derived from, based upon or otherwise similar to either of the foregoing);
  - (3) a reference rate utilised in a material number of publicly-listed issues of asset-backed floating rate notes denominated in the same currency as any of the Notes prior to the effective date of such Reference Rate Modification;
  - (4) a reference rate utilised in a publicly-listed issue of asset-backed floating rate notes denominated in the same currency as any of the Notes where the originator of the relevant assets is a member of the NewDay Group; or
  - (5) such other reference rate as the Cash Manager reasonably determines;
- (ii) a Rating Confirmation is delivered; and
- (iii) the Transferor pays all fees, costs and expenses (including legal fees) incurred by the Issuer and the Note Trustee or any other Transaction Party in connection with such modification,

**provided that:**

- (A) at least 30 calendar days' prior written notice of any such proposed modification has been given to the Note Trustee;

## TERMS AND CONDITIONS OF THE NOTES

- (B) the Reference Rate Modification Certificate in relation to such modification shall be provided to the Note Trustee both at the time the Note Trustee is notified of the proposed modification and on the date that such modification takes effect; and
- (C) the Issuer (or the Cash Manager on its behalf) certifies in writing to the Note Trustee (which certification may be in the Reference Rate Modification Certificate) that the Issuer has provided at least 30 calendar days' notice to the Noteholders of the proposed modification in accordance with Note Condition 18 (*Notices*) and Noteholders representing at least 10 per cent. of the aggregate Principal Amount Outstanding of the Most Senior Class of Notes then outstanding have not contacted the Issuer or the Principal Paying Agent (acting on behalf of the Issuer) in writing (or otherwise in accordance with the then current practice of any applicable clearing system through which such Notes may be held) within such notification period notifying the Issuer or the Principal Paying Agent (acting on behalf of the Issuer) that such Noteholders do not consent to the modification.

If Noteholders representing at least 10 per cent. of the aggregate Principal Amount Outstanding of the Most Senior Class of Notes then outstanding have notified the Principal Paying Agent (acting on behalf of the Issuer) or the Issuer in writing (or otherwise in accordance with the then current practice of any applicable clearing system through which such Notes may be held) within the notification period referred to above that they do not consent to the modification, then such modification will not be made unless an Extraordinary Resolution of the Noteholders of the Most Senior Class of Notes then outstanding is passed in favour of such modification in accordance with Note Condition 15(a) (*Meetings of Noteholders*).

Notwithstanding anything to the contrary in this Note Condition 15(d) or any Issuer Document:

- (A) when implementing any modification pursuant to this Note Condition 15(d) (save to the extent that the proposed modification would constitute a Basic Terms Modification), the Note Trustee shall not consider the interests of the Noteholders, any other Secured Creditor, any Security Beneficiary or any other person and shall act and rely solely, and without further enquiry or liability, on any certificate (including any Reference Rate Modification Certificate) or evidence provided to it by the Issuer (or the Cash Manager on behalf of the Issuer) pursuant to this Note Condition 15(d) and shall not be liable to the Noteholders, any other Secured Creditor, any Security Beneficiary or any other person for so acting or relying, irrespective of whether any such modification is or may be materially prejudicial to the interests of any such person; and
- (B) the Note Trustee shall not be obliged to agree to any modification which, in the sole opinion of the Note Trustee, would have the effect of (i) exposing the Note Trustee to any liability against which it has not been indemnified and/or secured and/or pre-funded to its satisfaction or (ii) increasing the obligations or duties, or decreasing the rights or protections, of the Note Trustee in the Issuer Documents and/or these Note Conditions.

Any such modification shall be binding on all Noteholders and shall be notified by the Issuer as soon as reasonably practicable to:

- (1) each Rating Agency;
- (2) the Note Trustee;

- (3) the Noteholders in accordance with Note Condition 18 (*Notices*); and
  - (4) the Swap Counterparty.
- (e) ***Additional Right of Modification in Relation to a Class A1 Reset, a Class A2 Reset and/or a Class A3 Reset***
- (i) Notwithstanding the foregoing provisions of this Note Condition 15, the Note Trustee shall be obliged, without any consent or sanction of the Noteholders or any other Secured Creditor or Security Beneficiary, to concur with the Issuer in making any modification to the Note Trust Deed or the Note Conditions or any other Issuer Documents (other than any Basic Terms Modification, **provided that** nothing set out in a Class A1 Reset Notice, a Class A2 Reset Notice or a Class A3 Reset Notice (as applicable) shall be deemed or considered to constitute a Basic Terms Modification for any purpose) that the Issuer (acting on the advice of the Cash Manager) certifies to the Note Trustee as being necessary for the purpose of a Class A1 Reset, a Class A2 Reset or a Class A3 Reset and making such consequential amendments including, but not limited to, in respect of any swap arrangements (other than any Basic Terms Modification, **provided that** nothing set out in a Class A1 Reset Notice, a Class A2 Reset Notice or a Class A3 Reset Notice shall be deemed or considered to constitute a Basic Terms Modification for any purpose) as the Issuer certifies to the Note Trustee as being necessary or consequential in the judgment of the Issuer (acting on the advice of the Cash Manager) to facilitate such Class A1 Reset (a "**Class A1 Reset Amendment**"), Class A2 Reset (a "**Class A2 Reset Amendment**") or Class A3 Reset (a "**Class A3 Reset Amendment**"), as applicable, **provided that**, in relation to any amendment under this Note Condition 15(e), the Note Trustee receives a Rating Confirmation from each Rating Agency in respect of such Class A1 Reset Amendment, Class A2 Reset Amendment or Class A3 Reset Amendment, as applicable, and the Issuer pays all fees, costs and expenses of the Note Trustee in relation to such amendment. For the avoidance of doubt and if applicable, any modification (i) to the Class A1 Swap Agreement, (ii) to the Class A2 Swap Agreement or (iii) constituting a Swap Counterparty Relevant Change can only be made with the prior consent of the Swap Counterparty.
  - (ii) Notwithstanding anything to the contrary in this Note Condition 15(e) or any Issuer Document:
    - (A) when implementing any modification pursuant to this Note Condition 15(e), the Note Trustee shall not consider the interests of the Noteholders, any other Secured Creditor, any Security Beneficiary or any other person and shall act and rely solely, and without further enquiry or liability, on any certificate (or evidence provided to it by the Issuer (or the Cash Manager on behalf of the Issuer)) pursuant to this Note Condition 15(e) and shall not be liable to the Noteholders, any other Secured Creditor, any Security Beneficiary or any other person for so acting or relying, irrespective of whether any such modification is or may be materially prejudicial to the interests of any such person; and
    - (B) the Note Trustee shall not be obliged to agree to any modification which, in the sole opinion of the Note Trustee, would have the effect of (i) exposing the Note Trustee to any liability against which it has not been indemnified and/or secured and/or pre-funded to its satisfaction or (ii) increasing the obligations or duties, or decreasing the rights or protections, of the Note Trustee in the Issuer Documents and/or these Note Conditions.

Any such modification shall be binding on all Noteholders and shall be notified by the Issuer as soon as reasonably practicable to:

- (1) each Rating Agency;
- (2) the Note Trustee;
- (3) the Noteholders in accordance with Note Condition 18 (*Notices*); and
- (4) the Swap Counterparty.

(f) ***Additional Right of Modification in Relation to the Issuance of Further Class A1 Notes, Class A2 Notes or Class A3 Notes***

- (i) Notwithstanding the foregoing provisions of this Note Condition 15, the Note Trustee shall be obliged, without any consent or sanction of the Noteholders or any other Secured Creditor or Security Beneficiary, to concur with the Issuer in making any modification to the Note Trust Deed or the Note Conditions or any other Issuer Documents (other than any Basic Terms Modification, **provided that** no modification certified by the Issuer as being necessary or advisable to facilitate such further issue of Notes shall be deemed or considered to constitute a Basic Terms Modification for any purpose) that the Issuer (acting on the advice of the Cash Manager) certifies to the Note Trustee as being necessary for the purpose of the issuance of further Class A1 Notes, Class A2 Notes and/or Class A3 Notes (including any sub-class or sub-classes of Class A1 Notes, Class A2 Notes and/or Class A3 Notes) as envisaged by Note Condition 19 (*Further Issues*) and making such consequential amendments including, but not limited to, in respect of any swap arrangements (other than any Basic Terms Modification, **provided that** no modification certified by the Issuer as being necessary or advisable to facilitate such further issue of Notes shall be deemed or considered to constitute a Basic Terms Modification for any purpose) as the Issuer certifies to the Note Trustee as being necessary or advisable in the judgment of the Issuer (acting on the advice of the Cash Manager) to facilitate such further issue of Notes, **provided that**, in relation to any amendment under this Note Condition 15(f), the Note Trustee receives a Rating Confirmation from each Rating Agency of all the Notes prior to the issuance of such further Notes and the Issuer pays all fees, costs and expenses of the Note Trustee in relation to such further issuance. For the avoidance of doubt and if applicable, any modification (i) to the Class A1 Swap Agreement, (ii) to the Class A2 Swap Agreement or (iii) constituting a Swap Counterparty Relevant Change can only be made with the prior consent of the Swap Counterparty.
- (ii) Notwithstanding anything to the contrary in this Note Condition 15(f) or any Issuer Document:
  - (A) when implementing any modification pursuant to this Note Condition 15(f), the Note Trustee shall not consider the interests of the Noteholders, any other Secured Creditor, any Security Beneficiary or any other person and shall act and rely solely, and without further enquiry or liability, on any certificate (or evidence provided to it by the Issuer (or the Cash Manager on behalf of the Issuer) pursuant to this Note Condition 15(f)) and shall not be liable to the Noteholders, any other Secured Creditor, any Security Beneficiary or any other person for so acting or relying, irrespective of whether any such modification is or may be materially prejudicial to the interests of any such person; and
  - (B) the Note Trustee shall not be obliged to agree to any modification which, in the sole opinion of the Note Trustee, would have the effect of (i) exposing the Note Trustee to any liability against which it has not been indemnified and/or secured and/or pre-funded to its satisfaction or (ii)

increasing the obligations or duties, or decreasing the rights or protections, of the Note Trustee in the Issuer Documents and/or these Note Conditions.

Any such modification shall be binding on all Noteholders and shall be notified by the issuer as soon as reasonably practicable to:

- (1) each Rating Agency;
- (2) the Note Trustee;
- (3) the Noteholders in accordance with Note Condition 18 (*Notices*); and
- (4) the Swap Counterparty.

(g) ***Substitution***

As more fully set forth in the Note Trust Deed (and subject to the conditions and more detailed provisions which are contained therein), subject to such amendment of the Note Trust Deed and such other conditions as the Note Trustee may require, but without the consent of the Noteholders, the Note Trustee may also agree to the substitution of any other body corporate in place of the Issuer as principal debtor under the Note Trust Deed and the Notes and, in the case of such a substitution, the Note Trustee may agree, without the consent of the Noteholders, to a change of the law governing the Notes and/or the Note Trust Deed, **provided that** such change would not in the opinion of the Note Trustee be materially prejudicial to the interests of the Noteholders. Any such substitution shall be notified to the Noteholders in accordance with Note Condition 18 (*Notices*) as soon as practicable thereafter.

16. **Enforcement**

At any time after the Notes become due and repayable and, without prejudice to its rights of enforcement in relation to the Security, the Note Trustee may, at its sole discretion and without notice, deliver an Enforcement Notice, or take any steps or actions or institute such proceedings as it thinks fit to enforce payment of the Notes (including the right to repayment of the Notes together with accrued interest thereon) and shall be bound to do so if (and only if):

- (a) it shall have been so directed by holders of at least one-quarter of the aggregate Principal Amount Outstanding of the Most Senior Class of Notes or by an Extraordinary Resolution of holders of the Most Senior Class of Notes; and
- (b) it shall have been indemnified and/or secured and/or prefunded to its satisfaction against all actions, proceedings, claims and demands to which it may thereby render itself liable and all costs, charges, damages, liabilities and expenses which it may incur by doing so,

and **provided that** the Note Trustee shall not be held liable for the consequence of the taking of any such action and may take such action without having regard to the effect of such action on individual Noteholders or any other beneficiary of the Note Trust Deed.

No Noteholder may institute any proceedings against the Issuer to enforce its rights under or in respect of the Notes or the Note Trust Deed unless (i) the Note Trustee has become bound to institute proceedings and has failed to do so within a reasonable time and (ii) such failure is continuing.

17. **No Action by Noteholders or any other Secured Creditor**

Only the Note Trustee may pursue the remedies available under the general law or under the Issuer Documents to enforce the Security and no Noteholder or other Secured Creditor shall be entitled to proceed directly against the Issuer to enforce the Security. In particular, none of the Noteholders or any other Secured Creditor (nor any person on its or their behalf, other than the Note Trustee where appropriate) are entitled:

- (a) otherwise than as permitted by these Note Conditions, to direct the Note Trustee to enforce the Security or take any proceedings against the Issuer to enforce the Security;
- (b) to take or join any person in taking any steps against the Issuer for the purpose of obtaining payment of any amount due from the Issuer to such Noteholders or any other Secured Creditors;
- (c) until the date falling two years after the Final Discharge Date, to initiate or join any person in initiating any insolvency proceeding in relation to the Issuer; or
- (d) to take or join in the taking of any steps or proceedings which would result in the priority of payments set out in Note Condition 4(b) (*Priority of Payments*) not being observed.

**"Final Discharge Date"** means the date on which the Note Trustee is satisfied that all of the Secured Obligations and/or all other moneys and other liabilities due or owing by the Issuer have been paid or discharged in full.

18. **Notices**

- (a) Notices to the Noteholders shall be deemed to have been duly validly given if published in a leading English language daily newspaper published in London (which may be the Financial Times or another such newspaper). Any such notice shall be deemed to have been given on the date of first publication.
- (b) Until such time as any Notes are individually registered in the name of Noteholders following an Exchange Event, there may, so long as each class of Notes is held in its entirety on behalf of one or more Clearing Systems, be substituted for such publication in such newspaper the delivery of the relevant notice to each such Clearing System for communication by them to the holders of beneficial interests in the Notes. Any such notice shall be deemed to have been given to the holders of the relevant beneficial interests in the Notes on the day on which such notice was given to the relevant Clearing Systems.
- (c) The Issuer may, at its sole discretion, give any notices specifying a Rate of Interest, an Interest Amount, an amount of Additional Interest or of Deferred Interest, a Principal Payment or a Principal Amount Outstanding by publishing the information contained in such notice on the relevant page of the Thomson Reuters Screen or such other medium for the electronic display of data as may be notified to the relevant Noteholders (the "**Relevant Screen**"). If the Issuer chooses to give such notice to the relevant Noteholders by publication on the Relevant Screen, any such notice shall be deemed to have been duly given on the first date on which such information appeared on the Relevant Screen.
- (d) Copies of all notices given in accordance with these provisions shall, for so long as the Notes are listed thereon, be sent to the London Stock Exchange and, for so long as Notes are held through one or more Clearing Systems, the relevant Clearing Systems.

19. **Further Issues**

The Issuer may from time to time, without the consent of the Noteholders or any other Secured Creditor, create and issue:

- (a) Class A1 Notes, Class A2 Notes or Class A3 Notes having terms and conditions the same as the Class A1 Notes, Class A2 Notes or Class A3 Notes (as the case may be) then in issue or the same in all respects, save for the amount and date of the first payment of interest thereon, issue date and/or purchase price and so that the same shall be consolidated and form a single Class with the outstanding Class A1 Notes, Class A2 Notes or Class A3 Notes (as the case may be), **provided that** (where the original Class A1 Notes, Class A2 Notes or Class A3 Notes (as the case may be) were, or the further Class A1 Notes, Class A2 Notes or Class A3 Notes (as the case may be) are, issued under Rule 144A), such further Class of Notes are either fungible for U.S. federal income tax purposes with the outstanding Class A1 Notes, Class A2 Notes or Class A3 Notes (as the case may be) or such further Notes have a different CUSIP, ISIN, Common Code and/or any other identifying number from the outstanding Class A1 Notes, Class A2 Notes or Class A3 Notes (as the case may be); and/or

- (b) one or more sub-classes of Class A1 Notes, Class A2 Notes or Class A3 Notes having terms and conditions (including in respect of currency and interest rate) different to the Class A1 Notes, Class A2 Notes or Class A3 Notes (as the case may be) then in issue,

**provided that** each Rating Agency has provided a Rating Confirmation in respect of all the Notes prior to the issuance of such further Notes. The Note Trustee shall (at the cost of the Issuer), without the consent or sanction of the Noteholders or any other Secured Creditor or any Security Beneficiary, execute such documents in accordance with Note Condition 15(f) (*Additional Right of Modification in Relation to the Issuance of Further Class A1 Notes, Class A2 Notes or Class A3 Notes*) in order to effect any such issue of Notes.

20. **Third Party Rights**

No person shall have any right to enforce any term or condition of the Notes or the Note Trust Deed under the Contracts (Rights of Third Parties) Act 1999.

21. **Governing Law and Jurisdiction**

The Notes and all non-contractual matters arising out of or connected with the Notes are governed by, and shall be construed in accordance with, English law. The courts of England have exclusive jurisdiction to settle any dispute (a "**Dispute**") arising from or connected with the Notes. The Issuer agrees that the courts of England are the most appropriate and convenient courts to settle any Dispute and, accordingly, that it will not argue to the contrary.

## THE CLASS A1 SWAP AGREEMENT

### General

*There will be no issuance of the Class A1 Notes by the Issuer on the Series 2020-1 Closing Date and any references to "Class A1 Notes" and any constructs, definitions and amounts related to "Class A1" in this section should be disregarded. No Class A1 Swap Agreement shall be entered into by the Issuer, and any reference to a "Swap Counterparty" and "Class A1 Swap Agreement" and any related constructs, definitions and amounts in this section should be disregarded.*

The Class A1 Notes are denominated in U.S. Dollars and consequently the Issuer will be obliged to make payments of interest and principal in respect of the Class A1 Notes in U.S. Dollars. However, certain amounts received by the Issuer referable to the Class A1 Notes will be denominated in Sterling. In order to protect the Issuer against such currency exchange rate exposure, the Issuer and the Swap Counterparty will enter into a currency swap transaction in relation to the Class A1 Notes with Banco Santander S.A., London Branch (the "**Swap Counterparty**") pursuant to an ISDA Master Agreement and related schedule, credit support annex and confirmation (the "**Class A1 Swap Agreement**").

