- (a) in the event that any withholding or deduction for any taxes, duties, assessments or government charges of whatever nature is imposed, levied, collected, withheld or assessed on payments of principal or interest in respect of the notes by Jersey, the United Kingdom, or any other jurisdiction or any political subdivision or any authority in or of such jurisdiction having power to tax, the Issuer or the Paying Agents on behalf of the Issuer shall make such payments after such withholding or deduction and neither the Issuer nor the Paying Agents will be required to make any additional payments to Noteholders in respect of such withholding or deduction;
- (b) the Issuer will confirm to the Series Dealer(s) that the Final Terms, when read in conjunction with the Base Prospectus, contains all information that is (in the context of the Programme, the issue, offering and sale of the notes) material; that such information is true and accurate in all material respects and is not misleading in any material respect; that any opinions, predictions or intentions expressed in the Base Prospectus and Final Terms are honestly held or made and are not misleading in any material respect; that the Base Prospectus and Final Terms do not omit to state any material fact necessary to make such information, opinions, predictions or intentions (in the context of the Programme, the issue and offering and sale of the notes) not misleading in any material respect; and that all proper enquiries have been made to verify the foregoing;
- (c) no person has been authorised to give any information or to make any representation not contained in or not consistent with the Base Prospectus and Final Terms or any other document entered into in relation to the Programme or any information supplied by the Issuer or such other information as is in the public domain and, if given or made, such information or representation should not be relied upon as having been authorised by the Issuer or any dealer or manager;
- no representation or warranty is made or implied by the Arranger, the Dealer, the Lead Manager (d) or any of their respective affiliates, and neither such Arranger, Dealer, Lead Manager nor any of their respective affiliates makes any representation or warranty or accepts any responsibility as to the accuracy or completeness of the information contained in the Final Terms. Neither the delivery of the Final Terms nor the offering, sale or delivery of any Note shall, in any circumstances, create any implication that the information contained in the Base Prospectus or Final Terms is true subsequent to the date hereof or the date upon which any future Final Terms (in relation to any future issue of other notes) is produced or that there has been no adverse change, or any event reasonably likely to involve any adverse change, in the condition (financial or otherwise) of the Issuer since the date thereof or, if later, the date upon which any future Final Terms (in relation to any future issue of other notes) are produced or that any other information supplied in connection with the Programme is correct at any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing the same. ## **BANK PORTFOLIO INFORMATION AS AT 30 JUNE 2014**

The following tables show information relating to the historic performance of Eligible Accounts originated using Bank of Scotland plc's and Lloyds Bank plc's underwriting criteria, respectively as at 30 June 2014. The Receivables from certain Eligible Accounts will ultimately back the notes and comprise the Receivables Trust (the "Securitised Portfolio"). As mentioned in the Base Prospectus, a member of Lloyds Banking Group may accede to the RSD as an Additional Transferor subject to certain conditions being satisfied.

## **Receivables Yield Considerations**

The following tables set forth the gross revenues from finance charges and fees billed to Accounts in the Bank Portfolio of Bank of Scotland and Lloyds Bank for each of the years ended 31 December 2005, 2006, 2007, 2008, 2009, 2010, 2011, 2012 and 2013 and for the 6 months ended 30 June 2014. These revenues vary for each account based on the type and volume of activity for each account. The historical yield figures in these tables are calculated on an accrual basis. Collections of Receivables included in Penarth Receivables Trust will be on a cash basis and may not reflect the historical yield experience shown in the following tables. For further detail, please see page 161 of the Base Prospectus. Historical yield experience of the Bank Portfolio may not be indicative of future performance of the Bank Portfolio or the Securitised Portfolio.

- (6) Average monthly finance charges includes a one off adjustment due to an accounting policy change which has reduced income by £16m in 2009, and a provision of £67m in total for the year in 2009 and £15m in total for the year in 2010 for payment protection insurance redress.
- (7) Yield has reduced since 2011 due to an improvement in the quality of the bank portfolio, driven by a general improvement in the macro environment along with management actions to improve underwriting, resulting in less yield from finance charges and default fees. This has been more than offset by an improvement in the gross charge offs over this period (see below)
- (8) Yield from Interchange has increased since 2007 as more accounts are acquired onto the Lloyds Duo product thus increasing retail expenditure through the American Express scheme which has a higher interchange rate.
- (9) All ratios are annualised

## **Delinquency and Loss Experience**

The following tables set forth the delinquency and loss experience for each of the periods shown for the Bank Portfolio of credit card accounts. The Bank Portfolio's delinquency and loss experience is comprised of segments which may, when taken individually, have delinquency and loss characteristics different from those of the overall Bank Portfolio of credit card accounts. Because the Securitised Portfolio is only a portion of the Bank Portfolio, actual delinquency and loss experience with respect to the Receivables comprised therein may be different from that set forth below for the Bank Portfolio. There can be no assurance that the delinquency and loss experience for the Securitised Portfolio in the future will be similar to the historical experience of the Bank Portfolio set forth below. For further detail, please see the Base Prospectus.

