Swap Agreement.

(ii) the Credit Support Balance under the Credit Support Annex (as described at paragraph 59(c)(ii) below) to the Swap Agreement shall form part of the Mortgaged Property.

(b) Substitution of Mortgaged Property:

Applicable.

The Noteholder(s) in aggregate holding at least 10 per cent. of the aggregate principal amount of the Notes outstanding may from time to time, not less than 6 months from last requested substitution, request the Company to substitute some or all of the existing Collateral with Substitute Collateral (as defined below) having in aggregate a market value, as of the time of purchase for the purposes of effecting such substitution, equal to the net sale proceeds of the existing Collateral being substituted (the "**Replaced Collateral**"), such Substitute Collateral as specified in writing by such Noteholders to the Trustee and the Company. Any such request shall include contact details for such holders and details of the proposed Substitute Collateral, together with such evidence as to their holding of Notes as the Calculation Agent considers appropriate. Upon such request by the Noteholders, the Calculation Agent shall determine whether the proposed Substitute Collateral satisfies all the conditions set out in the definition of "Substitute Collateral". If the Calculation Agent determines that the proposed Substitute Collateral does not satisfy all the conditions set out in the definition of "Substitute Collateral", it shall notify the relevant Noteholders of this in accordance with their contact details. If the Calculation Agent determines that the proposed Substitute Collateral satisfies all the conditions set out in the definition of "Substitute Collateral", it shall notify the Company and the Company shall notify all Noteholders of such request in accordance with Condition 13, and requesting that all Noteholders consider the proposed substitution and confirm their acceptance or otherwise of such substitution within five Relevant Business Days following the date that such notice is given to the Noteholders. If, by close of business in London on the fifth Relevant Business Day following the date that such notice is given, Noteholders holding a majority of the aggregate principal amount of Notes outstanding have not confirmed their acceptance of the proposed substitution, then the Company shall notify all Noteholders in accordance with Condition 13, that such proposed substitution is not to be effected. If, by close of business in London on the fifth Relevant Business Day following the date that such notice is given, Noteholders holding a majority of the aggregate principal amount of Notes outstanding have confirmed their

acceptance of the proposed substitution, then the Company shall notify all Noteholders in accordance with Condition 13, that such proposed substitution is to be effected and (notwithstanding Condition 14(a)), the Company shall effect the substitution (including, without limitation, arranging for the Liquidation Agent to sell on its behalf the Replaced Collateral at the then prevailing market price) as soon as practicable thereafter. The Trust Deed provides that the Trustee will be deemed to release from the security created pursuant to the Trust Deed the Replaced Collateral for such purpose. The purchase of any Substitute Collateral shall be funded solely by the net sale proceeds of the Replaced Collateral. Neither the Company nor the Counterparty shall have any payment obligation (other than, in the case of the Company, the obligation to apply the net sale proceeds of the Replaced Collateral) towards the purchase of such Substitute Collateral. If, for any reason, following the purchase of the Substitute Collateral any of the net sale proceeds of the Replaced Collateral remain, such remainder shall be applied by the Custodian on behalf of the Company by crediting such remainder to the Cash Account, on terms that the interest accrued from time to time on sums credited to the Cash Account shall be paid to the Counterparty under the Swap Agreement. The Calculation Agent shall, in each case without the need for the consent of the Noteholders, also adjust such of the Conditions and/or this Series Memorandum and/or request that the Swap Agreement be adjusted (including, but not limited to, in relation to any or all of the Conditions, Series Memorandum or Swap Agreement, any provision relating to or affecting the coupon payable under the Notes) in its sole and absolute discretion acting in a commercially reasonable manner to preserve the economic effects of the Swap Agreement for the Counterparty prior to any such substitution. The Noteholders shall be notified by the Company of any such substitution and adjustment in accordance with Condition 13. Upon effecting such substitution, such Substitute Collateral shall constitute Collateral and shall be held subject to Security in favour of the Trustee and the Company shall execute such further documentation as the Trustee may require in order to create such Security as a condition to such substitution.

“Substitute Collateral” means any security:

- (i) which is denominated in EUR;
- (ii) which has a maturity date not later than the Maturity Date;
- (iii) which shall be capable of being held by the

Custodian in the same manner as the Replaced Collateral;

(iv) which has a minimum rating not lower than the rating of the Securities Issuer (if applicable) of the initial Collateral as of the Issue Date and which is not subject to a negative credit watch by any of S&P, Moody's Investors Service Inc. and Fitch Ratings Ltd; and

(v) which is not, in the opinion of the Calculation Agent acting in a commercially reasonable manner, a structured finance asset (which includes, but are not limited to, cash collateralised debt obligations, synthetic collateralised debt obligations and asset backed securities).