Under the terms of such currency swap transaction, the Issuer will pay to the Swap Counterparty:

- (a) on the Series 2020-1 Closing Date, the U.S. Dollar proceeds received by the Issuer on the issue of the Class A1 Notes;
- (b) on the Transfer Date immediately preceding each Interest Payment Date (or, if the Issuer so elects in accordance with the Class A1 Swap Agreement, on the Interest Payment Date itself), an amount in Sterling determined in accordance with the provisions of the Class A1 Swap Agreement by reference to, prior to the Class A1 Floating Rate Commencement Date, a calculation including a fixed rate of interest and, thereafter, a calculation including the aggregate of the applicable floating rate of interest and applicable spread (which is intended to correspond to the interest received on the Class A1 Loan Note); and
- (c) on the Transfer Date immediately preceding (i) each Interest Payment Date on which any of the Class A1 Notes are redeemed in whole or in part or (ii) the Series 2020-1 Scheduled Redemption Date, if the Class A1 Notes are subject to a Class A1 Reset (or, if the Issuer so elects in accordance with the Class A1 Swap Agreement, on the Interest Payment Date or the Series 2020-1 Scheduled Redemption Date itself), an amount in Sterling determined in accordance with the provisions of the Class A1 Swap Agreement by reference to the principal amount of such Class A1 Notes which is redeemed or subject to a Class A1 Reset.

In return, the Swap Counterparty will be obliged to pay to the Issuer:

- (a) on the Series 2020-1 Closing Date, an amount in Sterling calculated by reference to the U.S. Dollar proceeds of the issue of the Class A1 Notes converted into Sterling at the relevant exchange rate as provided in the Class A1 Swap Agreement;
- (b) on the Transfer Date immediately preceding each Interest Payment Date (or, if the Issuer so elects in accordance with the Class A1 Swap Agreement, on the Interest Payment Date itself), an amount in U.S. Dollars determined in accordance with the provisions of the Class A1 Swap Agreement by reference to, prior to the Class A1 Floating Rate Commencement Date, a calculation including a fixed rate of interest and, thereafter, a calculation including the aggregate of the applicable floating rate of interest and applicable spread (which is intended to correspond to the interest payable on the Class A1 Notes); and
- (c) on the Transfer Date immediately preceding (i) each Interest Payment Date on which any of the Class A1 Notes are redeemed in whole or part or (ii) the Series 2020-1 Scheduled Redemption Date, if the Class A1 Notes are subject to a Class A1 Reset (or, if the Issuer so elects in accordance with the Class A1 Swap Agreement, on the Interest Payment Date or the Series 2020-1 Scheduled Redemption Date itself), an amount in U.S. Dollars determined in accordance with the provisions of the Class A1 Swap Agreement by reference to the principal amount of such Class A1 Notes which is redeemed or subject to a Class A1 Reset.

If any amount paid by the Issuer to the Swap Counterparty on the Transfer Date immediately preceding any Interest Payment Date (or, if the Issuer so elects in accordance with the Class A1 Swap Agreement, on the Interest Payment Date itself) is less than the amount scheduled to be paid by the Issuer on such Transfer Date (or Interest Payment Date, as applicable), the corresponding amount payable by the Swap Counterparty on that Transfer Date (or Interest Payment Date, as applicable) shall be reduced by the same proportion as the shortfall in the amount paid by the Issuer.

On each Interest Payment Date on which any of the Class A1 Notes are redeemed in whole or in part, or on the Series 2020-1 Scheduled Redemption Date, if the Class A1 Notes are subject to a Class A1 Reset, the notional amount applicable in respect of payments to be made by the Issuer under the Class A1 Swap Agreement shall be reduced (for the next following calculation period for the Issuer) by (i) an amount equal to the amount credited to the Issuer Distribution Account for the purposes of redeeming the Class A1 Notes on such Interest Payment Date or (ii) the outstanding principal amount of the Class A1 Notes which are subject to the Class A1 Reset (the amount of such reduction, the "**Issuer Amortisation Amount**"). On each Interest Payment Date on which there is any Issuer Amortisation Amount, the notional amount applicable in respect of payments to be made by the Swap Counterparty under the Class A1 Swap Agreement shall be reduced (for the next following calculation period for the Swap Counterparty) by an amount (the "**Swap Counterparty Amortisation Amount**") equal to the corresponding Issuer Amortisation Amount converted into U.S. Dollars at the rate of exchange provided in the Class A1 Swap Agreement.

### Early Termination

The Class A1 Swap Agreement may be terminated early, *inter alia*, in the following circumstances:

- (a) at the option of one party, if there is a failure by the other party to pay any amounts due under the Class A1 Swap Agreement;
- (b) by the Swap Counterparty, upon the service of an Enforcement Notice following the occurrence of an Event of Default under the Note Conditions;
- (c) by the Swap Counterparty, if any Swap Counterparty Relevant Change is made without the Swap Counterparty's prior written consent;
- (d) if the Class A1 Notes are subject to a Class A1 Reset which results in a mismatch between the amounts receivable by the Issuer under the Class A1 Loan Note and payable by the Issuer under the Class A1 Swap Agreement and/or between the amounts receivable by the Issuer under the Class A1 Swap Agreement and payable by the Issuer under the Class A1 Notes (which shall entitle either party to terminate);
- (e) if the Swap Counterparty adjusts the spread payable by the Issuer (to preserve the economic balance of the Class A1 Swap Agreement) following a modification to the floating rate component of either the Sterling or the U.S. Dollar payments under the Class A1 Swap Agreement to match the Class A1 Loan Note or the Class A1 Notes (which shall entitle the Issuer to terminate);
- (f) in the event that there is a withholding tax imposed (1) in relation to the Issuer's payments under the Class A1 Swap Agreement, or (2) in relation to the Swap Counterparty's payments under the Class A1 Swap Agreement and, as a result, the Swap Counterparty is required to pay more or receives less under the Class A1 Swap Agreement (following, broadly, expiry of any period during which the Swap Counterparty is required to mitigate against the imposition of such withholding tax); and
- (g) upon the occurrence of certain other events, including but not limited to certain insolvency events or changes in law resulting in illegality.

Upon any such early termination of the Class A1 Swap Agreement, the Issuer or the Swap Counterparty may be liable to make a termination payment to the other. The amount of any such termination payment will be based:

- (a) where the Class A1 Swap is terminated in circumstances in which the Issuer is the Defaulting Party or the Affected Party (each as defined therein), on the determination in good faith by the other party of total losses and costs (or gains) incurred, including any loss of bargain, cost of funding or,

at the election of such party but without duplication, losses or costs incurred as a result of its terminating, liquidating, obtaining or re-establishing any hedge or related trading position (or any gain resulting from any of them); or

- (b) where the Class A1 Swap Agreement is terminated due to the Swap Counterparty's failure to comply with remedial actions ordered by a relevant Rating Agency following a Class A1 Swap Counterparty Downgrade Event or any other circumstances detailed in the Class A1 Swap Agreement, on the market value of the swap transaction under the Class A1 Swap Agreement at the time of termination as more fully set out in the Class A1 Swap Agreement. This market value will be computed on the basis of market quotations of the cost of entering into a replacement swap transaction with the same terms and conditions that would have the effect of preserving the respective full payment obligations of the parties.

Any such termination payment could, if interest rates and/or the relevant exchange rate have changed significantly, be substantial.

Upon termination of the Class A1 Swap Agreement, the Issuer will endeavour to find a replacement swap counterparty on acceptable terms but, if no replacement Class A1 Swap Agreement is entered into, then the Issuer will need to enter into spot foreign exchange transactions in order to exchange the Sterling received under the Class A1 Loan Note for the U.S. Dollars required to make payments in respect of the Class A1 Notes.

In the event that the Class A1 Swap Agreement is terminated other than as a result of:

- (a) the occurrence of an Event of Default under (and as defined in) the Class A1 Swap Agreement in respect of which the Swap Counterparty is the Defaulting Party (as defined in the Class A1 Swap Agreement) (a "**Class A1 Swap Counterparty Event of Default**"); or
- (b) the occurrence of an Additional Termination Event (as defined in the Class A1 Swap Agreement) following the failure by the Swap Counterparty to comply with the requirements of the "Rating Events" provisions set out in the Class A1 Swap Agreement (a "**Class A1 Swap Counterparty Downgrade Event**") (as to which, see "*Rating Downgrade or Withdrawal of the Swap Counterparty*" below),

then any termination payment to be paid to the Swap Counterparty by the Issuer in accordance with the early termination provisions of such Class A1 Swap Agreement shall rank *pro rata* and *pari passu* with payments to be made under the Class A1 Notes (save to the extent they are funded by Class A1 Swap Excluded Receivable Amounts). In the event that the Class A1 Swap Agreement is terminated as a result of a Class A1 Swap Counterparty Event of Default or a Class A1 Swap Counterparty Downgrade Event, then any termination payment to be paid to the Swap Counterparty by the Issuer in accordance with the early termination provisions of such Class A1 Swap Agreement shall constitute a Class A1 Swap Excluded Termination Payment and be subordinated to any payments to be made under the Notes.

### **Taxation**

Each of the Issuer and the Swap Counterparty will represent in the Class A1 Swap Agreement that, under current applicable law, it is entitled to make all payments required to be made by it under such Class A1 Swap Agreement (other than interest under the Class A1 Swap Agreement and deliveries, transfers and payments to be made pursuant to any Credit Support Annex) free and clear and without deduction or withholding for or on account of any taxes, assessments or other charges. In the event that the Issuer is obliged to make any such deduction or withholding, it will not be required to indemnify the Swap Counterparty for such deduction. Conversely, if the Swap Counterparty is required to make any such deduction or withholding, the terms of the Class A1 Swap Agreement provide that it will pay an additional amount to the Issuer so that the Issuer receives the amount which it would otherwise have received had no deduction or withholding been required. However, in such circumstances, the Swap Counterparty has the right to terminate the Class A1 Swap Agreement.

### **Rating Downgrade or Withdrawal of the Swap Counterparty**

If the Swap Counterparty (or, if applicable, its successor, assignee, co-obligor, guarantor or credit support provider) ceases to have, does not have or is not guaranteed by an institution which has (as the case may

be) the First Minimum Required Rating (in accordance with the requirements of Fitch or DBRS), or if the rating of the Swap Counterparty (or, if applicable, its successor, assignee, co-obligor, guarantor or credit support provider) is withdrawn, then the Swap Counterparty will, in accordance with the provisions of, and subject to the timeframes specified in, the Class A1 Swap Agreement, be required to take certain remedial measures which may include:

- (i) within 14 calendar days, as required by Fitch, or 30 business days, as required by DBRS, providing collateral in accordance with the credit support annex which forms part of the Class A1 Swap Agreement;
- (ii) within 30 calendar days, as required by Fitch, or 30 "Local Business Days" (as defined in the Class A1 Swap Agreement), as required by DBRS, obtaining a guarantee from a guarantor that satisfies the minimum rating and other requirements specified in the Class A1 Swap Agreement;
- (iii) within 30 calendar days, as required by Fitch, or 30 "Local Business Days" (as defined in the Class A1 Swap Agreement), as required by DBRS, transferring the Class A1 Swap Agreement to an entity that satisfies the minimum rating and other requirements specified in the Class A1 Swap Agreement; or
- (iv) taking such other actions (which may include taking no action) as may be specified in the Class A1 Swap Agreement.

If the Swap Counterparty (or, if applicable, its successor, assignee, co-obligor, guarantor or credit support provider) ceases to have, does not have or is not guaranteed by an institution which has (as the case may be) the Second Minimum Required Rating (in accordance with the requirements of Fitch or DBRS), or if the rating of the Swap Counterparty (or, if applicable, its successor, assignee, co-obligor, guarantor or credit support provider) is withdrawn, then the Swap Counterparty will, in accordance with the provisions of, and subject to the timeframes specified in, the Class A1 Swap Agreement, be required to take certain remedial measures which may include obtaining a guarantee from a guarantor that satisfies the minimum rating and other requirements specified in the Class A1 Swap Agreement, effecting a transfer of the Class A1 Swap Agreement to an entity that satisfies the minimum rating and other requirements specified in the Class A1 Swap Agreement or taking such other actions (which may include taking no action) as may be specified in the Class A1 Swap Agreement.

If the Swap Counterparty fails to take any of the applicable remedial measures in accordance with the provisions of the Class A1 Swap Agreement, the Issuer may terminate such Class A1 Swap Agreement in accordance with its terms.

Where the Swap Counterparty provides collateral in accordance with the terms of the Class A1 Swap Agreement, such collateral will be credited to a ledger (the "**Class A1 Swap Collateral Ledger**") and held in one or more cash or securities accounts maintained with the Swap Collateral Account Bank or the Custodian in the name of the Issuer, and amounts in respect of such collateral may be returned by the Issuer to the Swap Counterparty from time to time in accordance with the terms of the Class A1 Swap Agreement, and will not be applied in accordance with Note Condition 4(b) (*Priority of Payments*).

**"First Minimum Required Rating"** means:

- (a) in the case of Fitch, a rating of at least the Unsupported Minimum Counterparty Rating from Fitch; and
- (b) in the case of DBRS, a public rating assigned by DBRS to either the relevant entity or its long-term, unsecured and unsubordinated debt obligations of at least A,

or such other minimum required ratings as may be specified in the Class A1 Swap Agreement.

**"Second Minimum Required Rating"** means:

- (a) in the case of Fitch, a rating of at least the Supported Minimum Counterparty Rating or, if an entity is not incorporated in the same jurisdiction as the Issuer and, following a request from Fitch, has not provided to Fitch a legal opinion, in a form acceptable to Fitch, confirming the enforceability

of the subordination provisions against it in its jurisdiction, the Supported Minimum Counterparty Rating (adjusted), in each case, from Fitch; and

- (b) in the case of DBRS, a public rating assigned by DBRS to either the relevant entity or its long-term, unsecured and unsubordinated debt obligations of at least BBB,

or such other minimum required ratings as may be specified in the Class A1 Swap Agreement.

**Unsupported Minimum Counterparty Rating**", "**Supported Minimum Counterparty Rating**" and "**Supported Minimum Counterparty Rating (adjusted)**" shall mean the derivative counterparty rating or, if one has not been assigned by Fitch, the long-term issuer default rating or, if applicable, the short-term issuer default rating from Fitch corresponding to the then current rating of the Class A1 Notes as set out in the following table:

<b>Current rating of Class A1 Notes</b>	<b>Unsupported Minimum Counterparty Rating</b>	<b>Supported Minimum Counterparty Rating</b>	<b>Supported Minimum Counterparty Rating (adjusted)</b>
AAAsf	A or F1	BBB- or F3	BBB+ or F2
AA+sf, AAsf, AA-sf	A- or F1	BBB- or F3	BBB+ or F2
A+sf, Asf, A-sf	BBB or F2	BB+	BBB or F2
BBB+sf, BBBsf, BBB-sf	BBB- or F3	BB-	BBB- or F3
BB+sf, BBsf, BB-sf	At least as high as the Class A1 Notes rating	B+	BB-
B+sf or below or Class A1 Notes are not rated by Fitch	At least as high as the Class A1 Notes rating	B-	B-

For the purposes of the above table, if the Class A1 Notes are downgraded by Fitch as a result of a downgrade or loss of the rating of the Swap Counterparty, then the then current rating of the Class A1 Notes will be deemed to be the rating the Class A1 Notes would have had but for such downgrade or loss of the rating.

#### **Modification**

The Note Trust Deed will provide that the written consent of the Swap Counterparty is required in respect of any changes to any of the Note Trust Deed or the Note Conditions or any of the other Issuer Documents or any consent or direction under the terms of the STDCMA, the Series 2020-1 Loan Note Supplement and the terms of the Series 2020-1 Loan Notes, including without limitation any modification made pursuant to Note Condition 15(d) (*Additional Right of Modification in Relation to Reference Rate Cessation*), in each case (subject to certain exceptions) where such change would have the effect of altering (a) the amount, timing, calculation or priority of any payments due from the Issuer to the Swap Counterparty (for the avoidance of doubt including the alteration of any amounts available to make payments to the Swap Counterparty); (b) the Swap Counterparty's position as a Secured Creditor or the nature and scope of the security from which it benefits pursuant to the Issuer Documents; (c) the currency of the Class A1 Notes or (d) the requirement for the written consent of the Swap Counterparty as summarised above (any such change being a "**Swap Counterparty Relevant Change**"). Under the Note Trust Deed, the Swap Counterparty provides such consent in connection with certain amendments relating to a modification to the floating rate component of either the Sterling or the U.S. Dollar payments under the Class A1 Swap Agreement to match the Class A1 Loan Note or the Class A1 Notes or which are effected in connection with a Class A1 Reset.

**Transfer by the Swap Counterparty**

The Swap Counterparty may, subject to certain conditions specified in the Class A1 Swap Agreement, including certain requirements of Fitch and DBRS, transfer its rights and obligations in respect of the Class A1 Swap Agreement to another entity.

**Governing Law and Jurisdiction**

The Class A1 Swap Agreement, and any non-contractual obligations arising out of or in connection with the Class A1 Swap Agreement, will be governed by English law and subject to the jurisdiction of the English courts.

## THE CLASS A2 SWAP AGREEMENT

### General

*There will be no issuance of the Class A2 Notes by the Issuer on the Series 2020-1 Closing Date and any references to "Class A2 Notes" and any constructs, definitions and amounts related to "Class A2" in this section should be disregarded. No Class A2 Swap Agreement shall be entered into by the Issuer, and any reference to a "Swap Counterparty" and "Class A2 Swap Agreement" and any related constructs, definitions and amounts in this section should be disregarded.*

The Class A2 Notes are denominated in U.S. Dollars and consequently the Issuer will be obliged to make payments of interest and principal in respect of the Class A2 Notes in U.S. Dollars. However, certain amounts received by the Issuer referable to the Class A2 Notes will be denominated in Sterling. In order to protect the Issuer against such currency exchange rate exposure, the Issuer and the Swap Counterparty will enter into a currency swap transaction in relation to the Class A2 Notes with Banco Santander S.A., London Branch (the "**Swap Counterparty**") pursuant to an ISDA Master Agreement and related schedule, credit support annex and confirmation (the "**Class A2 Swap Agreement**").

Under the terms of such currency swap transaction, the Issuer will pay to the Swap Counterparty:

- (a) on the Series 2020-1 Closing Date, the U.S. Dollar proceeds received by the Issuer on the issue of the Class A2 Notes;
- (b) on the Transfer Date immediately preceding each Interest Payment Date (or, if the Issuer so elects in accordance with the Class A2 Swap Agreement, on the Interest Payment Date itself), an amount in Sterling determined in accordance with the provisions of the Class A2 Swap Agreement by reference to a calculation including the aggregate of the applicable floating rate of interest and applicable spread (which is intended to correspond to the interest received on the Class A2 Loan Note); and
- (c) on the Transfer Date immediately preceding (i) each Interest Payment Date on which any of the Class A2 Notes are redeemed in whole or in part or (ii) the Series 2020-1 Scheduled Redemption Date, if the Class A2 Notes are subject to a Class A2 Reset (or, if the Issuer so elects in accordance with the Class A2 Swap Agreement, on the Interest Payment Date or the Series 2020-1 Scheduled Redemption Date itself), an amount in Sterling determined in accordance with the provisions of the Class A2 Swap Agreement by reference to the principal amount of such Class A2 Notes which is redeemed or subject to a Class A2 Reset.