#### Notes:

(1) From 2014 Lloyds Bank Receivables Outstanding and Receivables Delinquent excludes Receivables transferred to TSB.

(2) No Receivables on accounts owned by TSB will be included in the Securitised Portfolio.

(3) Receivables outstanding represent end of period Receivables

(4) Receivables outstanding includes Principal Receivables and Finance Charge Receivables, and excludes Receivables charged off

(5) In 2007 on the Bank of Scotland Portfolio, and in 2008 on the Lloyds Bank Portfolio, a policy on repayment plans (temporary arrangements to reduce minimum payment terms) was tightened with tighter criteria applied to the acceptance of accounts onto a repayment plan and the duration of the plan fixed to a maximum of 12 months. An exercise to remove accounts on repayment plans accepted under terms preceding the tightening of criteria (when there was no maximum term and no minimum payment) commenced in 2007 on the Bank of Scotland Portfolio and 2009 on the Lloyds Bank Portfolio; this resulted in an increase in delinquencies as many of those accounts failed to meet the contractual minimum payments following removal from the repayment plans.

(6) The downward trend in the delinquency experience since 2010 can be attributed to an improvement in the overall quality of the portfolio driven by a general improvement in the macro environment along with management actions to improve underwriting, implement more proactive credit line management and the continued strict application of the tighter repayment plan criteria.

- (1) From 2014 Lloyds Bank Receivables Outstanding and Gross Charge-Offs excludes Receivables and gross charge-offs on Receivables transferred to TSB.
- (2) No Receivables on accounts owned by TSB will be included in the Securitised Portfolio.
- (3) Average Receivables outstanding includes Principal Receivables and Finance Charge Receivables, and excludes Receivables charged off.

This increased total gross charge offs which peaked mid-2009 on the Bank of Scotland Portfolio and in 2010 on the Lloyds Bank Portfolio.
- The downward trend in the charge-off experience since 2010 can be attributed to an improvement in the overall quality of the portfolio driven by a general improvement in the macro environment along with management actions to improve underwriting, implement more proactive credit line management and the continued strict application of the tighter repayment plan criteria.

## **Maturity Assumptions**

The following tables set forth the highest and lowest cardholder monthly payment rates for the Bank Portfolio during any month in the periods shown and the average cardholder monthly payment rates for all months during the periods shown, in each case calculated as a percentage of total opening monthly account balances during the periods shown. Payment rates shown in the table are based on amounts which would be deemed payments of Principal Receivables and Finance Charge Receivables with respect to the related credit card accounts.

The value of Receivables Bank of Scotland repurchased on the redesignated accounts to effect such transfer was £401,059,498 and £9,057,363 respectively. No Receivables on credit card accounts owned by TSB will be included in the Securitised Portfolio.

#### **Receivables Yield Considerations**

The following tables set forth the gross revenues from finance charges and fees billed to accounts in the Securitised Portfolio for the period from 18 October to 31 December 2008, the year ended 31 December 2009, the year ended 31 December 2010, the year ended 31 December 2011, the year ended 31 December 2012, the year ended 31 December 2013 and the half year ended 30 June 2014. Each table has been provided by Bank of Scotland. These revenues vary for each account based on the type and volume of activity for each account. The historical yield figures in these tables are calculated on an accrual basis. Collections of Receivables included in the Penarth Receivables Trust will be on a cash basis and may not reflect the historical yield experience in the table. Yield from finance charges and fees includes interest income, late fees, forex fees, credit insurance, card protection insurance, overlimit fees, cash advance fees, ATM fees, balance transfer fees and other fees related to credit cards. The yield percentage for each monthly period is calculated by dividing the sum of finance charges, fees and interchange during each monthly period by the Principal Receivables balance as of the beginning of the monthly period, then annualised by dividing the result by the number of days in each monthly period and multiplying by the number of days in the calendar year.

Volatility in the yield percentage is driven primarily by variations in the number of collection days during the performance period; the more collection days there are, the higher the value of payments received, and the higher the reported yield.

The yield during the first 24 months post account origination is low due to the introductory annual percentage rate ("APR") offers at account origination which typically offer 0% on balance transfers and/or purchases during the first 9-24 months. This trend is evident in the yields reported in the first few performance periods for accounts originated in each year from 2009 onwards.

Pre-2004 the operating environment in the UK for credit cards issuers was less competitive, and Lloyds Banking Group's acquisition strategy for the Lloyds portfolio had initial APRs at account origination which were typically higher; accordingly, the pre-2004 vintages have a slightly higher yield compared with the post-2004 vintages. The originators believe that the differential margin in yield compared to post-2004 vintages is reducing as Lloyds Banking Group's risk-based re-pricing strategy across the portfolio results in the convergence of yield over time.

In July 2007, Lloyds launched the Airmiles Duo card, taking over the Airmiles relationship from National Westminster Bank plc ("NatWest"). This product rewards credit card spend with Airmiles, and attracts a higher proportion of convenience users who are less likely to revolve a balance on an account and attract interest charges. Yield on the Lloyds originated accounts from 2007 is therefore lower than accounts originated in years prior to 2007.