For the purposes of Condition 7(b) all Collateral shall constitute Repayable Assets and all determinations as to the occurrence of any particular event triggering the application of Condition 7(b) shall be made by the Calculation Agent and shall be deemed final and binding in the absence of a manifest error.

Condition 4(g) (*Substitution of Mortgaged Property*) will be construed accordingly.

(c) Swap Agreement
(if applicable):

(i) The Company will enter into a swap agreement comprising the ISDA 1992 Master Agreement (Multicurrency-Cross Border) between the Company and the Counterparty (as defined below), the Schedule dated 25 April 2002, as amended and restated as of 13 February 2006, and a Confirmation dated 1 December 2011 (together, the "**Swap Agreement**").

Under the terms of the Swap Agreement, Nomura International plc (the "**Counterparty**") will pay to the Company a sum equal to the amounts of interest payable on the Notes on each Floating Rate Payer A Payment Date and the Company will pay to the Counterparty on each Floating Rate Payer B Payment Date (as set out in Annex 1 hereto) from and including 20 October 2012 an amount in EUR equal to interest payments payable on the Securities.

Amounts received by the Company on each Floating Rate Payer A Payment Date in excess of amounts needed to fund each Interest Payment may be applied by the Company in respect of any tax obligations it may have.

The Swap Agreement may be terminated in circumstances where the Notes become repayable in whole or in part prior to the Maturity Date. Subject to the terms therein, a termination amount may be payable by the Company to the Counterparty (or vice versa) (such payment being the "**Termination Payment**", as determined in the sole and absolute discretion of the Calculation Agent).

(ii) The Company and the Counterparty will enter into a

1995 ISDA Credit Support Annex (Bilateral Transfer – English Law form) (the “**Credit Support Annex**”) in the form substantially as published by the International Swaps and Derivatives Association, Inc. which shall form part of the Swap Agreement. Under the Credit Support Annex, the Counterparty will be required to post Eligible Credit Support (as such term is defined in the Credit Support Annex) if the Exposure (as such term is defined in the Credit Support Annex) of the Swap Agreement exceeds a certain level in favour of the Company. The Company will be required to return some or all of the Eligible Credit Support that the Counterparty has posted pursuant to the terms of the Credit Support Annex if the Exposure of the Swap Agreement subsequently falls below a certain level. If the Exposure of the Swap Agreement exceeds a certain level in favour of the Counterparty, the Company will be required to post Eligible Credit Support. The only Eligible Credit Support the Company may post comprise all or part of the Securities. The Counterparty will be required to return some or all of the Eligible Credit Support that the Company has posted pursuant to the terms of the Credit Support Annex if the Exposure of the Swap Agreement subsequently falls below a certain level. If the Counterparty has posted Eligible Credit Support to the Company, on the early termination date of the Swap Agreement, such Eligible Credit Support (less, where applicable, any amount required to be applied by the Company in satisfaction of its obligations in connection with the redemption of the Notes) will be returned to the Counterparty. *The foregoing summary is qualified in its entirety by the terms of the Swap Agreement. A copy of the form of Swap Confirmation is attached hereto as Annex 1.*

- 61** Details of any other additions or variations to the Conditions:
- (A) In condition 6(i) the definition of Settlement Disruption Event shall be amended so that the words “Collateral Entitlement” shall be deleted and replaced by the words “Deliverable Amount”.
 - (B) For the purposes of Condition 7(b) all Collateral shall constitute Repayable Assets and all determinations as to the occurrence of any

particular event triggering the application of Condition 7(b) shall be made by the Calculation Agent and shall be deemed final and binding in the absence of a manifest error.

In Condition 7(b) the words starting in line 5 “(regardless of any actual or implied grace period which may be applicable thereto)” shall be deleted and replaced by the words “(taking into account any actual or implied grace period which may be applicable thereto)”.

In Condition 7(b) the words starting in line 12 “or, as the case may be, in part on a *pro rata* basis” up to “that such amount is available for payment.” shall be deleted and replaced by the words “at the Early Redemption Amount specified in paragraph 15 of the Series Memorandum. No accrued interest shall be payable on such redemption in respect of any period”.

