

CSC Lien Perfect

The solution for perfect UCC filings

CSC® is proud to present CSC Lien PerfectSM, the industry's only Uniform Commercial Code (UCC) filing solution that specifically navigates users through the complexity of UCC filing rules to file accurately every time.

CSC Lien Perfect lets you file your preferred way—in hard copy, or electronically—in all 50 states and the District of Columbia. Real-time validation of jurisdictional rules ensures that you satisfy the unique requirements of every jurisdiction with a user-friendly filing interface optimized for anything-but-uniform UCC filing.

CSC Lien Perfect offers:

- **Real-time validation:** CSC Lien Perfect automatically applies the correct jurisdictional rules based on the filing type, filing office, and filing method you choose, taking the guesswork out of selecting the right UCC forms, and ensuring jurisdictional requirements are met. Draft filings are validated in real-time, based on jurisdictional rules including character limits, required fields, restricted words and phrases, and jurisdiction-specific data capture requirements.
- **Dynamic preview:** In Dual Pane mode, your UCC forms and associated exhibits appear and update on-screen as information is entered. In Form Mode, filing details can be entered directly into the form itself. Individual filings and collections of filings can be seamlessly exported to PDF at any time.
- **On-demand estimates:** The projected filing costs associated with each of your projects—including detailed fee information—can be easily exported and circulated for client review.
- **Hierarchy-based storage:** Your projects can be flexibly nested within folders to organize work product by paralegal, client, parent deal, or any convention of your choosing.

CSC Lien Perfect makes it easy to:

- Ensure that jurisdictional filing requirements are met, preventing rejections and rework
- Understand the estimated filing costs for current and potential projects
- Avoid costly mistakes associated with manually completing UCC forms
- Quickly access past projects and filings

Security:

The world's largest banks trust CSC. In fact, more than 3,000 financial institutions trust CSC largely because of our security measures. Why?

- All CSC applications and data are maintained on CSC servers in a U.S.-based ISO 27001-certified and Service Organization Control (SOC)-audited hosting environment.
- SOC 2® Type II assessments are conducted annually by third-party auditing firms for CSC.
- We employ stringent data access processes and controls and have business continuity and disaster recovery in place to ensure no interruption to your daily workflow.

We're ready to talk.

The CSC Difference:

CSC Lien Perfect is the leading UCC solution and provides the security that your clients require and that your firm should have. For over 115 years, CSC has provided compliance and governance solutions with processes and protections that comply with even the most rigorous regulations. We are the trusted partner for 90% of the Fortune 500®, nearly 10,000 law firms, and more than 3,000 financial organizations.

CSC has served the UCC community for nearly six decades. We process millions of UCC searches and filings annually and monitor millions of UCC filings for expiration or continuation. Our services include faster delivery of records and the largest database of UCC information, allowing you to stay compliant with UCC Article 9.

Do more with CSC:

- UCC searching applications
- Comprehensive UCC Portfolio Monitoring services, including corporate, debtor, and bankruptcy tracking
- Secured Party Representation services
- Tax and judgment liens
- Bankruptcy searches
- Corporate name verification searches
- Corporate document retrieval
- Civil litigation searches
- Flood determinations
- Business credit reports
- Real Property Search and Filing services
- eFiling in more jurisdictions than any other provider

A man with short brown hair and a beard, wearing a grey blazer over a blue and white striped t-shirt and brown trousers, is looking down at a tablet computer he is holding with both hands. He is standing in a modern office with large windows in the background, through which bright light is streaming. In the background, there are desks with computer monitors, stacks of papers, and a potted plant.

We're ready to talk.