Following the initial addition of £2.9 billion of Lloyds Receivables to the Penarth Receivables Trust in November 2010, overall yield for the Penarth Receivables Trust has increased, driven by higher payment rates and so have the Finance Charge Collections on the Lloyds portfolio relative to the Bank of Scotland portfolio.

Yield on accounts acquired since 2010 is lower than for previous years as a result of an improvement in the quality of new accounts acquired in these years compared to previous years. This is driven by a combination of management actions to improve underwriting, a higher concentration of full payers acquired on the reward products offered by Lloyds, and a general improvement in the macro environment.

Net losses for a performance period is calculated as Principal Receivables charged off during the performance period less recoveries received on previously charged off accounts during the performance period, all divided by the Principal Receivables balance as of the beginning of the performance period, then annualised by dividing the result by the number of days in the performance period and multiplying by the number of days in the calendar year.

Net losses during 2008 and the first few months of 2009 are lower due to the initial selection criteria for new Receivables added to the Penarth Receivables Trust which excluded accounts in the later stages of delinquency. This seasoning impact is evident in November 2010 when £2.9 billion of Lloyds Receivables were added to the Penarth Receivables Trust resulting in reduced net losses; the originators expect net losses to continue to improve in the short term as risk selection criteria remains robust.

The higher charge offs on accounts originated pre-2004 is due to Bank of Scotland originating accounts above-market volumes during 2002 and 2003 in line with Bank of Scotland's market growth strategy at the time. Since 2004, acquisition and underwriting strategies have been reviewed and substantially revised. In accordance with this revised strategy, Lloyds Banking Group has taken significant steps to reduce its acquisition of accounts, and exposure to existing accounts, in the higher risk segments of the credit cards market.

In 2008 during the economic market dislocation, there was an industry-wide deterioration in the quality of business acquired. Lloyds Banking Group undertook significant de-risking in response, with tighter cutoffs reducing volume and lower initial credit lines. This activity was undertaken in the second half of 2008 and into 2009. The originators believe that this has resulted in a significant improvement in the credit quality of accounts originated in since 2009.

Net charge offs in August 2013, January 2014 and May 2014 are negative for some vintages and below trend for others. This is due to the sale of previously charged off accounts to a third party whereby the proceeds from the sale were recorded as recoveries in the month.

Delinquencies include both Principal Receivables and Finance Charge Receivables. The 30+ days delinquency percentage for a performance period is calculated as total receivables 30 days or more past due divided by total Principal Receivables and Finance Charge Receivables as of the last day of the performance period.

Delinquencies during 2008 and the first few months of 2009 are lower due to the initial selection criteria for new Receivables added to the Penarth Receivables Trust which excluded accounts in the later stages of delinquency. This seasoning impact is evident in November 2010 when £2.9 billion of Lloyds Receivables were added to the Penarth Receivables Trust resulting in reduced net losses; the originators expect net losses to continue to improve in the short term as risk selection criteria remains robust.

In 2008 in response to the deteriorating economic environment, Lloyds Banking Group undertook significant de-risking of its portfolio, with credit lines of higher risk customers reduced and tighter cutoffs and lower initial credit lines improving the quality of new account acquisitions. This activity was undertaken in 2008 and into 2009. The originators believe that this has resulted in a reduction in delinquencies through the second half of 2009 which has continued through 2010 and into 2011.

In 2012 Lloyds Banking Group changed its charge off policy for accounts in financial difficulty where the account holder does not meet the criteria to enter a temporary reduced repayment plan. The charge off of these accounts has been accelerated to 120 days in arrears from the standard 180 days charge off policy. This has resulted in a drop in the level of delinquencies at 120 to 180 days and thus total 30+ days delinquencies.

In 2013 and into the first half of 2014 delinquencies continued to improve. A combination of the established accelerated charge off policy, robust selection criteria and the seasonal impact in July 2013 of £683m and June 2014 £593m of Principal Receivables resulted in lower delinquencies across all vintage years.

Principal payment rate for a performance period is calculated as Principal Collections received from cardholders during the performance period divided by Principal Receivables at the beginning of the performance period.

For the Bank of Scotland portfolio, pre-2004 account originations typically received higher spending rewards and attracted a higher percentage of convenience users. As a result, payment rates for this segment tend to be stronger for the pre-2004 vintage. From 2005 onwards, Bank of Scotland products have typically targeted the borrower population with more attractive lower introductory APRs instead of rewards. This strategy has reduced the average payment rate on Bank of Scotland's credit card receivables originated since 2005.

In July 2007, Lloyds launched the Airmiles Duo card, taking over the Airmiles relationship from NatWest. This product rewards credit card spend with Airmiles, and attracts a higher proportion of convenience users who pay down their balance in full each month. Payment rates for this product on the Lloyds portfolio increased not only for originations from 2007, but also for the pre-2007 vintages as some existing customers switched to the new product and changed their spending and payment behaviours to benefit from the Airmiles rewards. Payment rates have increased across all origination years from November 2010 following the initial addition of £2.9 billion of Lloyds Receivables to the Penarth Receivables Trust and have continued to increase as the quality of the portfolio has improved (including throughout the first half of 2014).