In return, the Swap Counterparty will be obliged to pay to the Issuer:

- (a) on the Series 2020-1 Closing Date, an amount in Sterling calculated by reference to the U.S. Dollar proceeds of the issue of the Class A2 Notes converted into Sterling at the relevant exchange rate as provided in the Class A2 Swap Agreement;
- (b) on the Transfer Date immediately preceding each Interest Payment Date (or, if the Issuer so elects in accordance with the Class A2 Swap Agreement, on the Interest Payment Date itself), an amount in U.S. Dollars determined in accordance with the provisions of the Class A2 Swap Agreement by reference to a calculation including the aggregate of the applicable floating rate of interest and applicable spread (which is intended to correspond to the interest payable on the Class A2 Notes); and
- (c) on the Transfer Date immediately preceding (i) each Interest Payment Date on which any of the Class A2 Notes are redeemed in whole or part or (ii) the Series 2020-1 Scheduled Redemption Date, if the Class A2 Notes are subject to a Class A2 Reset (or, if the Issuer so elects in accordance with the Class A2 Swap Agreement, on the Interest Payment Date or the Series 2020-1 Scheduled Redemption Date itself), an amount in U.S. Dollars determined in accordance with the provisions of the Class A2 Swap Agreement by reference to the principal amount of such Class A2 Notes which is redeemed or subject to a Class A2 Reset.

If any amount paid by the Issuer to the Swap Counterparty on the Transfer Date immediately preceding any Interest Payment Date (or, if the Issuer so elects in accordance with the Class A2 Swap Agreement, on the

Interest Payment Date itself) is less than the amount scheduled to be paid by the Issuer on such Transfer Date (or Interest Payment Date, as applicable), the corresponding amount payable by the Swap Counterparty on that Transfer Date (or Interest Payment Date, as applicable) shall be reduced by the same proportion as the shortfall in the amount paid by the Issuer.

On each Interest Payment Date on which any of the Class A2 Notes are redeemed in whole or in part, or on the Series 2020-1 Scheduled Redemption Date, if the Class A2 Notes are subject to a Class A2 Reset, the notional amount applicable in respect of payments to be made by the Issuer under the Class A2 Swap Agreement shall be reduced (for the next following calculation period for the Issuer) by (i) an amount equal to the amount credited to the Issuer Distribution Account for the purposes of redeeming the Class A2 Notes on such Interest Payment Date or (ii) the outstanding principal amount of the Class A2 Notes which are subject to the Class A2 Reset (the amount of such reduction, the "**Issuer Amortisation Amount**"). On each Interest Payment Date on which there is any Issuer Amortisation Amount, the notional amount applicable in respect of payments to be made by the Swap Counterparty under the Class A2 Swap Agreement shall be reduced (for the next following calculation period for the Swap Counterparty) by an amount (the "**Swap Counterparty Amortisation Amount**") equal to the corresponding Issuer Amortisation Amount converted into U.S. Dollars at the rate of exchange provided in the Class A2 Swap Agreement.

### Early Termination

The Class A2 Swap Agreement may be terminated early, *inter alia*, in the following circumstances:

- (a) at the option of one party, if there is a failure by the other party to pay any amounts due under the Class A2 Swap Agreement;
- (b) by the Swap Counterparty, upon the service of an Enforcement Notice following the occurrence of an Event of Default under the Note Conditions;
- (c) by the Swap Counterparty, if any Swap Counterparty Relevant Change is made without the Swap Counterparty's prior written consent;
- (d) if the Class A2 Notes are subject to a Class A2 Reset which results in a mismatch between the amounts receivable by the Issuer under the Class A2 Loan Note and payable by the Issuer under the Class A2 Swap Agreement and/or between the amounts receivable by the Issuer under the Class A2 Swap Agreement and payable by the Issuer under the Class A2 Notes (which shall entitle either party to terminate);
- (e) if the Swap Counterparty adjusts the spread payable by the Issuer (to preserve the economic balance of the Class A2 Swap Agreement) following a modification to the floating rate component of either the Sterling or the U.S. Dollar payments under the Class A2 Swap Agreement to match the Class A2 Loan Note or the Class A2 Notes (which shall entitle the Issuer to terminate);
- (f) in the event that there is a withholding tax imposed (1) in relation to the Issuer's payments under the Class A2 Swap Agreement, or (2) in relation to the Swap Counterparty's payments under the Class A2 Swap Agreement and, as a result, the Swap Counterparty is required to pay more or receives less under the Class A2 Swap Agreement (following, broadly, expiry of any period during which the Swap Counterparty is required to mitigate against the imposition of such withholding tax); and
- (g) upon the occurrence of certain other events, including but not limited to certain insolvency events, or changes in law resulting in illegality.

Upon any such early termination of the Class A2 Swap Agreement, the Issuer or the Swap Counterparty may be liable to make a termination payment to the other. The amount of any such termination payment will be based:

- (a) where the Class A2 Swap is terminated in circumstances in which the Issuer is the Defaulting Party or the Affected Party (each as defined therein), on the determination in good faith by the other party of the total losses and costs (or gains) incurred, including any loss of bargain, cost of funding or, at the election of such party but without duplication, losses or costs incurred as a result of its

terminating, liquidating, obtaining or re-establishing any hedge or related trading position (or any gain resulting from any of them); or

- (b) where the Class A2 Swap Agreement is terminated due to the Swap Counterparty's failure to comply with remedial actions ordered by a relevant Rating Agency following a Class A2 Swap Counterparty Downgrade Event or any other circumstances detailed in the Class A2 Swap Agreement, on the market value of the swap transaction under the Class A2 Swap Agreement at the time of termination as more fully set out in the Class A2 Swap Agreement. This market value will be computed on the basis of market quotations of the cost of entering into a replacement swap transaction with the same terms and conditions that would have the effect of preserving the respective full payment obligations of the parties.

Any such termination payment could, if interest rates and/or the relevant exchange rate have changed significantly, be substantial.

Upon termination of the Class A2 Swap Agreement, the Issuer will endeavour to find a replacement swap counterparty on acceptable terms but, if no replacement Class A2 Swap Agreement is entered into, then the Issuer will need to enter into spot foreign exchange transactions in order to exchange the Sterling received under the Class A2 Loan Note for the U.S. Dollars required to make payments in respect of the Class A2 Notes.

In the event that the Class A2 Swap Agreement is terminated other than as a result of:

- (a) the occurrence of an Event of Default under (and as defined in) the Class A2 Swap Agreement in respect of which the Swap Counterparty is the Defaulting Party (as defined in the Class A2 Swap Agreement) (a "**Class A2 Swap Counterparty Event of Default**"); or
- (b) the occurrence of an Additional Termination Event (as defined in the Class A2 Swap Agreement) following the failure by the Swap Counterparty to comply with the requirements of the "Rating Events" provisions set out in the Class A2 Swap Agreement (a "**Class A2 Swap Counterparty Downgrade Event**") (as to which, see "*Rating Downgrade or Withdrawal of the Swap Counterparty*" below),

then any termination payment to be paid to the Swap Counterparty by the Issuer in accordance with the early termination provisions of such Class A2 Swap Agreement shall rank *pro rata* and *pari passu* with payments to be made under the Class A2 Notes (save to the extent they are funded by Class A2 Swap Excluded Receivable Amounts). In the event that the Class A2 Swap Agreement is terminated as a result of a Class A2 Swap Counterparty Event of Default or a Class A2 Swap Counterparty Downgrade Event, then any termination payment to be paid to the Swap Counterparty by the Issuer in accordance with the early termination provisions of such Class A2 Swap Agreement shall constitute a Class A2 Swap Excluded Termination Payment and be subordinated to any payments to be made under the Notes.

### **Taxation**

Each of the Issuer and the Swap Counterparty will represent in the Class A2 Swap Agreement that, under current applicable law, it is entitled to make all payments required to be made by it under such Class A2 Swap Agreement (other than interest under the Class A2 Swap Agreement and deliveries, transfers and payments to be made pursuant to any Credit Support Annex) free and clear and without deduction or withholding for or on account of any taxes, assessments or other charges. In the event that the Issuer is obliged to make any such deduction or withholding, it will not be required to indemnify the Swap Counterparty for such deduction. Conversely, if the Swap Counterparty is required to make any such deduction or withholding, the terms of the Class A2 Swap Agreement provide that it will pay an additional amount to the Issuer so that the Issuer receives the amount which it would otherwise have received had no deduction or withholding been required. However, in such circumstances, the Swap Counterparty has the right to terminate the Class A2 Swap Agreement.

### **Rating Downgrade or Withdrawal of the Swap Counterparty**

If the Swap Counterparty (or, if applicable, its successor, assignee, co-obligor, guarantor or credit support provider) ceases to have, does not have or is not guaranteed by an institution which has (as the case may be) the First Minimum Required Rating (in accordance with the requirements of Fitch or DBRS), or if the

rating of the Swap Counterparty (or, if applicable, its successor, assignee, co-obligor, guarantor or credit support provider) is withdrawn, then the Swap Counterparty will, in accordance with the provisions of, and subject to the timeframes specified in, the Class A2 Swap Agreement, be required to take certain remedial measures which may include:

- (i) within 14 calendar days, as required by Fitch, or 30 business days, as required by DBRS, providing collateral in accordance with the credit support annex which forms part of the Class A2 Swap Agreement;
- (ii) within 30 calendar days, as required by Fitch, or 30 "Local Business Days" (as defined in the Class A2 Swap Agreement), as required by DBRS, obtaining a guarantee from a guarantor that satisfies the minimum rating and other requirements specified in the Class A2 Swap Agreement;
- (iii) within 30 calendar days, as required by Fitch, or 30 "Local Business Days" (as defined in the Class A2 Swap Agreement), as required by DBRS, transferring the Class A2 Swap Agreement to an entity that satisfies the minimum rating and other requirements specified in the Class A2 Swap Agreement; or
- (iv) taking such other actions (which may include taking no action) as may be specified in the Class A2 Swap Agreement.

If the Swap Counterparty (or, if applicable, its successor, assignee, co-obligor, guarantor or credit support provider) ceases to have, does not have or is not guaranteed by an institution which has (as the case may be) the Second Minimum Required Rating (in accordance with the requirements of Fitch or DBRS), or if the rating of the Swap Counterparty (or, if applicable, its successor, assignee, co-obligor, guarantor or credit support provider) is withdrawn, then the Swap Counterparty will, in accordance with the provisions of, and subject to the timeframes specified in, the Class A2 Swap Agreement, be required to take certain remedial measures which may include obtaining a guarantee from a guarantor that satisfies the minimum rating and other requirements specified in the Class A2 Swap Agreement, effecting a transfer of the Class A2 Swap Agreement to an entity that satisfies the minimum rating and other requirements specified in the Class A2 Swap Agreement or taking such other actions (which may include taking no action) as may be specified in the Class A2 Swap Agreement.

If the Swap Counterparty fails to take any of the applicable remedial measures in accordance with the provisions of the Class A2 Swap Agreement, the Issuer may terminate such Class A2 Swap Agreement in accordance with its terms.

Where the Swap Counterparty provides collateral in accordance with the terms of the Class A2 Swap Agreement, such collateral will be credited to a ledger (the "**Class A2 Swap Collateral Ledger**") and held in one or more cash or securities accounts maintained with the Swap Collateral Account Bank or the Custodian in the name of the Issuer, and amounts in respect of such collateral may be returned by the Issuer to the Swap Counterparty from time to time in accordance with the terms of the Class A2 Swap Agreement, and will not be applied in accordance with Note Condition 4(b) (*Priority of Payments*).

**"First Minimum Required Rating"** means:

- (a) in the case of Fitch, a rating of at least the Unsupported Minimum Counterparty Rating from Fitch; and
- (b) in the case of DBRS, a public rating assigned by DBRS to either the relevant entity or its long-term, unsecured and unsubordinated debt obligations of at least A,

or such other minimum required ratings as may be specified in the Class A2 Swap Agreement.

**"Second Minimum Required Rating"** means:

- (a) in the case of Fitch, a rating of at least the Supported Minimum Counterparty Rating or, if an entity is not incorporated in the same jurisdiction as the Issuer and, following a request from Fitch, has not provided to Fitch a legal opinion, in a form acceptable to Fitch, confirming the enforceability of the subordination provisions against it in its jurisdiction, the Supported Minimum Counterparty Rating (adjusted), in each case, from Fitch; and

- (b) in the case of DBRS, a public rating assigned by DBRS to either the relevant entity or its long-term, unsecured and unsubordinated debt obligations of at least BBB,

or such other minimum required ratings as may be specified in the Class A2 Swap Agreement.

**Unsupported Minimum Counterparty Rating**", **"Supported Minimum Counterparty Rating"** and **"Supported Minimum Counterparty Rating (adjusted)"** shall mean the derivative counterparty rating or, if one has not been assigned by Fitch, the long-term issuer default rating or, if applicable, the short-term issuer default rating from Fitch corresponding to the then current rating of the Class A2 Notes as set out in the following table:

<b>Current rating of Class A2 Notes</b>	<b>Unsupported Minimum Counterparty Rating</b>	<b>Supported Minimum Counterparty Rating</b>	<b>Supported Minimum Counterparty Rating (adjusted)</b>
AAAsf	A or F1	BBB- or F3	BBB+ or F2
AA+sf, AA sf, AA-sf	A- or F1	BBB- or F3	BBB+ or F2
A+sf, A sf, A-sf	BBB or F2	BB+	BBB or F2
BBB+sf, BBBsf, BBB-sf	BBB- or F3	BB-	BBB- or F3
BB+sf, BBsf, BB-sf	At least as high as the Class A2 Notes rating	B+	BB-
B+sf or below or Class A2 Notes are not rated by Fitch	At least as high as the Class A2 Notes rating	B-	B-

For the purposes of the above table, if the Class A2 Notes are downgraded by Fitch as a result of a downgrade or loss of the rating of the Swap Counterparty, then the then current rating of the Class A2 Notes will be deemed to be the rating the Class A2 Notes would have had but for such downgrade or loss of the rating.

#### **Modification**

The Note Trust Deed will provide that the written consent of the Swap Counterparty is required in respect of any changes to any of the Note Trust Deed or the Note Conditions or any of the other Issuer Documents or any consent or direction under the terms of the STDCMA, the Series 2020-1 Loan Note Supplement and the terms of the Series 2020-1 Loan Notes, including without limitation any modification made pursuant to Note Condition 15(d) (*Additional Right of Modification in Relation to Reference Rate Cessation*), in each case (subject to certain exceptions) where such change would have the effect of altering (a) the amount, timing, calculation or priority of any payments due from the Issuer to the Swap Counterparty (for the avoidance of doubt including the alteration of any amounts available to make payments to the Swap Counterparty); (b) the Swap Counterparty's position as a Secured Creditor or the nature and scope of the security from which it benefits pursuant to the Issuer Documents; (c) the currency of the Class A2 Notes or (d) the requirement for the written consent of the Swap Counterparty as summarised above (any such change being a **"Swap Counterparty Relevant Change"**). Under the Note Trust Deed, the Swap Counterparty provides such consent in connection with certain amendments relating to a modification to the floating rate component of either the Sterling or the U.S. Dollar payments under the Class A2 Swap Agreement to match the Class A2 Loan Note or the Class A2 Notes or which are effected in connection with a Class A2 Reset.

#### **Transfer by the Swap Counterparty**

The Swap Counterparty may, subject to certain conditions specified in the Class A2 Swap Agreement, including certain requirements of Fitch and DBRS, transfer its rights and obligations in respect of the Class A2 Swap Agreement to another entity.

**Governing Law and Jurisdiction**

The Class A2 Swap Agreement, and any non-contractual obligations arising out of or in connection with the Class A2 Swap Agreement, will be governed by English law and subject to the jurisdiction of the English courts.

**QUALIFYING SWAP AGREEMENTS**

The Loan Note Issuer may from time to time enter into a Qualifying Swap Agreement in relation to one or more Series, including Series 2020-1, which Series will comprise a Qualifying Swap Group for the purposes of that Qualifying Swap Agreement. As at the date of this Prospectus, the Loan Note Issuer has not entered into any Qualifying Swap Agreement, including in respect of Series 2020-1.

If the Loan Note Issuer proposes to enter into a Qualifying Swap Agreement in respect of a Qualifying Swap Group, then the conditions for any such swap agreement to be a "Qualifying Swap Agreement" (which will include the provision of a Rating Confirmation) will need to be met.

The making and receipt of payments by the Loan Note Issuer under any Qualifying Swap Agreement, in respect of a Qualifying Swap Group of which Series 2020-1 forms part, are contemplated in the Series 2020-1 Supplement and the Series 2020-1 Loan Note Supplement and are more particularly described in the section entitled "*Series 2020-1 – Application of Available Funds*". Any collateral posted to the Loan Note Issuer pursuant to any such Qualifying Swap Agreement will not form part of the calculation of Available Funds and will not be available to make payments under the Series 2020-1 Loan Notes, other than pursuant to the terms of the relevant Qualifying Swap Agreement.

If a Qualifying Swap Transaction is entered into and Series 2020-1 is identified as forming part of the relevant Qualifying Swap Group, Qualifying Swap Amounts referable to Series 2020-1, excluding Qualifying Swap Partial Termination Payments, Qualifying Swap Permitted Tax Credit Payments and Qualifying Swap Subordinated Termination Payments, will rank in priority to the payment of amounts to fund interest on the Class A1 Notes, the Class A2 Notes and the Class A3 Notes. Qualifying Swap Partial Termination Payments and Qualifying Swap Permitted Tax Credit Payments will rank *pro rata* and *pari passu* with payments used to fund interest on the Class A1 Notes, the Class A2 Notes and the Class A3 Notes, with Qualifying Swap Subordinated Termination Payments ranking below all payments used to fund interest on the Notes

**THE SECURITY TRUST DEED AND CASH MANAGEMENT AGREEMENT**

**General**

The Series 2020-1 Loan Notes issued by the Loan Note Issuer will be constituted by a Security Trust Deed and Cash Management Agreement dated 18 December 2014, as amended from time to time, between, *inter alios*, Citicorp Trustee Company Limited (the "**Security Trustee**"), the Loan Note Issuer, the Receivables Trustee, NCL as Servicer and Cash Manager, Citibank, N.A., London Branch as Calculation Agent and NPT as Transferor (the "**Security Trust Deed and Cash Management Agreement**" or "**STDCMA**"). The STDCMA will be varied and supplemented, from time to time, upon the issue of each series of Loan Notes by a loan note supplement (each a "**Loan Note Supplement**", which, in the case of Series 2020-1, shall be the "**Series 2020-1 Loan Note Supplement**"). Under the STDCMA, the Security Trustee declares that it will hold secured property on the terms of the security trust set out in the STDCMA (as varied and supplemented by any Loan Note Supplement) for the secured creditors in respect of each series of Loan Notes (each, a "**Loan Note Series**" and the corresponding loan notes, the "**Loan Notes**"), and for each other person which from time to time becomes an additional secured creditor, in accordance with the terms of the STDCMA and the relevant Loan Note Supplement. Each Loan Note Supplement will create additional security in respect of the relevant Loan Note Series and will, together with the STDCMA, constitute the Loan Notes issued by the Loan Note Issuer in respect of such Loan Note Series. Together, the terms of the STDCMA and the terms of any Loan Note Supplement for a Loan Note Series will set out the following:

- (i) the constitution of the Loan Notes for the relevant Series;
- (ii) the applicable covenants of the Loan Note Issuer in relation to such Loan Notes;
- (iii) the security for the Loan Notes;
- (iv) the enforcement and post-enforcement procedures relating to such Loan Notes;
- (v) the appointment of the Cash Manager and its responsibilities;
- (vi) the appointment of the Calculation Agent and its responsibilities; and
- (vii) the appointment of the Security Trustee, its powers and responsibilities and the limitations on those responsibilities.