(C) In each of Condition 7(c)(i) and 7(c)(ii) the words “together with interest (if any) accrued to the date fixed for redemption” shall be deleted and the following shall be added at the end of Condition 7(c): “No accrued interest shall be payable in case of redemption pursuant to Condition 7(c)(i) or 7(c)(ii) in respect of any period”.

(D) For the purposes of these Notes only, a new Condition 7(n) shall be added as follows:

“Delivery of any Securities to which a Noteholder is entitled shall be made in accordance with the instructions of the relevant Noteholder set out in a delivery notice (a “**Delivery Notice**”) specifying an account in a Clearing System for delivery of Securities. The Company shall procure that upon presentation and surrender of a Note pursuant to this Condition the Paying Agent shall issue to the holder thereof a receipt of such Note. The Notes shall cease to be outstanding on the first day on or after the Settlement Date upon which the Company makes the Relevant Securities, or, in the case of a Collateral Restructuring Event, the Securities, available for delivery in accordance with the terms herein. If there is a Settlement Disruption Event that prevents settlement on the Settlement Date, then settlement shall be on the first succeeding day on which settlement can take place through the Clearing System unless a Settlement Disruption Event prevents settlement on each day that the

Clearing System is (or, but for the Settlement Disruption Event, would have been) open for business during the period ending 30 calendar days after the original date on which, but for the Settlement Disruption Event, settlement would have occurred. If settlement does not occur during such 30 calendar day period, the Company shall use all reasonable efforts to deliver the Relevant Securities or, in the case of a Collateral Restructuring Event, the Securities, promptly thereafter to a nominee selected by the Trustee.

If the Calculation Agent determines for any reason (including without limitation, due to any law, regulation, court order or market conditions or a Settlement Disruption Event exists) that it is impossible or illegal to deliver the Relevant Securities or the Securities, as the case may be, the Company shall give notice to the Noteholders in accordance with Condition 13 and the Company shall pay in respect of such undelivered securities, the net realised proceeds of the sale or proceeds of redemption of the Relevant Securities or the Securities, as the case may be, effected on behalf of the Company, minus the Unwind Amount, if applicable.”

- (E) In Condition 9(a) the words “together with interest (if any) thereon” shall be deleted and the following shall be added at the end of Condition 9(a): “No accrued interest shall be payable in case of redemption pursuant to Condition 9(a) in respect of any period”.

In Condition 9(a) the words “Redemption Amount” shall be deleted and replaced by the words: “Early Redemption Amount”.

- (F) For the purposes of these Notes only, a new Condition 7(o) shall be added as follows:

A “**Collateral Restructuring Event**” means, in relation to any of the Collateral forming part of the

Mortgaged Property, any change in the terms of such Collateral or any event that affects the terms of such Collateral that is not provided for under the terms of the Collateral in effect as of the later of the Trade Date and the date as of which such obligation is issued or incurred, including, but not limited to the following events:

(I) a reduction in the rate or amount of interest payable or the amount of scheduled interest accruals;

(II) a reduction in the amount of principal or premium payable at maturity or at scheduled redemption dates;

(III) a postponement or other deferral of a date or dates for either (A) the payment or accrual of interest or (B) the payment of principal or premium;

(IV) a change in the ranking in priority of payment of the Collateral, causing the subordination of such Collateral; and

(V) any change in the currency or composition of any payment of interest or principal,

as determined in the sole and absolute discretion of the Calculation Agent and notified to the Company.

For the avoidance of doubt, a Collateral Restructuring Event may occur in relation to the initial Securities and any Substitute Collateral comprising the Collateral.

5 ADDITIONAL RISK FACTORS

Termination of the Swap Agreement

In the event of an early termination of the Swap Agreement, the Counterparty may be entitled to receive a termination amount. Although the obligation of the Company to pay such termination amount in favour of the Counterparty if the Counterparty is the defaulting party or the sole affected party may be subordinated in respect to other payment obligations due by the Company (including payment under the Swap Agreement prior to termination thereof), the insolvency official of the Counterparty may challenge the validity and effectiveness of such subordination. Depending on the law and insolvency procedure applicable to a bankrupt Counterparty the insolvency court may hold the subordination of the termination payment to be ineffective and require that the Company pays the termination amount to the Counterparty with the same or even higher priority of the payments under the Swap Agreement prior to termination thereof.

Collateral Default

Noteholders are at risk for all losses and costs associated with any default, event of default or similar condition or event in connection with the collateral, including but not limited to valuation risk arising under the Swap Agreement with respect to cash flow payments to be made by the issuer of the collateral to the Company as if such cash flow payments were direct obligations of the Company.
