Covenant Commentary

The quarterly reporting for this period was received on 30 June 2015. Rental Income is collected from the tenants on a monthly basis. The ICR stands at 3.74 and so in compliance with the covenant.

The level of quarterly rent for the months of January, February and March 2015 was €11,044,004. The increase of €86,581 in respect of the quarterly rent collected in the previous quarter (€10,957,423) is due to the upward annual rent review of the rent for some of the properties. The Finance Costs have decreased by €83,199 (€3,035,044.86 in the April 2015 test date versus 2,951,846.14 in the July 2015 IPD test date). This explains the increase of the ICR levels from 3.61 to 3.74.

In accordance with the Programme, the Issuer must transfer on each Rent Payment Date from the Rent Collection Account into the Sweep Account the lower of a) the amounts standing to the credit of the Rent Collection Account on each Rent Payment Date b) the Required Transfer Amount. The Required Transfer Amount as at the July 2015 IPD was €2,953,071.72.

A semiannual statutory valuation which covered all of the properties owned by the Issuer was called in December 2014 in accordance with the Greek REICs legislation. The Issuer further called a separate Valuation, addressed to the Finance parties, for the 77 properties of this portfolio only. This report was provided to the Bondholder Agent last June and showed an updated portfolio value of €544,325,643, which explains the LTV decrease from 49.86% to 43.63%