Each of the above items is summarised briefly below.

**Constitution of the Loan Notes**

The STDCMA, when supplemented by a Loan Note Supplement, sets out the terms and conditions of each Loan Note for the relevant Series. It also sets out the terms and conditions of such Loan Notes, and the conditions for the increase in Principal Amount Outstanding of (if applicable) and cancellation of any Loan Note.

**Covenants of the Loan Note Issuer**

The STDCMA also contains positive and negative covenants made by the Loan Note Issuer in favour of the Security Trustee on trust for each holder of a Loan Note (each, a "**Loan Note Holder**") of a Series issued by the Loan Note Issuer. One of the covenants is that the Loan Note Issuer will pay interest and repay principal on each Loan Note when due. Other covenants have been included to ensure, among other things, that the Loan Note Issuer remains bankruptcy remote and gives the Security Trustee access to all information and reports that it may need in order to discharge its responsibilities in relation to the holders of such Loan Notes.

### **Loan Note Security**

Each Loan Note Supplement creates the security for each Series of Loan Notes issued by the Loan Note Issuer. The STDCMA creates security for all Series of Loan Notes of which the Loan Note Issuer is issuer, comprising:

- (i) an assignment by way of first fixed security of the Loan Note Issuer's right, title and interest in and to, and the entire benefit of, the Loan Note Issuer Corporate Services Agreement and the Loan Note Issuer Account Bank Agreement; and
- (ii) a floating charge granted by the Loan Note Issuer over all of its undertakings and assets not otherwise secured under the STDCMA or any Loan Note Supplement in favour of the Security Trustee.

Each Loan Note Supplement in respect of a Loan Note Series will create separate security interests in respect of each Loan Note Series. The security created under the terms of the Series 2020-1 Loan Note Supplement includes an assignment by way of security of, or first fixed charge over, all of the Loan Note Issuer's right, title and interests:

- (i) as an Investor Beneficiary of the Receivables Trust in respect of Series 2020-1;
- (ii) to any agreement or document relating to Series 2020-1 which the Loan Note Issuer has the benefit of or has any rights under;
- (iii) in respect of (A) funds standing to the credit of the Series 2020-1 Ledger of the Loan Note Issuer Distribution Account; (B) any amounts representing or derived from Trust Property to which it is entitled as the Series 2020-1 Investor Beneficiary; and (C) all other sums of money which may now or hereafter from time to time be credited to any other ledgers or bank accounts in which the Loan Note Issuer may at any time in respect of Series 2020-1 have or acquire any right, title, interest or benefit together with (in each case) all interest accruing from time to time thereon and the debts represented thereby;
- (iv) in respect of all sums of money which may now or hereafter from time to time be transferred to any Additional Loan Note Issuer Account in respect of Series 2020-1, together with all interest accruing from time to time thereon and the debts represented thereby; and
- (v) to any Permitted Investments in respect of Series 2020-1 acquired with any sums described above.

The above-described security created under the STDCMA and Series 2020-1 Loan Note Supplement in respect of Series 2020-1 is described as the "**Loan Note Security**".

Each Series of Loan Notes shall be secured on, and only on, such security specified in the STDCMA for the Series and the relevant Loan Note Supplement with recourse limited to such security.

### **Enforcement and Priority of Payments**

The terms and conditions of the STDCMA also set out the general procedures by which the Security Trustee may take steps to enforce the Loan Note Security so that the Security Trustee may protect the interests of each of the Loan Note Holders (and any other secured parties) in accordance with the terms and conditions of each Loan Note. The STDCMA provides for a general discretion of the Security Trustee to enforce the security once it has become enforceable and also provides for the Security Trustee to be instructed by the Loan Note Holders (subject, in the case of the Issuer as Series 2020-1 Loan Note Holder, to the terms of the Note Trust Deed and the Note Conditions) to take action in relation to the acceleration of the relevant Loan Notes and the enforcement of the relevant security. The Security Trustee may consult the Loan Note Holders prior to taking any enforcement action and the Note Trustee may consult the Noteholders (in accordance with the Note Conditions) before permitting the Issuer to give any direction following such consultation (see "*Terms and Conditions of the Notes*"). The Security Trustee is not, however, obliged to act on the Note Trustee's directions unless it is indemnified and/or secured and/or prefunded to its satisfaction.

The STDCMA and each Loan Note Supplement together set out the priority in which the Security Trustee will pay out any monies that it receives under the Loan Notes constituted by the relevant Loan Note

Supplement before and after the security is enforced. This is described further in "*The Series 2020-1 Loan Notes*".

**Appointment and Responsibilities of the Cash Manager**

Pursuant to the STDCMA, the Loan Note Issuer has appointed NCL as Cash Manager, to provide calculational and information advisory services in respect of amounts received or to be received by the Loan Note Issuer in respect of any Investor Interest and NCL shall have full power and authority, acting alone or through any party properly designated by it thereunder, to do any and all things in connection with the provision of such calculational and information advisory services necessary for the Loan Note Issuer to comply with its obligations. The Cash Manager shall follow such instructions in regard to the exercise of its power and authority as the Loan Note Issuer may from time to time direct.

Without prejudice to the generality of the foregoing, the Cash Manager's chief responsibilities are to advise the Loan Note Issuer to make withdrawals and payments, from the Loan Note Issuer's bank accounts, in accordance with such instructions as set forth in the STDCMA and any Loan Note Supplement.

The Cash Manager may delegate its responsibilities under the STDCMA in the ordinary course of its business. Such delegation will not relieve the Cash Manager of its obligations under the STDCMA and, unless explicitly provided for in the STDCMA, will be at the cost of the Cash Manager. If any such delegation is to a party other than an affiliate of the Cash Manager, notification thereof will be given to the Rating Agencies.

The Cash Manager may not resign but the Loan Note Issuer may give notice (a "**Termination Notice**") to the Cash Manager terminating its appointment upon the occurrence and continuation of one of the following events (a "**Cash Manager Default**"):

- (i) any failure by the Cash Manager to give advice or notice to the Loan Note Issuer pursuant to an agreed schedule of collections and allocations or to advise the Loan Note Issuer to make any required drawing, withdrawal, or payment pursuant to the Relevant Documents or the Series Documents on or before the date occurring five Business Days after the date such payment, withdrawal or drawing or such advice or notice is required to be made or given, as the case may be, under the terms of the STDCMA or any other Relevant Document or Series Document;
- (ii) failure on the part of the Cash Manager duly to observe or perform in any respect any other covenants or agreements of the Cash Manager set forth in the STDCMA or any other Relevant Document or Series Document which has a Material Adverse Effect on the interests of any Loan Note Holders in respect of any Loan Notes with Principal Amounts Outstanding of greater than zero and which continues unremedied for a period of 60 days after the date on which written notice of such failure, requiring the same to be remedied, shall have been given to the Cash Manager by the Loan Note Issuer, or to the Cash Manager and the Loan Note Issuer by Loan Note Holders holding more than 50 per cent. of the Principal Amount Outstanding of the Loan Notes adversely affected thereby and continues to have a Material Adverse Effect on the interests of such Loan Note Holders in respect of such Loan Notes for such period;
- (iii) delegation by the Cash Manager of its duties under the STDCMA to any other entity, except as permitted by the STDCMA, which has a Material Adverse Effect on the interests of the Beneficiaries in respect of any Outstanding Series;
- (iv) any relevant representation, warranty or certification made by the Cash Manager in the STDCMA or any Loan Note Supplement or in any certificate delivered pursuant hereto proves to have been incorrect when made, which has a Material Adverse Effect on the interests of the Loan Note Holders in respect of Loan Notes with Principal Amounts Outstanding of greater than zero and continues to be incorrect in any material respect for a period of 60 days after the date on which written notice of such breach of representation, warranty or certification, requiring the same to be remedied, shall have been given to the Cash Manager by the Loan Note Issuer or to the Cash Manager and the Loan Note Issuer by Loan Note Holders holding more than 50 per cent. or more of the Principal Amount Outstanding of the Loan Notes adversely affected thereby, and continues to have a Material Adverse Effect on the interests of such Loan Note Holders in respect of such Loan Notes for such period;

## THE SECURITY TRUST DEED AND CASH MANAGEMENT AGREEMENT

- (v) an order of the court is made for the winding-up, dissolution, administration or reorganisation (except for a solvent re-organisation) or similar proceedings of the Cash Manager and such order shall have remained in force undischarged or unstayed for a period of 60 days;
- (vi) a receiver, administrator, administrative receiver, liquidator, trustee or similar officer is legally and validly appointed over the Cash Manager or relating to all of the Cash Manager's revenues and assets;
- (vii) the Cash Manager shall consent to or take any corporate action relating to the appointment of a receiver, administrator, administrative receiver, liquidator, trustee or similar officer of it or relating to all or substantially all of its revenues and assets or an order of the court is made for its winding-up, dissolution, administration or re-organisation (except for a solvent re-organisation) and such order shall have remained in force undischarged or unstayed for a period of 60 days; or
- (viii) a duly authorised officer of the Cash Manager shall admit in writing that the Cash Manager is unable to pay its debts as they fall due within the meaning of Section 123(1) of the Insolvency Act 1986 or the Cash Manager makes a general assignment for the benefit of or a composition with its creditors or voluntarily suspends payment of its obligations with a view to the general readjustment or rescheduling of its indebtedness.

If the Loan Note Issuer becomes entitled to terminate the appointment of the Cash Manager, it shall do so if requested by all of the Loan Note Holders and shall not do so without the prior agreement of all of the Loan Note Holders.

The Back-Up Cash Manager has been appointed by the Loan Note Issuer under the terms of the Back-Up Cash Management Agreement. Following delivery of a Termination Notice, the Back-Up Cash Manager shall be required to be appointed as the successor Cash Manager under the STDCMA and each Loan Note Supplement and assume the cash management responsibilities of the Cash Manager under the STDCMA as set out in the Back-Up Cash Management Agreement.

**"Back-Up Cash Management Agreement"** shall mean the back-up cash management agreement entered into on 18 December 2014, and made between, *inter alios*, the Back-Up Cash Manager, the Cash Manager, the Transferor, the Loan Note Issuer and the Security Trustee.

**"Series Documents"** means, in relation to a Series of Loan Notes, the STDCMA, the relevant Loan Note Supplement, the Loan Note Certificates (as defined in the STDCMA) of such Series (if any), any Supplemental Security Document and any other relevant document creating or evidencing the rights and obligations of the Loan Note Issuer specific to such Series and any other documents entered into in connection with such Series.

### **Appointment and Responsibilities of the Calculation Agent**

The Loan Note Issuer has appointed Citibank, N.A., London Branch as Calculation Agent under the STDCMA for the purposes of determining the interest rate for each Loan Note interest period (where applicable).

The Calculation Agent may resign its appointment upon not less than 90 days' notice in writing to the Loan Note Issuer (with a copy to the Security Trustee and the Cash Manager). The Loan Note Issuer may, with the consent of the Security Trustee, revoke the appointment of the Calculation Agent upon not less than two Business Days' written notice to the Calculation Agent (with a copy to the Security Trustee). The Security Trustee shall give such consent if it is so directed by the Loan Note Holders. In each case, the termination of the Calculation Agent's appointment will not be effective until a successor Calculation Agent has been appointed. The appointment of the Calculation Agent shall be terminated forthwith if certain insolvency events occur in relation to the Calculation Agent.

### **Appointment, Powers, Responsibilities and Liability of the Security Trustee**

The STDCMA sets out the terms on which the Security Trustee is appointed and the terms relating to the indemnification of the Security Trustee, the remuneration it is entitled to receive and the extent of the Security Trustee's authority to act beyond its statutory powers as a trustee under English law. It also contains provisions limiting or excluding liability in certain circumstances. The Security Trustee is also given the

## THE SECURITY TRUST DEED AND CASH MANAGEMENT AGREEMENT

ability to appoint a delegate or agent in the execution of any of its duties under the STDCMA. The STDCMA also sets out the circumstances in which the Security Trustee may resign or retire.

The STDCMA states that the Security Trustee is entitled to be indemnified and/or secured and/or prefunded and relieved from responsibility in certain circumstances including, without restriction, in relation to acting on a direction to enforce security or debt which it holds. The Security Trustee is also entitled to be paid its costs and expenses in priority to the claims of the Loan Note Holders.

The STDCMA provides that the Security Trustee is not responsible for any liability which may be suffered because any assets comprised in the security, or any deeds or documents of title to such assets, are inadequately insured or are held by custodians on behalf of the Security Trustee.

The STDCMA provides that the Security Trustee and its related companies are entitled to enter into business transactions with the other parties to the STDCMA or related companies of any of these without accounting for any profit resulting from those transactions.

The STDCMA provides that the Security Trustee is relieved of liability for making searches or other enquiries in relation to the assets comprising the security. The Security Trustee has no responsibility in relation to the legality and the enforceability of the trust arrangements and the connected security set out in the STDCMA. The Security Trustee will not be obliged to take any action which might result in its incurring personal liabilities under the STDCMA. The Security Trustee is not obliged to monitor or investigate the performance of any other person under the documents relating to the Loan Note Issuer or the documents relating to the Receivables Trust and shall be entitled to assume, until it has actual notice to the contrary, that all such persons are properly performing their duties and that no Trust Pay Out Event, Series Pay Out Event, Servicer Default, Event of Default or Loan Note Event of Default has occurred, unless it receives express notice to the contrary.

The STDCMA provides that the Security Trustee is not responsible for any deficiency which may arise because it is liable to tax in respect of the proceeds of security.

The STDCMA provides that the Security Trustee is not responsible for checking the calculations contained in or otherwise verifying any information coming into its possession in relation to the Receivables Trust.

### **Governing Law and Jurisdiction**

The STDCMA and the Series 2020-1 Loan Note Supplement and all non-contractual obligations arising out of or in connection with them will be governed by English law and subject to the jurisdiction of the English courts

**THE SERIES 2020-1 LOAN NOTES**

On the Series 2020-1 Closing Date the Loan Note Issuer will issue the Class A3 £259,000,000 Series 2020-1 Loan Note (the "**Class A3 Loan Note**"), the Class B £33,250,000 Series 2020-1 Loan Note (the "**Class B Loan Note**"), the Class C £26,600,000 Series 2020-1 Loan Note (the "**Class C Loan Note**") and the Class D £12,600,000 Series 2020-1 Loan Note (the "**Class D Loan Note**") (together, the "**Series 2020-1 Loan Notes**") to the Issuer (which will then assign by way of security the Issuer's right, title and interest in the Series 2020-1 Loan Notes to the Note Trustee as security for the Issuer's obligations under the Notes). The issue of the Series 2020-1 Loan Notes was authorised by a resolution of the Board of Directors of the Loan Note Issuer passed on 5 October 2020. The issue price of each of the Series 2020-1 Loan Notes will be 100 per cent. of its principal amount. Each of the Series 2020-1 Loan Notes is expected to be redeemed on the Series 2020-1 Scheduled Redemption Date or, in the case of the Class A1 Loan Note, the Class A1 Scheduled Redemption Date or, in the case of the Class A2 Loan Note, the Class A2 Scheduled Redemption Date or, in the case of the Class A3 Loan Note, the Class A3 Scheduled Redemption Date, but may be subject to earlier mandatory redemption in certain circumstances as described below. The Issuer as holder is described in relation to the Class A1 Loan Note as the "**Class A1 Loan Note Holder**", in relation to the Class A2 Loan Note as the "**Class A2 Loan Note Holder**", in relation to the Class A3 Loan Note as the "**Class A3 Loan Note Holder**", in relation to the Class B Loan Note as the "**Class B Loan Note Holder**", in relation to the Class C Loan Note as the "**Class C Loan Note Holder**", in relation to the Class D Loan Note as the "**Class D Loan Note Holder**", in relation to the Class E Loan Note as the "**Class E Loan Note Holder**" and in relation to the Class F Loan Note as the "**Class F Loan Note Holder**".

There will be no issuance of the Class A1 Loan Note, the Class A2 Loan Note, the Class E Loan Note and the Class F Loan Note by the Issuer on the Series 2020-1 Closing Date, and any references to the "Class A1 Loan Note", "Class A2 Loan Note", "Class E Loan Note" and "Class F Loan Note" (and the related class of Notes and Investor Interests) and any constructs, definitions and amounts related to "Class A1", "Class A2", "Class E" and "Class F" in this section should be disregarded. No Class A1 Swap Agreement, Class A2 Swap Agreement, Swap Collateral Account Bank Agreement or Swap Collateral Custody Agreement shall be entered into by the Issuer, and any reference to "Swap Counterparty", "Swap Collateral Account Bank", "Custodian", "Class A1 Swap Agreement", "Class A2 Swap Agreement", "Swap Collateral Account Bank Agreement" and "Swap Collateral Custody Agreement" and any related constructs, definitions and amounts in this section should be disregarded.

The Series 2020-1 Loan Notes will bear interest at a rate equivalent to the related class of Notes (if applicable, after, in the case of the Class A1 Notes and the Class A2 Notes, application under the Class A1 Swap Agreement and the Class A2 Swap Agreement, as applicable) for a period equal to an Interest Period under the Notes and will be registered notes. The Issuer will be the holder of the Series 2020-1 Loan Notes and accordingly, prior to any enforcement of such security by the Note Trustee, will have the right to receive all amounts of interest and principal due and payable in respect of the Series 2020-1 Loan Notes. This right will be subject to the security granted by the Issuer under the terms of the Note Trust Deed, and the Note Trustee will give an instruction that, prior to any enforcement of such security by the Note Trustee, the Issuer will have the right to receive all amounts of interest and principal due and payable in respect of the Series 2020-1 Loan Notes. This instruction will automatically be revoked upon the occurrence of an Event of Default.

The Series 2020-1 Loan Notes will be issued by the Loan Note Issuer under the STDCMA on or about the Series 2020-1 Closing Date. The Loan Note Issuer has previously issued seven Loan Note Series, being the Series VFN-P2 Loan Notes issued on 30 April 2020, the Series VFN-P1 Loan Notes issued on 18 December 2017, the Series 2017-1 Loan Notes issued on 17 October 2017, the Series 2015-1 Loan Notes issued on 10 March 2015 and the Series 2014-1 Loan Notes, the Originator VFN Loan Note and the Series 2014-VFN Loan Note issued on 18 December 2014. A Loan Note issued in respect of one Loan Note Series may differ from Loan Notes issued in respect of other Loan Note Series as to principal, interest and recourse to security, as set out in the Loan Note Supplement which constitutes that Loan Note. See "*The Security Trust Deed and Cash Management Agreement*" and "*Other Series Currently In Issue*".

The aggregate proceeds of the Series 2020-1 Loan Notes will be £331,450,000. Such proceeds will be paid to the Receivables Trustee by the Loan Note Issuer and will comprise a Contribution to the Receivables Trust. Such Contribution will increase the Aggregate Investor Interest of the Loan Note Issuer as an Investor Beneficiary of the Receivables Trust. The Aggregate Investor Interest of the Loan Note Issuer will be evidenced by annotation of the Trust Register. See "*The Receivables Trust – General Entitlement of Beneficiaries to Trust Property*" and "*The Receivables Trust – General Legal Structure*".

The initial principal amount of the undivided beneficial interest calculated as allocated to the Series 2020-1 Investor Beneficiary, as a consequence of the Contribution made with the proceeds of the Series 2020-1 Loan Notes, will be equal to the Series 2020-1 Initial Investor Interest. See "*Cashflows of the Loan Note Issuer*", below. See also "*Series 2020-1 – Beneficial Entitlement of the Loan Note Issuer to Trust Property – Rights of the Investor Beneficiary in Respect of Series 2020-1*" to find further information on the cash flows relating to the Series 2020-1 Investor Interest.

As Series 2020-1 Investor Beneficiary of the Receivables Trust, the Loan Note Issuer will be entitled to receive payment, at specified times, of a portion of Finance Charge Collections and Principal Collections in respect of Receivables assigned by the Transferor to the Receivables Trustee as well as certain other amounts.

See also "*Series 2020-1 – Calculation and Distribution of Finance Charge Collections and Acquired Interchange to the Loan Note Issuer*", "*Series 2020-1 Investor Interest*" and "*Series 2020-1 - Calculation of Principal Collections to be Distributed to the Loan Note Issuer in Respect of Series 2020-1*" for further information on the cash flows relating to the Series 2020-1 Investor Interest utilised to pay interest on and to redeem the Series 2020-1 Loan Notes.

The ability of the Loan Note Issuer to meet its obligations to repay the principal of, and pay interest on, the Series 2020-1 Loan Notes will be entirely dependent on the receipt by it of funds from the Receivables Trust. See "*Risk Factors*" for more information on the rights associated with the receipt of such funds.

The Loan Note Issuer and the Security Trustee will have no recourse to NCL, NPT or any of their affiliates except to the extent that the Loan Note Issuer is able to benefit, through its interest in the Receivables Trust, from the rights of the Receivables Trustee against the Transferor and/or the Servicer under the Receivables Securitisation Deed and/or the Receivables Trust Deed and Servicing Agreement for any breach of representations or other obligations in respect of the Receivables.

The Series 2020-1 Loan Notes will be governed by English law.

### **Scope of Security and Limited Recourse**

To secure the obligations of the Loan Note Issuer under and in respect of the Series 2020-1 Loan Notes, the Loan Note Issuer will grant certain security interests in favour of the Security Trustee under the terms of the STDCMA and the Series 2020-1 Loan Note Supplement (see "*The Security Trust Deed and Cash Management Agreement – Loan Note Security*"). In addition, the Loan Note Issuer will grant additional security interests in respect of other series of Loan Notes from time to time. The security for Series 2020-1 and any other Series will be granted by the Loan Note Issuer in favour of the Security Trustee. It should be noted that, if the net proceeds of the enforcement of the Loan Note security following a mandatory redemption, after meeting the expenses of the Security Trustee and any receiver, are insufficient to make all payments due on the Series 2020-1 Loan Notes, the assets of the Loan Note Issuer separately securing any other series of Loan Notes will not be available for payment of that shortfall.

### **Cashflows of the Loan Note Issuer**

The Series 2020-1 Loan Note Supplement sets out how money is distributed to the holders of each of the Series 2020-1 Loan Notes. Payments will be made by the Loan Note Issuer from the account of the Loan Note Issuer (the "**Loan Note Issuer Distribution Account**") established pursuant to an account bank agreement dated 18 December 2014 between the Loan Note Issuer and the Loan Note Issuer Account Bank (the "**Loan Note Issuer Account Bank Agreement**") for the purpose of making and receiving payments under the Relevant Documents. Such payments will be made monthly and are due on each Distribution Date, which will also be the monthly Interest Payment Date in respect of the Series 2020-1 Loan Notes, but will be paid to the holders of each of the Series 2020-1 Loan Notes one Business Day in advance on the relevant Transfer Date. The Interest Payment Dates of each of the Class A1 Loan Note, the Class A2 Loan Note, the Class A3 Loan Note, the Class B Loan Note, the Class C Loan Note, the Class D Loan Note, the Class E Loan Note and the Class F Loan Note correspond to the Interest Payment Dates of the Class A1 Notes, the Class A2 Notes, the Class A3 Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Class F Notes respectively (see "*Terms and Conditions of the Notes*"). The order of priority of payments and the relevant bank accounts and ledgers from which they are made will be the same regardless of whether the security in respect of Series 2020-1 has been or is being enforced. See "*Series 2020-1*" for the order of priority for the payments made to the Loan Note Issuer in respect of Series

2020-1 on each Transfer Date as the characterisation of such payments under the Series 2020-1 Supplement forms the basis for determining the equivalent payment to be made by the Loan Note Issuer on such Transfer Date. All payments to or by the Loan Note Issuer (including in relation to receiving amounts from a Qualifying Swap Provider (other than Qualifying Swap Collateral) allocable to Series 2020-1 pursuant to a Qualifying Swap Agreement) in relation to Series 2020-1 will be made to or from the ledger established in the Loan Note Issuer Distribution Account with respect to Series 2020-1 (the "**Series 2020-1 Ledger**").

On each Transfer Date, amounts described below transferred on or before such Transfer Date to the Series 2020-1 Ledger shall be applied as follows in respect of amounts due on the following Distribution Date:

- (i) an amount equal to the Investor Aggregate Trustee Payment Amount for the related Transfer Date plus any Investor Aggregate Trustee Payment Amount remaining unpaid in respect of any previous Transfer Date shall be paid to the Receivables Trustee as Additional Funds, identified as an Investor Aggregate Trustee Payment Amount referable to Series 2020-1;
- (ii) in no order of priority between them but in proportion to the respective amounts due, (i) an amount equal to the Loan Note Issuer Costs Amount for such Transfer Date plus any Loan Note Issuer Costs Amounts remaining unpaid on any previous Transfer Date shall be retained in the Series 2020-1 Ledger of the Loan Note Issuer Distribution Account for payment to such person to whom such costs are owed, and (ii) an amount equal to the Issuer Cost Amounts for such Transfer Date plus any previously unpaid amounts in respect thereto shall be paid to the Issuer Distribution Account;
- (iii) in no order of priority between them but in proportion to the respective amounts due, amounts equal to: (i) the Loan Note Issuer Profit Amount for Series 2020-1 plus any Loan Note Issuer Profit Amounts remaining unpaid on any previous Transfer Date will be retained in the Loan Note Issuer Distribution Account and (ii) the Issuer Profit Amount plus any Issuer Profit Amounts remaining unpaid on any previous Transfer Date shall be paid to the Issuer Distribution Account;
- (iv) an amount equal to the Investor Servicing Fee Amount referable to Series 2020-1 (exclusive of the Servicer Interchange Amount referable to Series 2020-1 in respect of such Transfer Date) for the related Transfer Date and any previously unpaid Investor Servicing Fee Amounts (exclusive of the Servicer Interchange Amount referable to Series 2020-1) shall be paid to the Receivables Trustee as Additional Funds;
- (v) if Series 2020-1 is in a Qualifying Swap Group, an amount equal to any Qualifying Swap Amounts referable to Series 2020-1 that are due and payable on or around the immediately following Distribution Date, excluding any Qualifying Swap Partial Termination Payments, Qualifying Swap Permitted Tax Credit Payments or Qualifying Swap Subordinated Termination Payments, shall be paid to the relevant Qualifying Swap Providers and recorded on the Series 2020-1 Ledger;
- (vi) *pro rata* and *pari passu*, between them: (i) an amount equal to the Class A1 Monthly Distribution Amount shall be paid to the Issuer Distribution Account as payment of the Interest Amount in respect of the Class A1 Loan Note and any Deferred Interest and Additional Interest due and unpaid on the Class A1 Loan Note which is due and payable on the immediately following Distribution Date; (ii) an amount equal to the Class A2 Monthly Distribution Amount shall be paid to the Issuer Distribution Account as payment of the Interest Amount in respect of the Class A2 Loan Note and any Deferred Interest and Additional Interest due and unpaid on the Class A2 Loan Note which is due and payable on the immediately following Distribution Date; (iii) an amount equal to the Class A3 Monthly Distribution Amount shall be paid to the Issuer Distribution Account as payment of the Interest Amount in respect of the Class A3 Loan Note and any Deferred Interest and Additional Interest due and unpaid on the Class A3 Loan Note which is due and payable on the immediately following Distribution Date; and (iv) if Series 2020-1 is in a Qualifying Swap Group, an amount equal to any Qualifying Swap Partial Termination Payments and Qualifying Swap Permitted Tax Credit Payments referable to Series 2020-1 that are due and payable on or around the immediately following Distribution Date shall be paid to the relevant Qualifying Swap Providers and recorded on the Series 2020-1 Ledger;
- (vii) an amount equal to the Class B Monthly Distribution Amount shall be paid to the Issuer Distribution Account as payment of the Interest Amount in respect of the Class B Loan Note and

any Deferred Interest and Additional Interest due and unpaid on the Class B Loan Note which is due and payable on the immediately following Distribution Date;

- (viii) an amount equal to the Class C Monthly Distribution Amount shall be paid to the Issuer Distribution Account as payment of the Interest Amount in respect of the Class C Loan Note and with any Deferred Interest and Additional Interest due and unpaid on the Class C Loan Note which is due and payable on the immediately following Distribution Date;
- (ix) an amount equal to the Class D Monthly Distribution Amount shall be paid to the Issuer Distribution Account as payment of the Interest Amount in respect of the Class D Loan Note and any Deferred Interest and Additional Interest due and unpaid on the Class D Loan Note which is due and payable on the immediately following Distribution Date;
- (x) *pro rata* and *pari passu*, if such Transfer Date is during the Revolving Period, the Controlled Accumulation Period, the Class A1 Controlled Accumulation Period, the Class A2 Controlled Accumulation Period or the Class A3 Controlled Accumulation Period, then an amount equal to the amount (if any) of Additional Funds to be identified as Loss Make-Up (Default) and paid in respect of the Class A1 Investor Interest, the Class A2 Investor Interest and the Class A3 Investor Interest for the preceding Collection Period shall be paid to the Receivables Trustee and identified as such;

Such amount shall be payable only to the extent that there are amounts which the Cash Manager has, in accordance with the relevant Loan Note Supplement for such Series and acting on the advice of the Servicer, identified as Group

**provided that**, for the avoidance of doubt, but subject to the provisions of the Series 2020-1 Loan Note Supplement, where the full amount of any payment described above cannot be made due to any insufficiency in the funds credited to the Loan Note Issuer Distribution Account which are available to make such payment, that payment shall not be payable to that extent, **provided however that** such deficiency in payment shall be deferred to the immediately succeeding Transfer Date, if such deferral is expressly contemplated above or otherwise in the Relevant Documents, **further provided that**, for the avoidance of doubt, where the full amount for any payment of Loan Note Issuer Costs Amount cannot be made due to any insufficiency in the funds credited to the Loan Note Issuer Distribution Account which are available to make such payment, that payment shall be made in the following order of priority: *first*, the full amount due to the Security Trustee and any Receiver or Appointee appointed pursuant to the Security Trust Deed and Cash Management Agreement, and *second, pro rata and pari passu*, to the Loan Note Issuer, the Receivables Trustee Account Bank, the Loan Note Issuer Account Bank, the Loan Note Issuer Corporate Services Provider, the Calculation Agent, the Cash Manager and the Back-Up Cash Manager pursuant to the Transaction Documents referable to Series 2020-1.

On each Transfer Date on which a Group One Series Finance Charge Shortfall occurs in respect of Series 2020-1, the Loan Note Issuer will notify the amount of such Group One Series Finance Charge Shortfall to all Investor Beneficiaries in respect of other Series in Group One and will utilise any amounts transferred to the Loan Note Issuer by the Investor Beneficiaries in respect of such other Series in Group One by way of payments for its Supported Group One Series Finance Charge Shortfall and Excess Finance Charges (each as defined in the relevant Loan Note Supplement for such Series) and apply the same as payments for its Supported Group One Series Finance Charge Shortfall and Group One Series 2020-1 Excess Finance Charges.

Where the full amount of any payment described in the foregoing paragraphs cannot be made due to insufficiency in the funds credited to the Series 2020-1 Ledger which (after making all prior-ranking payments to the extent possible in the order set out above) are available to make such payment, that payment will not be payable to that extent. However, any such shortfall will be deferred to the next and succeeding

Transfer Date but only if such a deferral is expressly contemplated above or otherwise in the Relevant Documents.

**OTHER SERIES CURRENTLY IN ISSUE****Series VFN-P1**

"**Series VFN-P1**" was created on 15 December 2017 (the date on which the Loan Note Issuer became the Series VFN-P1 Investor Beneficiary and issued the initial Series VFN-P1 Loan Notes). The Series VFN-P1 Loan Notes are Loan Notes issued in the form of variable funding notes and further Loan Notes forming part of the Series may be issued from time to time from the master issuer Trust Series. Series VFN-P1 is a member of Group One, and is a relevant Series (for the purposes of certain cash settlement arrangements between, among others, the Transferor and the Receivables Trustee) and is not subordinated to any other Investor Beneficiary or Series.

In addition to issuing further VFN-P1 Loan Notes, the Loan Note Issuer (acting on the advice of the Servicer) may, subject to the conditions specified in the relevant Loan Note Supplement, require the holders of Series VFN-P1 Loan Notes to make further instalments of subscription price to the Loan Note Issuer thereunder in order to fund further contributions to the Receivables Trust by the Loan Note Issuer. Such further instalments of subscription price will result in the principal amount outstanding under the Series VFN-P1 Loan Notes increasing (whether through the issue of further Series VFN-P1 Loan Notes or an increase of the principal amount outstanding of the then existing Series VFN-P1 Loan Notes), and such contributions will result in the Series VFN-P1 Investor Interest increasing, by a corresponding amount. The Loan Note Issuer may, on each Distribution Date, be required to repay all or part of some or all of the Series VFN-P1 Loan Notes, which the Loan Note Issuer may fund through the payments received by it in respect of the Series VFN-P1 Investor Interest or through other sources of funds available to it.

"**Series VFN-P1 Investor Beneficiary**" shall mean the Loan Note Issuer, in its capacity as Investor Beneficiary in respect of Series VFN-P1.

**Series VFN-P2**

"**Series VFN-F2**" was created on 30 April 2020 (the date on which the Loan Note Issuer became the Series VFN-P2 Investor Beneficiary and issued the initial Series VFN-P2 Loan Notes). The Series VFN-P2 Loan Notes are Loan Notes issued in the form of variable funding notes. Further Loan Notes forming part of the Series may be issued from time to time. Series VFN-P2 is a member of Group One, is a relevant Series (for the purposes of certain cash settlement arrangements between, among others, the Transferor and the Receivables Trustee) and is not subordinated to any other Investor Beneficiary or Series.

In addition to issuing further Series VFN-P2 Loan Notes, the Loan Note Issuer (acting on the advice of the Servicer) may, subject to the conditions specified in the relevant Loan Note Supplement, require the holders of Series VFN-P2 Loan Notes to make further instalments of subscription price to the Loan Note Issuer thereunder in order to fund further contributions to the Receivables Trust by the Loan Note Issuer. Such further instalments of subscription price will result in the principal amount outstanding under the Series VFN-P2 Loan Notes increasing (whether through the issue of further Series VFN-P2 Loan Notes or an increase of the principal amount outstanding of the then existing Series VFN-P2 Loan Notes), and such contributions will result in the Series VFN-P2 Investor Interest increasing, by a corresponding amount. The Loan Note Issuer may, on each Distribution Date, be required to repay all or part of some or all of the Series VFN-P2 Loan Notes, which the Loan Note Issuer may fund through the payments received by it in respect of the Series VFN-P2 Investor Interest or through other sources of funds available to it.

"**Series VFN-P2 Investor Beneficiary**" means the Loan Note Issuer, in its capacity as Investor Beneficiary in respect of Series VFN-P2.

**Originator VFN Series**

The "**Originator VFN Series**" and the Originator VFN Investor Interest were created, and the Loan Note Issuer issued the Originator VFN Loan Note to NewDay Partnership Transferor Plc, on 18 December 2014. The "**Originator VFN Loan Note**" is a Loan Note in the form of a variable funding note with a scheduled redemption date which will, following the Series 2020-1 Closing Date, fall on the Interest Payment Date in December 2028 and which may, thereafter, be extended so that the scheduled redemption date of the Originator VFN Loan Note continues to be one year later than the termination date of any other Series in Group One. The Originator VFN Series is a member of Group One and is a relevant Series (for the purposes

of certain cash settlement arrangements between, among others, the Transferor and the Receivables Trustee).

The Originator VFN Series operates to provide credit enhancement and support for shortfalls in available funds in respect of each Series in Group One with a Series Originator VFN Subordination of greater than zero.

**"Series 2020-1 Originator VFN Subordination"** shall mean, on any date, an amount of the Originator VFN Investor Interest (or, as the case may be, the principal amount outstanding of the Originator VFN Loan Note) equal to £18,550,000 as:

- (a) increased at any time by increases in the Originator VFN Investor Interest (or, as the case may be, the principal amount outstanding of the Originator VFN Loan Note) that are notionally allocated to the Series 2020-1 Originator VFN Subordination by agreement between the Loan Note Issuer and the holders of the Originator VFN Loan Note or by the holders of the Originator VFN Loan Note directing that the notional Originator VFN Excess Amount be reduced and the notional Series 2020-1 Originator VFN Subordination be increased by an equal amount; or
- (b) decreased at any time by decreases in the Originator VFN Investor Interest (or, as the case may be, the principal amount outstanding of the Originator VFN Loan Note) that are notionally allocated to the Series 2020-1 Originator VFN Subordination by way of agreement between the Loan Note Issuer and the holders of the Originator VFN Loan Note or by the holders of the Originator VFN Loan Note directing that the notional Originator VFN Excess Amount be increased and the notional Series 2020-1 Originator VFN Subordination be decreased by an equal amount, **provided that** either (i) such decrease does not result in the Series 2020-1 Originator VFN Subordination being reduced below £18,550,000 (other than where the Series 2020-1 Adjusted Investor Interest is reduced below the Series 2020-1 Initial Investor Interest) and a Rating Confirmation has been obtained in respect of that reduction, or (ii) the Adjusted Series 2020-1 Investor Interest has been reduced to zero.

See *"Series 2020-1 – The Originator VFN and the Series Originator VFN Subordination"* for details of the Required Series Originator VFN Subordination for Series 2020-1. Details of the Series 2020-1 Originator VFN Subordination are set out at *"Series 2020-1 – the Originator VFN and the Series Originator VFN Subordination"* above. The total amount of credit enhancement provided by the Originator VFN Series will be the aggregate of each Series Originator VFN Subordination (the **"Originator VFN Subordination"**). Each Series only has access to the Originator VFN Series for the purposes of additional credit enhancement in an amount equal to the Series Originator VFN Subordination for such Series as reduced by the Investor Default Amounts and Investor Dilution Losses allocated thereto, to the extent not reinstated from available funds for the Originator VFN Series (see below).

**"Required Series Originator VFN Subordination"** shall have the meaning set out in the supplement for each Series in Group One. The amount available to provide credit enhancement at any time shall be the **"Available Series Originator VFN Subordination"** for that Series or, in aggregate for all Series, the **"Available Originator VFN Subordination"**.

The Originator VFN Investor Interest less the Available Originator VFN Subordination is the Originator VFN Excess Amount. The Originator VFN Excess Amount and the Transferor Interest, taken together, must at all times be at least equal to the Minimum Transferor Interest.

Finance Charge Collections, Principal Collections and Investor Default Amounts are allocated to the Originator VFN Series *pari passu* with the allocation to other Series in Group One. The Originator VFN Series cannot enter a rapid amortisation period until such time as all other Series in Group One with a Required Series Originator VFN Subordination of greater than zero have passed their Series termination date.

The Loan Note Issuer (acting on the advice of the Servicer) may request that the holder of the Originator VFN Loan Note makes further instalments of subscription price to the Loan Note Issuer thereunder in order to fund further contributions to the Receivables Trust by the Loan Note Issuer. Such further instalments of subscription price will, if made by the holder of the Originator VFN Loan Note (in its sole discretion), result in the principal amount outstanding under the Originator VFN Loan Note increasing, and such contributions will result in the Originator VFN Investor Interest increasing, by a corresponding amount.

The Loan Note Issuer may, on each Distribution Date, repay all or part of the Originator VFN Series (subject to this not causing the Transferor Interest to fall below the Minimum Aggregate Principal Receivables, not causing a breach of the Transferor's undertaking in respect of Article 6 of the EU Securitisation Regulation and not resulting in any repayment of any Series Originator VFN Subordination whilst the corresponding Series is still outstanding), which the Loan Note Issuer may fund through the payments received by it in respect of the Originator VFN Investor Interest or through other sources of funds available to it.

## UNITED KINGDOM TAXATION TREATMENT OF THE NOTES

### United Kingdom Taxation

The following is a summary of the United Kingdom withholding taxation treatment at the date hereof in relation to payments of principal and interest in respect of the Notes. It is based on current law and the practice of Her Majesty's Revenue and Customs ("HMRC"), which may be subject to change, sometimes with retrospective effect. The comments do not deal with other United Kingdom tax aspects of acquiring, holding or disposing of Notes. The comments relate only to the position of persons who are absolute beneficial owners of the Notes. The following is a general guide for information purposes and should be treated with appropriate caution. It is not intended as tax advice and it does not purport to describe all of the tax considerations that may be relevant to a prospective purchaser. Noteholders who are in any doubt as to their tax position should consult their professional advisers. Noteholders who may be liable to taxation in jurisdictions other than the United Kingdom in respect of their acquisition, holding or disposal of the Notes are particularly advised to consult their professional advisers as to whether they are so liable (and if so under the laws of which jurisdictions), since the following comments relate only to certain United Kingdom taxation aspects of payments in respect of the Notes. In particular, Noteholders should be aware that they may be liable to taxation under the laws of other jurisdictions in relation to payments in respect of the Notes even if such payments may be made without withholding or deduction for or on account of taxation under the laws of the United Kingdom. This section does not discuss the United Kingdom taxation treatment of any other Series of Notes or Loan Notes.

### Interest on the Notes

The Notes will constitute "quoted Eurobonds" provided they are and continue to be listed on a recognised stock exchange. Whilst the Notes are and continue to be quoted Eurobonds, payments of interest on the Notes may be made without withholding or deduction for or on account of United Kingdom income tax.

Securities will be "listed on a recognised stock exchange" for this purpose if they are admitted to trading on an exchange designated as a "recognised stock exchange" for the purposes of section 987 of the Income Tax Act 2007 by an order made by the Commissioners for HMRC and either they are included in the United Kingdom official list (within the meaning of Part 6 of the Financial Services and Markets Act 2000) or they are officially listed, in accordance with provisions corresponding to those generally applicable in European Economic Area states, in a country outside the United Kingdom in which there is a recognised stock exchange.

The London Stock Exchange is a recognised stock exchange, and accordingly the Notes will constitute quoted Eurobonds provided they are and continue to be included in the United Kingdom official list and admitted to trading on the Main Market of that Exchange.

In all cases falling outside the exemption described above, interest on the Notes may fall to be paid under deduction of United Kingdom income tax at the basic rate (currently 20 per cent.) subject to such relief as may be available following a direction from HMRC pursuant to the provisions of any applicable double taxation treaty, or to any other exemption which may apply.

### Other Rules Relating to United Kingdom Withholding Tax

Where interest has been paid under deduction of United Kingdom income tax, Noteholders who are not resident in the United Kingdom may be able to recover all or part of the tax deducted if there is an appropriate provision in any applicable double taxation treaty.

The references to "interest" above mean "interest" as understood in United Kingdom tax law. The statements above do not take any account of any different definitions of "interest" or "principal" which may prevail under any other law or which may be created by the terms and conditions of the Notes or any related documentation.

The above description of the United Kingdom withholding tax position assumes that there will be no substitution of the Issuer pursuant to Note Condition 15(g) (*Substitution*) and does not consider the tax consequences of any such substitution.

**MATERIAL JERSEY TAX CONSIDERATIONS**

**Taxation of the Receivables Trustee in Jersey**

The following summary of the anticipated tax treatment in Jersey of the Receivables Trustee is based on Jersey taxation law and practice in force at the date of this document. It does not constitute legal or tax advice and does not address all aspects of Jersey law and practice (including such law and practice as it applies to any land or building situated in Jersey). Prospective investors should consult their professional advisers on the implications of subscribing for, buying, holding, selling, redeeming or disposing of Notes under the laws of the jurisdictions in which they may be liable to taxation. Prospective investors should be aware that tax rules and practice and their interpretation may change.

The Receivables Trustee is regarded as resident for tax purposes in Jersey and on the basis that the Receivables Trustee is neither a financial services company nor a utility company for the purposes of the Income Tax (Jersey) Law 1961, as amended, the Receivables Trustee is subject to income tax in Jersey at a rate of zero per cent.

**FOREIGN ACCOUNT TAX COMPLIANCE ACT**

Pursuant to certain provisions of the Code, commonly known as FATCA, a "foreign financial institution" may be required to withhold on certain payments it makes ("**foreign passthru payments**") to persons that fail to meet certain certification, reporting, or related requirements. The Issuer may be a foreign financial institution for these purposes. A number of jurisdictions (including the United Kingdom and Jersey) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA ("**IGAs**"), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or a relevant IGA from payments that it makes. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Notes, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, such withholding would not apply prior to the date that is two years after the publication of the final regulations defining "foreign passthru payment" in the Federal Register and any Notes that are debt obligations for U.S. federal income tax purposes that are issued on or prior to the date that is six months after the date on which such final regulations are filed with the Federal Register are likely to be "grandfathered" for purposes of FATCA withholding unless materially modified after such date (including by reason of substitution of the Issuer). Potential investors should consult their own tax advisers regarding how these rules may apply to any investment in the Notes. In the event any withholding would be required pursuant to FATCA or an IGA with respect to payments on the Notes, no person will be required to pay additional amounts to a holder of Notes as a result of the withholding.

### CERTAIN U.S. FEDERAL INCOME TAX CONSIDERATIONS

*There will be no issuance of Class A1 Notes, Class A2 Notes, Class E Notes and Class F Notes by the Issuer on the Series 2020-1 Closing Date, and the Class A3 Reset feature shall not be applicable, and any references to "Class A1 Notes", "Class A2 Notes", "Class E Notes" and "Class F Notes" (and the related class of Loan Notes and Investor Interests) and "Class A3 Reset" and any constructs, definitions and amounts related to "Class A1", "Class A2", "Class E", "Class F" and "Class A3 Reset" in this section should be disregarded. No Class A1 Swap Agreement, Class A2 Swap Agreement, Swap Collateral Account Bank Agreement or Swap Collateral Custody Agreement shall be entered into by the Issuer, and any reference to "Swap Counterparty", "Swap Collateral Account Bank", "Custodian", "Class A1 Swap Agreement", "Class A2 Swap Agreement", "Swap Collateral Account Bank Agreement" and "Swap Collateral Custody Agreement" and any related constructs, definitions and amounts in this section should be disregarded.*

The following discussion addresses certain U.S. federal income tax considerations relevant to acquiring, holding and disposing of the Notes.

This discussion does not address all aspects of U.S. federal tax law that may be relevant to a beneficial owner of Notes. In particular, it addresses only purchasers that purchase Notes from the Issuer either (i) at their issue price (as defined below) or (ii) if the Notes are issued in a further issuance with the same CUSIP, ISIN, Common Code or other identifying number as outstanding Notes ("**Additional Notes**"), and in each case hold the Notes as capital assets (generally, property held for investment) for U.S. federal income tax purposes. It does not address special U.S. federal income tax considerations that may be relevant to particular investors in light of their individual investment circumstances or to certain types of investors subject to special tax rules – e.g. financial institutions, insurance companies, regulated investment companies, real estate investment trusts, tax-exempt entities, dealers or traders in securities or currencies, U.S. expatriates, investors holding the Notes as part of a conversion transaction, hedge, integrated transaction or constructive sale transaction or as a position in a straddle for tax purposes, persons whose functional currency, for U.S. federal income tax purposes, is not the U.S. dollar, persons required to accelerate the recognition of any item of gross income with respect to the Notes as a result of such income being recognised on an applicable financial statement, or investors for which interest on the Notes constitutes "business interest income". Further, this discussion does not address alternative minimum tax consequences, the Medicare tax on net investment income or any tax considerations to holders of interests in a Noteholder. In addition, this discussion does not address any U.S. federal non-income, state, local, non-U.S. or other tax considerations.

This discussion is based on the "**Code**", the regulations promulgated thereunder and administrative and judicial authorities, all as in effect on the date of this Prospectus and all of which are subject to change, possibly on a retroactive basis. There are no authorities directly addressing transactions substantially identical to this transaction and no ruling on any of the consequences or issues discussed below will be sought from the U.S. Internal Revenue Service (the "**IRS**") in connection with this transaction. Prospective investors are urged to consult their own tax advisers about the U.S. federal income tax considerations applicable to an investment in the Notes, as well as the treatment of the investment under the laws of any state, local or non-U.S. taxing jurisdictions, in light of their particular circumstances.

For the purposes of this discussion, a "**U.S. Holder**" means a beneficial owner of Notes that is, for U.S. federal income tax purposes:

- (i) an individual who is a citizen or resident of the United States;
- (ii) a corporation created in or under the laws of the United States, any state, any political subdivision of any state or the District of Columbia;
- (iii) an estate the income of which is includible in gross income for U.S. federal income tax purposes without regard to source; and
- (iv) a trust if a court within the United States is able to exercise primary supervision over the administration of the trust and one or more United States Persons (as defined in the Code) has the authority to control all substantial decisions of the trust.

A "**Non-U.S. Holder**" generally means a beneficial owner of Notes (other than an entity or arrangement treated as a partnership for U.S. tax purposes) that is not a U.S. Holder.

If an entity or arrangement treated as a partnership for U.S. federal income tax purposes invests in the Notes, the U.S. federal income tax treatment of the partnership or a partner in the partnership will generally depend on the status of the partner and the activities of the partnership. Such an entity or arrangement should consult its own tax adviser as to the U.S. federal income tax consequences to itself and its partners of acquiring, holding and disposing of the Notes.

#### **Tax Status of the Receivables Trustee, the Loan Note Issuer and the Issuer**

It is presently contemplated that each of the Receivables Trustee, the Loan Note Issuer and the Issuer will conduct their respective activities, including activities undertaken on their behalf, such as servicing activities, entirely outside of the United States. In that regard, assuming that the activities of each of the Receivables Trustee, the Loan Note Issuer and the Issuer are, as contemplated, conducted entirely outside of the United States, and assuming each of these entities makes no investments that are subject to withholding of U.S. federal income tax, Clifford Chance U.S. LLP ("**U.S. Tax Counsel**") is of the opinion that, although there is no authority addressing a transaction closely comparable to that contemplated herein, and hence the matter cannot be free from doubt, each of the Receivables Trustee, the Loan Note Issuer and the Issuer will not be treated as engaged in a trade or business within the United States for U.S. federal income tax purposes and that each of these entities will not be subject to U.S. federal income tax on its net income.

The determination of whether a person is engaged in a trade or business within the United States for U.S. federal income tax purposes is based on a highly factual analysis; there is no direct guidance as to which activities constitute being engaged in a trade or business within the United States for such purposes, and it is unclear how a court would construe the existing indirect authorities. A non-U.S. corporation that has income that is effectively connected, or deemed to be effectively connected, with a trade or business in the United States would be subject to U.S. federal income tax, as well as U.S. federal branch profits tax, on such effectively connected income. Such income tax, if imposed, would be based on such effectively connected income computed in a manner generally analogous to that applied to the income of a domestic corporation, except that the non-U.S. corporation would be entitled to deductions and credits for a taxable year only if it timely filed a U.S. federal income tax return for that year. None of the Receivables Trustee, the Loan Note Issuer or the Issuer intends to file such tax returns, even as a protective measure. The maximum U.S. federal income tax rates are currently 21 per cent. of a corporation's effectively connected income and an additional 30 per cent. of the amount described below for the branch profits tax, resulting in an effective maximum potential marginal U.S. federal income tax rate of 44.7 per cent. The branch profits tax generally is imposed each year on the portion of a corporation's after-tax effectively connected earnings and profits that is deemed repatriated from the United States.

#### **Tax Treatment of the Notes**

The Issuer will treat the Class A1 Notes, the Class A2 Notes, the Class A3 Notes, the Class B Notes, the Class C Notes and the Class D Notes as debt of the Issuer for U.S. federal income tax purposes. The Issuer also intends to treat the Class E Notes and the Class F Notes as debt of the Issuer for U.S. federal income tax purposes. However, the IRS could assert, and a court could ultimately hold, that any Class of Notes, in particular the Class E Notes and the Class F Notes, are equity in the Issuer for U.S. federal income tax purposes. Each investor in the Notes, by acceptance of a Note, will agree or be deemed to agree to treat such Note as debt of the Issuer for U.S. federal income tax purposes.

Although there is no authority addressing the characterisation of securities with terms similar to the Notes under current law, and while the issue is not free from doubt, U.S. Tax Counsel will render an opinion that the Class A1 Notes, Class A2 Notes, Class A3 Notes, Class B Notes, Class C Notes and Class D Notes will be treated as debt for U.S. federal income tax purposes. No opinion will be rendered as to the tax characterisation of the Class E Notes or the Class F Notes. The opinion of U.S. Tax Counsel is not binding on the IRS, and no assurance can be given that the characterisation of the Notes as debt described above would prevail if the issue were challenged by the IRS. Prospective investors should consult with their own tax advisers as to the effect of a recharacterisation of the Notes as equity interests in the Issuer.

Notes that are classified as debt for U.S. federal income tax purposes will be subject to the rules discussed under "**Tax Treatment of Notes Classified as Debt**" below. Notes that are classified as equity in the Issuer for U.S. federal income tax purposes will be subject to the rules discussed under "**Tax Treatment of Notes Classified as Equity**" below. An investment in Notes characterised as equity may have materially adverse tax consequences for U.S. Holders.

**Tax Treatment of Notes Classified as Debt***Payments of Interest and Accrual of OID*

A Class of Notes may be treated as having been issued with original issue discount ("**OID**") for U.S. federal income tax purposes, in which case the OID will be taxed as described below. Subject to the discussion below on Notes denominated in a Foreign Currency, to the extent not subject to the OID rules, interest on the Notes will be taxable to a U.S. Holder as ordinary income at the time it is received or accrued, in accordance with the U.S. Holder's regular method of accounting for U.S. federal income tax purposes.

The total amount of OID on a Note issued with OID is calculated as the excess of its stated redemption price at maturity over its issue price. The issue price for the Notes is the price at which a substantial portion of the relevant Class of Notes are first sold to the public. However, in the case of Additional Notes (as defined above), their issue price will be equal to the issue price of the outstanding Notes of the relevant Class. In general, the stated redemption price at maturity of a Note is the sum of all payments made on the Note other than payments of "qualified stated interest". Qualified stated interest is interest that (i) is payable at least annually over the entire life of the Note and (ii) is based on a single fixed rate or qualifying variable rate – or certain combinations of fixed and qualifying variable rates. It is possible that the IRS could take the position that the possibility of Deferred Interest may prevent interest payments on the Notes subject to such deferral from being classified as qualified stated interest. However, it is expected that under the relevant regulations this position would not prevail if advanced by the IRS and the Issuer intends to take the position that stated interest on Notes subject to such deferral constitutes qualified stated interest. If the deferral of an interest payment actually occurs, solely for purposes of the OID rules, the Notes would be treated as retired and reissued at a price equal to their fair market value at that time and the remaining interest payments would likely not be considered qualified stated interest, in which case they would be added to the stated redemption price at maturity of the Notes for purposes of calculating OID on the deemed reissued Notes.

If any of the Notes are issued at a discount of an amount equal to or greater than 0.25 per cent. of that Note's stated redemption price at maturity multiplied by the Note's weighted average maturity, then that Note will be deemed to bear OID. For these purposes, the weighted average maturity of a Note is computed based on the number of full years each amount included in the stated redemption price at maturity is scheduled to be outstanding.

Special OID rules apply to a debt instrument that is scheduled to pay interest at different rates during its term, such as a debt instrument that pays interest at a fixed rate for an initial period followed by a "qualified floating rate" for a subsequent period. Under these rules, a "fixed rate substitute" (generally the value as of the issue date of each rate that is not a fixed rate) is determined with respect to the debt instrument. If the difference between the debt instrument's initial fixed rate and its fixed rate substitute is sufficiently large, then the debt instrument will be treated as having been issued with OID. In this event, to the extent the fixed rate substitute exceeds the initial fixed rate, a U.S. Holder generally will be required to recognise OID in income in advance of the receipt of cash attributable to that income or, to the extent the initial fixed rate exceeds the fixed rate substitute, a U.S. Holder generally will be able to defer the inclusion of a portion of the stated interest paid at the initial fixed rate in such U.S. Holder's income and may be required to accrue a portion of each payment of stated interest under the OID rules rather than the U.S. Holder's normal method of accounting. If the Class A1 Notes are not treated as having OID as a result of this rule, all stated interest on the Class A1 Notes will be taken into income when received or accrued in accordance with a U.S. Holder's regular method of accounting for U.S. federal income tax purposes. Prospective investors in the Class A1 Notes should consult their own tax advisers concerning the application of these rules to their particular circumstances.

Subject to the discussion below on Notes denominated in a Foreign Currency, a U.S. Holder – including a U.S. Holder that utilises the cash method of accounting for U.S. federal income tax purposes – of a Note issued with OID generally would be required to accrue such OID on the relevant Note for U.S. federal income tax purposes on a constant-yield basis. This would require the inclusion of OID in income in advance of the receipt of cash attributable to that income. The OID provisions of the Code require a prepayment assumption be used to accrue OID on debt instruments on which payments may be accelerated due to prepayments of other obligations securing those debt instruments. However, no regulations have been issued interpreting those provisions, and the manner in which those provisions would apply to the Notes is unclear.

Solely for purposes of the OID rules, the Issuer will assume that the Notes will be retired no later than the Step-Up Date. Notwithstanding the preceding sentence, if the Notes are not retired on or before the Step-Up Date then the Issuer will treat such Notes (including the Class A1 Notes to the extent the Class A1 Floating Rate Commencement Date has occurred) as having been reissued on the date of the Step-Up Date solely for purposes of applying the OID rules. If any Notes are deemed retired and reissued, then such deemed reissued Notes may be treated as issued with OID.

Interest payments on a Note generally will constitute foreign source income for U.S. federal income tax purposes. Subject to generally applicable limitations and restrictions, any non-U.S. withholding tax imposed on interest payments on a Note may give rise to a tax credit or deduction for U.S. Holders. These rules are extremely complex and prospective investors should consult their own tax advisers concerning the application of these rules to their particular circumstances.

*Foreign Currency Considerations.* With respect to Notes that are denominated in a currency other than U.S. dollars (a "**Foreign Currency**"), to the extent the class of such Notes is not issued with OID, interest on such Notes will be accounted for differently by U.S. Holders that use the cash method of accounting and those that use the accrual method of accounting for U.S. federal income tax purposes. A U.S. Holder that uses the cash method of accounting for such purposes must include as ordinary income the U.S. dollar value of the Foreign Currency interest paid when received. The U.S. dollar value of Foreign Currency interest received is determined using the spot rate of the Foreign Currency on the date of receipt, regardless of whether the payment is converted into U.S. dollars on that date. A cash method U.S. Holder of a Note issued without OID will therefore generally not have exchange gain or loss on receipt of a Foreign Currency interest payment, but may have exchange gain or loss upon disposing of Foreign Currency received at a later date.

An accrual method U.S. Holder of a Note denominated in a Foreign Currency and a U.S. Holder of a Note denominated in a Foreign Currency that bears OID, regardless of the method of accounting used, will be required to include in income the U.S. dollar value of Foreign Currency interest or OID, as the case may be, accrued during the accrual period. A U.S. Holder may determine the amount of income recognised with respect to such interest or OID using either of two methods. Under the first method, the U.S. dollar value of accrued interest or OID is determined using the average rate of exchange for the interest accrual period (or, with respect to an accrual period that spans two taxable years, the partial period within each taxable year). The U.S. Holder will recognise exchange gain or loss to the extent the U.S. dollar value of the Foreign Currency on the date the payments are received differs from the value at which the associated income was accrued. Under the second method, a U.S. Holder can elect to accrue interest at the rate of exchange on the last day of an accrual period (with respect to an accrual period that spans two taxable years, the last day of each partial period in each taxable year is used) or, if the last day of an accrual period is within five Business Days of the receipt, the spot rate on the date of receipt. An election to accrue interest or OID at the spot rate will generally apply to all debt instruments not denominated in U.S. dollars that held by the U.S. Holder, and is irrevocable without the consent of the IRS.

U.S. Holders should consult their own tax advisers regarding the method to measure the U.S. dollar value of payments and the treatment of payments received in a currency other than the U.S. dollar.

#### *Pre-Issuance Accrued Interest*

If a portion of the price paid for a Note is allocable to interest that accrued prior to the date the Note is issued ("**pre-issuance accrued interest**"), the Issuer intends to take the position that, on the first interest payment date, a portion of the interest received in an amount equal to any pre-issuance accrued interest will be treated as a return of the pre-issuance accrued interest and not as a payment of interest on the Note. In determining the issue price of a Note and the amount paid for a Note, there will be excluded an amount equal to the pre-issuance accrued interest. Amounts treated as a return of pre-issuance accrued interest should not be taxable when received. U.S. Holders should consult their tax advisers with regard to the tax treatment of the pre-issuance accrued interest on a Note.

#### *Market Discount*

An Additional Note generally will be treated as purchased at a market discount (a "**Market Discount Note**") if the Note's stated redemption price at maturity or, in the case of an Additional Note issued with OID, the Additional Note's adjusted issue price, exceeds the purchase price by more than a specified *de minimis* amount. For this purpose, the adjusted issue price of an Additional Note generally equals its issue

price, increased by the amount of any OID that has accrued on the Additional Note and decreased by the amount of any payments previously made on the Additional Note that were not qualified stated interest payments.

A U.S. Holder generally will be required to treat a partial principal payment on, and any gain recognised on the maturity or disposition of, a Market Discount Note as ordinary income to the extent that the payment or gain does not exceed the accrued market discount on the Note. Alternatively, a U.S. Holder of a Market Discount Note may elect to include market discount in income currently over the life of the Note. This election applies to all debt instruments with market discount acquired by the electing U.S. Holder on or after the first day of the first taxable year to which the election applies. This election may not be revoked without the consent of the IRS. A U.S. Holder of a Market Discount Note that does not elect to include market discount in income currently will generally be required to defer deductions for interest on borrowings incurred to purchase or carry a Market Discount Note that is in excess of the interest and OID on the Note includible in the U.S. Holder's income, to the extent that this excess interest expense does not exceed the portion of the market discount allocable to the days on which the Market Discount Note was held by the U.S. Holder.

Market discount will accrue on a straight-line basis unless the U.S. Holder elects to accrue the market discount using a constant-yield method. This election applies only to the Market Discount Note with respect to which it is made and is irrevocable.

*Foreign Currency Considerations.* Market discount on a Note that is denominated in, or determined by reference to, a Foreign Currency, will be accrued in the Foreign Currency. If the U.S. Holder elects to include market discount in income currently, the accrued market discount will be translated into U.S. dollars at the average exchange rate for the accrual period (or portion thereof within the U.S. Holder's taxable year). Upon the receipt of an amount attributable to accrued market discount, the U.S. Holder may recognise U.S. source exchange gain or loss (which will be taxable as ordinary income or loss) determined in the same manner as for accrued interest or OID. A U.S. Holder that does not elect to include market discount in income currently will recognise, upon the disposition or maturity of the Note, the U.S. dollar value of the amount accrued, calculated at the spot rate on that date, and no part of this accrued market discount will be treated as exchange gain or loss.

Prospective purchasers are urged to consult their tax advisers if such purchasers purchase a Note at a discount from the Note's issue price.

#### *Amortisable Bond Premium and Acquisition Premium*

*Amortisable Bond Premium.* If a U.S. Holder purchases a Note for an amount that is greater than the sum of all amounts payable on the Note after the purchase date other than qualified stated interest, the U.S. Holder will be considered to have purchased the Note with amortisable bond premium equal to this excess. The U.S. Holder may elect to amortise this premium, using a constant-yield method, over the remaining term of the Note. Special rules may limit the amount of bond premium that can be amortised during certain accrual periods in the case of Notes that are subject to optional redemption. A U.S. Holder may generally use the amortisable bond premium allocable to an accrual period to offset qualified stated interest required to be included in the U.S. Holder's income with respect to the Note in that accrual period. A U.S. Holder who elects to amortise bond premium must reduce the U.S. Holder's tax basis in the Note by the amount of the premium amortised in any year. An election to amortise bond premium applies to all taxable debt obligations held by the U.S. Holder on or after the first day of the taxable year in which the election is made and may be revoked only with the permission of the IRS.

If a U.S. Holder makes a constant-yield election (as described under "*Election to Treat All Interest as OID*" below) for a Note with amortisable bond premium, such election will result in a deemed election to amortise bond premium for all of the U.S. Holder's debt instruments with amortisable bond premium and may be revoked only with the permission of the IRS with respect to debt instruments held or acquired after the election.

*Acquisition Premium.* A U.S. Holder that purchases a Note issued with OID for an amount less than or equal to the sum of all amounts payable on the Note after the purchase date other than payments of qualified stated interest, but in excess of its adjusted issue price (any such excess being "**acquisition premium**") and that does not make the election described below under "*Election to Treat All Interest as OID*" to treat all interest as OID, is required to reduce the daily portions of OID by a fraction, the numerator of which is the

excess of the U.S. Holder's adjusted tax basis in the Note immediately after its purchase over the Note's adjusted issue price, and the denominator of which is the excess of the sum of all amounts payable on the Note after the purchase date, other than payments of qualified stated interest, over the Note's adjusted issue price.

*Foreign Currency Considerations.* Amortisable bond premium or acquisition premium, as applicable, on a Note denominated in a Foreign Currency will be computed in units of the Foreign Currency, and any such amortisable bond premium or acquisition premium that is taken into account currently will reduce interest income or the daily portions of OID, as applicable, in units of the Foreign Currency. On the date amortisable bond premium or acquisition premium offsets interest income or daily portions of OID, as applicable, a U.S. Holder may recognise U.S. source exchange gain or loss (taxable as ordinary income or loss) measured by the difference between the spot rate in effect on that date and on the date the Notes were acquired by the U.S. Holder. A U.S. Holder that does not elect to take amortisable bond premium into account currently will recognise a loss when the Note matures.

#### *Election to Treat All Interest as OID*

A U.S. Holder may make an election to include in gross income all interest that accrues on any Note (including stated interest, OID, *de minimis* OID, market discount, *de minimis* market discount and unstated interest, as adjusted by any amortisable bond premium or acquisition premium) in accordance with a constant-yield method based on the compounding of interest, and may revoke such election only with the permission of the IRS (a "**constant-yield election**"). U.S. Holders considering this election are urged to consult their tax advisers regarding the application of the election in their particular circumstances, and in particular if the Note has amortisable bond premium or market discount.

#### *Disposition or Retirement*

Upon the sale, exchange or retirement of a Note – including pursuant to a redemption by the Issuer prior to its maturity date and periodic payments of principal on a Note – a U.S. Holder will recognise gain or loss equal to the difference between the amount realised and the U.S. Holder's adjusted tax basis in the relevant Note. The amount realised does not include any amount attributable to accrued but unpaid qualified stated interest, which will be treated like a payment of interest as described above, or any amount paid for pre-issuance accrued interest. In general, a U.S. Holder's adjusted tax basis in a Note will be equal to the amount the U.S. Holder paid for such Note, plus any OID (and market discount if an election has been made to include such discount in income currently) included in the U.S. Holder's income with respect to the Note, and less the amount of any payments received by the U.S. Holder that are not payments of qualified stated interest, and any acquisition premium or amortisable bond premium previously amortised. Subject to the discussion above on Market Discount Notes and the discussion below on Notes denominated in a Foreign Currency, gain or loss on the sale, exchange or retirement of a Note generally will be capital gain or loss and will be long-term capital gain or loss if the Note was held for more than one year. Long-term capital gains of non-corporate U.S. Holders are generally taxed at preferential rates. The deductibility of capital losses is subject to limitations. Generally, gain or loss recognised by a U.S. Holder on the sale, exchange or retirement of a Note will be U.S. source gain or loss.

*Foreign Currency Considerations.* The amount realised on the sale, exchange, redemption or retirement of a Note denominated in a Foreign Currency is treated as currency exchange gain or loss to the extent attributable to fluctuations in exchange rates between the time the Note was acquired and the date of disposition. This exchange gain or loss will equal the difference between the U.S. dollar value of the principal amount of the Notes on the date of disposition or receipt of redemption proceeds, as applicable, and the U.S. dollar value of the principal amount on the date the U.S. Holder acquired the Note. This exchange gain or loss will be realised only to the extent of the total gain or loss realised by a U.S. Holder on the disposition or retirement of the Note and will be treated as ordinary income or loss. Aggregate gain or loss in excess of exchange gain or loss on a Note will generally be treated as U.S. source capital gain or loss.

U.S. Holders should consult their own tax advisers regarding the method to measure the U.S. dollar value of payments and the treatment of any payments received in a currency other than the U.S. dollar.

*Potential Consequences of a Deemed Exchange.*

Under certain circumstances, the modification or application of certain terms of the Notes including, in certain circumstances, a substitution of the Issuer by the Note Trustee, a Class A1 Reset, a Class A2 Reset, a Class A3 Reset, a Basic Terms Modification or a Reference Rate Modification may result in a deemed exchange of "old" Notes for "new" Notes for U.S. federal income tax purposes. As a result of the occurrence of such a deemed exchange, a U.S. Holder may recognise gain or loss, treated in the manner described above under "*Disposition or Retirement*", and "new" Notes deemed received in a deemed exchange may be treated as issued with, or with different amount of, OID. The IRS and the U.S. Treasury have proposed regulations, upon which taxpayers generally may rely until the promulgation of final regulations, that, in certain circumstances, could reduce the likelihood that a Reference Rate Modification would result in a "deemed exchange" of the affected Notes. However, there can be no assurance that these regulations, in either their current form or as finalised, will provide any relief from the tax consequences described above if a Reference Rate Modification is effected. Prospective U.S. Holders should consult their own tax advisers regarding the application of these rules in their particular circumstances.

**Tax Treatment of Notes Classified as Equity**

*Investment in a Passive Foreign Investment Company.* Because of the nature of the income of the Issuer, the Issuer will constitute a passive foreign investment company for U.S. federal income tax purposes ("**PFIC**"). Accordingly, except as provided below under "**Controlled Foreign Corporation Status**", Notes treated as equity for U.S. federal income tax purposes will be subject to the PFIC rules discussed below.

In general, U.S. Holders treated as shareholders of a PFIC will be subject to adverse tax rules on any gain (including gain realised on a pledge of the Notes that would not otherwise be a taxable event for U.S. federal income tax purposes) and certain interest payments. Such amounts will be allocated to each day in the U.S. Holder's holding period in a Note. Amounts allocable to the year of the gain or interest payment are taxable as ordinary income and amounts allocable to prior years are subject to tax at the highest rates that could be assessed in such year against a corporate or non-corporate investor, as applicable. In addition, the tax owed on amounts allocated to a prior year are subject to an interest charge calculated from the due date for the return for such prior year until the due date of the year of the gain or interest payment. Interest payments will be subject to these rules to the extent the interest payments for a particular taxable year exceed 125 per cent. of the average amount of interest payments (or other payments treated like distributions for U.S. federal income tax purposes) received by the U.S. Holder during the prior three years (or, if shorter, over the U.S. Holder's holding period in the Notes).

U.S. Holders may elect to be subject to different rules, which may mitigate the consequences discussed above, if they are eligible to make either of two elections that can be made with respect to investment in certain PFICs. It is uncertain whether either election would be available to a U.S. Holder of the Notes.

The first election is to treat the Issuer as a "qualified electing fund" ("**QEF**"). If a U.S. Holder is able to and makes a QEF election with respect to a Note with its tax return for the first taxable year in which it is a U.S. Holder, the U.S. Holder generally would be required to include its *pro rata* share of the Issuer's ordinary income and net capital gains in income for each taxable year and pay tax on it, even if such income and gain were not distributed to the U.S. Holder. For purposes of calculating any deemed distribution of earnings of the Issuer under the PFIC rules, the amount of such earnings is determined in the functional currency of the Issuer, and translated into U.S. dollars at the average exchange rate for the taxable year of the Issuer. Amounts which are included in the income of the U.S. Holder upon receipt are translated into U.S. dollars at the spot rate on the date of receipt. U.S. Holders may recognise exchange gain or loss attributable to fluctuations in exchange rates between the times of deemed and actual payment by the Issuer. Any such currency gain or loss will be treated as ordinary income from the same source as the associated income inclusion.

In some cases, an electing U.S. Holder might be entitled to defer tax on such income or gains until the U.S. Holder receives corresponding payments, but would have to pay an interest charge on such deferred tax liabilities. Losses of the Issuer would not, however, be deductible by the U.S. Holder. If the Issuer later distributed the income or gain on which a U.S. Holder had already paid tax, the U.S. Holder would not be taxed on such payments again. A U.S. Holder's tax basis in such a Note would be increased by the amounts included in income under this regime and decreased by the amount of non-taxable distributions received. In general, a U.S. Holder making a QEF election would recognise capital gain or loss on a disposition of its Notes in an amount equal to the difference, if any, between the amount realised upon such disposition

and the tax basis in such Notes. Once made, a QEF election cannot be revoked without the consent of the IRS.

The QEF election would be effective only if certain required information is made available by the Issuer to investors. The Issuer, however, does not intend to provide investors with this information and, accordingly, no assurance can be given to investors that any QEF election made with respect to the Notes would be effective.

A second election that can sometimes be made with respect to an interest in a PFIC is a mark-to-market election. This election would be available if the Notes are regularly traded on an exchange that the IRS determined to be qualified for these purposes. Although the Issuer believes that each Class of Notes will be listed on a qualified exchange, the Notes will only be considered to be regularly traded for any calendar year during which they are traded, other than in *de minimis* quantities, on at least 15 days during each calendar quarter. No assurance can be made, and no representation is being given, that the Notes would be eligible for the mark-to-market election.

If a U.S. Holder properly makes the mark-to-market election, it would be required to recognise each year as ordinary income an amount equal to the excess, if any, of the fair market value of the Notes at the close of the year over the U.S. Holder's adjusted tax basis in the Notes. For this purpose, a U.S. Holder's adjusted tax basis would generally be the U.S. Holder's cost for the Notes, increased by the amount previously included in the U.S. Holder's income pursuant to this mark-to-market election and decreased by any amount previously allowed to the U.S. Holder as a deduction pursuant to this election. If, at the close of the year, the U.S. Holder's adjusted tax basis exceeded the fair market value of the Notes, then the U.S. Holder could deduct any of this excess ordinary income, but only to the extent of net mark-to-market gains previously included in income. Any gain from the actual sale of the Notes would be treated as ordinary income, and any loss would be treated as ordinary loss to the extent of net mark-to-market gains previously included in income.

Regardless of whether any election is made with respect to Notes that are treated as interests in a PFIC, a U.S. Holder would have additional U.S. tax form filing requirements as a result of the investment. Because the Issuer does not expect the QEF election to be available to an investor to mitigate the effect of the PFIC provisions, and it is unclear whether the mark-to-market election would be available either, U.S. Holders should consult their own tax advisers with respect to the potentially materially adverse tax consequences arising under the PFIC provisions discussed above.

*Controlled Foreign Corporation Status.* If (i) a U.S. Holder is treated as owning, directly or through attribution, 10 per cent. or more of the combined voting power or the total value of the Issuer and (ii) 50 per cent. or more of the Issuer's combined voting power or total value is treated as being owned by United States Shareholders (as defined in the Code), then the U.S. Holder would be subject to the Controlled Foreign Corporation rules, and not the PFIC rules, with respect to the Notes. Very generally, the U.S. Holder would be required to include as ordinary income its *pro rata* share of the earnings and profits of the Issuer for each taxable year during which it held Notes. U.S. Holders would also be subject to additional U.S. tax form filing requirements. U.S. Holders that might be subject to these rules should consult their own tax advisers about their application to their particular circumstances. The attribution rules are complex and could result in a U.S. Holder being treated as a United States Shareholder in unexpected circumstances, or in the Issuer being treated as a Controlled Foreign Corporation in situations that would be hard for a U.S. Holder to determine. U.S. Holders that might be subject to these rules should consult their own tax advisers about the application of these rules to their particular circumstances, including the application of the rules in situations where it may not be possible to determine definitively whether the Controlled Foreign Corporation or PFIC rules are applicable.

### **Reporting Requirements**

There are a number of different reporting requirements that might apply to the acquisition, ownership and disposition of Notes. For example, there are special reporting rules that apply to certain acquisitions of interests in non-U.S. corporations, that apply to persons deemed to be engaged in "**Reportable Transactions**" with respect to their investments in non-U.S. corporations and that apply to investments in PFICs and controlled foreign corporations. The penalty for failing to properly comply with these reporting requirements can be very significant and may be materially adverse to an investor. U.S. Holders should consult their own tax advisers regarding any filing requirements that may be applicable to their acquisition, ownership and disposition of Notes.

**Non-U.S. Holders**

Subject to the discussion of backup withholding below and FATCA above, an investment in the Notes by Non- U.S. Holders generally will not give rise to any U.S. federal income tax to the Non-U.S. Holders, unless the income received on, or any gain recognised on the sale or other disposition of, their Notes is:

- (i) treated as effectively connected with the conduct of a trade or business in the United States; or
- (ii) in the case of gain recognised by an individual, the individual is present in the United States for 183 days or more and certain conditions are met.

Non-U.S. Holders should consult their own tax advisers about the U.S. federal income tax consequences of an investment in the Notes.

**Information Reporting and Backup Withholding**

Information reporting may apply to payments received on or in connection with the Notes unless the recipient establishes, if required, that it is not subject to the information reporting rules (such as, for example, by establishing that it is a corporation or non-U.S. Person for U.S. federal income tax purposes). Payments that are subject to these information reporting rules may be subject to backup withholding if the recipient does not provide its U.S. taxpayer identification number and otherwise comply with the backup withholding rules. Any amounts deducted and withheld would be allowed as a credit against such recipient's U.S. federal income tax, and may give rise to a refund, provided a timely return containing the required information is filed with the IRS.

**ERISA AND CERTAIN OTHER U.S. CONSIDERATIONS**

*There will be no issuance of Class A1 Notes, Class A2 Notes, Class E Notes and Class F Notes by the Issuer on the Series 2020-1 Closing Date, and the Class A3 Reset feature shall not be applicable, and any references to "Class A1 Notes", "Class A2 Notes", "Class E Notes" and "Class F Notes" (and the related class of Loan Notes and Investor Interests) and "Class A3 Reset" and any constructs, definitions and amounts related to "Class A1", "Class A2", "Class E", "Class F" and "Class A3 Reset" in this section should be disregarded. No Class A1 Swap Agreement, Class A2 Swap Agreement, Swap Collateral Account Bank Agreement or Swap Collateral Custody Agreement shall be entered into by the Issuer, and any reference to "Swap Counterparty", "Swap Collateral Account Bank", "Custodian", "Class A1 Swap Agreement", "Class A2 Swap Agreement", "Swap Collateral Account Bank Agreement" and "Swap Collateral Custody Agreement" and any related constructs, definitions and amounts in this section should be disregarded.*

The U.S. Employee Retirement Income Security Act of 1974, as amended ("**ERISA**"), and Section 4975 of the Code impose requirements on "employee benefit plans" (as defined in ERISA) subject to Title I of ERISA, "plans" subject to Section 4975 of the Code and arrangements, including individual retirement accounts and annuities, Keogh Plans and certain collective investment funds, insurance company general or separate accounts or other entities that are subject to the prohibited transaction provisions of Section 406 of ERISA or Section 4975 of the Code in which these Plans, accounts or arrangements are invested. Such entities are referred to herein as "**Plans**" and their assets, to the extent subject to ERISA or Section 4975 of the Code, are called "**Plan Assets**". ERISA also imposes general fiduciary requirements on persons who are fiduciaries of Plans subject thereto for the investment of Plan Assets, including those of investment prudence and diversification and the requirement that a Plan's investments be made in accordance with the documents governing the Plan.

Section 406 of ERISA and Section 4975 of the Code prohibit a broad range of transactions involving Plan Assets and persons (referred to as "parties in interest" or "disqualified persons", and collectively, "**Parties in Interest**") who have specified relationships with a Plan or its Plan Assets, unless a statutory or administrative exemption is available. Parties in Interest that participate in a non-exempt prohibited transaction may be subject to a penalty imposed under ERISA or an excise tax imposed under Section 4975 of the Code. Also, Plan fiduciaries that cause a plan to engage in a non-exempt prohibited transaction may be subject to liability under ERISA. The details of these prohibited transaction rules are contained in Section 406 of ERISA and Section 4975 of the Code.

Any fiduciary or other Plan investor considering whether to purchase the Class A1 Notes, the Class A2 Notes, the Class A3 Notes, the Class B Notes, the Class C Notes or the Class D Notes (individually or collectively, as the context may require, the "**ERISA Debt Notes**") with Plan Assets of any Plan should determine whether that purchase, if permitted, is consistent with its fiduciary duties and whether that purchase would constitute or result in a non-exempt prohibited transaction under Section 406 of ERISA and/or Section 4975 of the Code because any of the Issuer, the Arrangers, the Co-Arranger, the Joint Lead Managers, the Agents, the Receivables Trustee, the Loan Note Issuer, the Servicer, the Note Trustee, the Security Trustee or any other party may be or might become a Party in Interest with respect to the investing Plan and may be deemed to be benefiting from the issuance of the ERISA Debt Notes. If the Issuer, the Arrangers, the Co-Arranger, the Joint Lead Managers, the Agents, the Receivables Trustee, the Loan Note Issuer, the Servicer, the Note Trustee or the Security Trustee is a Party in Interest with respect to the prospective Plan investor, the Issuer suggests that any fiduciary or other Plan investor considering whether to purchase or hold the ERISA Debt Notes consult with its counsel regarding the availability of exemptive relief under ERISA or Section 4975 of the Code or under U.S. Department of Labor ("**DOL**") prohibited transaction class exemptions, or any other prohibited transactions exemption issued by the DOL. Certain exemptions ("prohibited transaction class exemptions" or "**PTCEs**") from the prohibited transaction rules could be applicable, depending on the type of Plan involved and the circumstances of the plan fiduciary's decision to acquire the ERISA Debt Notes. Included among these exemptions are: PTCE 84-14 (relating to transactions effected by a "qualified professional asset manager"); PTCE 90-1 (relating to transactions involving insurance company pooled separate accounts); PTCE 91-38 (relating to transactions involving bank collective investment funds); PTCE 95-60 (relating to transactions involving insurance company general accounts) and PTCE 96-23 (relating to transactions effected by an "in-house asset manager"). There is also a statutory exemption that may be available under Section 408(b)(17) of ERISA and Section 4975(d)(20) of the Code to a Party in Interest that is a service provider to a Plan investing in the ERISA Debt Notes for adequate consideration, provided such service provider is not (i) the fiduciary with respect to the Plan's assets used to acquire the ERISA Debt Notes or an affiliate of such fiduciary or (ii) an affiliate of the employer sponsoring the Plan. A purchaser of the ERISA Debt Notes should be aware, however, that

even if the conditions specified in one or more of the above-referenced exemptions are met, the scope of the exemptive relief provided by the exemption might not cover all acts that might be construed as prohibited transactions. Moreover, a Plan that purchases ERISA Debt Notes that are not denominated in Sterling may also be deemed to be purchasing any rights the Plan has to participate in the receipt of payments under a currency Swap Agreement in respect of such ERISA Debt Notes (any such participation rights, the "**Currency Swap Rights**"), in which case both the acquisition, holding and disposition of the relevant Notes and corresponding Currency Swap Rights could give rise to a prohibited transaction under Section 406 of ERISA and/or Section 4975 of the Code. However, the same administrative and statutory prohibited transaction class exemptions that would permit a Plan to acquire, hold and dispose of the ERISA Debt Notes should also permit a Plan's acquisition, holding and disposition of the Currency Swap Rights.

In addition, under DOL Regulation Section 2510-3.101, as modified by Section 3(42) of ERISA (the "**Plan Asset Regulation**"), the purchase with Plan Assets of equity interests in the Issuer could, in certain circumstances, cause the assets of the Issuer to be deemed Plan Assets of the investing Plan. This could happen, for example, if Plans acquired 25 per cent. or more of the value of any class of equity interests in the Issuer, disregarding equity interests held by (i) persons, other than Plans, that have discretionary authority or control over the assets of the entity, or that provide investment advice with respect to such assets for a fee, directly or indirectly, or (ii) any "affiliates" (as defined in paragraph (f)(3) of the Plan Asset Regulation) of the foregoing. If the assets of the Issuer were deemed Plan Assets, the Issuer and its assets would be subject to the fiduciary responsibility provisions of ERISA and the prohibited transaction provisions of ERISA and Section 4975 of the Code. Thus, if the underlying assets of the Issuer are deemed to be Plan Assets, the obligations and other responsibilities of Plan sponsors, Plan fiduciaries and Plan administrators, and of Parties in Interest, under Parts 1 and 4 of Subtitle B of Title I of ERISA and Section 4975 of the Code, as applicable, may be expanded, and there may be an increase in their liability under these and other provisions of ERISA and the Code (except to the extent (if any) that a favourable statutory or administrative exemption or exception applies). In addition, various providers of fiduciary or other services to the Issuer, and any other parties with authority or control with respect to the entity, could be deemed to be Plan fiduciaries or otherwise Parties in Interest by virtue of their provision of such services (and there could be an improper delegation of authority to such providers).

Under the Plan Asset Regulation, when a Plan's interest in an entity relates solely to separate property of an entity (such as a Currency Swap Right), such separate property is treated as a separate entity for purposes of the ERISA 25 per cent. calculation. It is possible that a Plan's investment in ERISA Debt Notes which are not denominated in Sterling could also be treated as an investment in any Currency Swap Right corresponding to such Notes. This is far from clear. However, even if a Plan were treated as investing in a Currency Swap Right, and somehow if the ERISA 25 per cent. threshold were exceeded with respect to any Currency Swap Rights, their terms are fixed, and each of the Issuer and the Transferor is not exercising any fiduciary discretion with respect to such Currency Swap Rights. Each Plan that purchases any of the ERISA Debt Notes will be deemed to acknowledge that (i) it directs the Issuer to enter into the Swap Agreement in respect of any ERISA Debt Notes which are not denominated in Sterling on its behalf and (ii) each of the Issuer and the Transferor are not acting as its fiduciaries with respect to any such Swap Agreement.

#### **Debt Notes**

The Issuer believes that the ERISA Debt Notes should be treated as debt of the Issuer for purposes of ERISA. Each purchaser or holder of such ERISA Debt Notes and any corresponding Currency Swap Rights (or any interest therein) will be deemed to have represented that either (a) (i) no part of the funds being used to pay the purchase price for those ERISA Debt Notes and any corresponding Currency Swap Rights constitutes Plan Assets of any Plan or will constitute Plan Assets while it holds those ERISA Debt Notes and any corresponding Currency Swap Rights, and (ii) that it is not, and for so long as it holds the ERISA Debt Notes and any corresponding Currency Swap Rights will not be, a Plan or (b) the purchase and holding of such ERISA Debt Notes and any corresponding Currency Swap Rights does not and will not constitute, result in or otherwise involve a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code. Any purchaser of ERISA Debt Notes and any corresponding Currency Swap Rights (or any interest therein) that is or will be an employee benefit plan that is not subject to Title I of ERISA or Section 4975 of the Code but is subject to any any federal, state or local law of the United States or non-U.S. law that is substantially similar to the provisions of Section 406 of ERISA or Section 4975 of the Code ("**Similar Law**"), will be deemed to represent that its purchase and holding of those ERISA Debt Notes and any corresponding Currency Swap Rights do not and will not violate any such Similar Law or subject the assets of the Issuer to any such Similar Law.

Without limiting the foregoing, the ERISA Debt Notes and any corresponding Currency Swap Rights may not be purchased or held by any Plan, or any person investing Plan Assets of any Plan, if any of the Issuer, the Arrangers, the Co-Arranger, the Joint Lead Managers, the Agents, the Receivables Trustee, the Loan Note Issuer, the Servicer, the Note Trustee, the Security Trustee or any of their respective affiliates (a) has investment or administrative discretion with respect to the Plan Assets used to effect the purchase; (b) has authority or responsibility to give, or regularly gives, investment advice with respect to the Plan Assets, for a fee and pursuant to an agreement or understanding that the advice (1) will serve as a primary basis for investment decisions for the Plan Assets and (2) will be based on the particular investment needs of that Plan; or (c) is an employer maintaining or contributing to that Plan, unless a prohibited transaction class exemption is applicable. Each purchaser or holder of the ERISA Debt Notes and any corresponding Currency Swap Rights (or any interest therein) will be deemed to have represented by its purchase and holding of the ERISA Debt Notes and any corresponding Currency Swap Rights that it is not subject to the foregoing limitation.

In addition, each purchaser and subsequent transferee of the ERISA Debt Notes and any corresponding Currency Swap Rights that is a Plan, including any fiduciary purchasing the such ERISA Debt Notes and any corresponding Currency Swap Rights on behalf of a Plan ("**Plan Fiduciary**") will be deemed to have represented by its investment that: (1) none of the Issuer, the Arrangers, the Co-Arranger, the Joint Lead Managers, the Agents, the Receivables Trustee, the Loan Note Issuer, the Servicer, the Note Trustee, the Security Trustee or their respective affiliates (each, a "**Transaction Party**") has through this Prospectus provided any investment advice within the meaning of Section 3(21) of ERISA to the Plan or Plan Fiduciary, in connection with the decision to purchase or acquire any such ERISA Debt Notes and any corresponding Currency Swap Rights; and (2) the information provided in this Prospectus will not by itself make a Transaction Party a fiduciary to the Plan.

**Accordingly, the Issuer suggests that prospective employee benefit plan investors, whether or not subject to ERISA or Section 4975 of the Code, consult with their own legal and other advisers concerning the impact of ERISA and the Code and, particularly in the case of employee benefit Plans not subject to ERISA, any additional U.S. federal, state and local law or non-U.S. law considerations, as applicable.**

**INDEX OF APPENDICES**

The appendices are an integral part of this Prospectus.

	Page
A Portfolio Information as at 30 June 2020	390
B Index of Defined Terms	399

**APPENDIX A  
PORTFOLIO INFORMATION**

The following tables show information relating to the historical performance of Accounts originated using the Originator's (or its predecessor's) underwriting criteria.

Data is provided by reference to the "**Total Portfolio**", which comprises:

- (a) all Accounts originated on or prior to the Initial Assignment Date; and
- (b) all Accounts originated after the Initial Assignment Date via sales channels made available by Retail Partners which, as of the Series 2020-1 Closing Date, are Allowed Retail Partners (save that, in the case of Accounts originated via sales channels made available by Amazon, only Accounts which are part of the "Amazon Platinum" product line are included in the Total Portfolio).

Accounts originated after the Initial Assignment Date via sales channels made available by Retail Partners which, as of the Series 2020-1 Closing Date, are not Allowed Retail Partners (and Accounts originated via sales channels made available by Amazon which are not part of the "Amazon Platinum" product line) are not included in the Total Portfolio.

As at the 2020-1 Closing Date, the Securitised Portfolio will comprise substantially all of the Accounts within the Total Portfolio, save that it is not anticipated that any of the Accounts within the Total Portfolio which are originated via sales channels made available by Amazon will, as at the 2020-1 Closing Date, be included within the Securitised Portfolio. If any of the Accounts within the Total Portfolio which are originated via sales channels made available by Amazon are added to the Securitised Portfolio on the 2020-1 Closing Date, it is anticipated that they would comprise a representative cross-section of such Accounts and represent a small proportion of the overall Securitised Portfolio. For the avoidance of doubt, the Transferor is not obliged to designate any Accounts which are originated via sales channels made available by Amazon (or any other Allowed Retail Partner) for inclusion in the Securitised Portfolio.

No static pool data has been provided in relation to the Total Portfolio. Static pool data may indicate a different performance profile in relation to the Total Portfolio from that which is disclosed herein.

**Receivables Yield Considerations**

The following table sets forth the gross revenues from finance charges and fees debited and accrued to accounts in the Total Portfolio, for each of the years ended 31 December 2009, 2010, 2011, 2012, 2013, 2014, 2015, 2016, 2017, 2018 and 2019 and the six months to 30 June 2020. Each table has been provided by the Originator and has not been audited. These revenues vary for each account based on the type and volume of activity for each Account. The historical yield figures in these tables are calculated on a debited and accrued basis. Collections of Receivables included in the Receivables Trust will be on a cash basis and may not reflect the historical yield experience in the table.
